CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
PROCLAMATIONS/RECOGNITIONS
Agenda Item No: 6.A.
National Aviation Day

1. **Agenda Item:**
   Presentation of Proclamation Recognizing August 19, 2026, as National Aviation Day in the City of Edinburg. [Eddie Velarde, Director of Aviation]

2. **Description:**
   National Aviation Day was established in 1939 by Franklin Delano Roosevelt's presidential proclamation designating the birthdate of aviation pioneer Orville Wright, every August 19th. The National Aviation Day annual observance aims to recognize the significance and impact aeronautics has had on the world. Aviation takes Edinburg to the world, and it brings the world to Edinburg, all through transportation, commerce, education, and continuing development. Remember: A mile of road will take you a mile, but a mile of runway will take you anywhere.

   The Edinburg City Council would like to recognize August 19, 2026, as National Aviation Day in the City of Edinburg.

3. **Staff's Recommendation:**
   Present Proclamation recognizing August 19, 2026, as National Aviation Day in the City of Edinburg.

PROCLAMATION

NATIONAL AVIATION DAY
AUGUST 19, 2026

WHEREAS, aviation has transformed global transportation, commerce, national defense, and connectivity. Aviation has also fostered cultural exchange, economic growth, and scientific collaboration while connecting communities across the United States and the world; and,

WHEREAS, the spirit of innovation and discovery has been integral to the advancement of our society, and aviation stands as a testament to human ingenuity, perseverance, and the pioneering spirit of American aviators, engineers, and aerospace workers who continue to push the boundaries of flight; and,

WHEREAS, August 19 marks the anniversary of the birth of Orville Wright, who, alongside his brother Wilbur, successfully designed, built, and flew the world's first successful motor-operated airplane; and,

WHEREAS, President Franklin D. Roosevelt first established National Aviation Day by presidential proclamation in 1939 to honor Orville Wright's birthday and to inspire public interest in aviation worldwide; and,

WHEREAS, the enduring impact of aviation upon local communities, alongside the profound economic and cultural contributions of aerospace professionals, merits nationwide recognition; and,

WHEREAS, the City of Edinburg commends the dedication, expertise, and professionalism of pilots, air traffic controllers, mechanics, aircraft manufacturers, airport operators, and all those who ensure the safety and efficiency of the skies, enabling millions to travel safely each day.

NOW, THEREFORE, THE, MAYOR AND CITY COUNCIL OF THE CITY OF EDINBURG, TX: By the power vested in them by law, do hereby proclaim August 19, 2026, as:

NATIONAL AVIATION DAY

in the City of Edinburg and encourage all residents to join in honoring the legacy of flight and celebrating the boundless possibilities of aviation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the City of Edinburg, Texas, a Municipal Corporation, to be affixed on this the 18th day of August, 2026.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
PUBLIC HEARINGS
Agenda Item No: 9.A.
Comprehensive Plan Amendment and Rezoning Request - Blanca Garcia and Roberto Garcia

1. **Agenda Item:**
Hold Public Hearing and Consider the Ordinances Providing for the Comprehensive Plan Amendment from Auto-Urban Uses to Multi-Family Residential Uses and Rezoning Request from Residential, Primary (RP) District to Residential, Multifamily (RM) District, Being Lots 47, 48, and 49, Block 4, Town of Lull, Located at 3709 Tagle Street, as Requested by Blanca Garcia and Roberto Garcia. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
This property is located at the west side of Tagle Street, approximately 145 feet north of the intersection of W. Monte Cristo Road and Tagle Street. The property is currently zoned Residential, Primary (RP) District. This district has a predominantly auto-urban character. The requested zoning is Residential, Multifamily (RM) District. This district is a high intensity residential district intended to accommodate various multifamily residential uses (2 or more dwelling units on a single lot). This property has a total frontage of 150 feet and a lot depth of 148.2 feet for a total area of approximately 0.5 acres. Currently, the property has a residential home on the lot. The applicant wants to utilize the property to develop an apartment complex.

Adjacent zoning is Residential, Primary (RP) District to the north and east, Commercial, General (CG) District to the west and Commercial, Neighborhood (CN) District to the south and east. Surrounding land uses consist of commercial uses, and single-home residential. The Future Land Use designation for this property is for Auto-Urban Uses.

On Friday, June 26, 2026, staff mailed public hearing notices to 33 neighboring property owners, and a subsequent notice was published in the local newspaper on July 29, 2026. At the time this report was prepared, staff had received two comments in opposition and none in favor. During the Planning and Zoning Meeting, one public comment was made in support of the request.

June 29, 2026, Planning staff met with City of Edinburg development departments to discuss the proposed rezoning. It was determined that the infrastructure will support the proposed development.

On July 9, 2026, the Planning and Zoning Commission recommended, with a vote of 3-1, to deny the Comprehensive Plan Amendment and the Rezoning Request.

3. **Staff's Recommendation:**
Staff recommends denial of the Comprehensive Plan Amendment from Auto-Urban Uses to Multi-Family Residential Uses and Rezoning Request from Residential, Primary (RP) District to Residential, Multifamily (RM) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

PLANNING & ZONING COMMISSION – 07/09/2026
CITY COUNCIL – 08/18/2026
DATE PREPARED – 06/29/2026

STAFF REPORT
GENERAL INFORMATION

APPLICATION: Consider the Comprehensive Plan Amendment from Auto-Urban Uses to Multi-Family Residential Uses and Rezoning Request from Residential, Primary (RP) District to Residential, Multifamily (RM) District.

APPLICANT: Blanca Garcia and Roberto Garcia

AGENT: N/A

LEGAL: Lots 47, 48, and 49, Block 4, Town of Lull.

LOCATION: Located at 3709 Tagle Street

LOT/TRACT SIZE: Lots 47, 48 and 49

CURRENT USE: Residential home

PROPOSED USE: Residential, Multifamily (RM) District

EXISTING ZONING: Residential, Primary (RP) District

ADJACENT ZONING:
North – Residential, Primary (RP) District
South – Commercial, Neighborhood (CN) District
East – Residential, Primary (RP) District and Commercial, Neighborhood (CN) District
West – Commercial, General (CG) District

LAND USE PLAN: Auto-Urban Uses

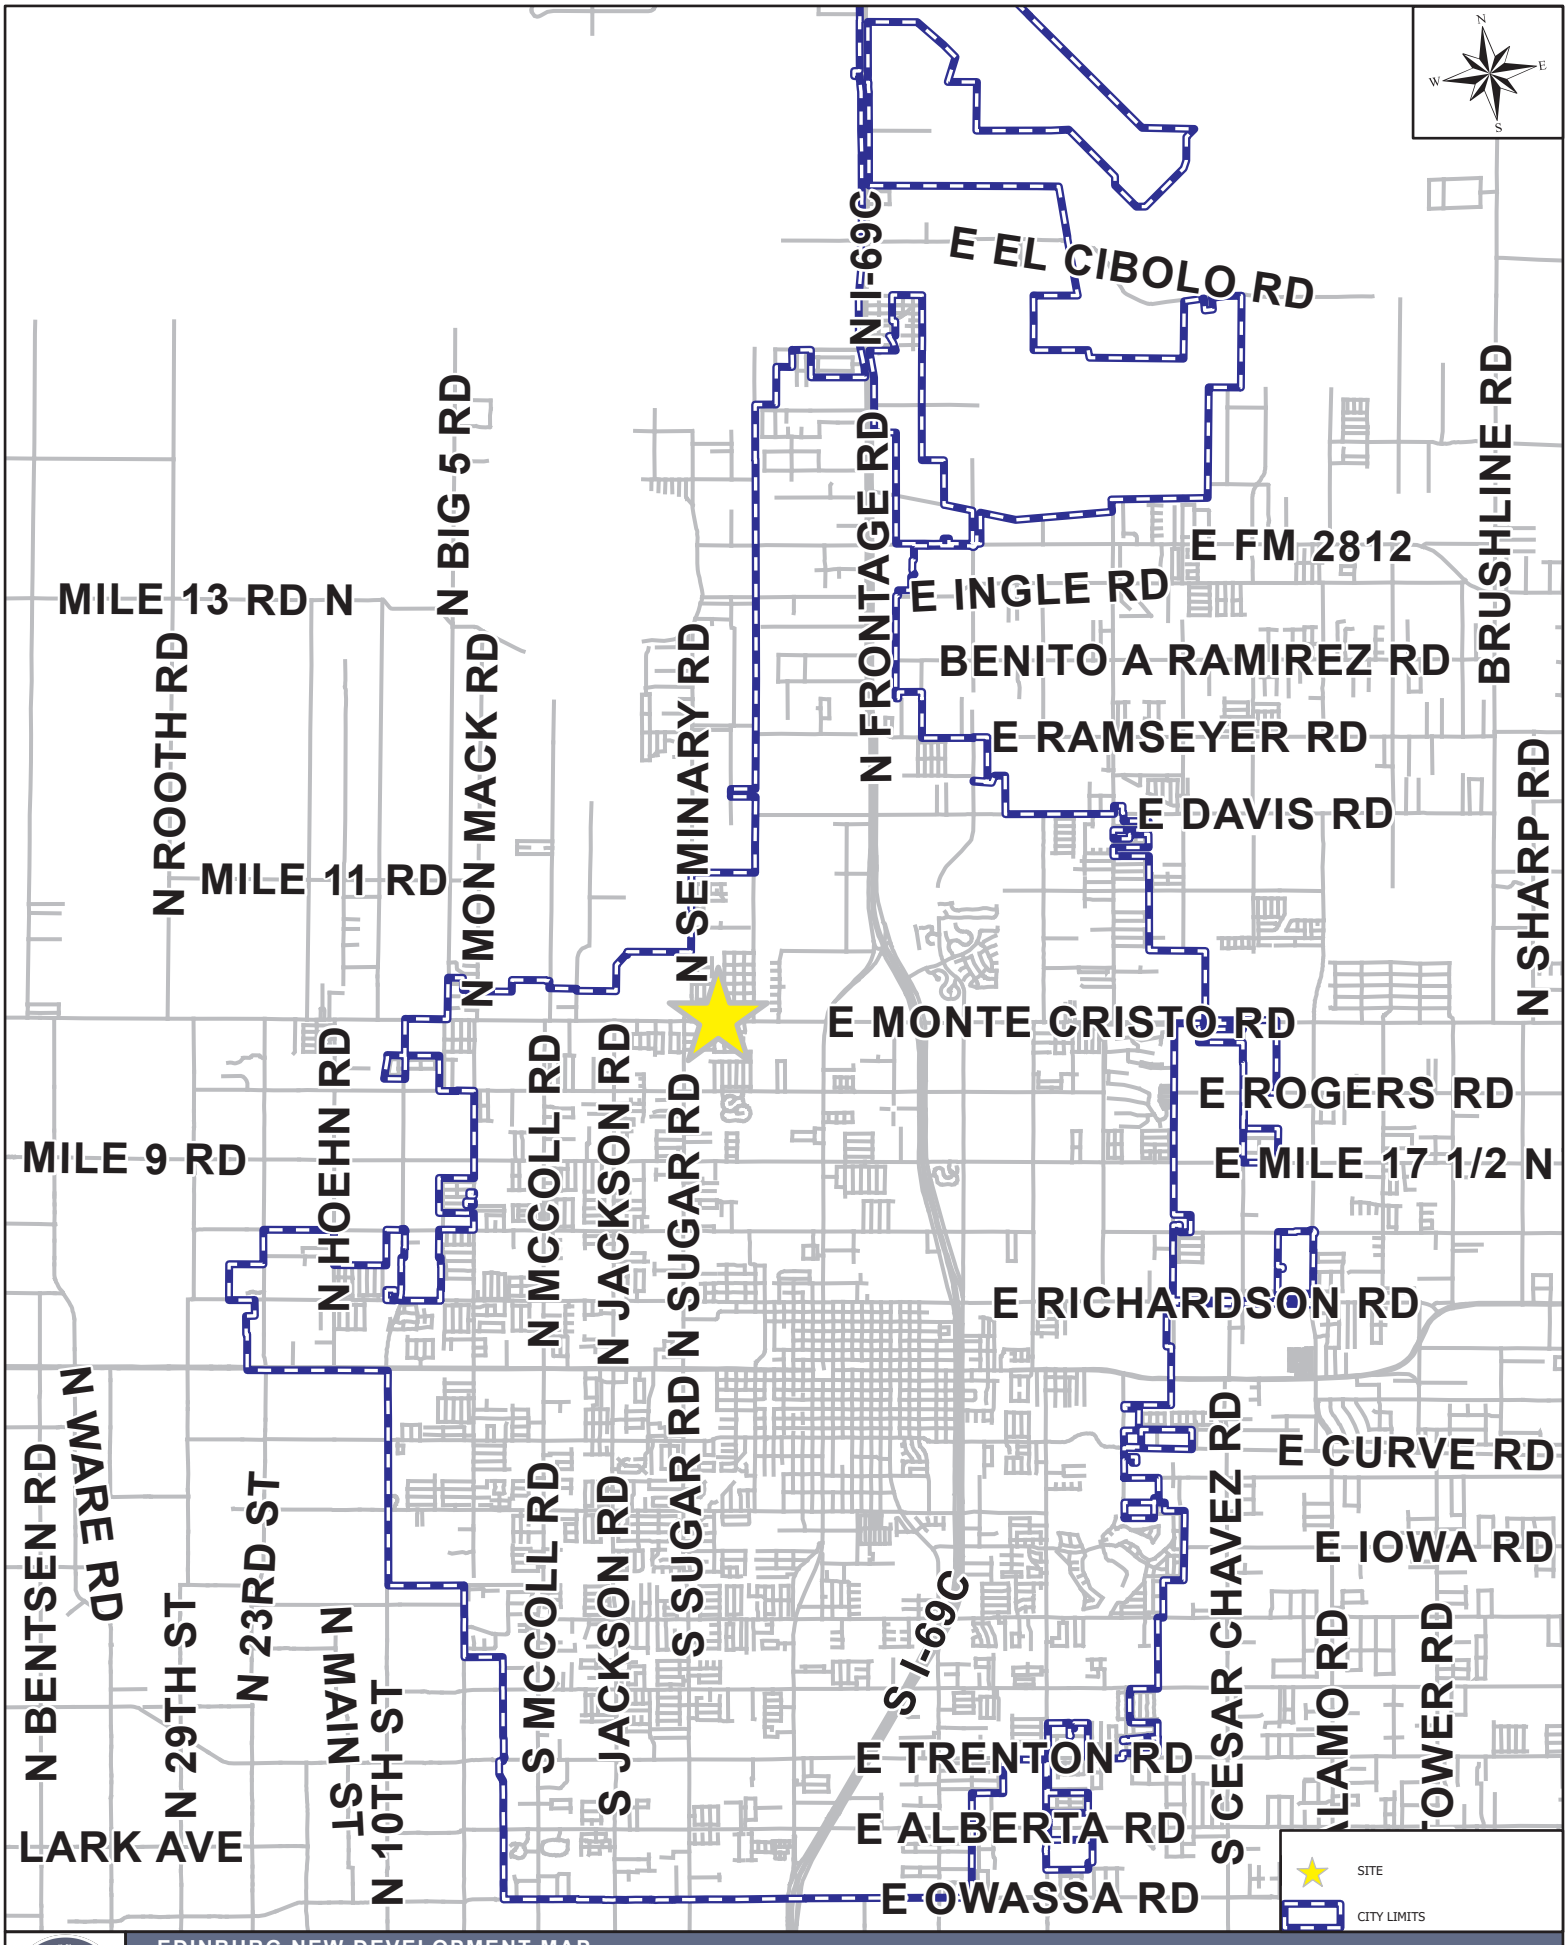
PUBLIC SERVICES: City of Edinburg Sewer and Water

RECOMMENDATION: Staff recommends denial of the Comprehensive Plan Amendment from Auto-Urban Uses to Multi-Family Residential Uses and Rezoning Request from Residential, Primary (RP) District to Residential, Multifamily (RM) District.

COMPREHENSIVE PLAN AMENDMENT
REZONING REQUEST
BLANCA GARCIA AND ROBERTO GARCIA

EVALUATION

The following is the staff's evaluation of the request:



1. The property is currently a vacant land.

2. Surrounding land consists of commercial uses, and residential homes.

3. The proposed zoning is not consistent with the Future Land Use Plan.

Staff recommends denial of the Comprehensive Plan Amendment from Auto-Urban Uses to Multi-Family Residential Uses and Rezoning Request from Residential, Primary (RP) District to Residential, Multifamily (RM) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

Staff mailed a notice of the public hearing to 33 neighboring property owners on Friday, June 26, 2026, and received no comments in favor and 2 comments against at the time this report was prepared. Notice of this public hearing was published in the newspaper on July 29, 2026.

To: planning@cityofedinburg.com

Dear Planning and Zoning Department,

I am writing to formally express my opposition to the rezoning request filed by Blanca Garcia and Roberto Garcia for Lots 47, 48, and 49, Block 4, Town of Lull, located at 3709 Tagle Street, Edinburg, TX.

My name is Adauto Robles and I am a property owner residing directly across the street from the subject property. I received notification of this request and wish to go on record as being Against this rezoning.

My concerns are as follows:

1. Neighborhood Character – The surrounding area is an established single-family residential neighborhood. Rezoning to Residential, Multifamily (RM) is inconsistent with the character of the street and would set a precedent for further high-density development in the area.

2. Traffic and Parking – Three combined lots rezoned to RM could accommodate a sizeable multi-unit building, significantly increasing vehicle traffic and on-street parking demand on Tagle Street, which is a quiet residential road.

3. Comprehensive Plan Amendment – I am also opposed to the accompanying amendment to the city's Comprehensive Plan. Changing the long-term land use designation for this property from Auto-Urban to Multi-Family Residential represents a significant policy shift that affects the entire surrounding neighborhood.

4. Direct Impact – As a resident living directly across from this property, I and my household would bear the most immediate and lasting effects of this change.

I respectfully request that the Planning and Zoning Commission deny this rezoning request and preserve the residential character of our neighborhood. I intend to attend the public hearing on July 9, 2026 to speak further on this matter.

Thank you for your time and consideration.

Sincerely,
Adauto Robles & Gilda Salazar
[1020 W Puente St, Edinburg, TX]
[(972)670-4233/(956)274-8082]

THE CITY OF Edinburg

NOTIFICATION

Dear Property Owner:

A public hearing will be held on **Thursday, July 9, 2026, at 5:30 P.M.** in the Edinburg City Hall, City Council Chambers, located at 415 W. University Drive, at which time the Planning and Zoning Commission will address the following:

CONSIDER THE COMPREHENSIVE PLAN AMENDMENT FROM AUTO-URBAN USES TO MULTI-FAMILY RESIDENTIAL USES AND THE REZONING REQUEST FROM RESIDENTIAL, PRIMARY (RP) DISTRICT TO RESIDENTIAL, MULTIFAMILY (RM) DISTRICT, BEING LOTS 47, 48, AND 49, BLOCK 4, TOWN OF LULL, LOCATED AT 3709 TAGLE STREET, AS REQUESTED BY BLANCA GARCIA AND ROBERTO GARCIA.

This district is a high intensity residential district intended to accommodate various multifamily residential uses (2 or more dwelling units on a single lot).

This request is scheduled to be heard by the **City Council on Tuesday, August 18, 2026, at 6:00 P.M.** As a property owner within 300 ft. of the subject property, you are invited to attend. Please note that meeting time (s) and date (s) are subject to change. Therefore; please call on the date of the meeting to assure that the item is on the agenda. As part of the City effort to encourage greater participation in the rezoning process, **the City is using this notice to solicit your input, but no action or response is required**. Should you have any questions or need more information regarding this notice, you may call (956) 388-8202.

You may return your response by one of the following:

MAIL: P. O. Box 1079 Edinburg, Texas 78540
FAX: (956) 292-2080 by Wednesday, July 8, 2026
EMAIL: planning@cityofedinburg.com by Wednesday, July 8, 2026

Please place a checkmark on the appropriate box to indicate if you are in favor, against, or have no comments on this request.

☐ In Favor/A Favor ☒ Against/En Contra ☐ No Comments/No Comentario

Comments: I AM A PROPERTY OWNER RESIDING DIRECTLY ACROSS FROM THIS PROPERTY. I STRONGLY OPPOSE THIS REZONING. IT IS INCONSISTENT WITH THE SINGLE FAMILY CHARACTER OF OUR NEIGHBORHOOD.

ORDINANCE NO. _____

AN ORDINANCE AMENDING, SUPPLEMENTING, AND CHANGING THE BOUNDARIES RESIDENTIAL, PRIMARY (RP) DISTRICT TO RESIDENTIAL, MULTIFAMILY (RM) DISTRICT, BEING LOTS 47, 48, AND 49, BLOCK 4, TOWN OF LULL, LOCATED AT 3709 TAGLE STREET, FROM ONE DISTRICT TO ANOTHER; PROVIDING A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING FOR CODIFICATION; PROVIDING A WAIVER OF THE THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATED TO THE SUBJECT MATTER HEREOF.

WHEREAS, the owner of the herein described real estate has submitted to the Planning and Zoning Commission of the City of Edinburg, Texas, a proposed amendment, and the proposed supplement and change to the boundaries of the Residential, Primary (RP) District, and Residential, Multifamily (RM) District as set out in the Unified Development Code of the City of Edinburg, Texas, heretofore finally passed, approved, and adopted by said City Council on the 9th day of August, 2022. Such proposed amendment is to change the zoning of all of Lots 47, 48, and 49, Block 4, Town of Lull, located at 3709 Tagle Street**,** from Residential, Primary (RP) District to Residential, Multifamily (RM) District, for a recommendation and report by said Planning and Zoning Commission; and

WHEREAS, the said Planning and Zoning Commission of the City of Edinburg, Texas, gave due notice as provided by said Unified Development Code of a public hearing to be held before said Planning and Zoning Commission, on July 9, 2026, at 5:30 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, and said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes, providing said notice by U. S. Mail to all property owners and persons rendering property for taxation within 300 feet of the property affected not less than ten (10) days before said public hearing; and

WHEREAS, after such public hearing, the Planning and Zoning Commission of the City of Edinburg, Texas, presented its report to the City Council of the City of Edinburg that they denied the change in zoning of said property, from one district to the other; and

WHEREAS, after receipt of the final report from the Planning and Zoning Commission, the City Council of said City provided due notice, as provided by said Unified Development Code to be held before said City Council, and notice was published one time in a newspaper published in the City of Edinburg, Texas, and of general circulation in said City, stating that a public hearing to consider said proposed revision would be held on August 18, 2026, at 6:00 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, which time was not less than 15 days nor more than 20 days from the date of publication, and that said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes; and

WHEREAS, having held said public hearing, it is the opinion of the City Council of the City of Edinburg, Texas that such change and revision should be made.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All requirements of the law have been met in the passing of this Ordinance.

SECTION II. The zoning of the first above-described property is hereby changed from Residential, Primary (RP) District and Residential, Multifamily (RM) District and the boundaries of said Districts are hereby amended, supplemented and changed so as to delete the said area from the said Residential, Primary (RP) District and added to the Residential, Multifamily (RM) District.

SECTION III. REPEALER CLAUSE: This Ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this Ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this Ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This Ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this Ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: This requirement of three separate readings of this Ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

ORDINANCE NO. _____

AN ORDINANCE AMENDING THE CITY OF EDINBURG COMPREHENSIVE PLAN BY DETERMINING THAT THE DEVELOPMENT FACTORS WITHIN THE CITY HAVE ADJUSTED SUCH THAT THE PROPOSED USE, ALL OF BEING LOTS 47, 48, AND 49, BLOCK 4, TOWN OF LULL, LOCATED AT 3709 TAGLE STREET, AN ADDITION TO THE CITY OF EDINBURG, HIDALGO COUNTY, TEXAS, SHOULD BE FOR MULTI-FAMILY RESIDENTIAL USES; PROVIDING A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE, PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING A WAIVER OF THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATED TO THE SUBJECT MATTER THEREOF.

WHEREAS, the Comprehensive Plan designation of the property herein described needs to be amended to provide a transition from Auto-Urban Uses to Multi-Family Residential Uses and,

WHEREAS, it appears that the development will proceed, if allowed; and,

WHEREAS, such development is not detrimental to the Auto-Urban Uses in the surrounding area; and

WHEREAS, in order to avoid exceptions to the Comprehensive Plan, it is appropriate that the Plan be changed to reflect conditions as they actually exist in Edinburg.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All Requirements To The Law Have Been Met In The Passing Of This Ordinance.

SECTION II. The Comprehensive Plan for the development of Edinburg adopted by Ordinance No. 2024-5022 on October 15, 2024 is hereby amended to provide that the property in question, would best be used and developed, because of changing conditions for Multi-Family Residential Uses. The conditions that exist are:

(1) Population growth requiring more Multi-Family Residential Uses ;
(2) Expansion and development of Multi-Family Residential Uses .

This area, because of Edinburg's growth, should be included in those portions of the city providing support to and being compatible with other similar uses, all of which are in close proximity to one another.

SECTION III. REPEALER CLAUSE: This ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the city council in passing this ordinance that its parts shall be severable and all other parts of this ordinance shall be severable and all other parts of this ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: The requirement of three separate readings of this ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
PUBLIC HEARINGS
Agenda Item No: 9.B.
Comprehensive Plan Amendment and Rezoning Request - Quintanilla, Headley & Associates, Inc.

1. **Agenda Item:**
Hold Public Hearing and Consider the Ordinances Providing for the Comprehensive Plan Amendment from Auto-Urban Uses to General Commercial Uses and the Rezoning Request from Residential, Suburban (RS) District to Commercial, General (CG) District, Being a 3.03 Acre Tract of Land Out of Lot 5, Section 244, Texas-Mexican Railway Company's Survey, Located at 725 W. Rogers Road, as Requested by Quintanilla, Headley & Associates, Inc. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
This property is located at the north side of W. Rogers Road, approximately 2,260 feet east of the intersection of N. Sugar Road and W. Rogers Road. The property is currently zoned Residential, Suburban (RS) District. This district is suburban in nature, characterized by a balance between landscape and buildings. The requested zoning is Commercial, General (CG) District. This is the primary commercial district, meant to accommodate a wide range of commercial uses, including highway service uses and community or regional commercial, office, and service uses. This property has a total frontage of 99.88 feet and a lot depth of 1,324.86 feet for a total area of approximately 3.03 acres. Currently, the property is used as a parking area. The applicant is proposing to develop a storage unit facility.

Adjacent zoning is Commercial, General (CG) District to the north, Agriculture and Open Space (AO) District to the south, Residential, Suburban (RS) District to the east and Residential, Primary (RP) District to the west. Surrounding land uses consist of single-family residential, vacant land and a school district facility. The Future Land Use designation for this property is for Auto-Urban Uses.

On Friday, July 10, 2026, staff mailed public hearing notices to 84 neighboring property owners, and a subsequent notice was published in the local newspaper on July 29, 2026. At the time this report was prepared, staff had received no comments in opposition or in favor. However, during the Planning and Zoning Meeting, two public comments were made in support of the request.

On July 13, 2026, Planning staff met with City of Edinburg development departments to discuss the proposed rezoning. It was determined that the infrastructure will support the proposed development.

On July 23, 2026, the Planning and Zoning Commission recommended, with a unanimous vote of 5-0, to approve the Comprehensive Plan Amendment and the Rezoning Request.

3. **Staff's Recommendation:**
Staff recommends denial of the Comprehensive Plan Amendment from Auto-Urban Uses to General Commercial Uses and the Rezoning Request from Residential, Suburban (RS) District to Commercial, General (CG) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with

subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

STAFF REPORT
GENERAL INFORMATION

APPLICATION: Comprehensive Plan Amendment from Auto-Urban Uses to General Commercial Uses and the Rezoning Request from Residential, Suburban (RS) District to Commercial, General (CG) District.

APPLICANT: Mauricio Paredes

AGENT: Quintanilla, Headley & Associates, Inc.

LEGAL: A 3.03 Acre Tract of Land Out of Lot 5, Section 244, Texas-Mexican Railway Company's Survey

LOCATION: Located at 725 W. Rogers Road

LOT/TRACT SIZE: A 3.03 Acre

CURRENT USE: Parking Area

PROPOSED USE: Commercial, General (CG) District

EXISTING ZONING: Residential, Suburban (RS) District

ADJACENT ZONING:
North – Commercial, General (CG) District
South – Agriculture and Open Space (AO) District
East – Residential, Suburban (RS) District
West – Residential, Primary (RP) District

LAND USE PLAN: General Commercial Uses

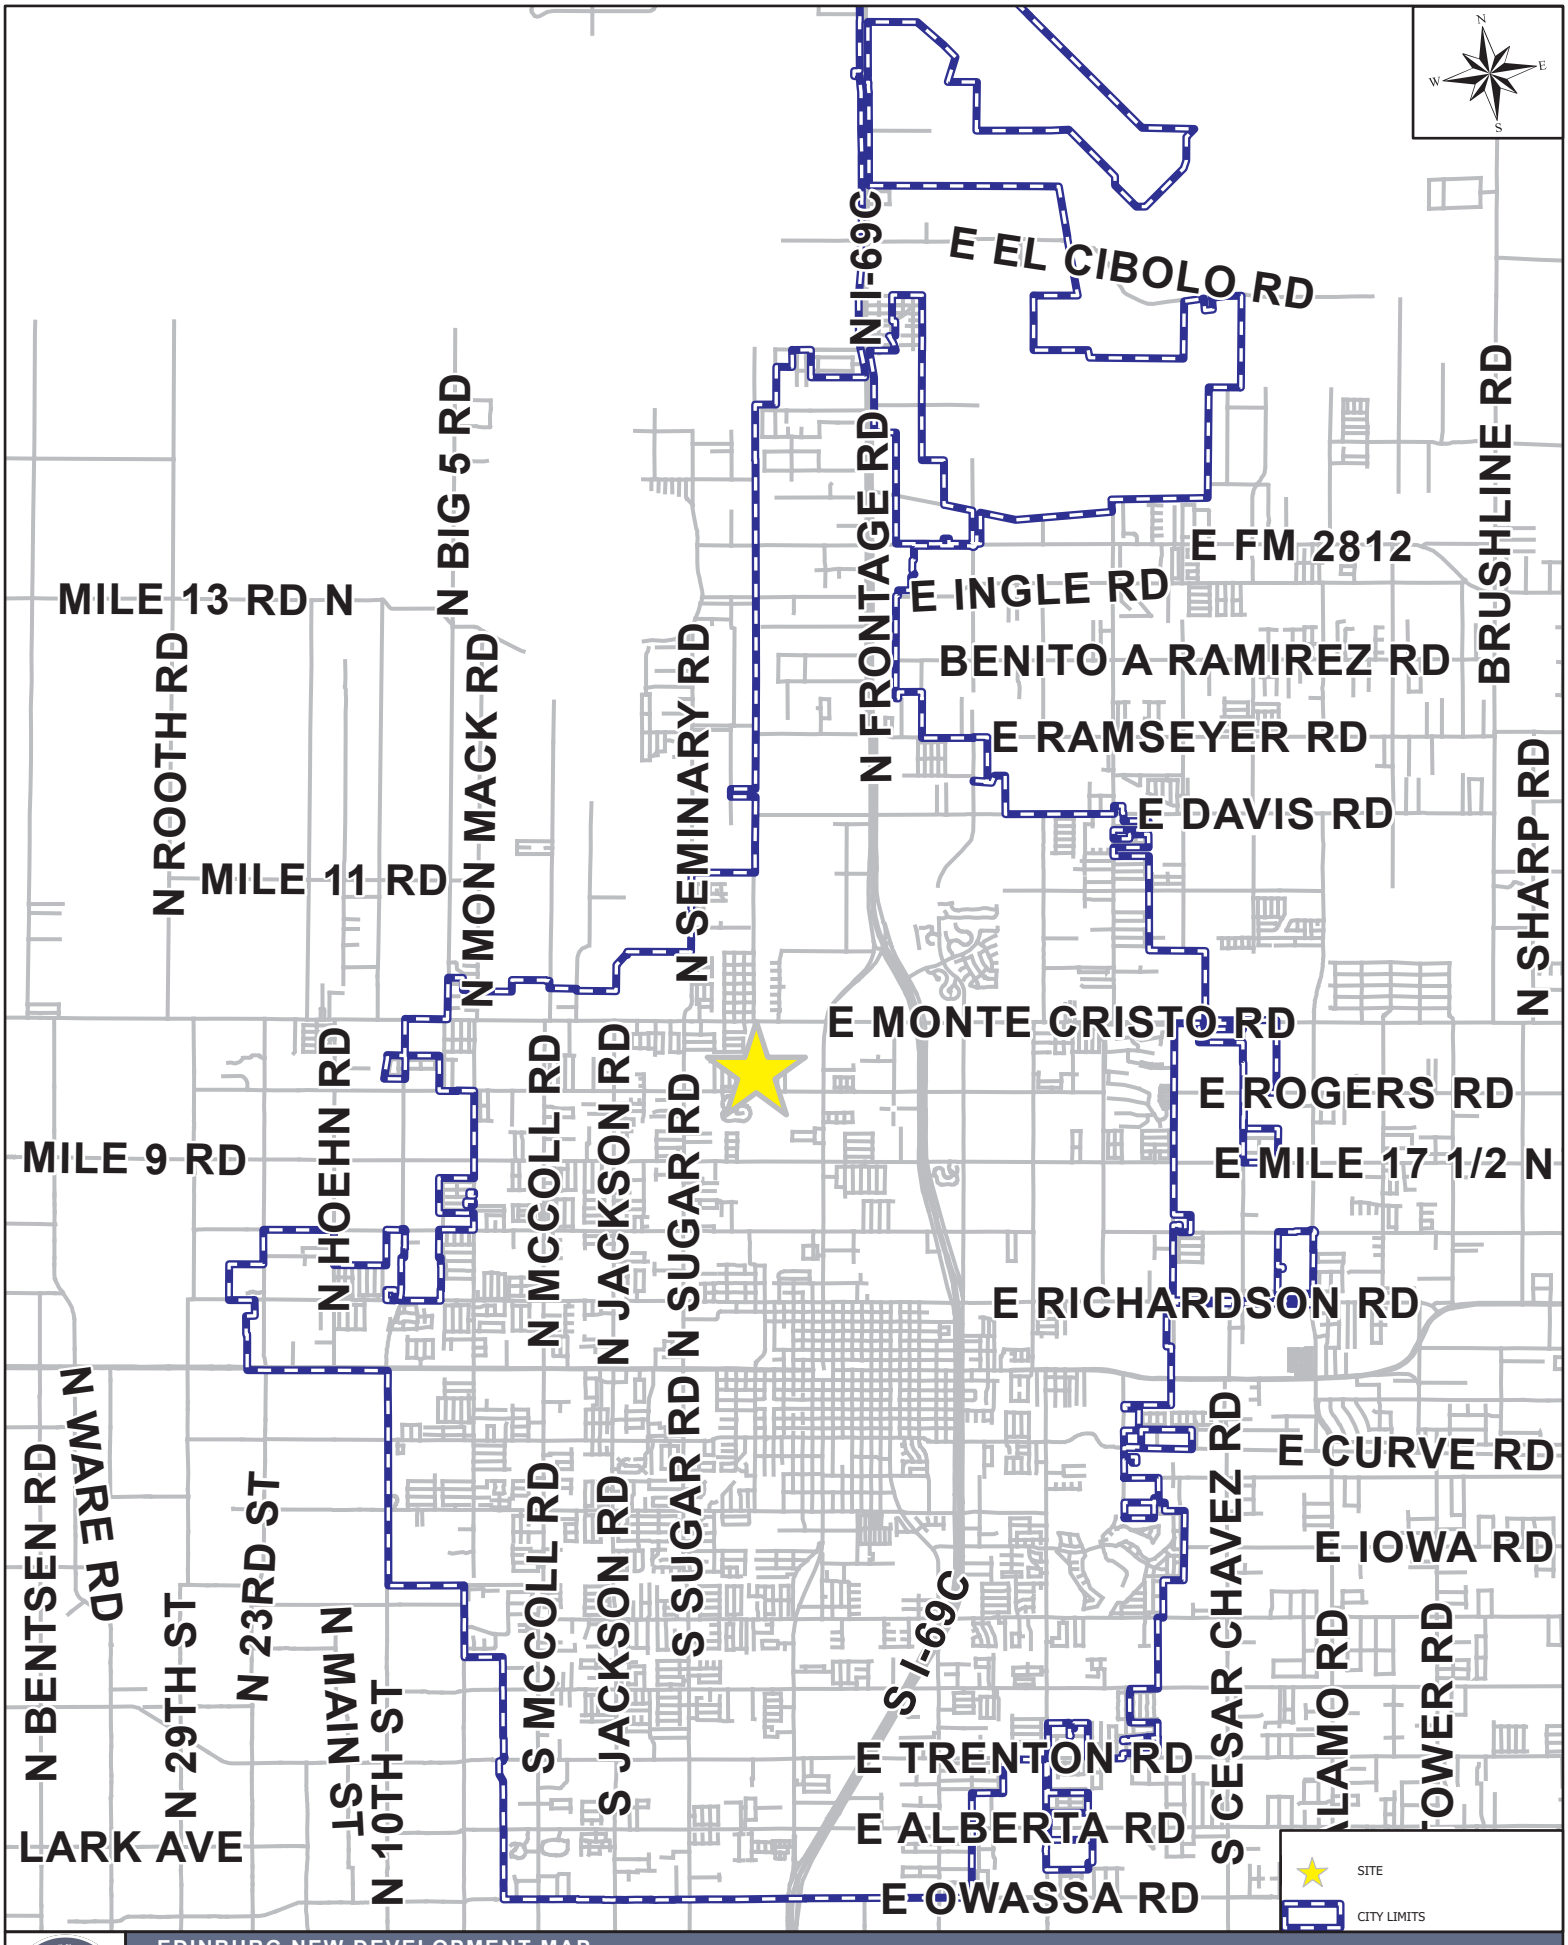
PUBLIC SERVICES: City of Edinburg Sewer and Water

RECOMMENDATION: Staff recommends denial of the Comprehensive Plan Amendment from Auto-Urban Uses to General Commercial Uses and the Rezoning Request from Residential, Suburban (RS) District to Commercial, General (CG) District.

COMPREHENSIVE PLAN AMENDMENT
REZONING REQUEST
QUINTANILLA, HEADLEY & ASSOCIATES, INC

EVALUATION

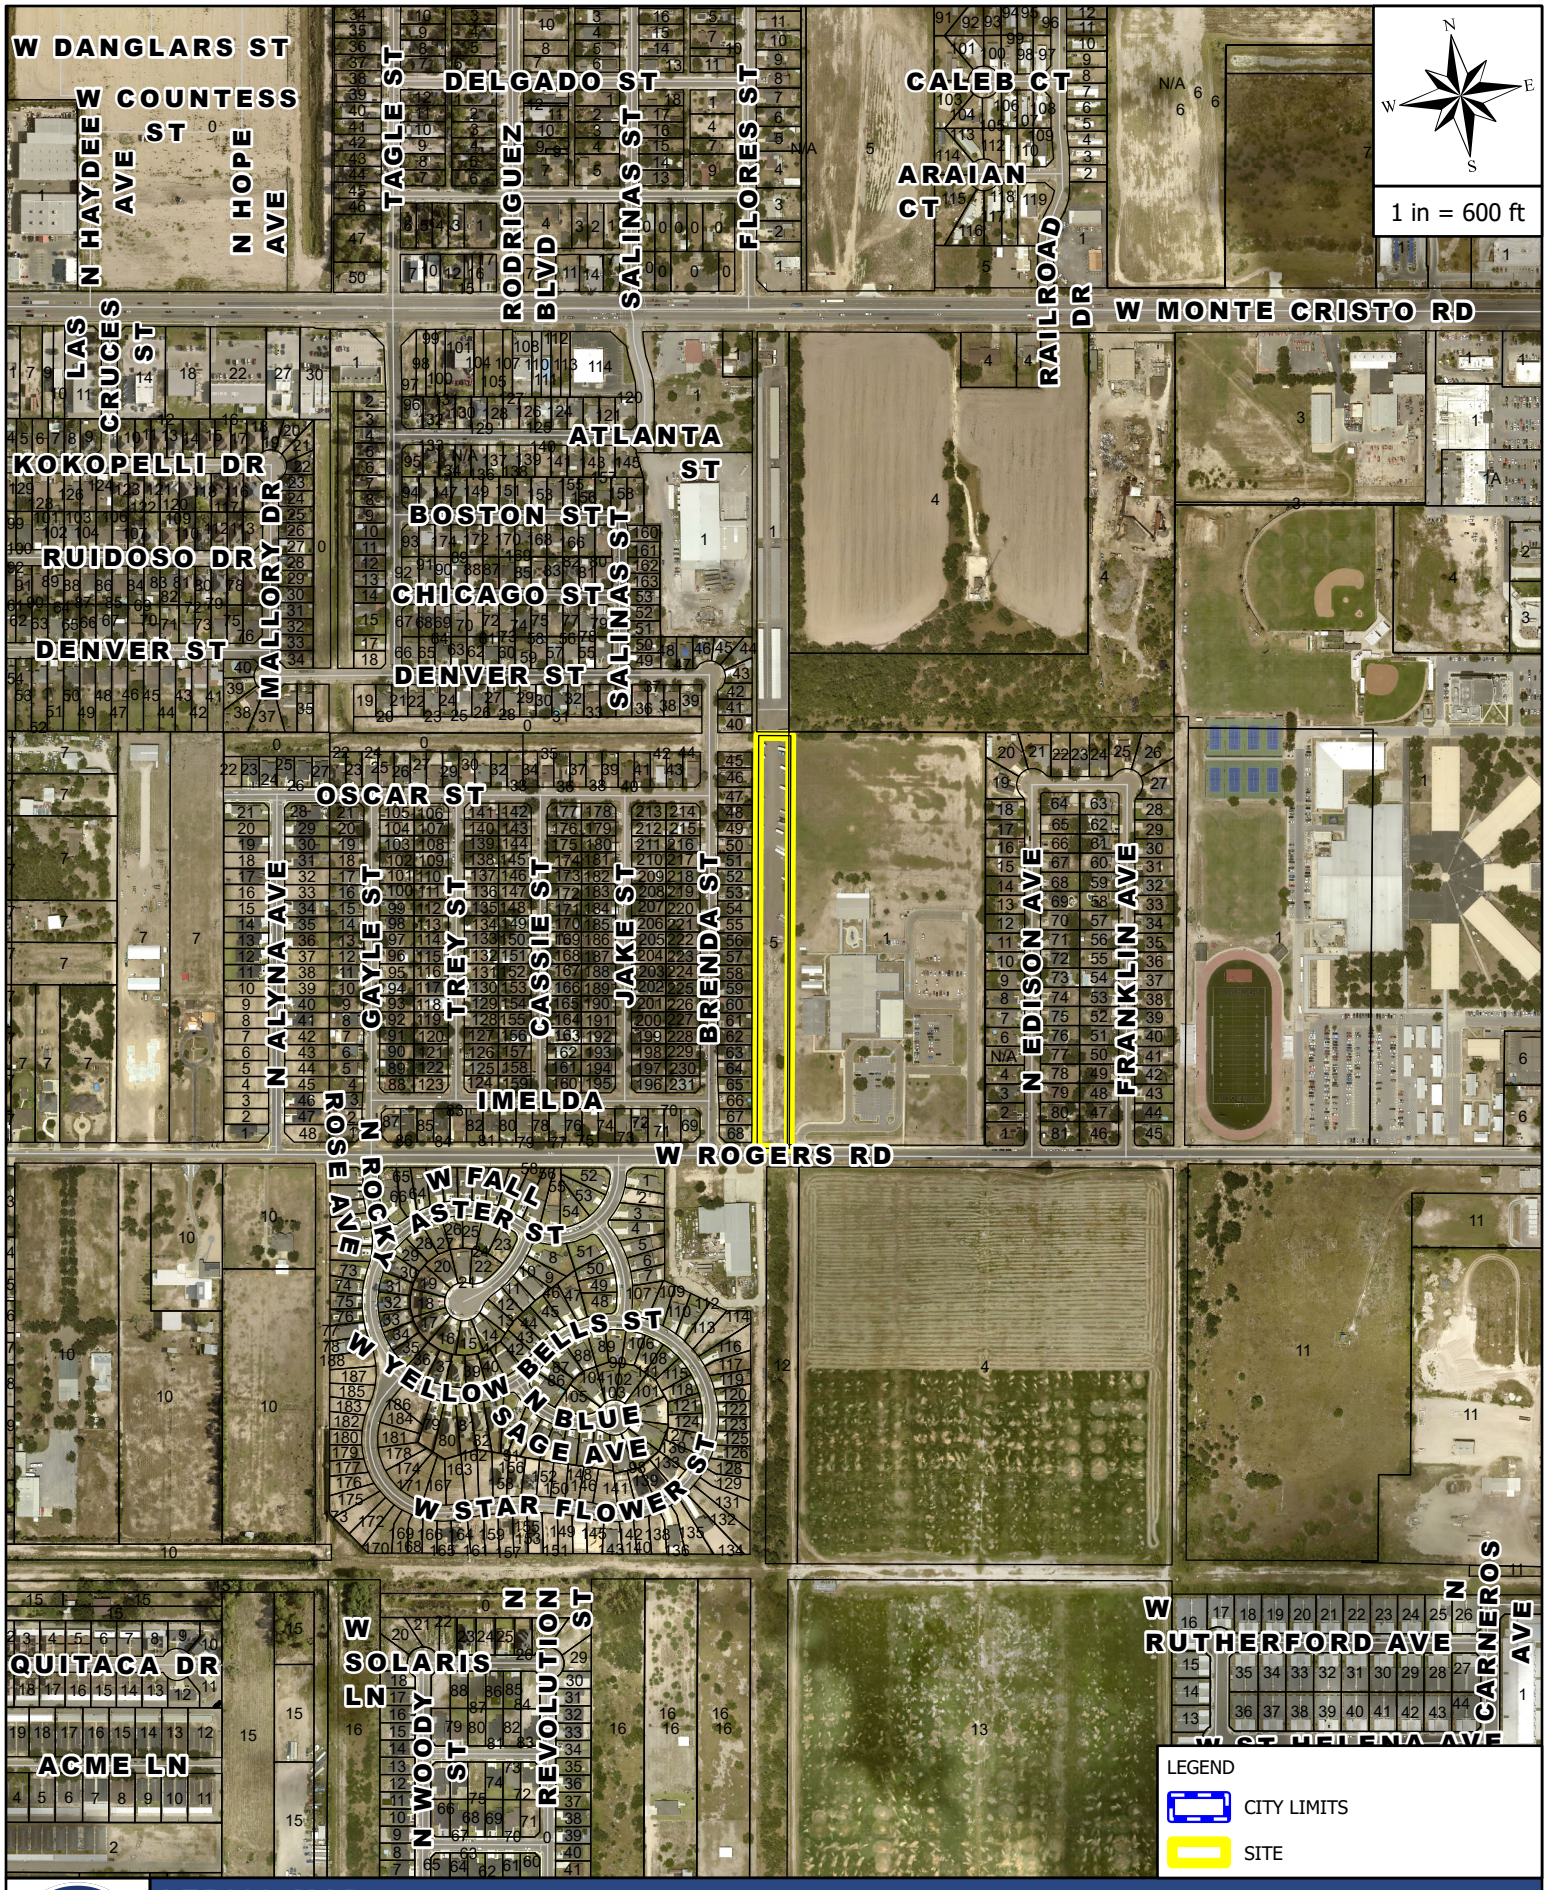
The following is the staff's evaluation of the request:



1. The property is currently a parking area.

2. Surrounding land consists of single-family residential, vacant land and school district facility.

3. The proposed zoning is not consistent with the Future Land Use Plan.



Staff recommends denial of the Comprehensive Plan Amendment from Auto-Urban Uses to General Commercial Uses and the Rezoning Request from Residential, Suburban (RS) District to Commercial, General (CG) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

Staff mailed a notice of the public hearing to 84 neighboring property owners on Friday, July 10, 2026, and received no comments in favor or against at the time this report was prepared. Notice of this public hearing was published in the newspaper on July 29, 2026.

ORDINANCE NO. _____

AN ORDINANCE AMENDING, SUPPLEMENTING, AND CHANGING THE BOUNDARIES RESIDENTIAL, SUBURBAN (RS) DISTRICT TO COMMERCIAL, GENERAL (CG) DISTRICT, BEING A 3.03 ACRE TRACT OF LAND OUT OF LOT 5, SECTION 244, TEXAS-MEXICAN RAILWAY COMPANY'S SURVEY, LOCATED AT 725 W. ROGERS ROAD, FROM ONE DISTRICT TO ANOTHER; PROVIDING A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING FOR CODIFICATION; PROVIDING A WAIVER OF THE THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATED TO THE SUBJECT MATTER HEREOF.

WHEREAS, the owner of the herein described real estate has submitted to the Planning and Zoning Commission of the City of Edinburg, Texas, a proposed amendment, and the proposed supplement and change to the boundaries of the Residential, Suburban (RS) District, and Commercial, General (CG) District as set out in the Unified Development Code of the City of Edinburg, Texas, heretofore finally passed, approved, and adopted by said City Council on the 9th day of August, 2022. Such proposed amendment is to change the zoning of all of a 3.03 Acre Tract of Land Out of Lot 5, Section 244, Texas-Mexican Railway Company's Survey, located at 725 W. Rogers Road**,** from Residential, Suburban (RS) District to Commercial, General (CG) District, for a recommendation and report by said Planning and Zoning Commission; and

WHEREAS, the said Planning and Zoning Commission of the City of Edinburg, Texas, gave due notice as provided by said Unified Development Code of a public hearing to be held before said Planning and Zoning Commission, on July 23, 2026, at 5:30 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, and said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes, providing said notice by U. S. Mail to all property owners and persons rendering property for taxation within 300 feet of the property affected not less than ten (10) days before said public hearing; and

WHEREAS, after such public hearing, the Planning and Zoning Commission of the City of Edinburg, Texas, presented its report to the City Council of the City of Edinburg that they approved the change in zoning of said property, from one district to the other; and

WHEREAS, after receipt of the final report from the Planning and Zoning Commission, the City Council of said City provided due notice, as provided by said Unified Development Code to be held before said City Council, and notice was published one time in a newspaper published in the City of Edinburg, Texas, and of general circulation in said City, stating that a public hearing to consider said proposed revision would be held on August 18, 2026, at 6:00 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, which time was not less than 15 days nor more than 20 days from the date of publication, and that said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes; and

WHEREAS, having held said public hearing, it is the opinion of the City Council of the City of Edinburg, Texas that such change and revision should be made.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All requirements of the law have been met in the passing of this Ordinance.

SECTION II. The zoning of the first above-described property is hereby changed from Residential, Suburban (RS) District and Commercial, General (CG) District and the boundaries of said Districts are hereby amended, supplemented and changed so as to delete the said area from the said Residential, Suburban (RS) District to Commercial, General (CG) District.

SECTION III. REPEALER CLAUSE: This Ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this Ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this Ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This Ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this Ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: This requirement of three separate readings of this Ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

WHEREAS, the Comprehensive Plan designation of the property herein described needs to be amended to provide a transition from Auto-Urban Uses to General Commercial Uses and,

WHEREAS, it appears that the development will proceed, if allowed; and,

WHEREAS, such development is not detrimental to the Auto-Urban Uses in the surrounding area; and

WHEREAS, in order to avoid exceptions to the Comprehensive Plan, it is appropriate that the Plan be changed to reflect conditions as they actually exist in Edinburg.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All Requirements To The Law Have Been Met In The Passing Of This Ordinance.

SECTION II. The Comprehensive Plan for the development of Edinburg adopted by Ordinance No. 2024-5022 on October 15, 2024 is hereby amended to provide that the property in question, would best be used and developed, because of changing conditions for General Commercial Uses. The conditions that exist are:

(1) Population growth requiring more General Commercial Uses ;
(2) Expansion and development of General Commercial Uses.

This area, because of Edinburg's growth, should be included in those portions of the city providing support to and being compatible with other similar uses, all of which are in close proximity to one another.

SECTION III. REPEALER CLAUSE: This ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the city council in passing this ordinance that its parts shall be severable and all other parts of this ordinance shall be severable and all other parts of this ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: The requirement of three separate readings of this ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
PUBLIC HEARINGS
Agenda Item No: 9.C.
Rezoning Request - Supreme Engineering

1. **Agenda Item:**
Hold Public Hearing and Consider the Ordinance Providing for the Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District, Being a 17.843 (17.646) Acres Out of Lot 3, Block 237 of the Texas-Mexican Railway Company Survey, Located at 3002 W. Mile 17 ½ Road, as Requested by Supreme Engineering. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
This property is located along the south side of W. Mile 17 ½ Road, approximately 150 feet west of the intersection of W. Mile 17 ½ Road and N. McColl Road. The property is currently zoned Residential, Suburban (RS) District. This district is suburban in nature, characterized by a balance between landscape and buildings. The requested zoning is Residential, Primary (RP) District. This district has a predominantly auto-urban character. It is the primary residential district, intended to permit a wide range of single-family residential uses. This property has an approximate frontage of 588 feet along W. Mile 17 ½ Road and an approximate lot depth of 1,320 feet. Currently, the property is vacant land. The applicant wants to utilize the property to develop 82 single-family residential lots.

Adjacent zoning is Residential, Suburban (RS) District to the north, and south, Residential, Primary (RP) to the north, east and west and Neighborhood, Commercial (NC) to the east. Surrounding land uses consist of residential uses. The Future Land Use designation for this property is for Auto-Urban Uses.

On Friday, June 26, 2026, staff distributed public hearing notices to 92 neighboring property owners, and a follow-up notice was published in the local newspaper on July 29, 2026. As of the preparation of this report, staff received 1 comment against and none in support of this request, and no public comments were provided during the Planning and Zoning Commission meeting.

On June 29, 2026, Planning staff met with City of Edinburg development departments to discuss the proposed rezoning. It was determined that upgrades to the infrastructure will be needed in this area to support the proposed development.

On July 9, 2026, the Planning and Zoning Commission recommended, with a unanimous vote of 4-0, to approve the Rezoning Request.

3. **Staff's Recommendation:**
Staff recommends approval of the Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

CITY COUNCIL – 08/18/2026
DATE PREPARED – 06/29/2026

STAFF REPORT
GENERAL INFORMATION

APPLICATION: Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District.

APPLICANT: DK3 Investment Group, LLC

AGENT: Supreme Engineering

LEGAL: Being a 17.843 (17.646) Acres out of Lot 3, Block 237of the Texas-Mexican Railway Company Survey.

LOCATION: Located at 3002 W. Mile 17 ½ Road

LOT/TRACT SIZE: 16.829 Acres net.

CURRENT USE: Agriculture use

PROPOSED USE: Residential, Primary (RP) District

EXISTING ZONING: Residential, Suburban (RS) District

ADJACENT ZONING: North – Residential, Suburban (RS) District and Residential, Primary (RP) District
South – Residential, Suburban (RS) District
East – Residential, Primary (RP) District and Commercial, Neighborhood (CN) District
West – Residential, Primary (RP) District

LAND USE PLAN: Auto-Urban Uses

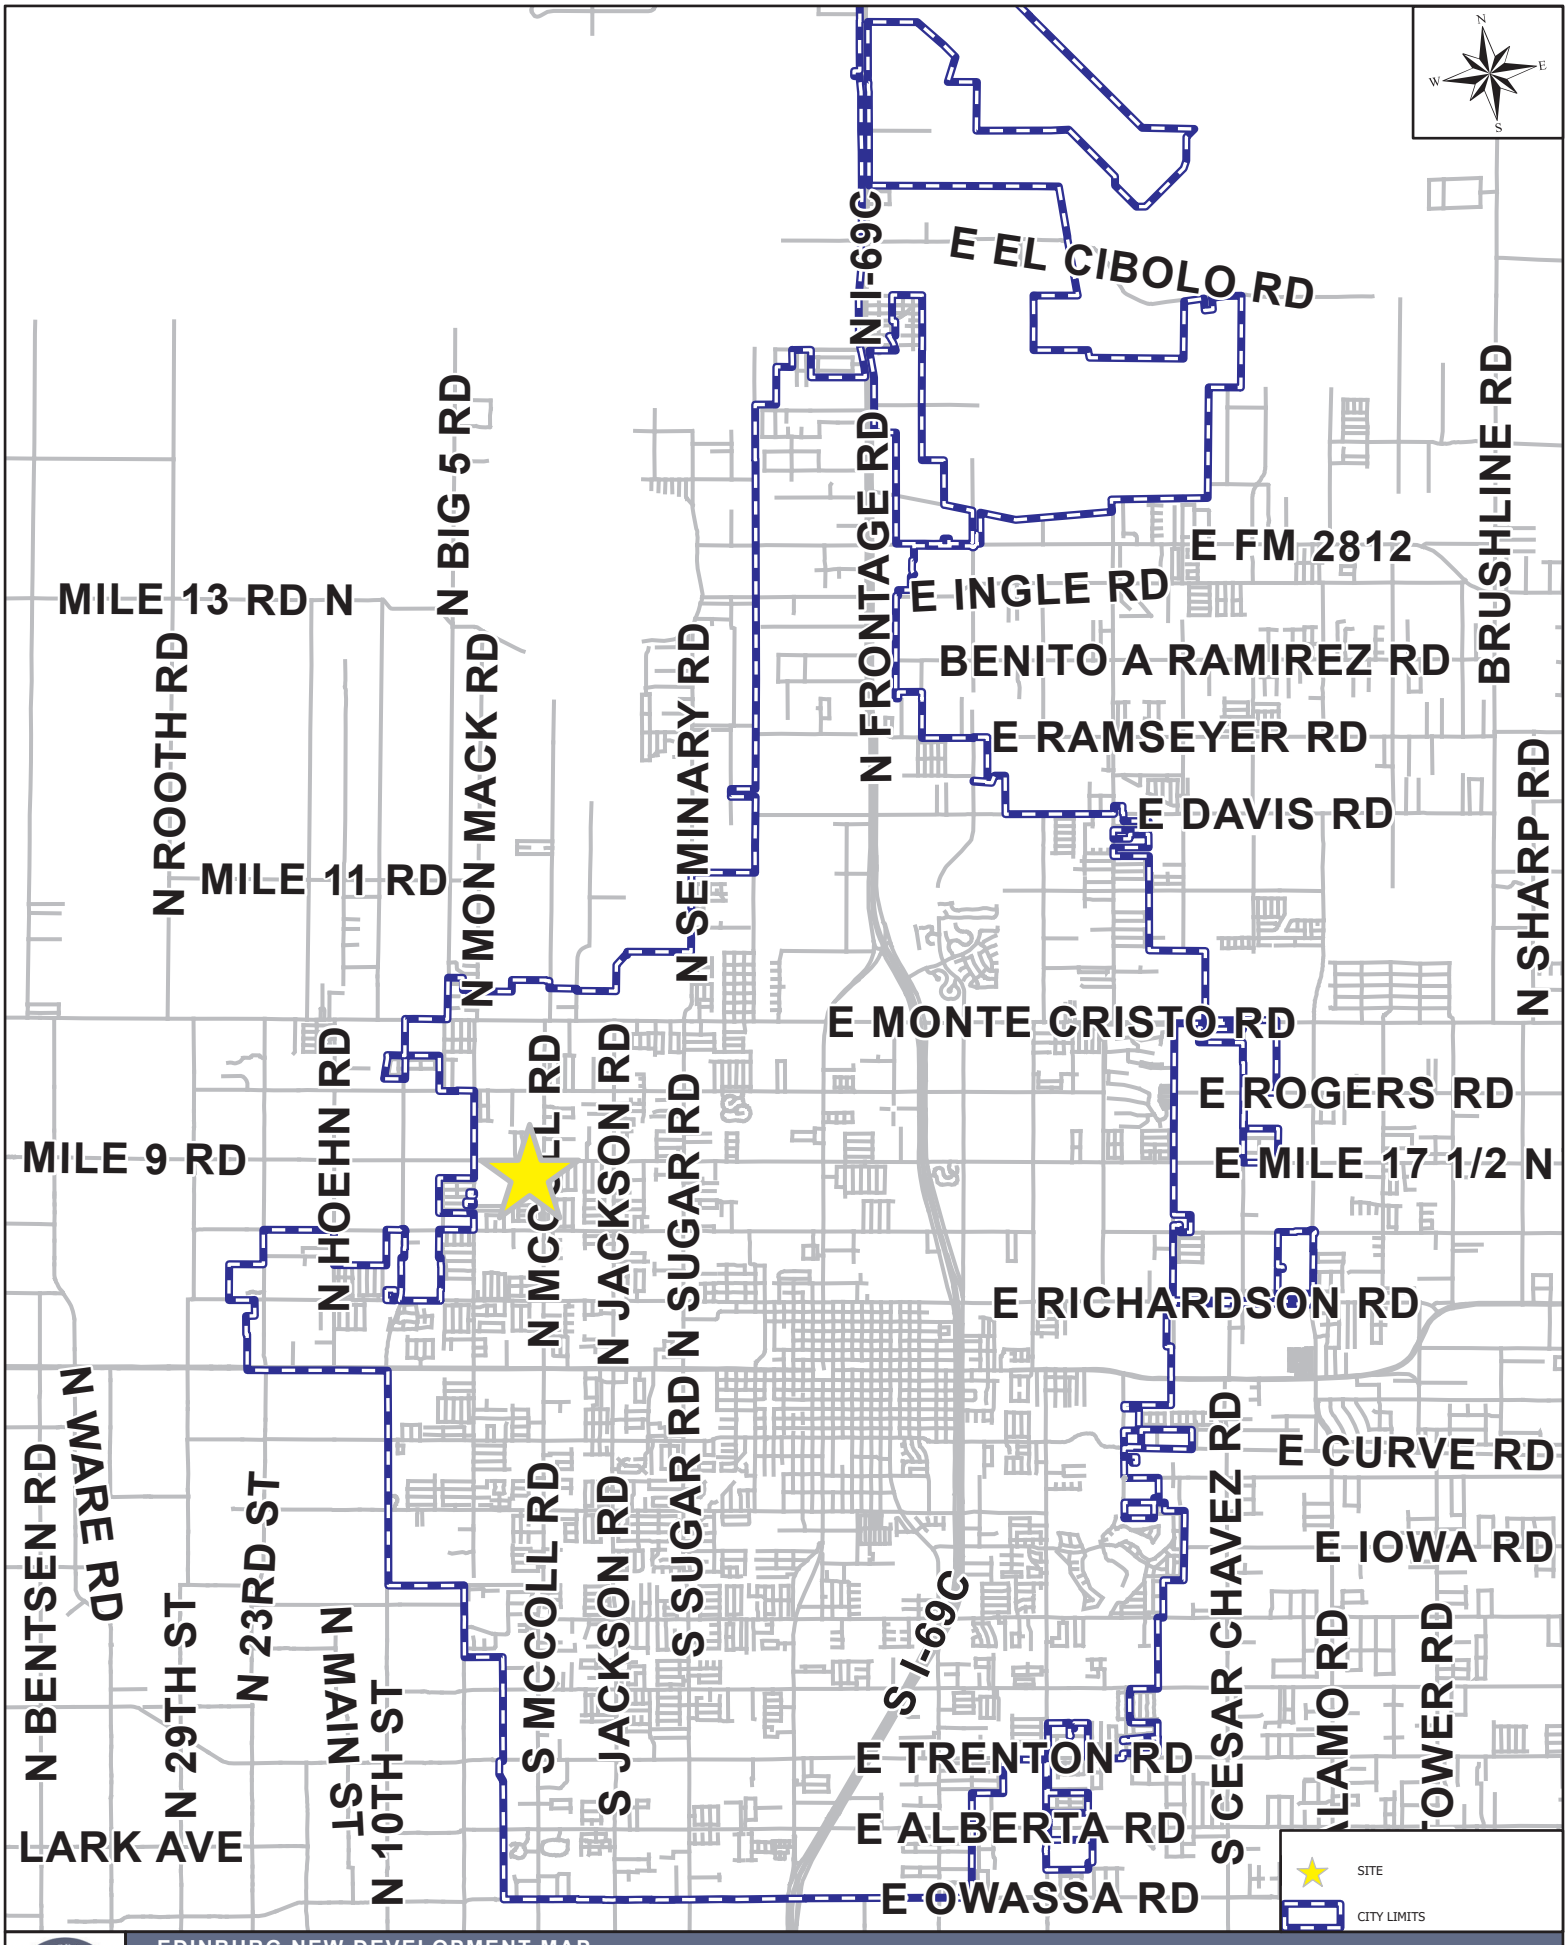
PUBLIC SERVICES: City of Edinburg Sewer and Sharyland Water Supply Corporation for Water

RECOMMENDATION: Staff recommends approval of the Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District.

REZONING REQUEST
SUPREME ENGINEERING

EVALUATION

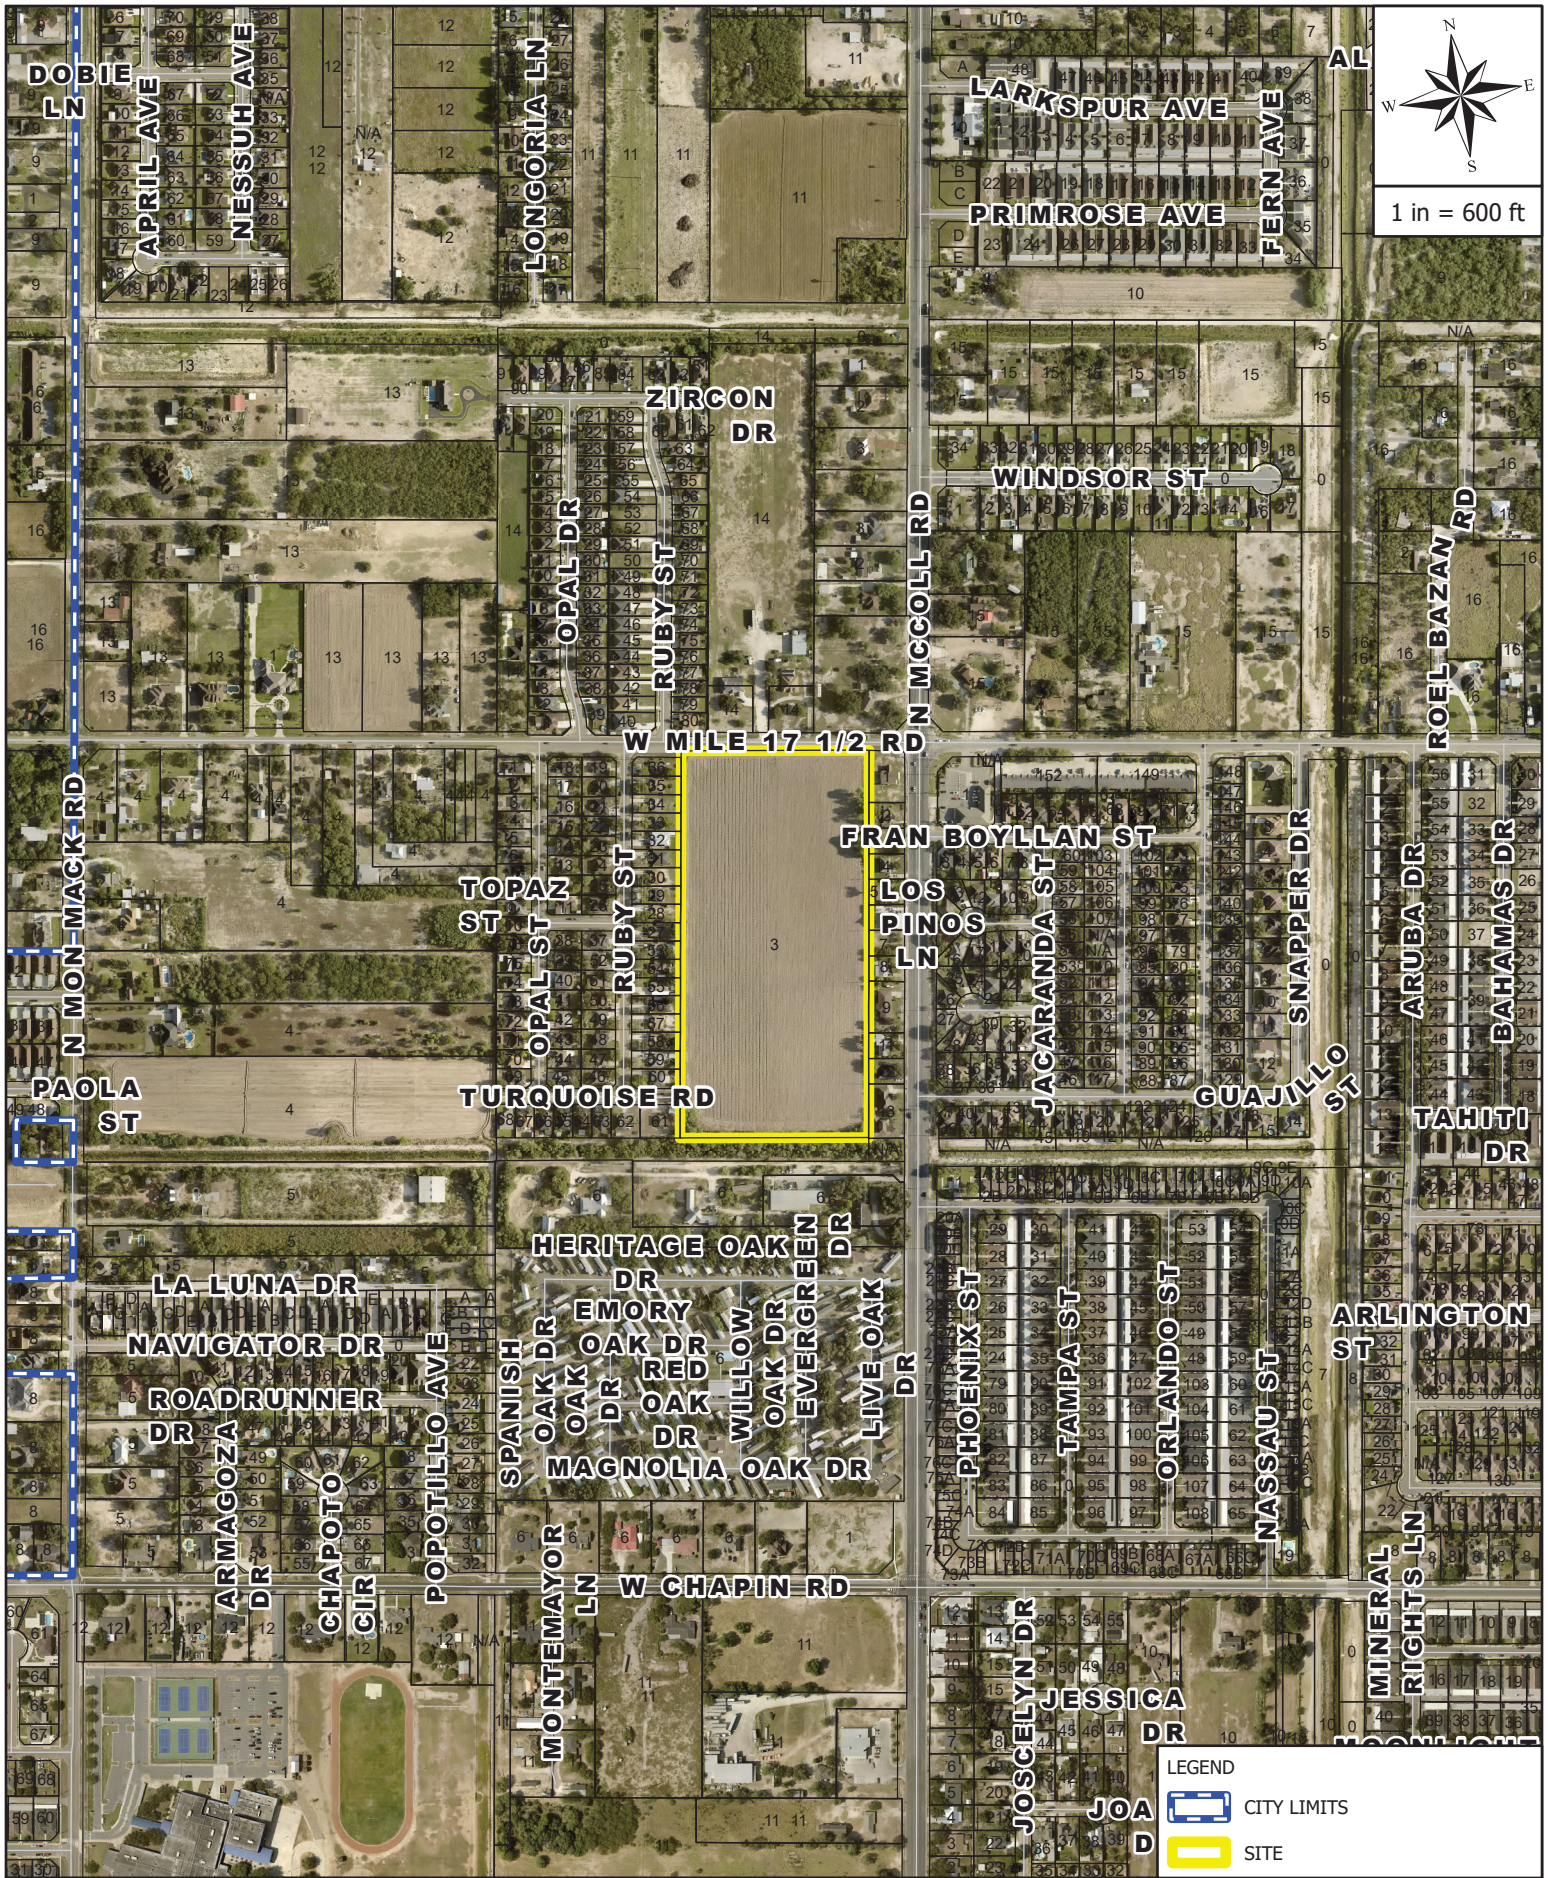
The following is the staff's evaluation of the request:



1. The property is currently a vacant land.

2. Surrounding land consists of vacant land and residential homes.

3. The proposed zoning is consistent with the Future Land Use Plan.



Staff recommends approval of the Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

Staff mailed a notice of the public hearing to 92 neighboring property owners on Friday, June 26, 2026, and received no comments in favor and 1 comment against at the time this report was prepared. Notice of this public hearing was published in the newspaper on July 29, 2026.

GENERAL SUBDIVISION PLAT NOTES

1. FLOOD ZONE STATEMENT:
   FLOOD ZONE DESIGNATION: ZONE X (SHADED)
   ZONE "X" (SHARED) AREAS OF 500-YEAR FLOOD; AREAS OF 100-YEAR FLOOD WITH AVERAGE DEPTHS OF LESS THAN 1 FOOT OR WITH DRAINAGE AREAS LESS THAN 1 SQUARE MILE; AND AREAS PROTECTED BY LEVEES FROM 100-YEAR FLOOD. ACCORDING TO THE FLOOD INSURANCE RATE MAP COMMUNITY-PANEL NUMBER 480338 0325 E, MAP REVISED MAY 17, 2021 AS PER CASE NUMBER 01-06-1095P-480338.
2. SETBACKS:
   FRONT: 25.00 FEET OR OR EASEMENT WHICHEVER IS GREATER
   REAR: 15.00 FEET OR EASEMENT WHICHEVER IS GREATER
   SIDE: 3.00 FEET OR EASEMENT WHICHEVER IS GREATER
   CORNER: 10.00 FEET OR EASEMENT WHICHEVER IS GREATER
   20.00 FEET ON ROGERS ROAD
3. NO MORE THAN ONE SINGLE-FAMILY DETACHED DWELLING SHALL BE LOCATED ON EACH LOT. THIS MUST BE STIPULATED ON ALL DEEDS AND CONTRACTS FOR DEEDS. APPLICATIONS FOR CONSTRUCTION ARE REQUIRED PRIOR TO OCCUPYING THE LOT.
4. NO COMMERCIAL USE SHALL BE ALLOWED.
5. MINIMUM FINISH FLOOR ELEVATION SHALL BE AT 18" ABOVE THE TOP OF THE STREET CROWN WHEN MEASURED AT THE CENTER FRONT OF ALL THE LOTS. ELEVATION CERTIFICATE MAY BE REQUIRED FOR LOTS LOCATED OUTSIDE A DESIGNATED FLOOD ZONE AT THE TIME FOR APPLICATION FOR CONSTRUCTION TO VERIFY FINE AND POST CONSTRUCTION FINISH FLOOR ELEVATIONS. AN ELEVATION CERTIFICATE SHALL BE REQUIRED ALL LOTS WITHIN A DESIGNATED FLOOD ZONE AT THE TIME FOR A DEVELOPMENT PERMIT APPLICATION.
6. THE FOLLOWING BENCHMARKS ARE IDENTIFIED ON THE FACE OF THE PLAT AND ON THE ATTACHED ENGINEERING PLANS.
   —>B.M. NO. 1—ELEV. 94.31 N.A.V.D. 88 DESCRIPTIONS: MAG NAIL SET ON THE EDGE OF PAVEMENT (N:16644543.4850, E:1084697.6320)
   —>B.M. NO. 2—ELEV. 93.99 N.A.V.D. 88 DESCRIPTIONS: MAG NAIL SET ON THE EDGE OF PAVEMENT (N:16644457.5170, E:1085471.9830)
7. IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT NO. 1 AND HIDALGO COUNTY REQUIREMENTS, THIS DEVELOPMENT WILL BE REQUIRED TO DETAIN A TOTAL OF ## CUBIC-FEET (## ACRE-FEET) OF STORM WATER RUNOFF. DRAINAGE RETENTION IN ACCORDANCE WITH THE LOCAL REQUIREMENTS WILL BE ACCOMPLISHED AS FOLLOWS: (SEE SHEET No. 3 FOR DRAINAGE IMPROVEMENTS).
8. NO STRUCTURE SHALL BE PERMITTED OVER ANY EASEMENT. EASEMENTS SHALL BE KEPT CLEAR OF BUILDINGS, SHEDS, SHRUBS TREES, AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18 INCHES MATURE HEIGHT, GROUND COVER, GRASS, OR FLOWERS) AND OTHER OBSTRUCTIONS THAT WOULD INTERFERE WITH THE OPERATIONS AND MAINTENANCE OF THE EASEMENT.
9. EACH PURCHASED CONTRACT MADE BETWEEN A SUBDIVIDER AND PURCHASER OF A LOT IN THIS SUBDIVISION SHALL CONTAIN A STATEMENT DESCRIBING HOW AND WHEN WATER, SEWER, ELECTRICITY, AND GAS SERVICES WILL BE MADE AVAILABLE TO THE SUBDIVISION.
10. ALL PUBLIC UTILITIES EASEMENTS DEDICATED BY THIS PLAT SHALL BE A MINIMUM WIDTH OF 15.00 FEET AS PER THE HIDALGO COUNTY MODEL SUBDIVISION RULES. BY SIGNING THIS PLAT, DEVELOPER AND ENGINEER CERTIFY THAT ALL OTHER EASEMENTS SHOWN COMPLY WITH THE SIZE REQUIRED BY EACH UTILITY PROVIDER OCCUPYING AN EASEMENT.
11. THERE ARE NO WATER WELLS WITHIN 150 FEET FROM THE BOUNDARIES ON THIS SUBDIVISION
12. ALL CONSTRUCTION SHALL COMPLY WITH STORM WATER POLLUTION PREVENTION PLAN (SW3P) REQUIREMENTS.
13. ALL LOTS SHALL HAVE A POST DEVELOPMENT FINISHED GRADE FROM THE REAR OF THE LOT TO THE CURB AND/OR ROADSIDE DITCH AT A 0.25 % SLOPE TO ACCOMPLISH POSITIVE DRAINAGE. THIS IS IN ACCORDANCE WITH HIDALGO COUNTY APPENDIX S: COUNTY CONSTRUCTION SPECIFICATIONS S1.4.
14. DIRECT DRIVEWAY ACCESS PROHIBITED ONTO MILE 17 1/2 ROAD FROM LOT 1,44,45,82.
15. DRIVEWAY FOR LOT 1,44,45,82 SHALL BE CONSTRUCTED AT NO MORE THAN 6 FEET FROM THE SOUTH PROPERTY LINE OF SAID LOT DURING BUILDING PERMIT.
16. ALL SHARYLAND WATER SUPPLY CORPORATION EASEMENTS ARE EXCLUSIVE. NO OTHER USE OF EASEMENT IS PERMITTED WITHOUT THE EXPRESS WRITTEN APPROVAL OF SHARYLAND WATER SUPPLY CORPORATION.
17. NO PERMANENT STRUCTURE, UTILITY POLE, HOLE, WALL, FENCE, DRIVEWAY, OR ROAD WILL BE ALLOWED TO BE CONSTRUCTED OR EXIST ON ANY DISTRICT EASEMENT OR RIGHT OF WAY WITHOUT WRITTEN APPROVAL BY IRRIGATION DISTRICT. ANY UNAUTHORIZED STRUCTURE WITHIN THE EASEMENT BOUNDARY IS SUBJECT TO IMMEDIATE REMOVAL AT VIOLATOR'S EXPENSE.

METES AND BOUNDS

NOTIFICATION

Dear Property Owner:

A public hearing will be held on **Thursday, July 9, 2026, at 5:30 P.M.** in the Edinburg City Hall, City Council Chambers, located at 415 W. University Drive, at which time the Planning and Zoning Commission will address the following:

CONSIDER THE REZONING REQUEST FROM RESIDENTIAL, SUBURBAN (RS) DISTRICT TO RESIDENTIAL, PRIMARY (RP) DISTRICT, BEING A 17.843 (17.646) ACRES OUT OF LOT 3, BLOCK 237 OF THE TEXAS-MEXICAN RAILWAY COMPANY SURVEY, LOCATED AT 3002 W. MILE 17 ½ ROAD, AS REQUESTED BY SUPREME ENGINEERING.

This district has a predominantly auto-urban character. It is the primary residential district, intended to permit a wide range of single-family residential uses.

This request is scheduled to be heard by the **City Council on Tuesday, August 18, 2026, at 6:00 P.M.** As a property owner within 300 ft. of the subject property, you are invited to attend. Please note that meeting time (s) and date (s) are subject to change. Therefore; please call on the date of the meeting to assure that the item is on the agenda. As part of the City effort to encourage greater participation in the rezoning process, **the City is using this notice to solicit your input, but no action or response is required**. Should you have any questions or need more information regarding this notice, you may call (956) 388-8202.

You may return your response by one of the following:

MAIL: P. O. Box 1079 Edinburg, Texas 78540
FAX: (956) 292-2080 by Wednesday, July 8, 2026
EMAIL: planning@cityofedinburg.com by Wednesday, July 8, 2026

Please place a checkmark on the appropriate box to indicate if you are in favor, against, or have no comments on this request.

ORDINANCE NO. _____

AN ORDINANCE AMENDING, SUPPLEMENTING, AND CHANGING THE BOUNDARIES RESIDENTIAL, SUBURBAN (RS) DISTRICT TO RESIDENTIAL, PRIMARY (RP) DISTRICT, BEING A 17.843 (17.646) ACRES OUT OF LOT 3, BLOCK 237OF THE TEXAS-MEXICAN RAILWAY COMPANY SURVEY, LOCATED AT 3002 W. MILE 17 ½ ROAD, FROM ONE DISTRICT TO ANOTHER; PROVIDING A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING FOR CODIFICATION; PROVIDING A WAIVER OF THE THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATED TO THE SUBJECT MATTER HEREOF.

WHEREAS, the owner of the herein described real estate has submitted to the Planning and Zoning Commission of the City of Edinburg, Texas, a proposed amendment, and the proposed supplement and change to the boundaries of the Residential, Suburban (RS) District, and Residential, Primary (RP) District as set out in the Unified Development Code of the City of Edinburg, Texas, heretofore finally passed, approved, and adopted by said City Council on the 9th day of August, 2022. Such proposed amendment is to change the zoning of all of Being a 17.843 (17.646) Acres out of Lot 3, Block 237of the Texas-Mexican Railway Company Survey, located at 3002 W. Mile 17 ½ Road, from Residential, Suburban (RS) District to Residential, Primary (RP) District, for a recommendation and report by said Planning and Zoning Commission; and

WHEREAS, the said Planning and Zoning Commission of the City of Edinburg, Texas, gave due notice as provided by said Unified Development Code of a public hearing to be held before said Planning and Zoning Commission, on July 9, 2026 at 5:30 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, and said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes, providing said notice by U. S. Mail to all property owners and persons rendering property for taxation within 300 feet of the property affected not less than ten (10) days before said public hearing; and

WHEREAS, after such public hearing, the Planning and Zoning Commission of the City of Edinburg, Texas, presented its report to the City Council of the City of Edinburg that they approved the change in zoning of said property, from one district to the other; and

WHEREAS, after receipt of the final report from the Planning and Zoning Commission, the City Council of said City provided due notice, as provided by said Unified Development Code to be held before said City Council, and notice was published one time in a newspaper published in the City of Edinburg, Texas, and of general circulation in said City, stating that a public hearing to consider said proposed revision would be held on August 18, 2026, at 6:00 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, which time was not less than 15 days nor more than 20 days from the date of publication, and that said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes; and

WHEREAS, having held said public hearing, it is the opinion of the City Council of the City of Edinburg, Texas that such change and revision should be made.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All requirements of the law have been met in the passing of this Ordinance.

SECTION II. The zoning of the first above-described property is hereby changed from Residential, Suburban (RS) District and Residential, Primary (RP) District and the boundaries of said Districts are hereby amended, supplemented and changed so as to delete the said area from the said Residential, Suburban (RS) District and added to the Residential, Primary (RP) District.

SECTION III. REPEALER CLAUSE: This Ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this Ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this Ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This Ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this Ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: This requirement of three separate readings of this Ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
PUBLIC HEARINGS
Agenda Item No: 9.D.
Sign Variance Request - MatkinHoover Engineering & Surveying

1. **Agenda Item:**
Hold Public Hearing and Consider the Sign Variance Request to the City of Edinburg Unified Development Code Article 4, Section 4.303-3, Permanent Freestanding Sign, to Allow Maximum Permitted Sign Height, Being the South 4.69 Acres of Lot "P" of the Santa Cruz Gardens Subdivision No. 2, Located at 8300 N. I-69C, as Requested by MatkinHoover Engineering & Surveying. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
The applicant is seeking a variance to Unified Development Code Section 4.303-3 regarding signage. The sign in question pertains to Quick Trip at the specified location, which is situated on the east side of N. I-69C, approximately 420 feet south of the intersection of the I-69C frontage road and E. FM 2812. The proposed freestanding sign will be positioned on the west side of the property along the I-69C frontage road, measuring 90 feet in height with a double-sided display area of 13'x15'. The property is zoned Commercial, General (CG) District, with adjacent land uses including residential, commercial, and vacant land.

Staff received a Sign Variance Application for the subject property on June 15, 2026. The applicant is requesting a variance to allow a 90-foot-tall sign, which exceeds the maximum allowable height of 60 feet along the I-69C.

Article 9, Table 9.103-1 states that a variance to a sign permit must come before the Planning & Zoning Commission in the form of a public hearing. The applicant then has an opportunity for the item be heard before City Council.

On Friday, July 10, 2026, staff mailed public hearing notices to 9 neighboring property owners, and a subsequent notice was published in the local newspaper on July 29, 2026. At the time this report was prepared, staff had received no comments in opposition or in favor of this request. However, during the Planning and Zoning Meeting, one public comment was made in support of the request.

On July 23, 2026, the Planning and Zoning Commission recommended with a unanimous vote of 5-0 to approve the approve the Sign Variance Request.

3. **Staff's Recommendation:**
Staff recommends denial of the Variance Request to the City's Unified Development Code, which includes standards aimed at preventing visual clutter that may adversely impact traffic safety, pedestrian safety, property values, business opportunities, and the overall appearance of the community. If the request is approved, the applicant must adhere to all requirements throughout the permitting process, including compliance with subdivision regulations, building and fire codes, fire protection standards, parking regulations, landscape buffer-yard requirements, solid waste services, utility regulations, and any other applicable City requirements.

GENERAL INFORMATION

APPLICATION: Consider the Sign Variance Request to the City of Edinburg Unified Development Code Article 4, Section 4.303-3, Permanent Freestanding Sign, to allow maximum permitted sign height

APPLICANT: MatkinHoover Engineering & Surveying

AGENT: Ryan Egan

LEGAL: Being the South 4.69 Acres of Lot "P" of the Santa Cruz Gardens Subdivision No. 2

LOCATION: Located at 8298 N. I-69C

LOT/TRACT SIZE: 4.69 Acres

CURRENT USE: Vacant Land

PROPOSED USE: Commercial, General (CG) District

EXISTING ZONING: Commercial, General (CG) District

ADJACENT ZONING:
North – Commercial, General (CG) District
South – Commercial, General (CG) District
East – Industrial, General (IG) District
West – Commercial, General (CG) District

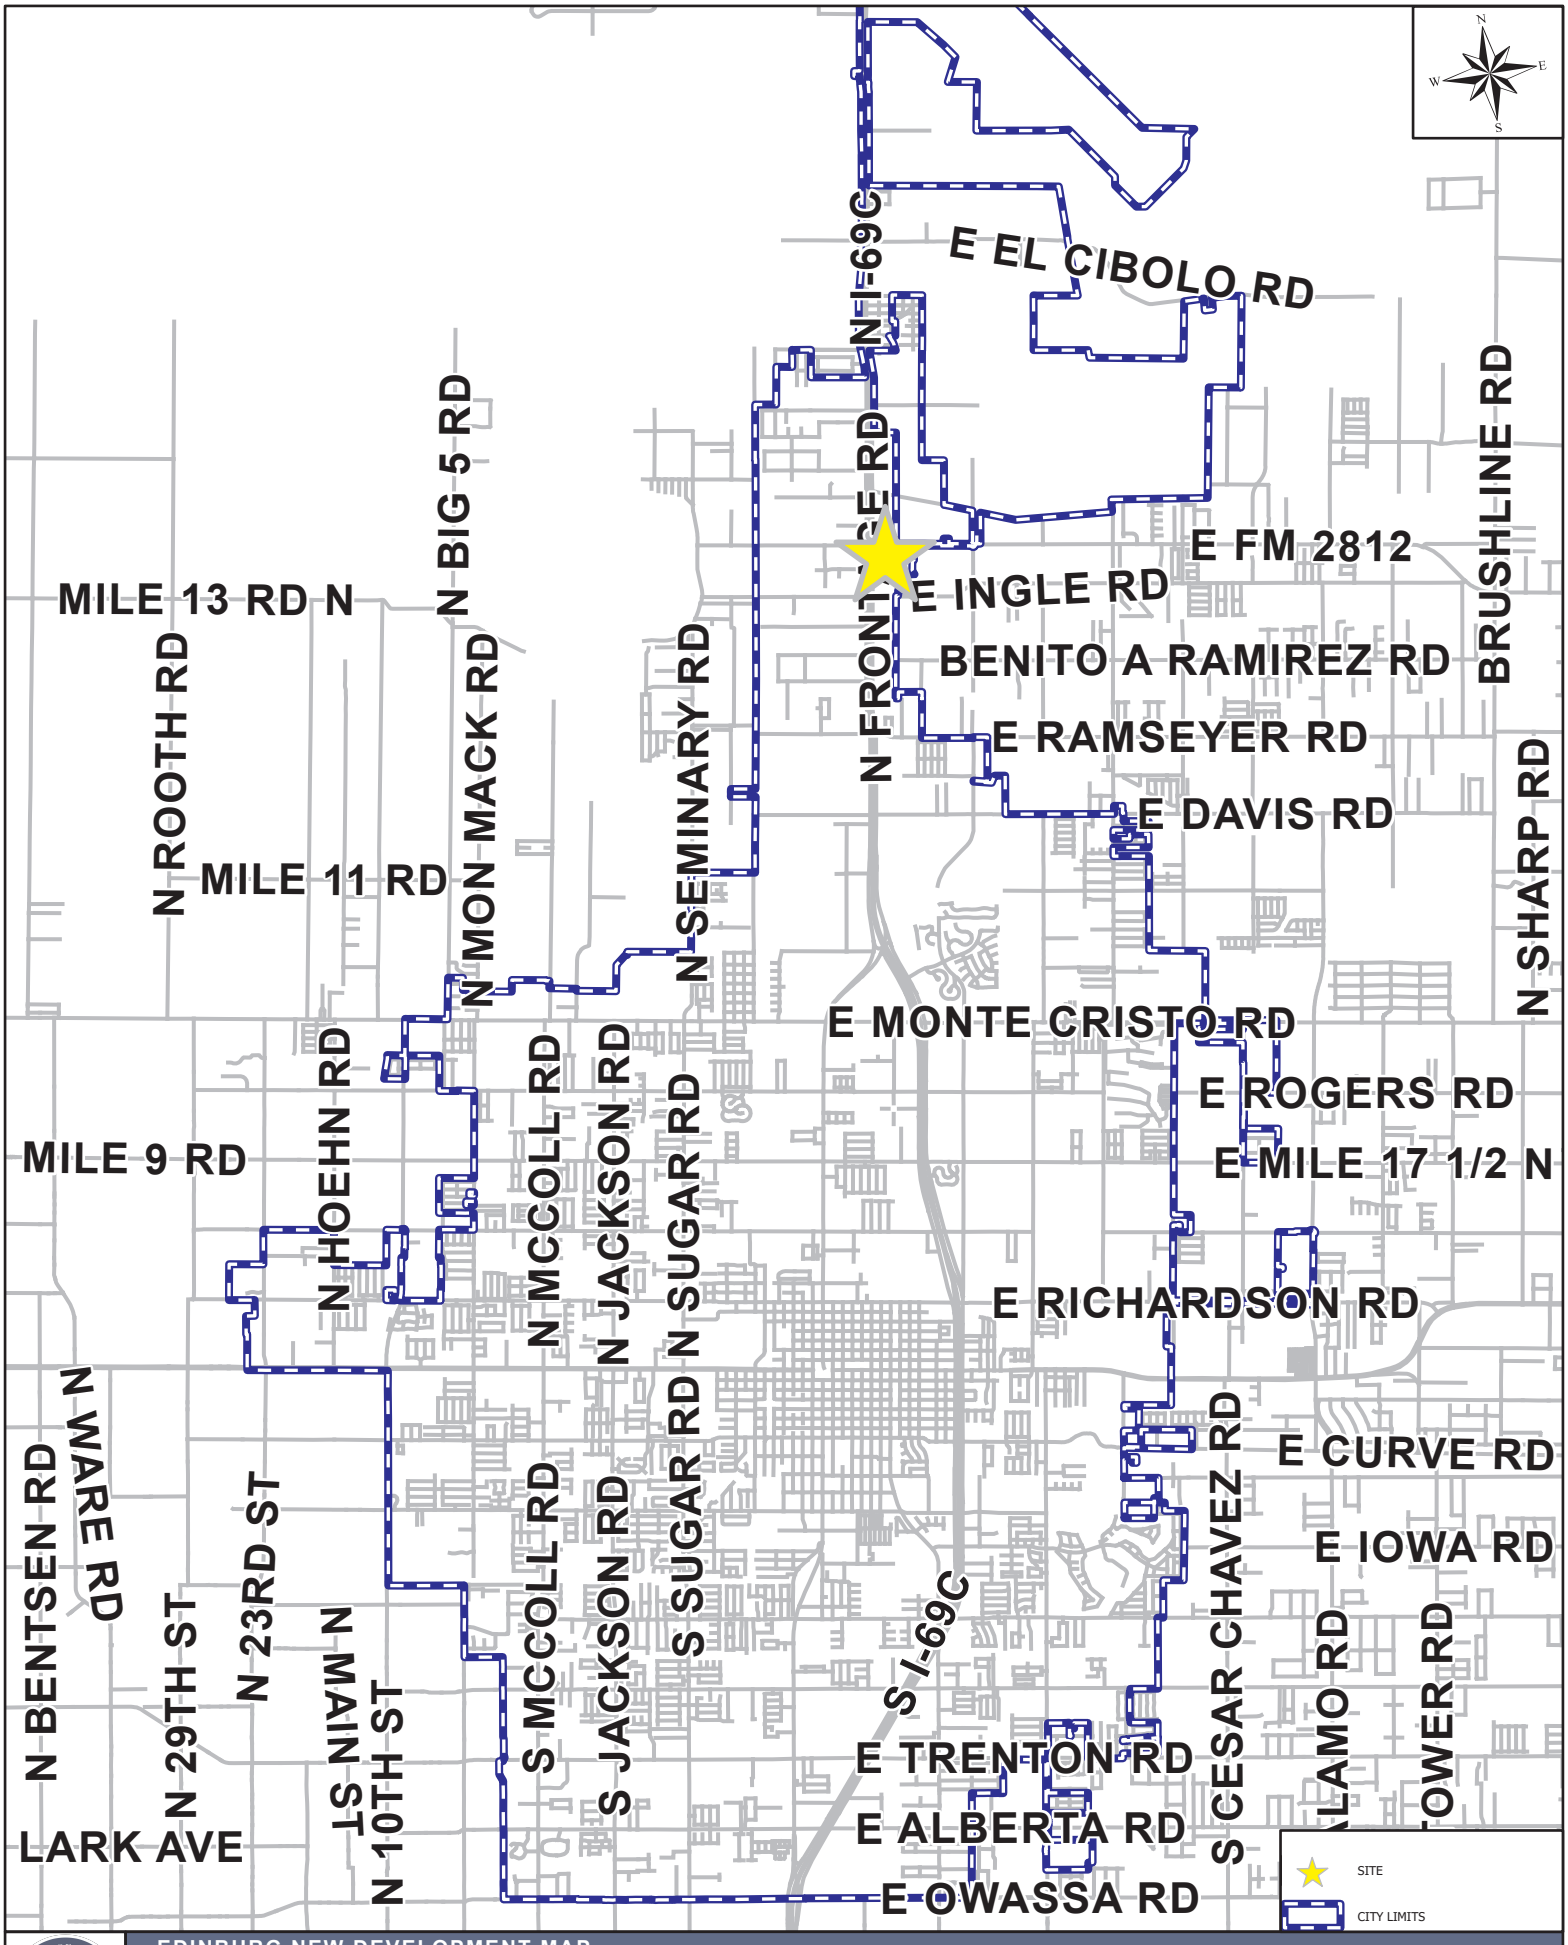
LAND USE PLAN: General Commercial Uses

PUBLIC SERVICES: City of Edinburg Sewer and Water

RECOMMENDATION: Staff recommends denial of the Variance Request to the City's Unified Development Code. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building and fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and any other City requirements, as applicable.

SIGN VARIANCE REQUEST
MATKINHOOVER ENGINEERING & SURVEYING

EVALUATION



The following is staff's evaluation of the request.

1. The sign in question is for the advertisement of Quick Trip at this location.

2. Based on Article 4, Section 4.303-3, Permanent Freestanding Sign, to allow maximum permitted height for a pole sign.

Staff recommends denial of the Variance Request to the City's Unified Development Code. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building and fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and any other City requirements, as applicable.

Staff mailed a notice of the public hearing to 9 neighboring property owners on Friday, July 10, 2026, and received no comments in favor or against at the time this report was prepared. Notice of this public hearing was published in the newspaper on July 29, 2026.

PUBLIC HEARINGS
Agenda Item No: 9.E.
Sign Variance Request - Jorge Gonzalez

1. **Agenda Item:**
Hold Public Hearing and Consider the Sign Variance Request to the City of Edinburg Unified Development Code Article 4, Section 4.303-1, Allowed Sign Type by Zoning District, to Allow a Permanent Freestanding Sign within a Prohibited Zoning District, Being Lots One (1) and Twenty-Four (24), Block One Hundred Eighty-Eight (188), Original Townsite of the City of Edinburg, Located at 320 N. Closner Boulevard, as Requested by Jorge Gonzalez. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
The applicant is requesting a variance to the Unified Development Code Article 4, Section 4.303-1 as it applies to signs. The sign in question is for the advertisement for Willie B's BBQ at this location. The property is located at the east side of N. Closner Boulevard, at the southeast corner of the intersection of N. Closner Boulevard and E. Loeb Street. The existing sign is located on the southwest corner of the property along N. Closner Boulevard. The sign is a freestanding sign that is 18 feet in height with a 10'x 5'display area with a double-sided face. The property is currently zoned Downtown (DT) District. Adjacent land uses are residential uses and commercial uses.

Staff received a Sign Variance Application for the subject property on April 28, 2026, requesting the following variance to allow an existing freestanding sign to remain in a prohibited zoning district. The City of Edinburg Unified Development Code does not allow for any freestanding sign within the Downtown (DT) District.

Article 9, Table 9.103-1 states that a variance to a sign permit must come before the Planning & Zoning Commission in the form of a public hearing. The applicant then has an opportunity for the item to be heard before City Council.

On Friday, July 10, 2026, staff mailed public hearing notices to 12 neighboring property owners, and a subsequent notice was published in the local newspaper on July 29, 2026. At the time this report was prepared, staff had received one comment in opposition and none in favor. However, during the Planning and Zoning Meeting, two public comments were made in support of the request.

On July 23, 2026, the Planning and Zoning Commission, recommended with a unanimous vote of 5-0, to approve the Sign Variance Request.

3. **Staff's Recommendation:**
Staff recommends denial of the Variance Request to the City's Unified Development Code. A freestanding sign of this nature is not allowed within the downtown (DT) District, as we strive to preserve historic architecture or maintain a cohesive, charming visual identity of the area. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building and fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and any other City requirements, as applicable.

THE CITY OF Edinburg

NOTIFICATION

Dear Property Owner:

A public hearing will be held on Thursday, July 23, 2026, at 5:30 P.M. in the Edinburg City Hall, City Council Chambers, located at 415 W. University Drive, at which time the Planning and Zoning Commission will address the following:

CONSIDER THE SIGN VARIANCE REQUEST TO THE CITY OF EDINBURG UNIFIED DEVELOPMENT CODE ARTICLE 4, SECTION 4.303-1, ALLOWED SIGN TYPE BY ZONING DISTRICT, TO ALLOW A PERMANENT FREESTANDING SIGN WITHIN A PROHIBITED ZONING DISTRICT, BEING LOTS ONE (1) AND TWENTY-FOUR (24), BLOCK ONE HUNDRED EIGHTY-EIGHT (188), ORIGINAL TOWNSITE OF THE CITY OF EDINBURG, LOCATED AT 320 N. CLOSNER BOULEVARD, AS REQUESTED BY JORGE GONZALEZ.

This is to allow the placement of a freestanding sign within a prohibited zoning district.

This request is scheduled to be heard by the City Council on Tuesday, August 18, 2026, at 6:00 P.M. As a property owner within 300 ft. of the subject property, you are invited to attend. Please note that meeting time (s) and date (s) are subject to change. Therefore; please call on the date of the meeting to assure that the item is on the agenda. As part of the City effort to encourage greater participation in the rezoning process, the City is using this notice to solicit your input, but no action or response is required. Should you have any questions or need more information regarding this notice, you may call (956) 388-8202.

You may return your response by one of the following:

MAIL: P. O. Box 1079 Edinburg, Texas 78540
FAX: (956) 292-2080 by Wednesday, July 22, 2026
EMAIL: planning@cityofedinburg.com by Wednesday, July 22, 2026

Please place a checkmark on the appropriate box to indicate if you are in favor, against, or have no comments on this request.

☐ In Favor/A Favor ☑ Against/En Contra ☐ No Comments/No Comentario

Comments: additional information is needed, would I be able to speak ~~the~~ and ask my questions to better understand this business owner's request?

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
PUBLIC HEARINGS - ROUTINE ITEMS
Agenda Item No: 10.A.
Comprehensive Plan Amendment and Rezoning Request - SAMES

1. **Agenda Item:**
Hold Public Hearing and Consider the Ordinances Providing for the Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Commercial, General (CG) District to Residential, Urban (RU) & Townhome District, Being a 1.68 Acre (73,282.70 sq. ft.) Gross, Tract of Land out of Lot 2, Section 244, Texas Mexican Railway Company Survey Subdivision, Located at 3400 N. Closner Boulevard, as Requested by SAMES. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
This property is located at the east side of Closner Boulevard, approximately 1,320 feet south of the intersection of E. Monte Cristo Road and N. Closner Boulevard. The property is currently zoned Commercial, General (CG) District. This is the primary commercial district, meant to accommodate a wide range of commercial uses, including highway service uses and community or regional commercial, office, and service uses. The requested zoning is Residential, Urban, (RU) & Townhome District. This district is the highest intensity single-family residential district. This property has a frontage of 90 feet and a lot depth of 814.85 feet for a total area of approximately 1.68 acres. Currently, the property is vacant land. The applicant wants to incorporate the subject tract into an adjacent proposed townhome subdivision.

Adjacent zoning is Residential, Urban, (RU) & Townhome District to the south and Commercial, General (CG) District to the north, east and west. Surrounding land uses consist of commercial uses, and vacant land. The Future Land Use designation for this property is for General Commercial Uses.

On Friday, July 10, 2026, staff mailed public hearing notices to 10 neighboring property owners, and a subsequent notice was published in the local newspaper on July 29, 2026. At the time this report was prepared, staff had received no comments in opposition or in favor of the request. At the Planning and Zoning Commission meeting no public comment was given.

On July 13, 2026, Planning staff met with City of Edinburg development departments to discuss the proposed rezoning. It was determined that the infrastructure must be upgraded to support the proposed development.

On July 23, 2026, the Planning and Zoning Commission recommended, with a unanimous vote of 4-0, to approve the Comprehensive Plan Amendment and the Rezoning Request.

3. **Staff's Recommendation:**
Staff recommends approval of the Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Commercial, General (CG) District to Residential, Urban (RU) & Townhome District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

STAFF REPORT
GENERAL INFORMATION

APPLICATION: Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Commercial, General (CG) District to Residential, Urban (RU) & Townhome District.

APPLICANT: Heron Villarreal and Sylvia Villarreal

AGENT: SAMES

LEGAL: A 1.68 Acre (73,282.70 sq. ft.) Gross, Tract of Land out of Lot 2, Section 244, Texas Mexican Railway Company Survey Subdivision.

LOCATION: Located at 3400 N. Closner Boulevard

LOT/TRACT SIZE: A 1.68 Acres

CURRENT USE: Vacant land

PROPOSED USE: Residential, Urban (RU) & Townhome District

EXISTING ZONING: Commercial, General (CG) District

ADJACENT ZONING:
North – Commercial, General (CG) District
South – Residential, Urban (RU) & Townhome District
East – Commercial, General (CG) District
West – Commercial, General (CG) District

LAND USE PLAN: Auto-Urban Uses

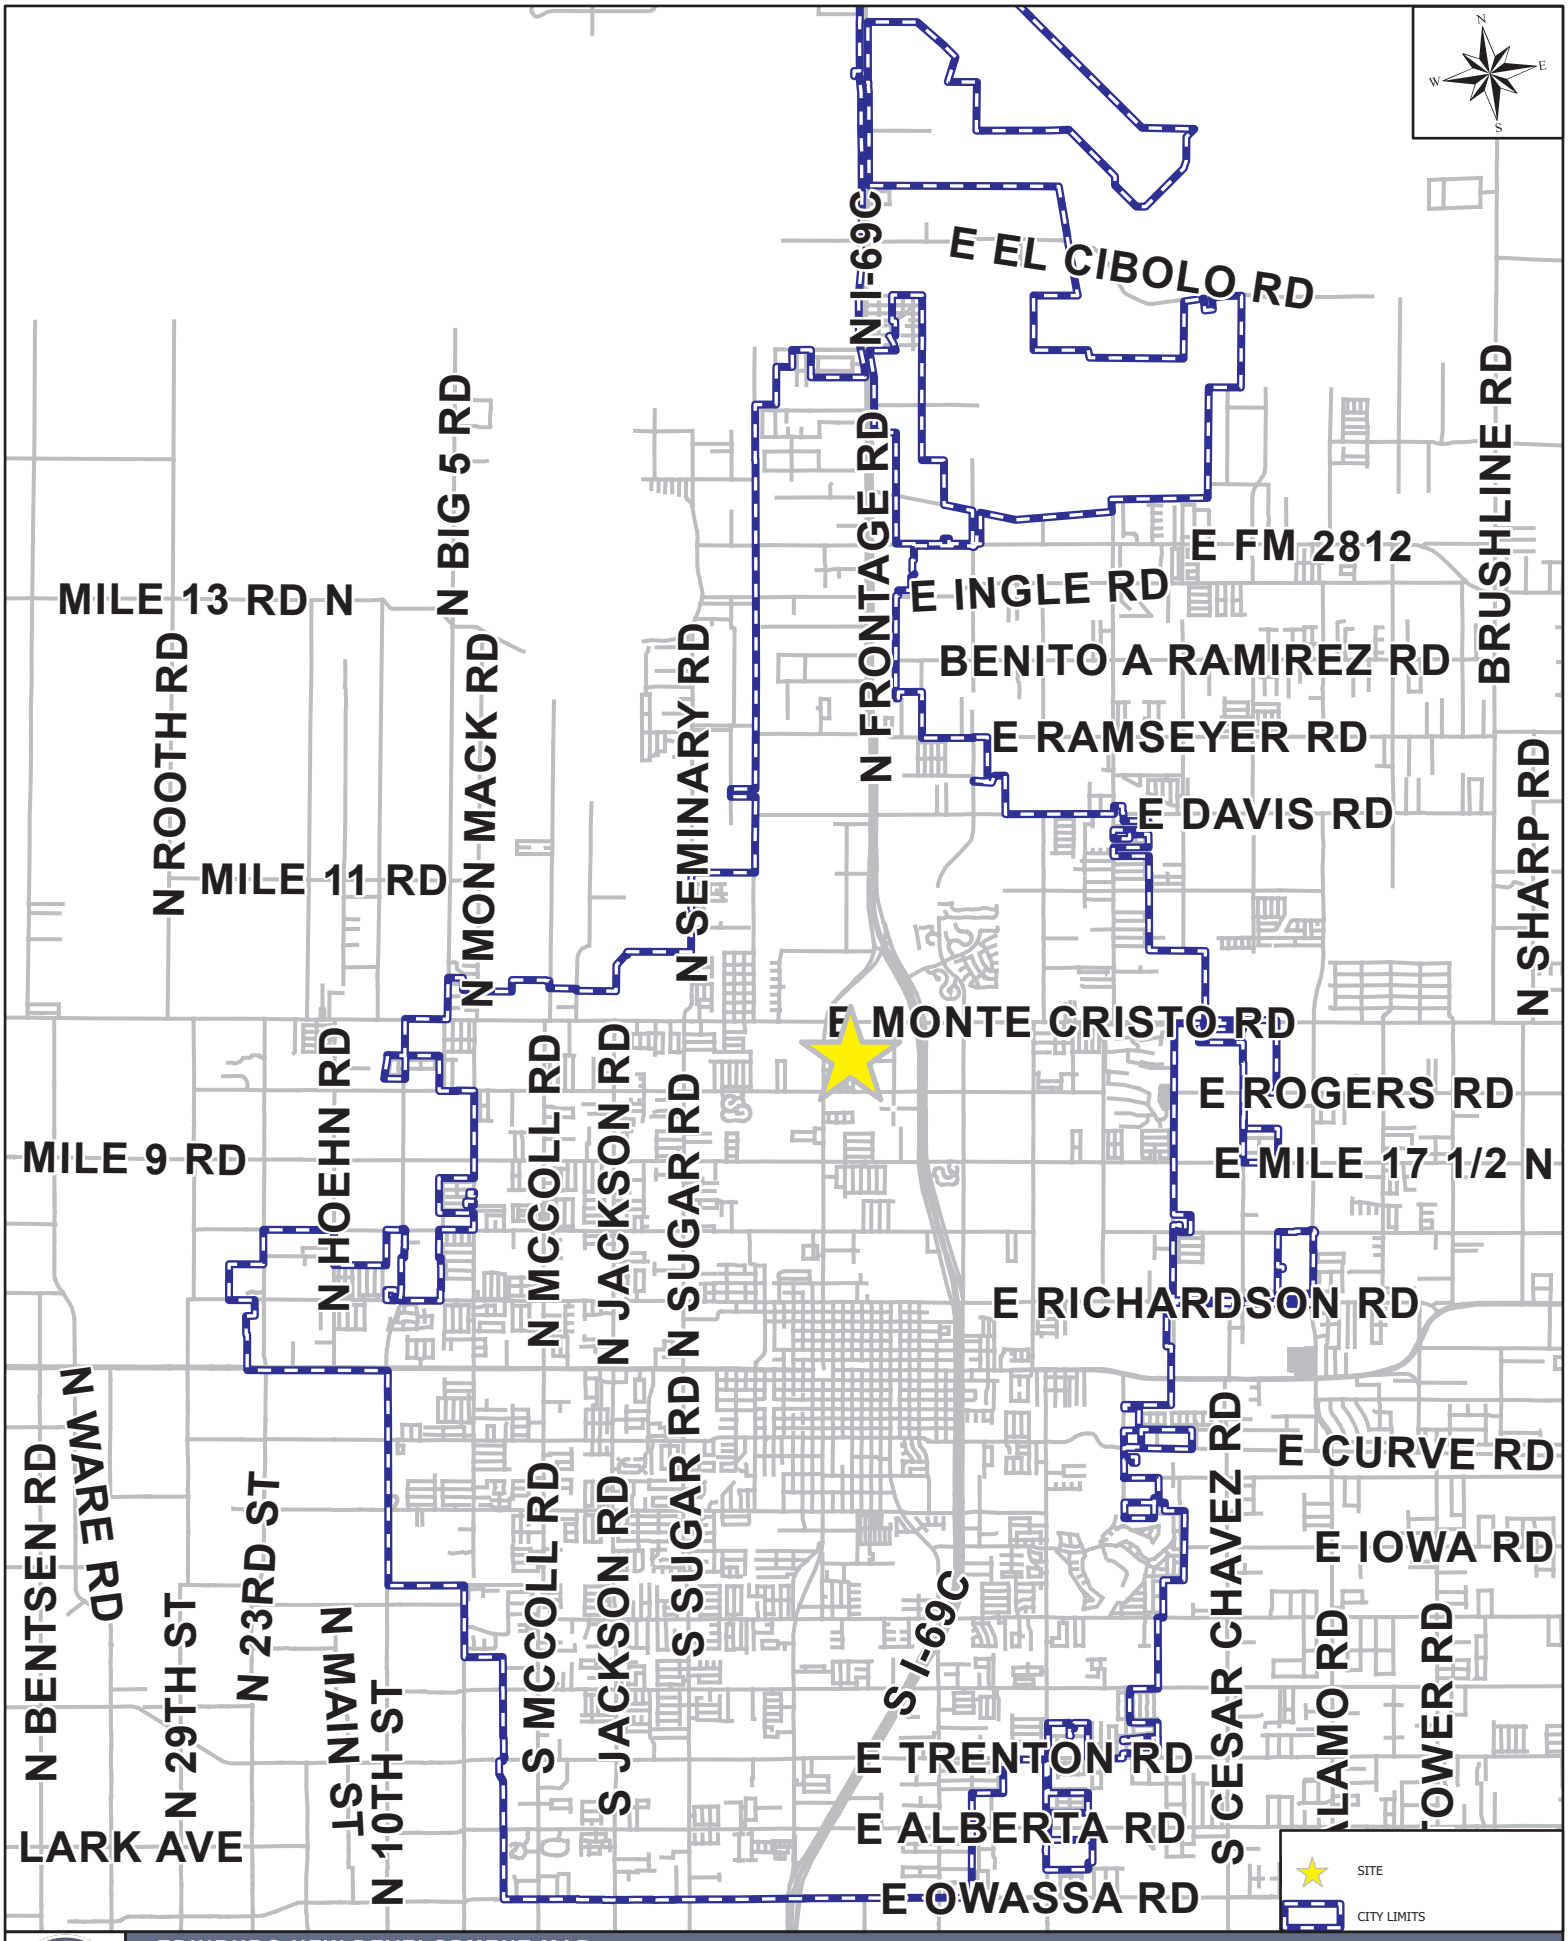
PUBLIC SERVICES: City of Edinburg Sewer and North Alamo Water Supply Corporation for Water.

RECOMMENDATION: Staff recommends approval of the Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Commercial, General (CG) District to Residential, Urban (RU) & Townhome District.

COMPREHENSIVE PLAN AMENDMENT
REZONING REQUEST
SAMES

EVALUATION

The following is the staff's evaluation of the request:



1. The property is currently a vacant land.

2. Surrounding land consists of commercial uses, and residential homes.

3. The proposed zoning is not consistent with the Future Land Use Plan.

Staff recommends approval of the Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Commercial, General (CG) District to Residential, Urban (RU) & Townhome District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

Staff mailed a notice of the public hearing to 10 neighboring property owners on Friday, July 10, 2026, and received no comments in favor or against at the time this report was prepared. Notice of this public hearing was published in the newspaper on July 29, 2026.

SURVEY NOTES:

1. BASIS OF BEARING AS PER THE EAST LOT LINE OF LOT 71, KELLY PHARR SUBDIVISION, AS PER MAP RECORDED IN VOLUME 3, PAGE 133, MAP RECORDS OF HIDALGO COUNTY, TEXAS.
2. ALL COORDINATES, BEARINGS, AND DISTANCES ARE BASED ON THE TEXAS COORDINATE SYSTEM (NAD 83), TEXAS STATE PLANES, SOUTH ZONE 4205 US SURVEY FEET, GRID. BEARINGS AND DISTANCES SHOWN IN PARENTHESIS ARE BASED ON RECORDED DOCUMENT.
3. ALL HORIZONTAL CONTROL ON THIS PROJECT WAS ESTABLISHED UTILIZING RTK GPS METHODS.
4. ELEVATIONS ON THIS PROJECT ARE BASED ON THE NORTH AMERICAN VERTICAL DATUM OF 1988 (NAVD88).

GENERAL NOTES:

1. NO PERMANENT STRUCTURES SHALL BE ALLOWED WITHIN UTILITY EASEMENTS, GAS EASEMENTS, IRRIGATION EASEMENTS OR LOT LINES.
2. SETBACK AS PER CITY OF EDINBURG ORDINANCE FOR ZONE CLASSIFICATION RESIDENTIAL URBAN (RU) AND TOWNHOME:
   FRONT SETBACK: 10 FT
   GARAGE SETBACK: 18 FT
   SIDE SETBACK: 0/6 FT
   STREET SIDE SETBACK: 6 FT.
   REAR SETBACK: 10 FT
   OR EASEMENT; WHICHEVER IS GREATER FOR ALL CASES.
3. FLOOD INSURANCE RATING:
   COMMUNITY PANEL NUMBER 480334 0425 C,
   REVISED NOVEMBER 16, 1982,
   FLOOD ZONE DESIGNATION: "ZONE B (SHADED)" – AREAS BETWEEN LIMITS OF THE 100-YEAR FLOOD AND 500-YEAR FLOOD; OR CERTAIN AREAS SUBJECT TO 100-YEAR FLOODING WITH AVERAGE DEPTHS LESS THAN ONE FOOT OR WHERE THE CONTRIBUTING DRAINAGE AREA IS LESS THAN ONE SQUARE MILE; OR AREAS PROTECTED BY LEVEES FROM THE BASE FLOOD.(MEDIUM SHADING)
4. BENCHMARK 1: SQUARE CUT ON AN EXISTING CURB INLET ON THE EAST RIGHT OF WAY OF SUGAR RD.
   NORTHING: 16617085.5900'
   EASTING: 1087025.5640'
   ELEVATION: 106.495'
5. MINIMUM FINISH FLOOR NOTE:
   MINIMUM FINISH FLOOR ELEVATION SHALL BE A MINIMUM OF 18" ABOVE THE ELEVATION OF THE LOWEST TOP OF CURB OR 12" FOR CENTER OF THE ROAD WHICH EVER IS GREATER.
6. IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT NO. 1, THE DEVELOPMENT WILL BE REQUIRED TO DETAIN A TOTAL OF XXXX CUBIC-FEET (XXXXX ACRE-FEET) OF STORM WATER RUNOFF. DRAINAGE DETENTION IN ACCORDANCE WITH THE LOCAL REQUIREMENTS WILL BE ACCOMPLISHED AS STATED ON APPROVED DRAINAGE REPORT.
7. THE DEVELOPER SHALL BE RESPONSIBLE FOR DETAINING AND ACCOMMODATING MORE THAN THE DETAINED VOLUME SHOWN ON THIS PLAT IF IT IS DETERMINED, AT THE PERMIT STAGE, THAT THE DETENTION REQUIREMENTS ARE GREATER THAN STATED ON THIS PLAT, DUE TO IMPERVIOUS AREA BEING GREATER THAN THE PLAT WAS CONSIDERED IN THE HYDRAULIC CALCULATIONS FOR THIS SUBDIVISION.
8. ALL CONSTRUCTION SHALL COMPLY WITH STORMWATER POLLUTION PREVENTION PLAN (SW3P) REQUIREMENTS. EROSION AND SEDIMENTATION CONTROLS CONSTRUCTED IN ACCORDANCE WITH THE STORM ORDINANCE 98.30 OF THE CITY OF EDINBURG ARE REQUIRED FOR ALL CONSTRUCTION ON EACH LOT INCLUDING SINGLE FAMILY AND DUPLEX/ MULTI-FAMILY CONSTRUCTION.
9. A 5.0 FOOT WIDE SIDEWALK ALONG THE EAST ROW OF SUGAR ROAD SHALL BE CONSTRUCTED BY THE DEVELOPER DURING SUBDIVISION CONSTRUCTION PHASE. WITH ADA RAMPS AND SIDEWALKS TO GO INTO SUBDIVISION MONUMENT OR GATE.
10. THE HOME OWNERS ASSOCIATION MUST COLLECT DUES AND MAINTAIN SAID PRIVATE STREETS, STREET SIGNS, LANDSCAPE IMPROVEMENTS IN COMMON DRAINAGE AREAS, STREET LIGHTS ELECTRIC BILL AND OTHER AMENITIES IMPROVEMENTS FOR THIS SUBDIVISION AS PER UDC ARTICLE 5, SEC. 5.102 APPLICABILITY, G HOMEOWNERS ASSOCIATION.
11. ALL LOTS SHALL BE GRADED TO PROVIDE POSITIVE DRAINAGE TO FRONT OF THE LOT AT A MINIMUM SLOPE OF 1%.
12. PARKLAND FEES $0000 PER RESIDENCE, $0000 (50%) PAID BY THE DEVELOPER PER DWELLING UNIT AND THE REMAINDER $0000 (50%) WILL BE PAID BY THE BUILDER AT THE BUILDING PERMIT STAGE.
13. PURSUANT TO APPLICABLE FIRE SAFETY REGULATIONS, THE INSTALLATION OF ADDITIONAL FIRE HYDRANTS, FIRE DEPARTMENT ACCESS ROADS(S), FIRE RATED CONSTRUCTION, AND OTHER FIRE PROTECTION EQUIPMENT MAY BE MANDATED DURING THE SITE PLAN OR BUILDING PERMIT PROCESS.
14. A PERMIT IS REQUIRED FOR ANY UTILITY SERVICE CROSSING AN HIDALGO COUNTY IRRIGATION DISTRICT No. 1 RIGHT OF WAY/ EASEMENT OR FACILITY.
15. NO BUFFER YARD IS REQUIRED,HOWEVER A FENCE PERMIT MUST BE OBTAINED AND APPROVED PER CITY STAFF DURING THE SUBDIVISION CONSTRUCTION STAGE.
16. DETENTION AREA 01 SHALL BE USED FOR THE PURPOSES OF DRAINAGE DETENTION FOR CLOSNER PARK SUBDIVISION ONLY AND CANNOT BE EXCHANGED OR CONVEYED OWNERSHIP. MUST BE FURNISHED AND MAINTAINED BY THE SUBDIVISION DEVELOPER UNTIL A HOME OWNER'S ASSOCIATION IS ESTABLISHED.

ORDINANCE NO. _____

AN ORDINANCE AMENDING, SUPPLEMENTING, AND CHANGING THE BOUNDARIES COMMERCIAL, GENERAL (CG) DISTRICT TO RESIDENTIAL, URBAN (RU) & TOWNHOME DISTRICT, BEING A 1.68 ACRE (73,282.70 SQ. FT.) GROSS, TRACT OF LAND OUT OF LOT 2, SECTION 244, TEXAS MEXICAN RAILWAY COMPANY SURVEY SUBDIVISION, LOCATED AT 3400 N. CLOSNER BOULEVARD, FROM ONE DISTRICT TO ANOTHER; PROVIDING A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING FOR CODIFICATION; PROVIDING A WAIVER OF THE THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATED TO THE SUBJECT MATTER HEREOF.

WHEREAS, the owner of the herein described real estate has submitted to the Planning and Zoning Commission of the City of Edinburg, Texas, a proposed amendment, and the proposed supplement and change to the boundaries of the Commercial, General (CG) District, and Residential, Urban (RU) & Townhome District as set out in the Unified Development Code of the City of Edinburg, Texas, heretofore finally passed, approved, and adopted by said City Council on the 9th day of August, 2022. Such proposed amendment is to change the zoning of a 1.68 Acre (73,282.70 sq. ft.) Gross, Tract of Land out of Lot 2, Section 244, Texas Mexican Railway Company Survey Subdivision, located at 3400 N. Closner Boulevard**,** from Commercial, General (CG) District to Residential, Urban (RU) & Townhome District, for a recommendation and report by said Planning and Zoning Commission; and

WHEREAS, the said Planning and Zoning Commission of the City of Edinburg, Texas, gave due notice as provided by said Unified Development Code of a public hearing to be held before said Planning and Zoning Commission, on July 23, 2026, at 5:30 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, and said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes, providing said notice by U. S. Mail to all property owners and persons rendering property for taxation within 300 feet of the property affected not less than ten (10) days before said public hearing; and

WHEREAS, after such public hearing, the Planning and Zoning Commission of the City of Edinburg, Texas, presented its report to the City Council of the City of Edinburg that they approved the change in zoning of said property, from one district to the other; and

WHEREAS, after receipt of the final report from the Planning and Zoning Commission, the City Council of said City provided due notice, as provided by said Unified Development Code to be held before said City Council, and notice was published one time in a newspaper published in the City of Edinburg, Texas, and of general circulation in said City, stating that a public hearing to consider said proposed revision would be held on August 18, 2026, at 6:00 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, which time was not less than 15 days nor more than 20 days from the date of publication, and that said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes; and

WHEREAS, having held said public hearing, it is the opinion of the City Council of the City of Edinburg, Texas that such change and revision should be made.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All requirements of the law have been met in the passing of this Ordinance.

SECTION II. The zoning of the first above-described property is hereby changed from Commercial, General (CG) District and Residential, Urban (RU) & Townhome District and the boundaries of said Districts are hereby amended, supplemented and changed so as to delete the said area from the said Commercial, General (CG) District to Residential, Urban (RU) & Townhome District.

SECTION III. REPEALER CLAUSE: This Ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this Ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this Ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This Ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this Ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: This requirement of three separate readings of this Ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

ORDINANCE NO. _____

AN ORDINANCE AMENDING THE CITY OF EDINBURG COMPREHENSIVE PLAN BY DETERMINING THAT THE DEVELOPMENT FACTORS WITHIN THE CITY HAVE ADJUSTED SUCH THAT THE PROPOSED USE, ALL OF BEING A 1.68 ACRE (73,282.70 SQ. FT.) GROSS, TRACT OF LAND OUT OF LOT 2, SECTION 244, TEXAS MEXICAN RAILWAY COMPANY SURVEY SUBDIVISION, LOCATED AT 3400 N. CLOSNER BOULEVARD, AN ADDITION TO THE CITY OF EDINBURG, HIDALGO COUNTY, TEXAS, SHOULD BE FOR AUTO-URBAN USES; PROVIDING A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE, PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING A WAIVER OF THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATED TO THE SUBJECT MATTER THEREOF.

WHEREAS, the Comprehensive Plan designation of the property herein described needs to be amended to provide a transition from General Commercial Uses to Auto-Urban Uses and,

WHEREAS, it appears that the development will proceed, if allowed; and,

WHEREAS, such development is not detrimental to the General Commercial Uses in the surrounding area; and

WHEREAS, in order to avoid exceptions to the Comprehensive Plan, it is appropriate that the Plan be changed to reflect conditions as they actually exist in Edinburg.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All Requirements To The Law Have Been Met In The Passing Of This Ordinance.

SECTION II. The Comprehensive Plan for the development of Edinburg adopted by Ordinance No. 2024-5022 on October 15, 2024 is hereby amended to provide that the property in question, would best be used and developed, because of changing conditions for Auto-Urban Uses. The conditions that exist are:

(1) Population growth requiring more Auto-Urban Uses;
(2) Expansion and development of Auto-Urban Uses.

This area, because of Edinburg's growth, should be included in those portions of the city providing support to and being compatible with other similar uses, all of which are in close proximity to one another.

SECTION III. REPEALER CLAUSE: This ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the city council in passing this ordinance that its parts shall be severable and all other parts of this ordinance shall be severable and all other parts of this ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: The requirement of three separate readings of this ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
PUBLIC HEARINGS - ROUTINE ITEMS
Agenda Item No: 10.B.
Comprehensive Plan Amendment and Rezoning Request - Erik Gonzalez

1. **Agenda Item:**
Hold Public Hearing and Consider the Ordinances Providing for the Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District, Being a 0.44 of an Acre Tract of Land Being a Portion of Lot D, Santa Cruz Gardens Subdivision, Unit No. 1, Located at 310 E. Ramseyer Road, as Requested by Erik Gonzalez. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
This property is located at the south side of E. Ramseyer Road, approximately 550 feet east of the intersection of N. I-69C and E. Ramseyer Road. The property is currently zoned Residential, Suburban (RS) District. This district is suburban in nature, characterized by a balance between landscape and buildings. The requested zoning is Residential, Primary (RP) District. This district has a predominantly auto-urban character. It is the primary residential district, intended to permit a wide range of single-family residential uses. This property has a total frontage of 177.21 feet and a lot depth of 119.82 feet for a total area of approximately 0.44 acres. Currently, the property is vacant land. The applicant wants to utilize the property for the construction of a new single-family residential home.

Adjacent zoning is Residential, Manufactured Home (RH) District to the north, Agriculture and Open Space (AO) District to the east, and Residential, Suburban (RS) District to the west and south. Surrounding land uses consist of single-home residential and vacant land. The Future Land Use designation for this property is for General Commercial Uses.

On Friday, July 10, 2026, staff mailed public hearing notices to 27 neighboring property owners, and a subsequent notice was published in the local newspaper on July 29, 2026. At the time this report was prepared, staff received one comment in favor and none in opposition or in favor of the request. At the Planning and Zoning Commission meeting no public comment was given.

On July 13, 2026, Planning staff met with City of Edinburg development departments to discuss the proposed rezoning. It was determined that additional right-of-way must be dedicated to support the proposed development.

On July 23, 2026, the Planning and Zoning Commission recommended, with a unanimous vote of 5-0, to approve the Comprehensive Plan Amendment and the Rezoning Request.

3. **Staff's Recommendation:**
Staff recommends approval of the Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with

subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

DATE PREPARED – 07/13/2026

STAFF REPORT
GENERAL INFORMATION

APPLICATION: Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District.

APPLICANT: Erik Gonzalez

AGENT: N/A

LEGAL: A 0.44 of an Acre Tract of Land Being a Portion of Lot D, Santa Cruz Gardens Subdivision, Unit No. 1

LOCATION: Located at 310 E. Ramseyer Road

LOT/TRACT SIZE: A 0.44 of an Acre

CURRENT USE: Vacant land

PROPOSED USE: Residential, Primary (RP) District

EXISTING ZONING: Residential, Suburban (RS) District

ADJACENT ZONING:
North – Residential, Manufactured Home (RH) District
South – Residential, Suburban (RS) District
East – Agriculture and Open Space (AO) District
West – Residential, Suburban (RS) District

LAND USE PLAN: General Commercial Uses

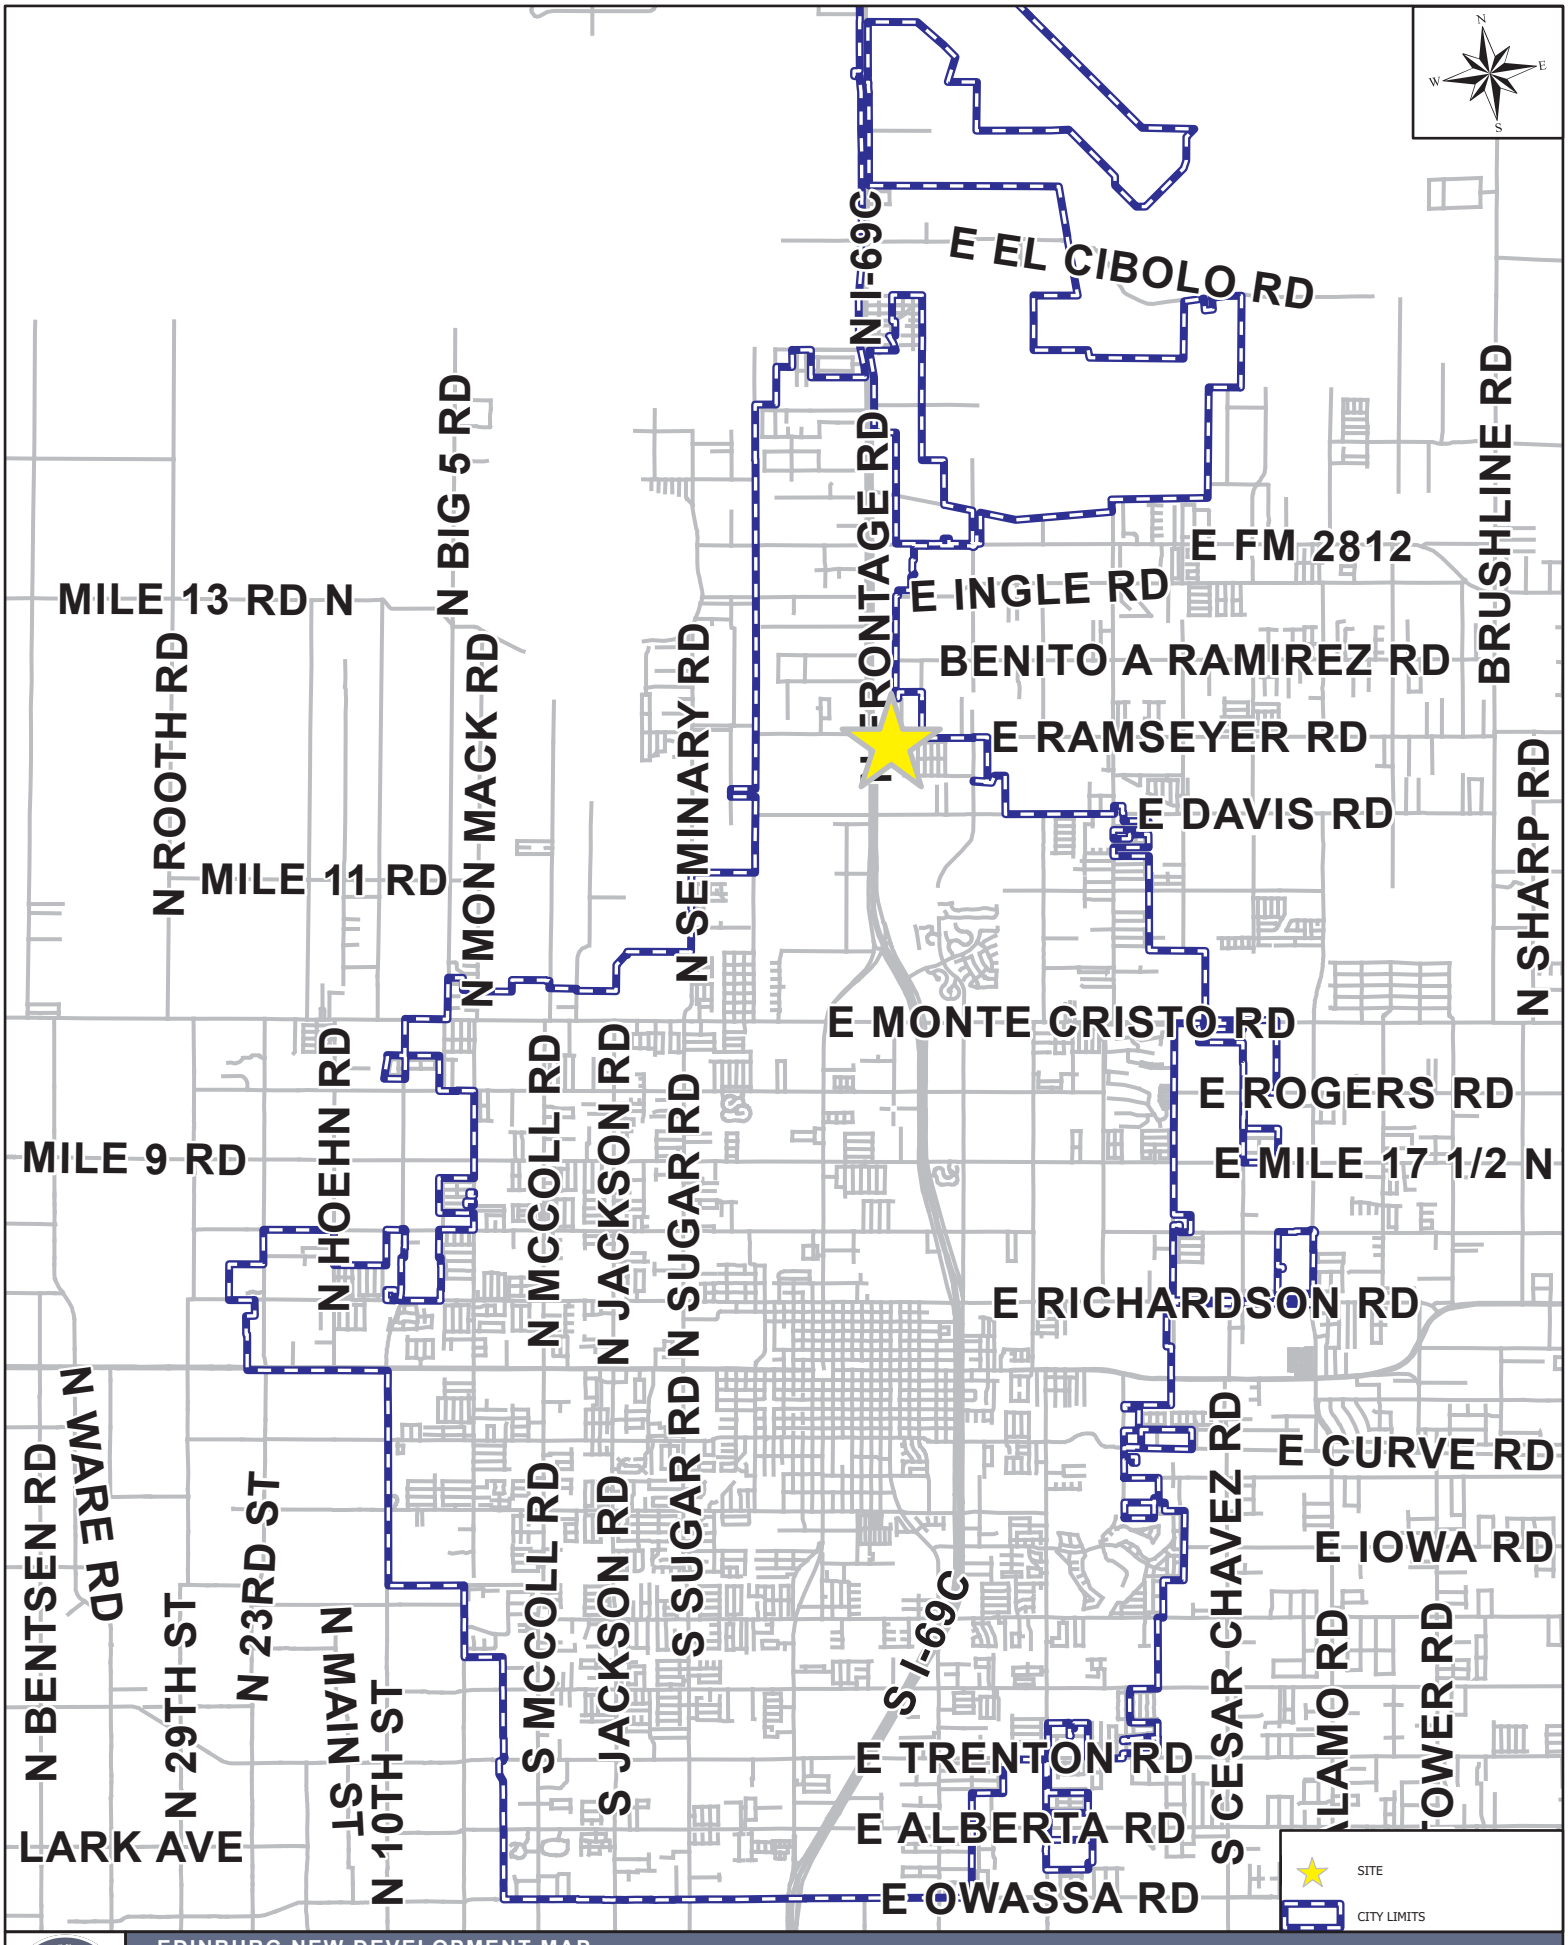
PUBLIC SERVICES: City of Edinburg Sewer and Water

RECOMMENDATION: Staff recommends approval of the Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District.

COMPREHENSIVE PLAN AMENDMENT
REZONING REQUEST
ERIK GONZALEZ

EVALUATION

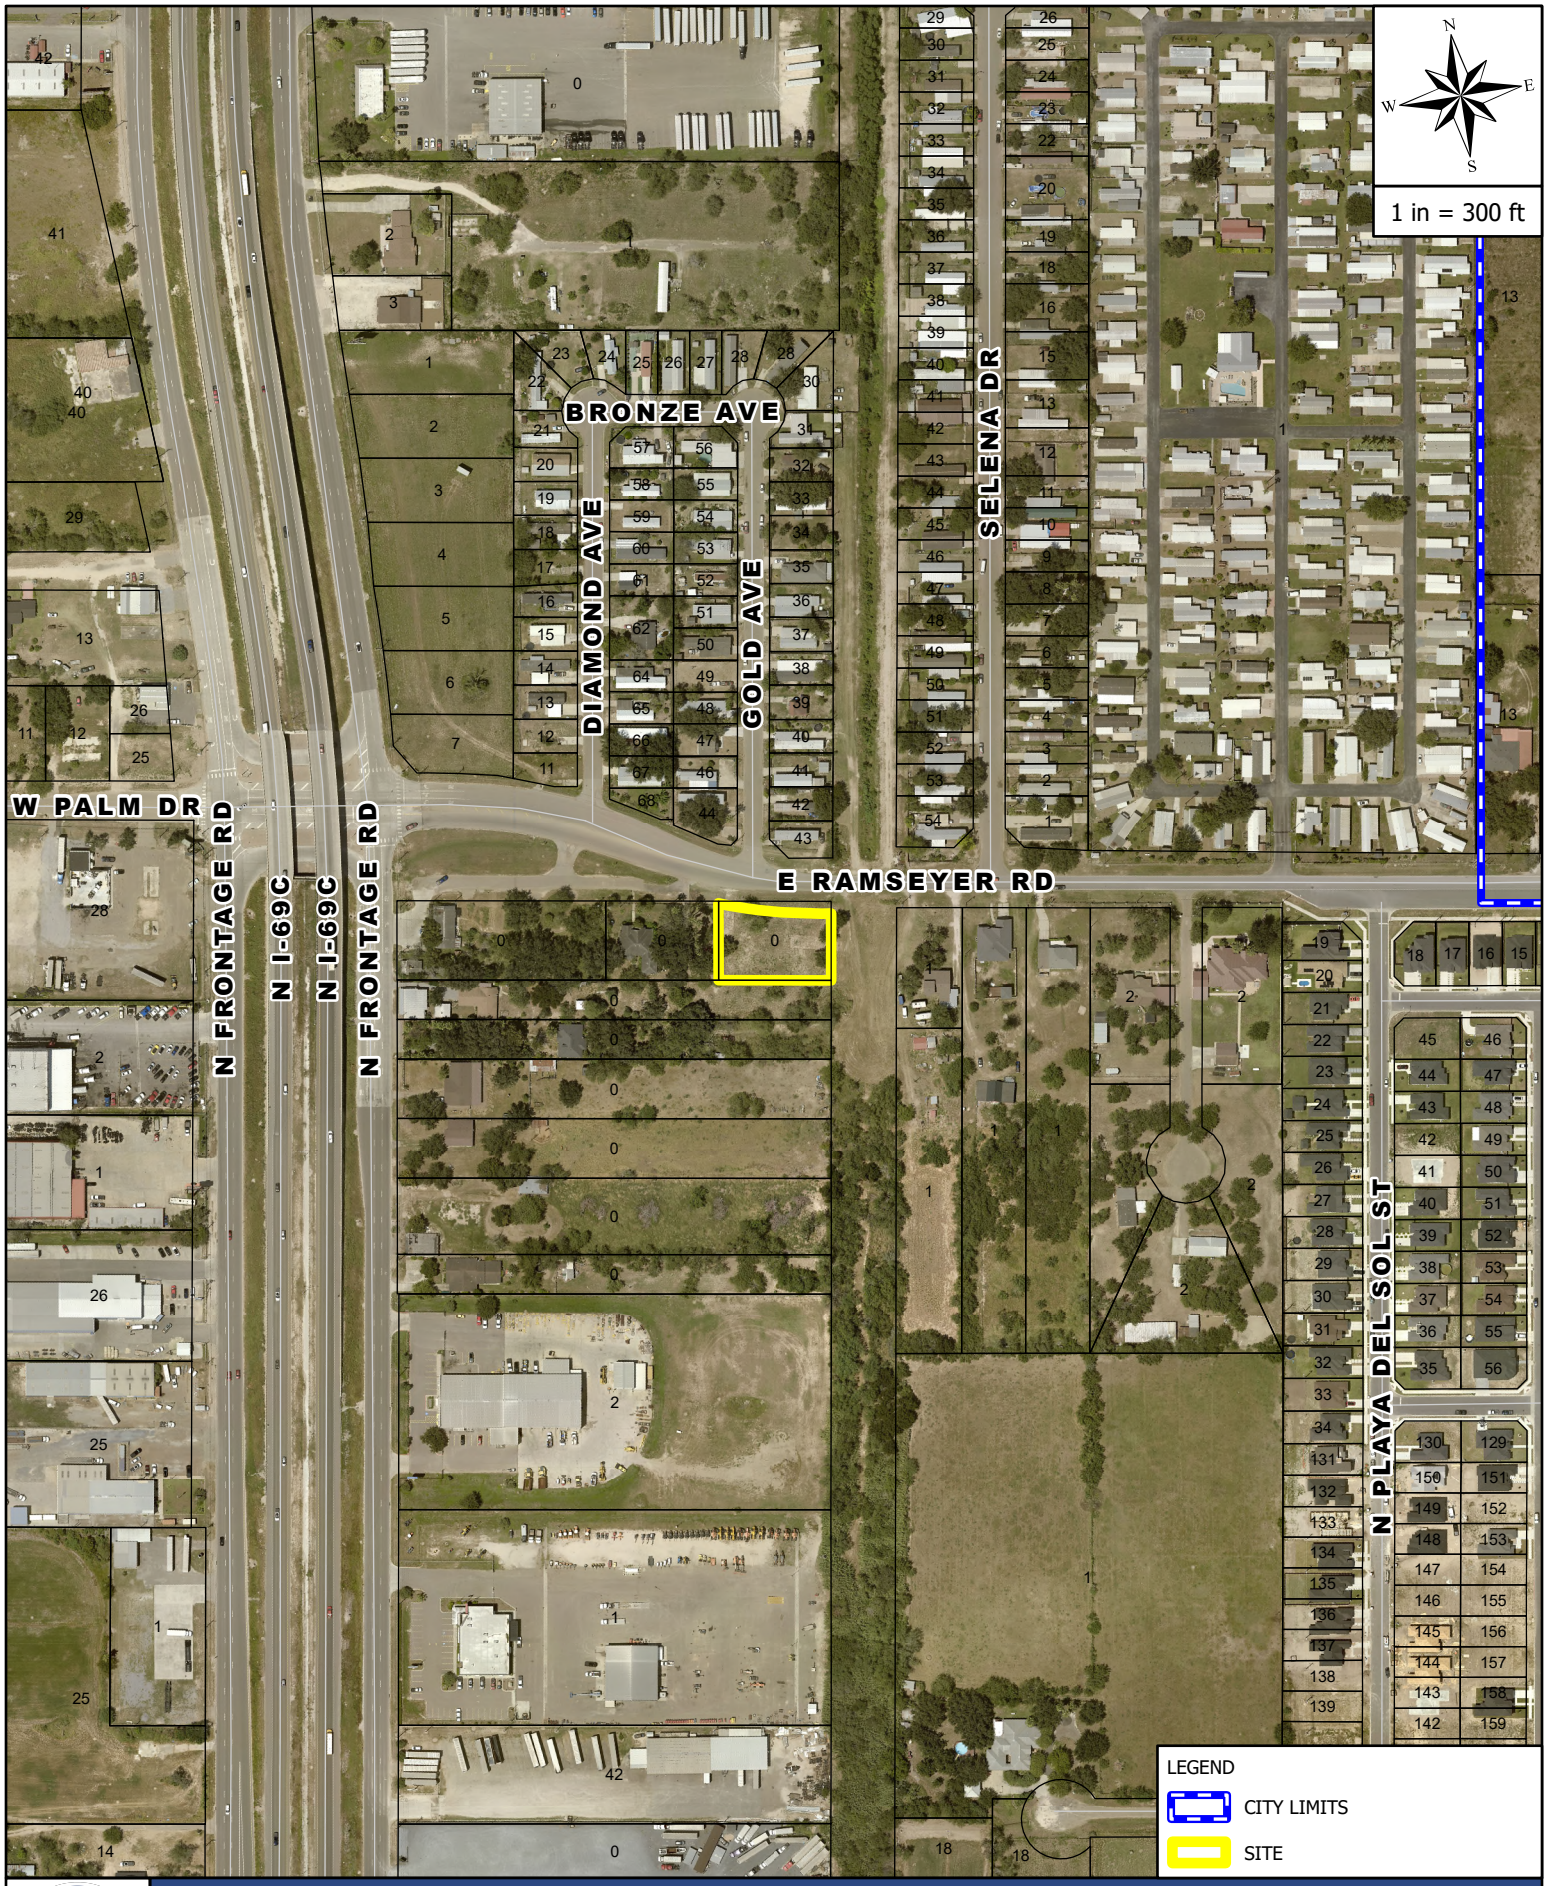
The following is the staff's evaluation of the request:



1. The property is currently a vacant land.

2. Surrounding land consists of residential homes and vacant land.

3. The proposed zoning is not consistent with the Future Land Use Plan.



Staff recommends approval of the Comprehensive Plan Amendment from General Commercial Uses to Auto-Urban Uses and the Rezoning Request from Residential, Suburban (RS) District to Residential, Primary (RP) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

Staff mailed a notice of the public hearing to 27 neighboring property owners on Friday, July 10, 2026, and received one comment in favor and no comments against at the time this report was prepared. Notice of this public hearing was published in the newspaper on July 29, 2026.

NOTIFICATION

Dear Property Owner:

A public hearing will be held on **Thursday, July 23, 2026, at 5:30 P.M.** in the Edinburg City Hall, City Council Chambers, located at 415 W. University Drive, at which time the Planning and Zoning Commission will address the following:

CONSIDER THE COMPREHENSIVE PLAN AMENDMENT FROM GENERAL COMMERCIAL USES TO AUTO-URBAN USES AND THE REZONING REQUEST FROM RESIDENTIAL, SUBURBAN (RS) DISTRICT TO RESIDENTIAL, PRIMARY (RP) DISTRICT, BEING A 0.44 OF AN ACRE TRACT OF LAND BEING A PORTION OF LOT D, SANTA CRUZ GARDENS SUBDIVISION, UNIT NO. 1, LOCATED AT 310 E. RAMSEYER ROAD, AS REQUESTED BY ERIK GONZALEZ.

This district has a predominantly auto-urban character. It is the primary residential district, intended to permit a wide range of single-family residential uses.

This request is scheduled to be heard by the **City Council on Tuesday, August 18, 2026, at 6:00 P.M.** As a property owner within 300 ft. of the subject property, you are invited to attend. Please note that meeting time (s) and date (s) are subject to change. Therefore; please call on the date of the meeting to assure that the item is on the agenda. As part of the City effort to encourage greater participation in the rezoning process, **the City is using this notice to solicit your input, but no action or response is required**. Should you have any questions or need more information regarding this notice, you may call (956) 388-8202.

You may return your response by one of the following:

MAIL: P. O. Box 1079 Edinburg, Texas 78540
FAX: (956) 292-2080 by Wednesday, July 22, 2026

ORDINANCE NO. _____

AN ORDINANCE AMENDING, SUPPLEMENTING, AND CHANGING THE BOUNDARIES RESIDENTIAL, SUBURBAN (RS) DISTRICT TO RESIDENTIAL, PRIMARY (RP) DISTRICT, BEING A 0.44 OF AN ACRE TRACT OF LAND BEING A PORTION OF LOT D, SANTA CRUZ GARDENS SUBDIVISION, UNIT NO. 1, LOCATED AT 310 E. RAMSEYER ROAD, FROM ONE DISTRICT TO ANOTHER; PROVIDING A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING FOR CODIFICATION; PROVIDING A WAIVER OF THE THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATED TO THE SUBJECT MATTER HEREOF.

WHEREAS, the owner of the herein described real estate has submitted to the Planning and Zoning Commission of the City of Edinburg, Texas, a proposed amendment, and the proposed supplement and change to the boundaries of the Residential, Suburban (RS) District and Residential, Primary (RP) District as set out in the Unified Development Code of the City of Edinburg, Texas, heretofore finally passed, approved, and adopted by said City Council on the 9th day of August, 2022. Such proposed amendment is to change the zoning of all of a 0.44 of an Acre Tract of Land Being a Portion of Lot D, Santa Cruz Gardens Subdivision, Unit No. 1, located at 310 E. Ramseyer Road**,** from Residential, Suburban (RS) District to Residential, Primary (RP) District, for a recommendation and report by said Planning and Zoning Commission; and

WHEREAS, the said Planning and Zoning Commission of the City of Edinburg, Texas, gave due notice as provided by said Unified Development Code of a public hearing to be held before said Planning and Zoning Commission, on July 23, 2026, at 5:30 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, and said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes, providing said notice by U. S. Mail to all property owners and persons rendering property for taxation within 300 feet of the property affected not less than ten (10) days before said public hearing; and

WHEREAS, after such public hearing, the Planning and Zoning Commission of the City of Edinburg, Texas, presented its report to the City Council of the City of Edinburg that they approved the change in zoning of said property, from one district to the other; and

WHEREAS, after receipt of the final report from the Planning and Zoning Commission, the City Council of said City provided due notice, as provided by said Unified Development Code to be held before said City Council, and notice was published one time in a newspaper published in the City of Edinburg, Texas, and of general circulation in said City, stating that a public hearing to consider said proposed revision would be held on August 18, 2026, at 6:00 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, which time was not less than 15 days nor more than 20 days from the date of publication, and that said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes; and

WHEREAS, having held said public hearing, it is the opinion of the City Council of the City of Edinburg, Texas that such change and revision should be made.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All requirements of the law have been met in the passing of this Ordinance.

SECTION II. The zoning of the first above-described property is hereby changed from Residential, Suburban (RS) District and Residential, Primary (RP) District and the boundaries of said Districts are hereby amended, supplemented and changed so as to delete the said area from the said Residential, Suburban (RS) District to Residential, Primary (RP) District.

SECTION III. REPEALER CLAUSE: This Ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this Ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this Ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This Ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this Ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: This requirement of three separate readings of this Ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the

City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
PUBLIC HEARINGS - ROUTINE ITEMS
Agenda Item No: 10.C.
Rezoning Request - Cirilo Garcia

1. **Agenda Item:**
Hold Public Hearing and Consider the Ordinance Providing for the Rezoning Request from Residential, Primary (RP) District to Commercial, General (CG) District, Being a 0.56 Acres Out of called 2.42 Acres Lot 10, Section 241, Texas-Mexican Railway Company Survey, Located at 1102 N. Closner Boulevard, as Requested by Cirilo Garcia. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
This property is located at the east side of N. Closner Boulevard, approximately 700 feet north of the intersection of N. Closner Boulevard and E. Chavez Street. The property is currently zoned Residential, Primary (RP) District. This district has a predominantly auto-urban character. It is the primary residential district, intended to permit a wide range of single-family residential uses. The requested zoning is Commercial, General CG) District. This is the primary commercial district, meant to accommodate a wide range of commercial uses, including highway service uses and community or regional commercial, office, and service uses. This property has a total frontage of 70 feet and a lot depth of 350 feet for a total area of 0.56 acres. Currently, the property is a vacant lot. The applicant wants to incorporate the vacant parcel into an existing adjacent commercial use.

Adjacent zoning is Residential, Primary (RP) District to the north, Commercial, General (CG) District to the west, Residential, Multifamily (RM) District to the south and Industrial, General (IG) District to the south and east. Surrounding land uses consist of commercial uses, and single-home residential. The Future Land Use designation for this property is for General Commercial Uses.

On Friday, July 10, 2026, staff mailed public hearing notices to 16 neighboring property owners, and a subsequent notice was published in the local newspaper on July 29, 2026. At the time this report was prepared, staff received no comments in favor and none in opposition of the request.

On July 13, 2026, Planning staff met with City of Edinburg development departments to discuss the proposed rezoning. It was determined that the infrastructure will support the proposed development.

On July 23, 2026, the Planning and Zoning Commission recommended, with a unanimous vote of 5-0, to approve the Rezoning Request.

3. **Staff's Recommendation:**
Staff recommends approval of the Rezoning Request from Residential, Primary (RP) District to Commercial, General (CG) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

STAFF REPORT
GENERAL INFORMATION

APPLICATION: Consider the Rezoning Request from Residential, Primary (RP) District to Commercial, General (CG) District, Being a 0.56 Acres Out of called 2.42 Acres Lot 10, Section 241, Texas-Mexican Railway Company Survey.

.

APPLICANT: Cirilo Garcia

AGENT: N/A

LEGAL: Being a 0.56 Acres Out of called 2.42 Acres Lot 10, Section 241, Texas-Mexican Railway Company Survey.

LOCATION: Located at 1102 N. Closner Boulevard

LOT/TRACT SIZE: 0.56 Acres

CURRENT USE: Vacant land

PROPOSED USE: Commercial, General (CG) District

EXISTING ZONING: Residential, Primary (RP) District

ADJACENT ZONING:
North – Residential, Primary (RP) District
South – Industrial, General (IG) District and Residential, Multifamily (RM) District
East – Industrial, General (IG) District
West – Commercial, General (CG) District

LAND USE PLAN: General Commercial Uses

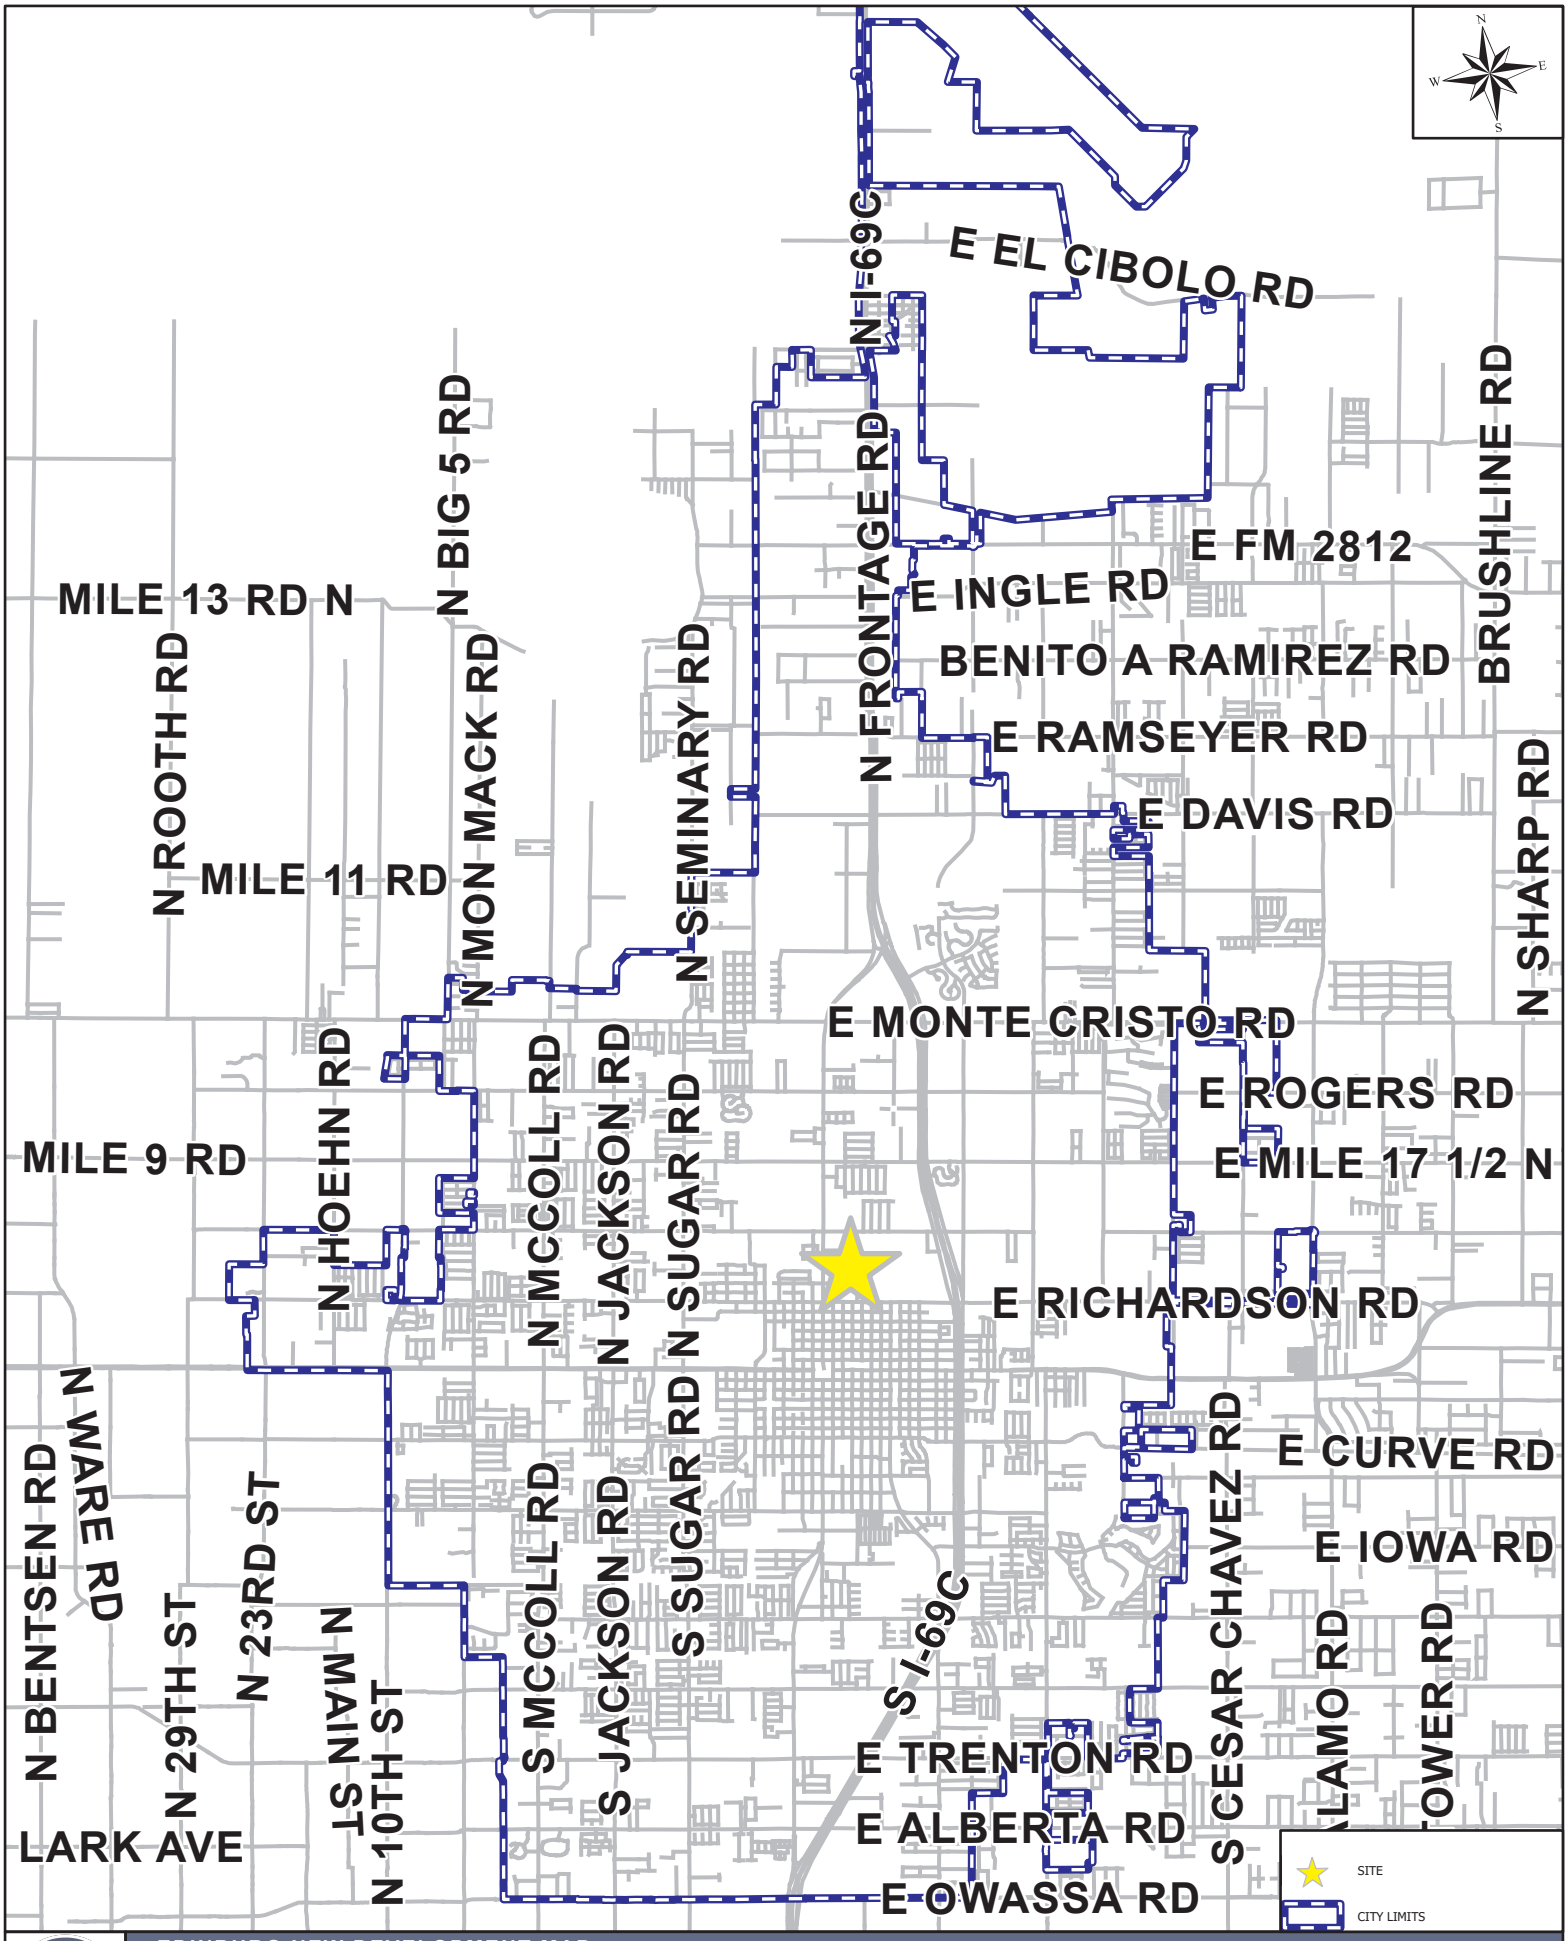
PUBLIC SERVICES: City of Edinburg Sewer and Water

RECOMMENDATION: Staff recommends approval of the Rezoning Request from Residential, Primary (RP) District to Commercial, General (CG) District.

COMPREHENSIVE PLAN AMENDMENT
REZONING REQUEST
CIRILO GARCIA

EVALUATION

The following is the staff's evaluation of the request:



1. The property is currently a vacant land.

2. Surrounding land consists of commercial uses, and residential homes.

3. The proposed zoning is consistent with the Future Land Use Plan.

Staff recommends approval of the Rezoning Request from Residential, Primary (RP) District to Commercial, General (CG) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

Staff mailed a notice of the public hearing to 16 neighboring property owners on Friday, July 10, 2026, and received no comments in favor or against at the time this report was prepared. Notice of this public hearing was published in the newspaper on July 29, 2026.

ORTHEMETRIC HEIGHT: 29.729 FT

11. DRAINAGE NOTE:

IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT No.1 AND HIDALGO COUNTY DRAINAGE REQUIREMENTS, THIS RESIDENTIAL COMMERCIAL DEVELOPMENT IS REQUIRED TO DETAIN A TOTAL OF 3588 C.F (0.08AC.-FT.) OF STORM WATER RUNOFF. THE DEVELOPER SHALL BE RESPONSIBLE FOR DETAINING AND ACCOMMODATING MORE THAN THE DETAINED VOLUME SHOWN ON THIS PLAT IF IT IS DETERMINED, AT THE DEVELOPMENT PERMIT STAGE, THAT THE DETENTION REQUIREMENTS ARE GREATER THAN STATED ON THIS PLAT, DUE TO THE IMPERVIOUS AREA BEING GREATER THAN THE PLAT ENGINEER CONSIDERED IN THE HYDRAULIC CALCULATIONS FOR THIS SUBDIVISION.

12. ALL LOTS SHALL HAVE A POST DEVELOPMENT FINISHED GRADE FROM THE REAR OF THE LOT TO THE CURB AT A 1.0% SLOPE TO ACCOMPLISH POSITIVE DRAINAGE.

13. EASEMENTS NOTE:
NO STRUCTURES SHALL BE PERMITTED OVER ANY EASEMENTS. EASEMENTS SHALL BE KEPT CLEAR OF FENCES, BUILDINGS, SHEDS, SHRUBS, TREES AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18 INCHES MATURE HEIGHT, GROUND COVER GRASS OR FLOWERS), AND OTHER OBSTRUCTIONS TO THE OPERATION AND MAINTENANCE OF THE EASEMENT.

14. ALL CONSTRUCTION SHALL COMPLY WITH STORM WATER POLLUTION PREVENTION PLAN REQUIREMENTS.

15. A FIVE (5.0') FOOT SIDEWALK THREE (3.0') FEET BEHIND THE BACK OF CURB IS REQUIRED AT BUILDING PERMIT STAGE BY LOT OWNER.

16. ALL MASTER WATER METER FEES AND SEWER TAP FEES SHALL BE PAID BY DEVELOPER.

17. THERE ARE NO WATER WELLS WITHIN 150 FEET FROM THE BOUNDARIES ON THIS SUBDIVISION.

18. ALL SETBACKS WILL BE IN ACCORDANCE WITH THE ZONING ORDINANCE OR IN LINE WITH AVERAGE SETBACKS OR EXISTING STRUCTURES OR GREATER FOR EASEMENTS, WHICHEVER IS GREATER APPLIES.

19. PURSUANT TO APPLICABLE FIRE SAFETY REGULATIONS, THE INSTALLATION OF ADDITIONAL FIRE HYDRANTS, FIRE DEPARTMENT ACCESS ROADS), FIRE RATED CONSTRUCTION, AND OTHER FIRE PROTECTION EQUIPMENT MAY BE MANDATED DURING THE SITE PLAN OR BUILDING PERMIT PROCESS.

20. 50% OF PARKLAND FEE ($300.00) PER LOT WILL BE DUE AT THE TIME OF BUILDING PERMIT STAGE (INSIDE CITY LIMITS ONLY)

21. A BUFFERYARD IS REQUIRED WHERE COMMERCIAL GENERAL MEETS RESIDENTIAL PRIMARY AS PER UDC TABLE 4.204-2. ANOTHER BUFFERYARD IS REQUIRED WHERE COMMERCIAL GENERAL MEETS COMMERCIAL NEIGHBORHOOD AS PER UDC TABLE 4.204-4.

ORDINANCE NO. _____

AN ORDINANCE AMENDING, SUPPLEMENTING, AND CHANGING THE BOUNDARIES RESIDENTIAL, PRIMARY (RP) DISTRICT TO COMMERCIAL, GENERAL (CG) DISTRICT, BEING A 0.56 ACRES OUT OF CALLED 2.42 ACRES LOT 10, SECTION 241, TEXAS-MEXICAN RAILWAY COMPANY SURVEY, LOCATED AT 1102 N. CLOSNER BOULEVARD, FROM ONE DISTRICT TO ANOTHER; PROVIDING A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING FOR CODIFICATION; PROVIDING A WAIVER OF THE THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATED TO THE SUBJECT MATTER HEREOF.

WHEREAS, the owner of the herein described real estate has submitted to the Planning and Zoning Commission of the City of Edinburg, Texas, a proposed amendment, and the proposed supplement and change to the boundaries of the Residential, Primary (RP) District, and Commercial, General (CG) District as set out in the Unified Development Code of the City of Edinburg, Texas, heretofore finally passed, approved, and adopted by said City Council on the 9th day of August, 2022. Such proposed amendment is to change the zoning of all of Being a 0.56 Acres Out of called 2.42 Acres Lot 10, Section 241, Texas-Mexican Railway Company Survey, located at 1102 N. Closner Boulevard, from Residential, Primary (RP) District to Commercial, General (CG) District, for a recommendation and report by said Planning and Zoning Commission; and

WHEREAS, the said Planning and Zoning Commission of the City of Edinburg, Texas, gave due notice as provided by said Unified Development Code of a public hearing to be held before said Planning and Zoning Commission, on July 23, 2026 at 5:30 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, and said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes, providing said notice by U. S. Mail to all property owners and persons rendering property for taxation within 300 feet of the property affected not less than ten (10) days before said public hearing; and

WHEREAS, after such public hearing, the Planning and Zoning Commission of the City of Edinburg, Texas, presented its report to the City Council of the City of Edinburg that they approved the change in zoning of said property, from one district to the other; and

WHEREAS, after receipt of the final report from the Planning and Zoning Commission, the City Council of said City provided due notice, as provided by said Unified Development Code to be held before said City Council, and notice was published one time in a newspaper published in the City of Edinburg, Texas, and of general circulation in said City, stating that a public hearing to consider said proposed revision would be held on August 18, 2026, at 6:00 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, which time was not less than 15 days nor more than 20 days from the date of publication, and that said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes; and

WHEREAS, having held said public hearing, it is the opinion of the City Council of the City of Edinburg, Texas that such change and revision should be made.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All requirements of the law have been met in the passing of this Ordinance.

SECTION II. The zoning of the first above-described property is hereby changed from Residential, Primary (RP) District and Commercial, General (CG) District and the boundaries of said Districts are hereby amended, supplemented and changed so as to delete the said area from the said Residential, Primary (RP) District and added to the Commercial, General (CG) District.

SECTION III. REPEALER CLAUSE: This Ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this Ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this Ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This Ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this Ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: This requirement of three separate readings of this Ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the

City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

Hold Public Hearing and Consider the Ordinance Providing for the Rezoning Request from Agriculture and Open Space (AO) District to Commercial, General (CG) District, Being Lot 1, Unrecorded Map of Promise Land Subdivision No. 2, Located at 2213 E. Trenton Road, as Requested by Javier Hernandez. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
This property is located along the north side of E. Trenton Road, approximately 800 feet west of the intersection of E. Trenton Road and S. Raul Longoria Road. The property is currently zoned Agriculture and Open Space (AO) District. This district is typically rural in character with few buildings and cultivation that allows long views to the horizon. The requested zoning is Commercial, General (CG) District. This is the primary commercial district, meant to accommodate a wide range of commercial uses, including highway service uses and community or regional commercial, office, and service uses. This property has a frontage of 145.50 feet along E. Trenton Road and a lot depth of 416.45 feet. Currently, the property contains an existing daycare facility. The applicant wants to utilize the property to develop a medical clinic.

Adjacent zoning is Agriculture and Open Space (AO) District to the north, west and east. The property to the south is located outside the City Limits of Edinburg. Surrounding land uses consist of residential uses and commercial uses. The Future Land Use designation for this property is for General Commercial Uses.

On Friday, June 26, 2026, staff mailed public hearing notices to 45 neighboring property owners, and a subsequent notice was published in the local newspaper on July 29, 2026. At the time this report was prepared, staff received no comments in favor and none in opposition of the request.

On June 29, 2026, Planning staff met with City of Edinburg development departments to discuss the proposed rezoning. It was determined that upgrades to the existing infrastructure will be needed in this area to support the proposed development.

On July 9, 2026, the Planning and Zoning Commission recommended, with a unanimous vote of 4-0, to approve the Rezoning Request.

3. **Staff's Recommendation:**
Staff recommends approval of the Rezoning Request from Agriculture and Open Space (AO) District to Commercial, General (CG) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

STAFF REPORT
GENERAL INFORMATION

APPLICATION: Rezoning Request from Agriculture and Open Space (AO) District to Commercial, General (CG) District.

APPLICANT: Javier Hernandez

AGENT: N/A

LEGAL: Being Lot 1, Unrecorded Map of Promise land Subdivision No. 2.

LOCATION: Located at 2213 E. Trenton Road.

LOT/TRACT SIZE: Lot 1

CURRENT USE: Commercial daycare use

PROPOSED USE: Commercial, General (CG) District

EXISTING ZONING: Agriculture and Open Space (AO) District

ADJACENT ZONING:
North – Agriculture and Open Space (AO) District
South – Outside of the City Limits of Edinburg
East – Agriculture and Open Space (AO) District
West – Agriculture and Open Space (AO) District

LAND USE PLAN: General Commercial Uses

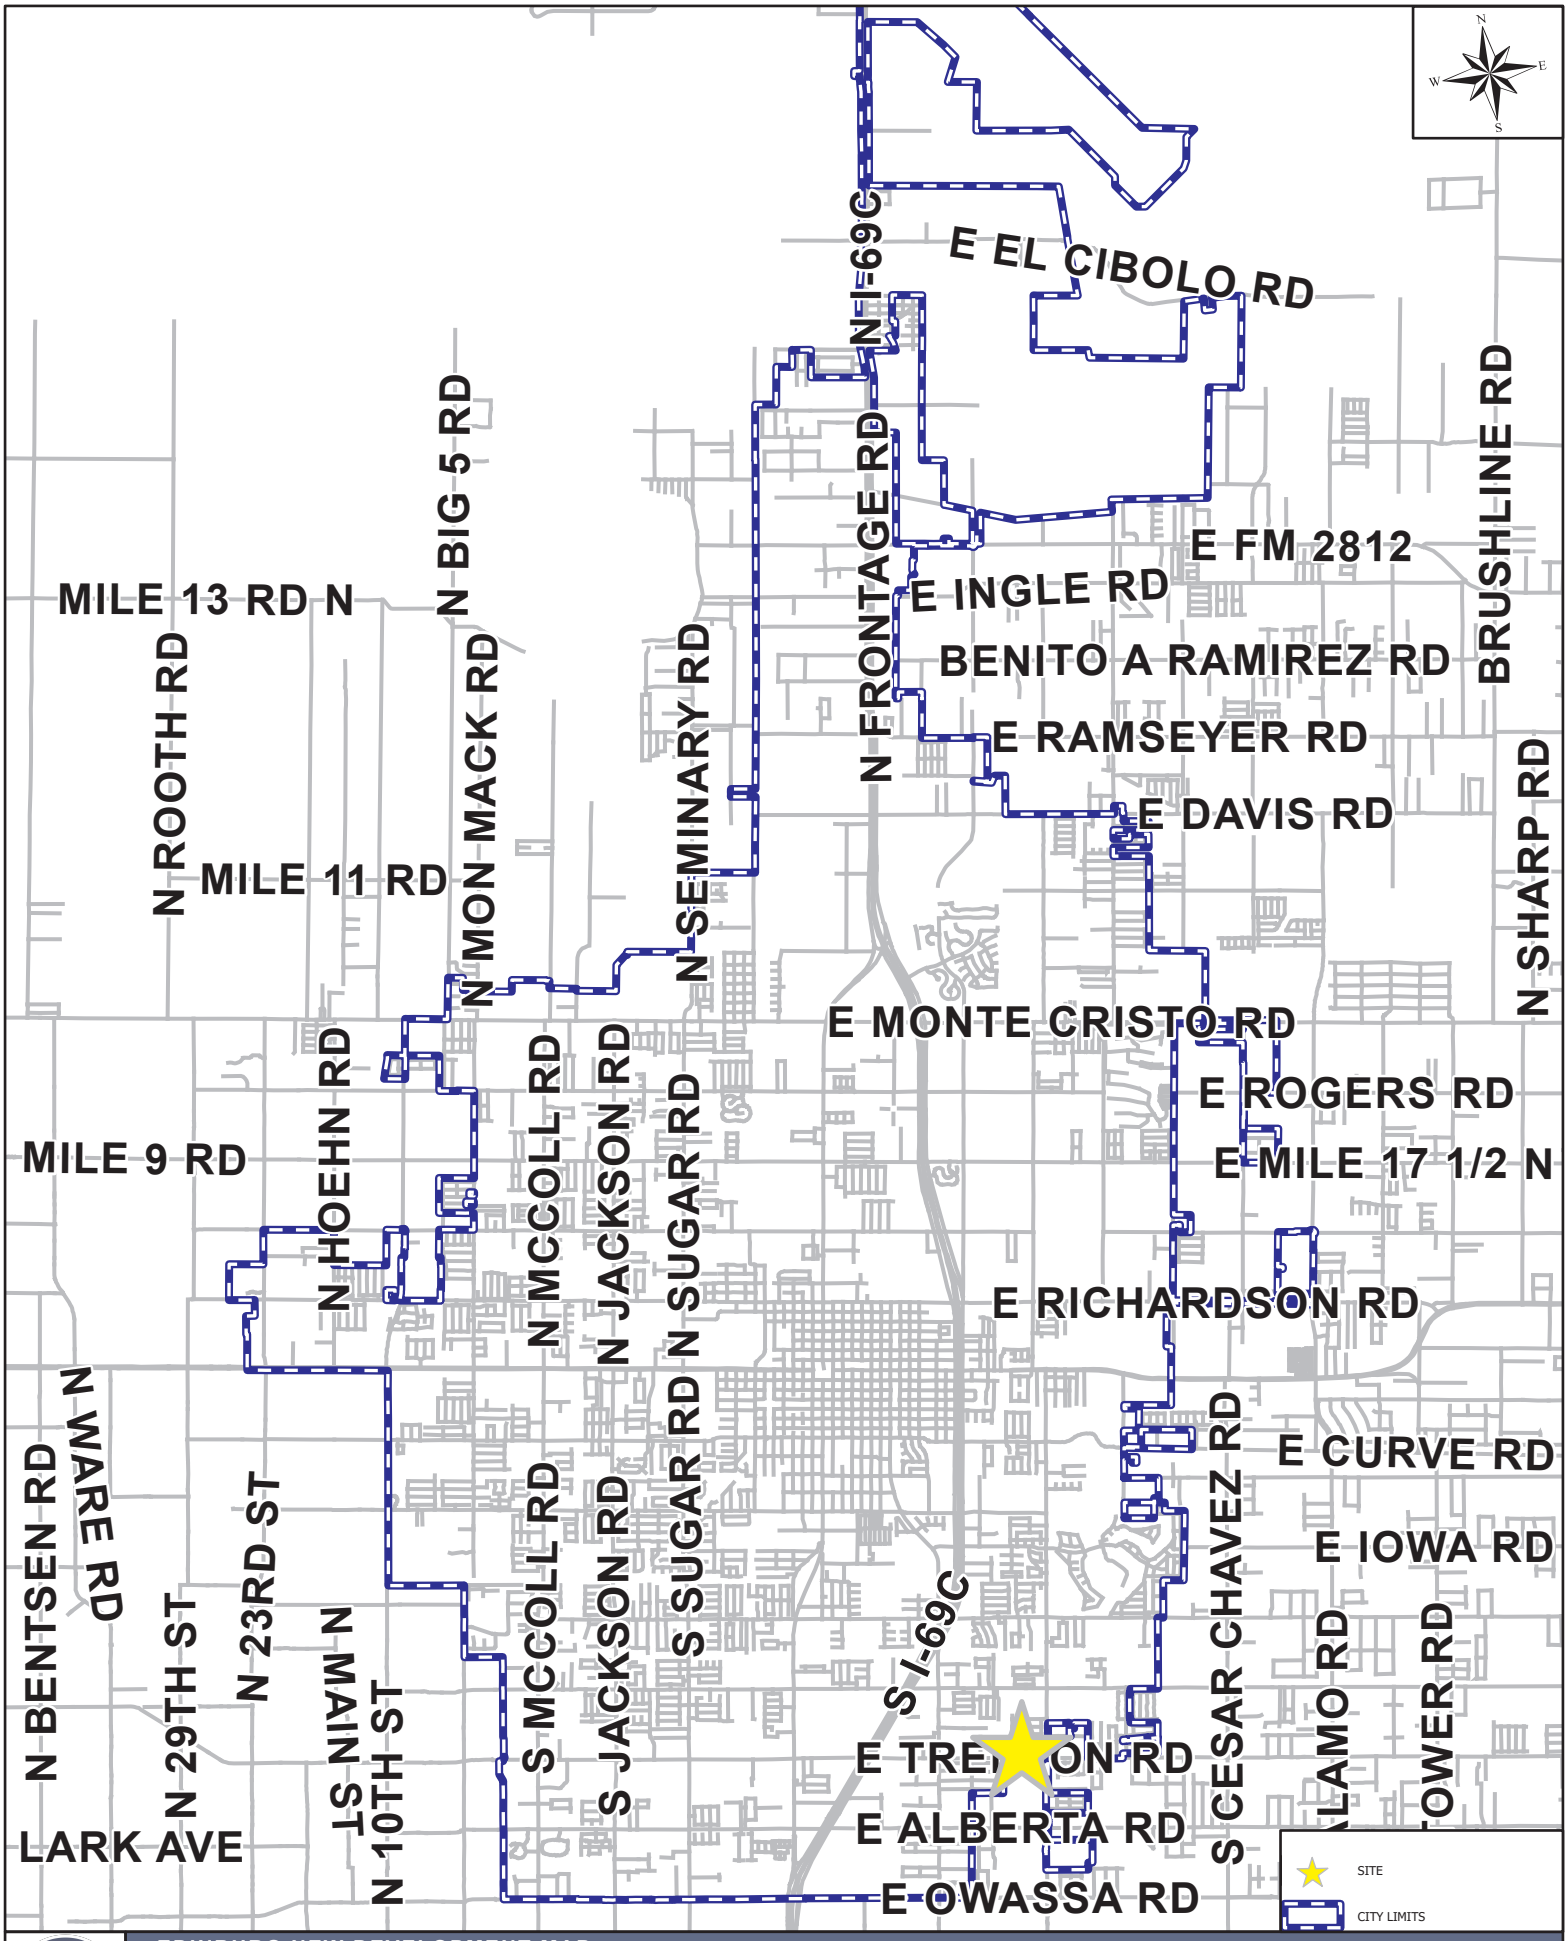
PUBLIC SERVICES: North Alamo Water Supply Corporation for Water and Sewer.

RECOMMENDATION: Staff recommends approval of the Rezoning Request from Agriculture and Open Space (AO) District to Commercial, General (CG) District.

REZONING REQUEST
JAVIER HERNANDEZ

EVALUATION

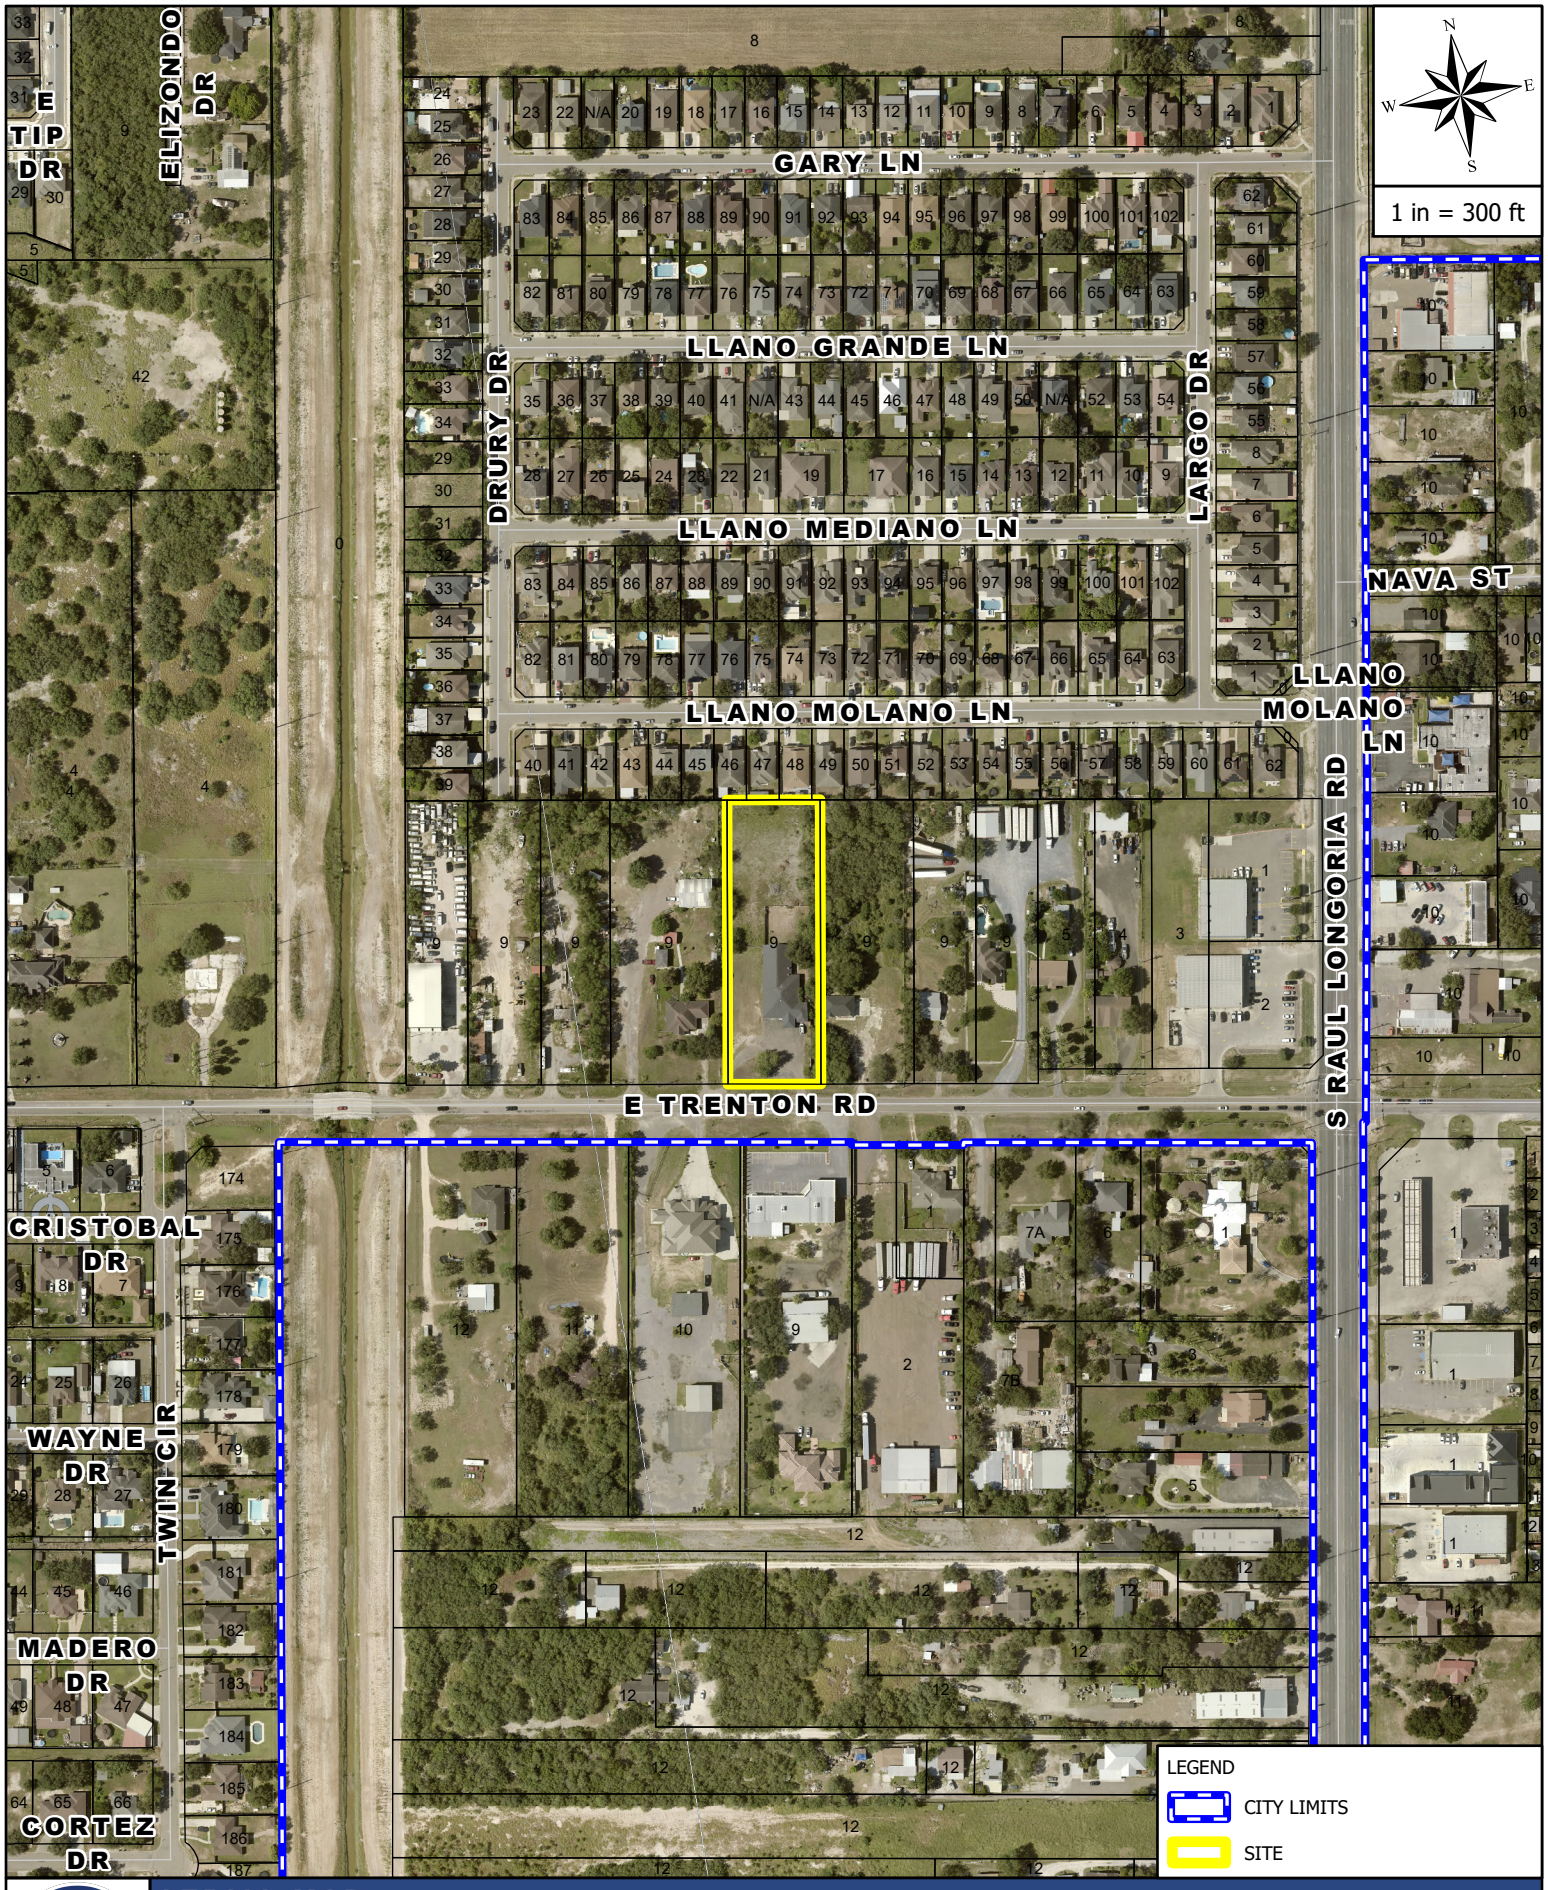
The following is the staff's evaluation of the request:



1. The property is currently a daycare.

2. Surrounding land consists of residential homes and commercial uses.

3. The proposed zoning is consistent with the Future Land Use Plan.



Staff recommends approval of the Rezoning Request from Agriculture and Open Space (AO) District to Commercial, General (CG) District, based on the surrounding land uses. If approved, the applicant will need to comply with all requirements during the permitting process including compliance with subdivision regulations, building/fire codes, fire protection, parking, landscape buffer-yards, solid waste services, utility, and other City requirements, as applicable.

Staff mailed a notice of the public hearing to 45 neighboring property owners on Friday, June 26, 2026, and received no comments in favor or against at the time this report was prepared. Notice of this public hearing was published in the newspaper on July 29, 2026.

ORDINANCE NO. _____

AN ORDINANCE AMENDING, SUPPLEMENTING, AND CHANGING THE BOUNDARIES AGRICULTURE AND OPEN SPACE (AO) DISTRICT TO COMMERCIAL, GENERAL (CG) DISTRICT, ALL OF LOT 1, UNRECORDED MAP OF PROMISE LAND SUBDIVISION NO. 2, LOCATED AT 2213 E. TRENTON ROAD, FROM ONE DISTRICT TO ANOTHER; PROVIDING A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING FOR CODIFICATION; PROVIDING A WAIVER OF THE THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATED TO THE SUBJECT MATTER HEREOF.

WHEREAS, the owner of the herein described real estate has submitted to the Planning and Zoning Commission of the City of Edinburg, Texas, a proposed amendment, and the proposed supplement and change to the boundaries of the Agriculture and Open Space (AO) District to Commercial, General (CG) District as set out in the Unified Development Code of the City of Edinburg, Texas, heretofore finally passed, approved, and adopted by said City Council on the 9th day of August, 2022. Such proposed amendment is to change the zoning of all of Lot 1, Unrecorded Map of Promise land Subdivision No. 2, located at 2213 E. Trenton Road, from Agriculture and Open Space (AO) District to Commercial, General (CG) District, for a recommendation and report by said Planning and Zoning Commission; and

WHEREAS, the said Planning and Zoning Commission of the City of Edinburg, Texas, gave due notice as provided by said Unified Development Code of a public hearing to be held before said Planning and Zoning Commission, on July 9, 2026, at 5:30 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, and said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes, providing said notice by U. S. Mail to all property owners and persons rendering property for taxation within 300 feet of the property affected not less than ten (10) days before said public hearing; and

WHEREAS, after such public hearing, the Planning and Zoning Commission of the City of Edinburg, Texas, presented its report to the City Council of the City of Edinburg that they approved the change in zoning of said property, from one district to the other; and

WHEREAS, after receipt of the final report from the Planning and Zoning Commission, the City Council of said City provided due notice, as provided by said Unified Development Code to be held before said City Council, and notice was published one time in a newspaper published in the City of Edinburg, Texas, and of general circulation in said City, stating that a public hearing to consider said proposed revision would be held on August 18, 2026, at 6:00 P.M., in the Edinburg City Hall, City Council Chambers, located at 415 West University Drive, Edinburg, Texas, which time was not less than 15 days nor more than 20 days from the date of publication, and that said public hearing was held at such time and place, and all of which procedure in the giving of notice and the holding of said public hearing is hereby ratified and confirmed as meeting all the requirements of said Unified Development Code of the City of Edinburg, Texas and applicable statutes; and

WHEREAS, having held said public hearing, it is the opinion of the City Council of the City of Edinburg, Texas that such change and revision should be made.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. AUTHORITY OF LAW: All requirements of the law have been met in the passing of this Ordinance.

SECTION II. The zoning of the first above-described property is hereby changed from Agriculture and Open Space (AO) District, and Commercial, General (CG) District and the boundaries of said Districts are hereby amended, supplemented and changed so as to delete the said area from the said Agriculture and Open Space (AO) District and added to the Commercial, General (CG) District.

SECTION III. REPEALER CLAUSE: This Ordinance shall be cumulative of all other ordinances dealing with the same subject and any provision of any ordinance in direct conflict with any provision of this ordinance is hereby repealed and the provisions of this Ordinance shall supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION IV. SAVINGS CLAUSE: If any section, part, or provision of this Ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V. PUBLICATION AND EFFECTIVE DATE: This Ordinance shall take effect immediately upon its passage and publication according to law.

SECTION VI. CODIFICATION: That this Ordinance shall not be published in the Code of Ordinances of the City of Edinburg, Texas, as it is not amendatory thereof.

SECTION VII. WAIVER CLAUSE: This requirement of three separate readings of this

Ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on the 18th day of August 2026.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
ORDINANCE
Agenda Item No: 11.A.
Adoption of 2024 Family of International Building Codes and 2023 National Electrical Code

1. **Agenda Item:**
Consider Ordinance Amending the Code of Ordinances of the City of Edinburg at Title IX, General Regulations, Chapter 93, Fire Protection and Prevention, adopting the International Fire Code, 2024 Edition, including Appendices B, C, and D; and amending Title XV, Land Usage Chapter 151, Building Regulations by adopting the following 2024 Codes: International Building Code including Appendices A, C, D, F, G, H, and J; thereof: International Existing Building Code, International Fuel Gas Code, International Residential Code, adding Appendices BB and BC thereof; the 2023 National Electrical Code, International Mechanical Code, International Plumbing Code, International Swimming Pool and Spa Code, International Property Maintenance Code, International Private Sewage Disposal Code, and the International Energy Code, as promulgated by the International Code Council (ICC) [Natalia Velasquez, MCP, CBO, Chief Building Official]

2. **Description:**
The City of Edinburg regulates the construction, alteration, occupancy and maintenance of buildings through the adoption and enforcement of a series of Codes. Currently, the City operates under the 2018 International Code Council (ICC) Codes and the 2017 National Electrical Code. These Codes regulate commercial and residential structures, including fire protection, plumbing, mechanical and electrical building elements. The City is proposing to adopt the 2024 ICC Codes and the 2023 National Electrical Code as specified above. The adoption of the 2024 Family of International Building Codes and 2023 National Electrical Code is being recommended in an effort to keep up with the most current technical requirements for the construction of residential and non-residential buildings within the City's jurisdiction.

According to Best Practices in the Industry, current codes should be no more than two cycles behind the latest edition. Falling too far behind can affect Insurance Services Office (ISO) ratings for cities and increase insurance rates.

Staff conducted the following public outreach for these proposed changes:

- Workshop with industry representatives in June 2026 and August 2026.
- Follow-up presentation summarizing the workshop material and highlighting the proposed changes emailed to industry representatives.

Surrounding cities, such as McAllen, Mission, and Harlingen, have adopted and are enforcing the 2024 ICC Codes and 2023 National Electrical Code, so most industry representatives are already familiar with these proposed changes.

If approved, staff is proposing a grace period to allow for the transition to the new codes and will start enforcing them on January 1, 2027.

3. **Staff's Recommendation:**

Approve Ordinance Amending the Code of Ordinances of the City of Edinburg Title IX, General Regulations, Chapter 93, Fire Protection and Prevention, adopting the International Fire Code, 2024 Edition, including Appendices B, C, and D; and amending Title XV, Land Usage, Chapter 151, Building Regulations, by adopting the following 2024 Codes: International Building Code including Appendices A, C, D, F, G, H, and J; thereof; International Existing Building Code, International Fuel Gas Code, International Residential Code, adding Appendix BB and BC thereof; the 2023 National Electrical Code, International Mechanical Code, International Plumbing Code, International Swimming Pool and Spa Code, International Property Maintenance Code, International Private Sewage Disposal Code, and the International Energy Code, as promulgated by the International Code Council (ICC).

Building Code UPDATES

City Council Meeting
August 18, 2026

What are Building Codes?

- Family of Codes developed by the International Code Council (ICC)
- Help ensure safe, sustainable, and resilient structures
- ICC Codes are the most widely accepted, comprehensive set of model codes used in the United States in all 50 states
- Commonly used in conjunction with the National Electrical Code

Codes for Adoption

- 2024 International Building Code
- 2024 International Residential Code
- 2024 International Existing Building code
- 2024 International Fuel Gas Code
- 2024 International Energy Conservation Code
- 2024 International Plumbing Code
- 2024 International Private Sewage Disposal Code
- 2024 International Mechanical Code
- 2024 International Swimming Pool and Spa Code
- 2024 International Property Maintenance Code
- 2024 International Fire Code
- 2023 National Electrical Code

Adoption Cycle

- *International Code Council (ICC) releases new codes every three years*
- *Edinburg adopted the 2018 ICC Codes and the 2017 National Electrical Code on 2021*
- *Staff did not bring forward 2021 ICC Codes for adoption*
- *2024 ICC Codes and 2023 National Electrical Code released for adoption*
- *Best practice to adopt the most current codes and not to be more than one code cycle behind*
    - *Can effect ISO ratings for cities if they get behind*
    - *Can increase insurance rates for the residents*

ISO -Insurance Services Office

Strategic Pillars and Milestones

- Milestone
  - Conducted Two Construction Industry workshops on June 2026 and August 2026
- Pillar One
  - Review City Ordinances and regulations to improve and facilitate redevelopment

- Updated building codes are separate from the Unified Development Code (UDC) process.
  - UDC covers uses of property and type, location, bulk and appearance of structures on a property
  - Building codes regulate the technical aspects of construction to ensure they are built soundly and can be occupied safely

Comparison Cities Survey

City	ICC Code Edition	National Electrical Code Edition
Edinburg (Current/Proposed)	2018/2024	2017/2023
McAllen	2024	2023
Mission	2024	2023
Pharr	2018*	2017*
Harlingen	2024	2023
Weslaco	2018*	2017*

*Currently discussing adopting 2024 ICC codes and enforced on early 2027

Highlights

- 2024 Codes addresses Tiny Homes, Solar Panels, new innovating building materials and construction methods, not part of our current codes.
- New codes would become effective January 2027

Questions

ORDINANCE NO. _____

ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF EDINBURG, TEXAS TITLE IX: GENERAL REGULATIONS, CHAPTER 93: FIRE PROTECTION AND PREVENTION, SECTION 93.20: FIRE CODE ADOPTED, ADOPTING THE INTERNATIONAL FIRE CODE, 2024 EDITION, INCLUDING APPENDICES B, C, AND D; AND AMENDING TITLE XV: LAND USAGE, CHAPTER 151 BUILDING REGULATIONS BY ADOPTING THE FOLLOWING 2024 CODES: INTERNATIONAL BUILDING CODE INCLUDING APPENDICES A, C, D, F, G, H, AND J, THEREOF, INTERNATIONAL EXISTING BUILDING CODE, INTERNATIONAL RESIDENTIAL CODE, AND ADDING APPENDIX BB AND BC THEREOF, THE 2023 NATIONAL ELECTRICAL CODE, INTERNATIONAL FUEL GAS CODE, INTERNATIONAL MECHANICAL CODE, INTERNATIONAL PLUMBING CODE, INTERNATIONAL SWIMMING POOL AND SPA CODE, INTERNATIONAL PROPERTY MAINTENANCE CODE, INTERNATIONAL PRIVATE SEWAGE DISPOSAL CODE, INTERNATIONAL ENERGY CODE, AND THE INTERNATIONAL WILDLAND-URBAN INTERFACE CODE, AS PROMULGATED BY THE INTERNATIONAL CODE COUNCIL; PROVIDING FOR A REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR PUBLICATION AND EFFECTIVE DATE; PROVIDING FOR CODIFICATION; PROVIDING A WAIVER OF THE THREE (3) SEPARATE READINGS; AND ORDAINING OTHER PROVISIONS RELATING TO THE SUBJECT MATTER HEREOF.

WHEREAS, the City Council deems it is in the best interests of the City, to protect the public health, safety, and welfare, to amend the Edinburg Code of Ordinances and adopt the 2024 International Building Codes as setout herein; and

WHEREAS, these Codes and any applicable Appendices would also apply to any alterations, remodeling, enlargement, or repair to any building within the jurisdiction of the City.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EDINBURG, TEXAS, THAT:

SECTION I. The following codes are hereby adopted by reference as though set out herein in full:

INTERNATIONAL FIRE CODE, 2024 EDITION, INCLUDING APPENDICES B, C, AND D;
INTERNATIONAL BUILDING CODE, 2024 EDITION, WITH APPENDICES A, C, D, F, G, H, AND J THEREOF;

INTERNATIONAL EXISTING BUILDING CODE, 2024 EDITION;
INTERNATIONAL RESIDENTIAL CODE, 2024 EDITION, WITH APPENDICES BB AND BC, THEREOF;
THE NATIONAL ELECTRICAL CODE, 2023 EDITION;
INTERNATIONAL FUEL GAS CODE, 2024 EDITION;
INTERNATIONAL MECHANICAL CODE, 2024 EDITION;
INTERNATIONAL PLUMBING CODE, 2024 EDITION;
INTERNATIONAL SWIMMING POOL AND SPA CODE, 2024 EDITION;
INTERNATIONAL PROPERTY MAINTENANCE CODE, 2024 EDITION;
INTERNATIONAL PRIVATE SEWAGE DISPOSAL CODE, 2024 EDITION;
INTERNATIONAL ENERGY CODE, 2024 EDITION;
INTERNATIONAL WILDLAND-URBAN INTERFACE CODE, 2024 EDITION.

SECTION II. The Code of Ordinances of the City of Edinburg, Title IX ("General Regulations"), Chapter 93 ("Fire Protection and Prevention"), Section 93.20 ("Fire Code Adopted") is hereby amended and shall read in its entirety as follows:

Sec. 93.20 Fire Code Adopted

The International Fire Code, 2024 Edition, including Appendices B, C, and D, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file in the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Fire Prevention Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided, however, should there be any conflict between the provisions of this Code of Ordinances and the International Fire Code, including Appendix B, C, and D, then in such event, the provisions of this Code shall govern and control.

SECTION III. The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 150 ("General Provisions"), Section 151.040 ("Building Code Adopted") is hereby amended to read in its entirety as follows:

Sec. 151.040 – Building Code Adopted.

The International Building Code, 2024 Edition, with Appendices A, C, D, F, G, H, and J as amended, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file in the Office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Building Code of the City, and the same is hereby made a part of this Code of Ordinances, as fully and to the same extent as though set out herein in full; provided, however, should there by any conflict between the provisions of this code and the International Building Code, then in such event, the provisions of this code shall govern and control.

SECTION IV: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 ("Building Regulations"), Section 151.042 ("Existing Building Code Adopted") is hereby amended and shall read in its entirety as follows:

Sec. 151.042 – Existing Building Code Adopted.

The International Existing Building Code, 2024 Edition, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file in the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Existing Building Code of the City, and the same is hereby made a part of this Code of Ordinances, as fully and to the same extent as though set out herein in full; provided, however, should there be any conflict between the provisions of this code and the International Existing Building Code, then in such event, the provisions of this code shall govern and control.

SECTION V: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.050 ("Residential Code Adopted") is hereby amended and shall read in its entirety as follows:

Sec. 151.050 – Residential Code Adopted.

The International Residential Code, 2024 Edition, as promulgated by the International Code Council, with Appendix BB and BC except as provided for in Chapter 766, Health and Safety Code, a printed, bound copy of which code is on file and shall remain on file in the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Residential Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided, however, should there be any conflict between the provisions of this code and the International Residential Code, then in such event, the provisions of this code shall govern and control.

SECTION VI: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.060 ("Electrical Code Adopted") is hereby amended and shall read in its entirety as follows:

Sec. 151.060 – Electrical Code Adopted.

The National Electrical Code (NFPA 70), 2023 Edition, as promulgated by the National Fire Protection Association 70, a printed, bound copy of which code is on file and shall remain on file at the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Electrical Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided however, should there be any conflict between the provisions of this code and the National Electrical Code, then in such event, the more restricted provision of these codes shall govern and control.

SECTION VII: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.070 ("Fuel Gas Code Adopted") is hereby amended and shall read in its entirety as follows:

Sec. 151.070 – Fuel Gas Code Adopted

The International Fuel Gas Code, 2024 Edition, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file in the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Fuel Gas Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided, however, should there be any conflict between the provisions of this code and the Fuel Gas Code, then in such event, the provisions of this code shall govern and control.

SECTION VIII: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.080 ("Mechanical Code Adopted") is hereby amended and shall read in its entirety as follows:

Sec. 151.080 – Mechanical Code Adopted.

The International Mechanical Code, 2024 Edition, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file in the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the mechanical code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided, however, should there be any conflict between the provisions of this code and the International Mechanical Code, then in such event, the provisions of this code shall govern and control.

SECTION IX: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.100 ("Plumbing Code Adopted") is hereby amended to read in its entirety as follows:

Sec. 151.100 – Plumbing Code Adopted.

The International Plumbing Code, 2024 Edition, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file at the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Plumbing Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided however, should there be any conflict between the provisions of this code and the International Plumbing Code, then in such event, the more restricted provision of these codes shall govern and control.

SECTION X: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.115 ("Swimming Pool And Spa Code Adopted") is hereby amended to read in its entirety as follows:

Sec. 151.115 – Swimming Pool And Spa Code Adopted.

The International Swimming Pool and Spa Code, 2024 Edition, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file in the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Swimming Pool and Spa Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided, however, should there be any conflict between the provisions of this code and the International Residential Code, then in such event, the provisions of this code shall govern and control.

SECTION XI: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.120 ("Property Maintenance Code Adopted") is hereby amended to read in its entirety as follows:

Sec. 151.120 – Property Maintenance Code Adopted.

The International Property Maintenance Code, 2024 Edition, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file in the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Property Maintenance Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided, however, should there by any conflict between the provisions of this code and the International Property Maintenance Code, then in such event, the provisions of this code shall govern and control.

SECTION XII: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.125 ("Private Sewage Disposal Code Adopted") is hereby amended to read in its entirety as follows:

Sec. 151.125 – Private Sewage Disposal Code Adopted.

The International Private Sewage Disposal Code, 2024 Edition, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file in the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Private Sewage Disposal Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided, however, should there be any conflict between the provisions of this code and the International Private Sewage Disposal Code, then in such event, the provisions of this code shall govern and control.

SECTION XIII: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.130 ("Energy Code Adopted") is hereby amended to read in its entirety as follows:

Sec. 151.130 – Energy Code Adopted

The International Energy Code, 2024 Edition, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file at the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Energy Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided however, should there be any conflict between the provisions of this code and the International Energy Code, then in such event, the more restricted provision of these codes shall govern and control.

SECTION XIV: The Code of Ordinances of the City of Edinburg, Title XV ("Land Usage"), Chapter 151 "("Building Regulations"), Section 151.135 ("Wildland-Urban Interface Code Adopted") is hereby amended to read in its entirety as follows:

Sec. 151.135 – Wildland-Urban Interface Code Adopted.

The International Wildland-Urban Interface Code, 2024 Edition, as promulgated by the International Code Council, a printed, bound copy of which code is on file and shall remain on file at the office of the City Secretary, except as otherwise specifically provided in this Code of Ordinances, is hereby adopted and enacted as the Wildland-Urban Interface Code of the City, and the same is hereby made a part of this Code of Ordinances as fully and to the same extent as though set out herein in full; provided however, should there be any conflict between the provisions of this code and the International Wildland-Urban Interface Code, then in such event, the more restricted provision of these codes shall govern and control.

SECTION XV. AUTHORIZED OFFICIAL: Within said codes, when reference is made to the duties of a certain official named therein, that designated official of the City of Edinburg who has duties corresponding to those of the named official in said code shall be deemed to be the responsible official insofar as enforcing the provisions of said code is concerned.

SECTION XVI. INCORPORATION OF RECITALS. The City Council finds that the statements set forth in the Recitals are true and correct and the City Council hereby incorporates such Recitals as findings of fact.

SECTION XVII. AUTHORITY OF LAW. All requirements of the law have been met in the passing of this Ordinance.

SECTION XVIII. SAVINGS CLAUSE: If any section, part, or provision of this Ordinance is declared unconstitutional or invalid, by a court of competent jurisdiction, then, in that event, it is expressly provided, and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION XIX. REPEALER CLAUSE: This Ordinance shall be cumulative of all other ordinances dealing with the same subject, and any provision of any ordinance in direct conflict with any provision of this Ordinance is hereby repealed and the provisions of this Ordinance shall

supersede any provisions in conflict herewith; all provisions of any other ordinance not in conflict herewith shall remain in full force and effect.

SECTION XX. PUBLICATION AND EFFECTIVE DATE: This Ordinance shall take effect January 1, 2027 and publication according to law.

SECTION XXI. CODIFICATION: That the provisions of Sections I through XIV of this Ordinance shall be published in the applicable location in the Code of Ordinances of the City of Edinburg, Texas and this Ordinance shall be published in the Code of Ordinances of the City of Edinburg, Texas.

SECTION XXII. WAIVER CLAUSE. The requirement of three separate readings of this Ordinance is hereby dispensed with by a vote of not less than a majority of all the members of the City Council.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of the City of Edinburg, Texas, at which a quorum was present and which was held in accordance with V.T.C.A., Government Code, Section 551.041, on August 18, 2026.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
VARIANCE
Agenda Item No: 12.A.
Subdivision Variance Request - Melden & Hunt, Inc.

1. **Agenda Item:**
Consider Variance Request to the City's Unified Development Code, Article 5, Section 5.206 Lots, Subsection 5.206-B Required Lot Frontage, for the Proposed Jackson Estates Phase II Subdivision, Being Lot 1, Dr. Carl R. Love Subdivision, an Addition to the City of Edinburg, Hidalgo County, Texas, Located at 5302 S. Jackson Road, as Requested by Melden & Hunt, Inc. [Jaime Acevedo, Director of Planning and Zoning]

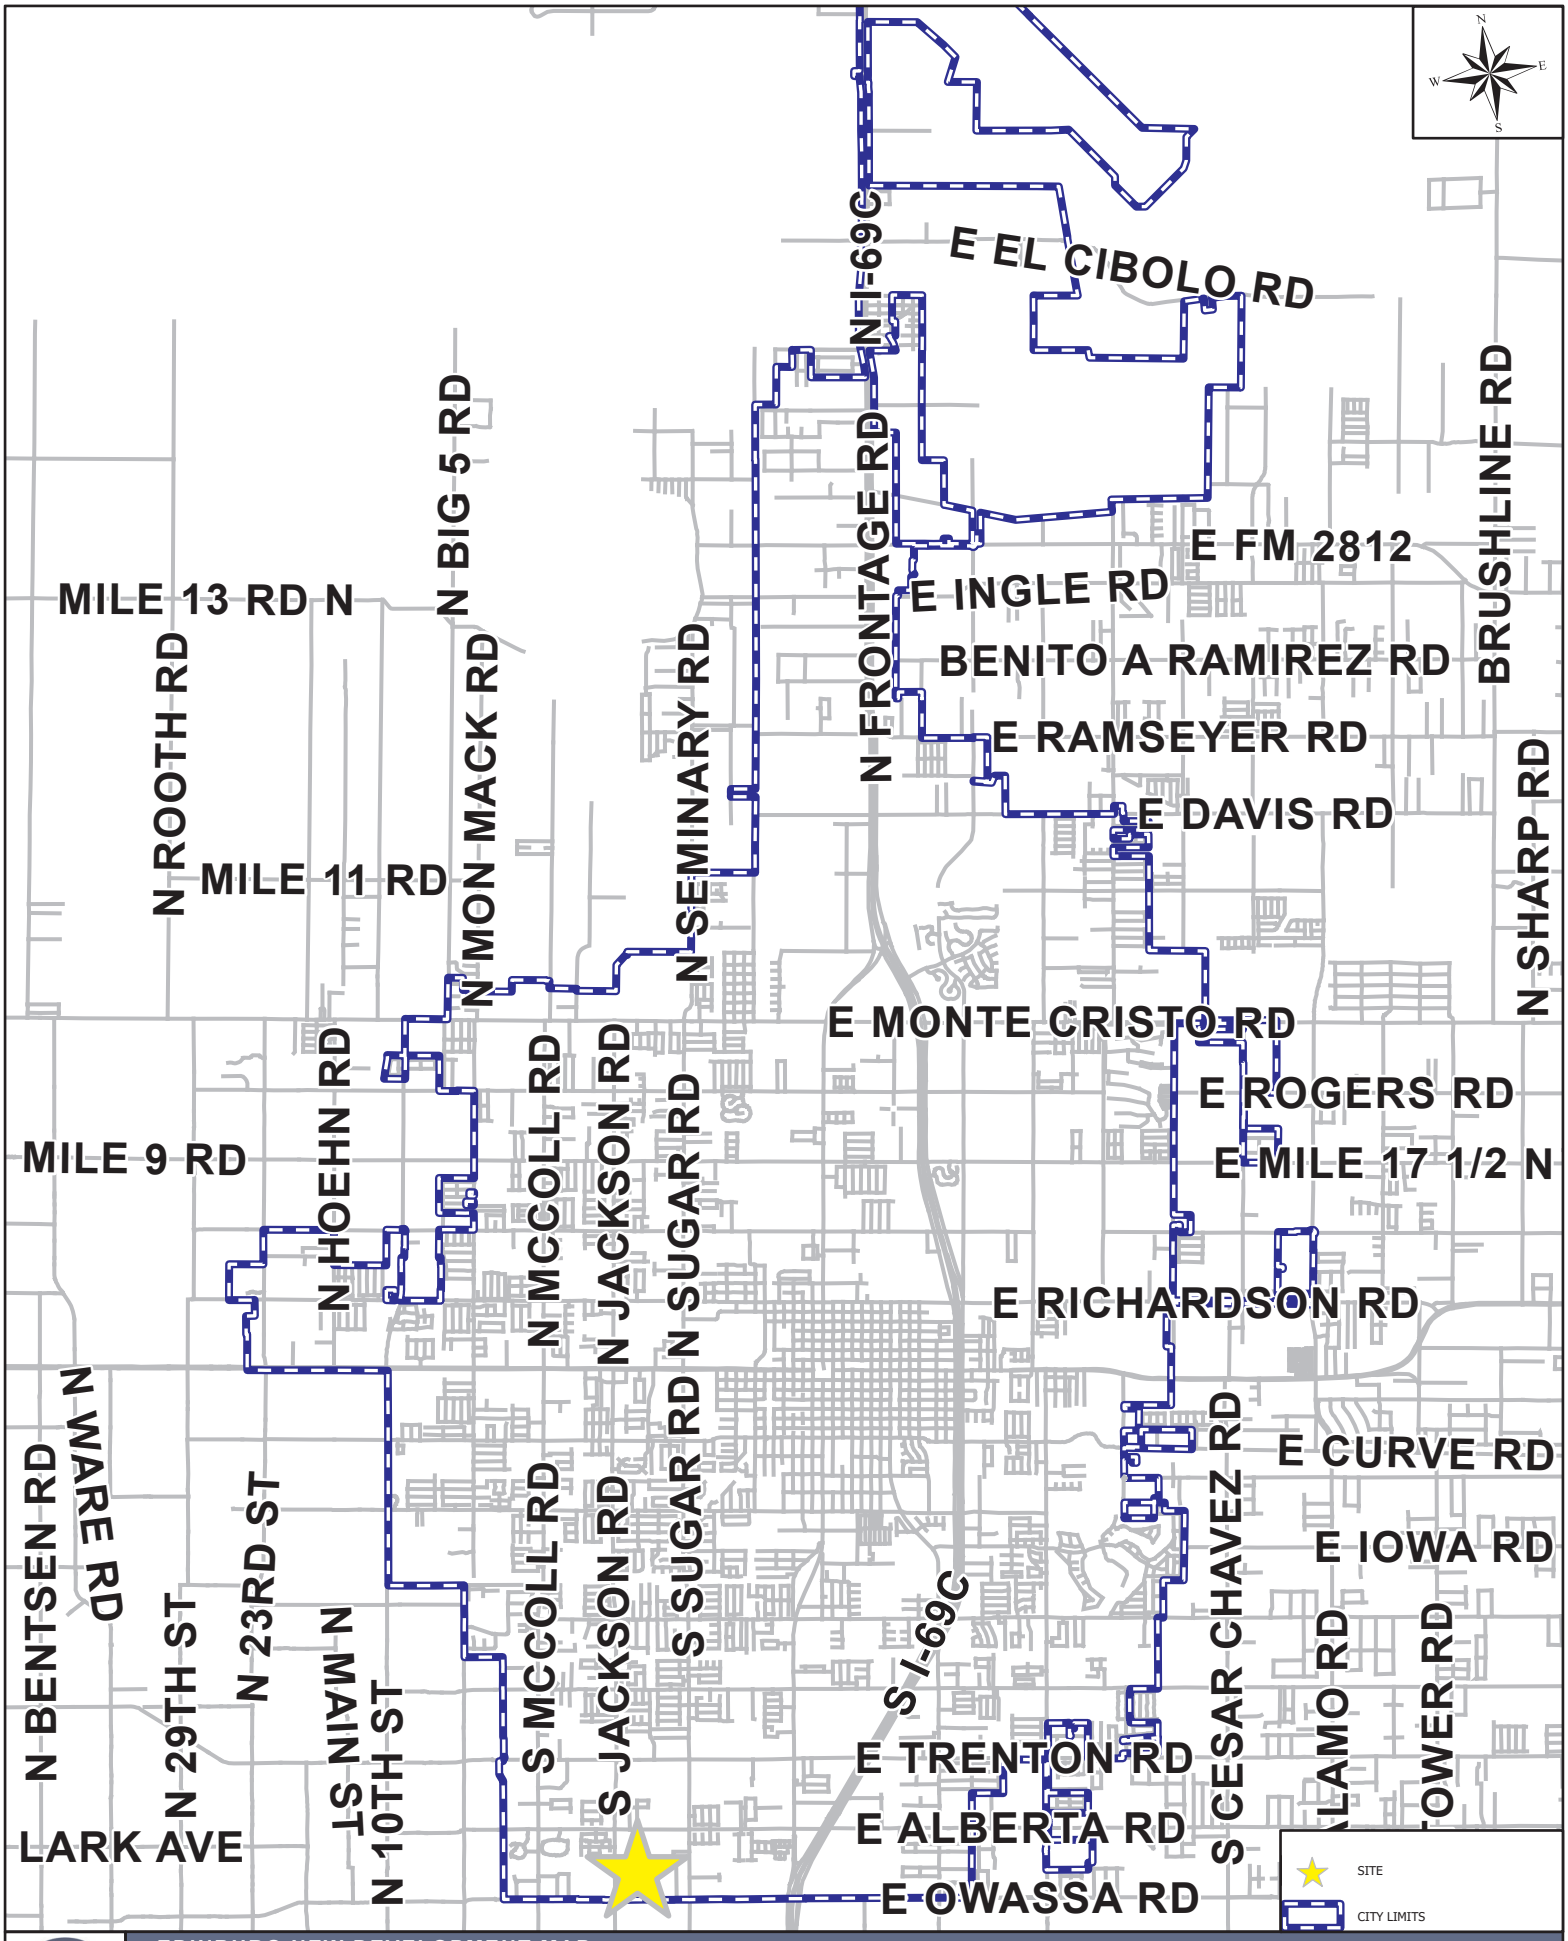
2. **Description:**
The property is located at the east side of S. Jackson Road and approximately 1,230 feet north of W. Owassa Road and S. Jackson Road intersection. This property is within the City of Edinburg, City Limits. This project is currently going through a subdivision process with the Planning and Zoning Department. Melden & Hunt, Inc., on behalf of the developer, is requesting a variance to the City's Unified Development Code (UDC) for the aforementioned subdivision.

1. **Variance Request: Article 5, Section 5.206, Lots, Subsection 5.206-B, Required Lot Frontage**

The requested variance is to Article 5.206 Lots, Subsection 5.206-B Required Lot Frontage. The City of Edinburg Unified Development Code states that every lot shall have frontage along the right-of-way lines of a street. The developer is requesting a variance to allow for Lot 2 not to require a frontage along a right-of-way line of a street. The developer is proposing a 26-foot access easement along the north side of the lot, as their only means of access to the lot.

On July 23, 2026, the Planning and Zoning Commission recommended, with a unanimous vote of 4-0, to approve the variance request.

3. **Staff's Recommendation:**



Staff recommends denial of the variance requests to ensure public safety, efficient traffic flow, and neighborhood aesthetics. Staff requests the applicant to comply with all requirements of the City of Edinburg Unified Development Code.

3.945 ACRES
BEING OUT OF LOT 1,
DR. CARL R. LOVE SUBDIVISION
CITY OF EDINBURG
COUNTY OF HIDALGO, TEXAS

METES AND BOUNDS DESCRIPTION

A TRACT OF LAND CONTAINING 3.945 ACRES SITUATED IN THE CITY OF EDINBURG, COUNTY OF HIDALGO, TEXAS, BEING OUT OF LOT 1, DR. CARL R. LOVE SUBDIVISION, ACCORDING TO THE PLAT THEREOF RECORDED INSTRUMENT NUMBER 3560227, HIDALGO COUNTY DEED RECORDS, WHICH SAID 3.945 ACRES BEING A CERTAIN TRACT CONVEYED TO BR GROUPS LLC, A TEXAS LIMITED LIABILITY COMPANY, BY VIRTUE OF A WARRANTY DEED RECORDED UNDER DOCUMENT NUMBER 3333546, HIDALGO COUNTY OFFICIAL RECORDS, SAID 3.945 ACRES ALSO BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING, AT THE NORTHWEST CORNER OF SAID LOT 1, DR. CARL R. LOVE SUBDIVISION AND WITHIN THE EXISTING RIGHT-OF-WAY OF JACKSON ROAD (N: 16617777.133; E: 1084282.18) AND POINT OF BEGINNING OF THIS HEREIN DESCRIBED TRACT;

1. THENCE, S 81° 29' 28" E, ALONG THE SOUTH LINE OF LOT 1, OF SAID DR. CARL R. LOVE SUBDIVISION, AT A DISTANCE OF 20.00 FEET PASS THE EXISTING EAST RIGHT-OF-WAY LINE OF JACKSON ROAD, AT A DISTANCE OF 20.76 FEET PASS A NO. 4 REBAR IN LINE, CONTINUING A TOTAL DISTANCE OF 1,458.30 FEET TO THE SOUTHEAST CORNER OF SAID LOT 1, FOR THE NORTHEAST CORNER OF THIS TRACT;
2. THENCE, S 08° 30' 32" W ALONG THE EAST LINE OF SAID LOT 1, A DISTANCE OF 194.48 FEET TO A NO. 4 REBAR SET, FROM WHICH A NO. 4 REBAR FOUND BEARS S 67° 53' 41" E A DISTANCE OF 0.80 FEET, FOR THE SOUTHEAST CORNER OF THIS TRACT;
3. THENCE, N 81° 29' 28" W, AT A DISTANCE OF 1,438.30 FEET PASS A NO. 4 REBAR SET ON THE EXISTING EAST RIGHT-OF-WAY LINE OF JACKSON ROAD, FROM WHICH A NO. 4 REBAR FOUND BEARS S 07° 49' 18" E A DISTANCE OF 0.64 FEET, CONTINUING A TOTAL DISTANCE OF 1,458.30 FEET TO A CUT "X" IN CONCRETE SET, FOR THE SOUTHWEST CORNER OF THIS TRACT;
4. THENCE, N 08° 30' 32" E, ALONG THE WEST LINE OF SAID LOT 1, A DISTANCE OF 119.48 FEET TO THE POINT OF BEGINNING AND CONTAINING 3.945 ACRES OF WHICH 0.096 OF ONE ACRE LIES WITHIN THE EXISTING RIGHT-OF-WAY OF JACKSON ROAD LEAVING A NET OF 3.849 ACRES OF LAND, MORE OR LESS.

GENERAL PLAT NOTES AND RESTRICTIONS:

1. FLOOD ZONE STATEMENT:
   FLOOD ZONE DESIGNATION ZONE "B".
   IS "AREAS BETWEEN LIMITS OF THE 100-YEAR FLOOD AND 500-YEAR FLOOD; OR CERTAIN AREAS SUBJECT TO 100-YEAR FLOODING WITH AVERAGE DEPTH THEN LESS THAN ONE (1) FOOT OR WHERE THE CONTRIBUTING DRAINAGE AREA IS LESS THAN ONE SQUARE MILE OR AREAS PROTECTED BY LEVEES FROM THE BASE FLOOD.
   AS PER FLOOD PLAIN COMMUNITY- PANEL No. 480338 0030 E ; MAP REVISED: JUNE 6, 2000, REVISED TO REFLECT LOMR MAY 14, 2001.
2. THIS PROPERTY IS ZONED AS RESIDENTIAL MULTIFAMILY (RM) AND COMMERCIAL, GENERAL DISTRICT.
3. THE FOLLOWING BENCHMARK ARE IDENTIFIED ON THE FACE OF THE PLAT AND ON THE ATTACHED ENGINEERING PLANS, AS PER NAVD 88 (GEOID 2012B) SQUARE CUT TOP OF INLET ELEV. 94.83 N: 16631232.7400' E: 1101551.6600'
4. MINIMUM SETBACKS SHALL BE AS FOLLOWS:
   RM-RESIDENTIAL MULTIFAMILY
   FRONT: 10.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   REAR: 10.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   SIDE: 6.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   STREET SIDE: 10.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   C-G-COMMERCIAL GENERAL
   FRONT: 25.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   REAR 10.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   SIDE: 10.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   FRONT EXTERIOR SIDE: 10.00 FEET OR EASEMENT, WHICHEVER IS GREATER
5. MINIMUM FINISHED FLOOR ELEVATION TO BE 18" ABOVE TOP OF CURB AT CENTER OF LOT & 24" ABOVE TOP OF CURB AT CENTER OF LOT COMMERCIAL.
6. SITE PLANS MUST BE SUBMITTED FOR CITY APPROVAL PRIOR TO ISSUANCE OF BUILDING PERMIT.
7. REQUIRED STORM SEWER RUNOFF DETENTION FOR THIS SUBDIVISION AS PER THE APPROVED DRAINAGE REPORT:
   41,598 CUBIC FEET (0.954 Ac. Ft.) FOR LOT 1 ___CUBIC FEET (Ac. Ft.), FOR LOT 2 ___CUBIC FEET (AC. FT.),FOR LOT 3 ___ CUBIC FEET (AC. FT.), AND FOR LOT 4 ___CUBIC FEET (AC. FT.) TO BE PROVIDED WITHIN THE PROPOSED DETENTION POND.
8. DETENTION PONDS MUST BE MAINTAINED BY THE HOME OWNERS ASSOCIATION AND NOT THE CITY OF EDINBURG.
9. NO STRUCTURE SHALL BE PERMITTED OVER ANY EASEMENT. EASEMENTS SHALL BE KEPT CLEAR OF BUILDINGS, SHEDS, SHRUBS, TREES, AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18" MATURE HEIGHT, GROUND COVER, GRASS, OR FLOWERS) AND OTHER OBSTRUCTIONS THAT WOULD INTERFERE WITH THE OPERATIONS AND MAINTENANCE OF THE EASEMENT.
10. THE ACCESS DRIVE SHALL ALWAYS BE OPEN TO EMERGENCY VEHICLES, PUBLIC AND PRIVATE UTILITY SERVICE PERSONNEL, THE U.S. POSTAL SERVICE, AND GOVERNMENTAL EMPLOYEES IN PURSUIT OF THEIR OFFICIAL DUTIES.
11. ALL CONSTRUCTION SHALL COMPLY WITH STORM WATER PREVENTION PLAN (SWP) REQUIREMENTS. EROSION AND SEDIMENTATION CONTROLS CONSTRUCTED IN ACCORDANCE WITH THE STORM WATER ORDINANCE 99-30 OF THE CITY OF EDINBURG ARE REQUIRED FOR ALL CONSTRUCTION ON EACH LOT INCLUDING SINGLE-FAMILY AND DUPLEX/MULTI-FAMILY CONSTRUCTION.
12. ALL COMMON ACCESS, PARKING AND LANDSCAPING AREAS WILL BE MAINTAINED BY THE HOA AND NOT THE CITY OF EDINBURG.
13. SAID PROPERTY SHALL COMPLY WITH THE MOST CURRENT UNIFIED DEVELOPMENT CODE AND CITY OF EDINBURG REQUIRMENTS AND SPECIFICATIONS. SUCH REQUIREMENTS MAY INCLUDE, BUT ARE NOT LIMITED TO, THE UNIFIED DEVELOPMENT CODE SETBACK, BUFFER YARDS, FLOOR AREA RATIO, LANDSCAPING, SURFACE RATIO, PARKING REQUIREMENTS, FIRE PROTECTION OR ANY OTHER CITY REQUIRMENTS.
14. A 5-FOOT SIDEWALK WITH ADA RAMPS IS REQUIRED ALONG JACKSON RD BY DEVELOPER DURING SUBDIVISION CONSTRUCTION PHASE. LOT OWNER WILL BE RESPONSIBLE FOR 5 FOOT SIDEWALK AND ADA RAMPS ALONG ELSHAM AVENUE AS PER CITY OF EDINBURG STANDARDS AT BUILDING PERMIT STAGE.
15. ALL LOTS WILL HAVE No. 4 REBAR SET ON EACH LOT CORNER WITH A PLASTIC CAP STAMPED MELDEN AND HUNT, INC.
16. OUT PARCEL "A" SHALL BE USED FOR THE PURPOSE OF DRAINAGE DETENTION FOR JACKSON ESTATES SUBDIVISION PH II ONLY AND CANNOT BE EXCHANGED OR CONVEYED OWNERSHIP, MUST BE FURNISHED AND MAINTAINED BY THE SUBDIVISION DEVELOPER UNTIL A HOME OWNERS ASSOCIATION IS ESTABLISHED.
17. ALL EASEMENTS TO BE DEDICATED BY THIS PLAT, UNLESS STATED OTHERWISE.
18. INTERIOR STREET CORNERS SHALL HAVE A 15'X 15' FOOT CORNER CLIP EASEMENT AND A 25' X25' FOOT CORNER CLIP EASEMENT AT SUBDIVISION ENTRANCE.
19. PURSUANT TO APPLICATION FIRE SAFETY REGULATIONS, THE INSTALLATION OF ADDITIONAL FIRE HYDRANTS, FIRE DEPARTMENT ACCESS ROAD(S), AND OTHER FIRE PROTECTION EQUIPMENT MAY BE MANDATED DURING THE SITE PLAN OR BUILDING PERMIT PROCESS
20. 50% OF PARKLAND FEE DEDICATION DUE AT BUILDING PERMIT STAGE. ($150 PER UNIT)
21. FOR LOT 1 AND LOT 2: THE DEVELOPER SHALL BE RESPONSIBLE FOR DETAINING AND ACCOMMODATING MORE THAN THE DETAINED VOLUME SHOWN ON THIS PLAT IF IT IS DETERMINED, AT THE PERMIT STAGE, THAT THE DETENTION REQUIREMENTS ARE GREATER THAN STATED ON THIS PLAT, DUE TO IMPERVIOUS AREA BEING GREATER THAN THE PLAT ENGINEER CONSIDERED IN THE HYDRAULIC CALCULATIONS FOR THIS SUBDIVISION.

I, THE UNDERSIGNED, CHAIRPERSON OF THE PLANNING AND ZONING COMMISSION OF THE CITY OF EDINBURG, TEXAS DO HEREBY CERTIFY THAT THIS SUBDIVISION PLAT KNOWN AS JACKSON ESTATES SUBDIVISION PH II CONFORMS TO ALL SUBDIVISION REQUIREMENTS OF THIS CITY WHEREIN MY APPROVAL IS REQUIRED

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
VARIANCE
Agenda Item No: 12.B.
Subdivision Variance Request- Eliseo Garza

1. **Agenda Item:**
Consider Variance Requests to the City's Unified Development Code, Article 3, Table 3.102-3, Townhouse and Weak-Link Townhouse Lot and Building Standards, Townhouse Lot Area and Article 3, Table 3.202-1 Nonresidential and Mixed-Use Lot Standards, Commercial, Neighborhood Lot Area for the Proposed The Town homes at Ebony Subdivision, Being a 0.68 Acre Tract of Land, Out of Lot 1, lot 2 and the East 39 Feet of Lot 3, Block 8, Enfield Estates Subdivision, Located at 198 W. Southland Ave., as Requested by Eliseo Garza. [Jaime Acevedo, Director of Planning and Zoning]

2. **Description:**
The property is located at the intersection of Tourist Drive and south of Hollywood Drive, and is within the City of Edinburg city limits. The proposed development consists of 10 single-family residential lots. The developer is requesting a variance to the City's Unified Development Code (UDC) for the aforementioned subdivision.

1. **Variance Request: Table 3.102-3**

This requested variance is to Article 3, Table 3.102-3 as it applies to the minimum lot area of the properties zoned Residential, Urban and Townhome District. The developer is proposing a lot area of 2,158 square feet. The Unified Development Code requires the lot area to be 2,500 square feet.

2. **Variance Request: Table 3.202-1**

This requested variance is to Article 3, Table 3.202-1 as it applies to the minimum lot are of the properties zoned Commercial, Neighborhood District. The developer is proposing a lot area of 7,278.19 square feet. The Unified Development Code requires for the lot area to be 10,000 square feet.

On July 23, 2026, the Planning and Zoning Commission recommended, with a vote of 4-0, approval of the Variance Requests.

3. **Staff's Recommendation:**
Staff recommends denial of the variance request, as it fails to meet the Unified Development Code's minimum lot area requirements. The City of Edinburg enforces these minimums to manage density, prevent strain on local infrastructure, and mitigate flood risks by ensuring adequate permeable surfaces. Should the board approve this variance, the applicant remains responsible for complying with all other requirements during the standard permitting process.

Townhouse	8,000 ⇒	2,500	25	10 / 18[1]	0 / 6[2]	10 / 18[1]	3	35	8

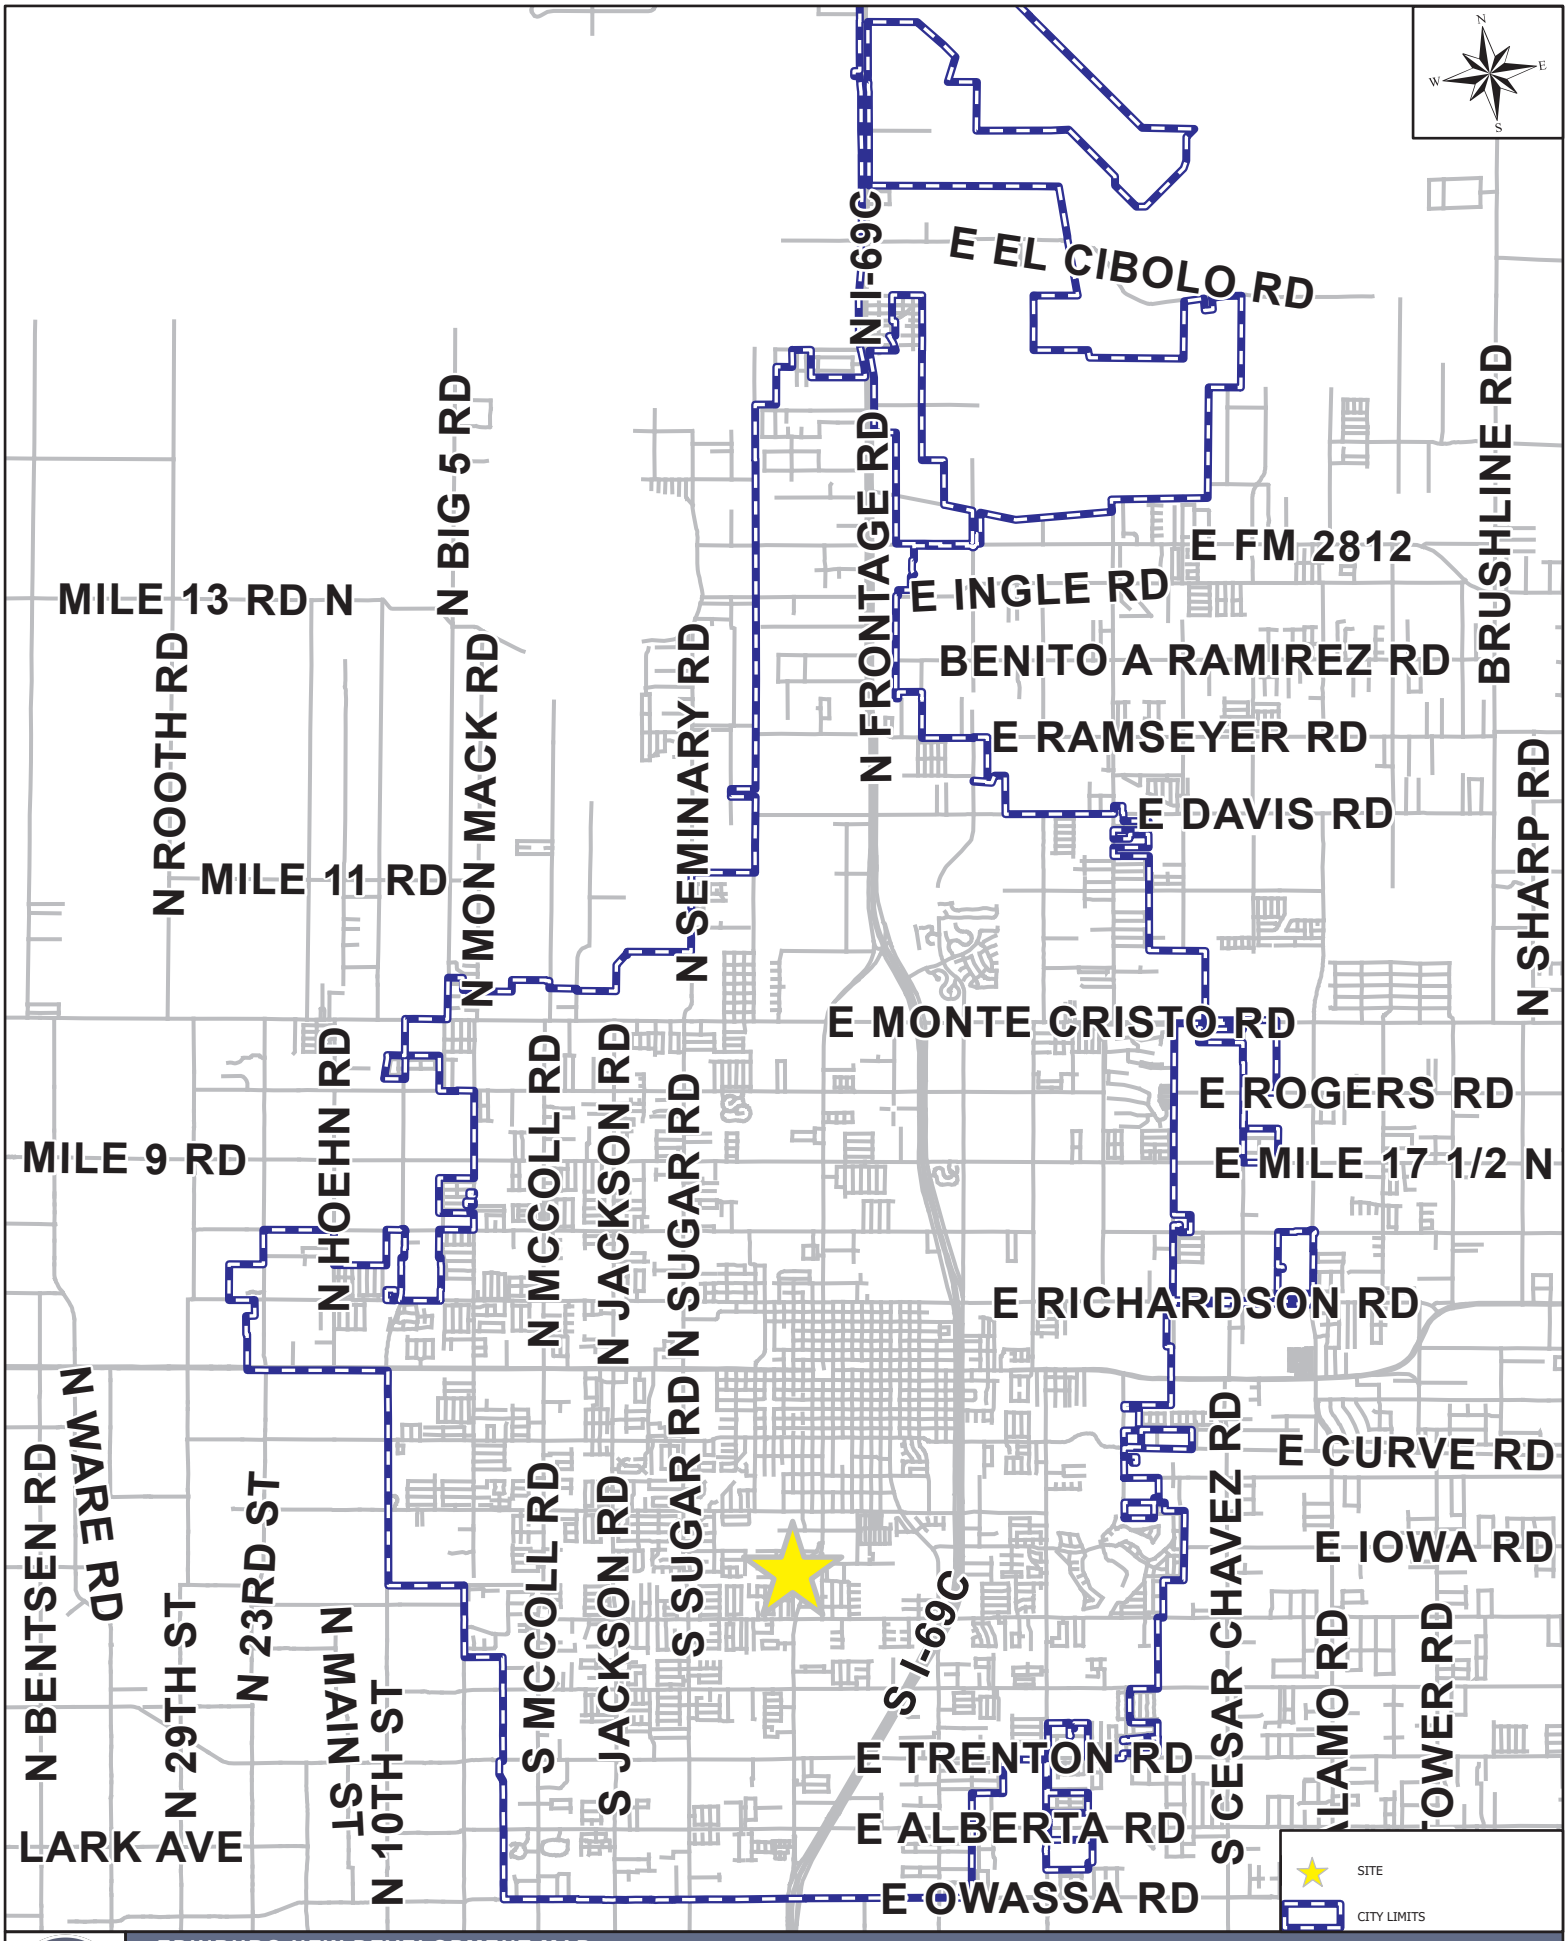
TABLE NOTES:

[1]The first number is the house setback; the second is the setback for a front load garage. Street yard refers to front yard of lot.

[2]A minimum building separation of 12 feet is required, but may be reduced to 10 feet if approved by Fire Marshal.

[3]More than eight units may be attached if the project is configured along a block face of a public street and adequate access exists to the rear of the building for the provision of emergency services.

*If a larger bufferyard is required, the setback shall be the width of the bufferyard; see Section 4.204.



Sec. 3.202, Standards for Nonresidential and Mixed-Use Development

A. District Standards. The district standards that are applicable to all nonresidential uses are provided in Table 3.202-1,, *Nonresidential Use District Standards*. The table includes provisions for intensity, utility requirements, minimum site area, and maximum height. Information relating to these standards and their abbreviations follows:

1. **Use District and Development Types.** The first column of both tables reflects the zoning districts and permitted uses.
2. **Landscaped Surface Ratio (LSR).** The second column reflects the minimum landscaped surface ratio required on a site. The ratio is calculated as a percentage of the site area, for example, 0.25 indicates 25 percent of a site must be open space (residential) or landscaped area (nonresidential).
3. **Maximum Floor Area Ratio.** The fifth column sets out the maximum allowable intensity of nonresidential uses, which is measured by a floor area ratio (FAR). Floor area ratio is calculated as provided in Division 3.300, *Measurements and Exceptions*.
4. **Minimum Site Area.** The fourth column indicates the minimum area that is required for the listed development type.
5. **Maximum Height.** The last column indicates the maximum allowable height by use and district.

REVISED JUNE 6, 2000,
FLOOD ZONE DESIGNATION: "ZONE X" (UNSHADED)– IS DESCRIBED TO BE AREAS OUTSIDE OF THE 500–YEAR FLOOD–PLAIN

BENCHMARK 1: SANITARY SEWER MANHOLE TOP
NORTHING: 16620165.1100'
EASTING: 1081745.3250'
ELEVATION: 108.170'

4. THIS SUBDIVISION IS A RESIDENTIAL TOWNHOME SUBDIVISION DEVELOPMENT. LOT 6 ZONED COMMERCIAL NEIGHBORHOOD.

5. MINIMUM FINISH FLOOR NOTE:
MINIMUM FINISH FLOOR ELEVATION SHALL BE 18 INCHES ABOVE ADJACENT TOP OF CURB OR CROWN OF ROAD, WHICHEVER IS GREATER. ELEVATION CERTIFICATE MAY BE REQUIRED FOR LOTS LOCATED OUTSIDE A DESIGNATED FLOOD ZONE AT THE TIME FOR APPLICATION FOR CONSTRUCTION TO VERIFY PRE AND POST CONSTRUCTION FINISH FLOOR ELEVATIONS. AN ELEVATION CERTIFICATE SHALL REQUIRED FOR ALL LOTS WITHIN A DESIGNATED FLOOD ZONE AT THE TIME FOR DEVELOPMENT PERMIT APPLICATION.

6. NO BUILDING SHALL BE CONSTRUCTED OVER ANY EASEMENT OR LOT LINE.

7. IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT No. 1 AND CITY OF EDINBURG REQUIREMENTS, THE DEVELOPMENT WILL BE REQUIRED TO DETAIN A TOTAL OF (±_____) CUBIC–FEET (_____ ACRE–FEET) OF STORM WATER RUNOFF. DRAINAGE DETENTION IN ACCORDANCE WITH THE LOCAL REQUIREMENTS WILL BE ACCOMPLISHED AS SPECIFIED IN APPROVED DRAINAGE REPORT.

8. NO STRUCTURE SHALL BE PERMITTED OVER ANY EASEMENT. EASEMENTS SHALL BE KEPT CLEAR OF BUILDINGS, SHEDS, SHRUBS, TREES, AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18 INCHES MATURE HEIGHT, GROUND COVER, GRASS, OR FLOWERS) AND OTHER OBSTRUCTIONS THAT WOULD INTERFERE WITH THE OPERATIONS AND MAINTENANCE OF THE EASEMENT.

9. ALL PUBLIC UTILITIES EASEMENTS DEDICATED BY THIS PLAT SHALL BE MINIMUM WIDTH OF 15.00 FEET AS PER THE CITY OF EDINBURG GUIDELINES. BY SIGNING THIS PLAT, DEVELOPER AND ENGINEER CERTIFY THAT ALL OTHER EASEMENTS SHOWN COMPLY WITH THE SIZE REQUIRED BY EACH UTILITY PROVIDER OCCUPYING AN EASEMENT.

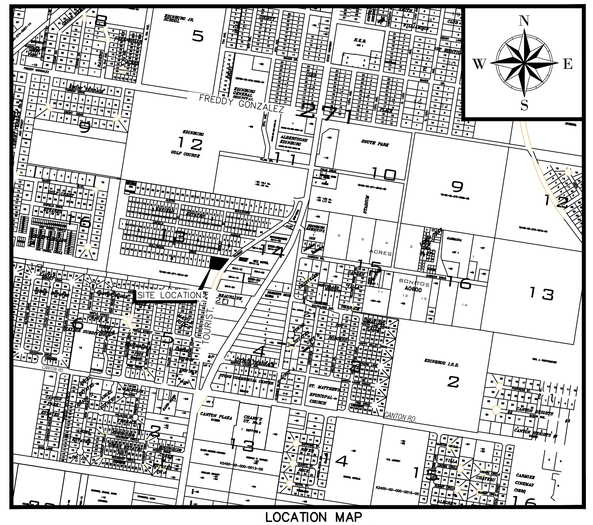
10. ALL CONSTRUCTION SHALL COMPLY WITH STORM WATER POLLUTION PREVENTION PLAN (SW3P) REQUIREMENTS, EROSION AND SEDIMENTATION CONTROLS CONSTRUCTED IN ACCORDANCE WITH THE STORM ORDINANCE 98.30 OF THE CITY OF EDINBURG ARE REQUIRED FOR ALL CONSTRUCTION ON EACH LOT INCLUDING SINGLE FAMILY AND DUPLEX/ MULTU–FAMILY CONSTRUCTION.

11. THE HOME OWNERS ASSOCIATION MUST COLLECT DUES AND MAINTAIN SAID PUBLIC STREETS, STREET SIGNS, LANDSCAPE IMPROVEMENT IN COMMON DRAINAGE AREAS, STREET LIGHTS ELECTRIC BILL, AD OTHER AMENITIES IMPROVEMENTS FOR THIS SUBDIVISION AS PER THE UDC ARTICLE 5, SEC. 5.102 APPLICABILITY, G HOMEOWNERS ASSOCIATION.

12. ALL LOTS SHALL BE GRADED TO PROVIDE POSITIVE DRAINAGE TO FRONT OF THE LOTS AT A MINIMUM SLOPE OF 1%

13. PARKLAND FEES $600.00 PER RESIDENCE, $300.00 (50%) PAID BY THE DEVELOPER PER DWELLING UNIT AND THE REMAINDER $300.00 (50%) WILL BE PAID BY THE BUILDER AT THE BUILDING PERMIT STAGE.

14. NO BUFFER IS REQUIRED HOWEVER A FENCE PERMI MUST BE OBTAINED AND APPROVED PER CITY STAFF DURING THE SUBDIVISION CONSTRUCTION STAGE. CLASS A FENCE IS REQUIRED BETWEEN LOT 6 AND LOTS 6&7. REFER TO UDC TABLE 4.204–1



15. THE DEVELOPER SHALL BE RESPONSIBLE FOR DETAINING AND ACCOMMODATING MORE THAN THE DETAINED VOLUME SHOWN ON THIS PLAT IF IT IS DETERMINED AT THE PERMIT STAGE THAT THE DETENTION REQUIRED ARE GREATER THAN STATED ON THIS PLAT DUE TO IMPERVIOUS ARE BEING GREATER THAN THE PLAT ENGINEER CONSIDERED IN THE HYDRAULIC CALCULATIONS FOR THIS SUBDIVISION AT LOT 6.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
AWARDING OF BIDS
Agenda Item No: 13.A.
2026-2028 Right of Way Acquisition Services Rotation

1. **Agenda Item:**
Consider Awarding RFQ No. 2026-2, Right of Way Acquisition Services to Qualified Firm(s) and Authorize the City Manager or Designated Appointee to Enter Into a Professional Services Contract with Such Firm(s) as Projects Arise. [Mardoqueo Hinojosa, P.E., CFM, City Engineer]

2. **Description:**
On occasion, the City of Edinburg requires ROW Acquisition Services on City projects which require acquiring land. The qualified firm(s) selected should be experienced in the field of Right-of-Way Acquisition Services, having experience but is not limited to: review appraisal, negotiation, escrow, title coordination, project management and administrative services and other informational interests and purposes by the City. It is expected that the qualified firm(s) selected will have a sufficient level of innovation and expertise to carry out the projects without constraints to produce documents in a timely manner. The firm must be prepared to assure the City of Edinburg that key personnel indicated in their qualification statement will maintain their role in each project and that their present workload is such that each project will be completed on or before the due date. The rotation is for potential projects between October 2026 through September 2028. Projects are to be funded in the upcoming fiscal years, as prioritized by the City Council.

Request for Qualifications was received on Tuesday, July 14, 2026, at 3:00 p.m. for Right of Way Acquisition Services. A total of eight (8) Requests for Qualifications were received and reviewed by staff. All the submittals received met the criteria set out in the Request for Qualifications. The following qualified firms listed in alphabetical order have submitted Statements of Qualifications in response to this RFQ:

1. Bowman Realty Consultants, LLC
2. Briggs Field Services
3. CLF Enterprise
4. Cobb, Fendley & Associates, Inc*
5. Contract Land Staff, LLC
6. Fuentes Consulting and Services, LLC
7. Halff Associates*
8. OR Colan Associates

*On 2024-2026 rotation

Limiting the selection of firms between 1 and 3 will insure each firm will obtain a project as it arises. The current 2024-2026 rotation has 2 firms, and they have received approximately two (2) projects.

3. **Staff's Recommendation:**
Staff recommends awarding RFQ 2026-2 Right of Way Acquisition Services to qualified firm(s) and authorize the City Manager or designated appointee to enter into a Professional Services Contract with such firm(s) as projects arise.

1. Introduction

1.1. Summary

The City of Edinburg's Department of Engineering is currently seeking to retain a rotation list of qualified professional Right-of-Way Acquisition Services. The term of the contract will be two (2) years from 10/01/2026 – 09/30/2028. The services request is to provide the following services review appraisal, negotiation, escrow, title coordination, project management and administrative services and other informational interests and purposes by the City. Generally, the selected right-of-way acquisition service(s) will be expected to perform the services in accordance with the Scope of Services and in accordance with the requirements of this solicitation. The City of Edinburg reserves the right to issue multiple awards under this solicitation as deemed in its own best interests.

2. Legal Notice

2.1. Notice to Respondents

The City of Edinburg is soliciting sealed proposals from qualified vendors for Request for Qualifications - Right of Way Acquisition Services.

Sealed Proposals must be submitted electronically or received by the City Secretary's Office no later than:

3:00 pm, Tuesday, July 14, 2026.

All sealed proposals must be received either electronically or at the designated location by the deadline shown. Proposals received after the deadline will not be considered for the award of the contract and shall be considered void and unacceptable.

All proposals will be opened, and respondent's names publicly read aloud promptly in the City Hall Community Room, at 415 W. University Dr., Edinburg, TX 78539, at 3:00 pm, Tuesday, July 14, 2026.

To obtain a copy of the Request for Qualifications or submit an electronic proposal please visit:

https://procurement.opengov.com/portal/cityofedinburg

If a Respondent chooses to submit a Hard Copy Proposal, it must be delivered in a sealed envelope with a return address and clearly marked "City of Edinburg RFQ No. RFQ 2026-2 to the City Secretary's Office prior to the RFQ opening date and time. The receiving time in the City Secretary's Office will be the governing time for acceptability of the proposals. The respondent's firm name shall appear on the outside of the envelope.

Submit Hard Copy Proposals to:

If submitting Electronic: https://procurement.opengov.com/portal/cityofedinburg

If Hand-Delivering Bids: 415 W. University Drive

c/o City Secretary Department (1st Floor)

If you have any questions or require additional information contained in the RFQ, you may contact Lorena Fuentes, Interim Purchasing Manager. Please be sure to submit your questions via OpenGov Procurement at the website listed above no later than 3:00 pm on Tuesday, July 7, 2026.

The City reserves the right to reject any or all proposals and to waive informalities or technicalities and to accept the Proposal deemed the most advantageous to the City, and hold the proposal for a period of 90 days without taking action.

3. Instructions, Terms and Conditions

3.1. General Instructions

PURPOSE

The purpose of these solicitation documents is to execute a Professional Services Contract for: RFQ 2026-2 Request for Qualifications - Right of Way Acquisition Services

INTENT

The services to be provided under this RFQ shall be in accordance with and shall meet all specifications and/or requirements as shown in this solicitation for RFQ. There is no intention to disqualify any respondent who can meet the requirements.

DEVIATION FROM SPECIFICATION

Please read your requirements thoroughly and be sure that the RFQ offered complies with all requirements/specifications noted. Any variation from the solicitation requirements/specifications must be clearly indicated by letter, on a point by point basis, attached to and made a part of your RFQ. If no exceptions are noted, and you are the successful respondent, it will be required that the service(s) be provided as specified.

SUBMITTAL OF "HARD COPY" RFQ

If submitting a Hard Copy RFQ, it must be submitted in a sealed envelope by the vendor. **Submit two (2) complete sets of the response, one (1) original marked “ORIGINAL,” and one (1) Digital Copy in a flash drive**. Each RFQ must be completely filled out and SUBMITTED IN ORIGINAL FORM complete with all supporting documentation. RFQs submitted by facsimile (fax) will not be accepted. Submittal of an RFQ in response to this solicitation constitutes an offer by the respondent. Once submitted, RFQs become the property of the City of Edinburg and as such the City reserves the right to use any ideas contained in any RFQ regardless of whether that respondent/firm is selected. Submission of a RFQ in response to this solicitation, by any respondent, shall indicate that the respondent(s) has/have accepted the conditions contained in the RFQ, unless clearly and specifically noted in the RFQ submitted and confirmed in the contract between the City and the successful respondent otherwise. RFQs which do not comply with these requirements may be rejected at the option of the City. RFQs must be filed with the City of Edinburg before the deadline day and hour. No late RFQs will be accepted. Failure to meet RFQ requirements may be grounds for disqualification.

If Hand-Delivering Bids: 415 W. University Drive

c/o City Secretary Department (1st Floor)

If submitting Electronic: https://procurement.opengov.com/portal/cityofedinburg

AUTHORIZATION TO BIND RESPONDENT TO RFQ

RFQs MUST give full firm name and address of respondent, and be manually signed. Failure to do so will disqualify your RFQ. Person signing bid must show title or AUTHORITY TO BIND HIS/HER FIRM IN A CONTRACT. Firm name and authorized signature must appear on each page that calls for this information. The legal status of the Respondent whether corporation, partnership, or individual, shall also be stated in the RFQ. A corporation shall execute the RFQ by its duly authorized officers in accordance with its corporate by-laws and shall also list the state in which it is incorporated. A partnership Respondent shall give full names and addresses of all partners. All partners shall execute the RFQ. Partnership and Individual Respondent shall state in the proposal the names and addresses of all persons with a vested interest therein. The place of residence of each Respondent, or the office address in the case of a firm or company, with county and state and telephone number, shall be given after the signature.

ALTERATIONS/AMENDMENTS TO RFQ

RFQ CANNOT be altered or amended after opening time. Alterations made before opening time must be initialed by respondent guaranteeing authenticity. No RFQ may be withdrawn after opening time without acceptable reason in writing and only after approval by the City of Edinburg.

NO RESPONSE TO RFQ

If unable to submit a RFQ, respondent should return inquiry giving reasons.

LIST OF EXCEPTIONS

The respondent shall attach to his/her RFQ a list of any exceptions to the specifications/ requirements.

TIME ALLOWED FOR ACTION TAKEN

The City of Edinburg may hold RFQ's **90 days** after deadline without taking action. Respondents are required to hold their RFQ's firm for same period of time.

RIGHT TO REJECT/AWARD

The City of Edinburg reserves the right to reject any or all RFQs, to waive any or all formalities or technicalities, and to make such awards of contract as may be deemed to be the best and most advantageous to the City of Edinburg.

NUMBER OF CONTRACTS

THE CITY reserves the right to award one, more than one, or no contract(s) in response to this RFQ.

INDEMNIFICATION CLAUSE

The Respondent agrees to indemnify and save harmless the City, from all suits and actions of every nature and description brought against them or any of them, for or on account of the use of patented appliances, products or processes, and he shall pay all royalties and charges which are legal and equitable. Evidence of such payment or satisfaction shall be submitted upon request of the Assistant Purchasing Manager, as a necessary requirement in connection with the final estimate for payment in which such patented appliance, products or processes are used.

ADDENDA AND MODIFICATIONS

Respondent shall carefully examine the RFQ forms, specifications/requirements, and instructions to Respondents. Should the respondent find discrepancies in, or omissions from specifications/requirements, or other documents, or should he/she be in doubt as to their meaning, he/she should request an interpretation via the OpenGov portal:https://procurement.opengov.com/portal/cityofedinburg and obtain clarification by addendum prior to submitting any RFQ. Explanations, interpretations, and supplemental instructions shall be in the form of written Addenda which shall become a part of the Contract documents. Said Addenda shall be available thru the e-procurement portal and e-mailed to all prospective Respondents. All Addenda issued in respect to this project shall be considered official changes to the original RFQ documents. Verbal statements in response to inquiries and/or requests for explanations shall not be authoritative nor binding. It shall be the Respondent(s) responsibility to ensure that they have received all Addenda in respect to this project. Furthermore, Respondents are advised that they must recognize, comply with, and attach a signed copy of each Addendum which shall be made part of their RFQ Submittal. Respondent(s) signature on Addenda shall be interpreted as the respondent’s “recognition and compliance to” official changes as outlined by the City of Edinburg and as such are made part of the original solicitation documents. Failure of any respondent to receive any such addendum or interpretation shall not relieve such Respondent from its terms and requirements. The City may issue a written addendum no later than five calendar days prior to the date bids must be received. Addendums are available online at https://procurement.opengov.com/portal/cityofedinburg

SYNONYM

Where in this solicitation package SERVICES is used, its meaning shall refer to the request for qualifications Request for Qualifications - Right of Way Acquisition Services as specified.

ASSIGNMENT

Respondents are advised that the City of Edinburg shall not allow the successful respondent to sell, assign, transfer, or convey any part of any contract resulting from this RFQ in whole or in part, to a third party without the written approval of the City of Edinburg.

RESPONDENT’S EMPLOYEES

Neither the Respondent nor his/her employees engaged in fulfilling the terms and conditions of this Service Contract shall be considered employees of the City. The method and manner of performance of such undertakings shall be under the exclusive control of the vendor on contract. The City shall have the right of inspection of said undertakings at any time.

INTERPRETATIONS

Any questions concerning the project and/or specifications/requirements with regards to this solicitation for statement(s) of qualifications shall be directed to the designated individuals as outlined in the RFQ. Such interpretations, which may affect the eventual outcome of this request for statements of qualifications, shall be furnished in writing to all prospective Respondents via Addendum. No interpretation shall be considered binding unless provided in writing by the City of Edinburg in accordance with paragraph entitled **"Addenda and Modifications".**

STATUTORY REQUIREMENTS

It shall be the responsibility of the successful respondent to comply with all applicable State & Federal laws, Executive Orders and Municipal Ordinances, and the Rules and Regulations of all authorities having jurisdiction over the work to be performed hereunder and such shall apply to the contract throughout, and that they will be deemed to be included in the contract as though written out in full in the contract documents.

RFQ PREPARATION COSTS

The City of Edinburg shall not be held liable for any costs incurred by any respondent for work performed in the preparation of and production of a RFQ or for any work performed prior to execution of contract.

CONFIDENTIAL INFORMATION

Any information deemed to be confidential by the respondent should be clearly noted on the pages where confidential information is contained; however, the City cannot guarantee that it will not be compelled to disclose all or part of any public record under Texas Public Information Act, since information deemed to be confidential by the respondent may not be considered confidential under Texas Law, or pursuant to a Court order.

VERBAL THREATS

Any threats made to any employee of the City, be it verbal or written, to discontinue the providing of item/material/services for whatever reason and/or reasons shall be considered a breach of contract and the City will immediately sever the contract with the Respondent/Consultant on contract.

RIGHT TO AUDIT

The City of Edinburg reserves the right to audit the vendor's books and records relating to the performance of this contract. The City of Edinburg, at its own expense, shall have the right at all reasonable times during normal business hours and upon at least twenty-four (24) hours' advance notice, to audit, to examine, and to make copies of or extracts from the books of account and records maintained by the vendor(s) with respect to the Supply/Service and/or Purchase Contract. If such audit shall disclose overpayment by City to vendor, written notice of such overpayment shall be provided to the vendor and the amount of overpayment shall be promptly reimbursed by vendor to the City. In the event any such overpayment is not paid within ten (10) business days after receipt of such notice, the unpaid amount of such overpayment shall bear interest at the rate of one percent (1%) per month from the date of such notice until paid.

PAST PERFORMANCE

Respondent's past performance shall be taken into consideration in the evaluation of RFQ submittal.

JURISDICTION

Contract(s) executed as part of this solicitation shall be subject to and governed under the laws of the State of Texas. Any and all obligations and payments are due and performable and payable in Hidalgo County, Texas.

VENUE

The parties agree that venue for purposes of any and all lawsuits, cause of action, arbitration, and/or any other dispute(s) shall be in Hidalgo County, Texas.

CONSIDERATION OF LOCATION OF BIDDER'S PRINCIPAL PLACE OF BUSINESS

The City may give local vendors, whose principal place of business is located within the City of Edinburg, and whose bid is within five percent (5%) of the lowest bid price preference as allowed by Section 271.9051 of the Local Government Code.

AWARD

Respondents are advised that the City of Edinburg is soliciting RFQs and award shall be made to the respondent that in the opinion of the City of Edinburg is the best qualified.

The City of Edinburg reserves the right to award contract(s) based solely on the written proposals. The City also reserves the right to request oral interviews.

FINAL SELECTION AND THE CITY COUNCIL APPROVAL

Selection shall be made of one or more proposers deemed to be fully qualified and best suited among those submitting Proposals on the basis of the evaluation factors included in the Request for Qualifications, if so stated in the Request for Qualifications. Negotiations shall be conducted with the proposers selected. After negotiations have been conducted with each proposer selected, the agency shall select the proposer which, in its opinion, has made the best proposal, and shall award the contract to that proposer. The City may cancel this Request for Qualifications or reject the Qualifications at any time prior to an award, and is not required to furnish a statement of the reasons why a particular proposal was not deemed the most advantageous. Should the City determine in writing and in its sole discretion that only one proposer is fully qualified, or that one proposer is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that proposer. The award document will be a contract incorporating by reference all the requirements, terms and conditions of the solicitation and the contractor's proposal as negotiated. After the selection of the most qualified firm(s), scope of services and billing rates will be negotiated and used as attachments to the City's Professional Services Agreement. This Agreement will then be submitted to the City Council for approval. If the City and the selected firm cannot successfully negotiate an agreement, then the City will enter into negotiations with the next best qualified firm on the evaluation rating list. This procedure may be repeated until one (1) or more firms has been selected and approved by the City Council.

PAYMENT

The City of Edinburg will execute payment by mail in accordance with the State of Texas Pay Law after SERVICES have been completed, introduced to the City, and found to meet City of Edinburg specifications/requirements. No other method of payment will be considered.

CONFIDENTIALITY OF INFORMATION AND SECURITY

Should the successful respondent become the holder of and have access to confidential information in the process of fulfilling its responsibilities in connection with an awarded contract the successful respondent agrees that it shall keep such information confidential and will comply fully with the laws and regulations of the State of Texas, ordinances and regulations of the City, and any applicable federal laws and regulations relating to confidentiality.

EQUAL EMPLOYMENT OPPORTUNITY

Respondent agrees that they will not discriminate in hiring, promotion, treatment, or other terms and conditions of employment based on race, sex, national origin, age, disability, or in any way violate Title VII of 1964 Civil Rights Act and amendments, except as permitted by said laws.

TERMINATION OF CONTRACT

The City of Edinburg reserves the right to terminate the contract if, in the opinion of the City of Edinburg, the successful vendor's performance is not acceptable, no funds are available, or if the City wishes, without cause, to discontinue this contract. Termination will be in written form allowing a 30-day notice.

HISTORICALLY UNDERUTILIZED BUSINESS

Firm(s)/Sub Firm(s) will be required to comply with the President's Executive Order No. 11236 and Order No. 11375 which prohibits discrimination in employment regarding race, creed, color, sex, or national origin. Firm(s)/Sub Firm(s) must comply with the Title VI of the Civil Rights Act of 1964, Minority and Women Owned Business Enterprise standards and affirmative action requirements.

ETHICAL STANDARD

No City official or employee shall have interest in any contract resulting from this bid.

IF YOU HAVE ANY QUESTIONS ABOUT COMPLIANCE, PLEASE CONSULT YOUR OWN LEGAL COUNSEL. COMPLIANCE IS THE INDIVIDUAL RESPONSIBILITY OF EACH PERSON OR AGENT OF A PERSON WHO IS SUBJECT TO THE FILING REQUIREMENT. AN OFFENSE UNDER CHAPTER 176 IS A CLASS "C" MISDEMEANOR.

3.2. INSURANCE REQUIREMENTS

Staff may waive insurance requirements for contracts $0 - $4,999.99, including but not limited to contracts for food, materials, supplies, and construction. Workers' Compensation in amounts which satisfy statutory coverage shall be required for construction projects.

The following insurance requirements will be included in all City contracts of $5,000 - $14,999.99. In contracts not involving building and construction projects, as that activity is defined in TEX. LABOR CODE §406.096, contractors may obtain alternative form of worker accident insurance with minimum limits of liability of $100,000 per claim.

Minimum Insurance Requirements

Type of Coverage Limits of Liability

Worker’s Compensation Statutory Coverage

Comprehensive General Liability

(City named as additional insured)

Bodily Injury $250,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

The following insurance requirements will be included in all **City contracts of $15,000 or more.**

(1) The successful bidder will be required to carry the following insurance coverage and limits of coverage, as well as list the City as an additional insured to liability coverage as requested by the City. In addition, the successful bidder shall provide the City with evidence of coverage and furnish acceptable proof of payment of insurance premiums.

(2) The successful bidder will be required to secure and/or have insurance coverage in force with an admitted property and casualty insurance company licensed by the State of Texas to conduct business in the State of Texas.

(3) In contracts not involving building and construction projects, as that activity is defined in TEX. LABOR CODE §406.096, contractors may obtain alternative form of worker accident insurance with minimum limits of liability of $100,000 per claim

Minimum Insurance Requirements

Type of Coverage Limits of Liability

Worker’s Compensation Statutory Coverage

Employer’s Liability Bodily Injury by Accident:

$100,000 each accident

Bodily Injury by Disease:

$100,000 each employee/$500,000 policy limit

Comprehensive General Liability

Bodily Injury $250,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

Comprehensive Auto Liability

Bodily Injury $100,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

City’s Protective Liability

Bodily Injury $250,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

Policies must name the City of Edinburg as an Additional Insured.

Certificates of insurance naming the CITY as an additional insured shall be submitted to the CITY for approval prior to any services being performed by Contractor. Each policy of insurance required hereunder shall extend for a period equivalent to, or longer than the term of the Contract, and any insurer hereunder shall be required to give at least thirty (30) days written notice to the CITY prior to the cancellation of any such coverage on the termination date, or otherwise. This Contract shall be automatically suspended upon the cancellation, or other termination, of any required policy of insurance hereunder, and such suspension shall continue until evidence that adequate replacement coverage is provided to the CITY. If replacement coverage is not provided within thirty (30) days following suspension of the Contract, the Contract shall automatically terminate.

4. Specifications

4.1. Scope of Services

The City of Edinburg is seeking statements of qualifications from firms interested in providing the City with the services to provide Right-of-Way Acquisition Services on an “as needed” basis. The required services will consist of but is not limited to: review appraisal, negotiation, escrow, title coordination, project management and administrative services and other informational interests and purposes by The City. Generally, the selected firm will be expected to perform the services in accordance with the Scope of Services and in accordance with the requirements of this solicitation.

Consultant services may include, but not necessarily be limited to:

A. Appraisal Services - Consisting of reviewing property appraisals and preparation of appraisal reports. (However, the City reserves the right to contract directly with Appraisers independent of this contract and provide said appraisals and reports to the Right-of-Way Consultant.)

B. Negotiation Services - Consisting of negotiating with the property owners for the purchase of partial or full properties, right-of-way, easements, relocation and temporary construction easements (TCE's). Preparation of all letters and documents required including the offer letters, appraisal summary agreement for purchase, and other documents as required, including relocation. All negotiation services shall be in accordance with State of Texas statutes and other applicable requirements, including, but not limited to review and approval by the City and by the State. Note: Plat, legal description and deeds will be prepared by others.

C. Escrow and Title Coordination Services - Consisting of handling the escrow and title work.

D. Project Management and Administrative Services - Consisting of attendance at meetings, general consultation on right-of-way matters and all necessary tracking or clerical work associated with services provided.

E. Selected firm(s) must be licensed and/or certified in accordance with the Texas Appraiser Licensing and Certification Act (Texas Occupations Code, Chapter 1103), including all current and future amendments thereto.

F. Written proposals will be requested from the on-call consultant when additional right-of-way services tasks are required. Specific efforts the City has identified, which may result in the need for additional right-of-way acquisition assistance include the following:

- Right-of-way acquisition and temporary construction easement associated with any City of Edinburg projects.
- Right-of-way acquisition and temporary construction easement associated with creating turn lanes at intersections.

- Easements associated with utility underground projects.
- Representation of City interests for an easement that would be granted to an outside agency wanting to construct across City owned land.
- Coordination of appraisals by others for the City to grant an easement for a utility line that will need to be placed within City property.
- Necessary right-of-way, easement, and TCE's associated with future Federal and Stat funded capital improvements projects or as requested by the City.

The written proposals will set forth the scope, personnel, and time of performance for the primary work task and will be approved through a task order under the agreement. Consultant selection will be based on qualifications as set forth in the Statement of Qualifications. Consultant selection will be at the sole discretion of the City. No consultant is guaranteed work.

4.2. Submittal Requirements

The RFQ must be submitted according to the instructions outlined herein. Each response should include, at a minimum, the following items not excluding the selection process criteria:

A. Transmittal letter – Indicate interest and commitment to perform services for the City of Edinburg, include contact information (physical address, telephone, fax, cell phone, and email address) for the primary person responsible for your RFQ who will be the point of contact for the City on all correspondence and communications pertaining to the RFQ. State whether any addendums to this RFQ have been received by your firm and whether consideration of their content has been included in your RFQ. The letter must be signed by an officer of the firm who is authorized to bind the firm to contract and shall contain a statement to this effect;

B. Firm Qualification and Experience – Discuss the firm's experience and history in performing right of way acquisition services in a timely manner, particularly for other governmental agencies in the past five (5) years. Discuss the firm's uniqueness to best perform these services for the City. Identify the office location that will be providing the services and the approach to handling part-time staffing needs for smaller assignments.

C. Team Member Qualifications and Experience – Submit resumes summarizing qualifications and experience of project manager, key staff and any support staff likely to be assigned to the work.

D. References – Provide at least three (3) references (names and current phone numbers) from recent work and list all past projects with the City of Edinburg for each proposed team member. Include a brief description of the projects associated with the reference, and the role of the individual.

E. Insurance - Provide information on the types and amounts of insurance carried by the PSP, including General Liability, Auto Coverage, Worker's Compensation, and Professional Liability Coverage. A list of any insurance claims against the firm within the past 5 years.

F. Professional Services Agreement – Provide a statement that the Professional Services Agreement has been read, that the firm will meet the prerequisite insurance requirements, and the firm, if selected, agrees to enter in to such agreement.

G. Contact Information – Each firm must submit the firms two (2) different contact information (Name, Title, Address, Phone Number, Mobile Number, and Email Address).

H. Presentation – Electronic submittal only.

CONFLICT OF INTEREST

CHAPTER 176 OF THE TEXAS LOCAL GOVERNMENT CODE

Effective January 1, 2006, Chapter 176 of the Texas Local Government Code requires that any vendor or person considering doing business with a local government entity disclose in the Questionnaire Form CIQ, the vendor or person's affiliation or business relationship that might cause a conflict of interest with a local government entity. By law, this questionnaire must be filed with the records administrator of the City of Edinburg not later than the 7th business day after the date the person becomes aware of facts that require the statement be filed. See Section 176.006, Local Government Code. A person commits an offense if the person violates Section 176.006, Local Government Code. An offense under this section is a Class C misdemeanor.

For more information or to obtain Questionnaire CIQ go to the Texas Ethics Commission web page at
https://www.ethics.state.tx.us/data/forms/conflict/CIQ.pdf

*Response required

4.9. If awarded the 1295 form will need to be provided.*

CERTIFICATE OF INTERESTED PARTIES (Form 1295)

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016. For more information go to the Texas Ethics Commission web page at

STATE OF TEXAS §

COUNTY OF HIDALGO §

CITY OF EDINBURG §

AGREEMENT BETWEEN THE CITY OF EDINBURG AND CONSULTANT FOR PROFESSIONAL RIGHT-OF-WAY ACQUISITION SERVICES PURSUANT RFQ NO. XXXX-XXX

The City of Edinburg, Hidalgo County, Texas, a municipal corporation, (hereinafter **"City"**) and **CONSULTANT** (hereinafter **"Consultant"**), are the parties to this Agreement.

RECITALS

WHEREAS, City has authorized staff to request proposals for the On-Call Professional Services, the Consultant shall provide for specific projects as may be requested by the City. Such services shall be defined, scheduled, and authorized in subsequent Task Orders. Services may include, but not be limited to Engineering, PROFESSIONAL SERVICES, and or other as-needed services as stated in Exhibit "A", and

WHEREAS, Consultant has the professional knowledge and abilities to perform the professional engineering and PROFESSIONAL SERVICES; and

WHEREAS, City desires to engage Consultant to render services in connection therewith:

NOW, THEREFORE, City and Consultant do mutually agree as follows:

SECTION I
EMPLOYMENT OF CONSULTANT

A. City agrees to employ Consultant to furnish and provide the Services, as stated in this agreement and **Exhibit "A"**. Upon receipt of Services to the City's satisfaction, the City agrees to pay Consultant as stated in this Agreement.

SECTION II
SERVICES OF CONSULTANT

A. The Consultant shall, in the scope of his work, perform the Services identified in **Exhibit "A"** of this document. City shall provide Consultant with authorization to proceed, after execution of this Agreement.

B. Nothing contained in this Agreement is intended by the parties to create a partnership or joint venture between the parties, and any implication to the contrary is hereby expressly disavowed. It is understood and agreed that this Agreement does not

create a joint enterprise, nor does it appoint either party as an agent of the other for any purpose whatsoever. Except as otherwise specifically provided herein, neither party shall in any way assume any of the liability of the other for acts of the other or obligations of the other.

SECTION III
RESPONSIBILITY OF THE CITY

A. City will facilitate Consultant's work with the following tasks:

1. Provide Consultant with its requirements for the Services.

2. Assist Consultant by providing information reasonably available to the City and pertinent to the Services.

3. Facilitate access to and make provisions for Consultant to enter upon public property as reasonably required for Consultant to perform its Services.

4. Examine all reports, sketches, estimates, drawings, proposals, and other documents presented by Consultant and render in writing decisions pertaining thereto within a reasonable time so as not to delay the Services of the Consultant.

5. Give prompt written notice to Consultant whenever City observes or otherwise becomes aware of any defect in Services.

6. City's representative with respect to interpretation and implementation of the Services and this Agreement will be the City Engineer or such other representative that the City may appoint by written notice to Consultant with whom Consultant will communicate regarding all matters pertaining to this Agreement. Said representative will make all arrangements for consultation by Consultant with employees or designees of City. In addition, said representative shall have authority and responsibility to define and agree upon the scope and specification of the Services, require and receive reports regarding the progress of the Services, and terminate the performance of the Services or any phase thereof in accordance with the provisions of this Agreement.

SECTION IV
RESPONSIBILITIES OF CONSULTANT

A. Consultant shall perform the Services described in **Exhibits "A".**

B. Consultant shall perform its services with care, skill, and diligence, in accordance with the applicable professional standards currently recognized by its profession, and shall be responsible for the professional quality, technical accuracy, completeness, and coordination of all reports, plans, information, and other items and Services furnished under this Agreement. Consultant shall comply with all applicable

federal, state, and local laws, ordinances, codes, and regulations in performing the Services. If Consultant fails to meet applicable professional standards, Consultant shall without additional compensation correct or revise any errors or deficiencies, with or without request to do so by the City.

C. Consultant shall be responsible for the professional quality, technical accuracy, timely completion, and the coordination of Services furnished by Consultant under this Agreement. Consultant shall keep the City informed of the Services performed under this Agreement. In connection with the performance of the Services by Consultant, Consultant agrees to promptly and fully disclose to City any information regarding the Services as City may request.

D. Consultant will develop and maintain a detailed schedule for completion of the Services. The schedule will be a work plan showing activities to be performed and their sequence; and, in addition, activities will contain duration, manpower required, and estimated cost. A preliminary schedule shall be submitted to the City within ten (10) days after execution of a Job Task Order for review and establishment of the level of detail to be included.

E. Consultant will submit monthly progress data for the reporting period which will include the percentage complete and actual start date and actual finish date for all activities worked on by the Consultant during the period. Any changes in delivery dates will be reported. Other information, such as actual hours expended, will be furnished monthly, or as requested, by the City. If requested by the City, schedule update meetings will be held to discuss the results of schedule analysis and necessary action to meet the requirements of the schedule.

F. Consultant shall perform Services necessary to accomplish the work specified in this Agreement, in accordance with this Agreement.

G. City's review or approval of reports, and other services furnished hereunder shall not in any way relieve Consultant of responsibility for the technical adequacy of the work. Neither City's review, approval, or acceptance of, nor payment for any of the Services shall be construed as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

H. Consultant shall be and shall remain liable, in accordance with applicable law, for all damages to City caused by Consultant's negligent performance of any of the Services furnished under this Agreement. Consultant shall not be responsible for any time-delays in the project caused by circumstances beyond Consultant's control.

I. Consultant's obligations under this clause are in addition to the Consultant's other expressed or implied obligations under this Agreement or state law and in no way diminish any other rights that City may have against Consultant for consultant's errors or omissions.

J. All reports, drawings, plans, and other documentation pertaining to the Services become the property of City.

SECTION V
PAYMENT AND FEES

City agrees to pay Consultant for recommendations, reports, design, specifications, and such other services herein contracted for as follows:

A. City hereby agrees to pay a sum not to exceed that which is included in a specific Task Order and authorized by a Notice to Proceed, notwithstanding any contrary indications that may be contained in Consultant's proposal, for services to be performed and reimbursable costs incurred under this Agreement. City shall pay Consultant for services rendered on a lump sum basis pursuant to any specific Task Order and in the manner set forth therein. Consultant shall submit all invoices to City in the manner specified herein. Except as specifically authorized by City in writing, Consultant shall not bill City for duplicate services performed by more than one person. Consultant and City acknowledge and agree that compensation paid by City to Consultant under this Agreement is based upon Consultant's estimated costs of providing the services required hereunder, including salaries and benefits of employees and subcontractors of Consultant. Consequently, the parties further agree that compensation hereunder is intended to include the costs of contributions to any pensions and/or annuities to which Consultant and its employees, agents, and subcontractors may be eligible. City therefore has no responsibility for such contributions beyond compensation required under this Agreement.

B. City is entitled to impose a set-off against payment based on any of the following:

a. Claims have been made against City based on Consultant's conduct in the performance or furnishing of Services, or City has incurred costs, losses, or damages resulting from Consultant's conduct in the performance or furnishing of Services, including but not limited to claims, costs, losses, or damages from workplace injuries, adjacent property damage, and non-compliance with Laws and Regulations;

b. Consultant has failed to take reasonable and customary measures to avoid damage, delay, disruption, and interference with Services and related work;

c. Consultant has failed to provide and maintain required insurance;

d. City has been required to remove or remediate a Hazardous Environmental Condition for which Contractor is responsible;

e. City has incurred extra charges or engineering costs related to submittal reviews, evaluations of proposed substitutes, tests and inspections, or return visits to manufacturing or assembly facilities;

f. Any Services are defective, requiring correction or replacement;

g. City has been required to correct defective Services or has accepted defective Services;

h. Liens have been filed in connection with the Services; or

i. Other items entitle City to a set-off against the payment amount.

C. If City imposes any set-off against payment, City will give Consultant immediate written notice stating the reasons for such action and the specific amount of the reduction, and promptly pay Consultant any amount remaining after deduction of the amount so withheld. City shall promptly pay Consultant the amount so withheld, or any adjustment thereto agreed to by City and Consultant, if Consultant remedies the reasons for such action. The reduction imposed will be binding on Consultant unless it duly submits written notice contesting the reduction within 30 days of receiving City's written notice.

D. All fees payable to Consultant under this Agreement shall be made in full, and without any withholding, deduction, or offset of any state or federal withholding taxes, FICA, SDI, or income taxes, nor shall the City be obligated to pay any of Consultant's employees' taxes. Consultant hereby covenants and agrees that it shall be solely responsible for all taxes, withholding, FICA, SDI, and other similar items (both employee and employer portions) with respect to all fees paid by the City under this Agreement, and agrees to indemnify and hold the City harmless with respect to such taxes and withholding.

E. Consultant and its employees shall not be eligible for, participate in, or be entitled to compensation in lieu of any insurance, benefit, retirement, or other plan or program provided by the City to its employees.

F. Consultant shall provide an invoice in accordance with City regulations. Payment terms shall be net thirty (30) days from receipt of invoice.

G. The City may, at any time, request Consultant to make changes within the scope of the Services or to perform extra work. If any request by the City for a change or extra work causes an increase or decrease in the cost or the time required for performance of the work, or any change to this Agreement, Consultant shall, within fourteen (14) days from the date it receives the City's request, unless the City Engineer grants additional time in writing, submit in writing a proposal for accomplishing such changed or extra work. This proposal shall define, if applicable, any increase or decrease in cost or time of completion or other change to this Agreement. The City must approve

any change orders, pursuant to the City's Code of ordinances and policies and procedures and any other applicable laws of this State, before making the changes. The City will not be liable for any costs incurred by Consultant from performance of a change or extra work prior to issuance of a change order to this Agreement.

H. The total contract price may not be increased because of the changes unless additional money for increased costs is appropriated for that purpose from available funds or is provided for by the authorization of the issuance of time warrants.

I. Prior to and as a condition of final payment to the Consultant following termination or expiration of this Agreement as defined below, the Consultant shall deliver to the City a release in form and substance satisfactory to the City, discharging it and its officers, agents, and employees of all liabilities, obligations, and claims arising out of this Agreement and the performance thereof.

SECTION VI
TERM OF AGREEMENT

A. Except as provided below, this Agreement, and the Services to be performed under it, shall commence on the date this Agreement is executed by both parties, and shall continue thereafter through and the earlier of (i) two (2) years from the date of execution or (ii) until the Services are declared complete in a written instrument signed by the City Engineer and the City Manager. The City shall have the right, in its sole discretion, to extend the term of this Agreement for an additional year upon approval from the City. If approved by City, City shall provide Consultant with a written notice of the approval of the extension.

B. City may terminate this Agreement upon giving 30 days' prior written notice thereof to Consultant. In addition, City shall have the right, upon written notice, to cancel this Agreement immediately if, in the City's sole judgment, the Services rendered by Consultant breach or violate any of the provisions of this Agreement.

C. Upon termination or completion of this Agreement, City shall have no liability to Consultant except for charges for Services performed by Consultant and accepted by the City prior to receipt of notice of termination or cancellation. The terms and conditions in this Agreement that by their sense and context are intended to survive the performance hereof by either or both parties hereunder shall so survive the termination, cancellation, or completion of performance of this Agreement.

D. Upon termination or completion of Consultant's Services hereunder or at such other time as may be requested by City, Consultant shall return to City within ten (10) days of termination, completion, or request all documents, records, notebooks, including copies thereof, whether prepared by Consultant or others, in Consultant's possession and related to the Services.

E. The City reserves the right to suspend work on the Services, with or without cause, in whole or in part, upon giving notice to Consultant. Consultant shall resume the Services so suspended when directed to do so by the City. The City shall have no liability to Consultant except for charges for Services performed by Consultant and accepted by the City prior to receipt of notice of suspension of Services. If only a portion of the Services are suspended, Consultant shall be compensated only for Services of which are not suspended and are actually performed during such suspension.

F. Upon termination of this Agreement or suspension of Services under this Section, the City may take over the work and may obtain the services of another entity to complete the work under this Agreement.

SECTION VII
MINIMUM INSURANCE REQUIREMENTS

Consultant shall be adequately insured and carry liability, workers compensation, automobile insurance and professional liability for injury to its employees and others incurring loss or injury as a result of the acts of Consultant or its employees. In accordance with City ordinances, Consultant shall be required to hold the following minimum insurance coverage throughout the duration of this agreement:

A. Workers Compensation
In accordance with State statute.

B. Comprehensive General Liability

1. Bodily Injury
$250,000 each person
$500,000 each occurrence
2. Property Damage
$100,000 each occurrence
$100,000 each aggregate

or $500,000 combined single limits

C. Comprehensive Auto Liability
1. Bodily Injury
$100,000 each person
$500,000 each occurrence
2. Property Damage
$100,000 each occurrence
$100,000 aggregate
or $500,000 combined single limits

D. City's Protective Liability

1. Bodily Injury

$250,000 each person
$500,000 each occurrence

2. Property Damage

$100,000 each occurrence
$100,000 each aggregate

or $500,000 combined single limits

E. Professional Liability

1. Professional

$1,000,000 per claim and in the aggregate

F. Evidence of the above insurance coverage is attached as Exhibit “B” and the City of Edinburg shall be listed as an additional insured.

G. If at any time and for any reason Consultant fails to provide, maintain, keep in force and effect, or deliver to the City proof of, any of the insurance required and such failure continues for ten (10) days after Notice thereof from City to Consultant, City may, but shall have no obligation to, procure single interest insurance for such risks covering City (or, if no more expensive, the insurance required by this Agreement), and Consultant shall, within ten (10) days following City’s demand and Notice, pay and reimburse City therefor with interest at Prime Rate plus 2%, the Prime Rate being that in place on the date of Notice, from the date of payment by the City until repayment of City in full by Consultant.

H. With respect to each and every one of the insurance policies required to be obtained, kept, or maintained under the terms of this Agreement, on or before the date on which each such policy is required to be first obtained and at least fifteen (15) days before the expiration of any policy required hereunder previously obtained, Consultant shall deliver evidence reasonably acceptable to City showing that such insurance is in full force and effect.

I. Consultant hereby agrees as follows:

1. To punctually pay or cause to be paid all premiums and other sums payable under each insurance policy required to be obtained, kept, and maintained pursuant to this Lease;

2. To maintain in full force and effect the policies required to be carried to the extent so required to be carried pursuant to the terms hereof;

3. To ensure that all Casualty Proceeds are paid to the Party entitled to receive same;

4. Not, at any time, to take any action (or omit to take action) which action (or omission) would cause any insurance policies required to be obtained, kept, and maintained under this Lease to become void, voidable, unenforceable, suspended, or impaired in whole or in part or which would otherwise cause any sum paid out under any such insurance policy to become repayable in whole or in part; and

5. Promptly deliver Notice to City of any facts or circumstances of which it is aware which, if not disclosed to its insurers or re-insurers, is likely to affect adversely the nature or extent of the coverage to be provided under any insurance policy required hereunder.

SECTION VIII
ALTERNATE DISPUTE RESOLUTION/NEUTRAL PARTY

A. If any dispute, controversy, or claim between or among the Parties arises under this Agreement or is related in any way to this Agreement or the relationship of the Parties hereunder (a "Dispute"), the Parties shall first attempt in good faith to settle and resolve such Dispute by meeting at a mutually agreeable time and place to discuss the Dispute within seven (7) days following the original written notice of any Dispute by the party making such a claim. The Parties shall seek to resolve the Dispute in writing within fourteen (14) days following the original written notice of any Dispute by the party making such a claim.

B. If a mutual resolution and settlement are not obtained at the meeting, the Parties shall participate in good faith in formal mediation, within thirty (30) days following the original written notice of any Dispute, with a mutually agreeable mediator at a mutually agreeable time and place. No settlement reached under this provision shall be binding on the Parties until reduced to a writing signed by a representative of Contractor and the City Manager. Unless the parties expressly agree otherwise, each party shall bear its own costs and legal and expert fees incurred in the mediation, and evenly share the costs of the mediator. If after proceeding in good faith the parties, with the assistance of a neutral mediator, do not resolve the dispute within forty-five (45) days following the original written notice of any Dispute, the parties may proceed in accordance with Section IX below.

SECTION IX
CONTROLLING LAW, MANDATORY VENUE, AND FEES AND EXPENSES

A. After exhausting the procedures set forth above, either party may initiate litigation to resolve the dispute. The Law of the State of Texas shall control the Dispute. Venue is mandatory in in State courts located in Hidalgo County, Texas.

B. In the event of any litigation between the parties, the parties shall bear their own costs, including attorneys' fees and expenses.

SECTION X
INDEMNIFICATION

A. To the maximum extent allowed by law, Consultant agrees to and shall indemnify, hold harmless, and defend City, its officers, agents, and employees from any all claims, losses, causes of action and damages, suits and liability of every kind, including all expenses of litigation, court costs, and attorney's fees for injury to or death to any person or for damage to any property, arising out of or directly connected with the negligent or willful conduct of Consultant, its agents, officers and employees, carried out in furtherance of this Agreement.

B. Consultant agrees to assist City in defense of claims or litigation brought against the City related to this project, including any claims related to design or any other services provided by consultant regarding this agreement.

SECTION XI
LIMITATION OF LIABILITY

A. Consultant agrees to limit the City's liability arising from City's acts, errors, or omissions such that the total liability of City shall not exceed Consultant's total fees paid by the City to Consultant for the Services rendered pursuant to the Task Order which is the subject matter of the claim. Consultant agrees that City will not be liable for any indirect, incidental, special, or consequential punitive or multiple damages, including without limitation any damages resulting from loss of use, loss of business, loss of revenue, loss of profits, or loss of data, arising in connection with this Agreement, Consultant's performance of Services, or of any other obligations relating to this Agreement, even if City has been advised of the possibility of such damages. The foregoing limitation of liability shall apply to the maximum extent allowed by law for limitation of City's liability, regardless of the cause of action under which such damages are sought.

SECTION XII
AGREEMENT CONSTRUCTION

A. The headings of the Sections contained in this Agreement are for reference purposes only, and shall not affect the meaning or interpretation of this Agreement. The parties have been advised by counsel in connection with this Agreement. This Agreement shall be construed and interpreted in accordance with the plain meaning of its language, and not for or against either party, and as a whole, giving effect to all of the terms, conditions, and provisions of this Agreement. Nothing contained in this Agreement shall be deemed to confer any right or benefit on any person who is not a party to this Agreement.

SECTION XIII
NO PENDING LITIGATION

A. Consultant represents that there is no action, proceeding, inquiry, or investigation, at law or in equity, before any court, arbitrator, governmental or other board or official, pending to the best knowledge of Consultant threated against or affecting the Consultant or any subsidiaries of the Consultant, questioning the validity or any action taken or to be taken by the Consultant in connection with the execution, delivery, and performance by the Consultant of this Agreement to which the Consultant may be a party or seeking to prohibit, restrain, or enjoin the execution, delivery, or performance by the Consultant hereof or thereof, where in an unfavorable decision, ruling, or finding (i) would adversely effect the validity or enforceability of, or the authority or ability of the Consultant to perform, its obligations under this Agreement to which the Consultant may be party or (ii) would have an adverse effect on the consolidated financial condition or results of operations of the Consultant or on the ability of the Consultant to conduct its business as presently conducted or as proposed or contemplated to be conducted.

SECTION XIV
SEVERABILITY

A. If any term or provision of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions of this Agreement shall remain in full force and effect and shall in no way be affected, impaired or invalidated.

SECTION XV
NOTICE

A. Any notices to be given under this Agreement shall be in writing, (i) sent by registered or certified mail, postage prepaid, return receipt requested or (ii) sent by nationally recognized overnight courier (e.g. Federal Express) with electronic tracking, and addressed to such party as follows:

(a) Notices to the City:

City of Edinburg
415 W. University Drive
Edinburg, Texas 78539
Attn.: City Manager

With a copy to:

City of Edinburg
415 W. University Drive
Edinburg, Texas 78539
Attn.: City Attorney

(b) Notices to Consultant:

Address
City, State Zip Code
Attn.: Contact

B. Such Notices shall be deemed delivered (i) in the case of U.S. mail in the manner provided above, three (3) business days after posting or (ii) if sent by nationally recognized overnight courier with electronic tracking service, the next business day after depositing same with such overnight courier before the overnight deadline and if deposited with such courier after such deadline, then the next succeeding business day.

SECTION XVI
NON-APPROPRIATIONS

A. Notwithstanding anything in the Agreement to the contrary, any and all payments which the City is required to make under this Agreement shall be subject to annual appropriation or other availability of funds, as certified by the Director of Finance.

B. If the City cannot appropriate sufficient funding, then either party has the right to terminate the Agreement by providing ten (10) days' written notice to the other party.

SECTION XVII
SUCCESSORS AND ASSIGNS

City and Consultant each bind themselves, their partners, successors, executors, administrators, and assigns to the other party of the Agreement in respect to all covenants of this Agreement. Neither City nor Consultant shall assign, sublet, or transfer interest in this Agreement without written consent of the other.

SECTION XIX
CONFLICT OF TERMS

If any of the terms of this Agreement conflict in any respect with any of the terms of the attached Exhibits or any current or future Job Task Orders, the terms of this Agreement shall be controlling.

SECTION XX
NO WAIVERS OR ACCORD AND SATISFACTION

A. This Agreement may be amended only by written instrument signed by all parties.

B. No failure or delay of any Party, in any one or more instances (i) in exercising any power, right, or remedy under this Agreement or (ii) in insisting upon the

strict performance by the other Party of such other Party's covenants, obligations, or agreements under this Lease, shall operate as a waiver, discharge, or invalidation thereof, nor shall any single or partial exercise of any such right, power, or remedy or insistence on strict performance, or any abandonment or discontinuance of steps to enforce such a right, power, or remedy or to enforce strict performance, preclude any other or future exercise thereof or insistence thereupon or the exercise of any other right, power, or remedy. The covenants, obligations, and agreements of a defaulting Party and the rights and remedies of the other Party upon a default shall continue and remain in full force and effect with respect to any subsequent breach, act, or omission.

C. Without limiting the generality of the above, the receipt by City of any Services with knowledge of a breach by Consultant of any covenant, obligation, or agreement under this Agreement shall not be deemed or construed to be a waiver of such breach. No acceptance of Services or payment to Consultant shall be deemed to be other than on account of the earliest installment of the amounts due under this Agreement, nor shall any endorsement or statement on any check, or any letter accompanying any check, wire transfer or other payment, be deemed an accord and satisfaction. City may accept services or make payment without prejudice to its rights under this Agreement or pursue any remedy provided in this Agreement or provided otherwise by law or equity.

SECTION XXI
NOTICE OF GOVERNING LAW FOR STATE AND FEDERAL GRANT PROJECTS

The Consultant agrees to abide by all applicable laws and regulations and to make all applicable records and other documentary data available at any time for the purpose of an audit and to ensure compliance with relevant State and federal laws, including but not entirely limited to, those provisions found any future Job Task Orders.

EXECUTED by the parties in triplicate originals on this _____ day of _____, 202___.

RE: Request for Qualifications No. 2026-2 | Right of Way Acquisition Services

Dear Mr. Hinojosa:

Bowman Realty Consultants, LLC (Bowman) is pleased to submit our Statement of Qualifications in response to the City of Edinburg's Request for Qualifications (RFQ) No. 2026-2 for Right of Way Acquisition Services. We appreciate the opportunity to be considered for inclusion on the City's on-call rotation and are committed to providing **responsive, professional, and efficient right of way acquisition services** that support the City's transportation, utility, drainage and capital improvement projects.

We understand the City is seeking a qualified partner to provide appraisal review coordination, acquisition and negotiation services, title and escrow coordination, project management and administrative support on an as-needed basis. Our team has extensive experience delivering these services for municipalities, counties, utilities and transportation agencies. Through experienced acquisition professionals, strong project management, and proactive communication, Bowman delivers acquisition programs that **maintain schedules, reduce risk and ensure regulatory compliance.**

Bowman brings a dedicated **Texas-based** team led by Katie Hudson, SR/WA, including **former TxDOT leadership** with extensive knowledge of Texas statutes, agency procedures and acquisition practices. The team is supported by Thomas M. Bogdon, MAI, R/W-AC, MRICS (Cushman & Wakefield) and Randy L. Seale, MAI (Allen, Williford & Seale, Inc.), providing immediate access to experienced Texas appraisal and appraisal review professionals. Our scalable team responds quickly to individual task orders while supporting multiple concurrent assignments throughout the contract.

Our approach emphasizes proactive communication, transparent project tracking, timely reporting and close coordination with City staff and project stakeholders. We recognize that the City's ability to deliver transportation, utility, drainage and capital improvement projects depends on timely acquisition of the required property rights. Bowman is committed to supporting those efforts through **responsive project management,** respectful property owner engagement and **efficient acquisition services** that help keep projects on schedule.

Bowman confirms that no addenda have been issued for this RFQ as of the date of this submission. Bowman is fully committed to providing the level of service the City expects and deserves. If selected, we will dedicate the personnel and resources necessary to serve as a **dependable extension of your staff** and support the successful delivery of the City's infrastructure program.

Sincerely,

Katie Hudson, SR/WA
Vice President, Right of Way & Land Services

Project Understanding & Approach

PROJECT UNDERSTANDING

Bowman understands that the City of Edinburg is one of the **fastest-growing communities in South Texas** and serves as the governmental, educational and economic center of Hidalgo County. Continued population growth, expanding commercial development, utility infrastructure needs, roadway improvements and capital improvement investments create an increasing demand for professional right of way acquisition services to support the City's long-term infrastructure goals. Edinburg's ongoing growth, strategic location within the Rio Grande Valley, and continued investment in transportation and utility improvements require a consultant that not only possesses technical acquisition expertise but also understands the unique needs of the local community.

Bowman understands that this contract will support the City through as-needed task orders for a wide range of transportation, utility, drainage, parks, municipal facility, water, wastewater and capital improvement projects. Our team is prepared to **rapidly mobilize** for assignments ranging from **single-parcel easement acquisitions to complex, multi-parcel corridor projects** while maintaining consistent communication, documentation, reporting and coordination with City staff.

Bowman recognizes that successful right of way acquisition in the Rio Grande Valley requires an understanding of the area's diverse

demographics, strong family and property ownership traditions, agricultural interests, commercial growth patterns, and the importance of maintaining positive relationships with residents and businesses throughout the acquisition process. Our approach balances infrastructure delivery objectives with **fair and respectful treatment of property owners,** ensuring that acquisitions are conducted efficiently, professionally, and in accordance with all applicable federal, state and local requirements.

Bowman recognizes that each task order issued under this contract may involve different property interests, project schedules, funding sources and stakeholder considerations. Our team is prepared to adapt our acquisition approach to each assignment while maintaining consistent communication, thorough documentation and responsive coordination with City staff throughout project delivery.

SCOPE OF SERVICES

Bowman will provide comprehensive right of way acquisition services on an as-needed basis in support of transportation, utility, drainage, parks, municipal facility and capital improvement projects undertaken by the City of Edinburg.

Project Management and Program Administration

Bowman will provide overall project management and coordination services for individual task orders, including:

- Development of **acquisition strategies and schedules**
- Establishment of **parcel tracking and reporting systems**
- Coordination with City staff, engineers, surveyors, appraisers, attorneys, title companies and regulatory agencies
- Attendance at project meetings and stakeholder meetings
- Preparation of **monthly progress reports** and acquisition status updates
- Monitoring schedules, budgets and project milestones
- Identification and resolution of acquisition challenges
- Maintenance of acquisition records and project documentation

Bowman's project management approach focuses on **proactive communication,** accountability and **timely delivery** of services to support the City's capital improvement program. Throughout each assignment, Bowman will maintain regular communication with City staff, provide timely status updates, and proactively resolve issues to help keep acquisitions and associated capital improvement projects on schedule.

Bowman recognizes that the success of an on-call right-of-way acquisition program depends on responsiveness, flexibility and timely execution. Upon authorization, our Texas-based team will promptly initiate project coordination, establish acquisition schedules, assign qualified personnel and begin property owner outreach. Our scalable staffing model allows us to support **multiple concurrent task orders** while maintaining consistent communication, accurate reporting and dependable project management throughout each assignment.

Appraisal Review and Valuation Coordination

Bowman will partner with **Allen, Williford & Seale, Inc., led by Randy L. Seale, MAI,** for appraisal review services and **Cushman & Wakefield, led by Thomas M. Bogdon, MAI, R/W-AC, MRICS,** for appraisal and valuation support, including:

- Review of appraisals prepared by others
- Evaluation of appraisal compliance with applicable standards and project requirements
- Identification of appraisal deficiencies or inconsistencies
- Preparation of appraisal review recommendations
- Coordination with appraisers regarding updates or revisions
- Preparation of valuation summaries to support acquisition negotiations

The City may elect to contract directly with appraisers and provide appraisal reports to Bowman for review and acquisition purposes.

Right of Way Acquisition and Negotiation Services

Bowman will perform acquisition and negotiation services for fee simple acquisitions, easements, temporary construction easements (TCEs) and other property interests required for public projects.

Services include:

- Ownership verification and parcel research
- Review of title commitments, plats, surveys and legal descriptions
- Preparation of acquisition packages
- Initial contact with property owners
- Presentation of approved offers
- Delivery and explanation of appraisal summaries
- Preparation of offer letters and acquisition documentation
- In-person meetings and site visits as necessary
- Negotiation of acquisitions in accordance with approved values and City authorization
- Documentation of all contacts and negotiations
- Coordination of administrative settlements when approved by the City

Bowman will strive to achieve successful **voluntary acquisitions** while maintaining professional and respectful relationships with property owners.

Community Engagement and Stakeholder Outreach

Bowman recognizes that community acceptance and stakeholder trust are critical components of successful right of way projects.

Our community engagement strategy includes:

- Early outreach to affected property owners and stakeholders
- Clear communication regarding project benefits, timelines and property impacts
- Designation of a single point of contact for each acquisition assignment

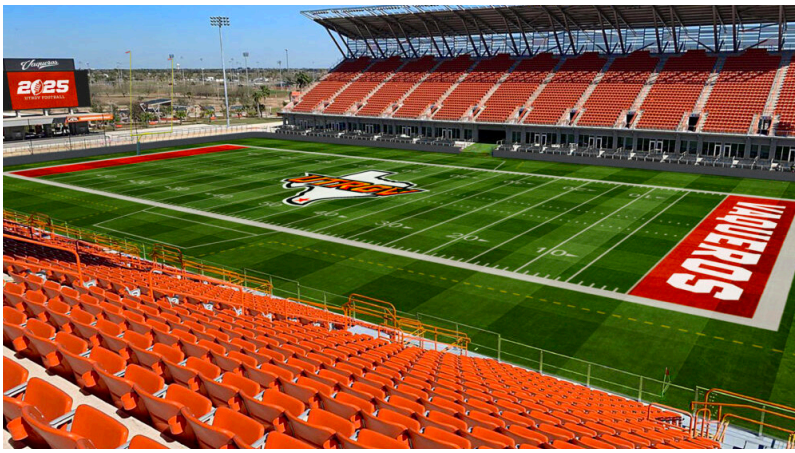
- Timely responses to property owner questions and concerns
- Personal meetings, phone calls and site visits when appropriate
- **Bilingual communication support** when requested or beneficial
- Coordination with businesses, residents and community stakeholders
- Participation in public meetings and open houses as requested by the City

Bowman understands the unique demographic characteristics of the Rio Grande Valley and the importance of culturally responsive communication. Our team recognizes that many property owners have longstanding ties to their property and community. Through transparency, active listening, and respectful engagement, Bowman seeks to build trust, reduce conflicts and facilitate successful project outcomes.

Relocation Assistance Services

For projects involving displacement of residential or business occupants, Bowman will provide relocation assistance services in accordance with applicable regulations.

Services may include:



- Identification of relocation impacts
- Relocation planning and coordination
- Preparation of required notices and documentation
- Assistance with relocation benefit eligibility determinations
- Coordination with displaced occupants
- Maintenance of relocation files and compliance records
- Support for **Uniform Relocation Assistance** requirements when federally funded projects are involved

Title and Escrow Coordination

Bowman will coordinate title and escrow activities necessary to complete acquisitions.

Services include:

- Review of title commitments and ownership records
- Identification of title exceptions and encumbrances

- Coordination of title curative actions
- Coordination with title companies and attorneys
- Monitoring execution of conveyance documents
- Escrow management and closing coordination
- Tracking document recording and closing requirements
- **Resolution of title issues** affecting project delivery

Easement Acquisition Services

Bowman will support acquisition of various easement interests required for City projects, including:

- Utility easements
- Water and wastewater easements
- Drainage easements
- Access easements
- Temporary construction easements
- Slope easements
- Permanent roadway easements
- Utility relocation easements
- Easements associated with third-party utility crossings of City-owned property

These services will support roadway, utility, drainage and infrastructure improvements throughout the City.

Support for Federal, State and Local Projects

Bowman will provide right of way services for City projects funded through **local, state and federal** sources.

Services may include support for:

- Transportation corridor improvements

- Intersection and turn-lane projects
- Utility undergrounding initiatives
- Water and wastewater system improvements
- Drainage and flood mitigation projects
- Parks and recreation improvements
- Economic development initiatives
- Future capital improvement projects identified by the City

All services will be performed in accordance with applicable funding agency requirements.

Reporting and Documentation

Bowman will maintain complete and organized project records throughout each assignment. Bowman's documentation is maintained in an organized, **audit-ready** format that provides City staff with current acquisition status, complete negotiation histories and readily accessible project records throughout each task order.

Deliverables may include:

- Acquisition schedules
- Parcel inventory reports
- Parcel status tracking reports
- Negotiation summaries
- Appraisal review reports
- Title review reports
- Relocation documentation
- Community engagement logs
- Monthly progress reports
- Final acquisition reports

COMMITMENT TO THE CITY OF EDINBURG

Bowman is committed to serving as a **dependable extension of City staff** by delivering responsive, efficient and professional right of way acquisition services. Through proactive communication, disciplined project management, organized documentation, and respectful property owner engagement, we will help the City advance transportation, utility, drainage, and capital improvement projects while maintaining schedules, minimizing project risk and supporting successful project delivery.

31+ Years in Business

75+ Right of Way & Land Professionals

2,500 Number of Employees (Approx.)

108 Offices Nationwide

In Texas, Bowman operates 10 offices, including locations in **San Antonio, Dallas (Plano), Fort Worth, Austin, Houston, Waco, Marshall, Midland and San Marcos,** supported by the Texas Board of Professional Engineers firm registration (TBPE No. 14309) and Texas Board of Professional Land Surveying firm registration (TBPLS No. 101206-00). For the City of Edinburg, **services will be led from our San Antonio office.** Our Texas-based leadership team combines public-sector acquisition expertise, knowledge of Texas statutes and TxDOT procedures and the ability to rapidly mobilize in support of the City's on-call acquisition program.

Bowman Realty Consultants LLC, is a subsidiary of Bowman Consulting Group Ltd. Bowman is a nationally recognized professional services firm ranked #71 in Engineering News-Record's Top 500 Design Firms and #50 in the Texas and Southeast region. With 31 years in business and **75+ dedicated right of way and land professionals,** we provide turn-key acquisition services from title research and owner negotiation through MOA preparation, deed execution and eminent domain support.

Bowman maintains active right of way acquisition engagements with the TxDOT Dallas District, the City of Falls Church, Virginia and Spotsylvania County, Virginia, giving us current working knowledge with TxDOT procedures, DCAD processes and municipal acquisition standards directly applicable to this contract.

Why Bowman for Edinburg?

Bowman brings a rare combination to this project: TxDOT Dallas District linear corridor right of way experience (FM 1461, FM 549), active right of way acquisition programs for Virginia municipalities (City of Falls Church, Loudoun County) and a dedicated Texas-based team, **including a former TxDOT Project Delivery Manager as Subject Matter Expert**, ready to mobilize without a learning curve.

- **Texas-based municipal right of way expertise**
- **Integrated acquisition, title, appraisal review and GIS support**
- **Experienced MAI appraisal and appraisal review partners**
- **Rapid task order mobilization**
- **Transparent tracking and reporting**

Team Members

Bowman's growth is driven by a commitment to clients, not simply expansion. Our clients bring expertise in their industries, products and end-users, while we focus on understanding their project goals and how to achieve them effectively. By leveraging the specialized knowledge of our local teams and the extensive resources of our national network, Bowman is prepared to deliver innovative development strategies, advanced design concepts and cutting-edge technology to support the success of each project.

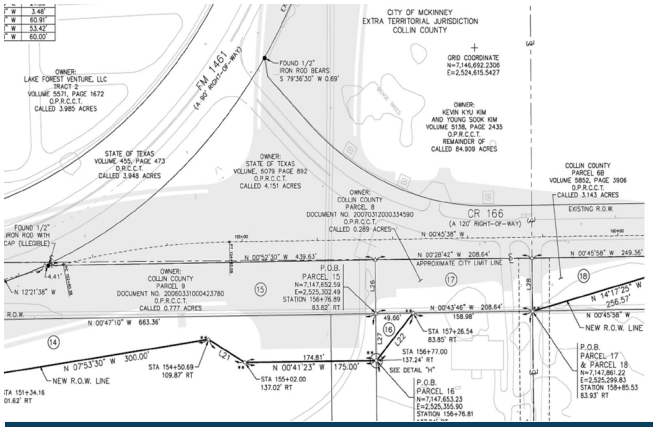
National Reach



Bowman operates nationwide, **delivering services across all 50 states** through a combination of regional expertise, remote collaboration and scalable resources tailored to each client's needs.

Project Experience

TxDOT - FM 1461 Right of Way Mapping & Acquisition

Collin County, TX

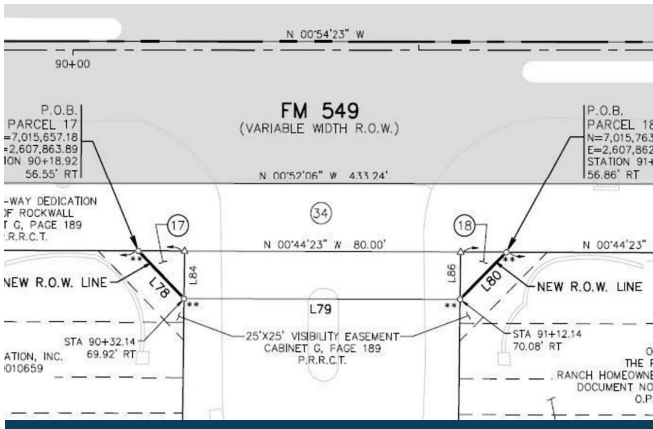
Bowman completed right of way mapping, legal descriptions and parcel plats for seven miles of acquisitions along FM 1461. Staff secured right-of-entry for **150 parcels,** communicated directly with property owners at every stage, verified TxDOT control monuments, provided topography for proposed improvements and staked monuments for the existing and proposed corridor. FM 1461 demonstrates Bowman's experience delivering complex, multi-parcel right of way acquisition services within the **TxDOT** system, including **property owner coordination,** regulatory compliance and corridor acquisition practices directly applicable to municipal capital improvement projects throughout Texas.

Client

Texas Department of Transportation

Schedule

Completed 2021



Services

Right of Way Mapping, Legal Descriptions, Parcel Plats, Right-of-Entry (150 parcels), Property Owner Communication, Right of Way Monumentation, Boundary Survey

TxDOT - FM 549 Right of Way Mapping & Acquisition

Rockwall, TX (SH 205 to SH 276)

Bowman completed right of way mapping, legal descriptions and parcel plats for two miles of acquisitions along FM 549. Field crews obtained right-of-entry for **70 parcels,** maintained **direct owner communication** throughout, verified TxDOT control monuments and staked both existing and proposed right of way. This project demonstrates Bowman's ability to efficiently manage corridor acquisitions requiring extensive property owner coordination while maintaining project schedules and regulatory compliance.

Client

Texas Department of Transportation

Schedule

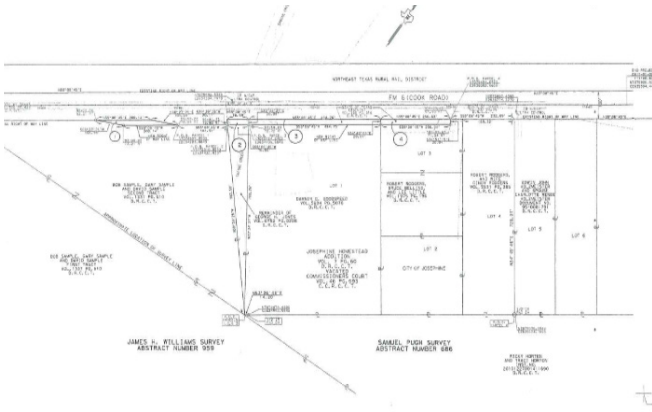
May 2019 - March 2020

Services

Right of Way Mapping, Legal Descriptions, Parcel Plats, Right-of-Entry (70 parcels), Property Owner Communication, Boundary Survey, Right of Way Monumentation

TxDOT Right of Way FM 6 to Sabine Creek

Collin County, TX



Bowman provided complete right of way acquisition services for four parcels required to construct a new bridge and approaches at FM 6 at Sabine Creek. Services were performed in full compliance with the Federal **Uniform Relocation Assistance** and Real Property Acquisition Act and Texas state law and included title and closing services, owner negotiations, project administration and condemnation support.

Schedule

2015 - 2016

Services

Right of Way Acquisition, Title & Closing Services, Owner Negotiations, Project Administration, Condemnation Support, Relocation Assistance

Client

Texas Department of Transportation

Parker County Transportation Bond Program

Weatherford, TX

Bowman provided boundary, aerial and topographic survey services for approximately eight miles of a proposed loop road around the City of Weatherford. Scope included aerial panel management and GPS-controlled flight producing planimetrics, a digital terrain model and orthophotos. The boundary survey covered approximately four miles of the proposed route, with deed research, monument recovery and a property map produced from subdivision plats and ownership records. Bowman prepared **50 right of way acquisition documents** with legal descriptions signed and sealed by a Registered Professional Land Surveyor, set right of way monuments and staked the proposed corridor so property owners and appraisers could assess the new alignment. The team also coordinated with engineers, land men, title agents and property owners throughout and surveyed Level A and Level B utilities within the project limits.

Schedule

2019

Services

Boundary Survey, Aerial Survey, Topographic Survey, Right of Way Acquisition Documents, Legal Descriptions, Utility Survey (Level A & B)

Client

Freese and Nichols, Inc.
Parker County, TX

West Broad Street Multimodal Improvements - Pedestrian & Bicycle Right of Way Acquisition

Falls Church, VA

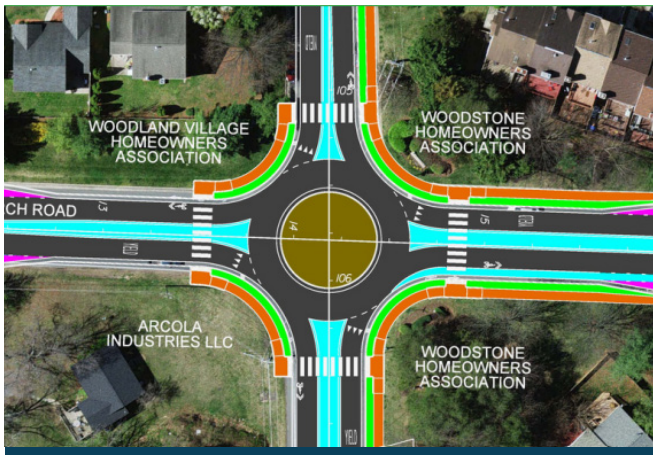
Bowman is providing right of way acquisition services for **29 properties** along West Broad Street in support of a federally funded pedestrian and multimodal corridor, including sidewalk widening, intersection improvements, bicycle access and a new mid-block crossing. The project required negotiated easements and right of way acquisition from residential and commercial property owners along an established urban corridor, demonstrating experience directly applicable to municipal capital improvement programs involving transportation, pedestrian, utility and public infrastructure projects.

Client

Department of Public Works
City of Falls Church, Virginia

Schedule

2024 - Present (Active)



Services

Right of Way Acquisition (29 parcels), Appraisal Reports, Basic Acquisition Reports (BARs), Title Examination, Negotiation, Easement Documentation, Relocation Assistance

Sugarland Road / East Church Road / East Frederick Drive

Loudoun County, VA

Bowman provided complete right of way acquisition services for 6 parcels supporting construction of a mini-roundabout at the Sugarland Road and East Church Road intersection in Sterling, Virginia, part of Loudoun County's Intersection Improvement Program targeting documented safety and operational deficiencies with ADA-compliant pedestrian ramp upgrades. Services included parcel proffer review, BAR and appraisal preparation, offer package preparation and delivery, owner negotiations, lender consent coordination, impasse documentation and biweekly County coordination meetings. All parcels were tracked and invoiced independently within the County's management system. Bowman continues to provide right of way acquisition services to Loudoun County on multiple projects.

Client

Loudoun County, VA

Schedule

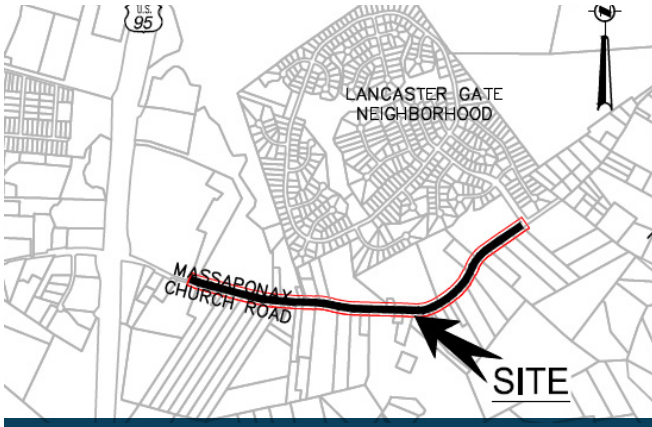
2024 - Present

Services

Right of Way Acquisition, BARs, Appraisal Coordination, Owner Negotiation, Lender Consent, Offer Package Preparation, Impasse Documentation

Massaponax Church Road Waterline Phase II

Massaponax, VA



Bowman is providing right of way acquisition services supporting construction of approximately 12,000 LF of 12-inch water main serving Spotsylvania County. The project requires acquisition across **40 parcels** and includes preparation of Acquisition Appraisal Reports, Basic Administrative Reports (BARs), offer packages, compensation agreements and mortgage release documentation. This project demonstrates Bowman's ability to efficiently acquire utility easements while coordinating title, negotiations and project management for critical public infrastructure improvements.

Schedule

2025

Services

Right of Way Acquisition, Appraisal Coordination, BAR Preparation, Easement Acquisition, Title Coordination, Owner Negotiations, Offer Packages, Project Management

Client

Spotsylvania County, Virginia

Perry D. Miller Reservoir

Winchester, VA

Bowman provided comprehensive right of way acquisition services supporting expansion of the Perry D. Miller Reservoir for the City of Winchester. Services included title research, acquisition appraisals, **appraisal reviews,** acquisition agreement preparation, owner negotiations, closing coordination and project management. This project demonstrates Bowman's ability to integrate appraisal coordination, title services, negotiations and acquisition management to support successful public infrastructure projects.

Katie Hudson, SR/WA

Principal-in-Charge

Katie Hudson is Vice President of Right of Way & Land Services and will serve as **Principal-in-Charge** for the City of Edinburg. She provides executive leadership for municipal, transportation, utility, and public infrastructure acquisition programs nationwide, overseeing project delivery, quality assurance, staffing, regulatory compliance and client satisfaction. As Principal-in-Charge, Katie provides executive leadership for multidisciplinary teams delivering acquisition, easement, title coordination, appraisal review, negotiation, stakeholder engagement and project management services. She is responsible for overall project oversight, quality assurance, schedule management, regulatory compliance, and client satisfaction, ensuring acquisition programs are delivered efficiently and in accordance with applicable federal, state and local requirements. Katie is a **Texas licensed Real Estate Broker** and holds the Senior Right of Way Professional (SR/WA) designation, bringing extensive experience overseeing complex right of way programs that support public infrastructure improvements throughout the United States. Katie provides executive oversight to ensure task orders are properly staffed, acquisition activities remain on schedule, and City objectives are achieved through responsive communication and proactive management.

Experience

Florida Power & Light Storm Secure Undergrounding Program | *Various Locations, FL*
Directed a large-scale right of way acquisition program supporting utility undergrounding improvements across multiple Florida communities. The project included managing teams of right of way agents, customer outreach specialists, and surveyors, as well as coordinating easement acquisition efforts, title review, landowner negotiations and stakeholder outreach activities. Specific improvements included underground conversion of electric distribution infrastructure and associated easement acquisition requirements. As a result of these improvements, utility resiliency was enhanced and storm-related service disruptions were reduced. Acquisition analyses, title research, and property impact evaluations were completed to determine easement requirements and support program implementation.

City of Parkland Drainage & Utility Easement Program | *Parkland, FL*
Responsible for providing acquisition and notification services supporting municipal drainage and utility infrastructure improvements. The project included easement acquisition, public outreach, title review, document preparation and coordination with property owners. Specific improvements included securing drainage and utility easements necessary for infrastructure enhancements throughout the city. As a result of these improvements, municipal utility and drainage systems were positioned to better support long-term community needs. Property evaluations and acquisition analyses were completed to determine easement requirements and facilitate project implementation.

Katie Hudson, SR/WA *(continued)*

Principal-in-Charge

Massaponax Waterline Project | *Massaponax, VA*
Provided executive leadership for right of way acquisition activities supporting water infrastructure improvements. Oversaw acquisition planning, title review, easement negotiations, stakeholder coordination, and document preparation to secure the property rights necessary for waterline construction while maintaining project schedules and supporting successful project delivery.

Tampa Electric Storm Protection Program | *Tampa, FL*
Directed right of way acquisition services supporting a statewide utility undergrounding and storm hardening program. Managed easement acquisition, title review, customer outreach, environmental coordination, construction support and overall project administration to facilitate the acquisition of property rights required for critical utility infrastructure improvements.

NIPSCO / NiSource Electric & Gas Program | *Various Locations*
Provided executive oversight for right of way acquisition and land services supporting electric and natural gas infrastructure improvements. Directed acquisition planning, title review, easement negotiations, stakeholder coordination, and project management activities necessary to secure property rights for utility modernization and system expansion projects.

VDOT Route 7 Improvements Design-Build | *Loudoun County, VA*
Directed right of way acquisition services for a major transportation corridor improvement project involving roadway widening and multimodal enhancements. Oversaw appraisal coordination, appraisal review, negotiations, relocation, acquisition management, and stakeholder coordination while ensuring compliance with applicable federal and state requirements and maintaining project schedules for successful design-build delivery.

Key Highlights

- **Former TxDOT Project Delivery Manager**
- **33+ Years of Experience**
- **FHWA & TxDOT Compliance Expert**

Ismael Hernandez

Project Manager

Texas right of way professional with more than **33 years of experience** managing acquisition programs for transportation infrastructure. Former TxDOT Project Delivery Manager with extensive expertise in right of way acquisition, appraisal oversight, Local Public Agency coordination, consultant management, and compliance with FHWA, Texas Administrative Code and **TxDOT requirements.** Brings executive-level experience delivering complex, multi-county acquisition programs and supporting successful project delivery for public agencies throughout Texas.

Experience

Texas Department of Transportation (TxDOT) Right of Way Program Management | *El Paso, TX*
Directed all right of way acquisition activities for the TxDOT El Paso District across six counties, providing leadership for appraisals, acquisitions, relocations, consultant contracts, Local Public Agency coordination, and Advance Funding Agreements while maintaining full compliance with FHWA and TxDOT requirements.

El Paso Central Appraisal District Appraisal Services | *El Paso, TX*
Senior Appraiser; Prepared residential and commercial land appraisals across El Paso County; supervised staff appraisers, managed mass appraisal workflows, represented the district in property value protests and ensured compliance with Texas Property Tax Code -- directly supporting Bowman's DCAD valuation and appraisal coordination capabilities on Texas municipal projects.

Turner Collie and Braden Engineering Company Surveying and Drafting Support | *El Paso, TX*
As a Draftsman and Survey Assistant, Ismael Hernandez was responsible for the preparation of survey and mapping documents supporting engineering and land development projects. The project included assisting with boundary, pipeline, topographic, subdivision and street improvement surveys, as well as preparing plats, subdivision layouts and topographic maps from field notes. As a result of these efforts, accurate survey documentation supported engineering design and project development. Field data interpretation and drafting analyses were completed to determine site conditions, mapping accuracy and overall survey reliability.

Key Highlights

- **15+ Years of Experience**
- **Texas Acquisition & Title Specialist**
- **Multi-Parcel Corridor Negotiations**

D. Blake Ledford

Senior Right of Way Agent

D. Blake Ledford has over **15 years** of progressive experience in right of way acquisition, title research and pipeline infrastructure projects across Texas and the southern United States. His expertise includes title analysis, landowner negotiations, easement acquisition and right of way coordination, supporting large-scale oil and gas and infrastructure developments. His experience in both the public and private sectors has equipped them with the skills to navigate complex land ownership, regulatory requirements and stakeholder coordination across multi-parcel acquisition programs.

He is a hands-on lead right of way professional who actively manages field teams, conducts negotiations, resolves title issues and coordinates with engineering, legal and project management teams to support schedule-driven acquisition efforts.

Experience

Various Projects | *VA*
As a Right of Way Agent with Bowman, Blake supports right of way acquisition efforts throughout Virginia. Responsibilities include landowner negotiations, coordination with design and engineering teams and documentation review. The work includes collaboration with local agencies and utility providers to secure access and easement rights in support of infrastructure improvements and transportation projects. Blake applies technical knowledge and communication skills to resolve conflicts and maintain compliance with project requirements.

Various Projects | *TX*
As a Project Manager with Texas Land and Title LLC, Blake was responsible for overseeing title and right of way operations on pipeline projects throughout Texas. Responsibilities included managing agent teams, ensuring accurate title research, resolving landowner concerns, and maintaining schedules and budgets. The project included oversight of acquisition processes, due diligence reviews and reporting. As a result, the projects met key regulatory milestones and client expectations.

Various Projects | *TX*
As a Sr. Lead Right of Way Agent with Texas Land and Title LLC, Blake led field teams in title examination and acquisition for pipeline corridors. The project included negotiations with landowners, preparation of easement documents and tracking acquisition status. These efforts supported timely permitting and construction timelines.

Various Projects | *TX*
As a Sr. Lead Right of Way Agent with Universal Field Services, representing Summit Midstream, Blake was responsible for title research, deed plotting and acquisition coordination. The project included securing rights for pipeline routes, coordination with legal teams and supporting GIS mapping updates.

Key Highlights

- **Texas Land Acquisition Experience**
- **Title Research & Due Diligence**
- **Landowner Coordination**

Education

B.S. Kinesiology and History, Stephen F. Austin State University

Professional Landman Training

William (David) Ford

Senior Right of Way Agent

William (David) Ford has experience completing land acquisition and leasing activities for various types of linear projects including renewable energy projects. His expertise includes landowner communication, lease negotiation support, **title research** and due diligence for property acquisitions. David works directly with landowners, attorneys and project stakeholders to verify ownership information, coordinate leasing activities and facilitate communication throughout the land acquisition process. His experience conducting title research and managing stakeholder relationships supports efficient documentation and agreement execution for land development and renewable energy projects.

Experience

Renewable Energy Land Acquisition Services | *New Braunfels, TX*
As a Right of Way Agent, David was responsible for supporting land leasing and acquisition activities for renewable energy projects. The work included conducting title research to verify legal descriptions and acreage calculations and assisting with due diligence related to property acquisitions and divestitures. He coordinated communication between clients, brokers and other stakeholders throughout the leasing process while maintaining relationships with landowners, attorneys and local government officials. These efforts supported the negotiation and execution of lease agreements required for renewable energy project development.

Project Controls Support for Electrical Infrastructure | *Baton Rouge, LA*
As a Project Controls Manager, David was responsible for maintaining project information systems and preparing reports and analyses supporting electrical infrastructure projects. The work included analyzing project costs, monitoring performance against budgets and forecasts and maintaining project data within workflow management systems. These efforts supported project management teams in tracking financial performance and maintaining accurate project documentation.

Notary Public: Florida

Benny Bethel

Senior Right of Way Agent

Benny Bethel has over 6 years of progressive experience in real estate, land acquisition, and construction across Florida, Tennessee and Iowa. His expertise includes land acquisition, closings and recordings, **easement procurement,** deed restrictions, land development, and permit approvals, supporting both public and private sector infrastructure projects. Benny's experience managing complex property transactions has equipped him with the skills to navigate permitting and acquisition processes involving local agencies and private stakeholders.

Experience

Right of Way Specialist II | *Knoxville, TN*
Benny completed right of way acquisition activities for transportation projects, including ownership research, negotiations, relocations and coordination with stakeholders. He supported project budgeting, scheduling and documentation while participating in public engagement efforts to address property owner concerns. His work ensured projects progressed efficiently and met required timelines.

Right of Way Agent III | *Melbourne, FL*
Benny prepared legal documentation for easement procurement and land acquisition, including interpreting deed restrictions and analyzing title reports. He coordinated with engineering and legal teams to ensure compliance with local and state requirements and supported timely completion of infrastructure projects. His work contributed to meeting project schedules and regulatory standards.

Property Manager | *Florida / Iowa*
Benny managed residential and agricultural properties, overseeing lease agreements, maintenance and compliance with local regulations. He prepared documentation, conducted market analyses and coordinated with stakeholders to support efficient property operations.

Key Highlights

- **Texas Right of Way Acquisition**
- **Title & Easement Negotiations**
- **Federal Infrastructure Experience**

Education

Coursework Completed, University of North Texas

Continuing Education:

Telecommunications Program, Texas A&M University and SMU Cox School of Business

Marketing of Technology Products, California Institute of Technology

Michael Cordell

Right of Way Agent

Land acquisition and right of way professional with **10+ years** of experience securing landowner agreements, negotiating easements and resolving title issues across pipeline, energy infrastructure and transportation projects throughout Texas and multi-state operations. Proven ability to conduct title research, manage complex transactions and maintain productive stakeholder relationships across politically sensitive and high-stakes acquisition environments. Direct experience supporting **federal right of way programs** through Bowman.

Experience

Federal Right of Way Project | *Texas*
Acquired landowner agreements for rights-of-way and construction access on a federally funded infrastructure project in Texas. Performed due diligence to locate landowners, confirmed ownership and encumbrances and secured executed right of way instruments in compliance with federal acquisition requirements.

UFS Company, Navigator CO2 Pipeline | *IL, NE*
Secured landowner agreements for pipeline routing and underground storage well locations across a multi-state CO2 pipeline corridor. Negotiated access agreements and right of way permissions with rural and agricultural landowners; managed complex multi-parcel negotiations across state lines.

Red Sky Land, Kentucky Wired Project | *Kentucky*
Negotiated and executed fiber optic right of way easements across multiple landowners for statewide broadband infrastructure. Researched land ownership and access routes, prepared easement documents and coordinated with project managers to maintain schedule.

Private Ranch Energy Project (Gas & Solar) | *Texas*
Negotiated pipeline right of way and surface use agreements with private landowners for a combined gas and solar development. Coordinated site selection with solar developers and managed landowner expectations through execution of final agreements.

Energy Transfer | *Permian Basin, TX*
Updated title and verified surface ownership for pipeline routing in the Permian Basin. Resolved encumbrances and prepared curative documentation to clear title prior to right of way acquisition.

EOG Resources | *Oklahoma*
Acquired oil and gas leases and conducted due diligence analysis for upstream development. Researched county records and verified mineral ownership for multi-parcel lease programs.

Tina Swain, SR/WA

Senior Acquisition Agent

Tina Swain is a real estate professional with **25 years** of experience, including 12 years of specialized experience in right of way and eminent domain and 13 years prior as a licensed realtor in DC, MD and VA. She has successfully managed property acquisitions, negotiations, relocations and stakeholder communications for large scale transportation projects across multiple agencies. Known for her organizational skills and ability to build strong relationships, Tina consistently delivers results that balance project needs with community interests.

Experience

U.S. Department of Transportation (USDOT) / Federal Highway Administration (FHWA) / Office of Planning and Real Estate | *Washington, DC*
Realty specialist who administered the FHWA Realty Program for federal-aid projects across the Mid-America region encompassing 13 states. Reviewed and provided recommendations on reauthorization plans involving proposed changes to right of way / realty regulations, policies and guidance. Assisted in drafting and revising key resources, including the Right of Way Operational Guide, Right of Way Manual Checklist and 508 Compliance Guidance for realty specialists. Reviewed and updated training materials related to right of way certification to enhance accuracy and usability.

District Department of Transportation (DDOT) Metropolitan Branch Trail (MBT) Projects: Piney Branch to Blair Road and Fort Totten to Takoma Station | *Washington, DC*
DDOT Real Estate Manager. The MBT projects had multiple phases across the District and Maryland to create a pedestrian trail network. Tina was the DDOT Real Estate Manager that managed the right of way needs for the trail projects. She negotiated with stakeholders and property owners to obtain the necessary rights needed for the project to proceed to construction.

DDOT Florida Avenue NE and New York Ave NE Intersection Project | *Washington, DC*
DDOT Right of Way Program Coordinator. The project was designed to enhance all modes of transportation and improve overall safety by adding two-way traffic to First Street NE, restoring two-way traffic on Florida Avenue NE, adding protected bicycle lanes, improving pedestrian connectivity and vehicular flow and reducing driver confusion. Tina managed and negotiated the acquisition, relocation and remediation of the property located in the middle of the Florida Avenue and New York Avenue intersections to improve the intersection configuration and overall mobility. The acquisition, relocation and demolition of the Wendy's restaurant and reconfiguration of the intersection created a safer intersection crossing, adding protected bike lanes and creating three new public park spaces.

Ellen Moore

Senior Acquisition Agent

Ellen Moore has over **20 years** of progressive experience in right of way acquisition, land procurement and easement negotiations across the Midwest and Southeast. Her expertise includes easement acquisition, title and deed review, landowner negotiations, regulatory compliance and utility infrastructure projects, supporting transportation, broadband and utility clients. Ellen's experience in both the public and private sectors has equipped them with the skills to navigate complex right of way acquisition processes while working with public agencies, utility providers and private landowners.

Ellen is a hands-on leader who actively manages field operations while supporting project coordination, landowner negotiations, staff mentoring, client communication and regulatory compliance. Her collaborative leadership style and ability to build trust with stakeholders have contributed to successful project delivery across multiple states.

Experience

Fiber Optic Broadband Expansion Projects | *Illinois & Tennessee*
As a Right of Way Field Supervisor and Right of Way Agent, Ellen Moore was responsible for coordinating easement acquisition activities for regional fiber optic and broadband expansion projects while employed by another firm. The projects included supervising a team of four Right of Way Agents, assigning parcels strategically to improve productivity and serving as the liaison between field staff and senior leadership. Ellen negotiated easements and land use agreements with private property owners, interpreted legal documents and resolved complex landowner concerns while maintaining an 85% successful negotiation rate. Through effective leadership and communication, all acquisition activities were completed on schedule and within budget while maintaining compliance with project requirements.

Transportation Right of Way Acquisition | *Kentucky*
As a Right of Way Unit Leader, Ellen Moore was responsible for coordinating right of way acquisition activities for transportation improvement projects while employed by the Kentucky Transportation Cabinet. The projects included acquiring residential, commercial and industrial properties, coordinating appraisals, negotiations, purchases and relocation activities and preparing title reviews, deeds and conveyance documents. Ellen educated property owners on project impacts, valuations and compensation while maintaining compliance with state and federal requirements. Strong partnerships with real estate professionals supported successful relocation efforts and acquisition objectives were consistently achieved.

Real Estate License: Florida (SL3424998)

Notary Public: Florida

Andrea Ohman

Title Supervisor

Andrea Ohman has over 12 years of progressive experience in right of way acquisition, title research and land services across the Southeastern and Mid-Atlantic United States. Her expertise includes **marketable title** review, easement preparation, and curative title actions, supporting electric distribution and infrastructure improvement projects. Andrea's experience in both the public and private sectors has equipped her with the skills to navigate complex ownership research and permitting processes from local jurisdictions and utility agencies.

Experience

Right of Way Supervisor | *Florida*
As a Right of Way Supervisor with Bowman, Andrea is responsible for leading Bowman's right of way team, including training, mentoring and managing staff. She oversees workload assignments, ensures quality control of deliverables, and collaborates with engineers and clients to deliver projects on schedule and within budget. Andrea supports the development of internal processes to streamline team operations and align with project goals and procedures.

Sr. Research Land Representative | *Florida*
As a Senior Research Land Representative, Andrea was responsible for conducting marketable title research for electric distribution projects. The project included retrieving public records such as deeds, surveys, liens, and leases from county courthouses and online sources. She assembled title files and prepared ownership reports, including chain of title and limited certificates. As a result of her work, easements were prepared in collaboration with engineering teams for use by field agents. Title files were posted and managed according to project procedures.

Sr. Title Examiner | *Florida*
As a Senior Title Examiner with Amrock, Inc., Andrea was responsible for preparing title documentation for real estate transactions. The project included analyzing title records in accordance with client and state requirements across over 20 states. She set and cured title requirements, plotted legal descriptions and verified closing requirements with internal departments. As a result of these improvements, accurate and complete titles were delivered for closing. Andrea also supported title clearance, recording and final policy processes.

Right of Way Abstractor | *Florida*
As a Right of Way Abstractor with Land Acquisitions, Inc., Andrea was responsible for preparing due diligence title abstracts for right of way projects. The project included obtaining and analyzing records from courthouses and assembling ownership reports for brokers and survey teams. As a result of these efforts, over 50 due diligence abstracts were completed according to varying client specifications.

Valerie McConnell

Title Agent

Valerie McConnell is a right of way and land administration professional with experience leading technician teams and delivering compliant, audit-ready documentation for transportation and infrastructure projects. As a right of way supervisor, she manages multiple teams supporting VDOT projects, Virginia municipalities and government contracts, with a focus on adherence to VDOT standards, data accuracy and **rigorous QA/QC of project deliverables.**

Her experience includes parcel-level due diligence, project reporting, database management, acquisition support and document control, ensuring complete, accurate and defensible right of way project records. With a background in commercial lending compliance and documentation, Valerie brings a strong understanding of regulatory requirements and file integrity. She is known for reinforcing QA/QC processes, improving data reliability and supporting consistent, on-time delivery in accordance with client and agency expectations.

Experience

Bowman | *U.S.A.*
As Right of Way Supervisor, Valerie leads right of way and land administration efforts supporting VDOT and municipal transportation projects, with an emphasis on quality assurance and compliance. She oversees technician teams, implementing QA/QC processes to ensure accuracy, consistency and adherence to client standards and project requirements. Valerie reviews deliverables, performs detailed document proofing and validates parcel data to maintain high-quality project records.

She coordinates parcel-level due diligence, manages reporting and database integrity, and supports acquisition activities including legal document review and closing coordination. Valerie partners with project managers and clients to address feedback, strengthen workflows and improve overall data quality and delivery performance. She also mentors staff, reinforces quality standards and drives continuous improvement across multiple concurrent projects.

Percheron, LLC | *U.S.A.*
As Document Control Supervisor, Valerie supervised and trained up to 10 team members and provided land administration oversight for renewable, T&D and select midstream projects. She managed client directives, streamlined workflows to meet deadlines and maintain document quality, performed due diligence on thousands of parcels to support legal and financial compliance, prepared accurate project-level reporting, maintained database records for construction stipulations and operational restrictions and coordinated acquisition closings. Valerie reviewed as-built surveys for payment and land-use compliance, completed due diligence for completed pipeline and well-line projects, reviewed legal documentation for new acquisitions, verified and entered acquisition records and prepared payments due to landowners, helping produce accurate, compliant and review-ready project files.

Thomas M. Bogdon, MAI, R/W-AC, MRICS

Senior Director
Valuation & Advisory

Professional Expertise

Prior to joining Cushman & Wakefield, Mr. Bogdon served as Senior Director for JLL Value and Risk Advisory. Mr. Bogdon has been engaged in real estate valuation and consultation since 1983 providing a wide variety of appraisal and consulting services. These valuations and consulting assignments have pertained to a variety of purposes; i.e., sale, loan, arbitration, eminent domain, litigation, tax, dissolution, leased fee and leasehold interest, easements, and current value portfolio appraisals and reviews. Valuation clients served include developers and investors, fund advisors, attorneys, lenders, public agencies, institutional advisors, and condemning authorities. Mr. Bogdon has also provided expert witness testimony before Superior Courts of Dallas and Tarrant County as well as Federal Bankruptcy Court throughout the U.S. and numeral local courts for eminent domain hearings and trials.

City of Edinburg Experience

Bowman Realty Consultants, LLC has not previously performed right-of-way acquisition services for the City of Edinburg. Our proposed team has successfully delivered comparable services supporting municipal capital improvement programs for municipalities, counties, utilities, and transportation agencies throughout Texas and nationwide and is prepared to immediately support the City's program.

Barbara Price

Project Manager, Real Estate

Capital Metropolitan Transportation Authority (Austin, TX)
P: 512.389.7438
E: barbara.price@capmetro.org

Bowman provided survey and geospatial services in support of Capital Metro's real estate and right of way programs, delivering accurate boundary and land data to support property acquisition and transportation infrastructure planning across the Austin, Texas region.

Eric Gustin

Operations Manager

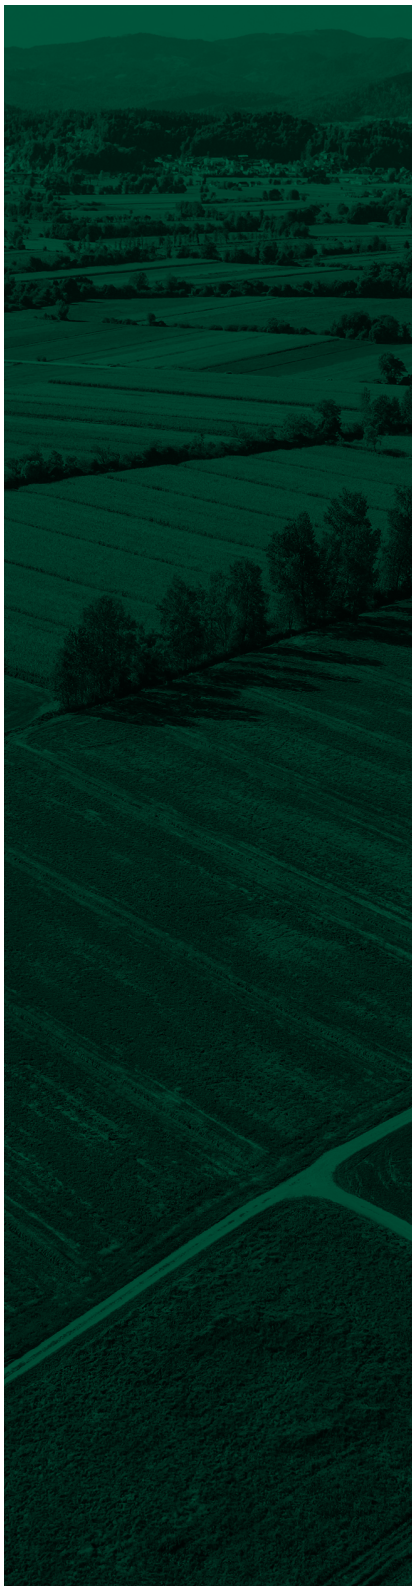
Pike Engineering
P: 239.336.4981
E: egustin@pike.com

Bowman provides right of way research and acquisition services supporting FPUC distribution line conversions from overhead to underground. Through targeted outreach, Bowman secures voluntary easements for new equipment and underground facilities, enabling compliant design and construction that meet current state and national standards through ongoing, on-demand support.

Scott Freda

CIP Project Manager

City of Falls Church, VA
P: 571.238.4557
E: sfreda@fallschurchva.gov



Bowman is providing right of way acquisition services for 29 properties along West Broad Street in support of a federally funded pedestrian and multimodal corridor, including sidewalk widening, intersection improvements, bicycle access and a new mid-block crossing.

Ronald Baker Jr.

Manager, Construction Services

Spotsylvania County, VA
P: 540.507.7325
E: rbaker@spotsylvania.va.us

Bowman provided right of way acquisition services for 40 parcels supporting installation of 12,000 linear feet of water main along Massaponax Church Road, including 8 Acquisition Appraisal Reports, 32 BARs, offer package preparation and direct owner negotiation to secure executed easement agreements on behalf of Spotsylvania County.

Insurance

Bowman Realty Consultants maintains General Liability, Automobile Liability, Workers' Compensation, Umbrella Liability and Professional Liability insurance **meeting or exceeding the City's requirements.** Evidence of coverage is attached. Mr. Mardoqueo Hinojosa
City Engineer
City of Edinburg
415 W. University Drive

Reference: RFQ #2026-2 Right-of-Way Acquisition Services

Dear Mr. Hinojosa:

In response to RFQ No. 2026-2, **BRIGGS FIELD SERVICES, INC. (BFS)** is pleased to submit this Statement of Qualifications to provide Right-of-Way Acquisition Services for the City of Edinburg. BFS is a Texas-based right-of-way consulting firm with more than 30 years of experience providing acquisition, relocation assistance, title coordination, title curative, appraisal review coordination, property management, utility coordination, and project management services for public infrastructure projects throughout Texas and across the nation.

Our team is highly qualified to provide the services requested by the City, including right-of-way acquisition, rights-of-entry, relocation assistance, title services, title curative, appraisal review coordination, negotiations, condemnation support, and project management. All services are performed in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (Uniform Act), applicable state and federal regulations, and agency-specific procedures.

A significant strength of our team is our direct experience serving the City of Edinburg. BFS previously provided right-of-way acquisition services for the Veterans Boulevard Detention Pond Project, including title services, title curative, appraisal review coordination, negotiations, and acquisition support involving an exceptionally complex heirship tract. During the assignment, BFS successfully acquired 72 ownership interests associated with a 7.94-acre portion of a 13.94-acre tract. What was initially believed to involve six to ten heirs ultimately required title curative and acquisition efforts involving 75 separate heirship interests spanning multiple generations, including heirs residing in Mexico. BFS successfully resolved these ownership complexities and secured the property interests necessary to advance the project. This accomplishment demonstrates our ability to overcome challenging title issues, manage difficult acquisitions, and deliver results on projects where ownership uncertainty could otherwise delay project delivery.

Additional recent experience includes the University Corridor Bus Rapid Transit Project for the Metropolitan Transit Authority of Harris County and the Springdale Bypass Project for the Arkansas Department of Transportation. These projects demonstrate BFS's ability to successfully manage complex acquisition programs while maintaining schedule, budget, and regulatory compliance.

Key advantages of the BFS Team include:

- More than 30 years of right-of-way acquisition and relocation assistance experience.
- Proven experience serving municipalities, transportation agencies, transit authorities, utilities, and federally funded infrastructure programs.
- Successful prior experience serving the City of Edinburg.
- Extensive knowledge of Uniform Act, FHWA, FTA, FRA, FEMA, and TxDOT requirements.
- More than 3,000 parcel acquisitions, including hundreds of rights-of-entry and relocation assignments.
- Established quality assurance and quality control procedures.

- Comprehensive project tracking and reporting systems.
- Ability to rapidly deploy qualified personnel to meet project schedules and workload demands.

The Principal-in-Charge and authorized representative for this solicitation is:

Kerry J. Briggs
President / Principal-in-Charge
BRIGGS FIELD SERVICES, INC.
3920 Cypress Creek Parkway, Suite 350
Houston, TX 77068
Office: 281-583-9400
Direct: 832-541-8733
Email: kerry.briggs@briggsfieldservices.com

BFS has reviewed the City of Edinburg Professional Services Agreement incorporated within RFQ No. 2026-2 and understands the associated contractual and insurance requirements. BFS agrees to execute the Professional Services Agreement if selected and possesses the personnel, resources, and capabilities necessary to successfully perform the requested services.

BFS will provide direct management oversight throughout the assignment while maintaining close coordination with City staff and project stakeholders. Our firm is financially sound, maintains adequate resources to support project delivery, and has no known conflicts of interest that would impair our ability to provide objective professional services.

We appreciate the opportunity to submit our qualifications for this important assignment and welcome the opportunity to discuss our experience and approach with the City. We affirm that the information contained herein is true and correct to the best of our knowledge and belief.

Respectfully Submitted,

BRIGGS FIELD SERVICES, INC.

Kerry J. Briggs
President / Principal-in-Charge

1. ABOUT BRIGGS FIELD SERVICES

BRIGGS FIELD SERVICES, INC. (BFS), headquartered in Houston, Texas, with a proposed project office in Edinburg, Texas, is a full-service right-of-way acquisition and support services firm.

BFS provides comprehensive right-of-way support services to public- and private-sector clients. All services are performed in accordance with applicable local, state, and federal laws and regulations, including the Uniform Relocation Assistance and Real Property Acquisition Policies for Federal and Federally Assisted Programs (42 USC 61), as amended; 49 CFR Part 24; and applicable City of Edinburg and Texas Department of Transportation (TxDOT) policies and procedures. BFS has provided right-of-way services to TxDOT and other state transportation agencies and recently completed eminent domain proceedings for Benton County, Arkansas.

BFS provides a full range of right-of-way management and real estate services for public works projects. Our staff has expertise in every phase of the right-of-way process, from route selection and property acquisition through project closeout. BFS currently employs more than 20 qualified right-of-way agents and real estate professionals, with an average of 15 years of experience acquiring rights of entry and property interests through negotiation, settlement, and eminent domain when necessary.

BFS delivers practical, innovative, and cost-effective solutions for complex right-of-way projects. We offer project management, acquisition, relocation, and property management services to federal, state, county, and municipal governments. Our experienced core team is knowledgeable in all right-of-way disciplines, ensuring assignments of all sizes are handled efficiently, appropriately, and with close attention to detail.

For more than 28 years, BFS has remained at the forefront of the professional real estate and right-of-way industries by combining proven processes with practical, forward-thinking solutions. Our team brings strong project understanding, extensive experience, and the depth of resources needed to help the City achieve its time-critical right-of-way acquisition objectives.

FINANCIAL STATEMENT

BFS is financially sound and will have no difficulty meeting the demands of any assignment **(Dun & Bradstreet No. 95-765-3942 and Tax ID No. 76-0399207)**. BFS has never been subject to any audit or removal by any governmental and/or public agency. Financial statements are available upon request.

BFS has the resources, availability, experience, and systems in place to efficiently perform the selected services. BFS meets all industry requirements, and our experienced staff ensures compliance with the required performance schedule, taking into account our existing business commitments. We have adequate financial resources and can obtain such resources as needed. Our repeat clients demonstrate a satisfactory record of past performance.

BFS has no past or pending bankruptcies, lawsuits, civil judgments, or criminal convictions. We have never been terminated from a contract for default or any other reason. BFS has never had any claim for professional omissions and/or errors.

1. SUB-CONSULTANT

BFS's proposed staff, including sub-consultants, are committed to the project and delivery schedule. **Even though our corporate office is in Houston, we will work from offices in the project area to save on travel time and cost.** We commit our staff for the duration of the project and can add personnel from Houston's corporate office. Our sub-consultant (The Watts Group) has recently worked with BFS in Edinburg, Texas. The business relationship with the Watts Group spans more than 10 years.

THE WATTS GROUP
REAL ESTATE APPRAISAL AND CONSULTING

THE WATTS GROUP (SUB-CONSULTANT – APPRAISAL REVIEW AND CONDEMNATION SUPPORT SERVICES)

Contact: Brian Watts, MAI, President

5622 Ballina Canyon Lane, Houston, Texas77041 Phone:

(713) 849-3500; Email: wattsgroup@earthlink.net

THE WATTS GROUP (Watts) is a real property appraisal firm located in Houston, Texas. The company was founded in 1992. The firm primarily operates in the appraisal and real estate business/industry within property types: commercial, residential, industrial, land, agricultural, public, recreational, and specific purposes. This organization has been operating for approximately 22 years. Watts has completed several appraisal assignments for the TXDOT. He has testified as an expert witness regarding real property on numerous occasions in various courts of law throughout the country.

In addition, Brian Watts holds the MAI designation through the Appraisal Institute and a General Appraiser License with the State of Texas. Mr. Watts is a past officer with Gulf Coast Chapter 8 of the International Right of Way Association. He has also served on various International and Chapter committees for the International Right of Way Association. He is a graduate of the University of Texas at Austin.

2. SERVICES PROVIDED BY PROJECT TEAM

BFS provides a full range of right-of-way management and real estate services to public and private organizations that need to acquire property for public works projects. BFS maintains a staff of professionals with expertise in every phase of the right-of-way process, from route selection to property acquisition to project closeout. The following is a detailed list of services provided by the BFS Project Team:

1. RELEVANT PROJECT EXPERIENCE

BRIGGS FIELD SERVICES, INC. (BFS) has diverse Experience in right-of-way management, land acquisition, relocation assistance, property management, project management, permitting, and coordinated utility relocation. We have a proven track record of successfully providing services as described in the RFQ and BFS Scope of Work.

The relevant projects have provided the BFS Team with the needed experience as required in the RFQ, including experience in right-of-way acquisition for Federal, State, and local government agencies in accordance with State Eminent Domain Laws and Federal Uniform Real Property Acquisition Policies and Statutes. Additional past project experience includes the following:

- Acquisition and permitting of the right of way for highway and transportation, regional light rail projects, municipal water and sewer line projects, and electric utilities.
- Right-of-way acquisitions that involve politically and culturally sensitive issues. Acquisition of right of entry permits and right-of-way negotiations for local public agencies.
- Administering a federally funded program relating to negotiation and acquisition of right of way and real property relocation, title research, title report, title opinion preparation, appraisal review, and property management.
- Management of railroad right-of-way; coordinated utility relocations for railroad expansion projects; title research; and damage claim settlements.
- Reviewed appraisals for determination of just compensation in compliance with all applicable rules and regulations. Developed and administered relocation advisory assistance plans.

This is a summary of the BFS-relevant projects log, including the number of parcels acquired, property types, location, clients, and condemning agencies, as shown in the following table.

TABLE 2 - RIGHT OF WAY ACQUISITION AND RELOCATION EXPERIENCE LOG

BFS will manage the project using a task-force approach to organize and execute the required right-of-way services. Work assignments will be made by discipline after the City issues a written work authorization or directive. When appropriate, BFS will secure Rights of Entry, Possession and Use Agreements, and other access instruments to obtain timely site access, support project delivery, and maintain the approved right-of-way acquisition schedule.

All right-of-way services will be performed in accordance with applicable local, state, and federal laws, regulations, and procedures, including, without limitation, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (URA), and any applicable City of Edinburg, TxDOT, and funding-agency requirements.

PROJECT EXPERIENCE AND QUALIFICATIONS

2. KEY STAFF PERSONNEL

To meet the City of Edinburg needs and requirements, BFS has assembled an experienced team that has worked together on previous projects. The team includes right-of-way appraisers, acquisition agents, relocation assistance specialists, and property management professionals.

Kerry J. Briggs, ERW, Principal/Project Manager, is authorized to negotiate and bind the BFS Team on all contractual matters. Mr. Briggs is a former right-of-way agent and engineering technician with the Union Pacific Railroad. He managed the railroad right-of-way in over 16 states, including right-of-way acquisition, relocation assistance, utility coordination, license agreements, lease management, legal descriptions, and plat reviews. He is a certified easement/right-of-way agent by the Texas Real Estate Commission.

Glenda Briggs, SR/WA, R/W-NAC, R/W-AMC, is the Utility Relocation & QA/QC Manager. Mrs. Briggs has over 25 years of right-of-way acquisition experience. Over the past years, Ms. Briggs' vast work experience includes working in both the public and private sectors on utility relocation projects. She is knowledgeable about the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

Suzyette Romoser, SR/WA, is the Acquisition/Relocation Manager. She is a licensed Texas real estate broker with over 10 years of experience in right of way acquisition services throughout Texas. Mrs. Pellerin will be responsible for the internal quality-control review of all acquisition assignments.

Linda Norwood is a Relocation Assistance Specialist. She has over 30 years of experience as an established relocation professional. She has provided permanent and temporary professional relocation services to transit districts, the Department of Transportation, water districts, economic and community development agencies, redevelopment agencies, non-profit housing agencies, municipalities, public housing authorities, and private developers. She is knowledgeable of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

Brian Watts, MAI (Watts Group), is our Review Appraisal and Condemnation Support. He is a certified Texas real estate appraiser with over 30 years of appraisal experience on multiple infrastructure projects. He will be responsible for the independent review of appraisals by City-selected appraisers. Watts Group has previously provided similar services on the recent BFS project.

Other BFS team members have years of experience in municipal, transportation, and transit-related projects and a working knowledge of the U.S. Transportation Department (FTA), Federal Highway Administration (FHWA), Federal Uniform Relocation Assistance Policies Act of 1970 (as amended) (URA), Uniform Standards of Professional Appraisal Practice (USPAP), and TxDOT Right of Way guidelines.

Key members of the BFS Team staff have direct project experience providing acquisition and relocation assistance services for municipal, transportation, and public works projects in Texas and other states, utilizing both the Uniform Relocation Assistance and Real Property Acquisition Act of 1970 (as amended) and several states' Department of Transportation guidelines and local assistance procedures, including TxDOT and other state and federal regulatory policies and requirements. A summary of key personnel experience is shown below.

PROJECT EXPERIENCE AND QUALIFICATIONS

TABLE 3 - KEY PERSONNEL/TASK MANAGER EXPERIENCE MATRIX

KEY STAFF	TITLE	DESIGNATION	AVAILABILITY	FIRM
Kerry J. Briggs	Principal/Project Mgr.	TREC ERW Agent	80%	BFS
Glenda Briggs	QA/QC Manager	SR/WA, R/W-NAC, R/W-AMC	80%	BFS
Suzyette Romoser	Acquisition Manager	SR/WA, Notary Public	100%	BFS
Linda Norwood	Relocation Specialist	HUD Certification	80%	BFS
Michael Powell	Property Mgmt.	SR/WA, R/W-NAC	100%	BFS
Brian W. Watts	Appraisal Review	MAI	As Needed	Watts

Other BFS team members bring extensive experience in municipal and transportation-related projects, along with working knowledge of Federal Highway Administration (FHWA) requirements, the Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA), FEMA Hazard Mitigation, and TxDOT procedures and guidelines. The following experience matrix summarizes the project team's key personnel, including education levels and experience with relevant agencies.

The BFS team will manage the project using the project task force methodology for organization and execution. Project assignments will be based on the discipline required after the issuance of a written work directive authorized by the City.

ACQUISITION, CONDEMNATION, PROPERTY MANAGEMENT AND RELOCATION STAFF

Amelia Pellerin, SR/WA, will lead the acquisition staff with two agents, with both the Texas licensing and Uniform Act requirements. The acquisition staff includes three members with SR/WA designations. Linda Norwood will lead the relocation assistance staff. Staff includes two relocation agents. Michael Powell will lead the property management staff of 2 agents. The following experience matrix summarizes acquisition and relocation, property management, and condemnation/eminent domain staff, including education level, real estate licensing, and experience with all associated agencies.

TABLE 4 - ACQUISITION AND RELOCATION AGENTS STAFFING MATRIX

PROJECT EXPERIENCE AND QUALIFICATIONS

APPRAISAL STAFF

Brian Watts, MAI (Watt Group), will be our review appraisal. He will provide independent review appraisals for City selected appraisers. The following experience matrix summarizes review appraiser, including years of experience, education level, real estate licensing, and sub-consultant association.

TABLE 5 - APPRAISERS STAFFING MATRIX

PERSONNEL	ASSIGNMENT	YRS. EXP.	EDUCATION	REAL ESTATE APPRAISER LICENSE NUMBER	FIRM
Brian W. Watts, MAI	Review Appraiser Expert Witness	30	BBA	1326490	Watts
Leonel Garza, III	Review Appraiser Expert Witness			1328375	Garza

All staff identified above are available for full-time assignments, as required by the City's scope-of-work authorizations.

3. STAFF AVAILABILITY

As stated in the Project Management Approach, the BFS Team is committed and prepared to handle the project professionally and expeditiously. We recognize that our roles are complementary and will ensure that City and community needs are addressed throughout the term of the project contract and beyond.

The matrix shows staff by job classifications, including the expected number of work hours per year and percentages of total hours over the duration of the project. Adjustments to percentages of total hours shall be provided if warranted by changes to the City's scope of work and/or work authorization.

The following matrix summarizes project team readiness and availability to perform and meet the Project schedule.

-
Briggs Field Services staff is cross-trained and anticipated to perform in dual roles when required.

Organization Chart

WORK PLAN AND APPROACH TO TASKS IN PROPOSED SCOPE OF WORK

The City of Edinburg (CITY) proposes to secure professional Right of Way Acquisition Services for projects in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (Uniform Act), Federal and State laws and regulations, and TXDOT Right of Way policies and procedures. The general scope of services includes, but is not limited to, Tasks one (1) through fourteen (14) as spelled out in the RFP. consisting of Administration and Project Management, Appraisal Services, Appraisal Review, Negotiation Services, Closing Services, Relocation Assistance Services, Property Management Services, Appraisal Updates, Appraisal Review Updates, Initial Waiver Valuation Services, Initial Waiver Valuation Review, Waiver Valuation Updates, Waiver Valuation Review Updates.

TASK 1- ADMINISTRATIVE AND PROJECT MANAGEMENT

Briggs Field Services (BFS) will provide project management services for all functions and tasks. The assigned project manager will be assigned to the project for the duration of the project. The project will be managed and administered from offices located in Houston and Edinburg, Texas. BFS will participate in the preparation of Task Orders (TOs), monitor and track each task order, manage plans and schedules, and coordinate and manage real property functions and tasks required under contract at the direction of CITY to meet CITY's overall project schedules and ensure completion of functions and tasks based on the project timeline.

BFS staff will attend the Kickoff Meeting and prepare Progress Reports using standard scheduling software to prepare and report project schedules. The Project Manager will provide information, reporting, and assistance to CITY, as required, on project issues related to complex negotiations, program scheduling, budgeting, condemnation, eminent domain proceedings, and Right of Way Certificates as required by the CITY. BFS will assist in informational presentations concerning land acquisition procedures at formal public hearings. BFS will develop a Risk Management Plan, administer subcontracts, prepare and submit invoices, and provide database management to ensure all required data is entered into the CITY database. BFS will provide the final contact report and participate in the final meeting.

PROJECT METHODOLOGY & STAFFING

Our experience matrix shows which staff members are assigned to the project and the depth of knowledge and experience we are prepared to commit to this project. BFS will use the project task force methodology to organize and execute this project. Project assignments will be based upon the discipline required after the issuance of a written work directive authorized by CITY.

PROJECT MEETINGS

BFS team members will be assigned to the CITY project, if required, for the duration of the project. Weekly project coordination meetings will be conducted to discuss the project. Joint meetings of the participants will be conducted to address specific issues rather than programmed. It is recommended that weekly status meetings with all participants be conducted to discuss the project status. Project meetings during COVID-19 will be by Zoom, conference call, or other electronic apps to allow for safety measures.

PROBLEM RESOLUTION

BFS Project Manager will work closely with the CITY to resolve any problems. Problems to be addressed will also be submitted to the Quality Assurance Manager for his/her review and approval. Weekly staff meetings will be held to allow for technical direction and to discuss any problems to assure that all functions are within total compliance with the statutory requirements and guidelines of the Uniform Relocation Assistance and Real Property Acquisition Policies Act and amendments thereto of the U.S. Department of Transportation, the Federal Transit Administration, Caltrans, and the CITY as it relates to land acquisition, relocation assistance, and real estate appraisal for the project.

REPORTS FUNCTION

BFS proposes using various software tools to prepare the necessary reports for the CITY. We understand the report function plays a vital role in the work process. Reports will be generated using the city's guidelines. All reports will be generated using various software, including SharePoint, e-Builder, Microsoft Word, Excel, Access, Microsoft Project Management, Team, and others, as directed by the City.

Excellent communication from the start of the project is essential. A kick-off meeting is recommended. Guidelines will be given to each person working on the project during the start-up phase to ensure proper documentation. The required information will be compiled daily to keep the report information current. Each person assigned to the project will know what is expected of them individually as well as the whole Team.

TASK 2 – ESCROW & TITLE COORDINATION SERVICES

BFS will provide title services through a reputable title company. The title company will provide title certificates and supporting documents, provide title commitments, including 30-year title searches in accordance with CITY and TXDOT Right of Way procedures, furnish updates orrevised information to the CITY and TXDOT's Right of Way Engineering Section when there is a change of ownership following certificates obtained during rights of way plan preparation. BFS and Title Company will perform title curative work and prepare the proper instruments of conveyance and releases upon determining the title status.

TASK 3 – INITIAL APPRAISAL SERVICES

BFS sub-consultants will provide real estate appraisals and appraisal reviews in accordance with the Uniform Act and the requirements of 49 CFR Part 24, Sections 24.103 and 24.104, which are intended to be consistent with Professional Appraisal Practice (USPAP). An appraisal review will be performed. If necessary, corrective action will be taken to provide the CITY with recommendations on fair market values and to ensure that proper formats are utilized and that required standards are met. BFS will ensure appraisal reports are complete, calculations are correct, and typographical errors are corrected.

TASK 4 – INITIAL APPRAISAL REVIEW SERVICES

Review appraisers will make recommendations that the fair market values be utilized in determining fair market values and have the capabilities to provide expert witness testimony when required. Review Appraisers will meet all USPAP requirements and standards. Review appraisers will have

no relationship to BFS and the appraiser firm that prepared the appraisal. No appraiser who prepares an appraisal report on the project will be allowed to perform review appraisal activities.

TASK 5 – NEGOTIATION SERVICES

Using the Uniform Act, CITY, and TxDOT Right of Way Manual, BFS will coordinate all phases of the acquisition process. All work for the acquisition task will be performed in compliance with the Guidelines, Standards, and Requirements for Right of Way Acquisition Services.

BFS will coordinate all phases of the acquisition process; Ensure all phases of the acquisition process are coordinated to meet all project schedules; Document the acquisition process and all work activities in a parcel diary; Maintain all records and documents, and prepare status reports throughout the acquisition process; Order Preliminary Title Reports prior to the acquisition process and coordinate all acquisition title requirements; Develop, present and negotiate all phases of the acquisition process using TXDOT standard documents; Coordinate all phases of escrow; Provide condemnation support, including Resolution of Necessity package preparation; Prepare all necessary documents; Ensure nondiscrimination in all phases of the acquisition process; Ensure compliance with Environmental Justice and Guidelines.

BFS will develop, maintain, and update project Logs to prepare status reports. It will also assemble necessary documents in accordance with right-of-way and construction plans, legal opinions, fair market value estimates, and other instructions as provided by CITY.

BFS will review title reports, appraisals and appraisal reviews, offer letters, waivers, instruments of conveyance, and other necessary documents before the actual acquisition process begins.

BFS will conduct negotiations for acquisitions of property in accordance with CITY and TXDOT guidelines and procedures. BFS will take the following actions on each tract to be acquired for the project:

1. Deliver acquisition brochures, plats, offer letters, unsigned agreements, and releases by personal contact and or registered mail.
2. Maintain a diary of the negotiator's contacts with property owners to document expedited negotiations, efforts to achieve amicable settlements, and responses to owner counter-proposals.
3. Submit acquisition documents to the CITY and recommend action for settlements in accordance with CITY and TXDOT procedures or recommend initiating eminent domain proceedings. BFS will provide continued support during the eminent domain process.

CONDEMNATION AND SETTLEMENTS

In accordance with the Uniform Act, BFS will provide assistance in acquiring parcels for which amicable settlements have not been reached prior to construction. We will make recommendations for administrative settlements and recommend parcels for referral to the CITY Legal Department for rights-of-entry, legal settlements, and eminent-domain proceedings.

SUPPORT TO ENGINEERING

BFS will provide title research, prepare necessary title reports to identify current landowners, and assist the CITY with location studies, cost estimating, obtaining maps, and other documents. We will coordinate our efforts in amending title reports and documents, correcting errors, and plan changes. BFS will provide assistance for and during required land surveys. We will assist with right-of-way plan changes, as-built documentation, and related duties as directed by the CITY. A due diligence review of legal descriptions will be made to confirm that legal descriptions are correct.

TASK 6 – CLOSING SERVICES

In accordance with the Uniform Act, BFS will coordinate closings on behalf of the CITY, including delivering instructions to landowners, scheduling closings, and obtaining closing documents from property owners, mortgage companies, title companies, and the CITY. We will assist the Title Company in assembling closing packages, deliver pertinent documents to the closing company, and represent the CITY at closings. BFS will coordinate with the closing officer to ensure instruments conveying title of rights of way to the CITY are appropriately filed in the appropriate county offices' public records, ensure disbursements are correctly made promptly, ensure delivery of documents and warrants for acquisition payments to property owners, and perform other duties as directed by the CITY.

TASK 7 – RELOCATION ASSISTANCE SERVICES

In providing relocation assistance and relocation advisory services, BFS will adhere to the Uniform Relocation Assistance and Real Property Acquisition Act of 1970 (as amended), "The Uniform Act," and Title 49 CFR Part 24. BFS will ensure that in providing Relocation Assistance services, all displacees are treated fairly, consistently, and equitably so that such persons will not suffer disproportionate injuries as a result of the project for the benefit of the public.

Relocation assistance services will include, but not be limited to, providing relocation advisory assistance, providing displaced persons and CITY with continued information on business and residential replacement properties, calculating monetary entitlements and informing displacees in writing of their calculated entitlements, including specific comparable replacement property, issuing appropriate notices, inspecting replacement housing and ensuring replacement housing is decent, safe and sanitary. BFS will maintain contact reports and other related obligations in accordance with CITY and TXDOT standard procedures.

TASK 8 – PROPERTY MANAGEMENT

BFS will inspect the property and identify and create records of improvements on parcels or tracts. After negotiations, BFS will verify the property owner's intent regarding the retention of the improvements. BFS will perform an initial inspection of the project in accordance with the Right of Way Division Operations Manual. BFS will take photographs to document all improvements within the right of way and search for underground storage tanks, tank pumping systems, and other hazardous materials. Periodic inspections will be conducted to assess the progress of the removal of improvements retained by the property owner and to determine the method of disposal for improvements not retained. BFS will prepare a Removal and Disposal List of structures to be removed, including building slabs, footings, foundations, wells, septic systems, storm cellars, and other man-made objects in the acquisition area. The Removal and Disposal List will be provided to the Right of

Way Division to be incorporated into the construction plans and removed by the project contractor. BFS will arrange and complete an asbestos inspection, collect samples for asbestos testing, and hire an asbestos testing lab and/or asbestos abatement contractor to handle asbestos abatement in accordance with the Right of Way Operations Manual. BFS will prepare estimates for improvements to be demolished, solicit bids, recommend award of bids, and prepare demolition contracts. BFS will perform site inspection, upon completion of demolition. BFS will close the demolition by documenting the inspection and preparing an invoice for payment to the demolition contractor. BFS will provide right-of-way certification in accordance with the Department's Right-of-Way Operations Manual.

TASK 9 – APPRAISAL UPDATES

BFS will revise, update, or obtain new compensation estimates or appraisals as needed in accordance with responsibilities for On-Call Right of Way Acquisition Services.

TASK 10 – APPRAISAL REVIEW UPDATES

BFS will review appraisal reports for each tract to determine the consistency of values and compliance with CITY and TXDOT policies and procedures, and the Uniform Act approves the fair market value and recommend just compensation to the CITY in accordance with responsibilities for On-Call Right of Way Acquisition Services.

TASK 11 – WAIVER VALUATION

BFS will work closely with the CITY to determine when an appraisal is necessary for uncomplicated valuation problems and when the proposed acquisition is estimated to be $10,000 or less based on the available data review. BFS will use the TXDOT Right-of-Way Division Operations Manual as a guide in preparing the "Compensation Estimate."

TASK 12 – WAIVER VALUATION REVIEW

BFS will ensure the Review Appraiser checks waiver valuations for consistency with other waiver valuations and appraisals for the project.

TASK 13 – QUALITY ASSURANCE

Include checks and balances to ensure that CITY is getting a quality service and to ensure that all functions are in total compliance with the statutory requirements and guidelines of the Uniform Relocation Assistance and Real Property Acquisition Policies Act and amendments thereto as it relates to land acquisition, relocation assistance, and real estate appraisal for CITY projects, as well as the following:

1. To ensure that the Management Review Checklist is explained, offered, or discussed with landowners and to be in compliance with all applicable laws, rules, and regulations.
2. To ensure that acquisition functions are in accordance with the CITY and TXDOT policy and procedures in preparing Appraisal Summary Statements, Contract Clauses, Title Exceptions, preparation of the Property Data Sheets, and Eminent Domain procedures.

3. BFS is aware of the importance of protecting the present and future Federal funding involved in this project. BFS will be precisely guided by the requirements of Sections 301 and 302 of Title III of the Uniform Real Property Acquisition Policy.
4. To ensure that monthly Project Status/Progress Reports are submitted to the Contract Administration by the fifth working day of each month, they will include the status of negotiations on each parcel, a summary of activities for the past month, specific problems encountered, and actions needed to resolve specific issues. They will also identify progress against the time schedule for each item and provide a forecast of completion dates from current progress.
5. To ensure complete and accurate records are maintained, including a separate file with appropriate reference by parcel number and grantor surname for each parcel, to include originals of all correspondence.
6. To control cost by using a practical approach to acquisition and reviewing the required tasks, scheduling the proper personnel to complete the task in the most economical manner, reviewing the proposed project in the field as well as maps to budget for the required work properly. Submit an estimate to budget for the required assignment or each directive. Extra work and change orders will be documented appropriately to adjust costs in the directive.

TASK 14 – SAFETY

BFS is committed to providing a safe and secure work environment. BFS maintains a Safety Manual for distribution to all employees and sub-consultants. Monthly safety meetings will be scheduled, and safety will be stressed at all project meetings. BFS safety measures will meet the CITY's standards. Safety will be the priority as we work to meet the project needs of the CITY.

TYPICAL RIGHT-OF-WAY ACQUISITION/REAL ESTATE TRANSACTION ISSUES

BFS understands that in providing right-of-way services, it is impossible to identify each task associated with an acquisition project. BFS is committed to working with CITY in every way possible to ensure the success of the project and to keep the project on schedule for construction. BFS will provide those services that we consider normal to the acquisition process that includes but is not limited to obtaining Agreements for Possession and Use; Obtaining rights of entry; Obtaining agreements for road or railroad relocations; Coordinating project site visits with regulatory agencies; Negotiating damage contracts, borrow agreements; acquiring encroachment permits, and ground lease agreements, Coordinating the issuance of encroachment permits; Coordinating Utility Relocations, Identifying and clearing existing encroachment permits, Demolition, and clearance of improvements; Completing real property acquisition estimates; Providing escrow and title services to include title insurance and possibly litigation guarantees; and property management services, as required.

APPENDIX

KERRY J. BRIGGS,
ROW Principal

Kerry J. Briggs, Principal/Project Manager, is authorized to negotiate and bind all contractual decisions on behalf of the BFS Team. Mr. Briggs has over 25 years of experience in the right-of-way profession. He has served as Project Manager, Principal-in-Charge, and Sr. Acquisition Agent on transportation acquisition projects nationwide that include projects for the Arkansas Department of Transportation, Little Rock National Airport, Saline County, AR, Harris County Metropolitan Transit Authority, Regional Transportation District, Santa Clara Valley Transportation Authority, VIA Metropolitan Transit Authority, Houston Airport System, and Texas Department of Transportation. He is familiar with the Uniform Relocation Assistance and Real Property Acquisition Policies Act.

Mr. Briggs has over eight (8) years of experience with the Union Pacific Railroad. He managed railroad right-of-way in over 16 states, including right-of-way acquisition, relocation assistance, license agreements, lease management, legal descriptions, and plat reviews. He is a certified easement/right-of-way agent by the Texas Real Estate Commission Policies Act of 1970 (as amended).

PROFESSIONAL EXPERIENCE:

PRINCIPAL/PROJECT MANAGER, BRIGGS FIELD SERVICES, INC., Houston, TX;
Provide project management and QA/QC to Briggs Field Services, Inc. on right-of-way acquisition projects. 1994 – Present.
VICE PRESIDENT/ ROW MANAGER, BRIGGS, THOMAS & ASSOCIATES, Houston, TX; Provide technical support services to multiple engineering firms in the Houston area. 1989 - 1994.
ENGINEERING TECHNICIAN/CONTRACT & REAL ESTATE AGENT - UNION PACIFIC RAILROAD (Merger Missouri Pacific Railroad), Kansas City, MO, North Little Rock, AR, Omaha, NE. 1980 - 1989
ENGINEERING TECHNICIAN, GARVER + GARVER ENGINEERING, INC., Little Rock, AR. Prepared schematic design and plans, specifications, and estimates (PS&E) on several highway projects. 1979 - 1980

OTHER RELEVANT PROJECT EXPERIENCE:

SPRINGDALE BYPASS, Washington County, AR. ARKANSAS DEPARTMENT OF TRANSPORTATION Provided project management, negotiation services for right-of-way acquisition, relocation assistance, title, and closing services, property management and disposal of property services, and title curative and condemnation support services as required for preparations for eminent domain filings. Services were performed for 67 acquisitions and 19 residential and business relocations (finalized in-house).

RIGHT OF WAY ACQUISITION SERVICES - HSR14-14 ROW #7, CALIFORNIA HIGH-SPEED RAIL AUTHORITY, Sacramento, CA. Provided project management, appraisal services, appraisal review services, negotiation services for property acquisition, relocation assistance services, title and closing services, property management and disposal of property services, and title curative and condemnation support services as required for preparations for eminent domain filings. The project consisted of 117 acquisitions and three residential and business relocation services, including condemnation support services.

ALCOA ROAD & I-30 IMPROVEMENTS, Saline County, AR. COUNTY OF SALINE, ARKANSAS. Provided project management, negotiation services for property acquisition, relocation assistance services, title, and closing services, property management and disposal of property services, and title curative and condemnation support services as required for preparations for eminent domain filings. Services were performed for 56 acquisitions and three residential and business relocation services.

COUNTY ROAD 375–HWY 147 (WIDENING) (S), ARKANSAS DEPARTMENT OF TRANSPORTATION ARDOT), Bono, AR. Provided project management, negotiation services for property acquisition, relocation assistance services, title, and closing services, property management and disposal of property services, and title curative and condemnation support services as required for preparations for eminent domain filings.

RTD FasTracks PROGRAM, WEST CORRIDOR/EAGLE P3 COMMUTER RAIL, REGIONAL TRANSPORTATION DISTRICT, Denver, CO. Provided project management, planning, cost estimating, and oversight for right-of-way acquisition and relocation assistance for the FasTracks Light Rail Program in Denver, Colorado. That included the West Corridor Project and the Eagle P3 Commuter Rail Project. The project consisted of 62 acquisitions and 64 residential relocations on the West Corridor and 78 acquisitions and 64 business relocations on the Eagle P3 Commuter Rail Project.

SOUTHEAST & EAST END CORRIDOR LRT EXPANSIONS, METROPOLITAN TRANSIT AUTHORITY, Houston, TX. Provided project management, planning, cost estimating, and oversight for right-of-way acquisition and relocation assistance for the extension of East Corridor and Southeast Corridor light rail expansion. The project consisted of 226 acquisitions and 219 residential and business relocations.

TASMAN WEST/TASMAN EAST/CAPITOL LIGHT RAIL, SANTA CLARA VALLEY TRANSPORTATION AUTHORITY, San Jose, CA. Provided right-of-way acquisition for extension of Tasman West Light Rail, Tasman East Light Rail, and Capitol Light Rail projects. The project consisted of 160 parcels and 247 rights of entry. Managed staff to acquire 247 rights of entry in 2 weeks to maintain the project schedule. Duties consisted of project management, negotiations for acquisition, preparation of all acquisition documents and status reports, title curative, and closings.

BUS DUCK-OUT PROJECT, VIA METROPOLITAN TRANSIT AUTHORITY, San Antonio, TX. Provided real property acquisition and relocation assistance for capital improvement projects consisting of 15 parcels for bus duck-out sites. Duties consisted of title research, site selection, title curative, and project management for the acquisition of sites.

35-MILE WATERLINE EXTENSION, NE TEXAS MUNICIPAL WATER DISTRICT, Hughes Springs, TX. Provided project management, route selection, planning, title research, survey permission, right-of-way acquisition, site acquisition for the water treatment plant and booster pump sites, closing, title curative, and presentations. The project consisted of 144 acquisitions.

ROW CSJ: 1400-04-026 FM1774 FROM WALLER COUNTY LINE TO 0.348 MILES SOUTH OF FM 1488, TEXAS DEPARTMENT OF TRANSPORTATION (TXDOT), Montgomery County, TX. Provided project management, title services, condemnations, right-of-way negotiations/acquisitions, and relocation assistance for roadway improvements.

ROW CSJ: 0111-01-093 FM 521: HARRIS COUNTY/FT. BEND COUNTY LINE TO SOUTH FM 2234, TEXAS DEPARTMENT OF TRANSPORTATION (TXDOT), Fort Bend County, TX. Provided project management, appraisal, review appraisal, title services, condemnations, right-of-way negotiations/acquisitions, and relocation assistance for roadway improvements.

ROW CSJ: 2105-01-053 FM 2234 AT UPRR STA 427+80 TO STA. 460+00.00, TEXAS DEPARTMENT OF TRANSPORTATION (TXDOT), Fort Bend County, TX. Provided project management, appraisal, review appraisal, title services, condemnations, right-of-way negotiations/acquisitions, and relocation assistance for roadway improvements.

HAREBELL BRIDGE IMPROVEMENTS, SAN JUAN RIVER VILLAGE METRO, Pagosa Springs, CO; Provided project management, planning, cost estimating, and acquisition for eight (8) permanent and temporary easements for the bridge project.

VARIOUS UTILITY RELOCATION PROJECTS, AT&T COMMUNICATIONS, Houston, TX. Provided title research, right-of-way acquisition, and utility coordination for various AT&T relocation projects using TxDOT's forms and procedures.

GLENDA BRIGGS,
Project Manager

BRIGGS Field Services, Inc.

Education
Bachelor of Arts, Consumer Science and Merchandising, University of Houston, Houston, TX

Certifications
Senior Right of Way Agent (SR/WA) – IRWA Designation

Right of Way Negotiation & Acquisition Certification (R/W-NAC) – IRWA Designation

Asset Management Certification (R/W-AMC) – IRWA Designation

Affiliations
Member, International Right of Way Association (IRWA)
Member, Conference of Minority Transportation Officials (COMTO)

Glenda Briggs, SR/WA, R/W-NAC, R/W-AMC, has over 35 years of progressive right-of-way management experience with CenterPoint Energy, Houston Electric, LLC, and Briggs Field Services, Inc. Coordinated use of employer's property with the internal customer, such as Transmission Engineering, Environmental, Gas Engineering, Plant Accounting, and Legal Departments. Ms. Briggs, as project manager and result-driven, coordinated with external customers, including the Texas Department of Transportation, Coastal Water Authority, Union Pacific Railroad, Enterprise Pipeline, Kinder Morgan, and BP Pipeline, to maximize the safe and best use of employer assets. Arranged for property appraisal and evaluated appraisals to determine the fair market value. Acquired properties within budget and established timeframes. She made a significant impact by generating a high stream of revenue returns from government entities, pipeline companies, communication companies, and private landowners, utilizing company's rights-of-way and facilitating the relocation of facilities. Prepared and reviewed legal documents, resolved land rights disputes, and handled lease issues. She was instrumental in developing and implementing the company's land and commercial lease program, which has evolved into its current lease program.

Ms. Briggs trained right-of-way personnel on the acquisition process and the procedures and management of the lease program. She has coordinated the use of company properties
with land developers, builders, and government entities, interpreted real estate documents, prepared legal descriptions, reviewed maps, plats, and construction drawings to secure easement rights, and resolved damage claim settlements. Knowledgeable of the Federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (as amended).

PROFESSIONAL EXPERIENCE:

PROJECT MANAGER/SR. RIGHT OF WAY AGENT, BRIGGS FIELD SERVICES, INC., Houston, TX, 2018 - Present.
SPRINGDALE BYPASS, WASHINGTON COUNTY, AR. ARKANSAS DEPARTMENT OF TRANSPORTATION
Provided project management, negotiation services for right-of-way acquisition, relocation assistance, title, and closing services, property management and disposal of property services, and title curative and condemnation support services as required for preparations for eminent domain filings. Services were performed for 67 acquisitions and 19 residential and business relocations.

PROJECT MANAGER, RIGHT OF WAY ACQUISITION SERVICES - HSR14-14 ROW #7, CALIFORNIA HIGH-SPEED RAIL AUTHORITY, Sacramento, CA. Provided project management, appraisal services, appraisal review services, negotiation services for property acquisition, relocation assistance services, title and closing services, property management and disposal of property services, and title curative and condemnation support services as required for preparations for eminent domain filings. The project consisted of 117 acquisitions, as well as three residential and business relocation services, including condemnation support services.

SENIOR RIGHT OF WAY AGENT, CENTERPOINT ENERGY HOUSTON ELECTRIC, LLC (FORMERLY RELIANT ENERGY), Houston, TX**,** 2002 – 2018. Provided oversight, mentoring, and guidance to the organization's personnel. Directed land title research and utilized internal and external resources to determine ownership and other land rights. Facilitated and led activities involving real estate, construction, and associated documents. Conducted negotiations and prepared acquisition documents to purchase fee and easement rights for electrical facilities. Prepare purchase and sales agreements, review appraisal reports, order title reports, prepare permits, fees, and easement deeds, quit claim deeds, and grant deeds. Review legal descriptions, maps, construction plans, and exception documents. Negotiate with developers to obtain public utility easements and acquire land for electrical substations.

SENIOR RIGHT OF WAY AGENT, RELIANT ENERGY, Houston, TX, 1999 – 2002. Prepared legal documents by composing and constructing phrases or clauses in a clear, concise, and professional manner, which define the rights, interests, and obligations of the parties involved and define various types of easement locations, rights of way, and real estate properties, following established methods of writing land descriptions. Performed commercial and residential plat reviews and approvals. Instrumental in updating, maintaining, and distributing the department's safety manual on practices and procedures.

RIGHT OF WAY REPRESENTATIVE/AGENT/SR. AGENT, HOUSTON LIGHTING & POWER COMPANY, Houston, TX**,** 1987 -1999. Acquired rights by negotiating both non-monetary and monetary terms and conditions for easements, deeds, permits, access, agreements, and licenses by contacting landowners and other entities such as Railroads, Corps of Engineers, Fish and Wildlife, Federal Aviation Authority, and other governmental entities to accommodate the installation and/or maintenance of company facilities.

FIELD SERVICE ADVISOR/DISTRICT OPERATIONS, HOUSTON POWER & LIGHTING COMPANY, Houston, TX, 1979 – 1987. Observed company facilities and promptly reported and documented any defects or irregularities with company equipment or lines according to established procedures. Advocated safety practices in all activities and protected the public from dangers associated with operations near gas and electric company equipment or lines.

OTHER RELEVANT PROJECT EXPERIENCE:

SPRINGDALE BYPASS, Washington County, AR. ARKANSAS DEPARTMENT OF TRANSPORTATION Provided project management, negotiation services for right-of-way acquisition, relocation assistance, title, and closing services, property management and disposal of property services, phase 1 & 2 environmental assessments, and title curative and condemnation support services as required for preparations for eminent domain filings. Services were performed for 67 acquisitions and 19 residential and business relocations (finalized in-house).

RIGHT OF WAY ACQUISITION SERVICES - HSR14-14 ROW #7, CALIFORNIA HIGH-SPEED RAIL AUTHORITY, Sacramento, CA. Mr. Arnold has over 36 years of experience as a well-established professional in right of way management. His extensive work experience spans the public and private sectors, including many of the nation's leading public transportation and infrastructure construction firms. He previously served as project manager for Briggs Field Services at the California High-Speed Rail Authority. He is well-versed in the Uniform Relocation Assistance and Real Property Acquisition Policies Act. Mr. Arnold was previously the Director of Real Estate for Sacramento Regional Transit District (RT), where he managed right of way acquisition for various capital projects and Transit-Oriented Development (TOD) initiatives. He has provided land use services to the City of San Jose's Public Works Department, the San Jose Airport Master Plan Team, the Los Angeles Unified School District's Construction Bond Program, and the Glendale/Burbank Airport Renovation project. Additionally, he served as Manager of Property Acquisition for Westbay Extensions: the $70 million Colma Station Extension Project (76 parcels, $18 million ROW budget) and the $2.6 billion SFO Airport Extension Design-Build Project (350 parcels and $170 million ROW budget). All properties were acquired within budget and established timeframes.

PROFESSIONAL EXPERIENCE:

BRIGGS FIELD SERVICES, INC., Fresno County, Fresno, CA; Project Manager, 2010-Present. Provided project management and QA/QC for Briggs Field Services, Inc. on right of way acquisition projects. Addressed landowner concerns, developers, and municipalities regarding complex real estate land use issues, as well as a wide range of financial problems and concerns.

DIRECTOR OF REAL ESTATE, SACRAMENTO REGIONAL TRANSIT DISTRICT, Sacramento County, Sacramento, CA, 2003 – 2010. Provided land use services for the district and counseled landowners, developers, and municipalities on complex real estate land use issues, addressing a wide range of concerns. Ensured that all district land purchases, sales, leases, and permits complied with district, local, state, and federal laws.

MANAGER OF PROPERTY ACQUISITION, PARSONS BRINCKERHOFF CONSTRUCTION SERVICES, INC., Santa Clara County, San Jose, CA, 2000 – 2003. Provided land use services to City of San Jose Public Works Department, San Jose International Airport Master Plan Team, and other PB clients upon request. Services include land acquisition, relocation services, space planning, land use planning, and the development of land acquisition strategies, as well as the negotiation of complex real estate land use issues.

MANAGER OF PROPERTY ACQUISITION, SAN FRANCISCO BAY AREA RAPID TRANSIT (BART), Alameda County, Oakland, CA, 1991 – 2000- Provided land use services for the district, advising landowners, developers, and municipalities on complex real estate land use issues and addressing a wide range of concerns. Ensured that all district land purchases, sales, leases, and permits complied with district, local, state, and federal laws.

MUNICIPAL CONSULTANTS, THE ARNOLD GROUP, 1988 – 1991, Alameda County, Oakland, CA. Provided economic development consulting services to landowners, non-profits, and governmental agencies. The Arnold Group advised landowners, developers, and municipalities on complex real estate land use issues, addressing a wide range of financial problems and concerns.

FINANCE DIRECTOR, TREASURER, RISK MANAGER, CITY OF IMPERIAL BEACH, 1985 – 1988, San Diego County, Imperial Beach, CA Implemented internal control to ensure safekeeping of all city's financial resources, developed policies and procedures for cash control, accurate accounting for day-to-day operation, and budget maintenance. Managed $23.0 million general operating budget.

RELEVANT PROJECT EXPERIENCE:

RIGHT-OF-WAY ACQUISITION SERVICES - HSR14-14 ROW #7, CALIFORNIA HIGH-SPEED RAIL AUTHORITY, Sacramento County, Sacramento, CA. As Project Manager, he provided project management, appraisal

OTHER RELEVANT PROJECT EXPERIENCE:

METROPOLITAN TRANSIT AUTHORITY, Houston, TX: Provided project management, planning, cost estimating, and oversight for right-of-way acquisition and relocation assistance for the extension of East Corridor and Southeast Corridor light rail expansion. ON-CALL RIGHT OF WAY ACQUISITION SERVICES, VETERANS BOULEVARD DETENTION POND PROJECT, JOB CA0101

City of Edinburg, Edinburg, TX

November 2018, voters Passed two propositions for; Proposition C – four drainage Detention projects and Proposition D – four street projects. City Council selected four engineering firms for the four drainage projects; Quintanilla, Headley & Associates (Doolittle Detention Pond), Javier Hinojosa Engineering (Sugar Detention Pond), Sam's Engineering & Surveying (Schunior Detention Pond) and Guzman & Munoz Engineering & Surveying (Veteran's Detention Pond). Construction is scheduled to be done in several phases with the last phase estimated to begin in May 2021. This project is designated to improve the drainage system within the City of Edinburg. The drainage city system will allow residents not deal with any floods during heavy rain activity. The City of Edinburg broke ground on Phase 1 of the Veteran's Detention Pond Drainage Conveyance and Street Improvement Project on August 12, 2021. The project is being funded by a $30M bond for drainage improvements was approved by Edinburg that citizens during the November 2018 election. City of Edinburg has since been working diligently on flood relief and street improvements for its residents throughout the city.

Briggs Field Services, Inc. was assigned the above-referenced project with the City of Edinburg (CITY) Right of Way Services for the Veterans Boulevard Project required Title Services and title curative on a 7.94 acre parcel that was identified to have approximately 75 undivided interest holders (heirs). Services provided included project management, title and closing, appraisal services, appraisal review services, negotiations for acquisition, property management, and eminent domain support services on 2 parcels. All services were provided according to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (Uniform Act), federal and state laws and regulations, and City of Edinburg policies procedures.

SPRINGDALE BYPASS (S) HWY. 412 – HWY. 112

Arkansas Department of Transportation (ARDOT), Springdale, AR

The Federal Highway Administration (FHWA), in cooperation with the Arkansas Department of Transportation (ADOT), conducted a comprehensive environmental study and prepared the necessary environmental documentation for the proposed Highway 412 bypass in Benton and Washington Counties, Arkansas. This bypass is proposed to be a four-lane, divided, fully controlled access (Interstate type) facility constructed on a new alignment with interchanges at selected locations. It would include two 12-foot travel lanes in each direction, separated by a variable-width median.

The project is known as the Springdale Northern Bypass. The Selected Alignment Alternative begins at an interchange with the existing Highway 412 west of Tontitown, where the highway presently changes from four to five lanes, and will end with an interchange on existing Highway 412 just west of Beaver Lake. The bypass will meet with the XNA connector at exit 9 in Tontitown. The connector will include 11 bridges, an interchange at the project's south end, and a tie-in to Highway 264. Highway 412 is part of a Congressionally designated High Priority Corridor (HPC) running east and west across northern Arkansas.

The Springdale bypass will be a four-lane, seven-mile stretch of road. It includes interchanges along Highway 412 in Tontitown to the bypass at Highway 112 in Benton and Washington counties. Construction on the project has been broken into four phases, costing about $250 million. When all phases are complete, the project is expected to span about 21 miles total.

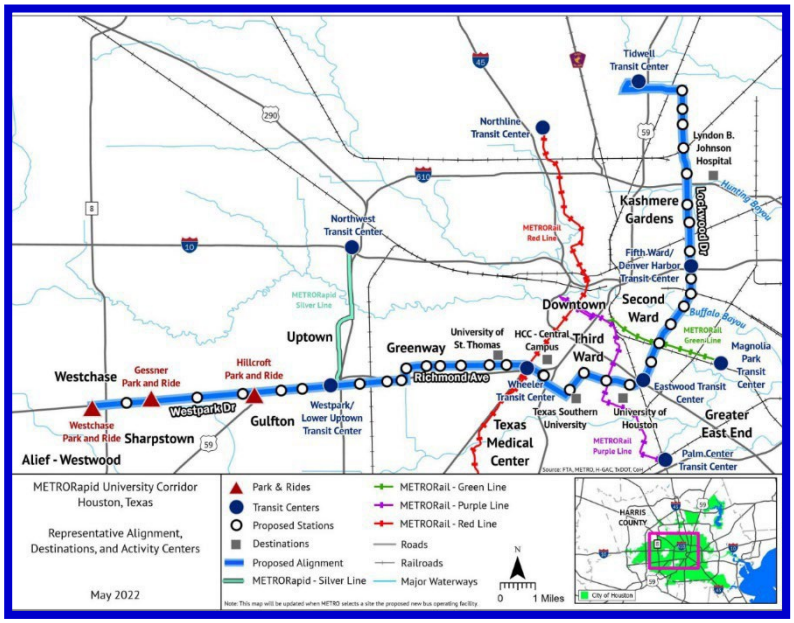
BFS's scope of work included appraisal services, appraisal review services, negotiation services for property acquisition, relocation assistance services, title and closing services, property management and disposal of property services, title curative, and condemnation support services as required for preparations for eminent domain filings. BFS-selected subconsultants performed appraisals and review appraisals. ARDOT managed the work performed by BFS. Services were performed for 59 acquisitions, 56 residential, and three business relocations, including condemnation support services on one (1) business tract on the project.

All services were subject to review and approval by ARDOT. Services were provided in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and all state and local statutes, rules, and regulations pertaining to the acquisition and relocation assistance on right-of-way projects.



UNIVERSITY CORRIDOR BUS RAPID TRANSIT PROJECT

Metropolitan Transit Authority, Houston, Texas

Briggs Field Services was selected by HNTB, the Program Management Consultant (PMC) for the University Corridor Bus Rapid Transit Project, to join the Program Management Team to provide right-of-way support services.

The University Corridor, A planned 25.3-mile route across the eastern and southern parts of Houston, would use dedicated bus-only lanes and include stops near three universities and a community college. The University Corridor line, which features the University of Houston, Texas Southern University, the University of St. Thomas, and Houston Community College as stops along the proposed route, was a key selling point for METRO when Harris County voters approved $3.5 billion in bond funding for the regional transit provider in 2019. The route will extend from the Tidwell Transit Center on the northeast side of town to the Westchase Park & Ride on the west side, passing through neighborhoods in the eastern and southern parts of the city – including Denver Harbor, Greenway/Upper Kirby, Gulfton, Kashmere Gardens, Midtown, Montrose, Sharpstown, and the Second, Third, and Fifth wards.

Briggs Field Services provided right-of-way support and planning services that included route selection, cost estimates for right-of-way management, and right-of-way acquisition. Assisted with the preparation of the Real Estate Management Plan (RAMP), resulting in the Record of Decision (ROD) by the Federal Transit Administration.

ACQUISITION SERVICES – HSR 14-14 ROW #7

California High-Speed Rail Authority, Sacramento, CA

As the most extensive public works project in California history, the California High-Speed Rail Project presents an unprecedented opportunity to demonstrate efficient right-of-way acquisition methods while at the same time delivering fair, equitable, and consistent treatment of those affected. BFS was fortunate to have provided services on this landmark project.

In 2015, BFS was selected as a primary ROW services consultant to the California High-Speed Rail Authority (HSRA) to provide land rights/property acquisition services and relocation assistance for properties in the affected right-of-way. BFS and our partners worked on the acquisition and relocation of 228 parcels in the central valley area in California.

Throughout the HSR Project's project, BFS worked closely with the HSRA to suggest ways to reduce cost and improve schedule performance. Some suggestions were implemented and have had material improvement, while others have been held up due to conflicting requirements of the many partner agencies involved in the HSR Project.

The scope of work included appraisal services, appraisal review services, negotiation services for property acquisition, relocation assistance services, title, and closing services, property management and disposal of property services, and title curative and condemnation support services as required for preparations for eminent domain filings. Appraisals and review appraisals were performed by BFS selected sub-consultants. Our initial role was to handle right-of-way coordination from Merced to Fresno.

Work performed by Briggs Field Services was managed by HSRA. Services were performed for 228 acquisitions and 12 residential and business relocation services, including condemnation support services and property disposal services on the project. All services were subject to review and approval by California High-Speed Rail Authority.

Services were provided in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended and all, state and local statutes, rules, and regulations pertaining to the acquisition and relocation assistance on right-of-way projects.

Relevance:
- Project Management
- Right of Entry
- Negotiations

INSURANCE

1. STATEMENT OF INSURANCE

The following is a list of current insurance carried by **BRIGGS FIELD SERVICES, INC.** (BFS), including coverage amounts, agent, and expiration dates.

Workers' Compensation and Employers Liability as required by statute. Employer liability coverage is to be carried for each accident of $1,000,000. Insurer: Hartford Fire & PC Affiliates. Expiration Date: 10/19/2024.

Automobile Liability for limits not less than $2,000,000 combined single limit for bodily injury and property damage for each occurrence. Coverage includes owned, non-owned, and hired automobiles. Insurer: Sentinel Insurance. Expiration Date: 12/08/2024.

Commercial General Liability for limits not less than $2,000,000 combined single limit for bodily injury, $1,000,000 property damage for each occurrence and not less than $4,000,000 aggregate. Coverage includes premises and operations liability, blanket contractual, broad form property damage, products, and completed operations and personal injury endorsements. Umbrella Excess Liability is $1,000,000 per occurrence and $1,000,000 aggregate. Insurer: Sentinel Insurance. Expiration Date: 12/08/2024.

Professional Liability Insurance provides coverage for acts, errors, or omissions committed or alleged to have been committed by agents arising out of the conduct of their professional practice. The coverage shall carry a project limit of $1,000,000 for each claim, $2,000,000 aggregate with a $10,000 deductible. Insurer: Underwriter at Lloyds. Expiration Date: 12/30/2024. The coverage shall have an extended reporting period of 2 years following the date of substantial completion of the project for reporting claims.

Certificates of Insurance shall be submitted before commencing the work, and 30 days notice shall be provided prior to any cancellation, except for 10-day notice with respect to non-payment of premium.

2. INSURANCE CLAIMS

BFS has never had any claim for professional omissions and/or errors. In addition, we have never had a workers' compensation claim due to an on-the-job accident. BFS has no past or pending lawsuits, civil judgments, and/or criminal convictions. We have never had any claim for professional omissions and/or errors.

BFS had positive feedback on over 99.6% of acquisitions; and performed 99.9% of acquisitions within budget and on time, which also included no litigations, no major dispute resolutions, no insurance claims, mediations, and/or arbitrations.

3. CERTIFICATE OF INSURANCE

BFS Certificates of Insurance (COI) to be furnished upon request.

Re: Statement of Qualifications
RFQ No. 2026-2 – Right-of-Way Acquisition Services

Dear Ms. Fuentes:

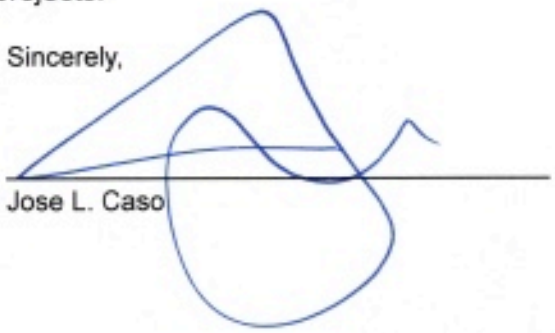
Right-of-way acquisition is successful when projects move forward without unnecessary delays, property owners are treated professionally, and acquisition files withstand public and regulatory scrutiny. Caso Law Firm, PLLC dba CLF Enterprise ("CLF") has built its practice around that objective.

As an Edinburg-based firm, CLF understands the unique infrastructure, utility, and transportation challenges facing the City and the importance of acquiring property interests efficiently while maintaining public confidence and protecting project schedules. Our team combines experienced right-of-way professionals, attorneys, title specialists, project managers, and technical personnel to provide comprehensive acquisition support for municipal, state, and federally funded infrastructure projects.

CLF's experience closely aligns with the services identified in this solicitation, including right-of-way acquisition, temporary construction easements, utility easements, title coordination, appraisal coordination, project management, and acquisition support for transportation and public infrastructure improvements. Our objective is to provide the City with a disciplined acquisition process that reduces project risk, maintains regulatory compliance, and delivers complete, well-documented acquisition files.

The primary point of contact for this Statement of Qualifications is:

Jose Luis Caso
General Manager
Caso Law Firm, PLLC dba CLF Enterprise
112 E. Cano Street
Edinburg, Texas 78539
Office: (956) 433-2276
Cell: (956) 607-3055
Email: jcaso@clfenterprise.com



Mr. Caso is authorized to represent CLF in all matters relating to this procurement and to negotiate and execute contractual agreements on behalf of the firm.

Addenda

CLF acknowledges that no addenda had been issued as of the date this Statement of Qualifications was submitted.

We appreciate the opportunity to be considered for inclusion on the City's roster of qualified right-of-way consultants. Should CLF be selected, we are prepared to immediately support the City's acquisition needs with experienced personnel, established project management procedures, and responsive local service. We look forward to the opportunity to partner with the City of Edinburg in the successful delivery of its current and future capital improvement projects.

Sincerely,

Jose L. Caso

RFQ Requirements Crosswalk: Demonstrated Experience Aligned to the City's Needs

City of Edinburg Requirement	CLF Demonstrated Capability	Representative Experience	Benefit to the City
Right-of-Way Acquisition for City Projects	Full-service acquisition management including title review, owner outreach, negotiations, document preparation, and closing coordination.	City of McAllen – 60 parcels; Cameron County Drainage District No. 6 (CCDD6) – 60+ parcels; CBP multi-state acquisition program (55 active parcels).	Proven acquisition processes reduce project delays while maintaining complete documentation.
Temporary Construction Easements (TCEs)	Negotiation and acquisition of temporary construction easements supporting transportation, utility, and drainage improvements.	TxDOT-funded Bentsen Road Expansion; Cameron County drainage improvements.	Familiarity with temporary easement requirements minimizes construction impacts and expedites project delivery.
Turn Lane & Intersection Improvements	Experience supporting roadway widening, corridor improvements, and partial acquisitions associated with transportation projects.	$20.2M City of McAllen Bentsen Road Expansion (TxDOT-funded).	Experience with transportation corridors helps maintain design and construction schedules.
Utility Easements & Underground Utility Projects	Acquisition of permanent and temporary easements for utility, drainage, and public infrastructure projects with multi-agency coordination.	CCDD6; Hidalgo County infrastructure projects; TWDB-supported projects.	Integrated coordination reduces conflicts among utilities, engineers, surveyors, and property owners.
City Representation for Easements Across City-Owned Property	Legal review, title coordination, negotiation support, and document preparation for easement transactions.	In-house legal team experienced in easements, title issues, and governmental real estate transactions.	Single accountable team reduces delays caused by outside legal referrals.

City of Edinburg Requirement	CLF Demonstrated Capability	Representative Experience	Benefit to the City
Appraisal Coordination	Coordinates licensed appraisers, reviews appraisal packages, integrates valuation into acquisition workflow, and supports negotiations.	Multi-state CBP acquisition program utilizing Texas-licensed, USPAP and Yellow Book qualified appraisal resources.	Ensures appraisal activities support timely negotiations and defensible acquisitions.
Escrow & Title Coordination	Title review, escrow coordination, curative actions, closing support, and recording coordination.	Municipal, county, and federal acquisition programs supported by experienced title and escrow specialists.	Early identification of title issues reduces closing delays and protects project schedules.
Project Management & Administrative Services	Parcel tracking, milestone reporting, meeting attendance, quality assurance, document control, and executive oversight.	Standardized workflows currently supporting federal, county, and municipal acquisition programs.	Provides the City with complete visibility into project status while reducing administrative burden.
Federal & State Funded Capital Improvement Projects	Working knowledge of URA, 49 CFR Part 24, FHWA, TxDOT, HUD, FEMA, TWDB, and federal documentation requirements.	Current CBP program; City of McAllen; Cameron County DD6; Hidalgo County.	Supports compliance with funding requirements while maintaining audit-ready project records.
Responsive Local Support	Headquarters located within the City of Edinburg with experienced project managers and legal support available locally.	Edinburg headquarters with scalable staffing and executive oversight.	Immediate availability for meetings, property owner outreach, and changing project priorities.

Firm Qualification and Experience

A Five-Year Record of Timely, Government-Focused Right-of-Way Acquisition

CLF Enterprise has delivered right-of-way acquisition, eminent domain support, and real estate services for governmental clients across Texas continuously over the past five years, with a demonstrated record of meeting schedule and funding-cycle deadlines on projects ranging from single-agency task orders to multi-state federal programs. Representative engagements from this period include:

- U.S. Customs and Border Protection, Office of Facilities and Asset Management (April 2026–present):

  Currently supporting a multi-state federal acquisition program encompassing 55 active parcels across four states and 15 Border Patrol Station locations, using standardized acquisition workflows and dual-level quality review The program is built on standardized, audit-ready workflows and dual-level document review, and demonstrates CLF's ability to manage disciplined acquisition schedules at multi-state scale, which is the same operational model the firm would bring to the City's on-call program.

- City of McAllen / Bentsen Road Expansion (2024–present):

  Legal counsel and right-of-way acquisition support for a $20.2M TxDOT-funded transportation corridor project involving 60 parcels. CLF has achieved a 95% voluntary acquisition rate with zero trial escalations, keeping the project on the TxDOT 2025–2028 STIP schedule.

- Cameron County Drainage District No. 6 (2022–present)

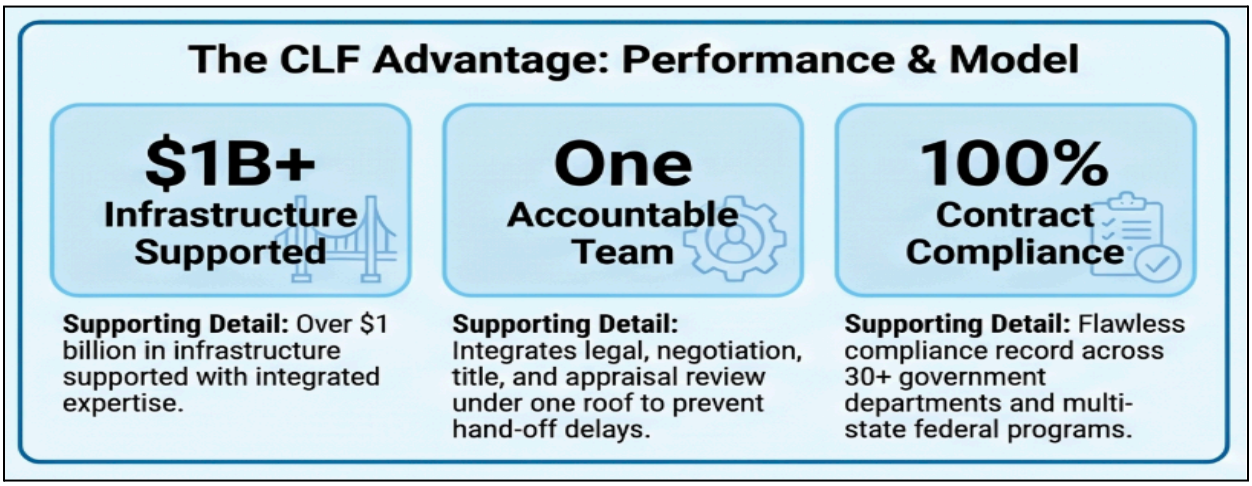
  Right-of-way acquisition for a $40M bond- and grant-funded drainage capital improvement program, including $22.5M in easement acquisitions across 60+ parcels and negotiations with more than 50 property owners. The engagement coordinated HUD, FEMA, and TWDB funding streams and met all drawdown deadlines without trial escalation.

- Hidalgo County General Counsel & Eminent Domain Support (2019–present)

  Support for over 100 eminent domain matters tied to DOT- and FHWA-funded road expansion projects, executed without adverse findings or disputes.

- TxDOT Federal Infrastructure Bond Acquisition:

  Real estate acquisition in connection with a $150M bond issuance, covering more than 200 acres, with all phases delivered on time and within budget.

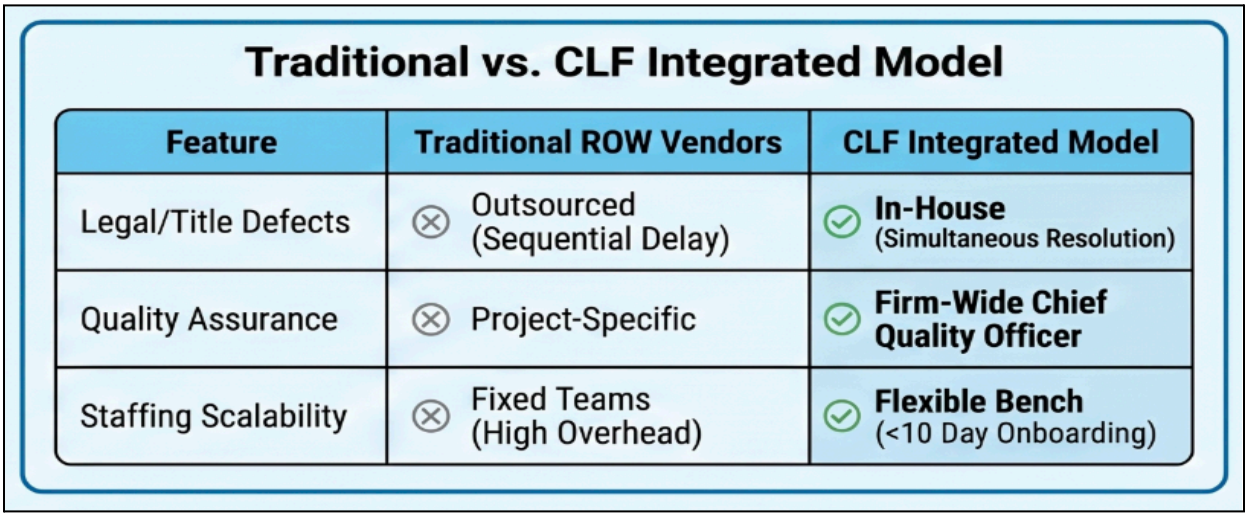


- U.S. Army Corps of Engineers, (May 2026–present):

  Awarded Nationwide Multiple Award Task Order Contract (MATOC) for Real Estate Title Services, requiring the development of standardized processes for title services, document management, quality assurance, and nationwide project coordination. This federal contract requires the same disciplined project controls, document quality standards, and multi-party coordination directly applicable to the City of Edinburg's right-of-way acquisition, easement, and title coordination requirements.

Across these engagements, CLF's acquisition files have consistently met funding-agency documentation and drawdown deadlines, and the firm has never defaulted on a contract or missed a deliverable due to capacity or financial constraints. This history reflects a governmental-client focus and a repeatable delivery discipline directly applicable to the City's Right-of-Way Acquisition Services program.

What Sets CLF Apart



CLF Enterprise is uniquely positioned to serve the City because it is not a single-discipline vendor. CLF is the government-facing consulting division of Caso Law Firm, PLLC, and integrates legal counsel, right-of-way negotiation, title and escrow coordination, appraisal review, project management, and quality assurance under one accountable team. Where many right-of-way consultants must hand off title defects, probate issues, or condemnation questions to outside counsel — introducing delay and additional cost — CLF resolves these issues internally, without disrupting acquisition momentum.

- Integrated legal capability: title defects, heirship issues, easement conflicts, and condemnation-readiness questions are evaluated in-house by licensed Texas attorneys as part of the acquisition workflow, not as a separate, sequential process.
- Certified small and minority-owned business: CLF holds active SBA 8(a) certification and Texas HUB certification, and is Hispanic American-owned, supporting the City's small- and minority-business participation objectives.
- Proven multi-agency, multi-funding-source compliance experience: CLF's team applies working knowledge of the Uniform Relocation Act (URA), 2 CFR Part 200, 49 CFR Part 24, FHWA and TxDOT protocols, and Texas statutory acquisition requirements across TxDOT, HUD, FEMA, TWDB, and CBP-funded programs — directly relevant to the federally and state-funded capital improvement projects anticipated under this RFQ.
- Dedicated quality assurance function: a firm-wide Chief Quality Officer oversees a multi-stage, ISO-informed review process (ISO 9001/14001/45001-aligned) applied to every deliverable, producing audit-ready acquisition files rather than drafts requiring City rework.
- Scale without loss of responsiveness: CLF currently manages a multi-state federal acquisition program supporting CBP across four states while continuing to deliver municipal and county level ROW work throughout South Texas demonstrating the operational discipline to serve the City's program without competing priorities compromising service.

Office Location Providing Services

Services under this contract will be provided from CLF Enterprise's headquarters at 112 E. Cano Street, Edinburg, Texas 78539 — located within the City of Edinburg itself. This local presence allows CLF's project managers and acquisition specialists to attend City meetings, meet with property owners, and respond to shifting priorities without the travel

time or coordination delays associated with firms managing the City's projects from outside the region.

Approach to Part-Time Staffing for Smaller Assignments

The City's on-call structure will generate assignments that vary widely in size and duration, from a single easement negotiation to a multi-parcel corridor acquisition. CLF's staffing model is built for exactly this kind of variability. Rather than maintaining a single fixed project team, CLF assigns a small core team — typically a project manager and lead negotiator — to every task order, and draws on the firm's established bench of pre-screened, contract-ready right-of-way agents, title/escrow specialists, paralegals, and technical writers to scale up or down as the assignment requires.

This bench is not hypothetical: it is the same staffing augmentation capability CLF currently provides to more than 30 local government departments, with 100% contract compliance across all temporary staffing engagements and an average onboarding time of under 10 business days. For smaller City assignments, this allows CLF to deploy part-time or task-specific personnel — for example, a single negotiator and a title coordinator — without the overhead of a full standing project team, keeping the City's cost structure proportional to the size of each task order while preserving the same quality-control and reporting discipline applied to CLF's largest programs.

Project Metrics & Agency Success

Client Project	Impact/Scale	Outcome
City of McAllen	**$20.2M** TxDOT Corridor	**95%** Voluntary Rate; No trial escalations
Cameron County DD6	**$40M** Drainage Program	**60+** Parcels; Met all HUD/FEMA deadlines
U.S. Customs & Border	**4**-State Federal Program	**55+** Active parcels across 15 locations

Team Member Qualifications and Experience

CLF Enterprise has assembled a core team for this contract that mirrors the service categories identified in the RFQ's Scope of Services - negotiation and acquisition, escrow and title coordination, project management/administrative support, and appraisal coordination - supplemented by executive-level legal oversight and firm-wide quality assurance. Each team member's relevant experience is summarized below.

Jose Luis Caso - General Manager

Proposed Role: Executive Sponsor and Senior Legal Advisor - complex acquisition strategy, condemnation-readiness review, and contract-level accountability to the City

Education: J.D., University of Texas School of Law; B.A. Political Science & Philosophy, Rice University

Licensing: Licensed to practice law in the State of Texas and the District of Columbia

Relevant Experience:

- Manages a 12-person team that has delivered more than $1 billion in infrastructure-related legal and acquisition work, and has served as General Counsel and Special Counsel to multiple governmental entities.
- Recognized statewide as a subject-matter expert in complex, multi-agency TxDOT coordination; presented a continuing legal education session to more than 200 Texas city attorneys in June 2024.
- Prior Chief of Staff for Hidalgo County Precinct 4, overseeing 120 employees across Road & Bridge, Drainage, Parks, and Sanitation - direct county government operations experience relevant to the City's public-works coordination needs.
- Provides final legal sign-off within CLF's quality-assurance process on every deliverable, and holds signature authority to bind the firm to the resulting contract.

Carlos Jasso - Project Manager / Lead Right-of-Way Specialist

Proposed Role: Project Manager - primary point of contact for task-order coordination, parcel tracking, and City reporting

Education: B.A. Finance, University of Texas–Pan American

Relevant Experience:

- Over 20 years of experience support government projects, with hundreds of successful acquisitions completed across transportation, drainage, water, and infrastructure projects at the federal, state, and local levels.

- Currently serves as Project Manager at Caso Law Firm, PLLC, coordinating multi-stakeholder real estate projects and resolving field issues to maintain acquisition schedules.
- Direct alignment with the RFQ's Project Management and Administrative Services requirement (Section 4.1.D): meeting attendance, stakeholder consultation, and parcel-level tracking.

Diana Villarreal - Senior Title & Escrow Specialist

Proposed Role: Title and Escrow Coordination Lead

Education: A.A.S., Del Mar College

Relevant Experience:

- Over 20 years of experience in real estate transactions, escrow, underwriting, and multi-party title resolution for public infrastructure projects, including prior work with TxDOT, the Texas General Land Office, CoBank, and TWDB.
- Manages CLF's real estate closings, title searches, and closing logistics, and has prepared HUD-1 Settlement Statements and negotiated closing terms across multiple stakeholders.
- Directly aligned with the RFQ's Escrow and Title Coordination Services requirement (Section 4.1.C).

Richard A. Cantu - Senior Attorney

Proposed Role: Legal Support for Negotiation, Title Resolution, and Closing

Education: J.D., Texas Southern University, Thurgood Marshall School of Law; B.A. Political Science, Texas A&M University

Licensing: State Bar of Texas, active since 1996

Relevant Experience:

- Nearly three decades of South Texas real estate transactional and litigation experience, including residential, commercial, and farm & ranch transactions from contract through closing, real estate financing, and real property litigation.
- Provides in-house legal resolution of title defects, boundary disputes, and closing issues without the delay of engaging outside counsel - supporting both the Negotiation Services (Section 4.1.B) and Escrow and Title Coordination Services (Section 4.1.C) requirements.

Lee Reyes - Director, Administrative & Paralegal Services

Proposed Role: Project Administration, Document Control, and Deadline Tracking

Education: B.A. Government (Language Citation in French), Harvard University

Relevant Experience:

- Directs office workflows, electronic filing of real estate transaction documents, and case-load management for CLF's right-of-way and eminent domain matters.
- Prior legislative experience managing high-volume document review and stakeholder correspondence for the Texas House of Representatives.
- Serves as narrative/technical reviewer within CLF's quality-assurance process, supporting the administrative tracking, correspondence, and documentation components of Section 4.1.D.

Martin Walker - Chief Quality Officer

Proposed Role: Quality Assurance Oversight for All Contract Deliverables

Education: M.B.A., Saint Leo University; B.S. Liberal Studies, Excelsior University

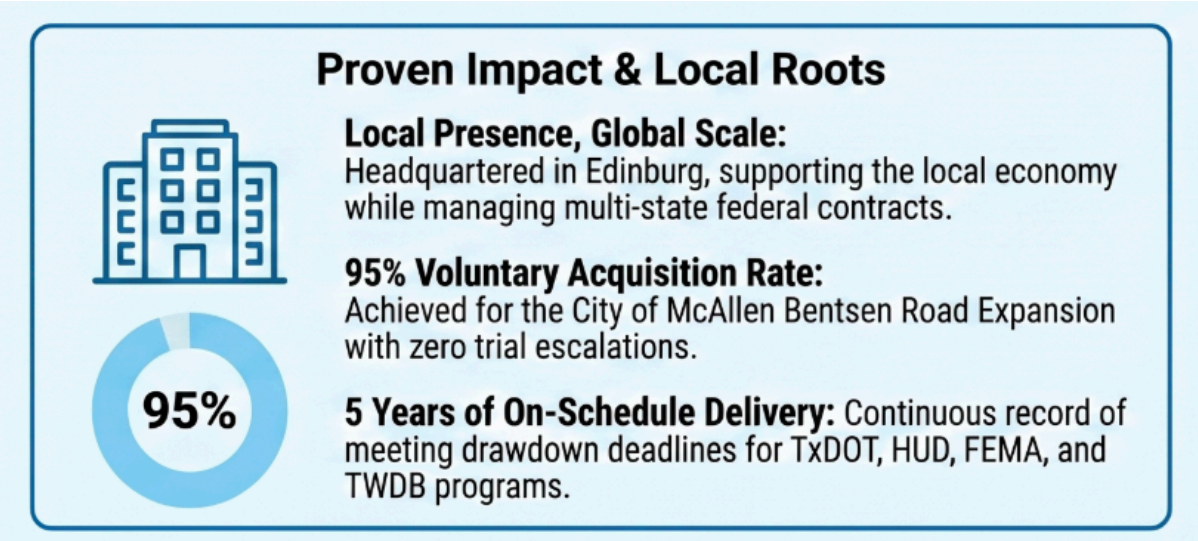
Certifications: Project Management Certificate (Google); ISO 9001/14001/45001-informed quality management expertise

Relevant Experience:

- Oversees CLF's firm-wide quality management program, applying a multi-stage, ISO-informed review process to all documentation, correspondence, and reporting.
- Prior federal experience overseeing real estate and asset management for a U.S. Maritime Administration facility, and 20 years as a U.S. Coast Guard officer conducting investigations, root-cause analysis, and interagency regulatory coordination.
- Ensures every acquisition file and City deliverable under this contract meets a consistent, audit-ready standard before submission.

Appraisal Coordination Resources

CLF Enterprise will provide senior appraisal services through Leonel Garza III, a Texas State Certified General Real Estate Appraiser (License No. TX-1328375-G) with more than 30 years of appraisal experience and over 20 years specializing in right-of-way valuation, eminent domain, and condemnation support. Mr. Garza has provided expert testimony in local, state, and federal courts and has participated in more than 500 eminent domain hearings. His experience includes the valuation of commercial, agricultural, industrial, governmental, and right-of-way properties, as well as appraisal review, litigation support, and complex easement acquisitions.



Recognizing the RFQ's requirement that appraisal services be performed by professionals licensed and/or certified under the Texas Appraiser Licensing and Certification Act (Texas Occupations Code, Chapter 1103), CLF also maintains an extensive network of Texas-licensed, USPAP- and Yellow Book-qualified senior appraisers available to support contract requirements as workload, geographic location, or specialized property types require. This proven network enables CLF to rapidly

mobilize additional appraisal resources while maintaining consistent quality and technical oversight.

This approach provides the City with a highly experienced lead appraiser while ensuring immediate access to additional senior-level appraisal expertise when needed. CLF can scale appraisal resources to meet the size, schedule, and complexity of each assignment while ensuring every appraisal is completed by a professional holding the licenses and certifications required by applicable law. License and certification documentation for the specific appraiser(s) assigned to each task order will be provided to the City upon assignment.

Scalable Support Staff

In addition to the core team above, CLF will draw on its broader bench of right-of-way agents, title/escrow specialists, and paralegals - the same staffing pool used to support 30+ local government departments - to provide part-time or task-specific personnel for smaller assignments, as described in CLF's response to Section 4.2, Item 2 (Firm Qualification and Experience). Executive oversight and contract authority rest with Managing Partner Jose Luis Caso, who leads a 12-person team delivering over $1 billion in infrastructure-related legal and acquisition work and is recognized statewide as a subject-matter expert in complex multi-agency TxDOT coordination.

Insurance

Types and Amounts of Insurance Carried

CLF Enterprise maintains active Professional Liability, Commercial General Liability, and Workers' Compensation/Employer's Liability coverage, each of which meets or exceeds the applicable limits set forth in Section 3.2 of the RFQ. CLF will provide a current Certificate of Insurance naming the City of Edinburg as Additional Insured in accordance with RFQ Section 5.3, and will bind Automobile Liability and City's Protective Liability coverage — the two lines required under Section 3.2 that are not yet reflected on the firm's current certificate — prior to submission.

Coverage	Amount / Limit	Status vs. RFQ Requirement	Carrier / Policy #
Professional Liability	$2,000,000 each claim / $2,000,000 aggregate ($10,000 aggregate deductible)	Active. Not a Section 3.2 mandatory line, but disclosed per RFQ Section 4.2, Item 5.	Texas Lawyers' Insurance Exchange, Policy 01388L07 (eff.1/16/2026–1/16/ 2027)
Commercial General Liability	$1,000,000 each occurrence; $2,000,000 general aggregate; $2,000,000 products/completed ops aggregate; $100,000 damage to rented premises; $5,000 medical.	Meets/exceeds RFQ Section 3.2 minimum ($250k/person–$500k/occurrence BI; $100k/occ–$100k agg or $500k CSL property damage). Policy uses combined per-occurrence/aggregate limits rather than split BI/PD sublimits — functionally equivalent coverage; confirm equivalency language with Legal if the City requests split limits.	Covington Specialty Insurance Company, Policy VBB180747 (eff.7/16/2025–7/16/2026)
Comprehensive Auto Liability	$100,000/person–$500,000/occurrence BI; $100,000/occ–$100,000 agg or $500,000 CSL property damage.	RFQ Section 3.2 requires $100,000/person–$500,000/occurrence BI; $100,000/occ–$100,000 agg or $500,000 CSL property damage.	Progressive Insurance Company, Policy 867675888 (eff.7/2/2022–1/2/ 2027)
Worker's Compensation / Employer's Liability	E.L. Each Accident: $1,000,000; E.L. Disease–Each Employee: $1,000,000; E.L. Disease–Policy Limit: $1,000,000	Meets/exceeds RFQ Section 3.2 minimum ($100,000/accident; $100,000/employee–$500,000 policy limit disease).	Texas Mutual Workers Compensation Insurance, Policy 0002031779 (eff. 5/14/2025–5/14/2027)

Coverage	Amount / Limit	Status vs. RFQ Requirement	Carrier / Policy #
City's Protective Liability	Will provide upon award.	Will provide $250,000/person–$500,000/occurrence BI; $100,000/occ–$100,000 agg or $500,000 CSL property damage. Non-standard line; typically added by endorsement to the GL policy.	Pending Award

Insurance Claims History

CLF Enterprise has not filed or had any insurance claims made against the firm within the past five (5) years.

Professional Services Agreement

CLF Enterprise confirms that it has read the City of Edinburg's Professional Services Agreement provided for reference under RFQ Section 5.4.10. CLF confirms that, if selected, the firm will meet the prerequisite insurance requirements set forth in Section 3.2 of the RFQ prior to the commencement of any services under the resulting agreement. CLF Enterprise agrees, if selected, to enter into the City's Professional Services Agreement.

Why CLF: Integrated Right-of-Way Excellence for the City of Edinburg

CLF Enterprise, an Edinburg-based firm, integrates legal counsel with right-of-way (ROW) acquisition to eliminate project delays, providing a disciplined, "**one accountable team**" approach for complex municipal and federal projects.

Presentation

CLF Enterprise

Right-of-Way Acquisition Services

Statement of Qualifications — RFQ 2026-2 | City of Edinburg

Caso Law Firm, PLLC dba CLF Enterprise
112 E. Cano St.
Edinburg, TX 78539

WHY CLF

One accountable team pairing in-house legal counsel with disciplined right-of-way acquisition delivery.

$1B+	250+	100+	30+
Infrastructure supported	Real estate closings	Eminent domain matters	Government agencies staffed

CLF Enterprise is the government-facing consulting division of Caso Law Firm, PLLC — an Edinburg-based, SBA 8(a) firm delivering right-of-way acquisition, title coordination, appraisal review, and project management for municipal, state, and federal clients across Texas.

CLF Enterprise

TRACK RECORD

Five consecutive years of on-schedule delivery for government clients.

2019

Hidalgo County

General counsel & eminent domain — 100+ matters

2022

Cameron County DD6

$40M drainage program, 60+ parcels

2024

City of McAllen

$20.2M TxDOT corridor, 95% voluntary rate

Apr 2026

U.S. Customs & Border Protection

4-state federal acquisition program

May 2026

U.S. Army Corps of Engineers

Nationwide title services MATOC

Across these engagements, CLF's acquisition files have consistently met funding-agency documentation and drawdown deadlines — the firm has never defaulted on a contract or missed a deliverable due to capacity or financial constraints.

CLF Enterprise

One accountable team — not a hand-off between vendors.

Integrated legal capability

Title defects, heirship issues, and condemnation-readiness questions are evaluated in-house by licensed Texas attorneys — not a separate, sequential process.

Certified small & minority-owned business

Active SBA 8(a) and Texas HUB certification; Hispanic American-owned.

Multi-agency compliance expertise

Working knowledge of URA, 2 CFR Part 200, 49 CFR Part 24, FHWA and TxDOT protocols across TxDOT, HUD, FEMA, TWDB, and CBP-funded programs.

Dedicated quality assurance function

A firm-wide Chief Quality Officer applies a multi-stage, ISO-informed review to every deliverable.

Scale without loss of responsiveness

Manages a 4-state federal acquisition program while continuing to deliver municipal- and county-level ROW work across South Texas.

CLF Enterprise

LOCAL PRESENCE

Headquartered inside the City of Edinburg.

112 E. Cano Street

Edinburg, Texas 78539

Located within the City of Edinburg itself — not a satellite office serving the region from elsewhere.

Employing 11 people from the RGV - CLF's annual payroll supports nearly $1 million in regional economic activity based on commonly used regional economic multipliers for professional services.

- Project managers and acquisition specialists attend City meetings in person
- Direct, in-person meetings with property owners across the City
- Rapid response to shifting priorities without inter-regional travel time
- No coordination delays associated with firms managing projects from outside the region

CLF Enterprise

TEAM

A six-person core team spanning legal, acquisition, title, and quality assurance.

Jose Luis Caso

General Manager

Executive sponsor & senior legal advisor; 12-person team, $1B+ delivered

Carlos Jasso

Project Manager

20+ years ROW services; 50+ successful acquisitions

Required Forms

CONFLICT OF INTEREST DISCLOSURE

Prospective contractors should carefully consider whether any of their activities may give rise to an improper conflict of interest situation. Conflict of interest situations that are not properly addressed can result in a loss of funding to a specific program and/or to the City of Edinburg, and in some cases can result in civil or criminal liability.

Organizations that may enter into a contract with the City of Edinburg should examine the following:

- Are any employees or board members of the organization,
  - a City of Edinburg employee or consultant who exercises program or project specific functions as part of their City position?
  - a member of a Board, Council or Committee that may participate in the City's selection or award process?
  - a City Official?

- Are any immediate family members or business associates of my employees or board member's,
  - a City of Edinburg employee or consultant who participates in the City's selection or award process as part of their City position?
  - a member of a Board, Council or Committee that may participate in the City's selection or award process?
  - a City Official?

- Will any of my employees or board members receive a financial interest or benefit from any project funded and administered through the City (other than employee salaries or personnel benefits)?

- Will any immediate family members or business associates of my employees or board members receive a financial interest or benefit from any project funded and administered through the City (other than employee salaries or personnel benefits)?

- To my knowledge, will my program or project have a financial effect on a City official or employee who exercises City-related functions, or an immediate family member or business associate of such person? For example, will any of these persons be receiving rental payments, other business income, or program services from my company or services offered?

If you can answer "yes" to any of these questions, it is possible that there may be a conflict of interest. You should review the rules below to determine whether an actual conflict situation is raised, and, if so, what action needs to be taken to avoid a violation of the law. You should contact City staff immediately if you suspect that there might be an issue.

Any contractor entering into an agreement with the City will be required to warrant and represent, to the best of his/her knowledge at the time the contract is executed, he/she is not aware of any improper conflict of

interest as described. Also, the contract will obligate contractors to exercise due diligence to ensure that no improper conflict situations occur during the contract.

The following Federal, State and local regulations and policies, govern projects funded through the City of Edinburg:

- 2 CFR Part 200 [Subpart B 200.112 and Subpart D 200.318]
- Texas Local Government Code Chapter 171.004
- City of Edinburg Policies & Procurement Manual

Certification:

I, the undersigned, certify and report that to the best of my knowledge,

☒ I have no conflict of interest to disclose

☐ I have the following conflict of interest to disclose:

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

Not Applicable

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

_____

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

Form provided by Texas Ethics Commission www.ethics.state.tx.us Revised 8/14/2024

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

SENATE BILL 19 VERIFICATION

I, Jose L. Caso, the undersigned representative of

CLF Enterprise, (Company or Business name) (hereafter referred to as company) **being an adult over the age of eighteen (18) years of age, verify that the company named-above, under the provisions of Subtitle F, Title 10, Government Code Chapter 2274:**

(1) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association; and,

(2) will not discriminate during the term of the contract against a firearm entity or firearmtrade association.

Pursuant to Section 2274.001, Texas Government Code:

1) *"Ammunition" means a loaded cartridge case, primer, bullet, or propellant powder with or without a projectile.*

2) *"Company" means a for-profit organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, or limited liability company, including a wholly owned subsidiary, majority-owned subsidiary, parent company, or affiliate of those entities or associations that exists to make a profit. The term does not include a sole proprietorship.*

3) *"Discriminate against a firearm entity or firearm trade association":*
   - *a) means, with respect to the entity or association, to:*
     - *i) refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association;*
     - *ii) refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or*
     - *iii) terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; and*
   - *b) does not include:*
     - *(i) the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; and*
     - *(ii) a company 's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship:*
       - *(aa) to comply with federal, state, or local law, policy, or regulationsor a directive by a regulatory agency; or*

(bb) for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity 's or association 's status as a firearm entity or firearm trade association.

4) *"Firearm" means a weapon that expels a projectile by the action of explosive or expanding gases.*

5) *"Firearm accessory" means a device specifically designed or adapted to enable an individual to wear, carry, store, or mount a firearm on the individual or on a conveyance and an item used in conjunction with or mounted on a firearm that is not essential to the basic function of the firearm. The term includes a detachable firearm magazine.*

6) *"Firearm entity" means:*
   a) *firearm, firearm accessory, or ammunition manufacturer, distributor,wholesaler, supplier, or retailer; and*
   b) *a sport shooting range as defined by Section 250.001, Local Government Code.*

7) *"Firearm trade association" means any person, corporation, unincorporated association,federation, business league, or business organization that:*

   a) *is not organized or operated for profit and for which none of its net earningsinures to the benefit of any private shareholder or individual;*
   b) *has two or more firearm entities as members; and*
   c) *is exempt from federal income taxation under Section 50l(a), Internal RevenueCode of 1986, as an organization described by Section 50l(c) of that code.*

ACKNOWLEDGEMENT OF
CERTIFICATE OF INTERESTED PARTIES (Form 1295)

CERTIFICATE OF INTERESTED PARTIES (Form 1295) In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016. For more information go to the Texas Ethics Commission web page at

https://www.ethics.state.tx.us/filinginfo/1295/

X Yes □ No

City of Edinburg
Attn: Mardoqueo Hinojosa | City Engineer
Submitted via OpenGov

July 14, 2026

RE: Request for Qualifications No. 2026-2 | Right of Way Acquisition Services

Members of the Selection Committee:

Cobb, Fendley & Associates, Inc. (CobbFendley) is pleased to submit our qualifications for consideration for the Right of Way (ROW) Acquisition Services solicitation. We offer comprehensive ROW services, including critical support functions, which allows us to provide a seamless client experience to the City. CobbFendley is presenting qualifications for the following categories: **Appraisal Services**, **Negotiation Services**, **Escrow and Title Coordination Services**, and **Project Management and Administrative Services**. In addition, we are partnering with local appraiser, **Leonel Garza, Jr. & Associates, LLC.**, to provide **Appraisal Services**. **Mr. Garza's firm is licensed in accordance with the Texas Appraisal Licensing and Certification Act** as per the RFQ requirements.

As **Project Manager and Project Principal, I, Joshua "Josh" Canuteson, SR/WA, R/W-NAC**, have a detailed understanding of the process and nuances of acquisition of private property rights for public projects across Texas, as well as a keen understanding of the criticality of working collaboratively with multiple landowners, agencies, attorneys, and design firms toward the common goal of bringing infrastructure to growing communities. Through my experience and commitment, I will lead an exemplary and comprehensive team of professionals who combine a diverse base of experience with the appropriate depth of expertise to successfully deliver ROW projects to the City of Edinburg in a timely manner.

With **46 years** of experience serving municipalities across Texas, and specifically in the Central and South Texas Regions, CobbFendley has the available staff, expertise, and experience to provide these services to the City of Edinburg. We have served on several rotation lists and local on-call contracts with the cities of **Edinburg**, Corpus Christi, Austin, Converse, San Marcos, New Braunfels, Round Rock, Lago Vista, and Pflugerville, as well as the Guadalupe-Blanco River Authority. We consider our role of providing ROW services as an opportunity to partner with and serve the communities where we live and work.

Members of this team have extensive experience working throughout the Rio Grande Valley and have developed a deep appreciation for the region's character and the unique qualities of communities such as the City of Edinburg. Through years of delivering projects across Hidalgo County and the surrounding area, our team has gained valuable insight into the local needs, priorities, and expectations that contribute to successful project delivery. This understanding, combined with our commitment to our clients, drives us to provide exceptional service and high-quality results on every project.

In summary, CobbFendley has assembled a team that is ready, capable, and enthusiastic to work with the City of Edinburg. We look forward to the opportunity to continue serving the City. As an **Officer of CobbFendley**, I am **authorized to bind the company in a contract**, and will serve as the **primary person responsible** for any resulting contract with the City. We acknowledge that addenda have not been published or received at the time of submittal.

Sincerely,

Joshua Canuteson

Josh Canuteson, SR/WA, R/W-NAC
Vice President | Project Manager + Project Principal

2. Firm Qualification + Experience

The CobbFendley Difference

ABOUT OUR FIRM

Cobb, Fendley & Associates, Inc. (CobbFendley) is a nationally recognized **infrastructure solutions** firm with a regional focus and a commitment to excellence. Founded in 1980, the firm provides **integrated services** across the full project lifecycle, from planning and design through construction and delivery.

Since 1994, CobbFendley has delivered **comprehensive ROW acquisition and project management services** for a wide range of clients across Texas and beyond, including cities, such as the City of Edinburg, counties, utility providers, and contractors. Over three decades, CobbFendley has successfully completed **more than 500 land acquisition projects** in a timely manner, ranging from multi-million-dollar urban infrastructure programs involving hundreds of landowners to single parcel acquisitions for local utility improvements.

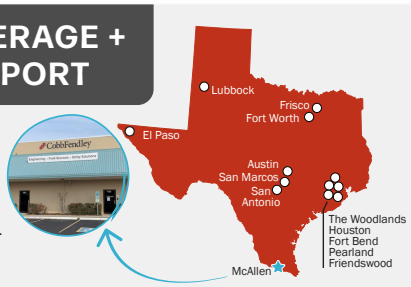
Our qualified ROW professionals are **Licensed Real Estate Agents and Brokers** *(Texas Real Estate Commission (TREC) Firm License No. 602081)*. Their experience spans every phase of the ROW process, from initial project planning through final acquisition and relocation.

Comprehensive Services

CobbFendley has extensive experience providing land and easement acquisition services in accordance with the **Uniform Relocation Assistance and Real Property Acquisition Policies Act** (the Uniform Act) and applicable federal and local policies. Our in-house ROW professionals routinely:

- Collaborate with surveyors and design teams to develop clear and efficient ROW plans
- Conduct preliminary route studies to minimize relocations and unnecessary acquisitions
- Manage project appraisers and oversee acquisition and relocation activities
- Coordinate with and assist legal consultants during the condemnation process

From the outset of each project, CobbFendley develops and maintains **legally defensible acquisition procedures** to expedite schedules and reduce condemnations. Our land acquisition team is experienced in various aspects of ROW and easement acquisition and diligently pursues completion of required activities for timely project delivery. Our expertise includes:



- Market Analysis
- Management of Appraisal Services
- Escrow + Title Coordination Services
- Project Management + Administrative Services
- Route Studies + Project Cost Estimates
- Negotiation Services
- Relocation Assistance
- Condemnation Support

Further details on CobbFendley's experience and approach to land acquisition services can be found starting on page 03.

Our Locations

CobbFendley maintains strategic office locations throughout Texas to better serve our clients. We currently have 19 offices spanning 5 states, with 13 offices in Texas. **The City of Edinburg will be served primarily by CobbFendley's McAllen office with support from our San Marcos, Austin, Fort Bend, and Frisco offices**.

Depth of Resources

With dedicated staff in Central and South Texas and our **local presence** through our McAllen office, the CobbFendley team has the capacity and capability to perform ROW services for the City of Edinburg beginning immediately. With CobbFendley's 19 ROW staff members, adequate staffing will be available for the City's projects. CobbFendley has a **history of working with the City of Edinburg** to fulfill unique requests and adhere to strict timelines. Our team has consistently upheld our **reputation for meeting deadlines** and **successfully completing projects** within the allocated budgets. The majority of the firm's business comes from repeat clients and is a direct result of client satisfaction.

2. Firm Qualification + Experience

SCHEDULE + AVAILABILITY

Our firm's size and ROW resources throughout the state of Texas offers the City an extensive resource pool of professionals with experience on a variety of ROW projects and challenges. **The size of our staff, along with our diverse capabilities and collaborative team approach, enables us to remain flexible in how we deliver services to our clients.**

Project Scheduling Techniques

CobbFendley is committed to managing projects in a thorough and proactive manner, allowing smooth progress and successful outcomes that align with the expectations of both the City and CobbFendley. Effective communication between the City, CobbFendley, and all affected parties is essential to each project's success.

From the outset, CobbFendley will collaborate with the City of Edinburg to establish a **milestone-driven project schedule**. Mr. Canuteson will allocate the necessary resources to keep assignments on track. To maintain transparency and efficiency, CobbFendley will conduct regular project meetings and provide schedule updates as needed.

Additionally, Mr. Canuteson will oversee the project budget, including estimated land acquisition costs, to maintain financial accountability. A weekly project review will confirm adherence to the established scope, schedule, and budget.

Our team **leverages scheduling and resource allocation programs to drive project success** with these key steps:

- Monitor the schedule and significant milestones early and frequently
- Take proactive steps when internal or external activities have an anticipated effect on project schedules or milestone deadlines
- Maintain early and continual communication within the team and with the City
- Discuss, in detail, progress and milestone completions as an important agenda item at all progress meetings

CobbFendley partners with firms statewide to deliver successful projects. Our seamless coordination centers on the following best practices:

- Designate one CobbFendley representative to act as the primary point of contact to the City
- Hold weekly internal status meetings to schedule and allocate appropriate resources to meet project schedule demands
- Identify potential obstacles and critical path functions early in the planning process and relay any potential impacts to the schedule to the City
- Effective use of internal meetings using Microsoft Teams, Zoom, email, and in-person attendance to convey all project-related materials and schedules

Team Commitment + Availability

Our firm has a strong track record of professional, timely delivery of ROW projects on behalf of governmental entities. We evaluate a project's needs and adequately assign resources to achieve effective and timely delivery. **The availability of qualified, experienced personnel who can service the City's needs will not pose any challenges**.

Proven Staffing Capacity

The City's projects will benefit from a team experienced in delivering multiple active ROW assignments simultaneously. For TxDOT, we successfully managed **342 parcels** across **North Tarrant Express (NTE) Segments 1** and **3A** and **Grand Parkway Segments F1**, **F2**, and **G**, with multiple projects underway at the same time. This experience demonstrates our ability to assign qualified personnel where needed while maintaining consistent service and on-time delivery.

We are accustomed to shifting responsibilities when the need arises to achieve successful project delivery. We have partnered with **Leonel Garza, Jr. & Associates, LLC.** to provide appraisal services. With more than 20 years of experience serving the Rio Grande Valley, Mr. Garza and his team bring extensive local knowledge and a strong understanding of the regional real estate market. CobbFendley has successfully partnered with their team on several projects throughout the Valley, allowing us to deliver a seamless and coordinated approach for the City of Edinburg.

The individuals that make up our team are very familiar and experienced in working with the Uniform Act and other federal and local policies and procedures in acquiring ROW. **We have many years of experience performing work for governmental entities across the state of Texas, including the following projects with the City of Edinburg**.

- Wastewater Treatment Plant Acquisition
- Schunior Detention Pond
- Jackson Road (Chapin Street to Monte Cristo Road)
- East Owassa Sewer Improvement
- Veterans Detention Pond

See page 23 for more details of our experience with the City of Edinburg.

2. Firm Qualification + Experience

Managing Workloads

Our team meets weekly to discuss workload, upcoming tasks, and availability in order to meet client goals while maximizing utilization. From smaller assignments to larger, complex projects, we can easily shift resources to manage projects in the most efficient, effective way possible. Our workload is such that **staff are accustomed to successfully working on multiple projects at one time while delivering successful results in a timely manner**.

Schedule

The time needed for ROW acquisition services depends on a variety of factors. On an individual parcel basis, we would assume the following time-frames based on the corresponding factors:

- Landowner Notification – 1 day
- Title Report or Title Commitment – 15 days
- Appraisal – 15-30 days, depending on complexity
- Appraisal Review – 3 days
- Negotiation – 35 days to 3 months, closing could stretch out further depending on complexity of title curative
- Relocation – 3-6 months, depending on complexity
- File Closeout – 1 day

METHODOLOGY + APPROACH

As a ROW service provider, CobbFendley offers in-house staffing of ROW professionals, coordination with designers, coordination with surveyors, preliminary route studies, the ability to define ROW needs (reduce relocations and unnecessary land acquisitions), coordination with legal consultants for eminent domain actions, improved performance with acquisition, relocation and appraisal specialists, management of staffing requirements and utilization, and the development of objective and legally defendable acquisition procedures to expedite schedule and reduce condemnations. **CobbFendley is experienced in all aspects of the ROW process and the management services required to complete acquisition**.

CobbFendley will adhere to all city, state, and federal ROW policies and procedures, including compliance with applicable laws such as the **Code of Federal Regulations** (CFR) Section 49, Part 24 — the Uniform Act — as well as Chapter 21 of the **Texas Property Code**. Additionally, **City of Edinburg forms will be used in all applicable instances and any exceptions to policy will require written approval from City staff**. It is also anticipated that all approvals (Valuations, Administrative Settlements, Relocation Supplements) will be coordinated through the City.

Landowner Notification

Assignments will be initiated by reviewing the information provided by the City of Edinburg. Upon receipt of the Notice to Proceed, our efforts will begin with a **kickoff meeting** to discuss the specifics of the project. We will commence our efforts immediately following the kickoff meeting.

The initial work will consist of establishing the status report(s) and a property owner contact list. The property owner contact list will be utilized in the subsequent preparation of initial notice letters notifying the property owners of the project. Within the **Notice Letter packages**, a letter identifying the project, a depiction of their property to be acquired, and the Landowner's Bill of Rights will be enclosed. Each package will be sent by **Certified Mail Return Receipt Requested** (CMRRR) to the property owner's address according to the tax rolls and confirmed by title commitments or limited title sheets.

The property owner contact list will be continually updated as relevant information pertaining to each owner is obtained. In addition to the electronic parcel files, hard copy files with appropriate tabs will be created as working files for the project. As documents are created and sent to property owners, or as documents are received, they will be placed in the primary project files in the project office. Records of all correspondence or contact with the property owners and records of all payments will be included in the working file, as well as scanned into the electronic parcel files.

Title Curative Services

Upon commencement of our efforts, we will reach out to Rio Grande Title Co. or Valley Land Title to obtain title commitments for all parcels requiring a title policy. Should a title policy not be required, we would have the title company provide an Abstractor Certificate or Limited Title Sheet. CobbFendley has in-house personnel with a long history of performing title services. **Several of our agents have worked for title companies as escrow agents or title examiners**. For any conflicting encumbrance, we will develop a title curative plan that will identify the method for addressing that item.

To the extent possible, we will proceed with these title curative methods as soon as we are able. For instance, identifying heirs of a deceased person listed on Schedule A of the title commitment can begin immediately while securing a signed Lien Release is typically not possible until an agreement is in place and the property owner grants permission to contact their lender. We intend to

be **proactive** in preparing the necessary title curative documents and when feasible, that will take place prior to the initiation of negotiations. Upon receipt of the commitment or Title Sheet and our review of each item included, we will also forward it to the Appraiser for their use in preparation of their report.

Appraisal Services

Once Initial Notice Letters have been provided to property owners, a **Notice to Proceed** (NTP) will be issued for each parcel. Once the NTP has been received by the Appraiser, they will begin their own attempts to contact the landowner. This contact is necessary to:

1. Provide the owner an opportunity to accompany the Appraiser on their inspection of the property
2. Allow the owner to provide any information they may deem relevant to the valuation of the property, or that could be beneficial to the project.

Simultaneously with this contact effort, the Appraiser will begin compiling sales comparables and other relevant information that can be considered in their reports.

As contact with the property owners is completed, the Appraiser will schedule appraisal inspections of each parcel. These inspections will be coordinated with the Relocation Agent and Negotiation Agent in order to properly classify real property and personal property in the appraisal report.

Upon completion of the inspection and development of the value, the Appraiser will submit their final appraisal report. The Appraiser will perform their own QA/QC review of each appraisal report prior to submission to the City. Upon approval of the Appraisal Report by the City of Edinburg, the negotiations with each property owner will begin.

Should Review Appraisal services be necessary, this is the process that would be followed. Upon completion of each Appraisal Report, the Review Appraiser will review each appraisal report to ensure consistency of values across the reports, that proper supporting documentation was provided for the conclusion reached, and that each one is in compliance with City policies and procedures as well as the **Uniform Standards of Professional Appraisal Practice** (USPAP). Comments will be provided to the Appraiser by the Review Appraiser for correction. Additionally, the Review Appraiser will complete a Tabulation of Values for each parcel. The Tabulation of Values provides relevant information from each appraisal report in a sort of Executive Summary format. Further, it identifies any Bisected improvements (Category I or II) as well as the retention value for each affected improvement. Upon completion of the Tabulation of Values and review of the Appraisal Report as well as any corrections necessitated by the comments from the Review Appraiser, both will be provided to the City for an administrative review and approval.

Negotiation Services

Upon approval of the Appraisal Report, the Negotiation Agent performs an additional analysis and confirms City of Edinburg approved value. The Negotiation Agent prepares an offer package for each parcel using City forms, consisting of the following documents at a minimum:

- Offer Letter
- Landowners' Bill of Rights and Right to Repurchase
- Landowners' Bill of Rights Receipt
- Conveyance Document(s) with Metes and Bounds and Parcel Sketch
- Texas Real Estate Commission Information About Brokerage Services
- Appraisal (if necessary)
- Acknowledgment of Receipt of Appraisal Report (if necessary)
- Return Envelope

Upon completion of each offer package and proper quality verification, the Negotiation Agent will contact the property owner to confirm their contact information. Following this confirmation, each offer package will be sent by CMRRR to the appropriate property owner.

Simultaneously to the offer package being sent, the Negotiation Agent will seek to meet face-to-face (or virtually upon request by property owner) as soon as possible with the landowner in order to explain the documents contained in the offer package. As the Negotiation Agent contacts the landowners, they will maintain Negotiator's Reports for each parcel and document all contacts. Additionally, any document generated or received will be maintained in the working files and placed in the parcel folder. The Negotiation Agent will work closely with the property owner on formulating their response within the required time-frame, or will assist them in submitting an extension request.

Should a property owner not agree with the value determination of the Appraiser, they will be given the opportunity to present a counter offer to the City for consideration. The Negotiation Agent will assist them in the submission of the counter offer and will offer them clarification on items that may have been included but have been deemed non-compensable. Each counter offer will be submitted to the City and will include a cover letter with a summarization of the differences between

the offer and the counter, as well as a recommendation as to whether or not the City should accept the counter offer.

If a property owner's counter offer is approved by the City, or if the landowner accepts the City's offer for the property, the Negotiation Agent will coordinate with the property owner to obtain the executed conveyance documents. Each of our Negotiation Agents are commissioned Notary Publics and may notarize the documents for the landowner. We also have the ability to perform **Remote Online Notarizations** for any necessary conveyance documents. Once the executed documents have been received, the Title and Negotiation Agents will cure any remaining title issues that were not previously resolved.

Closing Services

Upon resolution of the remaining title issues, a payment request will be prepared and submitted to the City of Edinburg containing the necessary documents. The City will then proceed with the issuance of a check in the amount agreed. This check will be collected by the project team and provided to the title company in support of preparing the required closing documents. In the instances where a title policy is not being obtained, our team will contact the landowner to coordinate delivery of the check and to complete the pre-closing inspection report.

Once all closing documents have been prepared, a closing will be scheduled for each parcel. The Negotiation Agent will perform closing services in conjunction with the title company. Once the closing has been completed, the conveyance documents shall be recorded in the **Hidalgo County Real Property Records**.

The final title policy and the closing statement originals will then be provided to the Negotiation Agent, along with the recorded conveyance documents. The Negotiation Agent will confirm that no exceptions are shown on the final title policy that were not previously approved by the City. The Negotiation Agent will provide these documents to the City to support payment of the title company's closing fees. Our team will then confirm that all parcel documents are located in the original parcel file and submit the closed file paperwork to the City.

Relocation Services

Relocation can often greatly impact a project schedule as the time involved in relocating a displacee can vary greatly and is not always as clearly defined as acquisition or condemnation. That is why it is important to **prioritize those parcels involving relocation and to be proactive in identifying potential displacees** and to contact them early in the project. The first contact that we often have with a displacee is in the appraisal phase. Whenever the Appraiser is inspecting parcels and offering the owner the opportunity to accompany them, we will have a Relocation Agent also present. The Relocation Agent's role at that stage is to work with the Appraiser to clearly identify items of personalty versus items of realty. They can also use that time to obtain displacee contact information and to start to document items that may need to be moved. It is also vital that a parcel record be established and maintained throughout this time to document all contacts with the displacee.

It may not be possible to contact the displacee this early in the process as some property owners are not willing to allow this contact until an offer has been made. Whether it is during the appraisal phase or at a later point in time, at the initial contact **the Relocation Agent will provide the displacee with a package consisting of**:

- Page 1 of Parcel Record
- Move Plan
- Certificate of Eligibility
- Relocation Assistance Brochure
- Relocation Assistance Program Survey

There are **three potential types of relocation classifications**. They are residential, business, and personal property or mini storage units. There are slight variations in the process between these and so the distinction must be made by the Relocation Agent so that the appropriate process may be followed.

As soon as possible after the distinction has been made, the Relocation Agent will schedule interviews with each displacee to explain to them the benefits that they may be entitled to as well as to inspect the property and document the items that will need to be moved.

The Relocation Agent is also responsible for developing and maintaining a list of comparable properties (business and residential). These will be utilized when calculating replacement supplemental benefits that the displacee is eligible for. Each supplement calculation will be sent to the City for approval prior to discussing them with the displacee.

Once a residential supplement has been approved by the City and either with or directly following the offer, the **90-day notice** may be sent to the displacee by CMRRR. The 90-day notice to a business displacee does not require a supplement and thus can be sent either with or directly following the offer by CMRRR. The 90-day notice notifies the displacee that they will have no less than 90 days to move from the subject property. It also explains to them the relocation benefits.

Following possession of the property, a **30-day notice** will be sent to each displacee by CMRRR. This 30-day notice notifies them that they will be required to vacate the subject property in 30 days. The displacee must have received at least 90 days in total between the 90-day notice and 30-day notice, which may run concurrently. For instance, the 30-day notice may not be sent 30 days after the 90-day notice, but it could be sent 60 days after the 90-day notice.

The Relocation Agent will continue to work with each displacee following the 90-day notice and will walk them through the nuances of each type of move that they may complete (e.g. commercial move, negotiated self-move) and the specific relocation expense categories (e.g. search, re-establishment). They will also explain the potential for things such as direct pay to mover which eases the financial burden on a displacee having to pay a move company and then receive reimbursement at a later date from the City. The Agent will further develop the displacee move plans as they identify replacement sites and will attend closings on those replacement sites as well. They will also be responsible for calculating increased interest payments.

The Relocation Agent will further be responsible for monitoring each move as it occurs. They will perform a **Decent, Safe, and Sanitary** (DSS) inspection of each residential replacement property. As the moves occur, the displacee will begin submitting claims for the relocation expenses that they have incurred. The Agent will be responsible for processing those claims and submitting them to the City for review and approval. The Agent will also be responsible for coordinating the delivery of relocation reimbursement checks to the displacee, though they may not actually deliver them. It must be delivered by someone else so that there is no chance of impropriety on the Agent's part to the detriment of the displacee.

As all claims are processed and the moves are fully completed, then **the Relocation Agent will submit a closed file to the City** noting that all Relocation Assistance has been completed.

Eminent Domain and Condemnation

Condemnation is the process through which the City can acquire parcels that we are unable to close by deed on. CobbFendley is experienced in assisting clients in pursuing condemnation proceedings on a variety of projects. It is vital that all elements of the condemnation process be followed and completed. Any variation could hinder the acquisition of the parcel and lead to a delay.

The condemnation process may begin once the final offer has been sent. The first step after sending the final offer is to obtain an updated title commitment so that all conflicting property interests may be dealt with. The title commitment will be utilized to complete the **Request for Eminent Domain Proceedings**. While there are many aspects to this form, the overall purpose of the form is to give the City's Legal Counsel all information needed to complete the **Petition for Condemnation**. It lists the fee owner, easement holders, lienholders, adverse claimants, and lessees/tenants. It also allows for holders of property interests that are not in conflict to be listed as parties not to be named in the condemnation proceeding. Other items that are addressed are the appraisal information and other details of the parcel that are relevant to the proceeding. Upon completion of this form, it will be submitted along with a condemnation checklist and copies of all relevant documents that have been created or received. We understand that this is the extent of our scope but **we are available to assist further in the condemnation process in any capacity deemed necessary by the City**.

Disposal of Property

An important component of a project is related to the **demolition of buildings** impacted by the acquisitions. The specific process that we will follow is that first we coordinate with the property owner on the removal of their personal property items from the now vacant building. Once they have confirmed in writing that these items have been removed and any remaining items are the property of the City, then we will coordinate with the demolition contractor to obtain a bid for the removal of the improvements. CobbFendley will then turn this information over to the City to coordinate any environmental testing that is to be performed. The results of the environmental testing will be shared with the demolition contractor and the work will be performed.

ENGAGING CITY STAFF

A cornerstone of our **high quality, value-conscious approach** is to establish and maintain **effective communication** not only within the project team but also with stakeholders who hold interest in the project. CobbFendley will develop a **detailed communication strategy** as part of our overall delivery plan in close coordination with the City. Timely and consistent communication keeps projects on track while allowing all parties to quickly and easily manage any changes that may develop.

Additionally, CobbFendley has hosted many **open houses** and **public meetings**. If a project is determined

2. Firm Qualification + Experience

to require input from the public, CobbFendley will work with the City and Design Engineer to prepare materials, provide presentations, and be present to explain the project to the attendees and listen to and record feedback of their concerns. Following public input, the CobbFendley team will assemble the comments and coordinate with the City to determine the action required, if any, to address feedback. **The community's feedback will be considered alongside the City's project objectives to develop a coordinated approach**.

QUALITY CONTROL

CobbFendley is fully committed to delivering quality on every project. A **Quality Control** (QC) **Plan** will be established by CobbFendley to use on each project. The objective of CobbFendley's QC Plan is to deliver work products that conform to the project's goals and objectives as defined by the City. QC reviewers are identified at the project inception and integrated into the production process. **Ongoing quality reviews** are routinely performed and **formal quality reviews** are performed prior to every project milestone deliverable. In addition, the Plan establishes the **control process guidelines** used for quality evaluation and measurement. These guidelines include:

- The process for document review, detail checking, and comment resolution
- The specific project requirements
- Document technical quality
- Clients' established budget

Michael Staines, JD, SR/WA, R/W-NAC, will serve as the QA/QC Manager. He will verify that every submittal to the City of Edinburg has been thoroughly reviewed for technical accuracy, adherence to standards and requirements, and to confirm that a high quality deliverable is being provided. A fully documented QA/QC review process will be implemented at the start of each project as part of our Project Management Plan.

Quality Management Team

Production Team
- Produces exceptional quality work following client standards

Team Task Leaders
- Verifies compliance with client standards
- Implements project Quality Control Plans

Project Manager
- Coordinates QA/QC activities and schedule
- Provides high-level technical review

Technical Reviewer
- Provides detailed technical review
- Gives feedback to QA/QC Manager

QA/QC Manager
- Directs and reviews QA/QC activities
- Back-checks calculations and standards

Project Principal
- Provides final review of overall project
- Allocates QA/QC resources

Our Unique Qualifications

Extensive experience delivering ROW acquisition and relocation services for large transportation and utility projects across Texas

Proven track record coordinating with multiple public agencies, including TxDOT, cities, counties, and utility districts

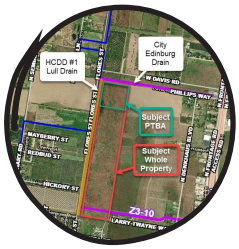
Dedicated team of licensed real estate professionals and IRWA-certified specialists providing comprehensive ROW expertise

Strong history of managing complex negotiations, title curative actions, and high-priority relocations on schedule

2. Firm Qualification + Experience

SCHUNIOR ROAD DETENTION POND
CITY OF EDINBURG

Location: Edinburg, Texas



Status: Completed in 2022

Gerardo Carmona
City of Edinburg
gcarmona@cityofedinburg.com
956.388.8212

Relevant Services. Negotiation, Title Coordination, Closing/Escrow

Project Description. CobbFendley provided ROW services for the **acquisition of one parcel from the Rio Grande Bible Institute** in Edinburg, Texas. This project was unique in that it left an interior remainder that the property owner could utilize while providing the City with the required parcel. **An access easement across the property that the City of Edinburg acquired was reserved for the Bible Institute so that they could access their interior tract**.

WASTEWATER TREATMENT PLANT ACQUISITION
CITY OF EDINBURG

Location: Edinburg, Texas

Status: Completed in 2022

Gerardo Carmona
City of Edinburg
gcarmona@cityofedinburg.com
956.388.8212

Relevant Services. Negotiation, Title Coordination, Closing/Escrow

Project Description. The project involved the **acquisition of a 16.081 acre portion of a 112-acre tract**. After initiating discussions with the landowner, it was requested that the City of Edinburg purchase the entire 112-acre tract. CobbFendley consulted with the City and determined that the entire tract could be used, so we facilitated the purchase of the entire property. This provided the City with additional area at a reasonable amount that can be used for a variety of purposes.

JACKSON ROAD
CITY OF EDINBURG

Location: Edinburg, Texas

Status: Completed in 2025

Mardoqueo Hinojosa
City of Edinburg
mhinojosa@cityofedinburg.com
956.388.8211

Relevant Services. Project Management + Administration Services, Appraisal Services, Title Coordination

Project Description. The project involved the **acquisition of 83 parcels and 8 relocations** for the expansion of Jackson Road (Chapin Street to Monte Cristo Road). As part of our efforts on the project, we met with the City and **discussed the proposed acquisitions** and necessary **utility easements**. **Appraisal reports** were prepared that valued the parcels and the proposed utility easements that were to be obtained by the City. However, the project was put on hold and no acquisitions were ever initiated.

2. Firm Qualification + Experience

CORNUDAS PIPELINE
EL PASO WATER UTILITIES

Location: El Paso, Texas

Status: Completed in 2021

Alma De Anda
El Paso Water Utilities
adeanda@epwater.org
915.594.5513

Relevant Services. Project Management + Administration Services ● Negotiation ● Title Coordination ● Closing/ Escrow

Project Description. The El Paso Water Utilities – Public Service Board (EPWater) selected CobbFendley to provide services required for the **acquisition of ROW (easements) for an 81-mile pipeline** from east El Paso in El Paso County to the Hudspeth/Culberson County line. The pipeline, once constructed, will carry water from Dell City to Clint, Texas. Our efforts included land surveying and acquisition of impacted parcels for three segments of **water pipeline**, **GIS mapping**, and preparation of a **due diligence report** for 103 previously acquired easements, as well as project administration. Our team identified and established ownership and ROE for **272 individual parcels** impacted by the proposed pipeline, and **created and maintained a database detailing the attributes of each individual parcel** including ownership, deed history, legal description, parent tract identification, title research, and tax information. Using the established ownership information, CobbFendley provided **acquisition services for 167 parcels** and **land rights for 3 segments of water pipeline**.

To support acquisition efforts, our survey team prepared an existing property line base map from all parcels affected by the new waterline easement based on deed/plat research and on-the-ground boundary ties. **A parcel plat and legal description was prepared for each of the 167 easement locations as well as a set of ROW maps for the entire 181-mile corridor**.

Our ability to form a single team capable of delivering **GIS**, **survey**, and **acquisition services** allowed us to immediately allocate internal staff and resources to address and resolve project challenges, and streamline communication both internally and with the client.

STEIN FALLS WASTEWATER IMPROVEMENTS
GUADALUPE-BLANCO RIVER AUTHORITY

Location: Guadalupe County, Texas

Status: Completed in 2021

Charlie Hickman, PE
Guadalupe-Blanco River Authority
chickman@gbra.org
830.379.5822

Relevant Services. Project Management + Administration Services ● Negotiation ● Title Coordination ● Closing/ Escrow ● Management of Appraisal Services

Project Description. CobbFendley provided ROW services for the **acquisition of land and easements** for approximately **43 parcels** in Guadalupe County for the construction of a **lift station** and **wastewater collection system** for the **Stein Falls Collection Capital Improvement Project** (CIP).

The Stein Falls Wastewater Reclamation System serves the River Bend, Lakeview Heights, and Southbank subdivisions in Guadalupe County. The area west of the Guadalupe River between New Braunfels and Seguin was seeing rapid growth in existing subdivisions and increased interest from the developer community, resulting in many new wastewater service agreements and others forthcoming. This facilitated the need to acquire easements and land to align with the **Authority's Master Plan** and provide ample service to the new developments and residents.

2. Firm Qualification + Experience

BELL BOULEVARD REALIGNMENT
CITY OF CEDAR PARK

Location: Cedar Park, Texas

Status: Completed in 2021

Chris Brickey, PE
City of Cedar Park
chris.brickey@cedarparktexas.gov
512.401.5351

Relevant Services. Project Management + Administration Services • Negotiation • Title Coordination • Closing/ Escrow • Relocation Assistance

Project Description. The City of Cedar Park, in cooperation with TxDOT, is relocated the Bell Boulevard (US 183) roadway east onto the full extent of Old Highway 183 from Cedar Park Drive to south of Buttercup Creek Boulevard in Cedar Park. The new roadway is a **four-lane divided roadway** that included a raised median with **turn lanes at intersections and driveways**. The project also included lighting and pedestrian and bicycle paths. The City of Cedar Park funded this realignment as part of the Destination Bell Boulevard. CobbFendley acquired the additional ROW and easements needed for the realignment in accordance with TxDOT procedures.

Additionally, CobbFendley provided **relocation assistance for five non-residential displacees** in compliance with the Uniform Act. CobbFendley also facilitated the **transfer of the existing ROW** from TxDOT to the City of Cedar Park. The transfer was a challenging endeavor due to the State's transfer process, with **approval required from multiple agencies** and it being ultimately signed by the Governor. CobbFendley had to work with the City and TxDOT to progress the transfer in advance of substantial completion of the roadway in order to try and meet the City's established deadlines.

FM 1960
TXDOT HOUSTON DISTRICT

Location: Humble, Texas

Status: Completed in 2022

Colan Dishman
TxDOT Houston District
colan.dishman@txdot.gov
713.802.5704

Relevant Services. Project Management + Administration Services • Negotiation • Title Coordination • Closing/ Escrow • Relocation Assistance • Condemnation Support

Project Description. CobbFendley was responsible for the **acquisition of 40 parcels** and **18 business relocations** for the **widening of FM 1960 from five to six lanes**, from BF 1960A near the Eastex Freeway, to just east of Twigsworth Lane in Atascocita on behalf of the TxDOT Houston District. Many of the parcels on this project necessitated **land plans** to cure parking/setback/circuity issues. Many of the displacees were **voluntary displacees**, which required increased communication with the landowners and tenants to appropriately relay the impact the acquisition has on the remainder property. The project goals included:

- Resurfacing the entire length of BF 1960A
- Constructing 14 foot raised median, with **left turn bays at intersections** from Lee Road to FM 1960 East of Humble
- Implementing **intersection improvements** at Kenswick Drive
- Implementing **drainage improvements**
- Installing sidewalks

2. Firm Qualification + Experience

SH 146 WIDENING
TXDOT HOUSTON DISTRICT

Location: Seabrook, Texas

Status: Completed in 2022

Elizabeth Martin
TxDOT Houston District
elizabeth.martin@txdot.gov
713.802.5710

Relevant Services. Project Management + Administration Services ● Negotiation ● Title Coordination ● Closing/ Escrow ● Relocation Assistance ● Condemnation Services

Project Description. CobbFendley provided ROW services for the **acquisition of approximately 100 parcels** and **relocation of 68 businesses** for the widening of SH 146 in Seabrook, Texas. The project limits are from Red Bluff Road to the Harris County/Galveston County Line.

This project was performed on behalf of the City of Seabrook. Negotiation of parcels with property owners was completed in **full compliance with SB 18**, **Property Codes and Statutes**, and **Uniform Act of 1970** standards.

ADVANCED RAPID TRANSIT GREEN LINE REAL ESTATE SUPPORT SERVICES
VIA METROPOLITAN TRANSIT

Location: San Antonio, Texas

Status: Completed in 2026

Abigail Kinnison
VIA Metropolitan Transit
abigail.kinnison@viainfo.net
210.362.2564

Relevant Services. Project Management + Administration Services ● Negotiation ● Title Coordination ● Condemnation Services ● Management of Appraisal Services

Project Description. CobbFendley led the **ROW acquisition services for VIA's Advanced Rapid Transit Green Line**, which consisted of **230 parcels**. CobbFendley's involvement verified that the property acquisition process was handled efficiently and in compliance with applicable regulations and standards. CobbFendley **coordinated with multiple stakeholders**, including property owners, government agencies, and legal teams, to facilitate timely acquisitions and minimize project delays. The team worked diligently to **resolve title issues**, **negotiate fair settlements**, and prepare properties for **condemnation proceedings** when necessary.

CobbFendley also **managed the project appraisers**, developing **title curative plans** and clearing encumbrances. Responsibilities included overseeing appraisal reports to verify accurate property valuations and facilitating communication between appraisers and property owners. Some title curative work required agreements with fee owners to move forward, such as obtaining lien releases. CobbFendley's expertise in navigating complex real estate challenges allowed us to secure necessary agreements and resolve outstanding issues efficiently. This proactive approach in developing customized title curative plans and addressing encumbrances contributed to the overall success of the Advanced Rapid Transit Green Line Real Estate Services project, keeping the acquisition process on track and supporting VIA's mission to enhance transit infrastructure in San Antonio.

Land Acquisition Experience

CobbFendley's ROW department has a wide variety of experience, both in terms of the type of project and the makeup of the project area. Over the course of our history providing acquisition services on just about every type of project, we have developed an understanding of the subtle nuances in dealing with landowners from each type of geographical area. Our agents are able to connect and communicate effectively with owners with varying levels of sophistication. Each of their concerns are valid and must be addressed in a professional manner, no matter how small they may seem to an outside party.

3. Team Member Qualifications + Experience

JOSH CANUTESON, SR/WA, R/W-NAC

PROJECT MANAGER + PROJECT PRINCIPAL

Years of Experience	21
Education	B.S., Economics, Texas A&M University, 2005
Professional Licenses + Certifications	Real Estate Broker License, Texas, No. 559898 Senior Right-of-Way Professional (SR/WA), No. 6438 Negotiation Certification (R/W-NAC)

■ QUALIFICATIONS

Mr. Canuteson has 21 years of experience providing ROW services on a variety of types of projects for a wide array of clientele. Throughout his time in the ROW industry, he has provided services in the areas of project management, negotiation, title research/curative, closing support, relocation, and condemnation support. Mr. Canuteson has demonstrated excellent technical, analytical, and communication skills throughout his career. He strives to find innovative and proficient ways of achieving the client's desired objectives in a timely and efficient manner with a results-oriented focus. **As Project Manager and Project Principal, Mr. Canuteson will utilize his extensive experience to provide guidance to project teams verifying contract compliance, timely delivery on the scope, adherence to project budgets and schedule, as well as appropriate resource allocation**.

■ RELEVANT PROJECT EXPERIENCE

Schunior Road Detention Pond, City of Edinburg, Texas. Mr. Canuteson served as the **Project Manager** for this project, which consisted of an acquisition for a detention pond needed by the City of Edinburg.

Wastewater Treatment Plant, City of Edinburg, Texas. Mr. Canuteson served as the **Project Manager** for this project, which consisted of an acquisition for a new wastewater treatment plant needed by the City of Edinburg.

Hillcrest Voluntary Buyout Program, Port of Corpus Christi Authority, Corpus Christi, Texas. Mr. Canuteson served as the **Project Principal** for this project, which consisted of a voluntary buyout program in support of the TxDOT Harbor Bridge Project. The Hillcrest and Coles neighborhoods were adversely impacted by the Bridge Project and through a Civil Rights claim, were granted a voluntary buyout program through a two-party and four-party agreement between FHWA and TxDOT. CobbFendley's role was to be the Acquisition Manager and to negotiate the majority of the parcel acquisitions. Mr. Canuteson provided project management support.

FM 1960, TxDOT Houston District, Humble, Texas. Mr. Canuteson served as the **Project Manager** for this project, which consisted of the acquisition of 40 parcels and 18 business relocations for the widening of FM 1960 from BF 1960A to East of Twigsworth Lane in Humble, Texas. In addition to serving as the Project Manager, he has provided services in the areas of appraisal coordination, negotiation, title curative, closing, and condemnation support.

Woman Hollering Creek Wastewater Line, City of Schertz, Texas. Mr. Canuteson serves as **Project Principal** for this project, which consists of the acquisition of 26 easements for wastewater facilities along Woman Hollering Creek in Schertz, Texas. He has provided support in the areas of project management, appraisal coordination, and negotiation.

McHard Road, City of Pearland, Texas. Mr. Canuteson served as the **Project Manager** for this project, which consisted of the acquisition of 75 parcels for mostly new alignment of McHard Road from Cullen Boulevard to Mykawa Road. Additionally, there are 10 residential displacees and one business displacee. In addition to serving as the Project Manager, he provided services in the areas of appraisal coordination, negotiation, title curative, closing, and condemnation support.

Rosenberg Water Transmission Line, Brazosport Water Authority, Fort Bend County, Texas. Mr. Canuteson served as the **Project Manager** for this project, which consisted of the acquisition of 80 easements for water transmission facilities to serve the City of Rosenberg. In addition to serving as Project Manager, he provided support in the areas of appraisal coordination, negotiation, title curative, closing, and condemnation.

3. Team Member Qualifications + Experience

HOMER BAZÁN, PE, LGPP

CLIENT MANAGER

Years of Experience	40
Education	BS, Civil Engineering, University of Texas at Austin, 1986
Professional Licenses + Certifications	Professional Engineer, Texas, No. 73741

■ QUALIFICATIONS

Mr. Bazán has 40 years of experience in project planning and execution, with 33 of them with TxDOT in the Pharr District. He worked in a variety of areas, including: District Design Section, District Traffic Section, the Pharr Area Office, District Advance Planning Section, as District Design Manager where he oversaw the management of the Central Design Section, and finally as the District's Transportation Planning and Development (TP&D) Director. Mr. Bazán is an Edinburg resident who is dedicated to the community and will be engaged in the success of each work assignment. **As Client Manager, Mr. Bazán will offer his expertise and local knowledge to the project team by serving as an advisor and resource for overall execution of assigned work**.

■ RELEVANT PROJECT EXPERIENCE

Jackson Road, City of Edinburg, Texas. Mr. Bazán served as the **Client Manager** for this project which involved the acquisition of 83 parcels and 8 relocations for the expansion of Jackson Road (Chapin Street to Monte Cristo Road). CobbFendley coordinated with the City on the proposed acquisitions and utility easements and appraisal reports were prepared for the affected parcels. Although the project was placed no hold before acquisitions began, the valuation and acquisition planning were completed.

Jackson Avenue Drainage Improvements, City of Harlingen, Texas. As **Project Manager**, Mr. Bazán is leading the team on improving the storm sewer infrastructure in a flood-prone area of downtown Harlingen. New inlets and storm sewer laterals are being proposed to replace undersized drainage elements. Careful consideration is being given on the impact to utilities and impacts to existing businesses. In order to achieve a tight deadline, he is coordinating as frequently as possible with city staff to ensure the plans reflect what the city needs and desires.

Various Professional Engineering Services On-Call Contracts, Rio Grande Valley, Texas. As **Project Manager**, Mr. Bazán currently serves on several On-Call contracts for local municipalities in the Rio Grande Valley, including the City of Pharr, City of Harlingen, City of Mission, City of Edinburg, Hidalgo County and the Hidalgo County Drainage District No. 1. He demonstrates excellence in overseeing contract compliance, work scope, budget, and schedule requirements are achieved. He has the ability to oversee and effectively manage subconsultants performing engineering, procurement, construction, and operation activities. Mr. Bazán demonstrates his innovative thinking and strong technical, managerial and analytical skills by identifying when project requirements exceed technical skills or manpower capacity, and develops/implements corrective action plans that often include the recruiting and hiring of new staff. Mr. Bazán is committed to the protection of employees, contractors, client personnel and the public from hazardous conditions and practices.

Shary Road (FM 494), TxDOT Pharr District, Hidalgo County, Texas. As **Project Manager**, Mr. Bazán led the roadway team and sealed the design plans for this roadway expansion from an existing two-lane rural roadway to a four-lane curb-and-gutter urban roadway. He developed plan and profile sheets which established the roadway's proposed horizontal and vertical profile, confirming that the design cross-sections accommodated the existing terrain of the area. He also developed the drainage area map which documented the storm water runoff that was required to be accommodated by the project based on the design frequency per TxDOT's Hydraulics Manual. Mr. Bazán designed the proposed storm drain system, including the pipe drainage outfall which carried the runoff over a mile away from the project to the nearest drainage ditch. He developed all the utility and drainage sheets which described all the utilities located within the State ROW and indicated all the utility conflicts that needed to be addressed per the roadway and hydraulic design. He designed the traffic control plan which helped accommodate traffic in the construction phase, and developed all the estimate and quantity sheets which reflected all the bid items needed on the project.

3. Team Member Qualifications + Experience

MICHAEL STAINES, JD, SR/WA, R/W-NAC

QA/QC MANAGER

Years of Experience	8
Education	J.D., Law, University of Arkansas at Little Rock B.S., Environmental Geosciences, Texas A&M University
Professional Licenses + Certifications	Real Estate Broker License, Texas, No. 713182 Senior Right-of-Way Professional (SR/WA), No. 7440 Negotiation Certification (R/W-NAC) Notary Public, Texas, No. 131700211

■ QUALIFICATIONS

Mr. Staines has eight years of experience in ROW services and has established himself as a QA/QC Manager **skilled in developing and executing quality assurance protocols** for acquisition, title research, and condemnation projects in real estate and infrastructure improvements. He leads internal audits, reviews project documents for compliance and accuracy, manages process improvements, and mentors teams on best practices. His proactive approach verifies every stage of negotiation, acquisition, and condemnation meets rigorous standards, with meticulous record-keeping and corrective actions to uphold regulatory requirements and deliver consistent, high-quality results.

■ RELEVANT PROJECT EXPERIENCE

US 90, TxDOT San Antonio District, Bexar County, Texas. Mr. Staines served as **ROW Agent** providing acquisition, title, condemnation, and disposal of the property. This project consisted of the widening of US 90 through San Antonio, Texas. This was a 50-parcel project, with Mr. Staines responsible for 13 parcels of acquisition, title, and disposal of property and all 50 parcels for condemnation.

State Loop 88, TxDOT Lubbock District, Lubbock County, Texas. Mr. Staines served as **Acquisition Agent** that assisted in creating and acquiring **temporary construction easements** (TCEs) as well as purchase agreements. State Loop 88, TxDOT Lubbock District, Lubbock County, Texas. Mr. Staines served as Condemnation Support Agent. His primary role was drafting E-49s. This project consisted of the acquisition of approximately 300 parcels and relocation for approximately 300 parcels for the road widening of FM 1585. Services included project management and administration, negotiation, title curative, closing support, relocation, and condemnation support.

US 62, TxDOT El Paso District, El Paso County, Texas. Mr. Staines served as **Deputy Project Manager** and Acquisition Agent responsible for acquiring 76 parcels for widening US 62 from Global Reach Drive to FM 659 in accordance with TXDOT. Services included ROW acquisition, project administration, negotiations, title curative, closing, relocation, and condemnation support.

FM 1960 Expansion, TxDOT Houston District, Humble, Texas. Mr. Staines served as **Eminent Domain Coordinator/Negotiation Agent**. The project consisted of the acquisition of approximately 40 parcels of FM 1960 from BF 1960A to East of Twigsworth Lane. CobbFendley services included project administration, negotiation, title curative, closing, relocation assistance, and condemnation support. Mr. Staines' responsibilities included project administration, acquisition support, drafting all E-49 submissions for TxDOT, filing requisite eminent domain proceeding documents, and coordinating all Special Commissioner's Hearings.

Grand Parkway H and I Segments, TxDOT Houston District, Montgomery, Harris and Liberty Counties, Texas. Mr. Staines served as **ROW Agent** and assisted with the acquisition of 91 parcels and 64 displacements of various complexities. The project limits are from IH 69 to Harris County line and Liberty County Line to US 90. Services included project management and administration, negotiation, title curative, closing, relocation, and condemnation support.

3. Team Member Qualifications + Experience

ROBERT DURAN, SR/WA, R/W-RAC, R/W-NAC

3. Team Member Qualifications + Experience

CULLEN EASTLAND, RWA-TN

NEGOTIATION, ESCROW, + TITLE

Years of Experience	10
Education	B.S., Wind Energy, Texas Tech University
Professional Licenses + Certifications	Real Estate Agent License, Texas, No. 740861 Notary Public, Texas, No. 131911458 ROW Agent, Transportation, IRWA

■ QUALIFICATIONS

Mr. Eastland has 8 years of experience in providing ROW services, one year in administration and five years as a ROW Agent for CobbFendley. His expertise as an agent includes relocation, acquisition, negotiation, and condemnation support services. Throughout his career, he has personally assisted with relocation services for more than 120 displaced businesses, residences, or personal properties. Additionally, he has coordinated condemnation hearings for 25+ parcels. Mr. Eastland's broad knowledge and skills make him a strong negotiator, effectively able to communicate with landowners and their representation.

■ RELEVANT PROJECT EXPERIENCE

US 62, TxDOT El Paso District, El Paso, Texas. Mr. Eastland serves as **ROW Agent** and is responsible for relocation services on the US 62 Project in El Paso, Texas. His current tasks include relocating 47 displaced, businesses, personal property, and residential displacees. Mr. Eastland is responsible for coordinating and monitoring the moves as well as cooresponding with moving companies to ensure the job is complete in a timely manner.

SL 88, TxDOT Lubbock District, Lubbock, Texas. Mr. Eastland served as **ROW Agent** and was responsible for parcel acquisition, relocation services, negotiations, and condemnation support services on the SL 88 Project in Lubbock, Texas. His previous tasks include preparing offer letters, relocating displaced tenants/landowners, and coordinating eminent domain hearings with the Assistant Attorney General's office. Mr. Eastland was also responsible for inputting data into TxDOT's ROW Information System (formally ROWIS, now Connect). The five segments Mr. Eastland worked on consisted of 14.5 miles with 269 Fee-Simple parcels to be constructed into a six-lane freeway connecting US 87 in Lubbock to US 62/82 in Wolfforth, Texas.

Windy Hill Road (Kyle City Limits to FM 2001), Hays County, Texas. Mr. Eastland serves as **ROW Agent** responsible for parcel acquisition, negotiations, and relocation services on the Windy Hill Road Widening Project. His tasks include preparing offer letters, due diligence, negotiating with property owners, and locating existing utilities in the ROW. Mr. Eastland is also responsible for Monarch and Goforth SUD's waterline easement acquisition along Windy Hill Road. This project consists of 71 parcels requiring fee simple and water line easement acquisitions.

IH 10 Widening, Guadalupe Valley Electric Cooperative, Seguin, Texas. Mr. Eastland serves as **ROW Agent** providing due diligence and acquisition support for GVEC's electrical line acquisition outside of Seguin, Texas.

FM 2001 Water Line Improvements, Goforth SUD, Kyle/Buda, Texas. Mr. Eastland currently serves as **ROW Agent** and is responsible for water line easement acquisition's along FM 2001 in Kyle/Buda, Texas. His current tasks include negotiating with property owners and title curative. Mr. Eastland also assisted with ROE authorization along FM 2001 for Goforth. This project consists of 71 parcels with permanent water line easements as well as **TCEs**.

FM 967, City of Buda, Texas. Mr. Eastland serves as **ROW Agent** responsible for negotiating a **TCE** for the RM 967 road improvement project in Buda, Texas. His tasks included negotiating with the property owner, preparing the **TCE** for the city's approval and due diligence.

Plum Creek RR Crossing, County Line SUD, Hays County, Texas. Mr. Eastland serves as **ROW Agent** responsible for researching Hays County Appraisal District and Secretary of State website to locate and contact property owners. His tasks include due diligence and corresponding with property owners so that County Line SUD can begin working on the waterline. Mr. Eastland was also responsible for coordinating with the livestock owner so that they were not present during construction.

3. Team Member Qualifications + Experience

JULIA MOCK

NEGOTIATION, ESCROW, + TITLE

Years of Experience	7
Education	B.B.A., General Business, Stephen F. Austin University
Professional Licenses + Certifications	Real Estate Sales Agent, Texas, No. 839197 Notary Public, Texas, No. 134413204

■ QUALIFICATIONS

Ms. Mock has seven years of experience working in project coordination. Her background in mineral acquisitions has enabled a smooth transition to ROW, incorporating her project management experience, title research abilities, preparation and review of legal documents, accounting, and coordination between landowners and clients. She is responsible for drafting and securing Right of Entry agreements, preparing for eminent domain, title curative plans, payment packages for title policies and deeds/possession and use agreements (PUAs), as well as preparing offer letters for both fee simple acquisitions and easement acquisitions. Ms. Mock's organization and attention to detail support the coordination and efficiency of projects.

■ RELEVANT PROJECT EXPERIENCE

Advanced Rapid Transit - Green Line Real Estate Services, VIA Metropolitan Transit, San Antonio, Texas. Ms. Mock serves as the **Lead ROW Agent** responsible for preparing and overseeing preliminary title curative plans and eminent domain documentation for up to 230 parcels. She has worked closely with Mr. Canuteson on all aspects of the project, including appraisal oversight, status meetings with VIA, and negotiation document preparation.

Barbarosa Road and Saur Lane Widening, City of New Braunfels, Texas. Ms. Mock serves as **ROW Agent** responsible for fee simple and easement acquisitions on 19 parcels along Barbarosa Road and Saur Lane. CobbFendley provides project management following federal procedures for, public outreach coordination, acquisition, negotiations, title curative, title, closing, appraisal oversight and coordination, and condemnation support services. This project is under TxDOT oversight involving federal funding and complying with federal requirements.

On-Call ROW Services, Hays County, Texas. Ms. Mock serves as **ROW Agent** supporting the route analysis, due diligence, acquisition, and condemnation support associated with various projects on an as-needed basis. Ms. Mock's responsibilities include negotiation, title curative, closing support, relocation, and condemnation support. She attends meetings, provides general consultation on ROW matters, and oversees all necessary tracking or clerical work associated with services provided.

US 62, TxDOT El Paso District, El Paso County, Texas. Ms. Mock served as **Project Coordinator** and was responsible for drafting and submitting eminent domain packages, provided administrative assistance preparing/reviewing payment packages for title policies and deeds/PUAs, invoicing, assisted with relocation notices, and prepared specific reports requested by the client, covering approximately 76 parcels.

FM 1187, TxDOT Fort Worth District, Tarrant County, Texas. Ms. Mock served as **Project Coordinator** and performed title research to locate any easements and ROW deeds within the project limits. She identified over 140 parcels that needed ROE, and led the ROW-effort to prepare and obtain 91% of those agreements. Ms. Mock successfully coordinated with the TxDOT legal team to acquire agreements from those that were unresponsive, and also coordinated these efforts between CobbFendley's Survey and Transportation departments to keep them informed and verify that the timeline and specification from landowners met the needs of all teams involved in the project.

FM 2001, Goforth Special Utility District (SUD), Hays County, Texas. Ms. Mock served as **Project Coordinator** and was responsible for the preparation and delivery of offer letters for temporary and permanent construction easements. She deciphered surveys, broker opinions of value, and title requirements to prepare such documents.

3. Team Member Qualifications + Experience

JOCELYN SANDOVAL
ADMINISTRATIVE SUPPORT

Bilingual (Spanish/ English)

Years of Experience 5

Education B.S., Management, National American University

■ QUALIFICATIONS

Ms. Sandoval has five years of experience delivering complex projects in an accurate and timely manner. She is knowledgeable in preparing offer packages and portfolios, right of entry letters, title research, title curative, property owner research, and providing condemnation support. Additionally, Ms. Sandoval's leverages her English and Spanish bilingual skills to maintain seamless communication to property owners.

■ RELEVANT PROJECT EXPERIENCE

Advanced Rapid Transit - Green Line Real Estate Services, VIA Metropolitan Transit, San Antonio, Texas. As **Project Coordinator**, Ms. Sandoval is responsible for reviewing the title commitments and preparing title curatives as well as E-49 for 60 property owners for this 180-parcel project.

Windy Hill Road (FM 2001 to Kyle City Limits), Hays County, Texas. Ms. Sandoval's responsibilities as **Project Coordinator** consisted of ordering, tracking, and overseeing the delivery of title commitments and tax certificates. She also provided due diligence, acquisition, relocation, and condemnation support for this transportation project. The project consisted of approximately 71 parcels for the road widening along Windy Hill Road between the City of Kyle limits and FM 2001.

JACIAN MARTIN

Your Proven Partner

CITY OF EDINBURG EXPERIENCE

CobbFendley has provided ROW services to the City of Edinburg for the following five projects. We look forward to continuing to serve the City on additional projects in the coming months and years.

Wastewater Treatment Plant Acquisition. (2021 - 2022). Project included the acquisition of one parcel for a Wastewater Treatment Plant in Edinburg County, Texas. Services included negotiation, title curative, and closing support. **Personnel Involved.** Josh Canuteson (Project Manager/Principal), Diane Molina (Negotiation Agent)

Schunior Road Detention Pond. (2021 - 2022). Project included the acquisition of one parcel for the Schunior Detention Project in Edinburg County, Texas. Services included negotiation, title curative, and closing support. **Personnel Involved.** Josh Canuteson (Project Manager/Principal), Diane Molina (Negotiation Agent)

Jackson Road. (2023 - 2025). Project involves the acquisition of 83 parcels and 8 relocations for the expansion of Jackson Road (Chapin Street to Monte Cristo Road). Services inlcuded negotiation, title curative, and closing support. **Personnel Involved.** Josh Canuteson (Project Principal), Homer Bazán (Client Manager), Abel Garcia (Project Manager), Diane Molina (Negotiation Agent), Michael Staines (Negotiation Agent)

East Owassa Sewer Improvement. (2024 - Ongoing). Project includes the acquisition of one easement for a sewer line to serve multiple commercial properties currently on septic. The project limits are from Owassa to Alberta. Services include negotiation, title curative, and closing support. **Personnel Involved.** Josh Canuteson (Project Manager/Principal), Diane Molina (Negotiation Agent)

Veterans Detention Pond. (2024 - Ongoing). Project includes the acquisition of one storm sewer easement to serve a proposed detention pond on an adjacent property. Services include negotiation, title curative, and closing support. **Personnel Involved.** Josh Canuteson (Project Manager/Principal), Diane Molina (Negotiation Agent)

ADDITIONAL RELEVANT EXPERIENCE

In addition to our ROW experience with the City, **Client Manager Homer Bazán** has spent his entire career in the Valley and has managed several projects in the City of Edinburg and surrounding area. The following are projects he managed while serving in the roles of Area Office Project Manager, Consultant Management Engineer, and Transportation Planning & Development Director at the TxDOT Pharr District.

FM 2061 (McColl Road) from 0.33 Miles S. of Canton Road to SH 107. Project included reconstruction of a 2-lane rural roadway to a 4-lane urban curb-and-gutter roadway with a 2-way left-turn lane. Mr. Bazán designed the proposed storm sewer drainage system; developed the traffic control plan; developed the physical detour plan to accommodate the roadway being closed during construction; developed the plan and profile sheets, establishing the horizontal and vertical alignments; developed the utility and drainage sheets, which indicated the utilities that needed to be adjusted and/or relocated; developed the intersection layout sheets, which focused on the elements of the intersection such as sidewalks, wheelchair ramps, curb and gutter limits, radii dimensions, and intersection skew; calculated all quantities and developed the official construction estimate (quantities and unit bid prices); and developed the PS&E package for the bid proposal, which included the specifications, special provisions, and general notes.

SH 107—FM 2061 McColl Road to County Courthouse. Project included upgrading SH 107 from a 4-lane rural roadway with 2-way left-turn lane to 6-lane curb-and-gutter raised median section. This was located in a heavy commercial area, which included the University of Texas-Pan American (later to become UT-RGV), which had many crashes due to the high driveway density, an Average Daily Traffic above 20,000, and the 2-way left-turn lane. Mr. Bazán coordinated with TTI to develop study on the safety and operational benefits of the raised median, and determination of raised median opening locations. With local business owners wary of the changes to their access. Mr. Bazán developed and gave a technical presentation at a public meeting, which proved very successful, drawing almost no negative comments from the public.

SH 107—FM 2061 McColl Road to FM 2220 Ware Road. Project included upgrading 4-lane rural divided highway with a depressed grassy median to a 6-lane rural raised median section with roadside ditches, and was a continuation of earlier project converting SH 107 into a mobility arterial corridor. Also coordinated a study with TTI on safety and operational benefits, and developed and gave presentation during a public meeting, which also proved successful in alleviating the concerns of the local residents and business owners. Mr. Bazán's additional Edinburg area projects include SH 107—IH 69C to FM 493 and FM 2128 Richardson Road—IH 69C to SH 1907.

4. References

We Build Relationships

At CobbFendley, we take pride in the wide variety of solutions we offer to help build communities. We have a proven record in providing our clients with innovative and sustainable infrastructure solutions. CobbFendley is pleased to offer the following contacts as references of our work. We have worked on projects with each of these references providing services similar to those listed in our response. We are confident that these references will serve as examples of our commitment to meet schedules and providing excellence in our workmanship.

EL PASO WATER UTILITIES

Alma De Anda | Utility Land and Water Rights Manager | 915.594.5513 | adeanda@epwater.org

Cornudas Pipeline. (2018 - 2022) CobbFendley provided comprehensive ROW services for EPWater's 81-mile water pipeline, including ownership research, right-of-entry coordination, easement acquisition, parcel mapping, and project management and administration services. The team established ownership for 272 parcels, acquired easements for 167 parcels, and prepared supporting plats, legal descriptions, and ROW mapping. An integrated ROW, survey, and GIS approach streamlined acquisition efforts, improved communication, and accelerated project delivery.

Personnel Involved. Josh Canuteson (Principal), Diane Molina (Negotiation Agent), Michael Staines (Title Curative), Abel Garcia (Title Curative), Robert Duran (Negotiation Agent)

CITY OF CEDAR PARK

Chris Brickey, PE | Capitol Projects Manager | 512.401.5351 | chris.brickey@cedarparktexas.gov

Bell Boulevard Realignment. (2019 - 2021) CobbFendley provided ROW and easement acquisition services for the City of Cedar Park's realignment of Bell Boulevard (US 183) in coordination with TxDOT. The project shifted the roadway onto Old Highway 183 and included a new 4-lane divided roadway with a raised median, lighting, and pedestrian and bicycle paths. CobbFendley acquired the necessary ROW, facilitated the relocation of five nonresidential displacees per the Uniform Act, and supported the ROW transfer to TxDOT.

Personnel Involved. Josh Canuteson (Principal)

VIA METROPOLITAN AUTHORITY

Abigail Kinnison | Director of Real Estate + Capital Amenities | 210.362.2564 | abigail.kinnison@viainfo.net

Advanced Rapid Transit - Green Line Real Estate Services. (2024 - 2026) CobbFendley provided ROW services for VIA's Advanced Rapid Transit Green Line in San Antonio, supporting the acquisition of up to 230 parcels. Our responsibilities included project management, title curative, negotiations, pre-condemnation services, and the preparation of acquisition and legal documentation, while coordinating with property owners and supporting VIA Legal Counsel through condemnation package development.

Personnel Involved. Josh Canuteson (Project Principal/Manager, Julia Mock (Deputy Project Manager + Negotiation Agent), Diane Molina (Negotiation Agent), Robert Duran (Negotiation Agent), Cullen Eastland (Negotiation Agent), Michael Staines (QA/QC Manager), Jocelyn Sandoval (Project Coordinator)

Firm Stability Statement

CobbFendley has been in business for more than 46 years and has **steady financial stability and growth** at a consistent rate. CobbFendley's profitability and growth has qualified our firm to be named a "**Zweig Group Hot Firm**," an award which celebrates the fastest-growing architecture, engineering, and environmental consulting firms in the United States. In addition, CobbFendley is consistently listed in the **Engineering News Record** (ENR) list of Top 500 Design Firms, which ranks firms based on previous-year revenue numbers.

5. Insurance

CobbFendley is providing a copy of our Certificate of Liability Insurance which includes the types and amounts of insurance we carry, including General Liability, Auto Coverage, Worker's Compensation, and Professional Liability Coverage.

5. Insurance

CLAIMS

CobbFendley considers insurance and legal matters confidential. A high-level overview of our claims history over the past five years is provided below.

- **Claim settled 2024** - CobbFendley provided design services for an underground electrical duct bank to a new residential development. A portion of the duct bank was designed/constructed outside of the client's designated easement. The client claimed the entire cost of relocating the duct bank was the responsibility of CobbFendley.

6. Professional Services Agreement

REQUESTED EXCEPTIONS

CobbFendley has reviewed the sample Professional Services Agreement and will meet the prerequisite insurance requirements. We understand that the City of Edinburg has standard terms and conditions and that you may not want to enter into protracted negotiations with your consultants. CobbFendley is submitting exceptions that we would like to discuss upon selection. This allows for negotiations of the terms and conditions and that is often informative for both parties. Further, CobbFendley is generally able to negotiate contract language to the mutual agreement and benefit of both parties when working with our clients during negotiations. CobbFendley respectfully requests consideration of the following exceptions to the sample Right of Way Acquisition Services Agreement.

SECTION IV. RESPONSIBILITIES OF CONSULTANT

B. Request to revise: "Consultant shall perform its services ~~*with care, skill, and diligence,*~~ in accordance with the ~~*applicable professional standards currently recognized by its profession,*~~ *professional skill and care ordinarily provided by competent members of Consultant's profession and license currently practicing in the same or similar locality under the same or similar circumstances, as expeditiously as is consistent with such professional skill and care and the orderly progress of the project ("Standard of Care")*, and shall be responsible for the professional quality, technical accuracy, completeness, and coordination of all reports, plans, information, and other items and Services furnished under this Agreement. Consultant shall *exercise usual and customary professional care in its efforts to* comply with all applicable federal, state, and local laws, ordinances, codes, and regulations in *effect while* performing the Services. If Consultant fails to meet ~~*applicable professional standards*~~ *the Standard of Care*, Consultant shall without additional compensation correct or revise any errors or deficiencies with or without request to do so by the City.".

J. Request to insert: "All reports, drawings, plans, and other documentation pertaining to the Services become the property of City *upon payment to Consultant for all services rendered*.".

SECTION V. PAYMENT AND FEES

B.a. Request to insert: "Claims have been made against City based on Consultant's conduct in the performance or furnishing of Services, or City has incurred costs, losses, or damages resulting from Consultant's *negligent or intentional* conduct in the performance…".

B.f. Request to insert: "Any Services are defective, *subject to the Standard of Care*, requiring correction or replacement;".

B.g. Request to insert: "City has been required to correct defective Services or has accepted defective Services *that do not meet the Standard of Care*;".

B.h. Request to insert: "Liens have been filed in connection with the Services *for which Consultant has previously been paid;* or".

B.i. Request to insert: "Other *reasonable* items entitle City to a set-off against the payment amount.".

SECTION VI. TERM OF AGREEMENT

D. On line 4, request to revise: "…including copies thereof, ~~*whether*~~ prepared by ~~*Consultant or others*~~ *City*, in Consultant's possession and related to the Services.".

SECTION VII. MINIMUM INSURANCE REQUIREMENTS

D. Request to delete in entirety.

F. Request to insert: "Evidence of the above insurance coverage is attached as Exhibit "B" and the City of Edinburg shall be listed as an additional insured*, except for Workers' Compensation and Professional Liability*.".

H. On line 3, request to revise: "…on which each such policy is required to be first obtained and at least ~~*fifteen (15)*~~ *five (5)* days before the expiration of any policy…".

I.1. Request to revise: "To punctually pay or cause to be paid all premiums and other sums payable under each insurance policy required to be obtained, kept, and maintained pursuant to this ~~Lease~~ *Agreement*;".

I.4. Request to revise: "Not, at any time, to take any action (or omit to take action) which action (or omission) would cause any insurance policies required to be obtained, kept, and maintained under this ~~Lease~~ *Agreement* to…".

SECTION X. INDEMNIFICATION

A. Request to revise: "To the maximum extent allowed by law, Consultant agrees to and shall indemnify, hold harmless, and defend City, its officers, agents, and employees from ~~any all~~ claims, losses, causes of action and damages, suits and liability ~~of every kind~~, including all *reasonable* expenses of litigation, court costs, and *reasonable* attorney's fees for injury to or death to any person or for damage to any property, ~~arising out of or directly connected with~~ *to the extent caused by* the negligent or willful conduct of Consultant, its agents, officers and employees, ~~carried out in furtherance of~~ *during the performance of the Services under* this Agreement.".

B. Request to insert: "Consultant agrees to assist City in defense of claims or litigation brought against the City related to this project, including any claims related to design or any other services provided by consultant regarding this agreement, *caused by Consultant's negligent acts or omissions*.".

SECTION XI. LIMITATION OF LIABILITY

A. On the second sentence, request to revise: "~~Consultant agrees~~ *The parties agree* that ~~City~~ *neither party* will ~~not~~ be liable *to each other* for any indirect, incidental, special, or consequential punitive or multiple damages…or of any other obligations relating to this Agreement, even if ~~City has~~ *the parties have* been advised of the possibility of such damages.".

On the third sentence, request to revise: "The foregoing limitation of liability shall apply to the maximum extent allowed by law for limitation of ~~City's~~ *the parties'* liability, regardless of the cause of action under which such damages are sought.".

SECTION XX. NO WAIVERS OR ACCORD AND SATISFACTION

B. On line 4, request to revise: "…agreements under this ~~Lease~~ *Agreement*, shall operate as a waiver, discharge, or…".

SECTION XXI. NOTICE OF GOVERNING LAW FOR STATE AND FEDERAL GRANT PROJECTS

Request to revise: "The Consultant agrees to *exercise usual and customary professional care in its efforts to* abide by all applicable laws and regulations *in effect during Consultant's performance of its Services* and to make all applicable records and other documentary data available at any time for the purpose of an audit and to ~~ensure~~ *use customary efforts to remain in* compliance with relevant State and federal laws…".

7. Contact Information

Your Project Contacts

PROJECT MANAGER + PROJECT PRINCIPAL

JOSH CANUTESON, SR/WA, R/W-NAC

jcanuteson@cobbfendley.com

972.499.7429

EXPERIENCE + RESPONSIBILITIES

The team will be led by Mr. Canuteson, who will serve as the **primary point of contact** and liaison between the City of Edinburg and the CobbFendley team. He brings more than **21 years of experience** with working throughout Central and South Texas and will respond quickly to project or scope requests. Mr. Canuteson's project management style is centered on communication and creating efficiencies. Therefore, all members of the project team, including City personnel, will be engaged and involved in significant decisions in a timely manner to keep the City's projects moving forward. In addition to meetings with the City, project communications will be in the form of bi-weekly updates outlining project progress, important decisions, needs from the City, upcoming deliverables, and schedule.

CLIENT MANAGER

HOMER BAZÁN, PE, LGPP

hbazán@cobbfendley.com

1. TRANSMITTAL LETTER

July 14, 2026

RE: RFQ 2026-2: Right of Way Acquisition Services

To the City of Edinburg Decision Committee,

Contract Land Staff, LLC (CLS), is pleased to submit this response to **the City of Edinburg's (the City's) Request for Qualifications (RFQ) for Right of Way Acquisition Services.** We appreciate the opportunity to present our credentials for your consideration, affirming our interest in and ability to perform the services required. We have carefully reviewed the RFQ and thoroughly understand the scope of work detailed therein. No addenda have been issued and are therefore not included in this response.

Founded in 1985, CLS has a rich history of successful right of way (ROW) project work throughout the state of Texas. We have the proven expertise, substantial experience, established processes and procedures, modern technology, and staff to assist the City in successfully securing necessary property rights in the most expedient and cost-efficient manner. **Over the last 41 years, the company has become an industry leader** by focusing on quality, teamwork, technology, training, and project planning. We will work diligently on your behalf, with a commitment to understanding the character and specific goals of your project. Our aim is to always bring **open communication and resourcefulness to each task**, enabling us to work closely with your staff to successfully execute all projects.

The team we have assembled brings myriad qualifications and applicable experience, having completed many projects in the state of Texas for Cities, Counties, and the Texas Department of Transportation (TxDOT). In addition to being headquartered in Texas, our agents have the immediate availability to begin work for the City on a moment's notice**.** They are presented herein, with resumes included. While our nearest office is currently in San Antonio, **if awarded the contract, CLS would be willing to open an office in Edinburg.** As your trusted consultant, CLS recognizes that our primary purposes are to perform compliant work, deliver innovative solutions, effectively manage the contract, and ensure follow-through on our team's commitments, while maintaining a high standard of ethics and professionalism. **Thank you for considering CLS!**

Sincerely,

R. David Bell, SR/WA
SVP, Public Infrastructure
2245 Texas Drive, Suite 200 | Sugar Land, TX 77479 (Fort Bend County)
Mobile: (850) 206-3139
david.bell@contractlandstaff.com

R. David Bell is an officer with Contract Land Staff who is authorized to contractually bind the firm.

2. FIRM QUALIFICATIONS & EXPERIENCE

The CLS team is highly experienced in infrastructure projects and is dedicated to developing strong and long-lasting relationships with public agencies, cities, counties, and communities in which we live and work. We have consistently succeeded in acquiring property interests to support numerous projects in the public sector, such as roadways, parks, transit systems, airports, and water and wastewater improvements. In addition, we have accomplished the relocation of displaced property owners because of such projects.

We will work diligently on your behalf with a commitment to understanding the character and the specific goals of your project. Our aim is to always bring open communication and resourcefulness to each task, enabling us to collaborate closely with your staff in order to successfully execute all projects.

As your Consultant, Contract Land Staff recognizes that our primary purposes are to:

- ✓ Perform all work according to our client's goals and direction and in compliance with applicable federal, state and city laws and regulations
- ✓ Deliver innovative solutions with a high standard of ethics and professionalism
- ✓ Effectively manage the contract, budget, and schedule
- ✓ Ensure follow-through on our team's commitments
- ✓ Professionally and successfully acquire the rights you need to complete your project!

Our work and roles ultimately interface with the public on projects. CLS is sensitive to the human and political aspects of the projects we undertake. Our invaluable project planning and feasibility study expertise along with our unmatched project execution experience affords our clients a wealth of knowledge and hard-earned, practical, on-the-job "know-how." We are experts in evaluating and working with landowners, landowner coalitions, regulatory agencies and the seemingly endless variety of special situations that must be overcome during the course of any project.

CLS is an industry leader in the development and implementation of standardized processes and procedures. Our team understands each project is unique, based on the risks and constraints specific to each project. CLS has focused on creating, supporting, and enforcing sound policies, which equips agents with the information and processes necessary to aid in their success, as consistent communication and adherence to company, client and project policies and procedures are key to achieving a successful project.

What Sets CLS Apart?

Project Delivery Program

Our operational strategy relies on a continuous, cross-functional delivery model. By separating land services into distinct specialized tracks, our team moves parcels from initial audit to final acquisition without bottlenecking project momentum.

Phase A: Title Research & Valuation Setup

- **Data Integration & Appraisal Management:** Review parcel data against updated DCAD land values, zoning boundaries, and regional planning maps to isolate potential ownership conflicts early while coordinating the preparation of independent appraisal reports.
- **Title Commitments:** Order comprehensive title commitment reports to formally verify underlying ownership, liens, and structural encumbrances.

- **Regional Protocols:** Establish communication protocols with municipal partners and regional stakeholders to cross-verify any relevant adjacent designs.

Phase B: Public Relations & Landowner Acquisition

- **Field Outreach & Negotiations:** Initiate face-to-face meetings with property owners to present donation or purchase options, hand-delivering the mandatory Texas Landowner's Bill of Rights per Texas Property Code Chapter 21.
- **Uniform Act Offers:** Execute subsequent negotiation rounds and present formal land valuation offers in strict alignment with Uniform Act and TxDOT LPA guidelines.
- **Title Curative:** Work directly with landowners to clear minor title exceptions, line disputes, or outstanding liens concurrently with the active negotiation window.

Phase C: Instrument Execution & Legal Handoff

- **Document Delivery:** Draft and deliver binding Memorandums of Agreement, clear Warranty Deeds, and final easement signatures directly to City staff.
- **Quality Review:** Verify all legal descriptions within the draft deeds and easements match the engineering plans exactly to eliminate property boundary errors prior to recording.
- **Valuation Archiving:** Finalize and archive all ROW and easement transfers to clear sites entirely for construction, providing full grant-compliant documentation to the City.
- **Administrative Handoff:** Coordinate independent certified appraisals for any unresolved or non-compliant parcels, providing comprehensive valuation reporting defensible before Court-appointed Special Commissioners if administrative eminent domain proceedings become necessary.

Ability to Meet Schedules & Deadlines

Quality Control & Assurance

Our communication structure includes **weekly meetings among the internal team to ensure key personnel stay apprised of the overall project and individual assignments**. Regular topics include project progress, review of budgets, and identification of action items to meet milestones and reach 100% construction completion. This is in addition to the kickoff meeting that occurs immediately upon contract signage and sets the tone, direction, and accountability for the entire project.

Our quality assurance/quality control process will include an up-front review of current City policy to ensure that **all procedures meet the appropriate regulations and guidelines**. All program expenditures must be documented, verified, and consistent with the Uniform Act and any funding-specific requirements. CLS will monitor project deliverables to ensure they comply with the City's established policies and procedures and Federal guidelines, if and when necessary.

Progress Reports

Our goal is to balance quality and value, and to offer our clients choices. Our monitoring includes recording and forecasting project costs, comparing those costs against the authorized budget, identifying deviation, and taking appropriate corrective action. **We carefully evaluate each potential scope change for impact on cost performance.** We keep our clients apprised of both potential cost increases and savings so that we can jointly determine the desired course of action.

The project controls effort begins with a baseline schedule and budget to measure performance. Once the project begins, the cost estimate is fixed as the Original Budget. At the end of each month, CLS will reconcile the Original Budget to the Actual Budget. This reconciliation is intended to **keep everyone up to date on the project, to keep the project schedule reflecting the latest changes, and to periodically update the budget accordingly.**

On a weekly basis, a report on the project is issued, utilizing metrics in a chart format that indicates the total number of parcels. The report will also track major milestones during the title, acquisition, and construction phases. The weekly report is a week-long snapshot of the current status of the project. On a monthly basis, the project is reviewed and forecasted so that we have a forecast at completion for each activity. The forecast at completion is then compared to the current working budget, giving a variance that is then analyzed and reviewed to make sure there are no concerns that need to be addressed in any given area.

These variances indicate potential areas of note that should be monitored closely as the project progresses, and actions will be taken as necessary to correct the situation. **Each phase of the project, including survey permitting, title and acquisition, is tracked through trend charts**, which give a quick visual representation of where the project is headed.

Translation Services
It is estimated that more than 160 different languages are spoken in Texas. CLS's belief that all Texas landowners must be treated fairly and respectfully also includes clear communication. All of our proposed Right of Way staff members are bilingual in English and Spanish, uniquely positioning them to interact with the vast majority of property owners in Edinburg. Should translation be needed for other languages, CLS has the ability to coordinate such services.

Data Management
CLS provides project support through our Data Solutions team that is comprised of administrative and technical support staff. The Data Solutions team has been supporting CLS projects in a multitude of ways since 2004. The team has evolved since its inception, from being a data entry team to a complete support department staffed with administrative and technical employees sharing a common commitment to serving both internal and external CLS customers. Data management is one of the single largest demands in today's modern world, and from data capture to data tracking, the CLS team has been involved in the following aspects of data management:

Data Administration:

- Document generation
- Stakeholder letters and forms
- Acquisition documents
- Stakeholder outreach via mail outs
- Open house presentations
- Administrative support including staffing and training
- Management of training programs for project personnel
- Field office set-up management in coordination with facilities staff
- Management and staffing of projects from the corporate office

Data Management Services:

- Creation of initial parcel lists for the project, inputting tax roll data, legal descriptions, and contact information
- Implementation and planning of new data due to reroutes
- Vesting and marketable title data entry into CLSLiNK or other databases
- Executed agreement upload and data capture
- Check and payment obligation management
- Quality assurance audits/assessments on projects – desktop and physical

Technical Support Services:

- CLSLiNK administrative functions management
- Setup and maintenance of permission groups
- Project reporting support
- Delivery of scheduled project reporting
- Custom report development and configuration
- Requirements gathering for new report requests
- GIS viewer application support and training
- SharePoint design, implementation, and support
- SQL server scripting to assist with mass data manipulation
- Data imports and exports for CLS projects
- Toll-free number set up and monitoring

Prior Project Experience with the City of Edinburg

TxDOT Pharr District, SH 68 (IH2 to IH69) Hidalgo County, TX CSJ 3629-01-003 106

Provided relocation services for 115 parcels in Hidalgo County, Texas. The proposed SH 68 project is described in the Metropolitan Transportation Plan (MTP) and the Statewide Transportation Improvement Program (STIP) as a four-lane divided rural highway with future main lanes and overpasses in eastern Hidalgo County from US 83/IH-2 to US 281/IH-69C. The proposed project described in the MTP and STIP has a total project length of approximately 22 miles. Municipalities within the study area include the cities of Alamo, Pharr, Donna, Edinburg, San Juan, and San Carlos. The purpose of this project is to accommodate regional population growth, relieve congestion on existing north–south corridors, and improve hurricane evacuation capacity. Project began in 2025 and is ongoing.

Other Prior Project Experience

City of San Antonio, South Zarzamora Street, San Antonio, Texas

Provide project management, acquisition, and relocation services for 21 parcels that included restaurants, a meat processing plant, an autobody shop, a car sales lot, a residential home, a food warehouse, and a convenience store. As part of the realign of South Zarzamora including redesigning a bridge. The City of San Antonio and TxDOT are working together to realign South Zarzamora Street from US 90 to Jennings Avenue to construct a grade separation over the Frio City Road/Kirk Place and Union Pacific Railroad (UPRR) intersection in San Antonio, Bexar County, Texas. Project began in 2024 and is ongoing.

TxDOT Pharr District, FM 2220 (Ware Road), Hidalgo County, Texas

Provided relocation services for twelve parcels located in Precinct 4 of the City of McAllen the purpose of the project is to widen Ware Road from two lanes to six lanes for a distance of 5.4 miles from FM 1925 to Mile 5 Road to improve safety and mobility including drainage. Project began in 2023 and will be completed in 2026.

TxDOT Pharr District, State Loop 195, Starr County, Texas 2022-2023
Provided relocation services for five parcels on three segments of a 17.24 mile corridor from FM 755 to US 83 estimated construction cost of $209 million. Improve safety, mobility, and connectivity by providing a new 4 lane divided highway between Rio Grande City and Roma, TX. Project ran 2022-2023

San Antonio Water Systems (SAWS) – Sewershed Projects

- **BPC West Sewershed Package 5B** – Approximately 3.4 miles of large diameter (10-inch through72 inch) sewer mains that were rehabilitated via Cured in Place Pipe (CIPP) and Open Cut methods. ROW Services included project management, a combination of Right-of-Entry agreements & Notification Letters for 58 parcels, and title curative. Project commenced January 2022. Completed November 2022.
- **SAWS Multiple Sewershed Package 16B** – Rehabilitated pipe at multiple locations through the City in poor condition via pipe-bursting and open cut which were the suggested remedial methods due to pipe condition, utility conflicts and location of pipes. ROW Services included project management, Right-of-Entry agreements for 19 parcels, and title curative. Project commenced November 2021. Completed April 2022.
- **SAWS Multiple Sewershed Package 17B** – Rehabilitated pipe at multiple locations through the City Pipe-burst and Open Cut which are the suggested remedial methods due to pipe condition, utility conflicts, and location of pipes. ROW Services included project management, a combination Right-of-Entry agreements & Notification Letters for 40 parcels, and title curative. Project commenced September 2021. Completed March 2022.
- **SAWS Multiple Sewershed 18 Project** – Approximately 3.4 miles of large diameter (10 inch through 72 inch) sewer mains that were rehabilitated the sewer mains pipe via Cured in Place Pipe (CIPP) and Open Cut methods. ROW Services included project management, a combination Right-of-Entry agreements & Notification Letters for 39 parcels, and title curative. Project commenced February 2021. Completed February 2022.
- **BPC Central Sewershed 6** – Approximately 3.4 miles of large diameter (10-inch through72 inch) sewer mains that were rehabilitated via Cured in Place Pipe (CIPP) and Open Cut methods. ROW Services included project management, Right-of-Entry or 20 parcels, and title curative. Project commenced July 2021. Completed February 2022.
- **SAWS BPC Sewershed 4B** – Rehabilitated approximately 5,484 linear feet of 8-inch to 24-inch sewer mains via open cut and pipe bursting methods. ROW Services included project management, Right-of-Entry or 27 parcels, and title curative. Project commenced April 2021. Completed December 2021.
- **SAWS 2020 SSORP CMOM Package 1 (LD)** – Rehabilitated pipe at multiple locations through the City via poor condition via Cure in Place Pipe (CIPP) and Jack and Bore methods which were the suggested remedial methods due to pipe condition, utility conflicts and location of pipes. ROW Services included project management, a combination Right-of-Entry agreements & Notification Letters for 24 parcels, and title curative. Project commenced April 2021. Completed December 2021.
- **BPC East Package 3** – Rehabilitated pipe at multiple locations throughout the City via cured-in-place pipe, pipe bursting or open-cut methods which are the suggested remedial methods due to pipe condition, utility conflicts, and location of pipes. ROW Services included project management, a combination of Right-of-Entry agreements for 2 parcels, and title curative. Project commenced September 2021. Completed November 2021.
- **SAWS Multiple Sewershed 16A** – Rehabilitated pipe at multiple locations through the City via Cured in Place Pipe (CIPP) trenchless method, which were the suggested remedial methods due to pipe condition, utility conflicts, and location of pipes. ROW Services included project management, a

combination Right-of-Entry agreements & Notification Letters for 33 parcels, and title curative. Project commenced November 2020. Completed May 2021.

Texas Central Railroad and Infrastructure, Inc. – Texas Central High-Speed Rail

240-mile dual track high speed rail project between Dallas and Houston. ROW services include the entirety of the title and acquisition work, coordinating survey work with the client in the field, obtaining appraisals through a third party for offers and eminent domain, supporting eminent domain efforts and relocation where required, and extensive GIS services and CLSLiNK and GIS Viewer implementation. 4,000 tracts were researched by CLS on three separate mainline routes as study parcels, with 1,850 needing to be acquired for rail and supporting facilities. Project began in summer 2015. Assignments were completed in June 2022.

Freese & Nichols – New Braunfels Utilities – Bretzke Phase 2 Water Main Project

The Bretzke Phase 2 pipeline extends from a new water storage tank at Bretzke Lane and FM 306 to NBU pipelines at Waterway Lane and provides required potable water storage and capacity to NBU's Downtown Pressure Zone. This project included title curative, Right of Entry acquisition and the acquisition of 18 temporary and permanent waterline easements. Work began in August 2019 and completed in December 2020.

Freese & Nichols – New Braunfels Utilities – North Kuehler Interceptor Sanitary Sewer Line Project

The North Kuehler 30-inch and 33-inch interceptor projects included approximately 14,000 LF of sanitary sewer mains to include two aerial crossings, instances in which pipes are either attached to bridges or suspended on pylons, two Union Pacific Railroad crossings utilizing micro-tunneling, and one "jack and bore" installation, a process where short segments of pipe are mechanically driven through stable ground without the need for digging an open trench under Texas Department of Transportation's right-of-way. CLS provided Right of Entry, appraisal, and easement acquisition services for approximately 23 parcels in connection with this sewer line replacement project. Project began in March 2019 and completed in January 2021.

Tetra Tech/Harris County Community Services Department – Post Disaster Relocation and Buyout Program

CLS provided project management and relocation management for the Harris County Post Disaster Relocation and Buyout Program using Hurricane Harvey US HUD Community Development Block Grant funds. CLS led the team of consultants to complete the acquisition of and identify the relocation needs for 400+ landowners, including meeting with mobile home community owners and tenants to explain URA relocation benefits and qualify the displacees for incentive funds to encourage them to move from the floodway along Greens and Halls Bayou in Harris County. Challenges included language barriers for mobile home communities wherein the tenants were Vietnamese and Hispanic. Many of the Hispanic tenants were undocumented, and CLS worked with the County to build trust to ensure the tenants understand their rights and benefits under the URA and HUD. Our Relocation Manager worked diligently with the five mobile home community owners to obtain the rent roll to facilitate contacting the tenants and encouraging them to stay in place until the owner receives the offer, to ensure they do not lose their entitlements. The program included approximately 25 commercial businesses, including an auto salvage yard. CLS's Project Manager worked with State of Texas General Land Office (GLO) staff imbedded at the County on a daily basis to coordinate eligibility, acquisition, relocation, and case file closeout issues to ensure compliance with both HUD and GLO processes. Work commenced in June 2020 and completed August 2024.

Kimley-Horn and Associates, LLC (City of Waco) – Ritchie Road Realignment Project, Waco, TX
Acquisition of rights of way for 17 parcels and additional drainage easements for this road widening project that traverses a densely populated area in Waco, TX. Services included obtaining temporary rights of entry, title commitments, title curative work, landowner negotiations and acquisitions, and coordination of closings. CLS also participated in related public meetings. Completed in September 2016.

Central Texas Regional Water Supply Corporation (Pape-Dawson Engineers/Ardaga & Associates) – Vista Ridge Pipeline
142-mile water pipeline from Burleson to Bexar County, Texas. CLS is responsible for 150 tracts crossing Burleson, Lee, and Walker Counties. ROW services include right of entry, title curative, lien subordination, document preparation, ROW easement acquisition, and easement payments. CLS has encountered two political action committees opposed to the project and is successfully navigating those interactions by demonstrating cultural sensitivity. Completed in February 2018.

TxDOT Zapata Airport Extension Project, Zapata, TX
This project involved extending the airport runway and related improvements. ROW services included the relocation advisory and assistance for 1 parcel. Commenced in November 2019 and completed in April 2021.

Office Location and Approach to Staffing

If awarded this contract, CLS is willing to open up an office in Edinburg. Until then, the closest office that will be performing work is located at 1100 NW Loop 410, Ste 700 | San Antonio, TX 78213.

In addition to our immediately available local staff, **CLS consists of more than 750 ROW professionals, ensuring all projects proceed without delay**. Our deep bench ensures that part-time or smaller assignments can and will be handled with the same efficiency and care of larger assignments.

3. TEAM MEMBER QUALIFICATIONS & EXPERIENCE

Please find resumes for our proposed personnel on the following pages. For subconsultants, we have chosen to team with Brad Bujan, MAI of CBRE for Appraisal, as well as Jeff Rutherford, SR/WA, R/W-AC of Rutherford Real Estate for Appraisal Review.

CHRISTIE SAENZ CFM, SR/WA, R/W-RAC
Senior Director

Christie has over 30 years of experience in real estate services, working with government agencies and engineering firms on a wide range of projects. Her ability includes internal audits, scope development, commercial and residential relocations, and acquisition of various easements and rights of way. She has managed over 1,000 parcel acquisitions and 400 relocations under the Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA), with project budgets reaching up to $13 million.

Her bilingual fluency in Spanish has been instrumental in building trust and communication with diverse communities.

2024-Present
City of San Antonio, South Zarzamora, San Antonio, TX
- City of San Antonio and TxDOT are working together to realign South Zarzamora from US 90 to Jennings Ave to construct a grade separation over the Frio City Rd and Union Pacific Railroad intersection to improve public safety.
- Provided project management and acquisition services for twenty-two parcels and relocation services for twelve displaced under the URA.

2024-Present
TXDOT - Houston District, FM 1488, Montgomery County, TX
- Provide project management, negotiations for acquisition, relocation, real estate appraisal and appraisal review, title research and title curative, eminent domain proceedings including coordinating and attending special commissioner's hearings for thirty parcels. The purpose of this project is to improve mobility spanning from FM 1488 to Proposed SH 249 (RCSJ 0523-07-003).

2023-2025
TXDOT - Austin District, US 281 near FM 1431, Burnet County, TX
- Provided project management, negotiations for acquisition, real estate appraisal and appraisal review, title research and title curative, relocation aid, eminent domain proceedings including coordinating and attending special commissioner's hearings for four commercial parcels.
- The purpose of the project is to provide a right turn lane at the busy intersection and to alleviate traffic congestion.

2022-2025
City of Denton, Denton Municipal Electric (DME), Spencer to Locust Transmission Line, Denton, TX
- Provided relocation services for three mobile homes within the new electrical easement.
- Acquired several easements for the reconstruction of existing transmission line for DME.

2023-2024
City Of Sherman – Northwest Southwest Transmission Pipeline, Sherman, TX
- Provide residential relocation services for the property affected by the construction of the 36" water transmission pipeline project. The design and construction of a 36" water transmission line from Water Treatment Plant, found south of State Highway 691 along La Cima Road to Shepherd Drive approximately 73,000 linear feet. Estimated Cost $76.2 million.

2023-2024
City Of Buda, Garison Park Development, Buda, TX

- Acquisition services for two tracts of land for park project consisting of 4.5 acres for the development of Phase 1 which includes the parking areas, trails, water access headquarters, and prairie land restoration.
- Future phases of the project would include the construction of a nature center and restoration of the McCaughan homestead, estimated construction - $12.6 million.

2023-2026
TxDOT - Houston District, SH 75, Montgomery County, TX

- Provide project management, negotiations for acquisition, real estate appraisal and appraisal review, title curative, and eminent domain proceedings for 11 parcels.
- TxDOT is proposing to widen this two-lane roadway to a four-lane divided roadway with curbs and gutters providing drainage for stormwater and adding sidewalks.
- The purpose of this project is to improve mobility since the City of Conroe is projected to experience significant growth over the next 10 years and increased congestion is anticipated along SH 75 from FM 3083 in Conroe to Willis just north of FM 2432, approximately 4.9 miles.

2023-Present
TXDOT - Pharr District, FM 2220 (Ware Rd), Hidalgo County, TX

- Provided relocation services for 12 parcels located in Precinct 4 of the City of McAllen the purpose of the project is to widen Ware Road from 2 lanes to 6 lanes for a distance of 5.4 miles from FM 1925 to Mile 5 Road to improve safety and mobility including drainage.

2024-2026
Bexar County Public Works, Cagnon Road, Bexar County, TX

- Design and construct improvements for a drainage project with an estimated construction cost of $17 million.
- The project length is 1.26 miles which includes replacing the existing low water crossing with a new bridge and road alignment at the Medina River crossing. The bridge will be capable of passing the 100-year storm.

2024
City of Waco, TX, Drainage Pipes/Sinkhole

- Provide relocation assistance on behalf of the City of Waco due to an emergency. Provided advisory services, housing supplements, moving, and incidental claim assistance.

2024-Present
Bexar County Public Works, Heuermann Low Water Crossing Bridge, San Antonio, TX

- This is a flood control project that will consist of raising the low water crossing with concrete box culverts at the Heuerman Rd and Maverick Creek Tributary 6. This project will also widen Heuermann Road. Estimated construction cost - $1.5 million.

2015-2016
Kerr County, East Kerr County Wastewater Collection System, Centerpoint, TX

- Provided right of way services for the acquisition of land and/or easements for approximately 75 parcels in Kerr County for the construction of a 33-mile wastewater collection system. Right of way services included coordination with the Texas Water Development Board on policies and procedures, project management, donations, negotiations services, community meetings, title curative services, appraisal services and closing services. The total project cost is approximately $47 million dollars.

Juan has more than 15 years of real estate and negotiation experience. Most of his right of way career is comprised of acquiring land for the Texas Department of Transportation and local government agencies. Juan's experience includes the acquisition of right of way, natural gas easements, electric easements, temporary construction easements/permits and right of entry for survey work. Juan is working on obtaining is relocation certification and is bilingual in Spanish.

2023-2026
TxDOT - Houston District – Montgomery County, TX
SH 75
- Provide project management, negotiations for acquisition, real estate appraisal and appraisal review, title curative, and eminent domain proceedings for 11 parcels.
- TxDOT is proposing to widen this two-lane roadway to a four-lane divided roadway with curbs and gutters providing drainage for stormwater and adding sidewalks.
- The purpose of this project is to improve mobility since the City of Conroe is projected to experience significant growth over the next 10 years and increased congestion is anticipated along SH 75 from FM 3083 in Conroe to Willis just north of FM 2432, approximately 4.9 miles.

2023-Present
TXDOT - Pharr District – Hidalgo County, TX
FM 2220 (Ware Rd)
- Provided relocation services for 12 parcels located in Precinct 4 of the City of McAllen the purpose of the project is to widen Ware Road from 2 lanes to 6 lanes for a distance of 5.4 miles from FM 1925 to Mile 5 Road to improve safety and mobility including drainage.

2024-2025
City of San Antonio – San Antonio, TX
South Zarzamora
- City of San Antonio and TxDOT are working together to realign South Zarzamora from US 90 to Jennings Ave to construct a grade separation over the Frio City Rd and Union Pacific Railroad intersection to improve public safety.
- Provided project management and acquisition services for 22 parcels and relocation services for 12 displacees.

2023-2025
TxDOT - Austin District – Marble Falls, TX
US 281
- Provide acquisition and condemnation services for multiple businesses including a strip center, restaurant, and convenience store.
- The purpose of the project is to provide a right-turn lane in the busy intersection of US 281 and FM1431 to alleviate traffic congestion in the area.

2019
TxDOT - San Antonio District – Converse, TX
FM 1516
- Negotiated approximately 20 parcels of right of way starting at IH 10 to FM 78 in Bexar County, Texas. The project increased the roadway from a two-lane highway to a four-lane highway to improve safety.

2015-2016
Kerr County – Centerpoint, TX
East Kerr County Wastewater Collection System

- Provided right of way services for the acquisition of land and/or easements for approximately 75 parcels in Kerr County for the construction of a 33-mile wastewater collection system.
- The total project cost is approximately $47 million dollars.
- Right of way services included coordination with the Texas Water Development Board on policies and procedures, project management, donations, negotiations services, community meetings, title curative services, appraisal services and closing services.

2025- Present
TxDOT Pharr District - CSJ 3629-01-003 - SH 68 (IH2 to IH69) Hidalgo County, TX
Provided relocation services for 115 parcels in Hidalgo County, Texas. The proposed SH 68 project is described in the Metropolitan Transportation Plan (MTP) and the Statewide Transportation Improvement Program (STIP) as a four-lane divided rural highway with future main lanes and overpasses in eastern Hidalgo County from US 83/IH-2 to US 281/IH-69C. The proposed project described in the MTP and STIP has a total project length of approximately 22 miles. Municipalities within the study area include the cities of Alamo, Pharr, Donna, Edinburg, San Juan, and San Carlos. The purpose of this project is to accommodate regional population growth, relieve congestion on existing north–south corridors, and improve hurricane evacuation capacity.

Jorge has over 19 years' experience managing, analyzing, and improving operations across multiple departments and programs including development of policies and procedures, right-of-way acquisitions, relocation, and management. Oversaw administrative key projects to ensure deadlines were fulfilled by consultants. Managed customer service operations and maintained accounting records and invoices in addition to supervising and training staff. Jorge is bilingual in Spanish.

2024-Present
City of San Antonio – San Antonio, TX
South Zarzamora Street

- Provide relocation assistance for multiple businesses including a restaurant, a processing meat plant, a used car lot, auto repair shop, a warehouse, a residential home, and a business office.
- The proposed project would realign South Zarzamora Street from US 90 to Jennings Avenue to construct a grade separation over the Frio City Road/Kirk Place and Union Pacific Railroad (UPRR) intersection in San Antonio, Bexar County, Texas.

2023-2026
TxDOT - Houston District – Montgomery County, TX
SH 75

- Provide project management, negotiations for acquisition, real estate appraisal and appraisal review, title curative, and eminent domain proceedings for eleven parcels.
- TxDOT is proposing to widen this two-lane roadway to a four-lane divided roadway with curbs and gutters providing drainage for stormwater and adding sidewalks.
- The purpose of this project is to improve mobility since the City of Conroe is projected to experience significant growth over the next 10 years and increased congestion is anticipated along SH 75 from FM 3083 in Conroe to Willis just north of FM 2432, approximately 4.9 miles.

2023-2025
TxDOT - Austin District – Marble Falls, TX
US 281

- Provide relocation assistance for multiple businesses including a strip center, restaurant, and a convenient store with gasoline tanks.
- The purpose of the project is to provide a right-turn lane in the busy intersection of US 281 and FM1431 to alleviate traffic congestion in the area.

2023-2024
City of Denton - Denton Municipal Electric – Denton, TX
IH 35 Billboard Relocation

- Assisting DME with relocating the fifteen' back billboards within the shopping center to accommodate utility relocation and as part of the TxDOT IH 35 at Loop 288 expansion project.

2024
City of Waco
Drainage Pipes/Sinkhole

- Provide relocation assistance on behalf of the City of Waco due to an emergency. Provided advisory services, housing supplements, moving, and incidental claim assistance.

Laura started her real estate career working for the Harris County Appraisal District in 2007. Since then, she has obtained her real estate license and relocation certification. Laura has experience managing, analyzing, and improving operations departments and programs including development of policies and procedures, right-of-way acquisitions, relocation, and project management. Provided administrative and QA/QC assistance to ensure deadlines were fulfilled by consultants and provided new-hire training.

2024-Present
City of San Antonio – San Antonio, TX
South Zarzamora
- City of San Antonio and TxDOT are working together to realign South Zarzamora from US 90 to Jennings Ave to construct a grade separation over the Frio City Rd and Union Pacific Railroad intersection to improve public safety.
- Provided project management and acquisition services for 22 parcels and relocation services for 12 displacees.

2023-Present
TxDOT - Houston District – Magnolia, TX
FM 1488
- Provide relocation assistance and advisory services for residential homes in Magnolia, Texas. The project would consist of a four-lane divided roadway with 4-foot inside shoulders and 10-foot outside shoulders divided by a 40-foot depressed grass median. This would serve to relieve traffic through the City of Magnolia.

2024-2025
TxDOT - Fort Worth District – River Oaks, TX
City of River Oaks
- Provide relocation assistance and advisory services for businesses including a convenient store and residential homes.
- The purpose of the project is to provide reconstruction which would result in a reduction from four lanes to three lanes, with the center lane being a continuous left turn lane.
- Two roundabouts and one dead-end would also be constructed, and bicycle and pedestrian accommodation would be provided along these roadways.

2024-2025
TxDOT - Houston District – Houston, TX
IH 10 Billboard Relocation
- Assisted with relocating the billboards to accommodate the White Oak Bayou elevation project.

2021-2023
Harris County – Harris County, TX
Harris County Mandatory Buyout Program
- Provide relocation assistance and advisory services for numerous parcels, including 3 mobile home parks, residential homes, businesses, and vacant lots for approximately 350 parcels in Harris County, Texas. The project purpose was to help owners who were impacted by the recent hurricanes that impacted the Houston area.

Alonzo has 3 years of experience in the Right of Way industry, with a constant desire to learn. He brings lots of relocation and negotiation experience and can speak Spanish fluently. Alonzo has experience working under the Federal Uniform Relocation Act, FEMA, and the Department of Housing and Urban Development.

Mr. Barrera has excelled at completing all types of URA packets for the GLO and TxDOT projects. Mr. Barrera's ability to anticipate the agents' needs and be initiative-taking in the problem-solving process has made him stand out in his team. Mr. Barrera has proven to be a dependable asset when high stress and demanding environment are common while still exceeding expectations. Alonzo is comfortable interpreting conversations, translating documents as well as explaining the relocation process to displacees.

2025-Present
TxDOT Pharr District - CSJ 3629-01-003 - SH 68 (IH2 to IH69) Hidalgo County, TX
Provided relocation services for 115 parcels in Hidalgo County, Texas. The proposed SH 68 project is described in the Metropolitan Transportation Plan (MTP) and the Statewide Transportation Improvement Program (STIP) as a four-lane divided rural highway with future main lanes and overpasses in eastern Hidalgo County from US 83/IH-2 to US 281/IH-69C. The proposed project described in the MTP and STIP has a total project length of approximately 22 miles. Municipalities within the study area include the cities of Alamo, Pharr, Donna, Edinburg, San Juan, and San Carlos. The purpose of this project is to accommodate regional population growth, relieve congestion on existing north–south corridors, and improve hurricane evacuation capacity.

2023-Present
PHR FM 2220 (Ware Road) Hidalgo, TX CSJ 2094-01-062
TxDOT Pharr District, FM 2220 (Ware Road), Hidalgo County, Texas 2023-2026
Provided relocation services for twelve parcels located in Precinct 4 of the City of McAllen the purpose of the project is to widen Ware Road from two lanes to six lanes for a distance of 5.4 miles from FM 1925 to Mile 5 Road to improve safety and mobility including drainage.

2024-Present
City of San Antonio – San Antonio, TX
South Zarzamora Street
- Provide relocation assistance for multiple businesses including a restaurant, a processing meat plant, a used car lot, auto repair shop, a warehouse, a residential home, and a business office.
- The proposed project would realign South Zarzamora Street from US 90 to Jennings Avenue to construct a grade separation over the Frio City Road/Kirk Place and Union Pacific Railroad (UPRR) intersection in San Antonio, Bexar County, Texas.

2023-2026
TxDOT-Houston District FM 646 Improvement project from FM 3436 to State Highway 146 in Galveston County

- Provided relocation services for a total of seventeen displaced businesses and/or individual property owners in accordance with the Uniform Relocation Act.
- This project aims to enhance the existing roadway design by adding two travel lanes, creating a median, and expanding shoulder widths to improve safety, efficiency, and mobility.
- The primary goal is to increase roadway capacity and mobility while upgrading the design of FM 646 to accommodate the anticipated rise in traffic volumes during hurricane evacuations, as well as the future traffic demands in the area.

2023-2026
TxDOT-Houston District – Montgomery County, TX
SH 75

- Provide project management, negotiations for acquisition, real estate appraisal and appraisal review, title curative, and eminent domain proceedings for eleven parcels.
- TxDOT is proposing to widen this two-lane roadway to a four-lane divided roadway with curbs and gutters providing drainage for stormwater and adding sidewalks.
- The purpose of this project is to improve mobility since the City of Conroe is projected to experience significant growth over the next 10 years and increased congestion is anticipated along SH 75 from FM 3083 in Conroe to Willis just north of FM 2432, approximately 4.9 miles.

2022-2024
Tetra Tech Engineering – Harris County, TX
Harris County CDBG Disaster Recovery Program Post Disaster Relocation & Buyout Program

- Provided relocation assistance to all displacees, conducted interviews, followed HUD guidelines, prepared GLO documentation, and if needed insurance declarations of facts.
- Assisted displacees with HUD claims forms for moving, incidental, replacement, and/or rental assistance. He participated in community meetings, housing fairs, training sessions with relocation agents, and meetings with community leaders, county officials, and displaced people.
- Assisted in tracking relocation expenditures, auditing close files and payments rendered, resolving invoice discrepancies, and provided guidance on unique and challenging relocations.

Cindy has over 30 years of real estate experience as a retired residential appraiser inspector from Bexar County Appraisal District. After retirement Cindy worked as a mortgage loan processor for a local lender. Then she went to work for a local engineering firm as a right-of-way technician and obtained her real estate license to become an acquisition agent. Continuing her career in right of way Cindy is working toward her relocation certification.

2024-Present
City Of San Antonio – San Antonio, TX
South Zarzamora
- City of San Antonio and TxDOT are working together to realign South Zarzamora from US 90 to Jennings Ave to construct a grade separation over the Frio City Rd and Union Pacific Railroad intersection to improve public safety.
- Provided project management and acquisition services for twenty-two parcels and relocation services for twelve displacees.

2024-2026
Bexar County Public Works – Bexar County, TX
Cagnon Road
- Design and construct improvements for a drainage project with an estimated construction cost of $17 million.
- The project length is 1.26 miles which includes replacing the existing low water crossing with a new bridge and road alignment at the Medina River crossing. The bridge will be capable of passing the 100-year storm.

2015-2016
Kerr County – Centerpoint, TX
East Kerr County Wastewater Collection System
- Provided acquisition services for approximately seventy-five parcels in Kerr County for the construction of a 33-mile wastewater collection system. The total project cost is approximately $47 million dollars.
- Right of way services included coordination with the Texas Water Development Board on policies and procedures, project management, donations, and community meetings.

2024-Present
TxDOT-Houston District – Montgomery County, TX
FM 1488
• Provided support for negotiations, title, and eminent domain proceedings for thirtysix parcels. TxDOT is widening from two lanes to a 4-lane divided roadway with curbs and gutters providing drainage for stormwater and adding sidewalks.
• The purpose of this project is to improve mobility since the City of Conroe is projected to experience significant growth over the next 10 years and increased congestion is anticipated along Business FM1488P to Proposed SH249.

2023-2025
TxDOT-Austin District – Marble Falls, TX
US 281

- Provide relocation assistance for multiple businesses including a strip center, restaurant, and a convenient store with gasoline tanks. The purpose of the project is to provide a right-turn lane in the busy intersection of US 281 and FM1431 to alleviate traffic congestion in the area.

2025- present
TxDOT Pharr District - CSJ 3629-01-003 - SH 68 (IH2 to IH69) Hidalgo County, TX
Provided relocation services for 115 parcels in Hidalgo County, Texas. The proposed SH 68 project is described in the Metropolitan Transportation Plan (MTP) and the Statewide Transportation Improvement Program (STIP) as a four-lane divided rural highway with future main lanes and overpasses in eastern Hidalgo County from US 83/IH-2 to US 281/IH-69C. The proposed project described in the MTP and STIP has a total project length of approximately 22 miles. Municipalities within the study area include the cities of Alamo, Pharr, Donna, Edinburg, San Juan, and San Carlos. The purpose of this project is to accommodate regional population growth, relieve congestion on existing north–south corridors, and improve hurricane evacuation capacity.

Re: Response to Request for Qualifications
RFQ No. 2026-2 – Right-of-Way Acquisition Services

Dear City of Edinburg,

Fuentes Consulting & Services, LLC ("FCS") respectfully submits this Response to Request for Qualifications to provide right-of-way acquisition services to the City of Edinburg ("City") on an as-needed basis.

FCS brings extensive public-sector leadership and infrastructure experience to assignments involving transportation, drainage, utility, and community development projects. Our team offers coordinated support for property-owner negotiations, title and escrow matters, appraisal coordination, easement acquisition, relocation compliance, project tracking, and closing activities. Each assignment is managed through defined milestones, clear responsibilities, and regular reporting to City staff.

FCS is particularly well positioned to serve Edinburg because of our familiarity with South Texas communities, governmental operations, regional infrastructure needs, and culturally informed property-owner outreach. Our objective is to provide the City with a dependable acquisition team that can respond quickly, address parcel-level challenges early, and maintain complete and defensible project records.

The primary point of contact for this Statement of Qualifications is David L. Fuentes, President. He can be reached at 505 S. Texas, Weslaco, Texas 78596, (956) 351 - 9150, david@fuentescompany.com.

Mr. Fuentes is authorized to represent FCS in all matters relating to this procurement and to negotiate and execute contractual agreements on behalf of the firm.

Docusign Envelope ID: 71E8FA84-629C-89B6-8203-5A65D155623E

Addenda and Exceptions

FCS acknowledges that no addenda has been issued. FCS takes no exceptions to the specifications and requirements of RFQ 2026-2.

Conclusion

FCS is prepared to mobilize experienced personnel, provide responsive local service, and support the timely delivery of the City s current and future capital improvement projects.

Respectfully submitted,

Executive Summary

Fuentes Consulting & Services, LLC (FCS) provides full-scope right-of-way acquisition services designed to help the City of Edinburg advance infrastructure projects without unnecessary delays, compliance risks or avoidable disruptions.

Built on 14+ years of combined public-sector experience, FCS provides turnkey ROW services. FCS leads a seasoned team with a track record of successfully acquiring hundreds of parcels across Texas. Our team handles negotiations, draft acquisition documents, send offer letters, coordinate with appraisers, manage title curative actions, and facilitate parcel ownership transfers. Our team understands the importance of protecting project schedules, maintaining clear documentation and engaging property owners with professionalism and respect.

FCS supports every phase of the acquisition process, including title research, ownership resolution, appraisal coordination, negotiations, relocation assistance, escrow support and closing coordination. Our integrated approach combines real estate expertise, stakeholder engagement and disciplined project management to deliver efficient, compliant and community-conscious outcomes. Our processes are executed under 49 CFR Part 24 (URA), TxDOT standards, and all Texas Property Code requirements.

For the City of Edinburg, FCS offers a responsive regional team with the experience, structure and local understanding needed to support roadway, drainage, utility and other capital improvement projects. Our goal is to provide the City with dependable right-of-way services that reduce administrative burden, preserve public trust and keep projects moving forward.

1. Firm Qualifications and Experience

Company Overview

Fuentes Consulting & Services, LLC is a Texas consulting firm specializing in public-sector project management, infrastructure coordination, right-of-way acquisition, compliance, and governmental advisory services.

FCS brings more than fourteen years of combined public-sector leadership and infrastructure experience to complex projects involving transportation, drainage, water, utilities, and community development. The firm has led or supported right-of-way activities involving hundreds of parcels throughout Texas.

FCS understands that right-of-way work is often the point at which project schedules, regulatory requirements, engineering plans, and public concerns intersect. Our role is to keep those interests aligned and move each parcel toward resolution in an organized and defensible manner.

Our team supports the complete acquisition process, including:

- Project initiation and parcel review
- Property-owner identification and outreach
- Appraisal coordination
- Offer preparation and delivery
- Acquisition negotiations
- Permanent and temporary easements
- Relocation coordination, when required
- Title review and curative coordination
- Escrow and closing support
- Parcel tracking and status reporting
- Coordination with engineers, surveyors, appraisers, title companies, and legal counsel
- Preparation of organized acquisition files

FCS has experience working with municipal, county, drainage, transportation, and water-related entities. Our team understands the decision-making processes, documentation standards, approval requirements, and public-accountability obligations that govern local infrastructure projects.

Relevant Governmental Experience

FCS and its personnel have supported public infrastructure programs involving substantial investments in drainage, transportation, water, and community facilities.

David L. Fuentes has overseen right-of-way and infrastructure activities associated with more than $380 million in drainage improvements and approximately $100 million in transportation infrastructure through his public-service leadership. These efforts involved coordination with property owners, engineers, funding agencies, governmental staff, and professional service providers.

FCS has also provided or supported consulting and right-of-way services involving City of Pharr, Cameron County Drainage District No. 6. City of Weslaco, and other South Texas governmental entities.

Through these engagements, FCS has developed a practical understanding of the issues that most often affect acquisition schedules, including:

- Unclear or divided ownership
- Deceased owners and heirship matters
- Existing liens and encumbrances
- Boundary and easement conflicts
- Delayed appraisals
- Property-owner concerns regarding access or construction impacts
- Coordination among multiple agencies and consultants
- Federal or state documentation requirements
- Internal approval and payment procedures

FCS addresses these issues through early review, prompt escalation, clear assignment of responsibility, and regular communication with the client.

What Distinguishes FCS

<u>Public-Sector Perspective</u>

FCS understands right-of-way acquisition from the perspective of the governmental entity responsible for delivering the project. We recognize the importance of public accountability, funding deadlines, governing-body approvals, budget controls, and clear communication with residents.

<u>Regional Knowledge</u>

FCS is based in South Texas and is familiar with the region's communities, property patterns, infrastructure needs, and stakeholder environment. This regional familiarity supports effective owner outreach and timely field coordination.

Bilingual and Culturally Informed Communication

Our team can communicate with property owners in English and Spanish. We approach owner engagement with professionalism, patience, and sensitivity to local concerns.

Integrated Project Coordination

FCS coordinates the acquisition process as a single project rather than a series of disconnected services. Appraisal, title, negotiation, engineering, and closing activities are tracked through one management framework.

Early Risk Identification

Each assignment begins with a parcel-level review to identify potential ownership, title, appraisal, relocation, access, or negotiation issues. This allows the team to address high-risk parcels before they affect the overall project schedule.

Scalable Staffing

FCS can assign a focused team to a single easement or deploy multiple acquisition, title, compliance, and project-management resources for a larger corridor or capital program.

State and Federal Compliance

FCS affirms full compliance with all applicable state and federal environmental and right-of-way acquisition laws, including the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (“URA”).

Should relocation services be required under the URA, our firm is prepared to deliver these services in full compliance with federal regulations. Our team includes certified personnel experienced in URA relocation processes and documentation.

2. Proposed Project Management

Technical Approach

1. Project Initiation

   Upon receipt of a task order, FCS will meet with City staff to confirm:

   - Project purpose
   - Required property interests
   - Parcel count
   - Funding source
   - Design and construction schedule
   - Available surveys and legal descriptions
   - Appraisal responsibilities
   - City approval requirements
   - Reporting expectations
   - Known owner or title concerns

   FCS will then develop a task-specific work plan and milestone schedule.

2. Parcel and Risk Review

   FCS will conduct an initial review of each parcel to identify issues that may affect acquisition. The review may include:

   - Ownership confirmation
   - Mailing and contact information
   - Existing liens
   - Easements and encumbrances
   - Probate or heirship concerns
   - Business or residential occupancy
   - Potential relocation needs
   - Access impacts
   - Improvements within the acquisition area
   - Appraisal complexity
   - Potential condemnation risk

   Parcels will be prioritized based on schedule importance and level of difficulty.

3. Appraisal Coordination

   FCS will coordinate with the City's appraiser or an FCS-supported licensed appraiser, as directed by the City. Activities may include:

   - Providing available parcel documents

- Coordinating site access
- Communicating with property owners
- Tracking appraisal schedules
- Reviewing appraisal packages for completeness
- Coordinating questions between the City and appraiser
- Confirming delivery of appraisal summaries needed for negotiations

FCS will not perform appraisal activities requiring licensure unless they are assigned to an appropriately licensed or certified appraiser.

4. Property-Owner Outreach

   FCS will make initial contact with each property owner through a clear and professional introduction. Owner outreach may include:

   - Introductory letters
   - Telephone calls
   - Email correspondence
   - In-person meetings
   - Site visits
   - Explanation of the project and acquisition process
   - Coordination with an owner's attorney or representative

   Communications will be documented in the parcel file.

5. Offer Preparation and Delivery

   FCS will prepare or coordinate the preparation of acquisition packages consistent with City requirements and applicable law. Packages may include:

   - Offer letter
   - Appraisal summary
   - Property description
   - Acquisition agreement
   - Easement or conveyance document
   - Required notices
   - Relocation information, when applicable
   - Instructions for owner response

6. Negotiations

   FCS will negotiate in good faith with property owners and their representatives. Our negotiation approach emphasizes:

   - Clear explanation of the acquisition
   - Respectful consideration of owner concerns
   - Accurate communication regarding the City's offer
   - Prompt documentation of counteroffers

- Coordination with the City before accepting changes
- Efforts to achieve voluntary settlement
- Consistent treatment of similarly situated owners

FCS will not make commitments outside the authority provided by the City.

7. Title and Curative Coordination

FCS will coordinate title activities with the City's selected title company or other approved provider. Activities may include:

- Ordering or reviewing title commitments
- Confirming ownership
- Identifying liens and encumbrances
- Coordinating releases
- Addressing corrective documents
- Supporting heirship or probate resolution
- Coordinating execution requirements
- Tracking title-clearance status
- Preparing parcels for closing

Issues requiring specialized legal action will be promptly communicated to the City.

8. Escrow and Closing

FCS will coordinate the activities necessary to move each approved acquisition to closing. This may include:

- Confirming executed documents
- Coordinating City payment
- Reviewing closing requirements
- Scheduling the closing
- Communicating with owners and title personnel
- Confirming disbursement
- Tracking recording
- Obtaining final recorded documents
- Completing the parcel file

9. Relocation Assistance

When relocation requirements apply, FCS will coordinate services consistent with the Uniform Relocation Assistance and Real Property Acquisition Policies Act and applicable regulations. Qualified relocation personnel will be assigned when required. Relocation services may include:

- Occupancy review
- Eligibility coordination

- Required notices
- Replacement housing or business-support coordination
- Move documentation
- Claim tracking
- Compliance records

10. Project Closeout

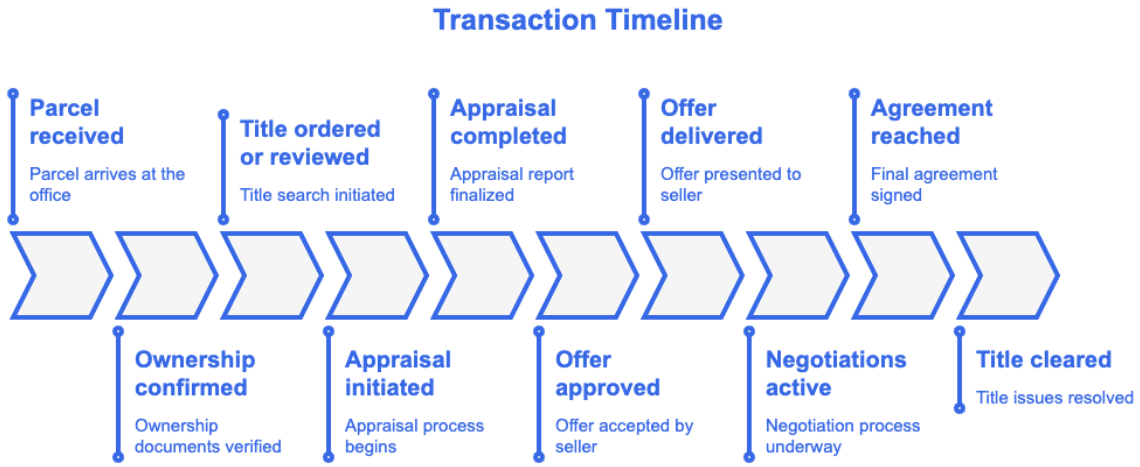
At the conclusion of each task order, FCS will provide the City with organized acquisition files and a final status report.

Closeout documentation may include:

- Owner contact records
- Offer documents
- Negotiation logs
- Agreements
- Title documents
- Closing statements
- Recorded instruments
- Relocation records
- Payment documentation
- Outstanding issue summaries

Schedule Control and Ability to Meet Deadlines

FCS recognizes that right-of-way acquisition can determine whether a capital project proceeds to construction on schedule. Our management approach is designed to prevent individual parcel issues from becoming project-wide delays.



FCS protects schedules through:

- Early parcel and title review
- Prompt property-owner outreach
- Defined appraisal deadlines
- Parallel coordination of title, appraisal, and negotiation activities
- Weekly monitoring of high-risk parcels
- Clear escalation procedures
- Regular communication with City staff
- Scalable staffing during periods of increased workload
- Complete documentation of decisions and owner contacts

The firm will assign a project manager to every task order who is responsible for maintaining the schedule and coordinating all participating personnel.

FCS will also identify long-lead parcels early. Parcels involving deceased owners, multiple heirs, commercial improvements, relocation, disputed boundaries, or complex title matters will receive additional attention at the beginning of the assignment.

FCS will use a milestone-based management system to monitor assignments from authorization through closing. Each parcel will be tracked through major activities and phases. The project manager will monitor deadlines, assign responsibilities, and elevate issues requiring City action.

Issue Escalation

FCS will promptly notify the City when a parcel presents a risk to project delivery. FCS will provide a summary of the issue, actions taken, and recommended next steps. Potential escalation issues include:

- Owner refusal to negotiate
- Unresolved title defects
- Multiple or disputed ownership claims
- Appraisal disputes
- Access or design concerns
- Relocation complications
- Unresponsive lienholders
- Need for revised survey documents
- Potential eminent-domain referral

Status Reporting

FCS will provide clear and consistent status reports addressing overall task-order progress, parcel-level activity, upcoming milestones and property-owner responses. Reports will also identify title or appraisal issues, negotiation challenges, schedule risks and any decisions needed from the City. The reporting format and frequency will be

established with the City at the beginning of each task order to support timely coordination and informed decision-making.

Approach to Smaller and Part-Time Assignments

The City's on-call contract may include assignments ranging from one easement to a multi-parcel capital improvement project. FCS will scale staffing to match the complexity and volume of each task order. For smaller assignments, FCS will generally assign:

- One project manager
- One acquisition specialist
- Title, appraisal, legal, or administrative support only as needed

This approach avoids unnecessary staffing while preserving accountability and quality control.

For larger assignments, FCS may add acquisition agents, title specialists, relocation personnel, document-control staff, appraisers, and other technical resources based on the number of parcels and required schedule.

Past Experience

1. Hidalgo County Infrastructure and Right-of-Way Oversight

Client: Hidalgo County / Hidalgo County Drainage District No. 1
Role: Public-sector infrastructure and acquisition oversight
Period: 2017 - Current

David L. Fuentes has overseen right-of-way and infrastructure activities supporting more than $380 million in drainage projects and approximately $100 million in transportation improvements.

Responsibilities included coordination among governmental staff, engineers, property owners, funding agencies, and professional service providers. Projects were subject to local, state, and federal requirements, including requirements associated with TxDOT, the Texas Water Development Board, and the Texas General Land Office.

Relevance to Edinburg: Demonstrates direct experience managing the governmental, financial, and stakeholder considerations that affect complex public acquisitions.

2. City of Pharr, Texas

Client: City of Pharr, Texas
Role: Right-of-way acquisition and negotiation services
Period: 2025 - 2026

FCS provided a turnkey approach to right-of-way and easement acquisition for multiple projects. Services included owner identification, negotiations, offer preparation, acquisition-document coordination, appraisal coordination, title review, curative coordination, closing support, and status reporting.

Relevance to Edinburg: Demonstrates experience acquiring easements and property interests for utility infrastructure in Hidalgo County.

3. Cameron County Drainage District No. 6

Client: Cameron County Drainage District No. 6
Role: Right-of-way acquisition and negotiation services
Period: 2025 - 2026

FCS has assisted CCDD6 in acquiring over 20 parcels for critical drainage projects. Services included owner identification, negotiations, offer preparation, acquisition-document coordination, appraisal coordination, title review, curative coordination, closing support, and status reporting.

Relevance to Edinburg: Demonstrates experience acquiring easements and property interests for utility infrastructure in Hidalgo County.

3. Team Member Qualifications

Fuentes Consulting and Services, LLC brings strategic project management and public-sector consulting experience to complex infrastructure and acquisition efforts across Texas. FCS has assembled a core team of internal leadership and experienced subcontracted professionals to ensure seamless project execution, regulatory compliance, and field-level responsiveness. The following are key members of the FCS ROW team:

David L. Fuentes/Project Manager

Mr. Fuentes is the CEO of FCS and will serve as Project Manager of all ROW acquisitions. Mr. Fuentes is a University of Notre Dame graduate and licensed CPA who has served as Hidalgo County Commissioner since 2017, bringing decades of leadership in both public service and private sector financial management.

In his role as Commissioner and Board Member of Hidalgo County Drainage District No. 1 (HCDD1), he has overseen hundreds of right-of-way (ROW) acquisitions supporting over $380 million in drainage improvements and $100 million in transportation infrastructure. These projects have been executed in full compliance with local, state, and federal regulations, including requirements set by TxDOT, the Texas Water Development Board (TWDB), and the Texas General Land Office (GLO).

Commissioner Fuentes' efforts have helped secure and manage funding through ARPA, TWDB, and MPO programs, reflecting his deep commitment to responsible infrastructure development. His experience includes coordination with property owners, engineers, surveyors, governmental departments, TxDOT, the Texas Water Development Board, the Texas General Land Office, regional transportation organizations, and state and federal funding programs.

In his capacity as Principal of FCS and Project Manager of all ROW acquisitions, Mr. Fuentes will oversee all aspects of ROW acquisition services.

Diana Ramirez serves as a right-of-way agent and supports a range of project-related activities. She assists with coordination, documentation, and other right-of-way needs as assigned, contributing to the overall delivery of project services. Additionally, our team includes qualified right-of-way and title professionals with relevant experience. Staff members understand applicable requirements and industry standards and are skilled at identifying and addressing project-related issues. Their combined knowledge and practical experience support the efficient, accurate, and reliable delivery of right-of-way services.

Appraisal Coordination Resources

FCS will coordinate appraisal services through qualified professionals licensed or certified under the Texas Appraiser Licensing and Certification Act, Texas Occupations Code Chapter 1103. The firm maintains access to Texas-licensed appraisers with experience in right-of-way valuation, public infrastructure and federally funded acquisition requirements.

Scalable Support Staff

In addition to the proposed core team, FCS can supplement each assignment with experienced right-of-way agents, title and escrow specialists, compliance personnel and administrative support as project needs change. Smaller assignments can be handled by a focused team, while larger or time-sensitive task orders can be expanded with additional personnel without disrupting project continuity or oversight. Mr. Fuentes will retain executive responsibility for staffing, performance, schedule control and coordination with the City throughout the contract.

5. Insurance

If selected, FCS will acquire all insurance coverage required by RFQ 2026-2 and the City's Professional Services Agreement before beginning services and will name the City of Edinburg as an Additional Insured where required.

FCS has not had any insurance claims made against the firm during the past five years.

6. Professional Service Agreement

Fuentes Consulting & Services, LLC confirms that it has reviewed the City of Edinburg's draft Professional Services Agreement provided with RFQ 2026-2. FCS further confirms that:

1. The firm will meet the prerequisite insurance requirements before beginning services.
2. The firm will provide all required insurance certificates and endorsements.
3. The firm agrees, if selected, to enter into the City's Professional Services Agreement, subject only to any exceptions expressly identified in this Statement of Qualifications.

956-351-9150 | david@fuentescompany.com

WHY FCS

Full-scope ROW acquisition services designed to keep City projects moving.

- FCS helps public agencies reduce acquisition delays, manage risk and maintain compliance with state and federal requirements.
- Built on 14+ years of combined public-sector experience, FCS provides turnkey ROW services for transportation, drainage, utility and capital improvement projects.
- The FCS team has a track record of successfully acquiring hundreds of parcels across Texas while maintaining clear documentation and respectful owner engagement.
- Services include title research, ownership resolution, appraisal coordination, negotiations, relocation assistance, escrow support and closing coordination.
- Processes are executed under 49 CFR Part 24, URA, TxDOT standards and Texas Property Code requirements.

EXPERIENCE

Public-sector leadership and infrastructure coordination across South Texas.

- FCS and its personnel have supported public infrastructure programs involving substantial investments in drainage, transportation, water and community facilities.
- David L. Fuentes has overseen ROW and infrastructure activities associated with more than $380 million in drainage improvements and approximately $100 million in transportation infrastructure.
- FCS has provided or supported consulting and ROW services involving City of Pharr, Cameron County Drainage District No. 6, City of Weslaco and other South Texas governmental entities.
- FCS understands project challenges involving ownership, liens, easements, appraisals, owner concerns, federal or state documentation and internal approval procedures.
- FCS addresses these challenges through early review, prompt escalation, clear responsibilities and regular client communication.

DIFFERENTIATORS

What distinguishes FCS for the City of Edinburg.

Public-sector execution

- Understands public accountability, funding deadlines, governing-body approvals and budget controls
- Regional familiarity with South Texas communities, property patterns and infrastructure needs
- Bilingual and culturally informed owner communication in English and Spanish
- Disciplined project management with clear roles, milestones and reporting

Integrated acquisition delivery

- Coordinates appraisal, title, negotiation, engineering and closing through one management framework
- Begins each assignment with parcel-level risk review
- Identifies ownership, title, appraisal, relocation, access and negotiation issues early
- Scales staffing from one easement to larger corridor or capital improvement programs

REGIONAL PRESENCE

Responsive service from South Texas.

- FCS is located at 505 S. Texas, Weslaco, Texas 78596.
- The firm maintains an active presence throughout Hidalgo County and the Rio Grande Valley.
- Regional proximity allows FCS personnel to attend meetings, conduct property-owner outreach, coordinate site visits and respond to field issues efficiently.
- FCS is familiar with governmental operations, regional infrastructure needs and culturally informed property-owner outreach in South Texas.
- The City will have direct access to the FCS project manager and designated acquisition personnel throughout each task order.

TECHNICAL APPROACH

Task-order delivery from initiation through closeout.

Early actions

- Meet with City staff to confirm project purpose, parcel count, funding source, schedule and reporting expectations
- Develop a task-specific work plan and milestone schedule
- Review ownership, title, liens, easements, occupancy, access impacts and appraisal complexity
- Coordinate appraisal activities as directed by the City

Delivery actions

- Conduct professional property-owner outreach and document communications
- Prepare or coordinate offer packages, easements, agreements and required notices
- Negotiate in good faith within authority provided by the City
- Coordinate title, curative matters, escrow, closing, recording and final parcel files

TECHNICAL APPROACH

Task-order delivery from initiation through closeout.

Schedule Control

- FCS uses a milestone-based management system to monitor assignments from authorization through closing.
- Each parcel is tracked through major activities and phases.
- The project manager monitors deadlines, assigns responsibilities and elevates issues requiring City action.
- FCS identifies long-lead parcels early, including parcels involving deceased owners, multiple heirs, commercial improvements, relocation, disputed boundaries or complex title matters.

Reporting and Escalation

- FCS will provide consistent status reports addressing overall task-order progress, parcel-level activity, upcoming milestones and property-owner responses.
- When a parcel presents risk to project delivery, FCS will promptly notify the City with a summary of the issue, actions taken and recommended next steps.
- Reporting format and frequency will be established with the City at the beginning of each task order.

STAFFING AND APPRAISAL RESOURCES

A focused core team with scalable support.

Scalable support staff

- FCS can supplement each assignment with experienced ROW agents, title and escrow specialists, compliance personnel and administrative support
- Smaller assignments can be handled by a focused team
- Larger or time-sensitive task orders can be expanded without disrupting continuity or oversight
- David L. Fuentes retains executive responsibility for staffing, performance, schedule control and City coordination

Appraisal coordination

- FCS coordinates appraisal services through qualified professionals licensed or certified under Texas Occupations Code Chapter 1103
- FCS maintains access to Texas-licensed appraisers with experience in ROW valuation, public infrastructure and federally funded acquisition requirements
- Appraisal resources are assigned based on task-order location, property type and complexity
- License and certification information can be provided to the City upon request

RE: RFQ 2026-2 Right of Way Acquisition Services

Dear Mr. Hinojosa and Members of the Evaluation Committee:

Halff, a Texas Corporation, is pleased to submit our qualifications for Right of Way (ROW) Acquisition Services to the City of Edinburg. Halff is a full-service ROW Acquisition, Engineering, Surveying, Environmental, and Planning firm, and we are excited about the opportunity to build upon our successful delivery of ongoing ROW acquisition services to the City of Edinburg.

Our knowledgeable team looks forward to continuing our partnership with the City of Edinburg as your ROW Acquisition Services provider, a role we have served since 2024 with our extensive experience **providing ROW services** for the Texas Department of Transportation (TxDOT), regional mobility authorities, counties, municipalities, and other state agencies throughout Texas. We have a thorough understanding of delivering ROW services under the Federal Uniform Relocation Assistance and Real Property Acquisitions Policies Act of 1970 (URA) and Senate Bill 18.

Our expertise lies in working with agencies and assisting landowners throughout the negotiation and relocation processes. We developed a web-based Halff Tracker, which enables our team and clients to stay informed throughout the project. Our QA/QC processes help us maintain a high level of quality and support aggressive project schedules. Our capabilities give Halff an exceptional record for providing quality ROW services and maintaining project schedules.

Nelda Renteria-Compian will serve as your primary point of contact and can be reached at the contact info above. Nelda and Marcos Diaz, our VP Operations Manager out of our McAllen office, are both authorized to bind our firm into a contract with the City.

If you have any questions or comments, please do not hesitate to contact Nelda. We look forward to working with you and the City of Edinburg on your important projects.

Sincerely,

Marcos Diaz, PE
Vice President, Operations Manager, McAllen

Nelda Renteria-Compian
Associate Vice President
Project Manager

Halff acknowledges receipt of all addenda and includes their content within our Statement of Qualifications.

Firm Qualifications & Experience

Founded by Dr. Albert H. Halff in 1950 in a one-room office, Halff has grown to a practice of more than 1,300 distinguished professionals offering services ranging from environmental assessments to multi-million dollar facility projects. The firm provides services throughout the Southeast from 32 offices located in Texas, Oklahoma, Arkansas, Louisiana, and Florida. The firm's staff is made up of ROW specialists, surveyors, engineers, planners and scientists. Our combined efforts provide our clients with a "Toolbox" of professional services related to engineering design, energy efficiency solutions, and construction.

Halff's McAllen Office

Through the years, Halff has continued to be true to the principles of Dr. Halff through integrity, dedication to client service, and commitment to quality. In doing so, we have maintained decades-long relationships with many of our clients. Our growth in size and reputation has remained steady over the past 76 years.

Halff opened our Rio Grande Valley (RGV) office in McAllen in October 1993. During that time, Halff has completed numerous successful projects from South Padre Island to Rio Grande City. More importantly, in the past 33 years, Halff has become an integral part of the community. Halff's McAllen office has successfully completed several landmark projects in the area including work with local entities such as Cameron County, Hidalgo County, and Hidalgo County Drainage District No. 1 as well as various municipalities including, but not limited to, the City of McAllen, City of Mission, **City of Edinburg**, City of Pharr, City of Alton, and Rio Grande City.

The Halff Team Assists the City of Edinburg Every Step of the Way

Our Project Manager, Nelda Renteria-Compian, who has managed state and municipal projects for 39 years, will serve as your point of contact. In implementing our project management approach, our licensed and experienced staff will keep the City's projects moving forward.

Nelda Renteria-Compian; Marcos Diaz; Lorena Corpus; Vickie Gill, Dalanie Mathisen; Brandon Canfield; Carol Neugent

Please refer to the Team Member Qualifications section later in this SOQ for our ROW staff organizational chart and Key Personnel resumes.

Experience Performing Similar Services

Our team offers clients an extensive history of successfully completed right of way projects for TxDOT, counties, and municipalities throughout Texas. We are dedicated to providing quality right of way services through leadership, experience, integrity, and innovation. We are thoroughly experienced in all aspects of ROW and appraisal review services needed to address the scope, including:

- Appraisal and Appraisal Review Coordination
- Web Project Tracking
- Title and Closing
- Negotiation and Acquisition
- Relocation Assistance
- Eminent Domain/Condemnation Support

Quality Assurance / Quality Control (QA/QC)

QA/QC programs have been developed and implemented on projects throughout Halff's history. Our established and formal QA/QC program achieves the following critical elements:

- Identifies the client's objectives and priorities
- Establishes QA/QC policies and requirements for each respective phase of the project
- Identifies quality control management approach
- Formulates applicable criteria to be used
- Establishes project schedules with milestone dates
- Identifies interdisciplinary milestones and exchange of key data to verify coordination

As **Project Manager, Nelda Renteria-Compian** will establish the QA/QC policies and requirements for the project, anticipate and schedule QA/QC meetings, and prepare a schedule to show the sequence of events involved in implementing project tasks within the specified service period. She will also develop a review comment annotation package for use by the internal project review team to verify that the City of Edinburg's expectations are fulfilled. Additionally, Nelda will represent the firm in review meetings with the City of Edinburg.

Communication Plan

Nelda Renteria-Compian, Project Manager, will develop a structured communication system that supports scheduling, progress tracking, and task prioritization. Nelda will maintain consistent communication with the City of Edinburg through email updates, and any scheduled coordination meetings. When challenges arise, she will present potential actionable solutions to the City of Edinburg in order to keep the project on schedule and within scope.

Weekly written progress summaries will be prepared by the team and submitted to the City of Edinburg. These reports will detail recent activities, and any outstanding items requiring attention. Besides these weekly reports, we will also meet with the City of Edinburg and team members as needed throughout the project.

Internal team coordination is managed by Nelda and supported by Deputy Project Manager, Lorena Corpus, who will conduct regular meetings and over-the-shoulder reviews to assess status and provide timely direction. These sessions confirm quality, keep staff aligned, and allow for real-time adjustments.

This approach supports clear and timely communication between team members, the City of Edinburg, and all stakeholders including property owners, utility providers, and regulatory agencies. It fosters transparency, promotes responsiveness, and keeps all parties informed and aligned throughout the project.

© Halff - 2026

Unique / Innovative Methods

As a full-service firm, Halff offers support from other disciplines and staff members including engineers and a licensed attorney. As a result, Halff has a broad understanding of design matters, legal issues, and valuation concerns, which can be a significant benefit in addressing property owners' concerns. This understanding allows us to explore meaningful alternatives and non-monetary solutions such as driveway adjustments, grading, drainage issues, or slight design modifications to the facility to minimize impact to property or improvements. Additionally, our broad background allows our team to work closely with the City of Edinburg and the engineers to prioritize parcel acquisitions for construction or utility relocation issues.

Expedited Eminent Domain Process

Halff will seek written authorization from the City of Edinburg to simultaneously pursue acquisition through the eminent domain process, expediting possession of complex or extended negotiations for critical parcels.

Project Management

For nearly 25 years, Halff has applied a proven project management approach to ROW acquisition efforts. This structured system enhances responsiveness and quality by focusing on:

- Defining and tracking project **scope, deliverables and priorities**
- Establishing and managing **schedules, budgets, and invoices**
- Preparing fee estimates, establishing budgets and processing invoices
- Preparing and managing contracts, subcontracts, and amendments
- **Assigning resources** and clearly defining team member roles
- Leading **progress meetings**
- Overseeing the **quality and consistency of deliverables**
- Maintaining **consistent and formal communication**, including weekly status reports

The following list of projects exemplify our successful ROW project capabilities.

Municipal Agency Experience

City of Edinburg, Sugar Road Widening, Hidalgo County – Project consists of 68 acquisition parcels for the widening and drainage improvements for Sugar Road. Services include: Project Management, negotiation, Title Curative and Closing.

Texas Facilities Commission (TFC), DPS Williamson County Training Academy Campus Expansion, Williamson County – Project consists of the acquisition of 58 parcels for waterline improvements for a DPS training center, Georgetown, Texas. Services include: Appraisal and Review Appraisal Management, Negotiation, Title Curative, and Closing.

Lookout Road, City of Schertz, Bexar County – Project consists of the acquisition of 3 parcels for road widening/safety improvements Schertz, Texas. Services include: Appraisal and Review Appraisal Management, Negotiation, Title Curative, and Closing.

IH 35 NEX, City of Schertz, Bexar County – Project consisted of the acquisition of 5 parcels for wastewater improvements along IH 35 in Schertz, Texas. Services included: Appraisal and Review Appraisal Management, Negotiation, Title Curative, and Closing.

Key Allegro Bridge, Rockport, Texas, Aransas County – Project consisted of easement acquisitions of 4 parcels for the Key Allegro Bridge reconstruction in Rockport, Texas. Services included: Appraisal and Review Appraisal Management, Negotiation, Title Curative, and Closing.

Multiple ROW Acquisition Projects for TxDOT

Halff has provided ROW services on numerous TxDOT projects. **Halff is serving as the ROW Provider for 13 parcels for the Pharr District and 12 parcels for the Odessa District** all including negotiation, relocation management and assistance, closing and condemnation support as well as disposal services. Below is a list of past TxDOT projects:

FM 1560 (PH I & PH II), TxDOT San Antonio District – Project consisted of the acquisition of 80 right of way parcels and 5 relocations (business) for the widening of FM 1560 from FM 471 to SH 16 in San Antonio, Texas.

© Halff - 2026

US 59/Loop 20 (Segments 2, 3, and 4) TxDOT Laredo District – Project consisted of the acquisition of 45 right of way parcels, 4 OAS, and business relocation assistance for the expansion of US 59 in Laredo, Texas.

SH 123/SH 80, TxDOT Corpus Christi District – Project consisted of the acquisition of 17 right of way parcels for road widening/continuous turn lane road improvements in Karnes City, Texas.

US 59 Skytop, TxDOT Yoakum District – Project consisted of the acquisition of 3 right of way parcels for safety/bridge improvements along US 59 in Victoria, Texas.

SH 71, TxDOT Austin District – Project consisted of the acquisition of 49 parcels and 11 OAS for the widening of SH 71 from CR 206 (Colorado Circle) to SH 21 in Bastrop, Texas.

Previous City of Edinburg Experience

Halff has worked with and within the City of Edinburg for several years. We have held recent and ongoing contracts directly with the City, and provided services on City projects as a subconsultant. The following is a sample of more recent projects that Halff has successfully completed for the City of Edinburg:

Multiple ROW Acquisition Projects for the City of Edinburg

- **HWY 281 Booster Pump Station Project.** Drainage Improvements. Project consisted of the donation of 1 parcel for drainage improvements. Services included Negotiation, Title Curative, and Closing Support.
- **Monte Cristo Drainage and Water Tower Project.** Drainage Improvements. Project consisted of the donation of 1 parcel for drainage improvements. Services included Negotiation, Title Curative, Eminent Domain Coordination, and Closing Support.

Ability to Meet Schedule and Deadlines

Our ability to maintain the work schedule is part of what will make the services we provide successful. Halff has a **reputation for meeting the schedules that have been established by the project's owners**. Our key to successful project execution is developing the project schedule up front and identifying the required staffing levels. An integral part of developing the schedule is continued involvement with the City of Edinburg and relevant regulatory agencies. A successful schedule allows the project to develop in an orderly manner.

Nelda and the ROW Team are given the resources and authority to develop the project schedule and assign resources to meet the schedule.

Project Schedule Development and Management

The Halff team stands ready to provide exemplary ROW acquisition services to the City of Edinburg. We will leverage our previous experience to provide the City with the utmost quality service, meet your expectations and exceed them. We are familiar with the City's expectations and standards and will strive to achieve successful project completion, on time and within budget.

Financial Stability

Halff has been serving Texas for 76 years and has seen continued growth and profitability throughout this period. Halff is in good financial standing and is current on payment of all taxes and fees. Halff has the financial capability and strength to serve our clients while providing opportunities for growth and investment in the firm and our staff. We invite you to contact the following banking reference who can speak to our financial stability:

Halff has the necessary resources (human and financial) to provide the level of service required by the City of Edinburg. Should you require further information, Halff will supply upon request.

A recent Dunn and Bradstreet report on Halff and its holdings ranks the company in all categories in the upper quartile for financial stability, with an overall ranking of 1R2. A Dunn and Bradstreet report, or other financial information for Halff can be made available upon request.

Our Commitment to Best Business Practices

Halff uses a proactive approach to identifying best business practices. We are committed to sourcing and maximizing the implementation of these best practices to better serve our clients and their communities. We have a well-documented history of not only meeting, but exceeding expectations in these areas to foster long-lasting relationships by working closely together to deliver assignments cost effectively while maintaining maximum quality.

Domestic Preference

Halff prioritizes the purchase of goods and services from domestic suppliers over foreign suppliers.

Debarment Certification

Halff has not been excluded or disqualified from government contracts due to past misconduct.

Federal Davis-Bacon Wage Requirements

Halff pays prevailing wages to laborers/mechanics on federally funded construction projects.

Buy American Preference

Halff uses products made in the United States for federally funded projects to promote domestic manufacturing and economic growth.

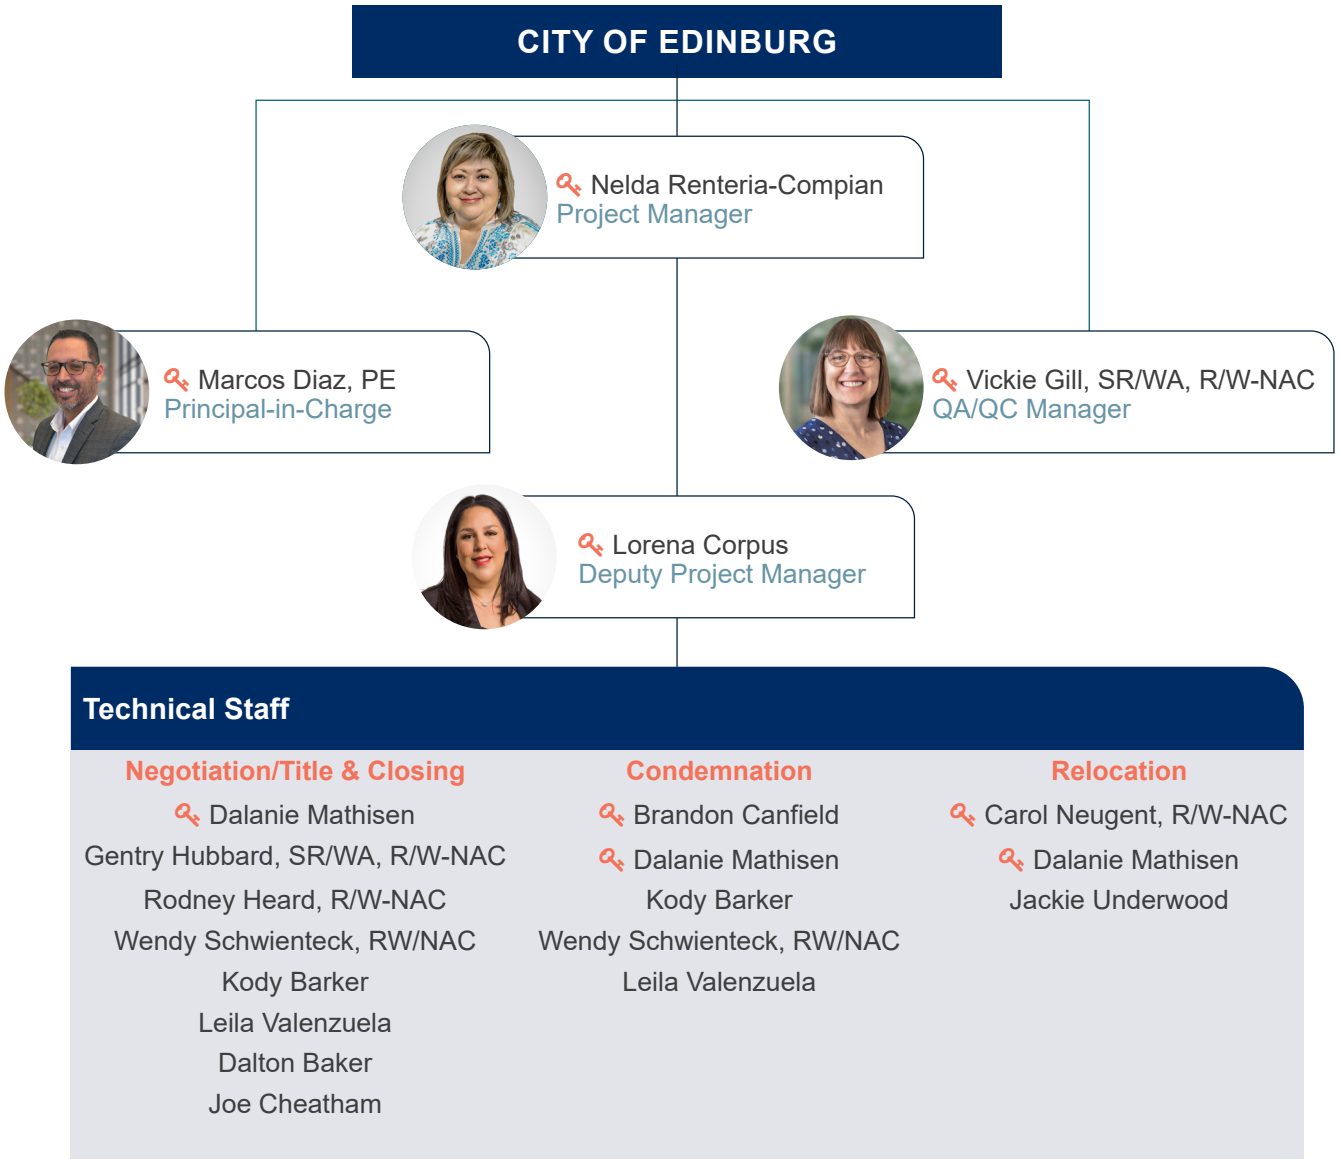
Disadvantaged Business Enterprise (DBE)

Halff includes small businesses owned and controlled by socially and economically disadvantaged individuals in government contracting.

Meeting or Exceeding DBE Goals

Halff promotes contract diversity and inclusion by surpassing the specified targets for utilizing DBEs.

Fair Labor Standards Act



Halff enforces minimum wage, overtime pay eligibility, record keeping, and child labor standards for employees.

Team Member Qualifications & Experience

Organizational Chart

The organizational chart below demonstrates the staff's roles, responsibilities, and reporting structure. Our personnel are dedicated to providing sufficient time and effort to produce a quality product. With this in mind, our team members were carefully selected not only for their expertise but also for their availability to work on any project for its duration. Resumes of our key personnel are provided on the following pages.

Nelda Renteria-Compian

Nelda has more than 39 years of experience in ROW acquisition. She served as the South ROW Project Delivery Manager for the six southern TxDOT Districts from November 2009 to August 2015. From October 1983 to October 2009, she worked in various right of way positions, including negotiations, relocation, eminent domain, and title curative, which included preparation and review of acquisition payment processing. She has a vast knowledge of complex ROW projects and has served as a Project Manager for Halff.

REPRESENTATIVE PROJECT EXPERIENCE

TxDOT San Antonio District, FM 1560 Phase I and Phase II, San Antonio, TX. Project Manager for this project which consisted of the acquisition of 80 parcels for the widening of FM 1560 from FM 471 to Galm – Shaenfield Road. Services include project administration, appraisal management, negotiation, title curative, closing and condemnation support.

Bexar County, Talley Road Capital Improvement Project, Phase II, Bexar County, TX. Project Manager for this project which consisted of the acquisition of 25 parcels along newly expanded roadway corridor. Services included project administration, appraisal and review appraisal management, negotiation, title curative, and closing.

San Antonio River Authority (SARA), Real Estate Services, San Pedro Creek, San Antonio, TX. Project Manager for this project tasked with assisting SARA on the Real Estate Department for the San Pedro Creek Improvements Project, Phase 4 in obtaining Right of Entries and Temporary Construction Easements for 14 parcels. Services included project administration, negotiation, and closing.

TxDOT El Paso District, SH 178 (Artcraft Road), El Paso, TX. Project Manager for this project which consists of improvements for safety and reliability of travel time. Proposed improvements will include four direct connectors (DCs) at the interchange of I-10 and SH 178. The DCs will allow drivers to bypass the frontage road, traffic light signals, and traffic congestion on North Desert Blvd. and South Desert Blvd. Also proposed are U-turn bridges at the SH 178 (Artcraft Road)/I-10 interchange.

TxDOT Corpus Christi District, SH 123/SH 80 Widening Project, Karnes City, TX. Project Manager for this project which consisted of widening the roadway to include a continuous center turn lane (between 14 and 16 feet), 12-foot travel lane, 14-foot outer travel lane in each direction, and six-foot sidewalks or 10-foot shared-use path. At the southern end of the project, from approximately 0.2 miles south of East Main Avenue to just north of the intersection of US 181 and SH 80/SH 123, the existing two-lane roadway would be widened to four lanes (two in each direction) with a continuous center turn lane, shoulders, and sidewalks.

REGISTRATIONS

Professional Engineer: TX #107249

REPRESENTATIVE PROJECT EXPERIENCE

City of McAllen, Bicentennial Boulevard, McAllen, TX. Project Manager responsible for leading the 2.75-mile extension to Bicentennial Boulevard from Trenton Road to SH 107. Coordinated with the client, several City departments, McAllen Public Utility, TxDOT, and Hidalgo County Drainage District during the planning and design phase. The planning phase consisted of providing the schematic design with horizontal and vertical alignments, drainage design, noise wall design and project constraints including Right of Way needs. The design phase consisted of finalizing the horizontal and vertical alignment, reviewing cross-sectional views, utility relocations, irrigation canal adjustments, environmental services, and developing grading and drainage design for the proposed road.

Brasfield & Gorrie, San Antonio US Federal Court House, San Antonio, TX. Project Manager responsible for the civil design of the federal courthouse. The design plans included demolition plan, paving plan, dimensional control plan, drainage plan, utility plan, grading plan, erosion control plan, LID bioretention swale, SW3P manual and construction specifications. Halff was involved in a federal courthouse built as a design-build project. This project consisted of the preparation of construction documents for the design of a 6.4-acre site for a U.S. Courthouse. Work included preliminary design concepts through final design review for a 4-story building comprised of courtrooms, offices, detention spaces, and support areas inclusive of an atrium.

City of Eagle Pass, On-Call Engineering Services, Eagle Pass, TX. Project Manager responsible for civil engineering projects throughout the city. Also responsible for performing development and plat reviews as needed and allocating resources to support city staff during construction with an inspector. Representative projects include Calle de los Santos drainage improvements that required special coordination with Maverick County Water Control and Improvement District #1 to cross a major irrigation canal with five 6'X4' boxes under the canal. Katie-Omar Drainage Improvements and Katie-Jenna Drainage Improvements, both of which consisted of designing improvements that prevented backwater to flood a neighborhood with the use of flap gates.

Insurance Coverage

Please see our itemized insurance coverage below. In accordance with the requirements of this RFQ, we have also included our insurance certificate as a separate upload line item on the City's opengov.com site.

Category	Coverage
Commercial General Liability	Each Occurrence (EO) ($2,000,000); Damage to Rented Premises - EO ($1,000,000); Medical Expenses ($25,000); Personal and ADV Injury ($2,000,000); General Aggregate ($4,000,000); Products - Comp/OP AGG ($4,000,000)
Automobile Liability	Combined Single Limit - Each Accident ($2,000,000)
Umbrella Liability	Each Occurrence ($5,000,000); Aggregate ($5,000,000)
Worker's Compensation	Statutory Limits
Employer's Liability	Each Accident ($2,000,000); Each Disease - Per Employee ($2,000,000); Each Disease - Policy Limit ($2,000,000)
Professional Liability	Per Claim ($1,000,000); Aggregate ($1,000,000)

Professional Services Agreement

Halff has read the Professional Services Agreement and will meet the prerequisite insurance requirements. Halff also requests the opportunity to negotiate certain terms and conditions in the Professional Services Agreement.

Contact Information

As Project Manager, **Nelda Renteria-Compian,** will be your primary point of contact for any future projects. In the instance that Nelda is unavailable, the secondary contact for these projects is **Lorena Corpus.** Their contact information is as follows:

Nelda Renteria-Compian
Project Manager
nrenteria-compian@halff.com | 361.400.4603 | 361.534.4913 (m)

REAL ESTATE SOLUTIONS FOR INFRASTRUCTURE

The City of Edinburg

"Moving Edinburg Forward"

RFQ 2026-2 for ROW Acquisition Services

O. R. Colan Associates, LLC

... Inspiring Confidence in Progress

Submitted to:

The City of Edinburg
Attn: Mr. Mardoqueo Hinojosa, CFM, CPM, City Engineer

415 W. University Dr.
Edinburg, Texas 78541

Submitted by:

Alyssia Padilla, SR/WA, Director
5510 Atascocita Road, Suite 220 Humble, TX 77346
m: 303-886-5367 | e: apadilla@orcolan.com

EIN 01-0780018

July 14, 2026

Mr. Mardoqueo Hinojosa, CFM, CPM, City Engineer
City of Edinburg
415 W. University Dr.
Edinburg, Texas 78541

Re: TRANSMITTAL LETTER - RFQ# 2026-2 Right of Way Acquisitions Services

Dear Mr. Hinojosa,

O. R. Colan Associates, LLC (ORC) is pleased to submit this statement of qualifications to the City of Edinburg for the provision of real property acquisition services. Our team has acquired more than 2500 parcels in the past 10 years in Texas, mostly under the Federal Uniform Relocation Assistance and Real Property Acquisitions Policy Act of 1970.

We maintain a local presence across Texas since 2002 with offices in Austin, Humble, Fort Worth, and Odessa. Our proposed team, led by Director Alyssia Padilla, SR/WA, represents more than 300 years of right-of-way experience. No other firm has the breadth or scope of experience with complex projects, and we offer a full range of coordinated land, relocation and right-of-way services, including:

Project Management	Relocation Assistance	Feasibility Studies
URA Compliance	Rights of Entry	Coordination of Survey/Mapping
Records Management	Real Estate Acquisition	Eminent Domain Support

- We have not received any addendums to this RFQ.
- Director Alyssia Padilla, SR/WA, and Steven Gonzales, Project Manager, will lead our proposed Project Team. Together, they have more than 35 years of ROW experience with Federally funded projects and local public agency (LPA) projects, managing 500+ projects of varying sizes and scopes. Ms. Padilla contacted at: 5510 Atascocita Road, Suite 220 Humble, Texas 77346 | m: 303-886-5367 e: apadilla@orcolan.com
- Founded in 1969, our firm has grown to more than 400 employees with offices across 20 states. With over 24 years of experience in the local area and the support of advanced project management systems, we provide the City with a proven, cost-effective, and efficiently managed approach to project delivery.

Please feel free to contact me directly, should you wish to discuss this project or ORC's qualifications further. I can be reached at 888-420-4090 x 201; stoth@orcolan.com. I look forward to a successful relationship between ORC and the City of League City.

Respectfully,

Stephen J. Toth
Chief Executive Officer

Demonstrated Excellence

Founded by Mr. Owen Richard Colan in 1969, **O. R. Colan Associates, LLC (ORC)** specializes in land acquisition, relocation, and program management for public works projects. Since ORC's founding, we have grown our business from just a handful of employees to 400+ professionals and 38 offices in 20 states.

ORC is recognized nationally in the field of right-of-way appraisal, negotiation, and relocation assistance for projects implemented under the provisions of the Uniform Relocation and Real Property Acquisition Policies Act of 1970 (Public Law 91-646, as amended); and Title 49 Code of Federal Regulations Part 24. Our clients primarily are public agencies with eminent domain authority, including hundreds of cities and counties, 28 state departments of transportation, more than 60 airport authorities, the Federal Emergency Management Agency, the Environmental Protection Agency, the National Park Service, the U. S. Army Corps of Engineers, the General Services Administration, and numerous state, county, municipal, and local public agencies.

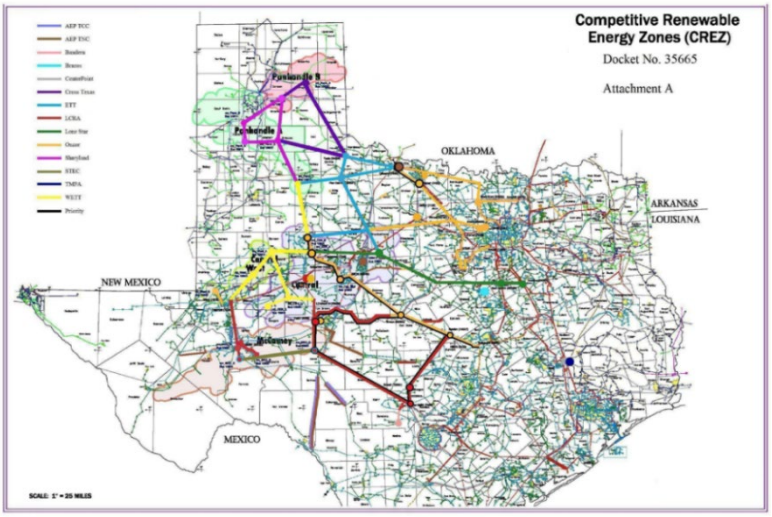
ORC has provided the full scope of land acquisition services for public agency clients since 1969.

ORC's Industry and Key Project Benefits

- **Large Infrastructure Project Contribution:** ORC brings an impressive contribution record to important infrastructure projects of all types, acquiring on average more than 2,000 parcels annually for public agencies.
- **Right-of-Way Consulting Services:** ORC has provided right-of-way consulting services that support broadly scoped contracts for the Central States Water Resources, City of Bastrop, City of San Antonio, the San Antonio River Authority, the Texas Department of Transportation (TXDOT), and dozens of other local public agencies throughout the state of Texas.
- **Federal / State Guideline Expertise:** Through providing right-of-way services for public agencies nationwide, ORC has acquired a broad range of experience under both federal and state guidelines. Further, we understand that each municipal agency, state, or county has unique reporting requirements that the consultant must meet. **In this respect, our proposed Project Team brings exemplary experience in managing the complicated contracting responsibilities that often accompany cross-agency and/or multi-departmental project scopes.**

Specific Texas PMOC Experience & References

Our Texas Project Team has acquired more than 2,000 parcels and performed more than 1,000 relocations on behalf of dozens of local clients as a Project Management Oversight Contractor (PMOC). Some specific highlights of our work in Texas with clients similar to the City of Edinburg include:



Project	Demonstrated Experience	Cost	Reference
City of San Antonio - Prue Road Expansion	This is small Design-Build project for the expansion of Prue Road from Babcock Road to Laureate Drive for the Transportation and Capital Improvement Department of the City of San Antonio. ORC provides Right of Way acquisition services as a subconsultant to Michael Baker International and J. D. Abrams, LP.	$200,000	City of San Antonio; Kevin Sadler 210-207-4039 kevin.sadler@sanantonio.gov
City of River Oaks - Meandering Road Tarrant County, TX	ORC provided project management, appraisal, title curative and negotiation services for 44 construction licenses and 2 fee simple acquisition for the City of River Oaks. All parcels were closed within 6 months, well ahead of the project schedule. ORC provided these services as a sub to Lamb-Star Engineering.	$100,000	City of River Oaks Marvin Gregory III City Manager 817-626-5421 ext 324 mgregory@riveroakstx.com
City of Pflugerville - Limestone Commercial Extension	ORC provides right of way acquisition services for the Limestone Commercial Extension project, acquiring property rights from four parcels to support the roadway extension from the Stone Hill Shopping Center to the Pfluger Farm Lane Extension. The project improves east-west connectivity, enhances traffic circulation, and helps reduce congestion within this rapidly developing commercial corridor.	$90,000	Norma Martinez, MBA Real Estate Manager Public Works Department City of Pflugerville (512) 990-6342 (office) NormaM@pflugervilletx.gov
City of Justin - Seventh Street Waterline Improvements	Provided full service right of way acquisition services, successfully acquiring easements from two property owners to support construction of the City's Seventh Street Waterline project.	$20,000	Matt Cyr Director of Development Services and Economic Development City of Justin mcyr@cityofjustin.com Phone: (940) 648-2541 x 106
Central States Water Resources	ORC provides project management, appraisal, title curative, and negotiation services for multiple on-call right of way easement projects. ORC is supporting CSWR on projects in Texas, Arizona and Louisiana.	$200,000	Central States Water Resources Helen Morse 314-470-8007 hmorse@cswrgroup.com
City of Bastrop, Val Verde Waterline Project & Agnes St Project	ORC provided project management, appraisal, title curative, and negotiation services for two waterline projects for the City of Bastrop. Three parcels were acquired for the Val Verde waterline project and two parcels were acquired for the Agnes Street project.	$250,000	City of Bastrop Andres Rosales 512-332-8800 arosales@cityofbastrop.org
TxDOT, US 281 Lampasas and Coryell Counties, TX	ORC provides the following services: Project Management, Appraisal, Appraisal Review, Title Curative, Negotiation, Relocation, Pre-Condemnation, and Condemnation Support for *285 roadway parcels*, spanning 15 miles. The roadway was realigned to improve safety while impacting residential and commercial properties in Lampasas, Evant, Adamsville, TX. This project is currently in process.	$5 Mill	TxDOT - Jeremy Pennington 325-800-8833 Jeremy.Pennington@TxDot.gov
TxDOT, FM 664 Collin County, TX	ORC provided the following services: Project Management, Appraisal, Appraisal Review, Title Curative, Negotiation, Relocation, Pre-Condemnation, and Condemnation Support for *67 roadway parcels*. This corridor is known as the "US 69 Gateway to the Big Thicket." The project will widen and improve US 69 from North of Kountze to Warren. It traverses Hardin and Tyler Counties and will create a 4-lane, divided roadway with shoulders, an evacuation lane on the northbound lanes, and a median to accommodate hurricane evacuation. Challenges in rural areas center around probate and ownership issues, this project was no different.	$1.8 Mill	TxDOT – Candra Meeks 214-320-6616 candra.meeks@TxDOT.gov

Utility Project Experience

In addition to our statewide experience providing right-of-way acquisition services for public agency clients, our sibling company, ORC Utility & Infrastructure Land Services, LLC, has worked on more than 200 statewide utility projects, acquiring over 2,000 parcels in the last three years alone. The following sampling of clients and projects illustrates for the City our breadth of experience with Texas utility clients.

Competitive Renewable Energy Zones (CREZ) Project *(DFW area, TX)*

The Texas CREZ (Competitive Renewable Energy Zones) project is the largest transmission project in US history. ORC provided project management and right-of-way coordination on Oncor's CREZ project, which spans 40 Texas counties and more than 800 miles of new lines, stations, and reactive power compensation. The consortium of 13 electric transmission companies that comprise CREZ transport electric (wind) energy from west Texas to the more populated areas of the state – DFW, Austin, San Antonio, and Houston. The project itself spanned 10,000 miles. All thirteen companies were required to obtain permission from the Public Utility Commission of Texas for each of the 100 segments.

With ORC's historical success on complex ar sensitive projects, and given the project's sensitivity, ORC was asked by Oncor, the el transmission provider in the DFW area a member of the CREZ consortium, to help r acquisition activities. Our Project Tea provided project management services on the Anna" segment of the line, the line closest ar to the DFW area. Of the 1,000 miles of trans Oncor is responsible for constructing, "K and the "Ector Co. to Moss" which represent long corridor as well as acquiring 210 parce aggressively tight construction timeline, recognized the critical need for ROW acquisition coordination and project management; therefore, ORC' managed budget projection/allocation along with ROW surveyor, engineer, appraiser, and various other professional services.

New Bethel Energy Center *(Anderson and Freestone Counties, TX)*

Oncor is interconnecting a proposed Compressed Air Energy Storage (CAES) electric generation facility, located in Anderson County, with the Electric Reliability Council of Texas (ERCOT) grid. Due to the generating plant site required location and its proximity to accessible existing transmission facilities, Oncor will construct a 13.5 mile-long 345 kV electric transmission line to interconnect the proposed plant to the electric grid.

Permian Basin – Culberson 138kV *(Reeves and Ward Counties, TX)*

Oncor Electric Delivery Company LLC (Oncor) is proposing to construct a double circuit 138kV electric transmission line on steel monopoles, interconnecting the existing Permian Basin Switching Station located in Ward County with the existing Culberson Switching Station located in Culberson County. The

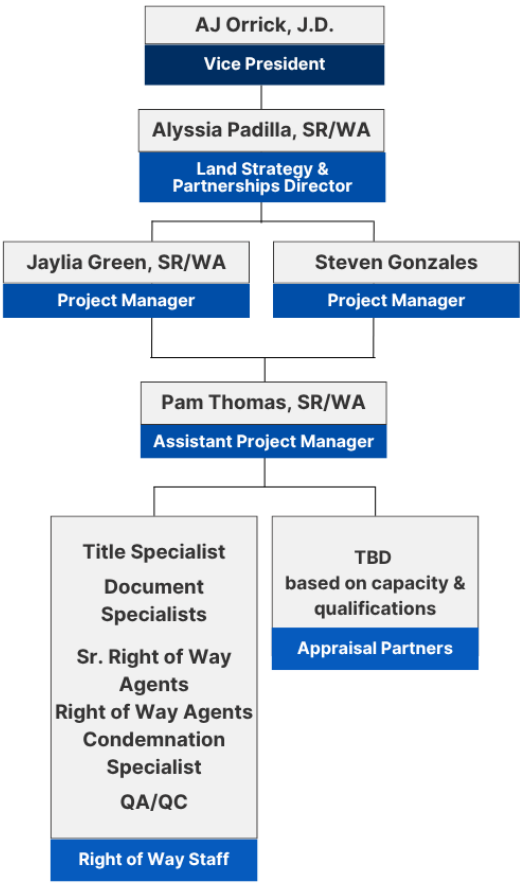
proposed 138kV transmission line will be approximately 99 miles long and traverse 194 parcels in West Texas. ORC U&I oversaw ROW project management, title/abstract work, easement acquisitions, and construction support.

Oncor Electric Delivery – Master Services Agreement

Since 2016, ORC has maintained an on-call Master Services Agreement with Oncor Electric Delivery. Since this contract's kick off, ORC has been assigned 100+ projects throughout Oncor's Texas service area, varying in scope and complexity from five parcels to 20 parcels.

Project Name	Voltage	Texas Counties	Miles	# of tracts
Riverton - Sand Lake (A)	138kV	Ward, Reeves, Culberson	40	84
Riverton - Sand Lake (B)	345kV	Ward, Reeves, Culberson	40	84
Odessa - Riverton (A&B)	345kV	Crane, Ector, Loving, Reeves, Ward	110	85
Horseshoe Springs - Owl Hills	138kV	Culberson	30	27
Owl Hills - Tustill	138kV	Culberson, Loving, Reeves	19	57
Cogdell - Clairemont	138kV	Kent, Scurry	24	8
Sand Lake - Solstice	345kV	Pecos, Reeves, Ward	45	69
Riverton - Kyle Ranch	138kV	Reeves, Loving	16	20
Kyle Ranch - Quarry Field	138kV	Loving	18	25

Riverton – Sand Lake 345/138 kV Electric Transmission Line



In May 2018, the Public Utility Commission of Texas (PUCT) approved the construction of the Riverton – Sand Lake 345/138 kV electric transmission line. Designed to meet the growing electric load in the West Texas area, the project spans three Counties – Loving, Reeves, and Ward – and 40 miles. The project ultimately will impact 80 landowners. Oncor began the project in late 2018, with construction continuing into Spring 2019 and the transmission line in service by mid-2019. ORC will oversee all permission to surveys and title reports as well as acquisition and contraction support activities.

AVAILABLE RESOURCES

Leadership and Project Team

ORC has operated in Texas since 2002. We presently maintain four offices in the state in Austin, Fort Worth, Humble, and Odessa. Our proposed key staff members are licensed real estate professionals as recognized by the state of Texas. As such, we are duly registered, licensed, and certified to practice applicable real property acquisition services in the State of Texas. Each agent *has* attended multiple TxDOT in-house training for the implementation of Senate Bill 18, which addresses the impacts on negotiations and eminent domain practices – since the conception of this law in September 2011. ORC Agents have followed the strict requirements set by TxDOT to ensure that the policies and procedures are achieved on behalf of TxDOT and other local public agencies.

Additionally, all agents are members of the International Right of Way Association, most with a certified designation or are in pursuit of a designation. ORC is prepared to assign the following key staff members to CITY projects:

Alyssia Padilla, SR/WA – Land Strategy & Partnerships Director – Program Management, Negotiations, Condemnations

Ms. Alyssia Padilla joined ORC in July of 2023 led the Texas, Oklahoma and Arkansas operations as a Divisional Director. Recently Alyssia was promoted to Director of Land Strategy & Partnerships, a role focused on project scoping, planning, and client engagement and delivery. Alyssia has a rich background in the right-of-way industry, spanning the electrical utility and transportation sectors and is poised to bring a wealth of experience to your projects. She is highly accomplished at overseeing fast-track, complex projects, ensuring project schedule, scope, and budget adherence. She offers astute experience in the following areas: project management, negotiation, relocation, title curative, condemnation, easement acquisition and permitting. A recognized leader in the field, Alyssia was the youngest instructor in IRWA history and was honored as the 2024 IRWA Young Professional of the Year.

Steven Gonzales, RWA – Project Manager, Acquisition, Condemnation, TREC Agent

Mr. Steven Gonzales is a US Army Veteran and brings over 15 years of project management experience and more than two decades of real estate and development expertise, supporting complex capital improvement programs across the City of Austin. He has successfully led multidisciplinary teams and managed large-scale acquisition efforts. Steven excels in project management, negotiating, coordinating with stakeholders, and advising on land rights for infrastructure projects. His background includes leadership roles overseeing right of way professionals, resolving sensitive issues, and ensuring compliance with regulatory requirements, all while keeping projects on schedule and aligned with organizational goals.

Jaylia Green, SR/WA, R/W-NAC – Project Manager, Negotiation, Condemnation, Disposals, TREC Agent

Ms. Jaylia Green has been a valued member of ORC for eight years, serving as a highly effective Project Manager for TxDOT projects. Based in the Austin office, she consistently receives exceptional performance reviews for her leadership and delivery on TxDOT projects throughout the state. Jaylia brings extensive catalogue of turnkey PMOC (project management oversight contractor) project experience. She excels in budget management, invoicing, and oversight of appraisal subcontractors, while leading acquisition, relocation, title curative, and condemnation efforts—all with a strong focus on maintaining project schedules and successful delivery.

Pam Thomas, SR/WA – Assistant Project Manager – Negotiations, Relocation, Notary Public, TREC Agent

Ms. Pam Thomas joined ORC in January of 2024 and has over 9 years of right of way experience on various projects throughout Texas. Primarily, her work has focused on TxDOT projects, but she has provided acquisitions for LPA's and utility providers like the LCRA and the City of Fort Worth.

Maria Beltran, R/W- RAC, RWA – Senior Relocation Agent, Negotiations, Notary Public, TREC Agent

Ms. Maria Beltran joined ORC in July 2025, bringing outstanding experience in relocation services and fluency in both English and Spanish. She excels in guiding property owners through complex relocation processes, delivering top-tier customer service while ensuring projects remain on track. Maria provides expert advisory support on residential, business, and personal property relocations for both TxDOT and LPAs across Texas. In addition to her relocation expertise, she is also a highly skilled negotiation agent and is bilingual.

Toni Reece – R/W-NAC, Right of Way Agent – Negotiation, Notary Public, TREC Agent

Ms. Reece joined ORC two years ago bringing with her a residential real estate and survey background. She is adept at title research and negotiating with difficult landowners.

Heather Westerman – Right of Way Agent – Negotiations, Easements, Notary Public, TREC Agent

Ms. Westerman joined us in 2024 with 13 years of experience as a real estate agent. Her specialty is negotiation on transportation projects and easement acquisition. She is a Texas sales agent and notary public.

Heather Bagley, SR/WA, – Title and Condemnation Agent, Negotiations, Notary Public, TREC Agent

Ms. Bagley has been with ORC for 1 year and brought a breadth of title knowledge from her prior 20 years of experience in the right of way industry. Heather conducts our condemnation efforts from title curative efforts, to petition preparation, and Special Commissioners' Hearing coordination.

Resumes

As requested, we have submitted résumés summarizing the qualifications and experience of the Directors and Project Managers listed above.

METHODOLOGY, TECHNICAL APPROACH AND TIMELINE

Our team will design a specific technical approach for the project once the project scope is defined and the desired timeline for completion of the project is established. That said, we offer the following generalized methodology as representative of the standard approach our team will take on a very generalized project.

1. Communication & Project Management Services

On a typical project with a wide variety of properties, the main tasks of the Project Manager (PM) will be appropriate staffing, coordination, and scheduling. The variety of appraisal types, negotiations and project segment scope may require a variety of staff with different specialties. The risk here is assuming all appraisers are equally capable of handling all the properties or that all right of way agents can handle the same property type. The manager will need to assign the appropriate staff members to appropriate tasks.

In addition, the PM will need to monitor closely the Work Breakdown Schedule for each individual parcel as the time to acquire and obtain possession of each parcel will be substantially different. The risk here is assuming all the parcels on the project can be acquired on the same schedule. This is far from the case and the manager needs to understand this and educate their staff and all stakeholders of this fact.

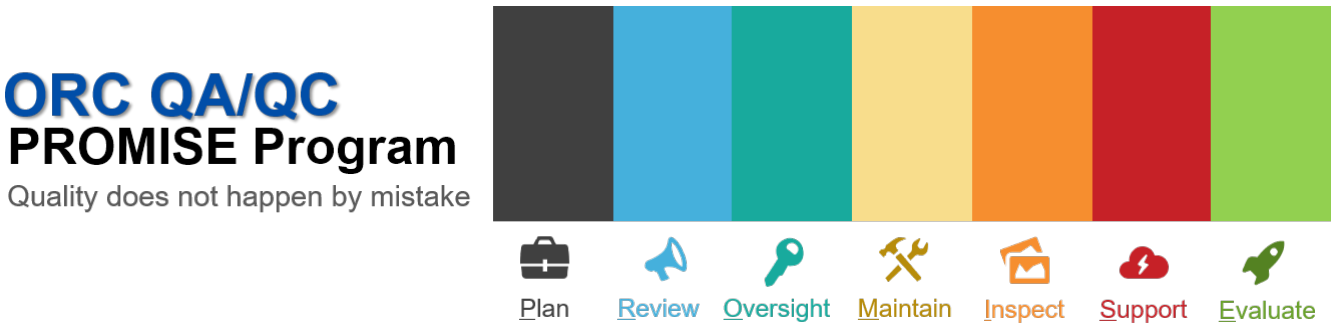
To meet the schedule, a plan needs to be developed as to the best approach to the project. This would begin by identifying those parcels that will require the most time to acquire. Part of this analysis will involve visiting the project site with project manager/engineer team for the job. Each property will be viewed and discussed and from this, priorities will be set. It would be anticipated that those parcels with an anticipated lengthy acquisition process should be appraised first.

It is incumbent upon the PM to identify outdoor advertising signs, cell towers, cemeteries, fire stations, churches or other community-centric establishments that could potentially delay possession of any parcel and request those appraisals first. Another concern is the type of utility relocations in the area. ORC's PM will coordinate with City's PM and Engineer to determine critical times for specific utility relocations and plan accordingly. Information management and communication will also be key to the success of the project.

Among other communications for which Project Management will be responsible includes the monthly invoice, preparing an initial property owner contact list, and a bi-monthly report as to project status including issues and potential solutions.

Accelerating Project Schedule

Rapid turnaround for settlements, payment requests, and closeout files are our goal. We have found that keeping title and GIS services in house with the pays off in spades. All parties benefit when we work cohesively. While addressing issues with the project manager/engineering team, we always aim to bring solutions based on our project history. In our experience the initiatives mentioned above, collectively, advance projects. We are accustomed to working under tight deadlines and welcome challenges. In this respect, we have invested in project management technologies and programs designed to enhance project management, improve efficiency, and promote greater communication and collaboration among project stakeholders. Our project management approach includes the utilization of our project management software, Parcel Suite which is further described below.



Potential Issues

Every project has some type of issues, whether it be unresponsive landowners or title companies, late design changes, survey errors, existing or unforeseen probate issues, difficult title curative, strangers or gaps in title. ORC works aggressively at the start of the project to identify potential issues to make the best use of our time in hopes of determining a resolution expeditiously and not disrupt the project

schedule. Familiarity with the title work is our highest priority as we know some title issues take months to clear. Once offers are made, we are proactive in reaching out to landowners and setting up times to discuss their offers, preferably in person. If landowners are hesitant to accept the offer, we encourage them to submit a counteroffer and advise them as to what is compensable and what is not, giving them the best opportunity for approval. With any issue, our plan is to stay in close communication with the landowner and the City to address concerns and keep the process moving.

Our Commitment to Quality – The PROMISE Program

ORC has instituted the most advanced QA/QC system in the industry. Like the technological resources we offer our clients, we have invested significantly in this program, and support it with a catalogue of high-level technologies, specially designed systems, and a dedicated and professional staff. However, we define its value to our clients – at no additional project cost or budgetary impact – simply: **PROMISE**.

Achieving our Quality Policy requires ORC to:

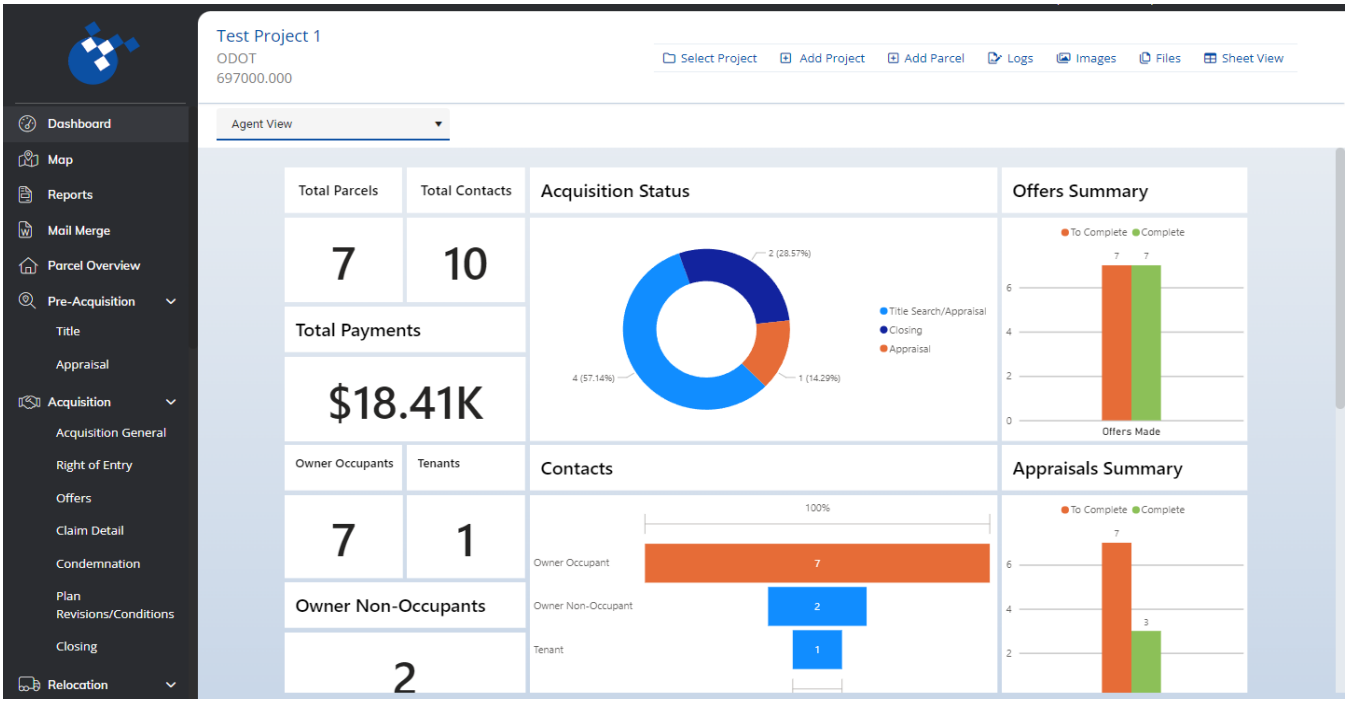
- Review all acquisition file information throughout the acquisition process to ensure all information is complete, accurate, compliant, and up to date;
- Review all notices, letters, and claim packages before sending to the CITY or other parties to eliminate delays in service of notices, communication, or payment processing;
- Discuss (QA/QC Reviewer) any file aspects with the Field Supervisor to correct any errors or discuss alternatives for providing cost-effective price calculation;
- Share any assigned unique and/or modified procedures with the project staff;
- Implement QA/QC to audit completed files and ensure their compliance/organization according to City standards.

While our "quality control" concept is simple, we apply it at many levels and in many ways, yielding many client benefits.

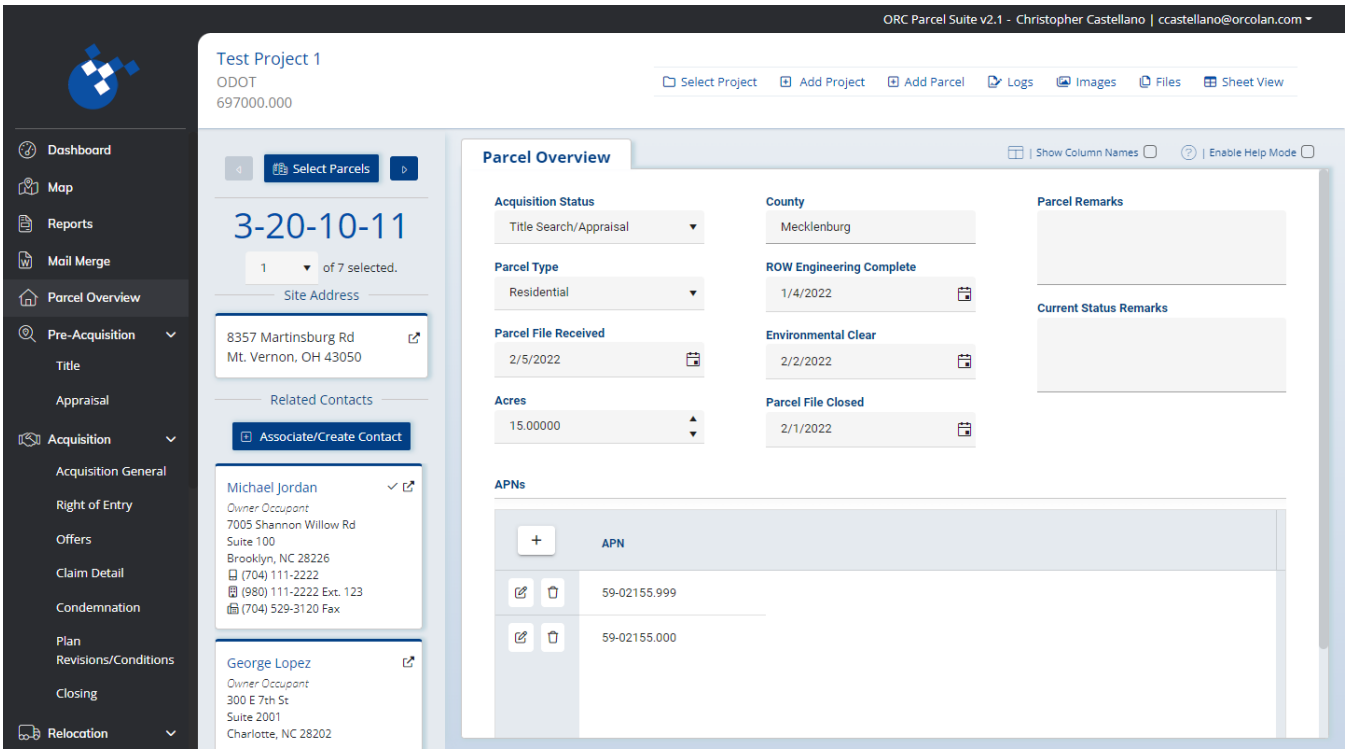
This strategy has helped optimize product quality and assure our clients that no funding is jeopardized for non-compliance. Applying our program **"key aspects,"** illustrated below, allows our clients to recognize this rigorous system's tangible benefits:

- Complying with relevant laws, regulations, and internal requirements;
- Fostering a quality mind-set to develop and offer trusted, client-preferred, defect-free services;
- Continuously challenging ourselves to improve the quality management system and guarantee our focus on quality;
- Demonstrating continuous improvement by sharing lessons learned to prevent quality incidents and eliminate defects;
- Ensuring that our process identifies, assesses, quantifies, and mitigates our operational risk.

2. File Management Services



ORC's Document Specialist plays a critical role in supporting the right of way acquisition process by ensuring accurate and timely drafting and quality control coordination of every document. This position requires meticulous attention to detail, strong organizational skills, and proficiency in document management and record-keeping. As such, ORC's document specialist coordinates with ORC's QA/QC team to conduct a thorough review of each document to ensure accuracy, completeness, and subject matter compliance. Additionally, the Document Specialist coordinates with the Project Manager and Negotiation Agents to ensure that all elements of the right of way process have been entered into ORC Parcel Suite and all documents are stored in ORC's Dropbox and/or in the CITY's preferred document storage system. ORC will need to know if the CITY has a preferred document storage database and if so, how access will be granted.



ORC Parcel Suite®

In addition to our experience with various external real estate databases, ORC recognized the need for a powerful and adaptable proprietary project management system as an option for all our clients with the resources to more effectively track project activities, schedule, and budgets – **a tool that can track all project activities**.

ORC Parcel Suite is a comprehensive ROW database solution, built internally at ORC and designed specifically for managing ROW projects, made available if needed for **real-time** parcel tracking and reporting to project stakeholders. With ORC Parcel Suite, the project stakeholders can access pertinent documents and information for every parcel in **real-time**. Instant fingertip updates offer assurance that the project is progressing appropriately.

ORC Parcel Suite's GIS/Mapping features can produce aerial project overlays that enhance negotiations and foster trust with affected property owners. Parcels are color-coded based on any set of data conditions. These overlays can be accessed electronically in the field via a tablet or phone. If approved by the City, ORC will utilize Parcel Suite to track property acquisition. Because ORC Parcel Suite is a web-based data system, project staff members can monitor the real-time status of the ROW project at any time.

Benefits for the City

100% developed and maintained in-house by ORC staff	Contact log tracking and entry with speech recognition
Completely customizable navigation, sections, fields, validations and help system per project	Ability to add images from the app or from the field via ArcGIS field maps
Granular role-based security	Ability to add, view and categorize file attachments
Quick data entry via Sheet View	Mail merge module for generating and populating custom Word-based templates such as letters
Custom dashboards and paginated reports per project and audience	Complete rules engine for complex validation, email and SMS alerts, field updates and calculations
GIS integration with static and dynamic layers based on real-time project data criteria	

3. Title and Closing Services

Title research is essential in real estate acquisition and involves the comprehensive examination and analysis of the chain of title to determine ownership, identify any existing encumbrances, liens, or other claims against the property. ORC can either work with a licensed title subconsultant such as WFG National Title or ORC provides comprehensive in-house title services that are tailored to streamline right of way acquisition processes for large-scale infrastructure projects.

While ORC is not a licensed title insurance provider, ORC's title team can deliver all title work necessary for the project. By retaining title work within our team, we eliminate the delays and inconsistencies often associated with third-party vendors. Our dedicated title professionals conduct thorough research, analysis, and documentation, ensuring that ownership records, encumbrances, and legal descriptions are accurate and up to date. This centralized approach allows us to generate certified title certificates efficiently and consistently across the project footprint. In-house management also enables seamless collaboration between title specialists and acquisition agents, fostering real-time communication and expedited issue resolution. ORC's integrated systems and quality control protocols ensure that each title product meets agency and legal standards while reducing turnaround times. By keeping this critical work under our roof, we maintain full control over the schedule, quality, and cost, maximizing efficiency while minimizing risk. This model is especially valuable on high-volume corridor projects, where delays in title work can create cascading impacts across acquisition and relocation timelines.

4. GIS Easement Exhibit Services

To streamline project delivery and reduce dependency on external vendors, the ORC GIS Team will take the lead in drafting recordable easement exhibits for this project. Leveraging in-house GIS capabilities not only accelerates the overall timeline by eliminating delays typically associated with third-party surveyor scheduling, but also allows for more agile and responsive collaboration. When revisions arise, whether due to route adjustments, parcel negotiations, or stakeholder feedback, negotiators can work directly with ORC's internal GIS staff to implement updates in real time. This eliminates the wait times and coordination complexities of outsourcing, where revisions often compete with other assignments on the surveyor's docket. Furthermore, utilizing our GIS Team ensures consistent formatting, improved quality control, and centralized data management throughout the lifecycle of the project. This approach also reduces costs related to external drafting services and allows the team to quickly produce exhibits that are tailored to jurisdictional requirements. By keeping the work internal, we maintain full visibility, communication efficiency, and delivery speed which are key advantages in meeting accelerated project schedules. See attached GIS Easement Exhibit Example "Exhibit B".

5. Negotiation Services

It is anticipated that many agents will be needed to handle the negotiation for a project of this magnitude over the project timeline. Several of the parcels may be complicated acquisitions and require a highly experienced negotiator who can understand all three approaches to value an appraisal and can communicate the appraisal information effectively to the property owner or their representative.

Title curative plans will be created as soon as the title certificates are received and will continue until closing. Agents will remain in close contact with the title agents and thoroughly review each certificate to identify issues that may require time or additional efforts to clear or cure. Diligent efforts at this stage can save the project time and money, and occasionally help avoid litigation.

It can also be important to match Negotiation Agents with the personality of the person with whom the negotiations occur. Certain agents deal well with the older property owners while other agents do better with attorneys who are representing the owners. Often the personality match can have as much to do with the success of the negotiation as do price or other “hard” items.

Negotiations Agents will be required to have their contact logs up to date so at any time it is evident as to the status of the parcel. The Agent and the PM will be in constant communication as to parcel status so that the PM can compare the status of the parcel with the schedule, report this information to the project stakeholders and act as needed.

Negotiation Agents will follow each of their assigned parcels through closing. It is each agent’s responsibility to maintain constant communication with landowners, keep current contact logs, clear title, obtain releases, review closing documents and attend closings.

6. Appraisal Services

Valuation determination by the appraisers consists of conducting site surveys, review of title ownership, review of ESA findings, and a survey review of available existing current and historical data. The appraiser will also identify properties listed for sale within the project limits to provide the CITY with fair market value. All appraisals will be prepared in conformance with all applicable laws, including the Uniform Act and USPAP.

Most projects have several parcels that will require detailed appraisal work scopes. Project Manager will determine the appraiser best suited for each of the assignments and prepare a scope of work which provides the appraiser with clear direction as to the assignment. For instance, one appraiser may be well suited to appraise hotels and cell towers, while other appraisers may have no experience with those. If one appraisal firm is used, the PM will need to provide the firm with the order of priority based upon factors including appraisal complexity, relocation complexity and complexity of the negotiation.

APPRAISAL PARTNERSHIPS

JLL

O'BRIEN RIGHT OF WAY VALUATION

irr. Integra Realty Resources

CUSHMAN & WAKEFIELD

The appraisals all need to be completed within 90 days of the Notice to Proceed on the Project, with the long lead time parcels being the first to be completed within the first 60 days or sooner.

7. Condemnation Support Services

Whether there is one condemnation, four condemnations, or many more, a parcel that goes to condemnation can drive a project because so much of the timing is beyond the control of the project.

Condemnations pose one of the biggest risks to bringing the project in on time. To meet deliverable deadlines, our staff will begin preparing Request for Eminent Domain Proceedings as soon as the title commitment is received, and other interested parties are verified.

After the Petition is filed and the Notice of Lis Pendens recorded, our staff will make every effort to immediately contact commissioners and begin determining a hearing date that works for all parties, as there are many factors that may delay this process, such as, holidays, travel plans, other hearing conflicts for attorneys, appraisers and others. Condemnation support will continue through deposit of award and Release of Notice of Lis Pendens.

8. Scope of Work and Schedule

Our service approach, provided above, addresses the different components of the Scope of Work narratively. We provide the following sample project schedule as a graphic illustration of a typical right-of-way acquisition project. In this respect, we will provide tailored project schedules for each task order issued to us by the City. Schedules are distinctly affected by project size (number and type of affected parcels), complexity (design), desired timeline, and project type (roadway, utility, etc.). As such, it should be understood that this representation is only a sample. It does not necessarily represent any of these important factors.

INSURANCE

ORC has included a current Certificate of Insurance (COI) demonstrating our existing insurance coverage. We maintain the required insurance in accordance with the Professional Services Agreement and will continue to meet all applicable insurance requirements throughout the term of the contract. Additionally, ORC has not had any insurance claims within the past five (5) years.

PROFESSIONAL SERVICES AGREEMENT

ORC has reviewed the Professional Services Agreement included with this solicitation and understands its terms and conditions. ORC confirms that it will meet the required insurance requirements and, if selected for award, agrees to enter into the Professional Services Agreement with the City.

CONTACT INFORMATION

Alyssia Padilla, SR/WA, Director, and AJ Orrick, Public Sector Vice President, are authorized representatives of ORC and may be contacted regarding this proposal. They are available to respond to questions, provide additional information, and serve as the primary points of contact throughout the procurement process.

- Assisted with project coordination on 14 parcels of land for the widening of the road, raised median, share-use path and sidewalk, and new traffic signals.

The City of River Oaks – Meandering Road – (In Progress*)*

- Initiated title research and condemnation services required for Meandering Road improvements.

IH 35N – Capital Expressway, Austin, TX – (In Progress*)*

- Assisted in project coordination and condemnation required for 112 parcels along IH 35 between US 183 and 1835.

Texas FM 1887 – From Chisholm Trail Parkway East to Business 1187 (*In Progress)*

- Negotiated and assisted with project management required to acquire 65 parcels to widen FM 1187 from Chisholm Trail Parkway East to Business 1187 McCard Avenue.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
AWARDING OF BIDS
Agenda Item No: 13.B.
2026-2028 Real Estate Appraisal Services Rotation

1. **Agenda Item:**
Consider Awarding RFQ No. 2026-3, Real Estate Appraisal Services to Qualified Firm(s) and Authorize the City Manager or Designated Appointee to Enter Into a Professional Services Contract with Such Firm(s) as Projects Arise. [Mardoqueo Hinojosa, P.E., CFM, City Engineer]

2. **Description:**
On occasion, the City of Edinburg requires Real Estates Appraisal Services on City projects which require this type of specialty. The qualified firm(s) selected should be experienced in the field of general appraisals as well as commercial appraisals and have extensive experience in right-of-way appraising. It is expected that the qualified firm(s) selected will have a sufficient level of innovation and appraisal expertise to carry out the projects without constraints to produce documents in a timely manner. The firm must be prepared to assure the City of Edinburg that key personnel indicated in their qualification statement will maintain their role in each project and that their present workload is such that each project will be completed on or before the due date. The rotation is for potential projects between October 2026 through September 2028. Projects are to be funded in the upcoming fiscal years, as prioritized by the City Council.

Request for Qualifications was received on Tuesday, July 14, 2026, at 3:00 p.m. for Real Estate Appraisal Services. A total of six (6) Requests for Qualifications were received and reviewed by staff. All the submittals received met the criteria set out in the Request for Qualifications. The following qualified firms listed in alphabetical order have submitted Statements of Qualifications in response to this RFQ:

1. Appraisal Haus, LLC*
2. BBG, Inc.
3. Leonel Garza Jr. & Associates*
4. Lowery Property Advisors
5. Partners Real Estate
6. Titan Commercial Valuation

*On 2024-2026 rotation

Limiting the selection of firms between 1 and 3 will insure each firm will obtain a project as it arises. The current 2024-2026 rotation has two (2) firms, and they have received approximately three (3) projects.

3. **Staff's Recommendation:**
Staff recommends awarding RFQ No. 2026-3 Real Estate Appraisal Services to qualified firm(s) and authorize the City Manager or designated appointee to enter into a Professional Services Contract with such firm(s) as projects arise.

1. Introduction

1.1. Summary

The City of Edinburg's Engineering Department is currently seeking to retain a rotation list of qualified professional Real Estate Appraisal Services to provide Appraisals. The term of the contract will be two (2) years from 10/01/2026 – 09/30/2028. The services request is to provide the following services: appraisal of real estate properties for acquisition, lease, financial and/or strategic planning and other informational interests and purposes by the City. Generally, the selected real estate appraiser(s) will be expected to perform the services in accordance with the Scope of Services and in accordance with the requirements of this solicitation. The City of Edinburg reserves the right to issue multiple awards under this solicitation as deemed in its own best interests.

Proposal Submission Deadline:
July 14, 2026, 3:00pm

2. Legal Notice

2.1. Notice to Respondents

The City of Edinburg is soliciting sealed proposals from qualified vendors for Request for Qualifications - Real Estate Appraisal Services.

Sealed Proposals must be submitted electronically or received by the City Secretary's Office no later than:

3:00 pm, Tuesday, July 14, 2026.

All sealed proposals must be received either electronically or at the designated location by the deadline shown. Proposals received after the deadline will not be considered for the award of the contract and shall be considered void and unacceptable.

All proposals will be opened, and respondent's names publicly read aloud promptly in the City Hall Community Room, at 415 W. University Dr., Edinburg, TX 78539, at 3:00 pm, Tuesday, July 14, 2026.

To obtain a copy of the Request for Qualifications or submit an electronic proposal please visit:

https://procurement.opengov.com/portal/cityofedinburg

If a Respondent chooses to submit a Hard Copy Proposal, it must be delivered in a sealed envelope with a return address and clearly marked "City of Edinburg RFQ No. RFQ 2026-3 to the City Secretary's Office prior to the RFQ opening date and time. The receiving time in the City Secretary's Office will be the governing time for acceptability of the proposals. The respondent's firm name shall appear on the outside of the envelope.

Submit Hard Copy Proposals to:

If submitting Electronic: https://procurement.opengov.com/portal/cityofedinburg

If Hand-Delivering Bids: 415 W. University Drive

c/o City Secretary Department (1st Floor)

If you have any questions or require additional information contained in the RFQ, you may contact Lorena Fuentes, Interim Purchasing Manager. Please be sure to submit your questions via OpenGov Procurement at the website listed above no later than 3:00 pm on Tuesday, July 7, 2026.

The City reserves the right to reject any or all proposals and to waive informalities or technicalities and to accept the Proposal deemed the most advantageous to the City, and hold the proposal for a period of 90 days without taking action.

3. Instructions, Terms and Conditions

3.1. General Instructions

PURPOSE

The purpose of these solicitation documents is to execute a Professional Services Contract for: RFQ 2026-3 Request for Qualifications - Real Estate Appraisal Services

INTENT

The services to be provided under this RFQ shall be in accordance with and shall meet all specifications and/or requirements as shown in this solicitation for RFQ. There is no intention to disqualify any respondent who can meet the requirements.

DEVIATION FROM SPECIFICATION

Please read your requirements thoroughly and be sure that the RFQ offered complies with all requirements/specifications noted. Any variation from the solicitation requirements/specifications must be clearly indicated by letter, on a point by point basis, attached to and made a part of your RFQ. If no exceptions are noted, and you are the successful respondent, it will be required that the service(s) be provided as specified.

SUBMITTAL OF "HARD COPY" RFQ

If submitting a Hard Copy RFQ, it must be submitted in a sealed envelope by the vendor. **Submit two (2) complete sets of the response, one (1) original marked “ORIGINAL,” and one (1) Digital Copy in a flash drive**. Each RFQ must be completely filled out and SUBMITTED IN ORIGINAL FORM complete with all supporting documentation. RFQs submitted by facsimile (fax) will not be accepted. Submittal of an RFQ in response to this solicitation constitutes an offer by the respondent. Once submitted, RFQs become the property of the City of Edinburg and as such the City reserves the right to use any ideas contained in any RFQ regardless of whether that respondent/firm is selected. Submission of a RFQ in response to this solicitation, by any respondent, shall indicate that the respondent(s) has/have accepted the conditions contained in the RFQ, unless clearly and specifically noted in the RFQ submitted and confirmed in the contract between the City and the successful respondent otherwise. RFQs which do not comply with these requirements may be rejected at the option of the City. RFQs must be filed with the City of Edinburg before the deadline day and hour. No late RFQs will be accepted. Failure to meet RFQ requirements may be grounds for disqualification.

If Hand-Delivering Bids: 415 W. University Drive

c/o City Secretary Department (1st Floor)

If submitting Electronic: https://procurement.opengov.com/portal/cityofedinburg

AUTHORIZATION TO BIND RESPONDENT TO RFQ

RFQs MUST give full firm name and address of respondent, and be manually signed. Failure to do so will disqualify your RFQ. Person signing bid must show title or AUTHORITY TO BIND HIS/HER FIRM IN A CONTRACT. Firm name and authorized signature must appear on each page that calls for this information. The legal status of the Respondent whether corporation, partnership, or individual, shall also be stated in the RFQ. A corporation shall execute the RFQ by its duly authorized officers in accordance with its corporate by-laws and shall also list the state in which it is incorporated. A partnership Respondent shall give full names and addresses of all partners. All partners shall execute the RFQ. Partnership and Individual Respondent shall state in the proposal the names and addresses of all persons with a vested interest therein. The place of residence of each Respondent, or the office address in the case of a firm or company, with county and state and telephone number, shall be given after the signature.

ALTERATIONS/AMENDMENTS TO RFQ

RFQ CANNOT be altered or amended after opening time. Alterations made before opening time must be initialed by respondent guaranteeing authenticity. No RFQ may be withdrawn after opening time without acceptable reason in writing and only after approval by the City of Edinburg.

NO RESPONSE TO RFQ

If unable to submit a RFQ, respondent should return inquiry giving reasons.

LIST OF EXCEPTIONS

The respondent shall attach to his/her RFQ a list of any exceptions to the specifications/ requirements.

TIME ALLOWED FOR ACTION TAKEN

The City of Edinburg may hold RFQ's **90 days** after deadline without taking action. Respondents are required to hold their RFQ's firm for same period of time.

RIGHT TO REJECT/AWARD

The City of Edinburg reserves the right to reject any or all RFQs, to waive any or all formalities or technicalities, and to make such awards of contract as may be deemed to be the best and most advantageous to the City of Edinburg.

NUMBER OF CONTRACTS

THE CITY reserves the right to award one, more than one, or no contract(s) in response to this RFQ.

INDEMNIFICATION CLAUSE

The Respondent agrees to indemnify and save harmless the City, from all suits and actions of every nature and description brought against them or any of them, for or on account of the use of patented appliances, products or processes, and he shall pay all royalties and charges which are legal and equitable. Evidence of such payment or satisfaction shall be submitted upon request of the Assistant Purchasing Manager, as a necessary requirement in connection with the final estimate for payment in which such patented appliance, products or processes are used.

ADDENDA AND MODIFICATIONS

Respondent shall carefully examine the RFQ forms, specifications/requirements, and instructions to Respondents. Should the respondent find discrepancies in, or omissions from specifications/requirements, or other documents, or should he/she be in doubt as to their meaning, he/she should request an interpretation via the OpenGov portal:https://procurement.opengov.com/portal/cityofedinburg and obtain clarification by addendum prior to submitting any RFQ. Explanations, interpretations, and supplemental instructions shall be in the form of written Addenda which shall become a part of the Contract documents. Said Addenda shall be available thru the e-procurement portal and e-mailed to all prospective Respondents. All Addenda issued in respect to this project shall be considered official changes to the original RFQ documents. Verbal statements in response to inquiries and/or requests for explanations shall not be authoritative nor binding. It shall be the Respondent(s) responsibility to ensure that they have received all Addenda in respect to this project. Furthermore, Respondents are advised that they must recognize, comply with, and attach a signed copy of each Addendum which shall be made part of their RFQ Submittal. Respondent(s) signature on Addenda shall be interpreted as the respondent’s “recognition and compliance to” official changes as outlined by the City of Edinburg and as such are made part of the original solicitation documents. Failure of any respondent to receive any such addendum or interpretation shall not relieve such Respondent from its terms and requirements. The City may issue a written addendum no later than five calendar days prior to the date bids must be received. Addendums are available online at https://procurement.opengov.com/portal/cityofedinburg

SYNONYM

Where in this solicitation package SERVICES is used, its meaning shall refer to the request for qualifications Request for Qualifications - Real Estate Appraisal Services as specified.

ASSIGNMENT

Respondents are advised that the City of Edinburg shall not allow the successful respondent to sell, assign, transfer, or convey any part of any contract resulting from this RFQ in whole or in part, to a third party without the written approval of the City of Edinburg.

RESPONDENT’S EMPLOYEES

Neither the Respondent nor his/her employees engaged in fulfilling the terms and conditions of this Service Contract shall be considered employees of the City. The method and manner of performance of such undertakings shall be under the exclusive control of the vendor on contract. The City shall have the right of inspection of said undertakings at any time.

INTERPRETATIONS

Any questions concerning the project and/or specifications/requirements with regards to this solicitation for statement(s) of qualifications shall be directed to the designated individuals as outlined in the RFQ. Such interpretations, which may affect the eventual outcome of this request for statements of qualifications, shall be furnished in writing to all prospective Respondents via Addendum. No interpretation shall be considered binding unless provided in writing by the City of Edinburg in accordance with paragraph entitled **"Addenda and Modifications".**

STATUTORY REQUIREMENTS

It shall be the responsibility of the successful respondent to comply with all applicable State & Federal laws, Executive Orders and Municipal Ordinances, and the Rules and Regulations of all authorities having jurisdiction over the work to be performed hereunder and such shall apply to the contract throughout, and that they will be deemed to be included in the contract as though written out in full in the contract documents.

RFQ PREPARATION COSTS

The City of Edinburg shall not be held liable for any costs incurred by any respondent for work performed in the preparation of and production of a RFQ or for any work performed prior to execution of contract.

CONFIDENTIAL INFORMATION

Any information deemed to be confidential by the respondent should be clearly noted on the pages where confidential information is contained; however, the City cannot guarantee that it will not be compelled to disclose all or part of any public record under Texas Public Information Act, since information deemed to be confidential by the respondent may not be considered confidential under Texas Law, or pursuant to a Court order.

VERBAL THREATS

Any threats made to any employee of the City, be it verbal or written, to discontinue the providing of item/material/services for whatever reason and/or reasons shall be considered a breach of contract and the City will immediately sever the contract with the Respondent/Consultant on contract.

RIGHT TO AUDIT

The City of Edinburg reserves the right to audit the vendor's books and records relating to the performance of this contract. The City of Edinburg, at its own expense, shall have the right at all reasonable times during normal business hours and upon at least twenty-four (24) hours' advance notice, to audit, to examine, and to make copies of or extracts from the books of account and records maintained by the vendor(s) with respect to the Supply/Service and/or Purchase Contract. If such audit shall disclose overpayment by City to vendor, written notice of such overpayment shall be provided to the vendor and the amount of overpayment shall be promptly reimbursed by vendor to the City. In the event any such overpayment is not paid within ten (10) business days after receipt of such notice, the unpaid amount of such overpayment shall bear interest at the rate of one percent (1%) per month from the date of such notice until paid.

PAST PERFORMANCE

Respondent's past performance shall be taken into consideration in the evaluation of RFQ submittal.

JURISDICTION

Contract(s) executed as part of this solicitation shall be subject to and governed under the laws of the State of Texas. Any and all obligations and payments are due and performable and payable in Hidalgo County, Texas.

VENUE

The parties agree that venue for purposes of any and all lawsuits, cause of action, arbitration, and/or any other dispute(s) shall be in Hidalgo County, Texas.

CONSIDERATION OF LOCATION OF BIDDER'S PRINCIPAL PLACE OF BUSINESS

The City may give local vendors, whose principal place of business is located within the City of Edinburg, and whose bid is within five percent (5%) of the lowest bid price preference as allowed by Section 271.9051 of the Local Government Code.

AWARD

Respondents are advised that the City of Edinburg is soliciting RFQs and award shall be made to the respondent that in the opinion of the City of Edinburg is the best qualified.

The City of Edinburg reserves the right to award contract(s) based solely on the written proposals. The City also reserves the right to request oral interviews.

FINAL SELECTION AND THE CITY COUNCIL APPROVAL

Selection shall be made of one or more proposers deemed to be fully qualified and best suited among those submitting Proposals on the basis of the evaluation factors included in the Request for Qualifications, if so stated in the Request for Qualifications. Negotiations shall be conducted with the proposers selected. After negotiations have been conducted with each proposer selected, the agency shall select the proposer which, in its opinion, has made the best proposal, and shall award the contract to that proposer. The City may cancel this Request for Qualifications or reject the Qualifications at any time prior to an award, and is not required to furnish a statement of the reasons why a particular proposal was not deemed the most advantageous. Should the City determine in writing and in its sole discretion that only one proposer is fully qualified, or that one proposer is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that proposer. The award document will be a contract incorporating by reference all the requirements, terms and conditions of the solicitation and the contractor's proposal as negotiated. After the selection of the most qualified firm(s), scope of services and billing rates will be negotiated and used as attachments to the City's Professional Services Agreement. This Agreement will then be submitted to the City Council for approval. If the City and the selected firm cannot successfully negotiate an agreement, then the City will enter into negotiations with the next best qualified firm on the evaluation rating list. This procedure may be repeated until one (1) or more firms has been selected and approved by the City Council.

PAYMENT

The City of Edinburg will execute payment by mail in accordance with the State of Texas Pay Law after SERVICES have been completed, introduced to the City, and found to meet City of Edinburg specifications/requirements. No other method of payment will be considered.

CONFIDENTIALITY OF INFORMATION AND SECURITY

Should the successful respondent become the holder of and have access to confidential information in the process of fulfilling its responsibilities in connection with an awarded contract the successful respondent agrees that it shall keep such information confidential and will comply fully with the laws and regulations of the State of Texas, ordinances and regulations of the City, and any applicable federal laws and regulations relating to confidentiality.

EQUAL EMPLOYMENT OPPORTUNITY

Respondent agrees that they will not discriminate in hiring, promotion, treatment, or other terms and conditions of employment based on race, sex, national origin, age, disability, or in any way violate Title VII of 1964 Civil Rights Act and amendments, except as permitted by said laws.

TERMINATION OF CONTRACT

The City of Edinburg reserves the right to terminate the contract if, in the opinion of the City of Edinburg, the successful vendor's performance is not acceptable, no funds are available, or if the City wishes, without cause, to discontinue this contract. Termination will be in written form allowing a 30-day notice.

HISTORICALLY UNDERUTILIZED BUSINESS

Firm(s)/Sub Firm(s) will be required to comply with the President's Executive Order No. 11236 and Order No. 11375 which prohibits discrimination in employment regarding race, creed, color, sex, or national origin. Firm(s)/Sub Firm(s) must comply with the Title VI of the Civil Rights Act of 1964, Minority and Women Owned Business Enterprise standards and affirmative action requirements.

ETHICAL STANDARD

No City official or employee shall have interest in any contract resulting from this bid.

IF YOU HAVE ANY QUESTIONS ABOUT COMPLIANCE, PLEASE CONSULT YOUR OWN LEGAL COUNSEL. COMPLIANCE IS THE INDIVIDUAL RESPONSIBILITY OF EACH PERSON OR AGENT OF A PERSON WHO IS SUBJECT TO THE FILING REQUIREMENT. AN OFFENSE UNDER CHAPTER 176 IS A CLASS "C" MISDEMEANOR.

3.2. INSURANCE REQUIREMENTS

Staff may waive insurance requirements for contracts $0 - $4,999.99, including but not limited to contracts for food, materials, supplies, and construction. Workers' Compensation in amounts which satisfy statutory coverage shall be required for construction projects.

The following insurance requirements will be included in all City contracts of $5,000 - $14,999.99. In contracts not involving building and construction projects, as that activity is defined in TEX. LABOR CODE §406.096, contractors may obtain alternative form of worker accident insurance with minimum limits of liability of $100,000 per claim.

Minimum Insurance Requirements

Type of Coverage Limits of Liability

Worker’s Compensation Statutory Coverage

Comprehensive General Liability

(City named as additional insured)

Bodily Injury $250,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

The following insurance requirements will be included in all **City contracts of $15,000 or more.**

(1) The successful bidder will be required to carry the following insurance coverage and limits of coverage, as well as list the City as an additional insured to liability coverage as requested by the City. In addition, the successful bidder shall provide the City with evidence of coverage and furnish acceptable proof of payment of insurance premiums.

(2) The successful bidder will be required to secure and/or have insurance coverage in force with an admitted property and casualty insurance company licensed by the State of Texas to conduct business in the State of Texas.

(3) In contracts not involving building and construction projects, as that activity is defined in TEX. LABOR CODE §406.096, contractors may obtain alternative form of worker accident insurance with minimum limits of liability of $100,000 per claim

Minimum Insurance Requirements

Type of Coverage Limits of Liability

Worker’s Compensation Statutory Coverage

Employer’s Liability Bodily Injury by Accident:

$100,000 each accident

Bodily Injury by Disease:

$100,000 each employee/$500,000 policy limit

Comprehensive General Liability

Bodily Injury $250,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

Comprehensive Auto Liability

Bodily Injury $100,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

City’s Protective Liability

Bodily Injury $250,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

Policies must name the City of Edinburg as an Additional Insured.

Certificates of insurance naming the CITY as an additional insured shall be submitted to the CITY for approval prior to any services being performed by Contractor. Each policy of insurance required hereunder shall extend for a period equivalent to, or longer than the term of the Contract, and any insurer hereunder shall be required to give at least thirty (30) days written notice to the CITY prior to the cancellation of any such coverage on the termination date, or otherwise. This Contract shall be automatically suspended upon the cancellation, or other termination, of any required policy of insurance hereunder, and such suspension shall continue until evidence that adequate replacement coverage is provided to the CITY. If replacement coverage is not provided within thirty (30) days following suspension of the Contract, the Contract shall automatically terminate.

4. Specifications

4.1. Scope of Services

The City of Edinburg is seeking statements of qualifications from firms interested in providing the City with the services of a licensed real estate appraiser(s) to provide Real Estate Appraisal Services on an “as needed” basis. The required services will consist of the appraisal of real estate properties for acquisition, lease, financial and/or strategic planning and other informational interests and purposes by The City. Generally, the selected real estate appraiser(s) will be expected to perform the services in accordance with the Scope of Services and in accordance with the requirements of this solicitation.

1. The real estate appraiser shall perform at a minimum the following tasks:

A. Provide “fair market value” for viable real estate acquisitions by the City;
B. Prepare market analysis reports that will establish “fair market value” on properties;
C. Research markets and identify potential properties’ values selected for acquisition or disposal by the City;
D. Provide professional opinions and reasonable conclusions on value in land developments, business viability, tax appraisals and eminent domains on the City properties and surrounding areas;
E. Prepare comparable reports on the City properties or potential properties as required.
F. Assist the City personnel and/or Broker Agent in the evaluation of real estate acquisition process;
G. Present oral presentations to the City Board of Trustees, as requested by the City; and
H. Ensure all State of Texas laws and procedures regarding real estate appraisals are followed.
I. Appraisal Report Review

2. The firm(s) is to provide real estate appraisal services for various properties on an as needed basis. Services may include, but are not limited to, typical appraisal services pertaining to:

A. Single family structures;
B. Multifamily structures and complexes;
C. Commercial properties including retail, industrial and office;
D. Vacant land, including residential and commercial; and
E. Mixed Use.

3. Appraisal services must comply with all provisions of the Uniform Standards of Professional Appraisal Practice (USPAP), the USPAP Competency Rule, as well as all provisions of local, state and federal applicable laws, ordinances and regulations and may include the following:

A. Income approach appraisals;
B. Cost approach appraisals; and
C. Comparison approach appraisals.

4. Selected firm(s) must be licensed and/or certified in accordance with the Texas Appraiser Licensing and Certification Act, Texas Occupations Code, Chapter 1103, as amended.

4.2. Submittal Requirements

The RFQ must be submitted according to the instructions outlined herein. Each response should include, at a minimum, the following items not excluding the selection process criteria:

A. Transmittal letter – Indicate interest and commitment to perform services for the City of Edinburg, include contact information (physical address, telephone, fax, cell phone, and email address) for the primary person responsible for your RFQ who will be the point of contact for the City on all correspondence and communications pertaining to the RFQ. State whether any addendums to this RFQ have been received by your firm and whether consideration of their content has been included in your RFQ. The letter must be signed by an officer of the firm who is authorized to bind the firm to contract and shall contain a statement to this effect;

B. Firm Qualification and Experience – Discuss the firm's experience and history in performing real estate appraisal services in a timely manner, particularly for other governmental agencies in the past five (5) years. Discuss the firm's uniqueness to best perform these services for the City. Identify the office location that will be providing the services and the approach to handling part-time staffing needs for smaller assignments.

C. Team Member Qualifications and Experience – Submit resumes summarizing qualifications and experience of project manager, key staff and any support staff likely to be assigned to the work.

D. References – Provide at least three (3) references (names and current phone numbers) from recent work and List all past projects with the City of Edinburg for each proposed team member. Include a brief description of the projects associated with the reference, and the role of the individual.

E. Insurance - Provide information on the types and amounts of insurance carried by the PSP, including General Liability, Auto Coverage, Worker's Compensation, and Professional Liability Coverage. A list of any insurance claims against the firm within the past 5 years.

F. Professional Services Agreement – Provide a statement that the Professional Services Agreement has been read, that the firm will meet the prerequisite insurance requirements, and the firm, if selected, agrees to enter in to such agreement.

G. Contact Information – Each firm must submit the firms two (2) different contact information (Name, Title, Address, Phone Number, Mobile Number, and Email Address).

H. Presentation – Electronic submittal only.

CONFLICT OF INTEREST

CHAPTER 176 OF THE TEXAS LOCAL GOVERNMENT CODE

Effective January 1, 2006, Chapter 176 of the Texas Local Government Code requires that any vendor or person considering doing business with a local government entity disclose in the Questionnaire Form CIQ, the vendor or person's affiliation or business relationship that might cause a conflict of interest with a local government entity. By law, this questionnaire must be filed with the records administrator of the City of Edinburg not later than the 7th business day after the date the person becomes aware of facts that require the statement be filed. See Section 176.006, Local Government Code. A person commits an offense if the person violates Section 176.006, Local Government Code. An offense under this section is a Class C misdemeanor.

For more information or to obtain Questionnaire CIQ go to the Texas Ethics Commission web page at https://www.ethics.state.tx.us/data/forms/conflict/CIQ.pdf

*Response required

4.9. If awarded the 1295 form will need to be provided.*

CERTIFICATE OF INTERESTED PARTIES (Form 1295)

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016. For more information go to the Texas Ethics Commission web page at

STATE OF TEXAS §

COUNTY OF HIDALGO §

CITY OF EDINBURG §

AGREEMENT BETWEEN THE CITY OF EDINBURG AND CONSULTANT FOR PROFESSIONAL REAL ESTATE APPRAISAL SERVICES PURSUANT RFQ NO. XXXX-XXX

The City of Edinburg, Hidalgo County, Texas, a municipal corporation, (hereinafter **"City"**) and **CONSULTANT** (hereinafter **"Consultant"**), are the parties to this Agreement.

RECITALS

WHEREAS, City has authorized staff to request proposals for the On-Call Professional Services, the Consultant shall provide for specific projects as may be requested by the City. Such services shall be defined, scheduled, and authorized in subsequent Task Orders. Services may include, but not be limited to Engineering, PROFESSIONAL SERVICES, and or other as-needed services as stated in Exhibit "A", and

WHEREAS, Consultant has the professional knowledge and abilities to perform the professional engineering and PROFESSIONAL SERVICES; and

WHEREAS, City desires to engage Consultant to render services in connection therewith:

NOW, THEREFORE, City and Consultant do mutually agree as follows:

SECTION I
EMPLOYMENT OF CONSULTANT

A. City agrees to employ Consultant to furnish and provide the Services, as stated in this agreement and **Exhibit "A"**. Upon receipt of Services to the City's satisfaction, the City agrees to pay Consultant as stated in this Agreement.

SECTION II
SERVICES OF CONSULTANT

A. The Consultant shall, in the scope of his work, perform the Services identified in **Exhibit "A"** of this document. City shall provide Consultant with authorization to proceed, after execution of this Agreement.

B. Nothing contained in this Agreement is intended by the parties to create a partnership or joint venture between the parties, and any implication to the contrary is hereby expressly disavowed. It is understood and agreed that this Agreement does not

create a joint enterprise, nor does it appoint either party as an agent of the other for any purpose whatsoever. Except as otherwise specifically provided herein, neither party shall in any way assume any of the liability of the other for acts of the other or obligations of the other.

SECTION III
RESPONSIBILITY OF THE CITY

A. City will facilitate Consultant's work with the following tasks:

1. Provide Consultant with its requirements for the Services.

2. Assist Consultant by providing information reasonably available to the City and pertinent to the Services.

3. Facilitate access to and make provisions for Consultant to enter upon public property as reasonably required for Consultant to perform its Services.

4. Examine all reports, sketches, estimates, drawings, proposals, and other documents presented by Consultant and render in writing decisions pertaining thereto within a reasonable time so as not to delay the Services of the Consultant.

5. Give prompt written notice to Consultant whenever City observes or otherwise becomes aware of any defect in Services.

6. City's representative with respect to interpretation and implementation of the Services and this Agreement will be the City Engineer or such other representative that the City may appoint by written notice to Consultant with whom Consultant will communicate regarding all matters pertaining to this Agreement. Said representative will make all arrangements for consultation by Consultant with employees or designees of City. In addition, said representative shall have authority and responsibility to define and agree upon the scope and specification of the Services, require and receive reports regarding the progress of the Services, and terminate the performance of the Services or any phase thereof in accordance with the provisions of this Agreement.

SECTION IV
RESPONSIBILITIES OF CONSULTANT

A. Consultant shall perform the Services described in **Exhibits "A".**

B. Consultant shall perform its services with care, skill, and diligence, in accordance with the applicable professional standards currently recognized by its profession, and shall be responsible for the professional quality, technical accuracy, completeness, and coordination of all reports, plans, information, and other items and Services furnished under this Agreement. Consultant shall comply with all applicable

federal, state, and local laws, ordinances, codes, and regulations in performing the Services. If Consultant fails to meet applicable professional standards, Consultant shall without additional compensation correct or revise any errors or deficiencies, with or without request to do so by the City.

C. Consultant shall be responsible for the professional quality, technical accuracy, timely completion, and the coordination of Services furnished by Consultant under this Agreement. Consultant shall keep the City informed of the Services performed under this Agreement. In connection with the performance of the Services by Consultant, Consultant agrees to promptly and fully disclose to City any information regarding the Services as City may request.

D. Consultant will develop and maintain a detailed schedule for completion of the Services. The schedule will be a work plan showing activities to be performed and their sequence; and, in addition, activities will contain duration, manpower required, and estimated cost. A preliminary schedule shall be submitted to the City within ten (10) days after execution of a Job Task Order for review and establishment of the level of detail to be included.

E. Consultant will submit monthly progress data for the reporting period which will include the percentage complete and actual start date and actual finish date for all activities worked on by the Consultant during the period. Any changes in delivery dates will be reported. Other information, such as actual hours expended, will be furnished monthly, or as requested, by the City. If requested by the City, schedule update meetings will be held to discuss the results of schedule analysis and necessary action to meet the requirements of the schedule.

F. Consultant shall perform Services necessary to accomplish the work specified in this Agreement, in accordance with this Agreement.

G. City's review or approval of reports, and other services furnished hereunder shall not in any way relieve Consultant of responsibility for the technical adequacy of the work. Neither City's review, approval, or acceptance of, nor payment for any of the Services shall be construed as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

H. Consultant shall be and shall remain liable, in accordance with applicable law, for all damages to City caused by Consultant's negligent performance of any of the Services furnished under this Agreement. Consultant shall not be responsible for any time-delays in the project caused by circumstances beyond Consultant's control.

I. Consultant's obligations under this clause are in addition to the Consultant's other expressed or implied obligations under this Agreement or state law and in no way diminish any other rights that City may have against Consultant for consultant's errors or omissions.

J. All reports, drawings, plans, and other documentation pertaining to the Services become the property of City.

SECTION V
PAYMENT AND FEES

City agrees to pay Consultant for recommendations, reports, design, specifications, and such other services herein contracted for as follows:

A. City hereby agrees to pay a sum not to exceed that which is included in a specific Task Order and authorized by a Notice to Proceed, notwithstanding any contrary indications that may be contained in Consultant's proposal, for services to be performed and reimbursable costs incurred under this Agreement. City shall pay Consultant for services rendered on a lump sum basis pursuant to any specific Task Order and in the manner set forth therein. Consultant shall submit all invoices to City in the manner specified herein. Except as specifically authorized by City in writing, Consultant shall not bill City for duplicate services performed by more than one person. Consultant and City acknowledge and agree that compensation paid by City to Consultant under this Agreement is based upon Consultant's estimated costs of providing the services required hereunder, including salaries and benefits of employees and subcontractors of Consultant. Consequently, the parties further agree that compensation hereunder is intended to include the costs of contributions to any pensions and/or annuities to which Consultant and its employees, agents, and subcontractors may be eligible. City therefore has no responsibility for such contributions beyond compensation required under this Agreement.

B. City is entitled to impose a set-off against payment based on any of the following:

a. Claims have been made against City based on Consultant's conduct in the performance or furnishing of Services, or City has incurred costs, losses, or damages resulting from Consultant's conduct in the performance or furnishing of Services, including but not limited to claims, costs, losses, or damages from workplace injuries, adjacent property damage, and non-compliance with Laws and Regulations;

b. Consultant has failed to take reasonable and customary measures to avoid damage, delay, disruption, and interference with Services and related work;

c. Consultant has failed to provide and maintain required insurance;

d. City has been required to remove or remediate a Hazardous Environmental Condition for which Contractor is responsible;

e. City has incurred extra charges or engineering costs related to submittal reviews, evaluations of proposed substitutes, tests and inspections, or return visits to manufacturing or assembly facilities;

f. Any Services are defective, requiring correction or replacement;

g. City has been required to correct defective Services or has accepted defective Services;

h. Liens have been filed in connection with the Services; or

i. Other items entitle City to a set-off against the payment amount.

C. If City imposes any set-off against payment, City will give Consultant immediate written notice stating the reasons for such action and the specific amount of the reduction, and promptly pay Consultant any amount remaining after deduction of the amount so withheld. City shall promptly pay Consultant the amount so withheld, or any adjustment thereto agreed to by City and Consultant, if Consultant remedies the reasons for such action. The reduction imposed will be binding on Consultant unless it duly submits written notice contesting the reduction within 30 days of receiving City's written notice.

D. All fees payable to Consultant under this Agreement shall be made in full, and without any withholding, deduction, or offset of any state or federal withholding taxes, FICA, SDI, or income taxes, nor shall the City be obligated to pay any of Consultant's employees' taxes. Consultant hereby covenants and agrees that it shall be solely responsible for all taxes, withholding, FICA, SDI, and other similar items (both employee and employer portions) with respect to all fees paid by the City under this Agreement, and agrees to indemnify and hold the City harmless with respect to such taxes and withholding.

E. Consultant and its employees shall not be eligible for, participate in, or be entitled to compensation in lieu of any insurance, benefit, retirement, or other plan or program provided by the City to its employees.

F. Consultant shall provide an invoice in accordance with City regulations. Payment terms shall be net thirty (30) days from receipt of invoice.

G. The City may, at any time, request Consultant to make changes within the scope of the Services or to perform extra work. If any request by the City for a change or extra work causes an increase or decrease in the cost or the time required for performance of the work, or any change to this Agreement, Consultant shall, within fourteen (14) days from the date it receives the City's request, unless the City Engineer grants additional time in writing, submit in writing a proposal for accomplishing such changed or extra work. This proposal shall define, if applicable, any increase or decrease in cost or time of completion or other change to this Agreement. The City must approve

any change orders, pursuant to the City's Code of ordinances and policies and procedures and any other applicable laws of this State, before making the changes. The City will not be liable for any costs incurred by Consultant from performance of a change or extra work prior to issuance of a change order to this Agreement.

H. The total contract price may not be increased because of the changes unless additional money for increased costs is appropriated for that purpose from available funds or is provided for by the authorization of the issuance of time warrants.

I. Prior to and as a condition of final payment to the Consultant following termination or expiration of this Agreement as defined below, the Consultant shall deliver to the City a release in form and substance satisfactory to the City, discharging it and its officers, agents, and employees of all liabilities, obligations, and claims arising out of this Agreement and the performance thereof.

SECTION VI
TERM OF AGREEMENT

A. Except as provided below, this Agreement, and the Services to be performed under it, shall commence on the date this Agreement is executed by both parties, and shall continue thereafter through and the earlier of (i) two (2) years from the date of execution or (ii) until the Services are declared complete in a written instrument signed by the City Engineer and the City Manager. The City shall have the right, in its sole discretion, to extend the term of this Agreement for an additional year upon approval from the City. If approved by City, City shall provide Consultant with a written notice of the approval of the extension.

B. City may terminate this Agreement upon giving 30 days' prior written notice thereof to Consultant. In addition, City shall have the right, upon written notice, to cancel this Agreement immediately if, in the City's sole judgment, the Services rendered by Consultant breach or violate any of the provisions of this Agreement.

C. Upon termination or completion of this Agreement, City shall have no liability to Consultant except for charges for Services performed by Consultant and accepted by the City prior to receipt of notice of termination or cancellation. The terms and conditions in this Agreement that by their sense and context are intended to survive the performance hereof by either or both parties hereunder shall so survive the termination, cancellation, or completion of performance of this Agreement.

D. Upon termination or completion of Consultant's Services hereunder or at such other time as may be requested by City, Consultant shall return to City within ten (10) days of termination, completion, or request all documents, records, notebooks, including copies thereof, whether prepared by Consultant or others, in Consultant's possession and related to the Services.

E. The City reserves the right to suspend work on the Services, with or without cause, in whole or in part, upon giving notice to Consultant. Consultant shall resume the Services so suspended when directed to do so by the City. The City shall have no liability to Consultant except for charges for Services performed by Consultant and accepted by the City prior to receipt of notice of suspension of Services. If only a portion of the Services are suspended, Consultant shall be compensated only for Services of which are not suspended and are actually performed during such suspension.

F. Upon termination of this Agreement or suspension of Services under this Section, the City may take over the work and may obtain the services of another entity to complete the work under this Agreement.

SECTION VII
MINIMUM INSURANCE REQUIREMENTS

Consultant shall be adequately insured and carry liability, workers compensation, automobile insurance and professional liability for injury to its employees and others incurring loss or injury as a result of the acts of Consultant or its employees. In accordance with City ordinances, Consultant shall be required to hold the following minimum insurance coverage throughout the duration of this agreement:

A. Workers Compensation
In accordance with State statute.

B. Comprehensive General Liability

1. Bodily Injury
$250,000 each person
$500,000 each occurrence
2. Property Damage
$100,000 each occurrence
$100,000 each aggregate

or $500,000 combined single limits

C. Comprehensive Auto Liability
1. Bodily Injury
$100,000 each person
$500,000 each occurrence
2. Property Damage
$100,000 each occurrence
$100,000 aggregate
or $500,000 combined single limits

D. City's Protective Liability

1. Bodily Injury

$250,000 each person
$500,000 each occurrence

2. Property Damage

$100,000 each occurrence
$100,000 each aggregate

or $500,000 combined single limits

E. Professional Liability

1. Professional

$1,000,000 per claim and in the aggregate

F. Evidence of the above insurance coverage is attached as Exhibit “B” and the City of Edinburg shall be listed as an additional insured.

G. If at any time and for any reason Consultant fails to provide, maintain, keep in force and effect, or deliver to the City proof of, any of the insurance required and such failure continues for ten (10) days after Notice thereof from City to Consultant, City may, but shall have no obligation to, procure single interest insurance for such risks covering City (or, if no more expensive, the insurance required by this Agreement), and Consultant shall, within ten (10) days following City’s demand and Notice, pay and reimburse City therefor with interest at Prime Rate plus 2%, the Prime Rate being that in place on the date of Notice, from the date of payment by the City until repayment of City in full by Consultant.

H. With respect to each and every one of the insurance policies required to be obtained, kept, or maintained under the terms of this Agreement, on or before the date on which each such policy is required to be first obtained and at least fifteen (15) days before the expiration of any policy required hereunder previously obtained, Consultant shall deliver evidence reasonably acceptable to City showing that such insurance is in full force and effect.

I. Consultant hereby agrees as follows:

1. To punctually pay or cause to be paid all premiums and other sums payable under each insurance policy required to be obtained, kept, and maintained pursuant to this Lease;

2. To maintain in full force and effect the policies required to be carried to the extent so required to be carried pursuant to the terms hereof;

3. To ensure that all Casualty Proceeds are paid to the Party entitled to receive same;

4. Not, at any time, to take any action (or omit to take action) which action (or omission) would cause any insurance policies required to be obtained, kept, and maintained under this Lease to become void, voidable, unenforceable, suspended, or impaired in whole or in part or which would otherwise cause any sum paid out under any such insurance policy to become repayable in whole or in part; and

5. Promptly deliver Notice to City of any facts or circumstances of which it is aware which, if not disclosed to its insurers or re-insurers, is likely to affect adversely the nature or extent of the coverage to be provided under any insurance policy required hereunder.

SECTION VIII
ALTERNATE DISPUTE RESOLUTION/NEUTRAL PARTY

A. If any dispute, controversy, or claim between or among the Parties arises under this Agreement or is related in any way to this Agreement or the relationship of the Parties hereunder (a "Dispute"), the Parties shall first attempt in good faith to settle and resolve such Dispute by meeting at a mutually agreeable time and place to discuss the Dispute within seven (7) days following the original written notice of any Dispute by the party making such a claim. The Parties shall seek to resolve the Dispute in writing within fourteen (14) days following the original written notice of any Dispute by the party making such a claim.

B. If a mutual resolution and settlement are not obtained at the meeting, the Parties shall participate in good faith in formal mediation, within thirty (30) days following the original written notice of any Dispute, with a mutually agreeable mediator at a mutually agreeable time and place. No settlement reached under this provision shall be binding on the Parties until reduced to a writing signed by a representative of Contractor and the City Manager. Unless the parties expressly agree otherwise, each party shall bear its own costs and legal and expert fees incurred in the mediation, and evenly share the costs of the mediator. If after proceeding in good faith the parties, with the assistance of a neutral mediator, do not resolve the dispute within forty-five (45) days following the original written notice of any Dispute, the parties may proceed in accordance with Section IX below.

SECTION IX
CONTROLLING LAW, MANDATORY VENUE, AND FEES AND EXPENSES

A. After exhausting the procedures set forth above, either party may initiate litigation to resolve the dispute. The Law of the State of Texas shall control the Dispute. Venue is mandatory in in State courts located in Hidalgo County, Texas.

B. In the event of any litigation between the parties, the parties shall bear their own costs, including attorneys' fees and expenses.

SECTION X
INDEMNIFICATION

A. To the maximum extent allowed by law, Consultant agrees to and shall indemnify, hold harmless, and defend City, its officers, agents, and employees from any all claims, losses, causes of action and damages, suits and liability of every kind, including all expenses of litigation, court costs, and attorney's fees for injury to or death to any person or for damage to any property, arising out of or directly connected with the negligent or willful conduct of Consultant, its agents, officers and employees, carried out in furtherance of this Agreement.

B. Consultant agrees to assist City in defense of claims or litigation brought against the City related to this project, including any claims related to design or any other services provided by consultant regarding this agreement.

SECTION XI
LIMITATION OF LIABILITY

A. Consultant agrees to limit the City's liability arising from City's acts, errors, or omissions such that the total liability of City shall not exceed Consultant's total fees paid by the City to Consultant for the Services rendered pursuant to the Task Order which is the subject matter of the claim. Consultant agrees that City will not be liable for any indirect, incidental, special, or consequential punitive or multiple damages, including without limitation any damages resulting from loss of use, loss of business, loss of revenue, loss of profits, or loss of data, arising in connection with this Agreement, Consultant's performance of Services, or of any other obligations relating to this Agreement, even if City has been advised of the possibility of such damages. The foregoing limitation of liability shall apply to the maximum extent allowed by law for limitation of City's liability, regardless of the cause of action under which such damages are sought.

SECTION XII
AGREEMENT CONSTRUCTION

A. The headings of the Sections contained in this Agreement are for reference purposes only, and shall not affect the meaning or interpretation of this Agreement. The parties have been advised by counsel in connection with this Agreement. This Agreement shall be construed and interpreted in accordance with the plain meaning of its language, and not for or against either party, and as a whole, giving effect to all of the terms, conditions, and provisions of this Agreement. Nothing contained in this Agreement shall be deemed to confer any right or benefit on any person who is not a party to this Agreement.

SECTION XIII
NO PENDING LITIGATION

A. Consultant represents that there is no action, proceeding, inquiry, or investigation, at law or in equity, before any court, arbitrator, governmental or other board or official, pending to the best knowledge of Consultant threated against or affecting the Consultant or any subsidiaries of the Consultant, questioning the validity or any action taken or to be taken by the Consultant in connection with the execution, delivery, and performance by the Consultant of this Agreement to which the Consultant may be a party or seeking to prohibit, restrain, or enjoin the execution, delivery, or performance by the Consultant hereof or thereof, where in an unfavorable decision, ruling, or finding (i) would adversely effect the validity or enforceability of, or the authority or ability of the Consultant to perform, its obligations under this Agreement to which the Consultant may be party or (ii) would have an adverse effect on the consolidated financial condition or results of operations of the Consultant or on the ability of the Consultant to conduct its business as presently conducted or as proposed or contemplated to be conducted.

SECTION XIV
SEVERABILITY

A. If any term or provision of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions of this Agreement shall remain in full force and effect and shall in no way be affected, impaired or invalidated.

SECTION XV
NOTICE

A. Any notices to be given under this Agreement shall be in writing, (i) sent by registered or certified mail, postage prepaid, return receipt requested or (ii) sent by nationally recognized overnight courier (e.g. Federal Express) with electronic tracking, and addressed to such party as follows:

(a) Notices to the City:

City of Edinburg
415 W. University Drive
Edinburg, Texas 78539
Attn.: City Manager

With a copy to:

City of Edinburg
415 W. University Drive
Edinburg, Texas 78539
Attn.: City Attorney

(b) Notices to Consultant:

Address
City, State Zip Code
Attn.: Contact

B. Such Notices shall be deemed delivered (i) in the case of U.S. mail in the manner provided above, three (3) business days after posting or (ii) if sent by nationally recognized overnight courier with electronic tracking service, the next business day after depositing same with such overnight courier before the overnight deadline and if deposited with such courier after such deadline, then the next succeeding business day.

SECTION XVI
NON-APPROPRIATIONS

A. Notwithstanding anything in the Agreement to the contrary, any and all payments which the City is required to make under this Agreement shall be subject to annual appropriation or other availability of funds, as certified by the Director of Finance.

B. If the City cannot appropriate sufficient funding, then either party has the right to terminate the Agreement by providing ten (10) days' written notice to the other party.

SECTION XVII
SUCCESSORS AND ASSIGNS

City and Consultant each bind themselves, their partners, successors, executors, administrators, and assigns to the other party of the Agreement in respect to all covenants of this Agreement. Neither City nor Consultant shall assign, sublet, or transfer interest in this Agreement without written consent of the other.

SECTION XIX
CONFLICT OF TERMS

If any of the terms of this Agreement conflict in any respect with any of the terms of the attached Exhibits or any current or future Job Task Orders, the terms of this Agreement shall be controlling.

SECTION XX
NO WAIVERS OR ACCORD AND SATISFACTION

A. This Agreement may be amended only by written instrument signed by all parties.

B. No failure or delay of any Party, in any one or more instances (i) in exercising any power, right, or remedy under this Agreement or (ii) in insisting upon the

strict performance by the other Party of such other Party's covenants, obligations, or agreements under this Lease, shall operate as a waiver, discharge, or invalidation thereof, nor shall any single or partial exercise of any such right, power, or remedy or insistence on strict performance, or any abandonment or discontinuance of steps to enforce such a right, power, or remedy or to enforce strict performance, preclude any other or future exercise thereof or insistence thereupon or the exercise of any other right, power, or remedy. The covenants, obligations, and agreements of a defaulting Party and the rights and remedies of the other Party upon a default shall continue and remain in full force and effect with respect to any subsequent breach, act, or omission.

C. Without limiting the generality of the above, the receipt by City of any Services with knowledge of a breach by Consultant of any covenant, obligation, or agreement under this Agreement shall not be deemed or construed to be a waiver of such breach. No acceptance of Services or payment to Consultant shall be deemed to be other than on account of the earliest installment of the amounts due under this Agreement, nor shall any endorsement or statement on any check, or any letter accompanying any check, wire transfer or other payment, be deemed an accord and satisfaction. City may accept services or make payment without prejudice to its rights under this Agreement or pursue any remedy provided in this Agreement or provided otherwise by law or equity.

SECTION XXI
NOTICE OF GOVERNING LAW FOR STATE AND FEDERAL GRANT PROJECTS

The Consultant agrees to abide by all applicable laws and regulations and to make all applicable records and other documentary data available at any time for the purpose of an audit and to ensure compliance with relevant State and federal laws, including but not entirely limited to, those provisions found any future Job Task Orders.

EXECUTED by the parties in triplicate originals on this _____ day of _____, 202___.

RE: RFQ No. 2026-3

Mr. Hinojosa,

Thank you for the opportunity to provide the City of Edinburg information on Appraisal Haus LLC. I have completed the Request for Qualifications electronically via the portal: https://secure.procurenow.com/portal/cityofedinburg. I am confident that Appraisal Haus LLC meets and exceeds the qualifications/requirements set forth by the City of Edinburg. Given the opportunity, Appraisal Haus LLC will conduct and provide services that are comprehensive and timely for the City's projects, and I look forward to establishing a working relationship with the City of Edinburg.

Respectfully submitted,

George J. Salazar II, Certified General Appraiser
Appraisal Haus LLC

The City of Edinburg

"Request for Qualifications-Real Estate Appraisal Services Rotation"
RFQ No: 2026-3

To: Mardoqueo Hinojosa, City Engineer/Engineering Director
City of Edinburg Engineering Department
415 W. University Drive
Edinburg, TX 78541

In accordance with the requirements, and subject to all laws and regulations of the United States and state and local laws, the undersigned respondent proposes and commits to furnish all labor, equipment, material, software and services as set forth in the documents hereinbefore mentioned. The undersigned further agrees, upon acceptance of the its qualification, to execute a contract and/or Purchase Order issued by the City of Edinburg for performing and completing the work described in the RFQ Appraisal Services Rotation requirements/specifications and instructions.

Respondents acknowledge receipt of all the pages of the documents referenced in the "Request for Qualifications-Real Estate Appraisal Services Rotation" presented in connection with this procurement. Respondent understands that the City of Edinburg reserves the right to reject any or all qualifications and further reserves the right to design the evaluation criteria to be used in selecting the lowest and best qualification.

Respondent agrees that this qualification shall be good and may not be withdrawn for a period of ninety (90) calendar days after the scheduled closing time for receiving qualifications, as contained in the Requirements.

Respectfully submitted,

Respondent: George J. Salazar II, Appraisal Haus LLC

PROPOSAL
"Request for Qualifications-Real Estate Appraisal Services Rotation"
RFQ No: 2026-3

PURPOSE

Appraisal Haus LLC submission of Professional Services Request for Qualifications - Real Estate Appraisal Services Rotation 2024-4 for purpose/opportunity to be considered for the rotation list of qualified professional Real Estate Appraisal Services to provide Appraisals for the term of two (2) years from 10/01/2026 – 09/30/2028. Appraisal Haus LLC agrees to provide the following services: appraisal of real estate properties for acquisition, lease, financial and/or strategic planning and other informational interests and purposes by the City.

INTENT

The services to be provided under this RFQ shall be in accordance with and shall meet all specifications and/or requirements as shown in the solicitation for RFQ 2026-3.

SUBMITTAL ELECTRONICALLY

https://procurement.opengov.com/portal/cityofedinburg

INDEMNIFICATION CLAUSE

Appraisal Haus LLC agrees to indemnify and save harmless the City of Edinburg, from all suits and actions of every nature and description brought against them.

UNDERSTANDING THE PROJECT

Appraisal services/appraisal review services for the City of Edinburg may include the valuation of whole properties or partial acquisitions. Appraisal Haus LLC is thoroughly familiar with the requirements of both types of assignments.

Appraisal Haus LLC will consider all State of Texas requirements as well as additional client requirements when appraising properties for the City of Edinburg. If any Federal funding would be included for acquisition or construction purposes it would be necessary to comply with the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of1970 (the Uniform Act).

Each appraisal shall be developed as specified by the City of Edinburg. The appraisal report shall indicate the current market value of the subject property as per the date of on-site and/or off-site inspection without project influence as indicated by the scope.

The inspection is limited by the permissibility of the subject owner as per the date of the report. In the event an on-site inspection is not permitted, the appraiser shall continue the inspection off-site. Once the appraisal has been completed the report shall be delivered to the client.

Once negotiations have commenced, the appraiser shall be available to answer any questions or concerns by the property owner and assist the negotiator as needed.

In the event a consensus cannot be made as to the market value, the appraiser shall be prepared to continue and prepare condemnation proceedings of which will be billed at an additional cost. This service shall continue until all trial and/or other court proceedings are concluded in the acquisition of the subject property.

If corrections or changes are necessary for the appraisal report, then the revisions and changes will be completed within three (3) business days.

FIRM INFORMATION

I, George J. Salazar II, am the principal appraiser for Appraisal Haus LLC. I have been a licensed real estate appraiser in the Rio Grande Valley since 2008. My clientele includes financial institutions, political subdivisions, private citizens, etc.

Firm Name, Address, Phone Number, and Contact Person regarding the Statement of Qualification:

Appraisal Haus LLC
502 W. Kuhn St.
Edinburg, TX 78541
Contact: George J. Salazar II, Owner
Phone: (956) 386-1500
Email: jaimesalazar@appraisalhaus.org

PERSONNEL AND STAFFING

George J. Salazar II, Certified Appraiser
Principal State Certified Appraiser for Appraisal Haus LLC directly responsible for property inspections and for preparation and delivery of appraisal reports and for all analysis and conclusions.

Andrew Wetegrove, Appraiser Trainee/Assistant
Provide research assistance such as preparing contract letters, securing deeds, subdivision plats, and appraisal district records, preparing maps, scanning exhibits, and report assembly.

Lorena C. Salazar, Bookkeeping Clerk
Bookkeeping duties consisting of accounts receivable, accounts payable, payroll and maintains all financial records for Appraisal Haus LLC.

Required Certifications and Submittal: Current licenses and/or certifications as required by the State of Texas are included.

Firm's Experience and Qualifications/Scope of Services: Appraisal Haus LLC is interested in performing appraisal/appraisal review and consulting services for the City of Edinburg. Appraisals and appraisal reviews will be performed based on the requirements of the City of Edinburg which are discussed as follows:

SCOPE OF APPRAISAL SERVICES

- Property appraisals will be based on "Fair Market Value" unless otherwise specified or requested. The appraisal report shall be bound, clearly labeled, and signed by the primary certified General Appraiser and any other certified General Appraiser and/or licensed Trainee which aided the process.
- All photographs used within the report must be originals. No digital photos shall be used for the subject property. Digital photos shall only be used for comparable sales. All adjustments to any comparable sales must be clearly explained in a narrative format. All comparable sales must be within a two year time frame. If any sales which have occurred prior to the two year limit, they must be clearly explained and added to the conventional three comparable sales typically used in the appraisal process.
- Current location maps of the subject property that will include, regional, plat, and flood maps. This information must be clearly labeled for the subject property.
- All reports shall be an "Appraisal Report" unless otherwise requested and shall follow the 2026/2027 or most current Uniform Standard of Professional Appraisal Practice (USPAP) rules and regulations. Each appraisal report must be physically inspected, photographed, and personally signed by the primary General Certified Appraiser of the firm. Appraiser trainees may aid in the collection of the information; however, all analysis and conclusions must be performed by the primary General Certified Appraiser.

SCOPE OF APPRAISAL REVIEW SERVICES

- Review all appraisal reports for each property to determine consistency of values, supporting documentation related to the conclusion reached, compliance with the Uniform Standards of Professional Appraisal Practices.
- As a review of an initial and update appraisal are two separate and distinct appraisal assignments, the fees must consider the complexity of each separate assignment.
- Beyond delivery of the review appraisal of the initial and updated appraisal documents, the review appraiser can be called to provide preparation and testimony for any Special Meeting/Commissioners Court.
- Appraisal review reports will be completed within a negotiated timeframe and receipt of a fully executed purchase order.
- It is the City of Edinburg's sole option to require TXDot's form ROW-A-10 "Tabulation of Values" in the deliverable for appraisal review assignments.

Appraisal Haus LLC agrees to the following as requested by the City of Edinburg:

- Provide "fair market value" for viable real estate acquisitions by the City;
- Prepare market analysis reports that will establish "fair market value" on properties;
- Research markets and identify potential properties' values selected for acquisition or disposal by the City;
- Provide professional opinions and reasonable conclusions on value in land developments, business viability, tax appraisals and eminent domains on the City properties and surrounding areas;
- Prepare comparable reports on the City properties or potential properties as required.
- Assist the City personnel and/or Broker Agent in the evaluation of real estate acquisition process;
- Present oral presentations to the City Board of Trustees, as requested by the City; and
- Ensure all State of Texas laws and procedures regarding real estate appraisals are followed.
- Appraisal Report Review

Services may include, but are not limited to, typical appraisal services pertaining to:

- Single family structures;
- Multifamily structures and complexes;
- Commercial properties including retail, industrial and office;
- Vacant land, including residential and commercial; and
- Mixed Use.

Appraisal services must comply with all provisions of the Uniform Standards of Professional Appraisal Practice (USPAP), the USPAP Competency Rule, as well as all provisions of local, state and federal applicable laws, ordinances and regulations and may include the following:

- Income approach appraisals;
- Cost approach appraisals; and
- Comparison approach appraisals.

Qualifications and Recent Experience of the Firm: Our recent appraisal experience includes appraisals of unimproved land, subdivided lots, single family residential property, offices, warehouses, restaurants, and retail buildings. Special use properties include churches, event centers, and golf courses. In addition, Appraisal Haus LLC has been involved in the appraisal of several projects involving partial acquisitions of land for road widening, utility easements, and irrigation right of way (references available upon request).

Ability to Commence Services: Appraisal Haus LLC is committed to commencing services immediately upon negotiating a contract for services.

Familiarity with the Geographic Area: Our firm has over 20 years of appraisal experience in the Hidalgo County and surrounding areas. Our work encompasses all types of property and we have worked in almost every community in Hidalgo County.

Affirmative Action Programs: Appraisal Haus LLC does not discriminate against any employee or applicant for employment because of race, religion, sex national origin, or disability, unless those factors are bona find occupational qualifications necessary to the normal operation of the contractor.

Insurance Requirements: Commercial General Liability, Automobile Liability, Workers Compensation, Professional Liability Acord Certificate attached.

Statutory Compliance: Appraisal Haus LLC will comply with all applicable State & Federal laws, Executive Orders and Municipal Ordinances, and the Rules and Regulations of all authorities having jurisdiction over the work to be performed hereunder and such shall apply to the contract throughout, and that they will be deemed to be included in the contract as though written out in full in the contract documents.

Non-Discrimination: Respondent does not discriminate against any employee or applicant for employment based on race, religion, sex, national origin, or disability.

Jurisdiction: Contract(s) executed as part of this solicitation shall be subject to and governed under the laws of the State of Texas. Any and all obligations and payments are due and performable and payable in Hidalgo County, Texas.

Subcontracting: Appraisal Haus LLC will not subcontract the award.

Valuation + Assessment

July 14, 2026

Lorena Fuentes
Finance Manager
City of Edinburg

RE: RFQ #2026-3

To Lorena Fuentes:

Thank you for the opportunity to submit this proposal in response to the above identified RFP.

BBG is confident our combination of assessment and engineering inspection services provide industry-leading expertise for this assignment. You will have a single point of contact to coordinate all our staff and ensure an efficient use of your time.

Who is BBG? We're the largest independent commercial real estate due diligence company in the nation offering valuation, engineering, environmental, survey, zoning, and construction monitoring services.

What do we do? BBG completes over 40,000 engagements annually.

Why hire us? We don't do anything with commission-based compensation. We provide independent and clear answers to our clients' questions without basing our earnings on their decisions.

In response to RFP, we have prepared this overview of BBG, our experience and capabilities. BBG, Inc. is a national real estate services firm headquartered in Dallas, Texas with 50 offices nationwide. We offer services actively to more than 4,500 clients including investors, lenders, attorneys, accountants, corporations, and several municipal agencies. Over the past 14 years, BBG's employee roster has grown from a dozen or so team members to over 500 professional employees, many of whom are MAI designated and LEED certified. BBG's predecessor, Butler Burgher Group, was formed in 2009 as a commercial real estate valuation and appraisal firm. In 2015, the company was re-organized to form BBG, Inc. and our subsidiary firm, BBG Assessments, LLC. BBG, Inc. operates as the Appraisal and Valuation consulting group, while BBG Assessments, LLC operates as the Engineering and Environmental consulting group. BBG, Inc. is 100% owned by BBG Intermediate Holding, Inc. BBG has extensive firm experience providing appraisal services for municipal agencies across the country. BBG Inc. is licensed in some states under the name BBG Valuation, Inc. Current and prior municipal clients include:

Port Authority of New York and New Jersey
New York State DOT
City of Phoenix Fire Department
Mississippi DOT
City of Charlotte, NC
Township of Rockaway, NJ
City of Philadelphia, PA
City of Sacramento, CA
City of Plano, TX
New Orleans Regional Transit Authority
Norfolk Airport Authority
Township of Parsippany-Troy Hills, NJ
Texas DOT
Johnson County, KY

The BBG Difference

National Footprint. BBG is one of only two national firms offering in-house valuation and environmental and property condition assessment services for all commercial property types.

Customer-focused Growth. BBG is one of the largest national due diligence firms because we deliver best-in-class work products and provide excellent customer care.

Qualified Team. Over 50 percent of BBG appraisers are MAI designated and offer deep industry expertise gained through real-world experience.

Unbiased Independence. By focusing exclusively on due diligence services, BBG guarantees an independent perspective free from potential conflicts of interest.

Innovative Technology. BBG has made significant analytics and IT investments to continually improve our data and report quality. For more information, please visit www.bbgres.com.

I will serve as the point-of-contact for this engagement. My contact information is:

Lending Expertise

Strength in Finance

Providing valuation, environmental, and engineering services for lending institutions requires more than just technical expertise in property valuation and assessment; it requires an understanding of the lending process.

Whether the loan is destined for commercial mortgage-backed security (CMBS) or the institution's balance sheet, BBG has the experience and the personnel to provide any lender with the exact scope of service needed.

Capital Markets & Portfolio Lending

Leveraging managers with prior institutional lending experience helps streamline the quality control process. This combination of technical knowledge and industrial lending experience makes BBG uniquely qualified to satisfy the needs of the commercial real estate debt markets.

CMBS Lenders

BBG has extensive capital market experience valuing all types of real estate for most CMBS lending platforms. Several of our senior management staff have extensive CMBS review and underwriting experience. We understand the key underwriting metrics and principles of a thorough valuation process. Our comprehensive analysis allows lenders and investors to better evaluate the risk profiles of these loans.

Diverse Client Markets

National and Regional Banks

REITs

Asset Managers

Agency Lenders

Investors

Government Agencies

Insurance Companies

Estates & Trusts

Lending Expertise

Specialized CRE Lenders/Agencies

Fannie Mae-DUS and Small Loan Programs

BBG has experience with all Fannie Mae product types, including DUS, Affordable Housing, Public Finance and Structured Finance. In addition to DUS transactions, we have completed appraisals and assessments for Small Loan Product, Manufactured Housing Projects, Assisted Living Facilities, Market Rate and Targeted Affordable Forwards, Moderate and Substantial Rehabilitation Projects, and Tax-Exempt Bond Transactions. BBG has longstanding relationships with all DUS Lenders and the Fannie Mae asset management teams.

Freddie Mac

BBG routinely performs appraisal and assessment services for OPTIGO lenders. Varying services provided include: valuation, environmental, property condition, construction risk, and energy consulting for both conventional and small balance platforms. We have completed services on manufactured housing, build-to-rent, assisted living facilities, market rate and targeted affordable housing, rehabilitation projects, as well as tax exempt projects.

HUD

BBG has completed commercial valuations and assessments in support of the following HUD programs under the Multi-family Accelerated Processing (MAP) and the LEAN program guidance.

+ 221(d)3 and (d)4 — Mortgage Insurance for Rental and Cooperative Housing
+ 223f and (a)7 — Mortgage Insurance for Purchase or Refinancing of Exists Multi-family Housing Projects
+ 232 — Mortgage Insurance for Nursing Homes and Assisted Living Facilities
+ 202/223f — Mortgage Insurance for Elderly or Disabled Persons, Non-Profit Owner

Global and National Banks

Our team works with large global and national banks, ensuring sound financial investments. From single assets to multi-property portfolios, we deliver market insights, property valuations, compliance expertise, zoning analysis, and environmental and engineering solutions tailored to the needs of leading national and global financial institutions.

Regional and Community Banks

With deep industry expertise and offices in every major U.S. market, BBG partners with regional and community banks nationwide, delivering localized knowledge backed by national resources.

Investment Banks

For investment banks, BBG delivers the expertise needed to assess opportunities and mitigate risk—whether on a single asset or an entire portfolio. Our offerings span property valuations, market and feasibility studies, environmental site assessments, property condition assessments, zoning analysis, and regulatory compliance.

Technical Proposal

City of Edinburg, Texas

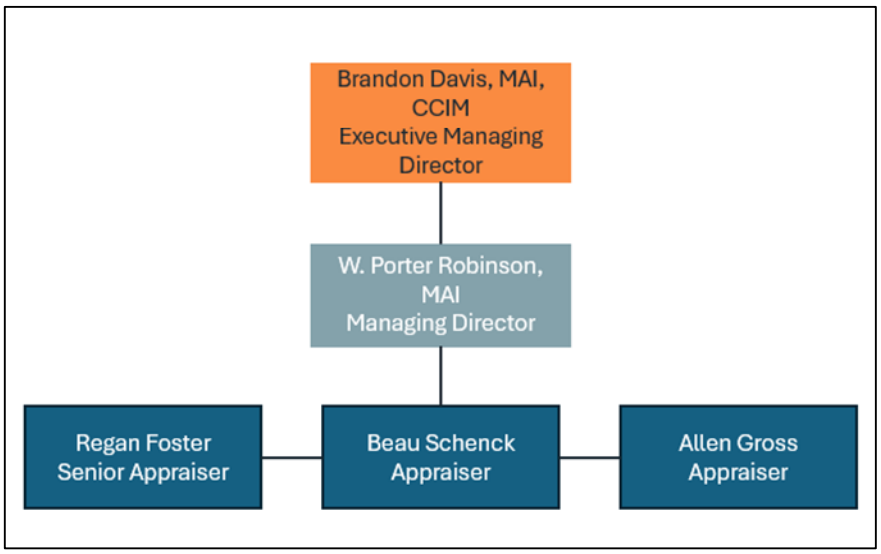
RFQ 2026-3 – Real Estate Appraisal Services

Executive Summary

BBG, Inc. is pleased to submit this Statement of Qualifications to provide Real Estate Appraisal Services to the City of Edinburg on an as-needed basis. The City seeks qualified appraisal professionals capable of providing fair market value analyses, acquisition support, appraisal review, market studies, lease evaluations, financial planning support, and related consulting services for a broad range of property types over the proposed two-year contract term.

BBG is one of the nation's leading independent commercial real estate valuation and advisory firms, providing appraisal, appraisal review, market analysis, feasibility analysis, and consulting services to public and private sector clients throughout Texas and across the United States. Our team possesses extensive experience completing appraisals for municipal agencies, transportation authorities, school districts, utility providers, economic development entities, and governmental organizations requiring independent valuation services compliant with Uniform Standards of Professional Appraisal Practice (USPAP).

For the City of Edinburg assignment, BBG proposes a highly qualified team led by:



- Brandon Davis, MAI, CCIM – Executive Managing Director (Project Principal)
- W. Porter Robinson, MAI – Managing Director (Project Manager)

Supporting staff include:

- Regan Foster – Senior Appraiser
- Beau Schenck – Appraiser
- Allen Gross – Appraiser

The proposed team combines senior-level valuation expertise with the resources necessary to respond quickly to assignments involving acquisition appraisals, eminent domain support, appraisal reviews, market studies, and strategic real estate consulting throughout South Texas. BBG's organizational structure provides direct senior oversight on every assignment while maintaining the flexibility to address routine and complex valuation engagements efficiently.

Organizational Chart

Understanding of the City's Needs

Based on our review of the RFQ, the City intends to establish a rotation list of qualified appraisal firms capable of providing real estate appraisal services for property acquisition, property dispositions, lease evaluations, financial planning initiatives, strategic planning projects, eminent domain support, appraisal review services, market analysis assignments, and advisory services relating to municipal real estate assets.

The City further requires support involving a variety of property types, including single-family residential properties, multifamily developments, commercial properties, industrial facilities, office properties, retail assets, vacant land, and mixed-use developments. All assignments must comply with USPAP requirements, Texas licensing regulations, and applicable state and federal laws.

BBG fully understands these requirements and regularly performs comparable assignments for public-sector clients throughout Texas. Our professionals are experienced in supporting governmental acquisitions, transportation corridors, utility projects, parks and recreation initiatives, municipal facility developments, and redevelopment programs.

Qualifications and Relevant Experience

BBG's valuation platform is specifically designed to support both single-property assignments and large-scale municipal programs requiring rapid turnaround and consistent reporting standards.

Our services include:

Real Estate Appraisal

- Market Value Appraisals
- Acquisition Appraisals
- Disposition Appraisals
- Leasehold Valuation
- Easement Valuation
- Right-of-Way Appraisals
- Eminent Domain Support

Market Analysis

- Market Rent Studies
- Highest and Best Use Analysis
- Development Feasibility Studies
- Absorption and Demand Studies

Advisory Services

- Strategic Asset Evaluation
- Financial Planning Support
- Property Portfolio Analysis
- Municipal Real Estate Consulting

Appraisal Review

- USPAP-Compliant Review Appraisals
- Technical Review of Third-Party Reports
- Litigation and Condemnation Support

These capabilities directly align with the City's identified scope of services.

Project Team

Brandon Davis, MAI, CCIM – Executive Managing Director

Brandon Davis will serve as Executive Principal and senior client contact for the City of Edinburg. He will provide executive oversight, quality assurance review, and strategic guidance on complex assignments.

Mr. Davis possesses extensive experience valuing commercial properties, industrial facilities, office assets, retail developments, multi-family developments, vacant land tracts, special-purpose properties, and more.

His MAI designation demonstrates the highest level of professional achievement within the appraisal profession and reflects substantial experience in valuation, market analysis, and consulting assignments.

His responsibilities include executive oversight, final technical reviews, client coordination, complex valuation consultation, and expert testimony support, if requested.

W. Porter Robinson, MAI – Managing Director

Porter Robinson will act as the day-to-day Project Manager and primary point of contact for assignment coordination. His responsibilities include assignment management, scheduling and resource allocation, scope confirmation, field inspection oversight, client communication, deliverable management, and schedule adherence. Mr. Robinson's involvement ensures direct senior-level attention throughout the appraisal process and rapid response to City requests.

Technical Approach

BBG employs a systematic valuation process designed to ensure reliability, consistency, and compliance with USPAP.

Phase 1 – Assignment Initiation

- Confirm intended use and purpose
- Establish scope of work
- Identify valuation requirements
- Determine reporting format
- Establish project schedule

Phase 2 – Property Investigation

- Site inspections
- Property data collection
- Zoning review
- Market area analysis
- Stakeholder coordination

Phase 3 – Market Research

- Comparable sales investigation
- Lease comparable analysis
- Market trend analysis
- Development activity review
- Land use evaluation

Phase 4 – Valuation Analysis

As applicable, BBG will develop:

Sales Comparison Approach

Used to analyze comparable transactions and derive market value indications.

Income Capitalization Approach

Applied to income-producing assets using current market leasing and capitalization metrics.

Cost Approach

Utilized when appropriate to estimate replacement cost and contributory value.

These approaches directly satisfy the appraisal methodologies identified in the RFQ.

Phase 5 – Quality Control

Every appraisal undergoes:

- Technical review
- USPAP compliance review
- Consistency review
- Senior management review

Phase 6 – Final Delivery

- Electronic submission
- Presentation support
- City staff consultation
- Board or Council presentations when requested

The RFQ specifically identifies oral presentations and support to City leadership as potential requirements and BBG is prepared to provide these services as well.

Ability to Meet Schedules and Deadlines

The City's evaluation criteria place significant emphasis on schedule adherence and responsiveness.

BBG addresses this criterion through:

- Dedicated project management
- Multiple licensed valuation professionals
- Established quality control procedures
- Texas market expertise
- Electronic workflow systems
- Scalable staffing resources

Our team routinely delivers assignments under compressed timelines while maintaining valuation accuracy and regulatory compliance.

Quality Assurance Program

BBG's quality assurance process includes:

1. Scope verification
2. Data validation
3. Comparable sale confirmation
4. Market condition review
5. Independent technical review
6. USPAP compliance verification
7. Final principal approval

This process ensures reliable, defensible valuation conclusions suitable for municipal decision-making, acquisition negotiations, and public accountability requirements.

Commitment to the City of Edinburg

BBG is committed to serving as a trusted valuation advisor to the City of Edinburg. We understand the importance of independent, well-supported appraisals that facilitate informed decisions regarding acquisition, leasing, development, strategic planning, and municipal asset management.

Led by Brandon Davis, MAI, CCIM and W. Porter Robinson, MAI, BBG offers the technical expertise, organizational depth, responsiveness, and local market knowledge necessary to successfully support the City's Real Estate Appraisal Services program over the duration of the contract term.

We respectfully request consideration for inclusion on the City of Edinburg's qualified appraisal services rotation list.

Brandon Davis
Executive Managing Director
Office: 214-269-0536
bdavis@bbgres.com

Profile

Brandon Davis, MAI, CCIM is an Executive Managing Director at BBG. Mr. Davis is responsible for management, client liaison, business development, appraisal production, and training.

Mr. Davis' experience encompasses a wide range of commercial real estate engagements for local and national clients for a variety of purposes. Engagement experience includes asset valuation for funds, financing, estate taxation, ad valorem taxation, purchase price allocation, fresh start accounting, lease accounting, and net asset valuation. He has appraised numerous property types, including office, industrial, retail, vacant land, multi-family, residential, data center, and special purpose facilities. Mr. Davis has completed assignments throughout North America and Europe, and has experience managing large portfolio assignments. His experience ranges from high-density CBD developments to low-density agricultural land uses.

Prior to joining BBG, Mr. Davis was a Managing Director with CBRE where he was responsible for client management and business development.

Prior to joining CBRE, Mr. Davis managed valuations for the central region at KPMG. He was responsible for sales and management of valuations for national and international real property acquisitions and business combinations. Additionally, Mr. Davis served as a real property expert for audit, tax, and advisory groups within KPMG.

Regan Foster
Senior Appraiser
Work: 210.640.5824
rfoster@bbgres.com

Profile

Regan Foster is a Senior Appraiser at BBG in the San Antonio office. Mr. Foster began the appraisal profession in 2011 with the W.F. Smith Company as an associate appraiser. As a certified general appraiser, his experience includes appraisal assignments related to farm and ranch, industrial, multi-family, single-family residential subdivision, free standing retail, restaurants, multi-tenant strip shopping centers, hotel/motel, right-of-way acquisitions at the municipal and federal (Yellow Book) level and a wide variety of appraisal assignments related to income-producing properties, both institutional/ investment grade and small commercial.

Examples of special use projects include mixed-use/master-planned development, golf course, corporate retreat, government owned/leased property and entertainment venue.

While the San Antonio-New Braunfels and Austin-San Marcos MSA's serve as the primary trade area, Corpus Christi and other growth areas of South Texas such as Laredo and the Rio Grande Valley (McAllen and Harlingen/Brownsville MSAs) rank as close seconds.

Re: RFQ 2026-3 — Request for Qualifications, Real Estate Appraisal Services

Dear Mr. Hinojosa and Members of the Selection Committee:

Leonel Garza Jr. & Associates, LLC is pleased to submit this Statement of Qualifications in response to City of Edinburg RFQ 2026-3, "Request for Qualifications – Real Estate Appraisal Services." Our firm is highly interested in, and fully committed to, performing these services for the City. With more than two decades of specialized experience in real estate appraisal and right-of-way acquisition throughout Hidalgo County and the Rio Grande Valley, we are well positioned to provide the City with responsive, USPAP-compliant appraisal services across all property types.

The primary point of contact for all correspondence and communications pertaining to this RFQ is Leonel Garza III, President, Leonel Garza Jr. & Associates, LLC, 7301 N. 7th Street, McAllen, Texas 78504; Office (956) 687-7295; Fax (956) 687-9236; Cell (956) 607-7992; Email leonel3@garza-associates.com. Our firm has received all addenda issued for this RFQ, if any, and their content has been reviewed and incorporated into this submittal. The undersigned is an officer of the firm authorized to bind Leonel Garza Jr. & Associates, LLC to a contract and, by signature below, commits the firm to the terms of this submittal.

Mr. Garza is available to answer any questions or concerns the Selection Committee may have, and the firm is prepared to begin providing appraisal services immediately. We appreciate your time and consideration.

Sincerely,

Leonel Garza III
President
Leonel Garza Jr. & Associates, LLC

REQUIREMENTS / SPECIFICATIONS

CITY OF EDINBURG

REQUEST FOR QUALIFICATIONS 2026-3

“REQUEST OF QUALIFICATIONS - REAL ESTATE APPRAISAL SERVICES”

SECTION I

UNDERSTANDING OF THE PROJECT

SECTION I — UNDERSTANDING OF THE PROJECT

The City of Edinburg's Engineering Department is seeking to retain a rotation list of qualified professional real estate appraisal firms to provide appraisal services on an "as-needed" basis for a two-year term, October 1, 2026 through September 30, 2028, pursuant to RFQ 2026-3. Leonel Garza Jr. & Associates, LLC has carefully reviewed the solicitation and fully understands the scope, purpose, and requirements of the engagement. We understand that the City requires the services of licensed and certified real estate appraisers to determine fair market value and to prepare the supporting analyses for real property that the City may acquire, dispose of, lease, or evaluate for financial, strategic-planning, and other informational purposes.

We further understand that assignments may involve a wide range of property types including single-family residences, multifamily structures and complexes, commercial properties (retail, industrial, and office), vacant residential and commercial land, and mixed-use properties and that each appraisal must be prepared in full compliance with the Uniform Standards of Professional Appraisal Practice (USPAP), the USPAP Competency Rule, and all applicable local, state, and federal laws, ordinances, and regulations. Our firm understands that the selected appraiser(s) may be called upon to provide opinions of fair market value for acquisitions; prepare market analysis and comparable reports; research and identify property values for acquisition or disposition; render professional opinions and reasonable conclusions of value related to land development, business viability, tax appraisals, and eminent domain; assist City personnel and/or the City's broker or agent in the real estate acquisition process; present findings to the City Council or Board as requested; perform appraisal report review; and ensure that all applicable Texas laws and procedures governing real estate appraisal are followed. Leonel Garza Jr. & Associates, LLC is fully qualified, staffed, and prepared to provide these services promptly, accurately, and to the highest professional standards.

FIRM HISTORY

Leonel Garza Jr. & Associates, LLC is a longstanding, family-operated real estate appraisal and consulting firm, with more than thirty (30) years of continuous operation serving South Texas. The firm is led by its President and principal appraiser, Leonel Garza III, a State Certified General Real Estate Appraiser who assumed ownership of the firm following the passing of his father and the firm's founder, Leonel Garza Jr., in 1998. Building on that legacy, Leonel Garza III has more than twenty-five (25) years of specialized experience in real estate valuation, with particular depth in right-of-way acquisition, eminent domain, and general commercial appraisal.

Over the course of its history, the firm has completed appraisal assignments for a broad spectrum of public and private clients — including municipalities, county drainage districts, state and federal agencies, engineering firms, and utility providers — across numerous Texas counties, including Hidalgo, Cameron, Starr, Zapata, Webb, Nueces, and Brooks. This extensive and diverse experience, combined with the firm's deep familiarity with the Rio Grande Valley market, uniquely positions Leonel Garza Jr. & Associates, LLC to serve the City of Edinburg's appraisal needs across all property types and assignment purposes.

SCOPE OF APPRAISAL SERVICES

Leonel Garza Jr. & Associates, LLC provides comprehensive real estate appraisal services designed to determine the credible market value of a subject property as of a defined effective date, independent of project influence. For each assignment, the firm identifies the property rights to be appraised, the effective date and intended use of the appraisal, and the appropriate scope of work, and then develops a supportable opinion of value using recognized appraisal methodology.

The firm's services encompass the full range of appraisal needs contemplated by the City, including opinions of fair market value for acquisition, disposition, and leasing; market analysis and comparable-sales reports; valuations supporting financial and strategic planning; and specialized right-of-way and eminent-domain appraisals. In right-of-way and acquisition assignments, the appraiser inspects the subject property (on-site where owner access is granted, or off-site along the existing right-of-way where access is not available), analyzes the whole property, the part to be acquired, and any remainder, and quantifies damages, cost-to-cure, and diminution in value where applicable. Upon commencement of negotiations, the appraiser remains available to respond to property-owner inquiries and to support the City's negotiators; should the parties be unable to reach agreement on value, the appraiser is prepared to support condemnation proceedings — including expert testimony — through the conclusion of all acquisition proceedings. Services beyond the original scope of work are billed as separately negotiated with the City.

APPRAISAL METHODOLOGY AND APPROACHES TO VALUE

All appraisals prepared by the firm are developed on the basis of market value, derived through the systematic analysis of comparable sales, cost, and income/rental data within the relevant market area. Consistent with USPAP and the requirements of RFQ 2026-3, the firm develops and reconciles the three traditional approaches to value, applying each approach as appropriate to the property type and the specific appraisal problem:

- **Sales Comparison Approach** — used across virtually all assignments, comparing the subject property to recent sales of similar properties and applying market-supported adjustments to derive an indicated value.
- **Cost Approach** — applied where improvements contribute measurably to value, estimating replacement or reproduction cost less depreciation, plus the underlying land value.
- **Income Approach** — applied to income-producing and investment-grade properties such as multifamily, commercial, and mixed-use assets, capitalizing anticipated net income into an indication of present value.

Each report is prepared, reviewed, and signed by all licensed personnel who materially contribute to the assignment, in compliance with Texas law and USPAP, and is delivered in the number of originals and copies specified by the City.

PROPERTY INSPECTION

Each appraisal begins with a thorough inspection of the subject property. For acquisition and right-of-way assignments, property owners are provided a letter of intent advising them of the pending inspection, and the appraiser conducts an on-site inspection whenever owner access is granted; additional on-site inspections are available upon request. Where access to the subject property is not permitted, the appraiser performs an off-site inspection from the existing road right-of-way and other available vantage points, supplemented by public records, aerial imagery, and survey data, so that a credible opinion of value can still be developed. Each property is personally inspected and photographed by the primary appraiser assigned to the engagement.

MARKET ANALYSIS AND DATA SOURCES

For every assignment, comparable sales are carefully screened and analyzed for comparability and reliability before being used to establish the unit rate or value indication applied to the subject property. The firm confirms and corroborates market data through multiple independent sources, including the Multiple Listing Service (MLS); local Realtors, brokers, and fellow real estate appraisers; buyers, sellers, and their representatives; and the deed and property records of the relevant county appraisal districts, including Hidalgo, Cameron, Starr, and adjoining counties. This multi-source verification process ensures that each value conclusion is well supported, market-based, and defensible.

USPAP COMPLIANCE AND COMPETENCY

All appraisal reports prepared by Leonel Garza Jr. & Associates, LLC adhere strictly to the current Uniform Standards of Professional Appraisal Practice (USPAP), the USPAP Competency Rule, and the regulatory standards established by the Texas Appraiser Licensing and Certification Board (TALCB) under the Texas Appraiser Licensing and Certification Act (Texas Occupations Code, Chapter 1103), as well as the standards and ethics of the Appraisal Institute. The firm's commitment to compliance extends to every service it provides, ensuring alignment with all applicable state, federal, and USPAP requirements.

Each appraisal performed by the firm undergoes rigorous review and oversight. Every assignment is personally inspected and photographed by the primary appraiser, ensuring meticulous attention to detail and full compliance with state, federal, and USPAP requirements. The primary appraiser is responsible for certifying the accuracy of the appraisal report, affirming adherence to regulatory standards, and validating the market analysis and value conclusion for the subject property. The firm accepts only those assignments for which it is competent under the USPAP Competency Rule, and its appraisers maintain the continuing education and market expertise necessary to remain fully qualified. This unwavering commitment to professionalism, integrity, and regulatory compliance underscores every aspect of the firm's work.

GEOGRAPHICAL COMPETENCY

The professionals of Leonel Garza Jr. & Associates, LLC possess intimate, firsthand knowledge of the Rio Grande Valley and the greater South Texas market. Leonel Garza III, along with team members Alma Oyervides, Gloria Casas, Elvira Vazquez, Monica Valdez-Garza, and Miguel Martinez, were born and raised in the Valley, giving them firsthand familiarity with its communities, land-use patterns, and market dynamics. Thomas M. Davis, though originally from Austin, Texas, brings more than twenty (20) years of experience appraising within the Rio Grande Valley real estate market, further deepening the firm's collective expertise.

This concentration of local knowledge — spanning Hidalgo County and the surrounding region in which the City of Edinburg is located — satisfies the USPAP Competency Rule and ensures that Leonel Garza Jr. & Associates, LLC is uniquely positioned to deliver comprehensive, accurate, and well-supported appraisals tailored to the specific characteristics of the City's market.

SENATE BILL 18 AND EMINENT DOMAIN TRAINING

Leonel Garza III has completed the training required by the Texas Department of Transportation at the Pharr District Office and has fulfilled the training and disclosure requirements associated with Senate Bill 18 (the Landowner's Bill of Rights and related eminent-domain reforms), remaining current with evolving case law and statutory developments in condemnation and right-of-way practice. This ongoing commitment to education and professional development ensures that the firm remains at the forefront of appraisal and eminent-domain practice and delivers high-quality, legally sound appraisal services to its clients.

COMPLIANCE WITH RFQ 2026-3

Leonel Garza Jr. & Associates, LLC has read and understands all requirements set forth in RFQ 2026-3 and agrees that each requirement falls within the scope of the assignment and will be incorporated into every report and service the firm provides to the City. The firm takes no exceptions to the requirements of the solicitation.

COMMENCEMENT OF SERVICES

Leonel Garza Jr. & Associates, LLC is fully staffed and prepared to commence work immediately upon execution of a professional services agreement and issuance of a work authorization by the City. The firm's capacity, experience, and local presence enable it to respond promptly to the City's appraisal needs and to meet the schedules and deadlines associated with each assignment.

OFFICE LOCATION PROVIDING SERVICES

All services under this contract will be provided from the firm's office at 7301 N. 7th Street, McAllen, Texas 78504. This central Rio Grande Valley location, within Hidalgo County and in close proximity to the City of Edinburg, allows Leonel Garza Jr. & Associates, LLC to respond quickly to the City's assignments, conduct timely property inspections, and remain readily available to City staff, negotiators, and property owners throughout each engagement.

FIRM HISTORY

Leonel Garza Jr. & Associates, LLC is a reputable, family-operated provider of real estate consulting services, specializing in real estate appraisal and appraisal litigation support. The firm offers a comprehensive range of services including general and commercial real estate appraisal, residential valuation, estate valuations, right-of-way and easement acquisition and defense, and real property tax consulting to meet the diverse needs of its public and private clients. The firm is led by its principal officer, Leonel Garza III, a Texas State Certified General Real Estate Appraiser since 1998, and continues the legacy of excellence established by its founder, Leonel Garza Jr., a highly respected appraiser with more than twenty-four (24) years of experience at the time of his passing in 1998.

For more than thirty (30) years, the firm has served clients throughout the Rio Grande Valley and South Texas, building a reputation for credible, well-supported, and timely appraisals. Its combination of certified general appraisers, specialized right-of-way expertise, and deep local market knowledge enables the firm to competently appraise the full range of property types contemplated by the City of Edinburg single-family, multifamily, commercial, vacant land, and mixed-use for acquisition, disposition, leasing, financial planning, and related purposes.

FIRM QUALIFICATIONS & EXPERIENCE — GOVERNMENTAL AGENCIES (PAST FIVE YEARS)

Leonel Garza Jr. & Associates, LLC has extensive, current experience performing real estate appraisal and right-of-way services for governmental and public entities, delivered accurately and on schedule. Within the past five (5) years, the firm has completed or is actively performing appraisal assignments for a broad range of public agencies throughout South Texas, including:

- **City of Edinburg**

  Sugar Road and Jackson Road roadway acquisition projects.

- **Texas Department of Transportation (TxDOT)**

  McColl Road and U.S. Highway 281 (Edinburg), State Highway 68, State Loop 195, U.S. Highway 83 (Zapata), Ware Road, and the International Bridge Trade Corridor.

- **Hidalgo County Drainage District No. 1**

  2018 Bond Program, Bentsen Palm Drive, Mercedes Gate 3 Pond, Delta Mitigation Project, Mile 6 Outfalls, and the La Villa and Palmview GLO projects.

- **Cameron County Drainage District No. 6**

  Parker Drain, Clark Drain, and the Adams Garden Project.

- **Texas Facilities Commission**

  Texas Border Wall right-of-way appraisals; and additional federal work supporting U.S. Customs and Border Protection.

This depth of recent governmental experience including prior service to the City of Edinburg itself under the firm's previous appraisal-rotation award demonstrates the firm's proven ability to meet the standards, formats, and timelines required by public agencies, and its readiness to serve the City under RFQ 2026-3.

RIGHT-OF-WAY DIVISION

The firm's Right-of-Way Division conducts real estate appraisals for local, state, and federal agencies across South Texas. These appraisals conform to the Texas Department of Transportation A-5 and A-6 report formats, which are also utilized by Local Participating Agencies (LPAs). With more than twenty-five (25) years of experience and extensive specialized training, Leonel Garza III concentrates on acquisitions involving diminution of market value and property bisections. The Division's expertise spans the full range of right-of-way acquisitions, including the expansion of existing roadways, development of new roadways, utility easements, drainage and irrigation easements, damage assessment, cost-to-cure analysis, relocation-assistance research, budget analysis, and condemnation hearing and trial support. Over the course of the firm's history, this Division has produced well over 1,000 appraisal reports, including a single project of approximately 327 parcels spanning two counties — a scale that demonstrates the firm's capacity to manage large, complex assignments. The firm is actively working on nearly 300 reports under two projects known as TxDOT State Highway 68 and TxDOT International Bridge Trade Corridor (IBTC) right of way projects.

TEXAS DEPARTMENT OF TRANSPORTATION (TXDOT) PRECERTIFICATION

Leonel Garza III is currently included on the Texas Department of Transportation's Certified Real Estate Appraisers (Department Certification) list and holds an appraisal contract with TxDOT to perform appraisal reports for various State agencies, including but not limited to the TxDOT Right of Way Division, the Texas Attorney General's Office Real Estate Division, and other divisions of the State of Texas. This precertification reflects the firm's standing with the State and its familiarity with the rigorous documentation, formatting, and review standards required of public-agency appraisal work.

ABILITY TO PERFORM IN A TIMELY MANNER

Leonel Garza Jr. & Associates, LLC has a demonstrated record of delivering credible appraisal reports accurately and on or before the deadlines required by its clients. The firm's public-agency and engineering clients including Hidalgo County Drainage District No. 1, the Texas Department of Transportation, and Sendero Acquisitions have attested in writing to the quality and timeliness of the firm's work product. The firm's established data systems, standardized report formats, and experienced staff allow it to commence assignments promptly upon authorization and to meet the schedules and deadlines associated with each engagement, including expedited assignments when required by the City.

PERSONNEL AND STAFFING

At Leonel Garza Jr. & Associates, LLC, all staff members operate under the direct supervision of Leonel Garza III. Each team member completes rigorous, field-specific training to ensure they are qualified to contribute to right-of-way and general appraisal assignments. The firm's organizational structure and each member's responsibilities are shown below; every staff member plays a vital role in the timely completion of the firm's work.

Monica Valdez-Garza Personal Assistant / Bookkeeper	**Elvira Vazquez** Data Collection / Mapping

Approach to Staffing — Large and Small Assignments

The firm maintains a full complement of licensed appraisers and dedicated support staff, enabling it to right-size the assigned team to the scope of each engagement. For large, multi-parcel projects, the firm deploys multiple appraisers together with its data-collection, mapping, and administrative personnel, as demonstrated by its 327-parcel, two-county project. For smaller or single-property assignments and part-time staffing needs, the firm assigns the work directly to an available State Certified General Appraiser, Leonel Garza III or Thomas M. Davis, supported as needed by Appraiser Trainee Miguel A. Martinez and the firm's data, mapping, and administrative staff (Elvira Vazquez, Gloria Casas, Alma Oyervides, and Monica Valdez-Garza). Because the firm's appraisers are cross-trained and share a common file, data, and comparable-sales system, smaller assignments receive prompt, cost-effective attention without reliance on outside subcontractors, and coverage is maintained even when staff are engaged on concurrent assignments.

SUMMARY OF STAFF

LEONEL GARZA III

Certified General Real Estate Appraiser • License TX-1328375-G

Born and raised in the Rio Grande Valley and a real estate appraiser since 1995, Mr. Garza has specialized in right-of-way acquisition appraisals for more than twenty-five (25) years, with a concentration of work within Hidalgo County, Texas. He has testified as an expert witness in local, state, and federal court and has been involved in more than 500 eminent domain hearings.

THOMAS M. DAVIS

Certified General Real Estate Appraiser • License TX-1336454-G

Mr. Davis joined Leonel Garza Jr. & Associates more than twenty (20) years ago and trained under Leonel Garza III for over five years before becoming a State Certified General Real Estate Appraiser. Concentrating on right-of-way acquisition appraisals, he has testified as an appraisal expert in eminent domain hearings and in federal bankruptcy cases. His work product has been concentrated primarily in Hidalgo County over the past fifteen (15) years.

MIGUEL A. MARTINEZ

Appraiser Trainee • License TX-1342042-T

Mr. Martinez joined Leonel Garza Jr. & Associates in 2018 and serves as a Real Estate Appraiser Trainee under the supervision and sponsorship of Leonel Garza III. He came from an appraisal background with a McAllen appraisal firm before serving in the City of McAllen Planning Department for over eleven (11) years. He brings valuable expertise in subdivision development and pre-development site analysis, which is vital to eminent-domain acquisition assignments. Mr. Martinez was born and raised in McAllen.

GLORIA CASAS

Senior Administrative Assistant - Joined the firm in 2015.

ALMA OYERVIDES

Senior Administrative Assistant - Joined the firm in 2002.

MONICA VALDEZ-GARZA

Bookkeeper

Joined Leonel Garza Jr. & Associates more than fifteen (15) years ago. Her focus has been on office operations and management, with a concentration in the bookkeeping and finance department, including payroll administration for staff.

ELVIRA VAZQUEZ

Mapping Specialist - Joined the firm in 2016 as a data-entry specialist and leads the firm's data-collection and mapping function.

THE FIRM'S DEDICATED TEAM BRINGS EXPERTISE AND COMMITMENT TO EVERY ASSIGNMENT, ENSURING THE HIGHEST STANDARDS OF QUALITY AND SERVICE IN REAL ESTATE APPRAISAL AND RELATED CONSULTING SERVICES.

GARZA & ASSOCIATES

THE FIRM'S UNIQUENESS

Leonel Garza Jr. & Associates, LLC offers the City of Edinburg a distinctive combination of qualifications:

- **Local Ownership And Presence**

  A McAllen-based, family-operated firm with more than 30 years serving the Rio Grande Valley and intimate knowledge of the City's market.

- **Depth Of Certified Staff**

  Two State Certified General Real Estate Appraisers plus a trainee and full support staff, providing both capacity and redundancy.

- **Right-Of-Way And Eminent-Domain Expertise**

  Extensive condemnation and expert-testimony experience directly relevant to the City's acquisition needs.

- **Broad Property-Type Competency**

  Qualified to appraise single-family, multifamily, commercial, vacant land, and mixed-use properties using all three approaches to value.

- **Proven Governmental Track Record**

  Current, on-time performance for the City of Edinburg, TxDOT, county drainage districts, and state and federal agencies.

- **State Precertification And Certifications**

  TxDOT Department Certification, and status as a Disadvantaged Business Enterprise (DBE) and Texas Historically Underutilized Business (HUB).

CONTINGENCY PLAN AND BUSINESS CONTINUITY

Leonel Garza Jr. & Associates, LLC maintains a comprehensive business-continuity and contingency plan designed to ensure that assignments are completed on schedule even when normal operations are disrupted. The firm's multiple State Certified General Appraisers are cross-trained in all aspects of the appraisal process, so that any assignment can be completed without delay if a team member becomes unavailable. The firm operates secure, cloud-based file and data systems with remote-desktop access, enabling staff to work from home or alternate locations without interruption. Recognizing the Rio Grande Valley's exposure to hurricanes, severe weather, and occasional utility outages, the office is equipped with redundant data backups, battery and backup power for critical systems, and remote work environments that allow projects to continue in the event of a loss of power or internet service. These measures ensure continuity of service and the firm's ability to meet the City's deadlines under all reasonably foreseeable circumstances.

INSURANCE

Leonel Garza Jr. & Associates, LLC maintains comprehensive insurance coverage that meets or exceeds the requirements of RFQ 2026-3. The City of Edinburg is named as the certificate holder and, by blanket endorsement, as an Additional Insured with waiver of subrogation and primary and non-contributory coverage on the firm's General Liability, Automobile Liability, and Umbrella policies. Coverage is placed through Hub International Insurance Services (McAllen, Texas) with admitted carriers licensed in the State of Texas, effective May 18, 2026 through May 18, 2027. A current ACORD Certificate of Liability Insurance is included with this submittal. The firm's coverage includes:

- **Commercial General Liability**

  Each Occurrence $1,000,000; General Aggregate $2,000,000; Products/Completed Operations Aggregate $2,000,000; Personal & Advertising Injury $1,000,000; Damage to Rented Premises $1,000,000; Medical Expense $10,000.

- **Automobile Liability**

  Combined Single Limit $1,000,000 (any auto).

- **Umbrella / Excess Liability**

  Each Occurrence $1,000,000; Aggregate $1,000,000.

- **Workers' Compensation & Employer's Liability**

  Statutory limits; E.L. Each Accident $1,000,000; E.L. Disease – Each Employee $1,000,000; E.L. Disease – Policy Limit $1,000,000.

- **Professional Liability (Errors & Omissions)**

  Each Claim $1,000,000; Aggregate $1,000,000 (deductible $10,000 per claim).

THERE HAVE BEEN NO INSURANCE CLAIMS HISTORY FOR THE PAST FIVE (5) YEARS AND THE FIRM NOR ANY OF ITS PERSONNEL HAVE PARTY TO ANY LAWSUIT OR CLAIM AGAINST COMPANY.

GARZA & ASSOCIATES

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See *Specific Instructions* on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

Leonel Garza Jr. & Associates LLC

2 Business name/disregarded entity name, if different from above.

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☐ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☑ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . . S

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions)

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any)

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any)

(Applies to accounts maintained outside the United States.)

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

5 Address (number, street, and apt. or suite no.). See instructions.

7301 N. 7th Street

Requester's name and address (optional)

6 City, state, and ZIP code

McAllen, Texas 78504

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

GARZA & ASSOCIATES

EQUAL EMPLOYMENT OPPORTUNITY & AFFIRMATIVE ACTION

Leonel Garza Jr. & Associates, LLC is an equal-opportunity employer and does not discriminate against any employee or applicant for employment on the basis of race, color, religion, sex, national origin, age, or disability, in accordance with Title VII of the Civil Rights Act of 1964 and all applicable state and federal law. The firm supports the City's equal-employment and Historically Underutilized Business objectives and is itself certified as a Disadvantaged Business Enterprise (DBE) and a Texas Historically Underutilized Business (HUB).

BILLING AND CONTRACTED PRICING

Consistent with the procurement process described in RFQ 2026-3, this submission is a statement of qualifications and does not include a fee proposal. Upon selection, the firm will negotiate a scope of services and billing rates with the City, to be incorporated as attachments to the City's Professional Services Agreement. For general appraisal assignments, the firm's fees are based on the total estimated hours required to complete each assignment, given its scope and complexity. The firm further agrees that any pricing extended to other clients for comparable assignments located within the same market area will be extended to the City of Edinburg on equal terms.

EMPLOYEE COMPENSATION

All appraisers and staff of Leonel Garza Jr. & Associates, LLC are employees of the firm, compensated on a salary basis with all applicable state, federal, and Social Security withholdings applied. Neither the firm nor its employees are employees of the City, and no employee is entitled to benefits provided under any county or municipal civil-service system. The firm is solely responsible for the method and manner of performance of its work, consistent with the independent-contractor relationship contemplated by the solicitation.

ETHICAL STANDARDS

Leonel Garza III, the principal appraiser of Leonel Garza Jr. & Associates, LLC, holds positions of civic responsibility on the Hidalgo County Subdivision Review Board and the Hidalgo County Building Line of Adjustments Board, to which he was appointed in 1999 and 2005, respectively, by Hidalgo County Commissioner Oscar Garza. These voluntary appointments reflect a longstanding commitment to ethical standards in local governance and do not compromise the ethical standards mandated by county, municipal, state, and federal regulations governing real property valuation.

The Hidalgo County Subdivision Review Board's primary purpose is to ensure adherence to the standards established by Texas State Law and the Texas Attorney General's Office. Its oversight extends to proposed subdivision developments and landowners within Hidalgo County and its extraterritorial jurisdiction, ensuring that utilities, property drainage, street access, setbacks, septic-system installation, and variances comply with applicable regulations before matters are submitted to the Hidalgo County Commissioners Court for final approval. Discussions during these meetings do not involve property values or the purchase or sale of land by applicants.

Membership on the Board is voluntary, with appointments made by individual Precinct County Commissioners for two-year terms, based on the appointee's comprehensive understanding of real estate, right-of-way, easements, and other factors affecting raw land and proposed subdivision development.

Leonel Garza Jr. & Associates, LLC acknowledges and embraces the ethical standards set forth in RFQ 2026-3, as well as those established by the Appraisal Institute, the Texas Appraiser Licensing and Certification Board (TALCB), and the current Uniform Standards of Professional Appraisal Practice (USPAP). The firm has no conflict of interest with the City of Edinburg and will comply fully with Chapter 176 of the Texas Local Government Code and all conflict-of-interest and ethical requirements of the solicitation. A signed certification page, together with the assumptions and limiting conditions, is included in each appraisal report to uphold transparency and compliance with these ethical guidelines.

QUALIFICATION OF APPRAISER

GARZA & ASSOCIATES

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
Leonel Garza Jr. & Associates LLC

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☑ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ S

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):
Exempt payee code (if any)
Exemption from FATCA reporting code (if any)
(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
1419 W Dove Ave Suite 1

Requester's name and address (optional)

6 City, state, and ZIP code
McAllen, TX 78504

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

GARZA & ASSOCIATES

SECTION III — FIRM EXPERIENCE AND QUALIFICATIONS

COMPETENCY

Leonel Garza Jr. & Associates, LLC provides a broad range of real estate consulting services, with a primary focus on real estate appraisal and appraisal litigation support. The firm specializes in general and commercial real estate, estate valuations, and right-of-way and easement acquisition and defense, and is fully competent to appraise the complete range of property types contemplated by the City of Edinburg include single-family residences, multifamily structures, commercial properties (retail, industrial, and office), vacant residential and commercial land, and mixed-use properties developing and reconciling the sales comparison, cost, and income approaches to value as appropriate to each assignment. Consistent with the USPAP Competency Rule, the firm accepts only those assignments for which it possesses the requisite knowledge and experience, and its appraisers maintain the market expertise and continuing education necessary to remain fully qualified.

The firm's principal officer is Leonel Garza III, a Texas State Certified General Real Estate Appraiser since 1998. Mr. Garza was originally trained by Leonel Garza Jr., a well-respected real estate appraiser with approximately twenty-five (25) years of appraisal experience at the time of his passing in 1998, following which the firm was established and Mr. Garza III has continued the practice. In addition to appraisal services, the firm operates a Real Property Tax Consulting division that assists property owners in the verification of property tax assessments as promulgated by the Texas Property Tax Code.

The firm's Right-of-Way Division conducts real estate appraisals for local, state, and federal agencies throughout South Texas. These reports conform to the Texas Department of Transportation A-5 and A-6 formats, which are also utilized by Local Participating Agencies (LPAs). Mr. Garza has undergone extensive training in this field over the past twenty-five (25) years and specializes in acquisitions involving diminution of market value and property bisections. The Division's experience extends to a wide variety of acquisitions, including but not limited to: the expansion of existing roadways, development of new roadways, utility easements, drainage and irrigation easements, damage assessment, cost-to-cure analysis, relocation-assistance research, budget analysis, and condemnation hearing and trial support. Over the course of the firm's history, this Division has produced well over 1,000 appraisal reports, the single largest being an approximately 327-parcel project spanning two counties.

Leonel Garza III is currently included on the Texas Department of Transportation's appraiser precertification list and holds an appraisal contract with TxDOT to perform appraisal reports for various State agencies, including but not limited to the TxDOT Right of Way Division, the Texas Attorney General's Office Real Estate Division, and other divisions of TxDOT and the State of Texas.

RIGHT OF WAY APPRAISAL EXPERIENCE

Leonel Garza Jr. & Associates, LLC has performed right-of-way appraisal and appraisal-related services for a broad range of condemning authorities across the Rio Grande Valley and South Texas, including municipalities, county drainage districts, state and federal agencies, engineering firms, and utility providers. The following representative assignments, organized by client, were completed by the firm's appraisers within the past twenty-four (24) months or are currently active. This list is representative and not exhaustive.

RECENT ROW PROJECTS (PAST 24 MONTHS)

Cameron County Drainage District No. 6	Adams Garden Project
L&G Engineering	Mile 10 Project / Weslaco Cesar Chavez Road
Melden & Hunt	North Alamo Water Supply Lift Stations

PAST PROJECTS WITH THE CITY OF EDINBURG

Members of the proposed team have performed prior real estate appraisal and right-of-way services directly for the City of Edinburg, and the firm previously held the City's appraisal-rotation award under RFQ 2024-4. Each proposed team member's prior City of Edinburg experience is summarized below:

- **Leonel Garza III (Principal / Lead Appraiser)**

  Sugar Road and Jackson Road roadway acquisition projects; lead appraiser under the firm's prior City appraisal-rotation contract.
- **Thomas M. Davis (Project Manager / Appraiser)**

  Sugar Road and Jackson Road roadway acquisition projects.
- **Miguel A. Martinez (Appraiser Trainee)**
- Assisted on City of Edinburg roadway acquisition assignments under the supervision of Leonel Garza III.

DISCUSSION OF EXPERIENCE AND RECENT PROJECTS

The following discussion highlights representative right-of-way and appraisal assignments recently completed or currently underway by Leonel Garza Jr. & Associates, LLC. These projects illustrate the firm's capacity to handle large, complex, multi-parcel acquisitions for State, county, and municipal clients; its command of the TxDOT A-5 and A-6 report formats and the before-and-after methodology; and its ability to support the full acquisition process through negotiation, condemnation, and expert testimony.

State Highway 68 (SH-68) — Texas Department Of Transportation

State Highway 68 is a new-location TxDOT highway in Hidalgo County developed to connect the US 83 / I-2 corridor in the western Valley to the US 281 / I-69C corridor, providing a critical north–south mobility and trade route. As a new-alignment facility, the project requires the acquisition of right-of-way across numerous parcels of agricultural, residential, and commercial land. Leonel Garza Jr. & Associates prepares the real estate appraisals for this project in the TxDOT A-5 and A-6 formats, analyzing each parent tract, the part to be acquired, and the remainder in its before-and-after condition, and quantifying damages and cost-to-cure where the acquisition bisects tracts or affects access. The firm coordinates with TxDOT and the project engineers, contacts and inspects each ownership, and remains available to support negotiations and, where necessary, condemnation proceedings and expert testimony.

International Bridge Trade Corridor (IBTC) — Texas Department Of Transportation

The International Bridge Trade Corridor is a TxDOT roadway project in Hidalgo County developed to serve cross-border commercial traffic in connection with a new international bridge crossing. The corridor's new alignment requires right-of-way acquisition across a range of property types, including agricultural land and commercial frontage. The firm prepares TxDOT-format appraisals for the corridor's parcels, addressing whole-property valuation, partial acquisition, remainder damages, and cost-to-cure, with particular attention to access and highest-and-best-use considerations along a commercial trade route. The firm's familiarity with border-region land markets and international-trade-driven commercial values is directly applicable to this assignment.

Mile 10 Project (Weslaco) — L&G Engineering

The Mile 10 project, in the Weslaco area of the mid-Valley, involves roadway and drainage improvements requiring right-of-way and easement acquisition along an established rural corridor. Working with L&G Engineering as the project's right-of-way consultant, Leonel Garza Jr. & Associates prepares the real estate appraisals supporting the acquisition of the needed right-of-way and drainage easements, analyzing the effect of the acquisitions on the remainder properties including impacts on access, drainage, and agricultural operations and developing supportable opinions of value and damages consistent with USPAP and applicable acquisition standards.

State Loop 195 (Sl-195), Rio Grande City To Roma — Texas Department Of Transportation

State Loop 195, extending from Rio Grande City to Roma in Starr County, is a TxDOT roadway project for which the firm prepares right-of-way appraisals in the TxDOT A-5 and A-6 formats. The firm's long experience appraising in Starr County and the western Valley supports credible, well-documented valuations in this less-densely-developed, agriculturally oriented border market, where comparable data must be carefully researched and confirmed.

U.S. Highway 281 and McColl Road (Edinburg) — Texas Department of Transportation

The firm has prepared right-of-way appraisals for TxDOT roadway improvements in and around the City of Edinburg, including U.S. Highway 281 and the McColl Road widening (Trenton Road to SH-107). These assignments involved the widening of existing, heavily traveled corridors through developed areas, requiring careful analysis of partial acquisitions, access impacts, and damages to commercial and residential remainders in the Edinburg market the same market in which the City's appraisal assignments will arise.

Sugar Road and Jackson Road — City of Edinburg

Under its prior appraisal-rotation award with the City of Edinburg, the firm prepared right-of-way appraisals for the Sugar Road (SH-107 to Monte Cristo) and Jackson Road (north of SH-107 to Monte Cristo) roadway projects. These assignments gave the firm direct, current familiarity with the City's acquisition process, its project engineers, and the north-Edinburg land market, and demonstrate the firm's proven ability to deliver responsive, City-specific appraisal services.

Hidalgo County Drainage District No. 1 — 2018 Bond Program and GLO Projects

The firm has served as appraiser on a broad slate of Hidalgo County Drainage District No. 1 projects, including the District's 2018 Bond Program, the Delta Mitigation Project, the Mile 6 Outfalls, Bentsen Palm Drive, Mercedes Gate 3 Pond, and the La Villa and Palmview GLO (Texas General Land Office) drainage projects. Drainage-district acquisitions frequently involve numerous parcels, permanent and temporary drainage easements, and damages to the remainder arising from changes in access, drainage patterns, and agricultural use. The firm's sustained, multi-year work for the District reflects its ability to manage high-volume, multi-parcel acquisition programs accurately and on schedule.

American Electric Power (AEP) — Transmission Line Projects

For American Electric Power, the firm has appraised electric transmission-line easement acquisitions across South Texas, including the Kingfisher (San Benito), Del Sol to Frontera, Pompano, and Stewart Road transmission lines. Transmission-line easements present distinct valuation issues — including the effect of the easement corridor on the remainder, restrictions on use beneath and around the line, and damages related to structure and tower placement — which the firm addresses through detailed before-and-after analysis and market-supported adjustments.

Texas Border Wall — Texas Facilities Commission And U.S. Customs And Border Protection

The firm has prepared appraisals supporting border-barrier right-of-way acquisition for the Texas Facilities Commission and, through acquisition companies with work associated with U.S. Customs and Border Protection. These assignments require the valuation of acquisitions affecting agricultural and riverfront properties along the border, including access, severance, and highest-and-best-use considerations unique to border-region parcels.

CONCLUSION

Collectively, these assignments demonstrate the firm's experience across roadway, drainage, utility, and border-infrastructure acquisitions; its command of State and Federal acquisition standards and the TxDOT Right of Way Manual; and its capacity to deliver credible, well-supported appraisals, and expert testimony on projects ranging from single parcels to large mult-parcel projects.

Re: RFQ 2026-3 — Request for Qualifications, Real Estate Appraisal Services
Reference for Leonel Garza Jr. & Associates, LLC

Dear Mr. Hinojosa and Members of the Selection Committee:

On behalf of Sendero Acquisitions, LP, I am writing to recommend Leonel Garza Jr. & Associates, LLC for the City of Edinburg's real estate appraisal services rotation. Sendero provides right-of-way acquisition services for public infrastructure projects, and we have retained Garza & Associates as our appraisal firm on multiple assignments throughout South Texas.

On projects including the FM 2220 (Ware Road) Widening, Mr. Leonel Garza III and his team delivered high-quality, USPAP-compliant appraisal reports involving complex issues such as residential bisections, relocation of homesteads and businesses, and damages to remainder property. They personally inspected each parcel, communicated professionally with property owners, met our schedules, and supported negotiations and condemnation hearings with credible, well-reasoned valuations and expert testimony.

Their responsiveness, integrity, and command of the Rio Grande Valley market have made them a valued partner. I recommend the firm to the City of Edinburg with confidence and welcome any questions the Selection Committee may have.

Respectfully,

Carlos Lascurain, R/W-NAC

Re: RFQ 2026-3 — Request for Qualifications, Real Estate Appraisal Services
Reference for Leonel Garza Jr. & Associates, LLC

Dear Mr. Hinojosa and Members of the Selection Committee,

On behalf of Hidalgo County Drainage District No. 1, I am pleased to provide our strong recommendation of Leonel Garza Jr. & Associates, LLC for the City of Edinburg's Real Estate Appraisal Services Rotation.

Our District has retained Leonel Garza Jr. & Associates, LLC to provide right-of-way appraisal services for numerous drainage improvement and bond-funded infrastructure projects throughout Hidalgo County. Throughout our working relationship, the firm has consistently demonstrated a high level of professionalism, technical expertise, responsiveness, and reliability.

For projects within our countywide Drainage Bond Program and related ditch and easement acquisition efforts, Mr. Leonel Garza III and his team prepared thorough, well-supported appraisal reports in full compliance with the Uniform Standards of Professional Appraisal Practice (USPAP) and all applicable state and federal requirements. They conducted detailed property inspections, maintained professional and respectful communication with affected property owners, consistently met demanding project schedules, and provided valuable support during negotiations, condemnation proceedings, and expert witness testimony when required.

The firm's extensive experience with right-of-way acquisitions, combined with its comprehensive knowledge of the Rio Grande Valley real estate market, makes Leonel Garza Jr. & Associates, LLC exceptionally well qualified to provide appraisal services for the City of Edinburg. Their commitment to quality, accuracy, and client service has made them a trusted partner on some of our most significant infrastructure projects.

Re: RFQ 2026-3 – Request for Qualifications, Real Estate Appraisal Services
Reference for Leonel Garza Jr. & Associates, LLC

Dear Mr. Hinojosa and Members of the Selection Committee:

I am pleased to provide this reference for Leonel Garza Jr. & Associates, LLC in support of their response to the City of Edinburg's RFQ 2026-3 for real estate appraisal services. In my role with the Texas Department of Transportation, I have worked with the firm on right-of-way appraisal assignments and can speak to their professionalism and technical competence.

Mr. Leonel Garza III is on TxDOT's appraiser precertification list, and the firm has performed real estate appraisals for a number of roadway right-of-way projects, preparing reports in the required A-5 and A-6 formats and in accordance with USPAP. Their appraisals have been thorough and well documented, addressing whole-property analysis, the part to be acquired, remainder damages, cost-to-cure, and the related issues common to eminent domain acquisitions. The firm has consistently met deadlines and provided knowledgeable support during acquisition and condemnation.

Based on this experience, I am confident that Leonel Garza Jr. & Associates, LLC, has the qualifications, capacity, and market knowledge to serve the City of Edinburg well. I am happy to provide additional information if needed.

Sincerely,

Signed by:
Ramon Jimenez Jr

SECTION IV — SCOPE OF SERVICES

LIST OF SERVICES

Leonel Garza Jr. & Associates, LLC is fully prepared to provide the City of Edinburg with the complete scope of real estate appraisal services described in RFQ 2026-3. The firm's services include, at a minimum, the following:

- Opinions of fair market value for real property the City may acquire.
- Preparation of market analysis reports that establish fair market value for subject properties.
- Research of the relevant markets to identify the value of properties selected for acquisition or disposition by the City.
- Professional opinions and reasonable conclusions of value relating to land development, business viability, tax appraisals, and eminent domain, for City properties and surrounding areas.
- Preparation of comparable-sales reports for City properties or potential properties, as required.
- Appraisal report review of appraisals prepared for or submitted to the City, in accordance with USPAP Standard 3.
- Assistance to City personnel and/or the City's broker or agent in the evaluation of the real estate acquisition process.
- Oral presentations to the City Council, Board, or staff, as requested by the City.
- Performance of all services in accordance with USPAP, the USPAP Competency Rule, and all applicable State of Texas laws and procedures governing real estate appraisal.

These services are provided across all property types identified in the solicitation — single-family residences, multifamily structures and complexes, commercial properties (retail, industrial, and office), vacant residential and commercial land, and mixed-use properties — utilizing the sales comparison, cost, and income approaches to value as appropriate to each assignment.

APPRAISAL SERVICES

All appraisals performed by Leonel Garza Jr. & Associates, LLC are developed on the basis of fair market value, determined through the meticulous analysis of comparable sales, cost, and income/rental information within the surrounding market area and reconciled among the three traditional approaches to value as applicable to the property and the specific appraisal problem. Each report is prepared in the number of originals and copies required by the City, and is signed by all licensed personnel who materially contribute to the appraisal process, in compliance with Texas State law and USPAP.

All appraisal reports are completed in accordance with the edition of USPAP in effect as of the date of the order and the USPAP Competency Rule. Leonel Garza Jr. & Associates, LLC is committed to meeting the City's delivery-date requirements, provided that the information necessary to complete each assignment — including tax information, surveys, legal descriptions, and access to the subject property — is made available at the time of the order.

APPRAISAL PROCESS FOR EMINENT DOMAIN CASES

For State and local right-of-way and eminent-domain assignments, Leonel Garza Jr. & Associates, LLC prepares its appraisals in accordance with the TxDOT Right of Way Manual including its appraisal and review procedures and the A-5 and A-6 report formats including the Uniform Standards of Professional Appraisal Practice (USPAP), and the requirements of Texas law governing condemnation, including Chapter 21 of the Texas Property Code. For federally assisted projects, the firm also complies with the Uniform Relocation Assistance and Real Property Acquisition Policies Act (49 CFR Part 24). Where a statute, regulation, or agency requirement establishes an appraisal requirement that differs from USPAP, the appraiser applies the USPAP Jurisdictional Exception Rule and documents the controlling requirement.

Under Texas law, just compensation for a partial acquisition is generally measured as the market value of the part acquired, considered as part of the whole property, plus any damages to the remainder, net of any special benefits. Accordingly, the firm's right-of-way appraisals analyze three components the whole property (parent tract), the part to be acquired, and the remainder in its before-and-after condition using a before-and-after analysis to quantify compensation and any damages.

WHOLE PROPERTY (PARENT TRACT)

The "whole property," or "parent tract," refers to the entire parcel subject to appraisal including all of its land area, improvements (buildings and structures), rights, and easements. The appraiser begins by analyzing the whole property to understand its physical characteristics, legal attributes, highest and best use, and market value, thereby establishing the baseline against which the impact of the proposed acquisition is measured. In analyzing the whole property, the appraiser examines:

Land Area

The total land area is determined from the survey provided and from public information gathered from deed records and the local county appraisal district.

Improvements

Structures and site improvements that contribute to market value are identified and analyzed, with consideration given to their condition, depreciation, functional utility, quality, materials, and age as factors affecting their contribution to value.

Highest and Best Use & Market Value

The appraiser develops an opinion of the highest and best use of the parent tract and its market value, considering economic factors such as location, available utilities, access, size, zoning, and neighborhood trends yielding a comprehensive understanding of the whole property's characteristics, highest and best use, and market value.

PART TO BE ACQUIRED

The "part to be acquired" is the specific portion of the parent tract land, improvements, or interests such as fee title or easement that the acquiring authority requires for the public project. The appraiser values the part to be acquired as a portion of the whole property, considering its current and potential use, any improvements taken, the nature of the interest acquired (for example, fee simple or a permanent or temporary easement), and the market value indicated by comparable properties, consistent with Texas law and the TxDOT Right of Way Manual.

REMAINDER — BEFORE AND AFTER

In a partial acquisition, the "remainder" is the portion of the parent tract that remains after the part to be acquired is taken. The appraiser analyzes the market value of the remainder in both its "before" condition (as part of the whole property) and its "after" condition (as affected by the acquisition and the completed project) in order to determine whether the acquisition results in any damages to, or special benefits to, the remainder.

Damages to the Remainder (Diminution in Value)

Diminution in value, or damage to the remainder, is the loss in value of the remaining property resulting from the acquisition and the construction of the project. Through the before-and-after analysis, the appraiser determines whether the market value of the remainder after the taking is less than its value before the taking; any such loss is measured and, where supported by the market, included as damages in the estimate of just compensation, net of any special benefits recognized under Texas law.

Cost to Cure

In some cases, the effect of an acquisition on the remainder can be mitigated by curative measures. A cost-to-cure analysis estimates the reasonable cost of replacing or restoring site improvements affected by the acquisition — such as fencing, gates, driveways and access, irrigation systems, or utilities — where doing so is feasible and economically justified. When the cost to cure is less than the damages that would otherwise accrue to the remainder, it may be used as the measure of those damages.

APPRAISAL METHODOLOGY AND APPROACHES TO VALUE

An appraisal report communicates the appraiser's analysis, opinions, and final estimate of value for the subject property based on the defined scope of work, in a manner that is meaningful to the client and not misleading to the reader. The appraiser first identifies the property rights to be appraised, the effective date of value, and the intended use and users of the appraisal; identifies the subject property; and analyzes the economic factors that influence value, including zoning, neighborhood trends, access, size, and highest and best use. The appraiser then develops and reconciles the three traditional approaches to value sales comparison, cost, and income applying each as it applies to the subject.

Sales Comparison Approach

The sales comparison approach analyzes recent sales of properties most similar to the subject within the relevant market area. Using paired-sales analysis and market-supported adjustments, the appraiser compares these sales to the subject to develop an indication of value, then selects an appropriate unit rate to apply to the whole property, the part to be acquired, and the remainder in its before-and-after condition. This approach is generally the most reliable indicator of value for land and for the partial-acquisition analysis in right-of-way assignments.

Cost Approach

In the cost approach, the appraiser estimates the current cost to replace or reproduce the subject improvements, deducts market-extracted depreciation for physical deterioration and functional or external obsolescence, and adds the value of the underlying land as if vacant (derived from the sales comparison approach). Depreciated improvement costs are developed using recognized cost services such as the Marshall & Swift Valuation Service, supplemented by data from local contractors, suppliers, and other experts, with consideration of the age, condition, quality, materials, and functional utility of the improvements. Where a structure contributes to the whole property but is not affected by the acquisition and the remainder is not impacted the appraiser may rely on the assessed value from the local appraisal district for that improvement. The land value derived from the sales comparison approach is then added to arrive at the value indication.

Income Approach

In the income capitalization approach, the appraiser analyzes a property's capacity to generate future benefits and capitalizes the anticipated net income into an indication of present value, reflecting the principle of anticipation. For non-income-producing properties such as vacant land and owner-occupied residences typical of many right-of-way acquisitions the income approach is generally not applicable to the parent tract or the part to be acquired and is not developed. For income-producing and investment-grade properties, however including commercial, multifamily, and mixed-use assets the firm develops the income approach and reconciles it with the sales comparison and cost approaches, consistent with the full scope of appraisal services requested by the City.

EXPERT TESTIMONY AND TRIAL PREPARATION

When acquisition negotiations do not result in a settlement, Leonel Garza Jr. & Associates, LLC supports the City throughout the eminent-domain process, providing expert appraisal testimony at the Special Commissioners' Hearing and, if the award is appealed, through preparation for and testimony at trial.

Special Commissioners' Hearing

Under Chapter 21 of the Texas Property Code, when a condemning authority and a property owner cannot agree on compensation, the authority files a condemnation petition and the court appoints three disinterested Special Commissioners to assess the property owner's damages. At the Special Commissioners' Hearing, the firm's appraiser serves as the expert witness, presenting the appraisal, the methodology employed, and the opinion of just compensation including the value of the part acquired and any damages to the remainder. In preparation, the firm finalizes and, where necessary, updates the appraisal to the applicable date of value; reviews any opposing appraisal; and prepares demonstrative exhibits — including maps, aerial imagery, photographs, and comparable-sales summaries to clearly present the basis for the opinion of value.

Appeal and Trial Preparation

Either party may file objections to the Special Commissioners' award, which converts the proceeding into a civil lawsuit tried de novo in the county or district court before a judge or jury. In such cases, the firm works closely with the City's legal counsel throughout discovery providing deposition testimony, an updated appraisal, and an expert report as required and prepares to support the admissibility of its opinions under applicable evidentiary standards, including Texas Rule of Evidence 702 and the Robinson/Daubert framework. The firm prepares trial exhibits, assists counsel in evaluating the opposing appraisal, and provides clear, credible direct and cross-examination testimony at trial.

Leonel Garza III has testified as an expert witness in local, state, and federal courts and has participated in more than 500 eminent domain hearings, and Thomas M. Davis has likewise testified as an appraisal expert in eminent domain and federal bankruptcy proceedings providing the City with a team that offers substantial, proven experience in condemnation testimony and trial support.

APPRAISAL REVIEW SERVICES

Leonel Garza Jr. & Associates, LLC provides appraisal report review services in accordance with USPAP Standard 3 (Appraisal Review) and, where applicable, the reporting requirements of Standard 4. Upon the City's request, the firm will review appraisal reports prepared for or submitted to the City evaluating the completeness, accuracy, adequacy, relevance, and reasonableness of the analyses, opinions, and conclusions in the report under review and will provide the City with a written review report of its findings. The firm's State Certified General Real Estate Appraisers are qualified to perform such reviews across all property types contemplated by this solicitation.

The firm maintains strict standards of independence and objectivity in performing review work. Because Leonel Garza III serves as lead appraiser on certain ongoing acquisition and condemnation matters for governmental entities in the region, the firm will promptly disclose any actual or potential conflict of interest to the City and will recuse itself from any specific review assignment in which a genuine conflict exists, so that the City's interests and the integrity of the review process are fully protected.

> **Disclaimer:** Due to the number of appraisal and right-of-way projects that the firm is actively working on — including ongoing acquisition and condemnation matters for the County and other local municipalities for which Leonel Garza III serves as lead appraiser — a conflict of interest may arise on certain requests for appraisal review. In any such instance, the firm will promptly notify the City and will respectfully decline or recuse itself from that specific review assignment.

SECTION V — MISCELLANEOUS

ACCEPTANCE OF REQUIREMENTS AND NO EXCEPTIONS

Leonel Garza Jr. & Associates, LLC has carefully reviewed RFQ 2026-3 in its entirety and agrees to and accepts all terms, conditions, specifications, and requirements set forth in the solicitation. The firm takes no exceptions to the requirements of the RFQ and requests no deviation from its specifications. The firm does not hold, and does not claim, any State exemptions from any requirement of this procurement packet.

ACKNOWLEDGMENT OF ADDENDA

Leonel Garza Jr. & Associates, LLC acknowledges receipt of all addenda issued in connection with RFQ 2026-3, if any, and has reviewed and incorporated their content into this submittal. A signed copy of each addendum issued by the City is included with the firm's response.

PROPRIETARY AND CONFIDENTIAL INFORMATION

Leonel Garza Jr. & Associates, LLC does not designate any portion of this submittal as proprietary or confidential and has no proprietary documents to submit pursuant to this request for qualifications. The firm understands that all responses become the property of the City of Edinburg upon submission and may be subject to disclosure under the Texas Public Information Act.

PROFESSIONAL SERVICES AGREEMENT

Leonel Garza Jr. & Associates, LLC has read the City of Edinburg's Professional Services Agreement, provided as the Draft Agreement with RFQ 2026-3. The firm will meet the prerequisite insurance requirements set forth in the solicitation and, if selected, agrees to enter into the Professional Services Agreement with the City of Edinburg.

FEE PROPOSAL EXCLUSION

Consistent with the requirements of RFQ 2026-3, a fee proposal is not included within this submittal. As provided in the solicitation, the scope of services and billing rates will be negotiated with the selected firm and incorporated as attachments to the City's Professional Services Agreement following selection.

AVAILABILITY AND POINT OF CONTACT

Leonel Garza III, President, is available to answer any questions or concerns regarding this submittal throughout the selection process, and may be reached at (956) 687-7295 or leonel3@garza-associates.com. The firm appreciates the City's consideration and is prepared to begin providing appraisal services immediately upon award and execution of a professional services agreement.

DELIVERY AND TIMELINESS

Leonel Garza Jr. & Associates, LLC understands that the City's appraisal assignments are frequently time-sensitive. Upon receipt of an order and the information necessary to complete it, the firm commences work promptly and delivers credible, USPAP-compliant reports on or before the agreed delivery date. The firm's capacity, experienced staff, standardized report formats, and established data systems enable it to meet the City's schedules and to accommodate expedited assignments when required.

Edinburg, Texas 78539

Dear Members of the Selection Committee:

Leonel Garza Jr. & Associates, LLC sincerely appreciates the opportunity to submit this Statement of Qualifications in response to City of Edinburg RFQ 2026-3, "Request for Qualifications – Real Estate Appraisal Services." We are confident that our firm's more than thirty (30) years of service, our team of State Certified General Real Estate Appraisers, and our extensive record of responsive, USPAP-compliant appraisal work for governmental agencies throughout the Rio Grande Valley position us to serve the City effectively and dependably.

We have carefully reviewed and fully accept the requirements of RFQ 2026-3, and we are prepared to begin providing appraisal services immediately upon award and execution of a professional services agreement. Leonel Garza III remains available to answer any questions the Committee may have throughout the selection process.

Thank you for your time and consideration.

Respectfully submitted,

Leonel Garza III

Lowery Property Advisors, LLC
105 Decker Court
Suite 1000
Irving, TX 75062

Dear Evaluation Committee:

Lowery Property Advisors, LLC ("LPA") is pleased to submit this Statement of Qualifications in response to the City of Edinburg's Request for Qualifications (RFQ 2026-3) for Real Estate Appraisal Services. We appreciate the opportunity to be considered for placement on the City's rotation list and are committed to providing timely, independent, and well-supported appraisal services that meet the City's needs.

Founded in 2010, LPA is a Texas-based commercial real estate appraisal firm with MAI-designated appraisers and staff holding AI-GRS, SR/WA, R/W-AC, CCIM, and MRICS designations. We have completed appraisal assignments for municipalities, counties, state agencies, and school districts throughout Texas, and all work is performed in accordance with USPAP.

Lowery Property Advisors has reviewed the requirements of this Request for Qualifications and is fully prepared to provide the requested services in accordance with the City's requirements.

No addenda to RFQ 2026-3 have been issued as of the date of this submittal.

The undersigned is authorized to bind Lowery Property Advisors, LLC to a contract resulting from this Request for Qualifications.

Mario Caro
Executive Vice President
Mario@lowerypa.com
210-528-1491
100 NE Loop 410, Suite 1350
San Antonio, TX 78216

1. Qualifications of Team

1.1 Firm Qualifications and Experience

Lowery Property Advisors, LLC ("LPA") is a Texas-based commercial real estate appraisal and consulting firm founded in 2010 to provide independent valuation and advisory services for governmental agencies, financial institutions, attorneys, corporations, utility providers, school districts, and private-sector clients throughout Texas. Since its inception, the firm has developed a strong reputation for technical excellence, responsive client service, and well-supported valuation analyses prepared in accordance with the Uniform Standards of Professional Appraisal Practice (USPAP). Through its strategically located offices across Texas, LPA provides comprehensive appraisal and consulting services while maintaining the local knowledge and responsiveness expected by its clients.

The San Antonio office will serve as the primary office responsible for administering appraisal assignments for the City of Edinburg. This office is staffed with experienced commercial appraisers who routinely complete assignments throughout South Texas and is supported by additional appraisal professionals located throughout the firm's statewide network. This structure allows Lowery Property Advisors to efficiently complete assignments of any scale while maintaining consistent communication, quality control, and timely delivery. LPA's project experience spans assignments from single-parcel appraisals to complex, multi-parcel engagements exceeding 100 parcels across multiple counties.

Lowery Property Advisors provides valuation and consulting services involving virtually every commercial property type, including office, retail, industrial, multifamily, hospitality, mixed-use developments, special-purpose properties, vacant land, agricultural properties, residential subdivisions, and improved residential properties. In addition to traditional market value appraisals, the firm regularly performs acquisition appraisals, appraisal reviews, lease analyses, market studies, feasibility analyses, litigation support, expert witness services, right-of-way appraisals, easement valuations, financial reporting assignments, estate planning valuations, and other specialized consulting services.

A significant portion of the firm's practice is dedicated to serving public-sector clients. Lowery Property Advisors has successfully completed appraisal assignments for municipalities, counties, transportation agencies, utility providers, school districts, transit authorities, and other governmental entities throughout Texas. These assignments include fee simple acquisitions, permanent and temporary easements, partial acquisitions, right-of-way corridors, eminent domain matters, appraisal review, and litigation support involving a wide variety of property types. The firm's appraisal professionals understand the documentation, communication, and scheduling requirements associated with public-sector projects and have extensive experience working with engineers, attorneys, right-of-way consultants, surveyors, project managers, and governmental staff.

The firm's governmental experience includes appraisal services performed for agencies such as the Texas Department of Transportation (TxDOT), VIA Metropolitan Transit, Trinity Metro, North Texas Municipal Water District, numerous Texas municipalities, counties, school districts, utility districts, and other public entities. Through these assignments, LPA has developed extensive expertise in valuing residential, commercial, industrial, agricultural, institutional, and special-purpose properties for acquisition, infrastructure improvements, transportation projects, utility corridors, parks, drainage improvements, and other public purposes.

One of Lowery Property Advisors' greatest strengths is the depth and experience of its professional staff. The firm includes MAI-designated appraisers and professionals holding AI-GRS, SR/WA, R/W-AC, CCIM, and MRICS designations. This combination of advanced education, professional credentials, and practical experience allows the firm to efficiently complete assignments ranging from routine appraisal reports to complex valuation problems involving partial acquisitions, easements, large commercial developments, litigation support, and eminent domain.

To ensure consistent quality, every assignment completed by Lowery Property Advisors follows established quality assurance and quality control procedures. Each appraisal undergoes

multiple levels of internal review to verify factual accuracy, market support, analytical consistency, and compliance with USPAP and client-specific requirements before delivery. This review process helps ensure that appraisal reports are credible, well supported, and capable of withstanding technical review or litigation scrutiny.

Lowery Property Advisors is uniquely qualified to serve the City of Edinburg because of its extensive governmental appraisal experience, statewide resources, highly credentialed appraisal professionals, and 100% on-time delivery record across governmental and private-sector engagements. Whether the City requires a single appraisal assignment or multiple concurrent projects, LPA possesses the staffing capacity, technical expertise, and project management capabilities necessary to consistently deliver objective, well-supported appraisal reports while meeting established schedules and maintaining the highest standards of professional practice.

1.2 Team Member Qualifications and Experience

Lowery Property Advisors has assembled a highly qualified team of appraisal professionals with extensive experience providing commercial real estate appraisal and consulting services for municipalities, counties, transportation agencies, utility providers, school districts, financial institutions, attorneys, and private-sector clients throughout Texas. The proposed team combines decades of experience in valuation, appraisal review, right-of-way acquisition, eminent domain, litigation support, and consulting services involving a broad range of property types and assignment complexities. Collectively, the team's experience provides the City of Edinburg with the technical expertise, responsiveness, and project management capabilities necessary to successfully perform appraisal assignments under this contract.

Mark Lowery, MAI, AI-GRS, CCIM, MRICS

President – Executive Oversight

Mark Lowery, founder and President of Lowery Property Advisors, will provide executive oversight for the City's assignments. Mr. Lowery has extensive experience performing and reviewing commercial real estate appraisals involving office, retail, industrial, multifamily, hospitality, mixed-use, special-purpose, agricultural, and vacant land properties. His experience includes valuation assignments for governmental agencies, financial institutions, litigation support, estate planning, appraisal review, and financial reporting. Mr. Lowery will participate in executive review and quality assurance for appraisal assignments completed under this contract.

Mario Caro, MAI, AI-GRS, SR/WA

Executive Vice President/ Right of Way Practice Leader – Project Manager

Mario Caro will serve as Project Manager and the City's primary point of contact. Mr. Caro has more than two decades of experience specializing in commercial real estate valuation, right-of-way acquisition, eminent domain, appraisal review, and litigation support. He has

successfully managed appraisal assignments for municipalities, counties, transportation agencies, utility providers, school districts, and numerous public infrastructure projects throughout Texas. As Project Manager, he will oversee project scheduling, client communication, staffing assignments, quality control, and final report delivery to ensure that all appraisal assignments are completed in accordance with USPAP and City requirements.

Shane McCarty, MAI, R/W-AC

Managing Director

Mr. McCarty specializes in commercial appraisal, acquisition valuation, easement analysis, eminent domain, and litigation support. His experience includes valuation assignments involving municipalities, utility providers, transportation agencies, and public infrastructure projects throughout Texas. He provides additional senior-level review and technical expertise for complex appraisal assignments.

Carl Eisenhauer, MAI

Director

Mr. Eisenhauer has more than twenty-five years of commercial appraisal experience specializing in valuation for governmental agencies, right-of-way acquisitions, litigation support, financial institutions, and private-sector clients. His extensive market knowledge throughout South and Central Texas provides valuable expertise for complex appraisal assignments involving a variety of commercial property types.

Allison Jobe

Managing Director

Ms. Jobe leads the San Antonio office's day-to-day operations, including staffing, workflow coordination, and quality control across the office's appraisal assignments. A Texas Certified General Appraiser with a BS in Agribusiness and MS in Real Estate from Texas A&M University, she has appraised a broad range of commercial property types, including office, retail,

industrial, multifamily, hospitality, and mixed-use properties. Her oversight of the San Antonio office supports consistent staffing, coordination, and quality control for assignments performed for the City of Edinburg.

Matthew Strey

Senior Associate

Mr. Strey performs commercial appraisal assignments involving a wide variety of property types and assists with market research, property inspections, valuation analyses, report preparation, and litigation support. He has participated in numerous governmental and right-of-way appraisal assignments throughout Texas.

Michelle McMullan

Senior Associate

Ms. McMullan is a Texas Certified General Appraiser with appraisal experience dating to 2015 and has been with Lowery Property Advisors since 2022. She has appraised a wide range of commercial property types, including office, retail, industrial, multifamily, mixed-use, medical and veterinary office, and special-purpose properties, and assists with market research, property inspections, and report preparation. Her broad property-type experience supports the flexibility needed to complete varied assignments for the City of Edinburg.

Mario Caro and Carl Eisenhauer alone bring more than 48 combined years of right-of-way and eminent domain appraisal experience, and the firm's senior appraisal team collectively holds more than 78 years of litigation and expert witness experience.

The proposed team is supported by experienced research professionals and administrative personnel responsible for project coordination, scheduling, data collection, document management, and quality control. This collaborative approach allows Lowery Property Advisors to effectively manage multiple assignments simultaneously while maintaining

consistent communication, timely delivery, and the high level of professional service expected by the City of Edinburg.

Complete resumes, professional licenses, certifications, and qualifications for each proposed team member are included in **Appendix A**.

2. Ability to Meet Project Schedules and Deadlines

Lowery Property Advisors recognizes that timely completion of appraisal assignments is essential to the successful implementation of public improvement projects, real estate acquisitions, capital improvement programs, and other municipal initiatives. The firm has established comprehensive project management procedures that enable appraisal assignments to be completed efficiently while maintaining the highest standards of quality, communication, and professional practice. These procedures have been successfully utilized on assignments for municipalities, counties, transportation agencies, utility providers, school districts, and other governmental entities throughout Texas.

Each assignment begins immediately upon receipt with a review of the scope of work, project requirements, anticipated schedule, and reporting requirements. A Project Manager is assigned to each engagement and serves as the City's primary point of contact throughout the assignment. The Project Manager is responsible for coordinating inspections, assigning appraisal personnel, monitoring project progress, communicating with City staff, reviewing schedules, and ensuring that all milestones are achieved in accordance with the City's expectations.

The San Antonio office will serve as the primary office responsible for coordinating assignments for the City of Edinburg. Because Lowery Property Advisors maintains experienced appraisal professionals throughout Texas, additional qualified personnel may be assigned whenever workload demands or project schedules require supplemental staffing. This flexibility allows the firm to efficiently complete both individual appraisal assignments and large, multi-parcel projects without compromising report quality or delivery schedules.

Communication is a fundamental component of Lowery Property Advisors' project management philosophy. The Project Manager maintains regular communication with the City throughout each assignment, providing progress updates, discussing project issues, coordinating property inspections, requesting additional information when necessary, and

promptly responding to questions from City staff. Should unforeseen circumstances arise that could affect project schedules, the City will be notified immediately so that appropriate adjustments can be made while minimizing delays.

Quality assurance procedures are incorporated throughout the appraisal process rather than performed solely upon completion of the report. Market research, highest and best use analyses, comparable sales, valuation methodologies, and report conclusions are reviewed during report preparation to verify factual accuracy, analytical consistency, and compliance with USPAP and client-specific requirements. Prior to delivery, each appraisal report undergoes a comprehensive internal quality review to confirm mathematical accuracy, supporting documentation, narrative consistency, and compliance with applicable professional standards. This process significantly reduces the need for revisions following submission and contributes to the firm's reputation for delivering reliable appraisal reports on schedule.

Lowery Property Advisors understands that project demands often change throughout the course of an assignment. The firm's staffing structure provides the flexibility to respond quickly to revised priorities, accelerated schedules, additional appraisal requests, or expanded project scopes. Experienced appraisal professionals are available to supplement the project team whenever necessary, ensuring that deadlines continue to be met while maintaining the quality and independence expected of professional appraisal services.

The firm also recognizes that responsiveness extends beyond delivery of the appraisal report. Lowery Property Advisors remains available following report submission to respond to review comments, provide supplemental analyses, answer questions, participate in project meetings, assist with negotiations, and provide expert witness testimony when requested. This continued commitment to client service allows projects to proceed efficiently while ensuring that the City receives prompt professional assistance throughout every phase of the appraisal process.

Through experienced project leadership, effective communication, comprehensive quality assurance procedures, and the availability of highly qualified appraisal professionals across

Texas, Lowery Property Advisors has established a proven record of successfully completing appraisal assignments within established schedules while maintaining exceptional technical quality. The firm is fully committed to providing the City of Edinburg with responsive service, dependable project management, and timely delivery of appraisal reports throughout the term of the contract.

3. Stability and References

3.1 References

Lowery Property Advisors has successfully completed appraisal assignments for numerous governmental agencies, municipalities, counties, transportation authorities, utility providers, school districts, and other public entities throughout Texas. These clients have relied on the firm to provide timely, objective, and well-supported appraisal services involving acquisition appraisals, right-of-way valuation, appraisal review, litigation support, easement valuation, market studies, and consulting assignments for a wide variety of property types.

3.2 Firm Stability

Since its establishment in 2010, Lowery Property Advisors, LLC has grown into one of Texas' leading commercial real estate appraisal and consulting firms, providing valuation services to governmental agencies, financial institutions, attorneys, utility providers, corporations, school districts, and private clients throughout the state. LPA employs 74 professionals, including 67 appraisers, across 12 offices nationwide — 9 of them in Texas — providing the depth and geographic reach necessary to reliably serve long-term public-sector contracts. The firm's continued growth has been achieved through a commitment to technical excellence, responsive client service, and consistent delivery of credible, well-supported appraisal reports.

Lowery Property Advisors maintains multiple offices throughout Texas, allowing the firm to efficiently serve clients across diverse geographic markets while providing local market knowledge and responsive project management. The firm's organizational structure provides sufficient depth to successfully manage assignments ranging from single-property appraisals to complex, multi-parcel acquisition projects without compromising quality or project schedules. Experienced MAI-designated appraisers and senior appraisal professionals are available to support assignments requiring specialized expertise, technical review, litigation support, or accelerated completion schedules.

The firm has established comprehensive quality assurance procedures that are incorporated throughout every appraisal assignment. Each report undergoes multiple levels of internal review to verify factual accuracy, analytical consistency, compliance with the Uniform Standards of Professional Appraisal Practice (USPAP), and adherence to client-specific requirements prior to delivery. These procedures have enabled Lowery Property Advisors to establish long-term relationships with numerous governmental agencies and repeat clients throughout Texas.

Lowery Property Advisors maintains the professional staffing, financial resources, and organizational capacity necessary to successfully perform appraisal services under long-term contracts with public-sector clients. The firm's experienced leadership team, statewide resources, and collaborative project approach ensure continuity of service and dependable project delivery regardless of assignment size or complexity. Through careful project planning, responsive communication, and disciplined quality control, Lowery Property Advisors has demonstrated its ability to consistently provide reliable appraisal services while meeting client expectations and project schedules.

4. Previous Experience with the City of Edinburg

Lowery Property Advisors has not been directly contracted by the City of Edinburg for appraisal services. The firm does, however, have extensive and ongoing appraisal experience within the City of Edinburg itself, having completed 45 appraisal assignments in Edinburg across a variety of property types over the past five years — including 19 completed within the past year alone — with one additional assignment currently in progress. This level of activity has given LPA's appraisal professionals a strong, current working knowledge of Edinburg's real estate market, property types, and local conditions, distinct from the firm's broader statewide governmental appraisal experience described elsewhere in this proposal.

In addition to this direct market familiarity, the firm offers the following representative projects as evidence of its experience with public-sector acquisition, right-of-way, and infrastructure-related appraisal assignments for other Texas municipalities, counties, and transportation agencies:

IH-35 Capital Express Central and North Segments — Appraisal of more than 30 parcels for the expansion and reconstruction of IH-35 through downtown Austin, Round Rock, and Pflugerville, including commercial land, office and retail buildings, restaurants, apartments, motels, and single-family residential properties. Completed 2023–2025 for TxDOT's Austin District.

City of Seguin River Oaks Wastewater Treatment Project — Appraisal of 52 parcels for the extension and improvement of a wastewater line in South Seguin, including commercial, rural, and residential land. Completed July 2024.

Austin RM 620 Widening — Appraisal of 15 parcels for the widening of RM 620 in the Lakeway area of Austin, including commercial and lakefront land, retail buildings, a restaurant, billboard signage, and single-family residential property. Completed March 2024 for TxDOT's Austin District.

City of Seguin Springs Hill SUD Transfer Project — Appraisal of 14 parcels for the transfer and improvement of a water line in North Seguin, including commercial, rural, and residential land. Completed January 2024.

City of New Braunfels Kohlenberg Road Widening Project — Appraisal of 5 parcels for the expansion of a two-lane road into a four-lane thoroughfare with a divided median, shared-use path, sidewalks, and curb/gutter improvements in North New Braunfels, including industrial and undeveloped land. Completed February 2025.

5. Insurance and Professional Services Agreement

Lowery Property Advisors maintains comprehensive insurance coverage appropriate for the professional real estate appraisal and consulting services provided by the firm. The firm's insurance program is designed to protect both its clients and employees while satisfying the insurance requirements commonly required by governmental agencies and other public-sector clients.

The firm maintains Commercial General Liability, Comprehensive Automobile Liability, Workers' Compensation, Employer's Liability, and Professional Liability (Errors and Omissions) insurance through financially sound insurance carriers licensed to conduct business within the State of Texas. Coverage is maintained in amounts appropriate for the professional services provided and is reviewed periodically to ensure continued compliance with contractual requirements and industry standards.

Should Lowery Property Advisors be selected by the City of Edinburg, the firm will provide Certificates of Insurance naming the City of Edinburg as an Additional Insured where required and will comply with all insurance requirements established by the Professional Services Agreement. Insurance coverage will remain in effect throughout the duration of the contract, and any required notices regarding policy modifications or cancellations will be provided in accordance with the agreement.

At the time of this submission, Lowery Property Advisors has had no insurance claims within the past five (5) years.

Insurance Coverage Summary

Coverage	Coverage Provided
Commercial General Liability	$2,000,000 Each Occurrence $4,000,000 Aggregate
Automobile Liability	$2,000,000 Combined Single Limit
Workers' Compensation	Per Statute $2,000,000 Each Incident
Professional Liability (Errors & Omissions)	$1,000,000 per occurrence/claim $2,000,000 aggregate

6. Professional Services Agreement

Lowery Property Advisors acknowledges the Professional Services Agreement included as part of the City of Edinburg's Request for Qualifications and understands that execution of the agreement will be required upon selection for contract award.

The firm is committed to working cooperatively with the City to finalize and execute a Professional Services Agreement that satisfies the requirements of the Request for Qualifications and accurately reflects the scope of services to be provided. Lowery Property Advisors maintains the professional qualifications, insurance coverage, and organizational resources necessary to fulfill the obligations of the agreement and is prepared to perform the requested appraisal services in accordance with the Uniform Standards of Professional Appraisal Practice (USPAP), applicable federal and state laws, and the City's contractual requirements.

Should minor administrative or legal clarifications be necessary prior to execution, Lowery Property Advisors is committed to working collaboratively with the City to reach mutually acceptable terms while preserving the intent and objectives of the agreement. The firm appreciates the opportunity to be considered for this contract and looks forward to establishing a successful long-term professional relationship with the City of Edinburg.

7. Contact Information

Lowery Property Advisors has designated the following individuals to serve as the primary contacts for all matters relating to this Statement of Qualifications and the administration of appraisal assignments performed for the City of Edinburg.

EXPERIENCE

Mario Caro has served as Senior Managing Director of LPA San Antonio since 2016. LPA is a commercial appraisal and consulting firm completing a wide range of projects throughout the southwest. Property types include, but are not limited to office, retail, industrial, multi-family, mixed-use, self-storage, hotel/motel, car washes, vacant land, daycare, subdivisions, and special use.

Mario began his appraisal career in 2001 with a regional appraisal company in Houston and specialized in right-of-way and eminent domain appraisal on public and private projects nationwide. In 2005, he returned to his hometown in San Antonio and joined a boutique appraisal firm providing right-of-way and commercial valuation. After 10 years, he transitioned to a global real estate firm where he developed their Texas right-of-way /litigation support practice and appraised commercial properties for lending purposes.

Mario has over 20 years of experience appraising for litigation and legal support matters in both federal and state courts. Numerous clients, including public agencies, attorneys, title companies, and lenders nationwide have relied on his expertise in an appraiser and review appraiser capacity. Mario has provided expert witness testimony and support on a variety of property types for public transportation, utility and recreational corridors, and drainage facilities.

To: City of Edinburgh
Attn: Evaluation Committee

RE: City of Edinburg Re: Statement of Qualifications – Real Estate Appraisal Services

To the Evaluation Committee:

On behalf of Partners Real Estate, I am pleased to submit our firm's Statement of Qualifications in response to the City of Edinburg's solicitation for licensed real estate appraisal services on an as-needed basis. Partners Real Estate is committed to providing the City with timely, accurate, and USPAP-compliant appraisal services in support of acquisition, lease, financial, and strategic planning needs, and we welcome the opportunity to serve as a trusted appraisal resource for the City.

As a firm specializing in commercial, multifamily, eminent domain and residential appraisals, we are uniquely positioned to assist the City of Edinburgh.

Founded in 2019, Partners Real Estate has grown into a team of approximately 20 appraisers based primarily throughout Texas, completing more than 2,000 appraisal assignments annually across residential, commercial, and specialty property types. Our firm's scale allows us to deploy experienced appraisers quickly while maintaining the responsiveness and personal attention of a boutique practice.

Partners Real Estate has provided appraisal and valuation services to a range of institutional and public-facing clients, including engagements with Dallas Fort Worth International Airport and the University of Houston, among others. This experience has given our team direct exposure to the documentation standards, timelines, and public-accountability expectations associated with government and quasi-governmental clients, and we are prepared to extend that same rigor to the City of Edinburg.

Office Location and Staffing Approach

The engagement will be led out of our Houston headquarters at 5847 San Felipe Plaza, Suite 1400, Houston, TX 77057. Partners Real Estate also maintains offices in San Antonio, Austin, and Dallas, giving us statewide coverage and the flexibility to assign appraisers with relevant local market knowledge to City assignments, including those in the Rio Grande Valley region.

All appraisal work is staffed internally by Partners Real Estate personnel — we do not rely on outside subcontractors or per-diem contractors to fulfill assignments. For smaller or time-sensitive assignments, we assign appraisers based on property type and geographic familiarity, allowing the City to receive prompt turnaround on individual requests without waiting for a large engagement team to mobilize.

Scope of Capabilities

Partners Real Estate is qualified to provide appraisal services for the full range of property types identified in the City's solicitation, including:

- Single-family and multifamily residential structures and complexes
- Commercial properties, including retail, industrial, and office
- Vacant land, both residential and commercial
- Mixed-use properties
- Specialized assignments involving eminent domain, tax appraisal, and land development valuation

All appraisal services are performed in compliance with the Uniform Standards of Professional Appraisal Practice (USPAP), the USPAP Competency Rule, and applicable local, state, and federal laws and regulations, using income, cost, and sales comparison approaches as appropriate to each assignment.

Team Member Qualifications and Experience

Sean P. Reilly, MAI, AI-GRS – Senior Vice President, Partners Real Estate. Mr. Reilly will serve as project manager and primary point of contact for the City of Edinburg engagement.

- 10+ years experience
- MAI/AI-GRS designations from the Appraisal Institute
- State of Texas license number 1381013-CG
- Significant government, eminent domain, residential and commercial appraisal experience.
- Approximately 30 appraisals completed annually in the Rio Grande valley.

Gary S. Brown, MAI – Partner and Executive Managing Director

- 10+ years of experience
- MAI designation from the Appraisal Institute
- State of Texas license number 1380486-CG
- Significant institutional, bank and commercial experience.

Kyle Knox, MAI – Partner and Managing Director

- 30+ years of experience
- MAI/AI-GRS designations from the Appraisal Institute
- State of Texas license number 1323097-CG
- Significant appraisal experience in all aspects.

Conclusion

Partners Real Estate confirms that it has read the City of Edinburg's Professional Services Agreement associated with this solicitation. Partners Real Estate confirms that it meets, and will continue to meet, the prerequisite insurance requirements outlined in the Agreement, and, if selected, Partners Real Estate agrees to enter into the Professional Services Agreement with the City of Edinburg substantially in the form provided. Partners Real Estate appreciates the opportunity to submit this Statement of Qualifications and looks forward to the possibility of supporting the City of Edinburg's real estate appraisal needs. Please do not hesitate to contact Sean P. Reilly with any questions regarding this submission.

TITAN
COMMERCIAL VALUATION

TRANSMITTAL LETTER

July 14, 2026

City of Edinburg
415 W. University Dr.
Edinburg, Texas 78541

RE: Request for Qualifications – Real Estate Appraisal Services
RFQ No. 2026-3

Dear Evaluation Committee:

Titan Commercial Valuation, LLC submits its qualifications to serve as an on-call real estate appraisal consultant to the City of Edinburg. TCV proposes a senior-led Texas appraisal team with extensive experience performing municipal acquisitions, partial acquisitions, permanent and temporary easement valuations, lease analyses, appraisal reviews, market studies and strategic real estate consulting. During the past five years, the proposed team has completed more than 35 assignments for the City of Austin and valuation services involving approximately 19 acquisition parcels for the City of Hutto. Mr. Suissa has completed or overseen hundreds of appraisal and consulting assignments for local, state, federal, and private-sector clients throughout Texas and Colorado.

TCV understands that this solicitation is intended to establish a rotation list of dependable appraisal firms. Our objective is to provide the City with a responsive and dependable appraisal resource that responds promptly, establishes realistic assignment schedules, communicates consistently and produces defensible reports suitable for acquisition, negotiation, planning, review and public scrutiny.

TCV acknowledges that no addenda were issued for this RFQ. Titan Commercial Valuation, LLC takes no exceptions to the requirements of RFQ No. 2026-3.

I certify that I am an officer of Titan Commercial Valuation, LLC and am fully authorized to bind the firm contractually. By submitting this Statement of Qualifications, Titan Commercial Valuation, LLC agrees to honor all commitments, representations, and conditions contained herein and, if selected, will enter into a contract with the City of Edinburg in accordance with the requirements of the RFQ.

The primary contact for this RFQ and all subsequent correspondence is:

André N. Suissa, MAI, President
Titan Commercial Valuation, LLC
Physical Address: 5900 Balcones Drive, No. 23141, Austin, Texas 78731
Office Telephone: Same as mobile
Fax: Not applicable
Mobile: 956-345-3552
Email: asuissa@titanre.com

Thank you for your consideration. We appreciate the opportunity to be of service to the City of Edinburg and look forward to working with you.

Respectfully submitted,

Titan Commercial Valuation, LLC

André N. Suissa, MAI
President
Authorized Representative

FIRM EXPERIENCE, STABILITY, AND REGIONAL CAPACITY

Firm Experience and Stability

Founded in 2011, Titan Commercial Valuation, LLC (TCV) is a Texas-based real estate appraisal and consulting firm providing valuation services to governmental agencies, municipalities, condemning authorities, public institutions, and private-sector clients throughout Texas and Colorado. TCV's services include acquisition and disposition appraisals, market analyses, appraisal reviews, lease analyses, eminent domain assignments, feasibility studies, strategic planning support, and valuation consulting.

Over the past five years, TCV has completed hundreds of appraisal and consulting assignments for federal, state, and local governmental agencies. The firm's experience includes substantially all property types anticipated by the City of Edinburg, including single-family residential, multifamily, office, retail, industrial, mixed-use, vacant land, institutional, and special-purpose properties. Representative assignments have involved parkland acquisitions, roadway and utility corridors, drainage easements, leased fee and ground lease interests, school properties, land development, and strategic acquisition and disposition analyses.

TCV is a wholly owned operating subsidiary of Poseidon Valuation, LLC. Titan Commercial Valuation, LLC is the respondent to this RFQ and will serve as the contracting entity responsible for all services provided to the City. This ownership structure does not alter TCV's management, proposed personnel, appraisal operations, insurance coverage, quality-control procedures, or responsibility for contract performance.

TCV has maintained continuous commercial appraisal operations for approximately 15 years and does not anticipate any ownership transfer, management reorganization, or departure of key personnel that would impair its ability to perform this contract. The firm has had no insurance claims during the preceding five years. Its established organizational structure, multiple Certified General Appraisers, experienced appraisal trainees, project coordination personnel, and centralized research and production resources reduce dependence on any single individual and provide continuity throughout the contract term.

Project Delivery and Staffing Capacity

Several governmental clients retain TCV on an as-needed basis, requiring the firm to respond promptly to assignments ranging from relatively straightforward residential and land valuations to complex commercial, mixed-use, and eminent domain projects. This experience has resulted in established project-management procedures, dependable communication practices, internal quality-control protocols, and the capacity to adjust staffing as municipal priorities and project schedules change.

The Central Texas office will administer the contract and coordinate assignments throughout Texas. André N. Suissa, MAI, will maintain overall responsibility for contract performance, assignment coordination, quality assurance, and communication with the City. Appraisers will be assigned based on property type, geographic location, complexity, workload, and required delivery schedule.

Every assignment will be directed by a Certified General Appraiser and supported by appraisal trainees, research personnel, report-preparation staff, and deliverables coordination as appropriate. For smaller or limited-scope assignments, TCV can efficiently deploy a Certified General Appraiser with focused trainee and production support. Larger, complex, or time-sensitive assignments can be staffed with multiple appraisers and parallel research and production resources. This scalable structure allows senior appraisers to concentrate on inspections, highest and best use, market analysis, valuation, reconciliation, and technical review while maintaining consistent report quality and dependable delivery schedules.

Edinburg and Rio Grande Valley Experience

TCV and its proposed project team have meaningful appraisal experience in Edinburg and throughout the Rio Grande Valley, including assignments in McAllen, Brownsville, Harlingen, and surrounding South Texas communities. Team members have completed appraisal and appraisal-review assignments involving properties located within Edinburg, together with broader regional work involving commercial properties, vacant land, acquisitions, and public-purpose valuation matters.

Firm President André N. Suissa, MAI, was raised in South Padre Island and maintains longstanding personal, professional, and real estate investment ties to the Rio Grande Valley and Cameron County. TCV is intentionally concentrating its current Valley practice on governmental, infrastructure, eminent domain, appraisal-review, and other public-purpose assignments.

Oscar Guerra resides in South Texas and is fluent in English and Spanish. His language skills and regional familiarity support property inspections, owner communications, market interviews, comparable verification, and coordination with Spanish-speaking property owners, brokers, and other market participants.

This combination of direct Edinburg-area appraisal experience, broader Rio Grande Valley market knowledge, longstanding regional ties, bilingual field capability, and established public-sector appraisal systems positions TCV to provide responsive, dependable, and locally informed appraisal services to the City.

Representative Governmental and Institutional Experience

Client	Project Type	Representative Services	Project Date(s)
City of Austin, TX	Municipal Infrastructure	Appraisals for parkland acquisitions, utility easements, storm drainage improvements, and other public infrastructure projects.	2017–Current
Texas Department of Transportation (TxDOT)	Transportation / Right-of-Way	Appraisal services for the FM 1518 widening project in Schertz, Texas, including 49 right-of-way acquisitions, valuation of partial takings, and expert witness testimony in eminent domain proceedings. Ongoing TxDOT appraisal assignments since 2017.	2017–Current
Colorado Department of Transportation (CDOT)	Transportation / Right-of-Way	Acquisition appraisals supporting highway widening, roadway expansion, and transportation improvement projects throughout Colorado.	2021–Current
University of Texas Board of Regents	Institutional / Ground Lease	Valuation of university-owned retail properties, ground leases, and other institutional real estate assets.	2021–Current
City of Hutto, TX	Transportation / Right-of-Way	Multiple roadway reconstruction acquisition appraisals involving permanent right-of-way, permanent easements, and temporary construction easements (19 parcels to date).	2022–Current
Jefferson County School District	Institutional	Portfolio valuation, acquisition, and disposition appraisals for educational facilities and surplus properties.	2022–Current

ABILITY TO MEET SCHEDULES, DEADLINES AND CONCURRENT ASSIGNMENTS

TCV recognizes that the value of an on-call appraisal contract depends on the consultant's ability to accept assignments promptly, establish realistic schedules and communicate before a deadline is at risk. Each assignment will be acknowledged within one business day. After reviewing the available title information, legal descriptions, surveys, property records and intended use of the appraisal, TCV will confirm the assigned personnel, scope, fee, required client information and delivery schedule.

André N. Suissa, MAI, will maintain overall responsibility for contract performance, assignment coordination, quality control, and client communication. Based on property type, complexity, location, workload, and required delivery schedule, he will assign the most appropriate Texas appraiser to each engagement. TCV currently has four Texas Certified General Appraisers available for assignments under this contract, including André N. Suissa, MAI, with an additional Texas Certified General Appraiser anticipated by Fall 2026. TCV's centralized research, coordination, and report-production resources allow the assigned appraisers to focus on property inspections, market analysis, highest and best use, valuation, and technical quality control.

The proposed team is structured to perform multiple assignments concurrently without depending on a single appraiser for inspections, analysis, report production and technical review.

TCV's proposed service standards are supported by its performance under existing on-call governmental contracts. For the City of Austin, typical assignment schedules have ranged from approximately four to eight weeks based on complexity, with expedited assignments completed in approximately three and one-half weeks. For larger or multi-parcel projects, TCV establishes written production schedules, assigns parallel research and appraisal resources, and provides recurring progress updates to identify and resolve schedule risks before they affect the required delivery date.

Project milestone	Proposed service standard
Acknowledge assignment request	Within one business day
Identify project manager and lead appraiser	Within one business day
Review available documents and identify missing information	Within two business days
Confirm scope, fee and delivery schedule	Within two business days after receipt of sufficient assignment information
Schedule inspection	Generally within five business days after access is authorized
Routine assignment delivery	Assignment-specific schedule established at authorization
Complex or multi-parcel assignment	Written production schedule with milestones
Active assignment status updates	Weekly, or more frequently when requested
Schedule-risk notification	Immediate written notice with proposed corrective action
Quality-control review	Completed before every final report is delivered

Understanding of Scope and Service Capabilities

City requirement	TCV response
Acquisition appraisals	Fee acquisitions, partial acquisitions, permanent easements, and temporary construction easements
Market-value analyses	Highest and best use, comparable-sales research, income analysis, and market studies
Property acquisition and disposition	Acquisition support, disposition appraisals, and strategic asset analyses
Lease analysis	Market rent, leased-fee interests, leasehold interests, and ground-lease valuation
Land development	Land valuation, subdivision analysis, development feasibility, and highest and best use
Eminent domain	Before-and-after valuation, damages, benefits, cost-to-cure analysis, and litigation support
Tax-related valuation	Property-tax appraisal, arbitration, and assessment-related consulting experience
Appraisal review	USPAP-compliant appraisal reviews and technical review services
Oral presentations	Presentations to City staff, boards, commissions, and City Council
Property types	Residential, multifamily, retail, office, industrial, mixed-use, vacant land, and special-purpose property
City requirement	TCV response
Valuation approaches	Sales comparison, income capitalization, and cost approaches, as applicable to the assignment and property type

City requirement	TCV response
Regulatory compliance	Compliance with USPAP, the Texas Appraiser Licensing and Certification Act, the USPAP Competency Rule, and applicable local, state, and federal requirements

TEAM MEMBER QUALIFICATIONS AND EXPERIENCE

TCV has developed a collaborative project delivery model that maximizes efficiency while ensuring each appraisal receives direct oversight from an experienced Certified General Appraiser. Rather than assigning every aspect of an appraisal to a single individual, our team utilizes a structured workflow that allows each team member to contribute according to their area of expertise while maintaining full compliance with USPAP.

Our Certified General Appraisers remain responsible for all critical valuation functions, including property inspections, highest and best use analyses, market research, selection of comparable sales, reconciliation of the approaches to value, and preparation and certification of each appraisal report. Administrative support, market research, data collection, report formatting, and quality control assistance are performed by experienced support personnel under the direct supervision of the assigned appraiser.

This collaborative approach enables TCV to efficiently manage multiple assignments simultaneously while maintaining consistent report quality, dependable turnaround times, and responsive communication. It also provides flexibility to quickly accommodate both routine and time-sensitive assignments without sacrificing analytical quality.

TCV utilizes LightBox appraisal software to manage appraisal production, maintain our proprietary sales and rental comparable database, and standardize report formatting. This technology enhances efficiency, promotes consistency among assignments, and allows our team to respond efficiently to assignments requiring consistent market analyses, valuation methodologies, and report formats.

TCV is a wholly owned operating subsidiary of Poseidon Valuation, LLC. Titan Commercial Valuation, LLC is the respondent to this RFQ and will serve as the contracting entity for the City of Edinburg. The corporate ownership structure does not alter the firm's management, proposed personnel, appraisal operations, insurance coverage, quality-control procedures, or responsibility for contract performance.

TCV and the proposed project team have not previously performed appraisal assignments for the City of Edinburg. However, TCV's combination of actual Edinburg-area appraisal experience, broader Rio Grande Valley market knowledge, regional ownership interests and a deliberate public-sector focus positions the firm to provide the City with both local familiarity and sophisticated governmental appraisal capabilities.

City of Edinburg Project Team Summary

Person	Proposed role
André N. Suissa, MAI	Contract Manager, assignment coordination, technical review, quality assurance, and primary City contact
Todd D. Milligan, RW/AC	Senior Texas Certified General Appraiser
Monica G. Lacey	Texas Certified General Appraiser
Christine Starkovich	Texas Certified General Appraiser
Oscar Guerra	Bilingual South Texas appraisal trainee supporting inspections, research, market verification, owner communication, appraisal development, and report preparation
Taylor Henri	Appraisal trainee assisting with market research, comparable verification, appraisal development, valuation analysis support, and report preparation
Aaron Barnes	Appraisal trainee assisting with property research, data verification, appraisal development, valuation analysis support, and report preparation
Kevin Reed	Appraisal trainee assisting with market research, property analysis, appraisal development, and report preparation
Amber Roberts	Deliverables Manager responsible for report production, quality-control coordination, final document assembly, and timely delivery to the City
Becky Parker	Appraisal Coordinator assisting with report preparation, scheduling, document coordination, and administrative support
Mithelish Singh	Centralized research and production support

Key Personnel

André N. Suissa, MAI
Founder | President | Project Manager

Mr. Suissa founded Titan Commercial Valuation, LLC in 2011 and has 18 years of commercial real estate appraisal experience. As the firm's President and MAI-designated appraiser, he provides overall project management, quality control, and technical review for appraisal assignments. His experience includes valuations for municipalities, counties, state agencies, federal agencies, condemning authorities, and private-sector clients involving acquisition, disposition, eminent domain, litigation support, appraisal review, and valuation consulting. Mr. Suissa was raised in South Padre Island and maintains strong ties throughout the Rio Grande Valley, providing valuable regional familiarity for assignments in South Texas.

As Project Manager, Mr. Suissa will serve as the City's primary point of contact and will be responsible for overall project management, assignment coordination, quality assurance, schedule management, and client communication. He will oversee staffing assignments, review appraisal reports for quality and consistency, and ensure all services are performed in accordance with USPAP and the City's requirements.

Todd D. Milligan, RW/AC
Certified General Appraiser | Senior Staff Appraiser

Mr. Milligan has 20 years of experience completing commercial appraisal assignments for municipalities, counties, and public agencies throughout Texas. He is LEED AP certified and has green-building valuation background beneficial for energy-related assets. He has expertise in industrial, retail, multifamily, mixed-use, right-of-way and corridor-impact valuations as well as strong appraisal review and UASFLA knowledge. Mr. Milligan has the capacity to manage numerous concurrent commercial appraisal assignments while remaining readily available for property inspections, valuation analysis, client coordination, and report development. He has served as the lead appraiser on numerous acquisitions, right-of-way, easement, eminent domain, and complex commercial valuation assignments. He is our Lead Appraiser in Texas for the City of Austin, City of Hutto, and many other municipalities.

Christine Starkovich
Certified General Appraiser | Staff Appraiser

Ms. Starkovich has 12 years of commercial appraisal experience specializing in the valuation of complex real property assignments. Her experience includes office, retail, industrial, multifamily, mixed-use, vacant land, and special-purpose properties for both public and private sector clients. She assists with eminent domain assignments, acquisition appraisals, and complex valuation analyses while also maintaining an established private client base. Ms. Starkovich rejoined Titan Commercial Valuation in 2026, further strengthening the firm's capacity to

provide timely appraisal services for governmental and private-sector clients.

Monica G. Lacey
Certified General Appraiser | Staff Appraiser

Ms. Lacey has 11 years in commercial real estate valuation and has significant experience appraising office, retail, industrial, multifamily, vacant land, and special-purpose properties. She assists with complex valuation assignments, highest and best use analyses, market research, and report preparation for both public and private clients.

Oscar Guerra
Appraiser Trainee

Mr. Guerra supports property inspections, market research, comparable-data verification, owner communications, and report preparation. He resides in Laredo and is fluent in English and Spanish, enhancing TCV's ability to communicate with Spanish-speaking property owners, brokers, market participants, and other project stakeholders throughout South Texas. Mr. Guerra is progressing toward the Texas Certified General Appraiser credential, which is anticipated by Fall 2026.

Taylor Henri
Appraiser Trainee

Mr. Henri assists with commercial appraisal assignments by performing market research, data collection, property inspections, comparable verification, and report preparation under the supervision of Certified General Appraisers.

Aaron Barnes
Appraiser Trainee

Mr. Barnes provides research support, market analysis, data verification, and appraisal assistance for commercial valuation assignments. He contributes to the preparation of appraisal reports while continuing to develop advanced valuation experience.

Kevin Reed
Appraiser Analyst and Trainee

Mr. Reed assists assigned Certified General Appraisers with property research, market analysis, comparable-data verification, appraisal development, valuation support, and report preparation. His prior experience with the Colorado Department of Transportation and county assessment provides additional familiarity with public-sector property analysis, right-of-way matters, and governmental valuation processes.

Amber Roberts
Deliverables Manager

Ms. Roberts will be responsible for coordinating appraisal deliverables, including report-production workflow, quality-control coordination, final document assembly, and timely delivery to the City. She will work with the Project Manager, assigned appraisers, and production personnel to confirm that reports and supporting materials are complete, consistently formatted, and delivered in accordance with the City's requirements and agreed schedules.

Mithelish Singh
Research & Production Support

Mr. Singh has provided appraisal production support to TCV for several years and oversees a dedicated research team contributing more than 200 staff hours each week. His team assists with property research, data collection, data entry, mapping, and report assembly, enabling Certified General Appraisers to focus on valuation analysis and report development.

Becky Parker
Appraisal Coordinator

Ms. Parker has been with TCV since 2014 and assists with report preparation, inspection scheduling, project-document coordination, assignment tracking, proposal administration, and preparation of electronic and hard-copy deliverables. She will support Amber Roberts and the assigned appraisal team in maintaining organized and timely project delivery.

TCV maintains the staffing capacity to efficiently complete assignments of varying size and complexity. Smaller assignments are typically completed by a Certified General Appraiser supported by appraisal trainees and production staff, while larger or time-sensitive projects utilize multiple Certified General Appraisers working collaboratively. This scalable staffing model enables TCV to respond quickly to assignment requests while maintaining consistent quality, communication, and adherence to project schedules.

On the following pages, we have provided a copy of each appraiser's resume and license. All licenses and authorizations shown were current as of the proposal submission date. TCV will ensure that assigned personnel maintain all required credentials throughout the contract term and will provide renewed certificates to the City as applicable.

REFERENCES

Titan Commercial Valuation, LLC has successfully completed appraisal assignments for numerous federal, state, and local governmental agencies throughout Texas and Colorado. The following representative projects demonstrate our experience performing appraisal services comparable to those anticipated by the City of Edinburg. Additional references are available upon request.

TCV and the proposed project team have not previously performed appraisal assignments for the City of Edinburg. However, the firm has extensive experience providing appraisal services for municipalities, counties, state agencies, universities, and other governmental entities throughout Texas and Colorado through both on-call contracts and project-specific engagements. Listed are some of our references for similar projects.

City of Austin (Ongoing On-Call Appraisal Contract)

Project Description

TCV has completed more than 35 appraisal assignments for the City of Austin during the past five years under its ongoing on-call appraisal contract. Assignments have included fee acquisitions, partial takings, permanent easements, temporary construction easements, parkland acquisitions, water and wastewater improvements, drainage projects, and other municipal infrastructure initiatives. Typical assignment schedules range from four to eight weeks depending on project complexity, with expedited assignments completed in as little as three and one-half weeks.

TCV Team Members
Todd D. Milligan – Lead Appraiser
André N. Suissa – Quality Review
Christine Starkovich – Staff Appraiser
Becky Parker – Assisting in report preparation
Mithelish Singh – Research & Production Support

City of Hutto (Ongoing On-Call Appraisal Contract)

Project Description

Since 2023, Todd Milligan has served under the City's on-call appraisal contract, completing appraisal services supporting roadway reconstruction and capital improvement projects. To date, the team has completed valuation services involving approximately 19 acquisition parcels, including fee acquisitions, permanent easements, temporary construction easements, and eminent domain support for multiple transportation improvement projects.

University of Texas Board of Regents (Ongoing On-Call Appraisal Contract)

Project Description

TCV has completed multiple appraisal assignments involving properties subject to long-term ground leases for the University of Texas System. Representative assignments include valuation of a 2.641-acre H-E-B Grocery ground lease, a 0.5333-acre 7-Eleven ground lease, an ongoing 1.9636-acre CVS Pharmacy ground lease, and a 2,195-square-foot dental office. These assignments required analysis of leased fee interests and long-term leasehold considerations.

Colorado Department of Transportation (CDOT)

Project Description

Led by André N. Suissa, MAI, TCV provided comprehensive right-of-way valuation services for the federally funded 6th Avenue and Wadsworth Boulevard Improvement Project, involving seven impacted commercial properties. Services included valuation of fee acquisitions, permanent easements, temporary easements, contributory site improvements, damages analyses, cost-to-cure estimates, and coordination of third-party relocation cost estimates for commercial signage. Despite project delays resulting from roadway redesign, the assignment was completed while maintaining proactive communication with CDOT staff and affected property owners.

Public Service Company of Colorado d/b/a Xcel Energy

Project Description

The assignment consisted of two phases and a portfolio of 45 separate appraisal reports. The purpose of these appraisals was to provide compensation estimates for the reasonable market value of the properties actually taken; compensable damages, if any, to the residue; and special benefits, if any, to the residue. The appraisal phase began in 2025 and was completed in May 2026, with related expert-witness services anticipated in Fall 2026.

CITY OF EDINBURG - CITY COUNCIL
Meeting Date: August 18, 2026
AWARDING OF BIDS
Agenda Item No: 13.C.
2026-2028 Geotechnical Engineering and Construction Materials Testing Services Rotation

1. **Agenda Item:**
Consider Awarding RFQ No. 2026-4, Geotechnical Engineering and Construction Materials Testing Services to Qualified Firm(s) and Authorize the City Manager or Designated Appointee to Enter Into a Professional Services Contract with Such Firm(s) as Projects Arise. [Mardoqueo Hinojosa, P.E., CFM, City Engineer]

2. **Description:**
On occasion, the City of Edinburg requires Geotechnical Engineering and/or Construction Materials Testing Services on City projects which do require a specific engineering specialty. The qualified firm(s) selected should be experienced in the field of geo-technical engineering services, having experience in Geological Geo-Technical Testing and Construction Materials Testing. It is expected that the qualified firm(s) selected will have a sufficient level of innovation and appraisal expertise to carry out the projects without constraints to produce documents in a timely manner. The firm must be prepared to assure the City of Edinburg that key personnel indicated in their qualification statement will maintain their role in each project and that their present workload is such that each project will be completed on or before the due date. The rotation is for potential projects between October 2026 through September 2028. Projects are to be funded in the upcoming fiscal years, as prioritized by the City Council.

Requests for Qualifications were received on Tuesday, July 14, 2026, at 3:00 p.m. for Geotechnical Engineering and Construction Materials Testing Services. A total of nine (9) Requests for Qualifications were received and reviewed by staff. All the submittals received met the criteria set out in the Request for Qualifications. The following qualified firms listed in alphabetical order have submitted Statements of Qualifications in response to this RFQ:

1. B2Z Engineering, LLC*
2. ECS Southwest, LLP
3. HVJ South Central Texas – M&J, Inc.
4. Millennium Engineers Group, Inc.*
5. Professional Service Industries
6. Raba Kistner, Inc.*
7. RGV Strata Group
8. Terracon Consultants, Inc.*
9. UES Professional Solutions 45, LLC

*On 2024-2026 rotation

Limiting the selection of firms between 3 and 5 will insure each firm will obtain a project as it arises. The current 2024-2026 rotation has four (4) firms, and they have received approximately three (3) projects.

3. **Staff's Recommendation:**
Staff recommends awarding RFQ No. 2026-4 Geotechnical Engineering and Construction

Materials Testing Services to qualified firm(s) and authorize the City Manager or designated appointee to enter into a Professional Services Contract with such firm(s) as projects arise.

1. Introduction

1.1. Summary

The City of Edinburg's Department of Engineering is currently seeking to retain a rotation list of qualified professional Geotechnical Engineering firms to provide Geotechnical Engineering and Construction Materials Testing. The term of the contract will be two (2) years from 10/01/2026 – 09/30/2028. The services request is to provide the following services: Geotechnical Engineering, Construction Materials Testing and Engineering, and Environmental Services of any and all City Projects. It is anticipated that Geotechnical Engineering firms will lead full teams of engineers and or related consultants as needed for each project.

Release Project Date:
June 24, 2026

Question Submission Deadline:
July 7, 2026, 3:00pm

Proposal Submission Deadline:
July 14, 2026, 3:00pm

2. Legal Notice

2.1. Notice to Respondents

The City of Edinburg is soliciting sealed proposals from qualified vendors for Request for Qualifications - Geotechnical Engineering and Construction Materials Testing Services.

Sealed Proposals must be submitted electronically or received by the City Secretary's Office no later than:

3:00 pm, Tuesday, July 14, 2026.

All sealed proposals must be received either electronically or at the designated location by the deadline shown. Proposals received after the deadline will not be considered for the award of the contract and shall be considered void and unacceptable.

All proposals will be opened, and respondent's names publicly read aloud promptly in the City Hall Community Room, at 415 W. University Dr., Edinburg, TX 78539, at 3:00 pm, Tuesday, July 14, 2026.

To obtain a copy of the Request for Qualifications or submit an electronic proposal please visit:

https://procurement.opengov.com/portal/cityofedinburg

If a Respondent chooses to submit a Hard Copy Proposal, it must be delivered in a sealed envelope with a return address and clearly marked "City of Edinburg RFQ No. RFQ 2026-4 to the City Secretary's Office prior to the RFQ opening date and time. The receiving time in the City Secretary's Office will be the governing time for acceptability of the proposals. The respondent's firm name shall appear on the outside of the envelope.

Submit Hard Copy Proposals to:

If submitting Electronic: https://procurement.opengov.com/portal/cityofedinburg

If Hand-Delivering Bids: 415 W. University Drive

c/o City Secretary Department (1st Floor)

If you have any questions or require additional information contained in the RFQ, you may contact Lorena Fuentes, Interim Purchasing Manager. Please be sure to submit your questions via OpenGov Procurement at the website listed above no later than 3:00 pm on Tuesday, July 7, 2026.

The City reserves the right to reject any or all proposals and to waive informalities or technicalities and to accept the Proposal deemed the most advantageous to the City, and hold the proposal for a period of 90 days without taking action.

3. Instructions, Terms and Conditions

3.1. General Instructions

PURPOSE

The purpose of these solicitation documents is to execute a Professional Services Contract for: RFQ 2026-4 Request for Qualifications - Geotechnical Engineering and Construction Materials Testing Services

INTENT

The services to be provided under this RFQ shall be in accordance with and shall meet all specifications and/or requirements as shown in this solicitation for RFQ. There is no intention to disqualify any respondent who can meet the requirements.

DEVIATION FROM SPECIFICATION

Please read your requirements thoroughly and be sure that the RFQ offered complies with all requirements/specifications noted. Any variation from the solicitation requirements/specifications must be clearly indicated by letter, on a point by point basis, attached to and made a part of your RFQ. If no exceptions are noted, and you are the successful respondent, it will be required that the service(s) be provided as specified.

SUBMITTAL OF "HARD COPY" RFQ

If submitting a Hard Copy RFQ, it must be submitted in a sealed envelope by the vendor. **Submit two (2) complete sets of the response, one (1) original marked “ORIGINAL,” and one (1) Digital Copy in a flash drive**. Each RFQ must be completely filled out and SUBMITTED IN ORIGINAL FORM complete with all supporting documentation. RFQs submitted by facsimile (fax) will not be accepted. Submittal of an RFQ in response to this solicitation constitutes an offer by the respondent. Once submitted, RFQs become the property of the City of Edinburg and as such the City reserves the right to use any ideas contained in any RFQ regardless of whether that respondent/firm is selected. Submission of a RFQ in response to this solicitation, by any respondent, shall indicate that the respondent(s) has/have accepted the conditions contained in the RFQ, unless clearly and specifically noted in the RFQ submitted and confirmed in the contract between the City and the successful respondent otherwise. RFQs which do not comply with these requirements may be rejected at the option of the City. RFQs must be filed with the City of Edinburg before the deadline day and hour. No late RFQs will be accepted. Failure to meet RFQ requirements may be grounds for disqualification.

If Hand-Delivering Bids: 415 W. University Drive

c/o City Secretary Department (1st Floor)

If submitting Electronic: https://procurement.opengov.com/portal/cityofedinburg

AUTHORIZATION TO BIND RESPONDENT TO RFQ

RFQs MUST give full firm name and address of respondent, and be manually signed. Failure to do so will disqualify your RFQ. Person signing bid must show title or AUTHORITY TO BIND HIS/HER FIRM IN A CONTRACT. Firm name and authorized signature must appear on each page that calls for this information. The legal status of the Respondent whether corporation, partnership, or individual, shall also be stated in the RFQ. A corporation shall execute the RFQ by its duly authorized officers in accordance with its corporate by-laws and shall also list the state in which it is incorporated. A partnership Respondent shall give full names and addresses of all partners. All partners shall execute the RFQ. Partnership and Individual Respondent shall state in the proposal the names and addresses of all persons with a vested interest therein. The place of residence of each Respondent, or the office address in the case of a firm or company, with county and state and telephone number, shall be given after the signature.

ALTERATIONS/AMENDMENTS TO RFQ

RFQ CANNOT be altered or amended after opening time. Alterations made before opening time must be initialed by respondent guaranteeing authenticity. No RFQ may be withdrawn after opening time without acceptable reason in writing and only after approval by the City of Edinburg.

NO RESPONSE TO RFQ

If unable to submit a RFQ, respondent should return inquiry giving reasons.

LIST OF EXCEPTIONS

The respondent shall attach to his/her RFQ a list of any exceptions to the specifications/ requirements.

TIME ALLOWED FOR ACTION TAKEN

The City of Edinburg may hold RFQ's **90 days** after deadline without taking action. Respondents are required to hold their RFQ's firm for same period of time.

RIGHT TO REJECT/AWARD

The City of Edinburg reserves the right to reject any or all RFQs, to waive any or all formalities or technicalities, and to make such awards of contract as may be deemed to be the best and most advantageous to the City of Edinburg.

NUMBER OF CONTRACTS

THE CITY reserves the right to award one, more than one, or no contract(s) in response to this RFQ.

INDEMNIFICATION CLAUSE

The Respondent agrees to indemnify and save harmless the City, from all suits and actions of every nature and description brought against them or any of them, for or on account of the use of patented appliances, products or processes, and he shall pay all royalties and charges which are legal and equitable. Evidence of such payment or satisfaction shall be submitted upon request of the Assistant Purchasing Manager, as a necessary requirement in connection with the final estimate for payment in which such patented appliance, products or processes are used.

ADDENDA AND MODIFICATIONS

Respondent shall carefully examine the RFQ forms, specifications/requirements, and instructions to Respondents. Should the respondent find discrepancies in, or omissions from specifications/requirements, or other documents, or should he/she be in doubt as to their meaning, he/she should request an interpretation via the OpenGov portal:https://procurement.opengov.com/portal/cityofedinburg and obtain clarification by addendum prior to submitting any RFQ. Explanations, interpretations, and supplemental instructions shall be in the form of written Addenda which shall become a part of the Contract documents. Said Addenda shall be available thru the e-procurement portal and e-mailed to all prospective Respondents. All Addenda issued in respect to this project shall be considered official changes to the original RFQ documents. Verbal statements in response to inquiries and/or requests for explanations shall not be authoritative nor binding. It shall be the Respondent(s) responsibility to ensure that they have received all Addenda in respect to this project. Furthermore, Respondents are advised that they must recognize, comply with, and attach a signed copy of each Addendum which shall be made part of their RFQ Submittal. Respondent(s) signature on Addenda shall be interpreted as the respondent’s “recognition and compliance to” official changes as outlined by the City of Edinburg and as such are made part of the original solicitation documents. Failure of any respondent to receive any such addendum or interpretation shall not relieve such Respondent from its terms and requirements. The City may issue a written addendum no later than five calendar days prior to the date bids must be received. Addendums are available online at https://procurement.opengov.com/portal/cityofedinburg

SYNONYM

Where in this solicitation package SERVICES is used, its meaning shall refer to the request for qualifications Request for Qualifications - Geotechnical Engineering and Construction Materials Testing Services as specified.

ASSIGNMENT

Respondents are advised that the City of Edinburg shall not allow the successful respondent to sell, assign, transfer, or convey any part of any contract resulting from this RFQ in whole or in part, to a third party without the written approval of the City of Edinburg.

RESPONDENT’S EMPLOYEES

Neither the Respondent nor his/her employees engaged in fulfilling the terms and conditions of this Service Contract shall be considered employees of the City. The method and manner of performance of such undertakings shall be under the exclusive control of the vendor on contract. The City shall have the right of inspection of said undertakings at any time.

INTERPRETATIONS

Any questions concerning the project and/or specifications/requirements with regards to this solicitation for statement(s) of qualifications shall be directed to the designated individuals as outlined in the RFQ. Such interpretations, which may affect the eventual outcome of this request for statements of qualifications, shall be furnished in writing to all prospective Respondents via Addendum. No interpretation shall be considered binding unless provided in writing by the City of Edinburg in accordance with paragraph entitled **"Addenda and Modifications".**

STATUTORY REQUIREMENTS

It shall be the responsibility of the successful respondent to comply with all applicable State & Federal laws, Executive Orders and Municipal Ordinances, and the Rules and Regulations of all authorities having jurisdiction over the work to be performed hereunder and such shall apply to the contract throughout, and that they will be deemed to be included in the contract as though written out in full in the contract documents.

RFQ PREPARATION COSTS

The City of Edinburg shall not be held liable for any costs incurred by any respondent for work performed in the preparation of and production of a RFQ or for any work performed prior to execution of contract.

CONFIDENTIAL INFORMATION

Any information deemed to be confidential by the respondent should be clearly noted on the pages where confidential information is contained; however, the City cannot guarantee that it will not be compelled to disclose all or part of any public record under Texas Public Information Act, since information deemed to be confidential by the respondent may not be considered confidential under Texas Law, or pursuant to a Court order.

VERBAL THREATS

Any threats made to any employee of the City, be it verbal or written, to discontinue the providing of item/material/services for whatever reason and/or reasons shall be considered a breach of contract and the City will immediately sever the contract with the Respondent/Consultant on contract.

RIGHT TO AUDIT

The City of Edinburg reserves the right to audit the vendor's books and records relating to the performance of this contract. The City of Edinburg, at its own expense, shall have the right at all reasonable times during normal business hours and upon at least twenty-four (24) hours' advance notice, to audit, to examine, and to make copies of or extracts from the books of account and records maintained by the vendor(s) with respect to the Supply/Service and/or Purchase Contract. If such audit shall disclose overpayment by City to vendor, written notice of such overpayment shall be provided to the vendor and the amount of overpayment shall be promptly reimbursed by vendor to the City. In the event any such overpayment is not paid within ten (10) business days after receipt of such notice, the unpaid amount of such overpayment shall bear interest at the rate of one percent (1%) per month from the date of such notice until paid.

PAST PERFORMANCE

Respondent's past performance shall be taken into consideration in the evaluation of RFQ submittal.

JURISDICTION

Contract(s) executed as part of this solicitation shall be subject to and governed under the laws of the State of Texas. Any and all obligations and payments are due and performable and payable in Hidalgo County, Texas.

VENUE

The parties agree that venue for purposes of any and all lawsuits, cause of action, arbitration, and/or any other dispute(s) shall be in Hidalgo County, Texas.

CONSIDERATION OF LOCATION OF BIDDER'S PRINCIPAL PLACE OF BUSINESS

The City may give local vendors, whose principal place of business is located within the City of Edinburg, and whose bid is within five percent (5%) of the lowest bid price preference as allowed by Section 271.9051 of the Local Government Code.

AWARD

Respondents are advised that the City of Edinburg is soliciting RFQs and award shall be made to the respondent that in the opinion of the City of Edinburg is the best qualified.

The City of Edinburg reserves the right to award contract(s) based solely on the written proposals. The City also reserves the right to request oral interviews.

FINAL SELECTION AND THE CITY COUNCIL APPROVAL

Selection shall be made of one or more proposers deemed to be fully qualified and best suited among those submitting Proposals on the basis of the evaluation factors included in the Request for Qualifications, if so stated in the Request for Qualifications. Negotiations shall be conducted with the proposers selected. After negotiations have been conducted with each proposer selected, the agency shall select the proposer which, in its opinion, has made the best proposal, and shall award the contract to that proposer. The City may cancel this Request for Qualifications or reject the Qualifications at any time prior to an award, and is not required to furnish a statement of the reasons why a particular proposal was not deemed the most advantageous. Should the City determine in writing and in its sole discretion that only one proposer is fully qualified, or that one proposer is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that proposer. The award document will be a contract incorporating by reference all the requirements, terms and conditions of the solicitation and the contractor's proposal as negotiated. After the selection of the most qualified firm(s), scope of services and billing rates will be negotiated and used as attachments to the City's Professional Services Agreement. This Agreement will then be submitted to the City Council for approval. If the City and the selected firm cannot successfully negotiate an agreement, then the City will enter into negotiations with the next best qualified firm on the evaluation rating list. This procedure may be repeated until one (1) or more firms has been selected and approved by the City Council.

PAYMENT

The City of Edinburg will execute payment by mail in accordance with the State of Texas Pay Law after SERVICES have been completed, introduced to the City, and found to meet City of Edinburg specifications/requirements. No other method of payment will be considered.

CONFIDENTIALITY OF INFORMATION AND SECURITY

Should the successful respondent become the holder of and have access to confidential information in the process of fulfilling its responsibilities in connection with an awarded contract the successful respondent agrees that it shall keep such information confidential and will comply fully with the laws and regulations of the State of Texas, ordinances and regulations of the City, and any applicable federal laws and regulations relating to confidentiality.

EQUAL EMPLOYMENT OPPORTUNITY

Respondent agrees that they will not discriminate in hiring, promotion, treatment, or other terms and conditions of employment based on race, sex, national origin, age, disability, or in any way violate Title VII of 1964 Civil Rights Act and amendments, except as permitted by said laws.

TERMINATION OF CONTRACT

The City of Edinburg reserves the right to terminate the contract if, in the opinion of the City of Edinburg, the successful vendor's performance is not acceptable, no funds are available, or if the City wishes, without cause, to discontinue this contract. Termination will be in written form allowing a 30-day notice.

HISTORICALLY UNDERUTILIZED BUSINESS

Firm(s)/Sub Firm(s) will be required to comply with the President's Executive Order No. 11236 and Order No. 11375 which prohibits discrimination in employment regarding race, creed, color, sex, or national origin. Firm(s)/Sub Firm(s) must comply with the Title VI of the Civil Rights Act of 1964, Minority and Women Owned Business Enterprise standards and affirmative action requirements.

ETHICAL STANDARD

No City official or employee shall have interest in any contract resulting from this bid.

IF YOU HAVE ANY QUESTIONS ABOUT COMPLIANCE, PLEASE CONSULT YOUR OWN LEGAL COUNSEL. COMPLIANCE IS THE INDIVIDUAL RESPONSIBILITY OF EACH PERSON OR AGENT OF A PERSON WHO IS SUBJECT TO THE FILING REQUIREMENT. AN OFFENSE UNDER CHAPTER 176 IS A CLASS "C" MISDEMEANOR.

3.2. INSURANCE REQUIREMENTS

Staff may waive insurance requirements for contracts $0 - $4,999.99, including but not limited to contracts for food, materials, supplies, and construction. Workers' Compensation in amounts which satisfy statutory coverage shall be required for construction projects.

The following insurance requirements will be included in all City contracts of $5,000 - $14,999.99. In contracts not involving building and construction projects, as that activity is defined in TEX. LABOR CODE §406.096, contractors may obtain alternative form of worker accident insurance with minimum limits of liability of $100,000 per claim.

Minimum Insurance Requirements

Type of Coverage Limits of Liability

Worker’s Compensation Statutory Coverage

Comprehensive General Liability

(City named as additional insured)

Bodily Injury $250,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

The following insurance requirements will be included in all **City contracts of $15,000 or more.**

(1) The successful bidder will be required to carry the following insurance coverage and limits of coverage, as well as list the City as an additional insured to liability coverage as requested by the City. In addition, the successful bidder shall provide the City with evidence of coverage and furnish acceptable proof of payment of insurance premiums.

(2) The successful bidder will be required to secure and/or have insurance coverage in force with an admitted property and casualty insurance company licensed by the State of Texas to conduct business in the State of Texas.

(3) In contracts not involving building and construction projects, as that activity is defined in TEX. LABOR CODE §406.096, contractors may obtain alternative form of worker accident insurance with minimum limits of liability of $100,000 per claim

Minimum Insurance Requirements

Type of Coverage Limits of Liability

Worker’s Compensation Statutory Coverage

Employer’s Liability Bodily Injury by Accident:

$100,000 each accident

Bodily Injury by Disease:

$100,000 each employee/$500,000 policy limit

Comprehensive General Liability

Bodily Injury $250,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

Comprehensive Auto Liability

Bodily Injury $100,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

City’s Protective Liability

Bodily Injury $250,000 each person/$500,000 each occurrence

Property Damage $100,000 each occurrence/$100,000 aggregate

or $500,000 combined single limits

Policies must name the City of Edinburg as an Additional Insured.

Certificates of insurance naming the CITY as an additional insured shall be submitted to the CITY for approval prior to any services being performed by Contractor. Each policy of insurance required hereunder shall extend for a period equivalent to, or longer than the term of the Contract, and any insurer hereunder shall be required to give at least thirty (30) days written notice to the CITY prior to the cancellation of any such coverage on the termination date, or otherwise. This Contract shall be automatically suspended upon the cancellation, or other termination, of any required policy of insurance hereunder, and such suspension shall continue until evidence that adequate replacement coverage is provided to the CITY. If replacement coverage is not provided within thirty (30) days following suspension of the Contract, the Contract shall automatically terminate.

4. Specifications

4.1. Scope of Services

The selected firm(s) will report to, and operate under, the direction of City of Edinburg's Department of Engineering staff. Must have a Texas Licensed Professionals with superior background, training, and qualifications meeting all requirements of this RFQ, Registered or licensed in the State of Texas. The scope of services required by this RFQ may include some or all of the following services:

1. Geotechnical:

A. Slab on Grade Foundation Evaluation and Recommendation
B. Special Construction Details for Removal of Ground or Surface Water, Existence of Expansive Clay, Hydrostatic Pressure, etc.
C. Site Work
D. Retention Systems
E. Field Exploration
F. Laboratory Testing
G. Analysis and Reports
H. Other Geotechnical Evaluation
I. Environmental Reports

2. Construction Materials Testing:

A. Plans Review
B. Earthwork Services
C. Density Testing
D. Post Construction Services
E. Foundation Inspection Services
F. Concrete Services
G. Structural Steel Services
H. Other Laboratory Construction Testing for Infrastructure and/or Building Projects.

All qualified firms or persons shall have current licenses as required under the State of Texas for the provisions of services requested for the City of Edinburg.

4.2. Submittal Requirements

The RFQ must be submitted according to the instructions outlined herein. Each response should include, at a minimum, the following items not excluding the selection process criteria:

A. Transmittal letter – Indicate interest and commitment to perform services for the City of Edinburg, include contact information (physical address, telephone, fax, cell phone, and email address) for the primary person responsible for your RFQ who will be the point of contact for the City on all correspondence and communications pertaining to the RFQ. State whether any addendums to this RFQ have been received by your firm and whether consideration of their content has been included in your RFQ. The letter must be signed by an officer of the firm who is authorized to bind the firm to contract and shall contain a statement to this effect;

B. Firm Qualification and Experience – Discuss the firm's experience and history in performing geotechnical engineering and construction materials testing services in a timely manner, particularly for other governmental agencies in the past five (5) years. Discuss the firm's uniqueness to best perform these services for the City. Identify the office location that will be providing the services and the approach to handling part-time staffing needs for smaller assignments.

C. Team Member Qualifications and Experience – Submit resumes summarizing qualifications and experience of project manager, key staff and any support staff likely to be assigned to the work.

D. References – Provide at least three (3) references (names and current phone numbers) from recent work and List all past projects with the City of Edinburg for each proposed team member. Include a brief description of the projects associated with the reference, and the role of the individual.

E. Insurance - Provide information on the types and amounts of insurance carried by the PSP, including General Liability, Auto Coverage, Worker's Compensation, and Professional Liability Coverage. A list of any insurance claims against the firm within the past 5 years.

F. Professional Services Agreement – Provide a statement that the Professional Services Agreement has been read, that the firm will meet the prerequisite insurance requirements, and the firm, if selected, agrees to enter in to such agreement.

G. Contact Information – Each firm must submit the firms two (2) different contact information (Name, Title, Address, Phone Number, Mobile Number, and Email Address).

H. Presentation – Electronic submittal only.

CONFLICT OF INTEREST

CHAPTER 176 OF THE TEXAS LOCAL GOVERNMENT CODE

Effective January 1, 2006, Chapter 176 of the Texas Local Government Code requires that any vendor or person considering doing business with a local government entity disclose in the Questionnaire Form CIQ, the vendor or person's affiliation or business relationship that might cause a conflict of interest with a local government entity. By law, this questionnaire must be filed with the records administrator of the City of Edinburg not later than the 7th business day after the date the person becomes aware of facts that require the statement be filed. See Section 176.006, Local Government Code. A person commits an offense if the person violates Section 176.006, Local Government Code. An offense under this section is a Class C misdemeanor.

For more information or to obtain Questionnaire CIQ go to the Texas Ethics Commission web page at https://www.ethics.state.tx.us/data/forms/conflict/CIQ.pdf

*Response required

4.9. If awarded the 1295 form will need to be provided.*

CERTIFICATE OF INTERESTED PARTIES (Form 1295)

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016. For more information go to the Texas Ethics Commission web page at

B - Rules for Electronic Bidding

STATE OF TEXAS §

COUNTY OF HIDALGO §

CITY OF EDINBURG §

AGREEMENT BETWEEN THE CITY OF EDINBURG AND CONSULTANT FOR GEOTECHNICAL ENGINEERING SERVICES PURSUANT RFQ NO. XXXX-XXX

The City of Edinburg, Hidalgo County, Texas, a municipal corporation, (hereinafter **"City"**) and **CONSULTANT** (hereinafter **"Consultant"**), are the parties to this Agreement.

RECITALS

WHEREAS, City has authorized staff to request proposals for the On-Call Professional Services, the Consultant shall provide for specific projects as may be requested by the City. Such services shall be defined, scheduled, and authorized in subsequent Task Orders. Services may include, but not be limited to Engineering, PROFESSIONAL SERVICES, and or other as-needed services as stated in Exhibit "A", and

WHEREAS, Consultant has the professional knowledge and abilities to perform the professional engineering and PROFESSIONAL SERVICES; and

WHEREAS, City desires to engage Consultant to render services in connection therewith:

NOW, THEREFORE, City and Consultant do mutually agree as follows:

SECTION I
EMPLOYMENT OF CONSULTANT

A. City agrees to employ Consultant to furnish and provide the Services, as stated in this agreement and **Exhibit "A"**. Upon receipt of Services to the City's satisfaction, the City agrees to pay Consultant as stated in this Agreement.

SECTION II
SERVICES OF CONSULTANT

A. The Consultant shall, in the scope of his work, perform the Services identified in **Exhibit "A"** of this document. City shall provide Consultant with authorization to proceed, after execution of this Agreement.

B. Nothing contained in this Agreement is intended by the parties to create a partnership or joint venture between the parties, and any implication to the contrary is hereby expressly disavowed. It is understood and agreed that this Agreement does not

create a joint enterprise, nor does it appoint either party as an agent of the other for any purpose whatsoever. Except as otherwise specifically provided herein, neither party shall in any way assume any of the liability of the other for acts of the other or obligations of the other.

SECTION III
RESPONSIBILITY OF THE CITY

A. City will facilitate Consultant's work with the following tasks:

1. Provide Consultant with its requirements for the Services.

2. Assist Consultant by providing information reasonably available to the City and pertinent to the Services.

3. Facilitate access to and make provisions for Consultant to enter upon public property as reasonably required for Consultant to perform its Services.

4. Examine all reports, sketches, estimates, drawings, proposals, and other documents presented by Consultant and render in writing decisions pertaining thereto within a reasonable time so as not to delay the Services of the Consultant.

5. Give prompt written notice to Consultant whenever City observes or otherwise becomes aware of any defect in Services.

6. City's representative with respect to interpretation and implementation of the Services and this Agreement will be the City Engineer or such other representative that the City may appoint by written notice to Consultant with whom Consultant will communicate regarding all matters pertaining to this Agreement. Said representative will make all arrangements for consultation by Consultant with employees or designees of City. In addition, said representative shall have authority and responsibility to define and agree upon the scope and specification of the Services, require and receive reports regarding the progress of the Services, and terminate the performance of the Services or any phase thereof in accordance with the provisions of this Agreement.

SECTION IV
RESPONSIBILITIES OF CONSULTANT

A. Consultant shall perform the Services described in **Exhibits "A".**

B. Consultant shall perform its services with care, skill, and diligence, in accordance with the applicable professional standards currently recognized by its profession, and shall be responsible for the professional quality, technical accuracy, completeness, and coordination of all reports, plans, information, and other items and Services furnished under this Agreement. Consultant shall comply with all applicable

federal, state, and local laws, ordinances, codes, and regulations in performing the Services. If Consultant fails to meet applicable professional standards, Consultant shall without additional compensation correct or revise any errors or deficiencies, with or without request to do so by the City.

C. Consultant shall be responsible for the professional quality, technical accuracy, timely completion, and the coordination of Services furnished by Consultant under this Agreement. Consultant shall keep the City informed of the Services performed under this Agreement. In connection with the performance of the Services by Consultant, Consultant agrees to promptly and fully disclose to City any information regarding the Services as City may request.

D. Consultant will develop and maintain a detailed schedule for completion of the Services. The schedule will be a work plan showing activities to be performed and their sequence; and, in addition, activities will contain duration, manpower required, and estimated cost. A preliminary schedule shall be submitted to the City within ten (10) days after execution of a Job Task Order for review and establishment of the level of detail to be included.

E. Consultant will submit monthly progress data for the reporting period which will include the percentage complete and actual start date and actual finish date for all activities worked on by the Consultant during the period. Any changes in delivery dates will be reported. Other information, such as actual hours expended, will be furnished monthly, or as requested, by the City. If requested by the City, schedule update meetings will be held to discuss the results of schedule analysis and necessary action to meet the requirements of the schedule.

F. Consultant shall perform Services necessary to accomplish the work specified in this Agreement, in accordance with this Agreement.

G. City's review or approval of reports, and other services furnished hereunder shall not in any way relieve Consultant of responsibility for the technical adequacy of the work. Neither City's review, approval, or acceptance of, nor payment for any of the Services shall be construed as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

H. Consultant shall be and shall remain liable, in accordance with applicable law, for all damages to City caused by Consultant's negligent performance of any of the Services furnished under this Agreement. Consultant shall not be responsible for any time-delays in the project caused by circumstances beyond Consultant's control.

I. Consultant's obligations under this clause are in addition to the Consultant's other expressed or implied obligations under this Agreement or state law and in no way diminish any other rights that City may have against Consultant for consultant's errors or omissions.

J. All reports, drawings, plans, and other documentation pertaining to the Services become the property of City.

SECTION V
PAYMENT AND FEES

City agrees to pay Consultant for recommendations, reports, design, specifications, and such other services herein contracted for as follows:

A. City hereby agrees to pay a sum not to exceed that which is included in a specific Task Order and authorized by a Notice to Proceed, notwithstanding any contrary indications that may be contained in Consultant's proposal, for services to be performed and reimbursable costs incurred under this Agreement. City shall pay Consultant for services rendered on a lump sum basis pursuant to any specific Task Order and in the manner set forth therein. Consultant shall submit all invoices to City in the manner specified herein. Except as specifically authorized by City in writing, Consultant shall not bill City for duplicate services performed by more than one person. Consultant and City acknowledge and agree that compensation paid by City to Consultant under this Agreement is based upon Consultant's estimated costs of providing the services required hereunder, including salaries and benefits of employees and subcontractors of Consultant. Consequently, the parties further agree that compensation hereunder is intended to include the costs of contributions to any pensions and/or annuities to which Consultant and its employees, agents, and subcontractors may be eligible. City therefore has no responsibility for such contributions beyond compensation required under this Agreement.

B. City is entitled to impose a set-off against payment based on any of the following:

a. Claims have been made against City based on Consultant's conduct in the performance or furnishing of Services, or City has incurred costs, losses, or damages resulting from Consultant's conduct in the performance or furnishing of Services, including but not limited to claims, costs, losses, or damages from workplace injuries, adjacent property damage, and non-compliance with Laws and Regulations;

b. Consultant has failed to take reasonable and customary measures to avoid damage, delay, disruption, and interference with Services and related work;

c. Consultant has failed to provide and maintain required insurance;

d. City has been required to remove or remediate a Hazardous Environmental Condition for which Contractor is responsible;

e. City has incurred extra charges or engineering costs related to submittal reviews, evaluations of proposed substitutes, tests and inspections, or return visits to manufacturing or assembly facilities;

f. Any Services are defective, requiring correction or replacement;

g. City has been required to correct defective Services or has accepted defective Services;

h. Liens have been filed in connection with the Services; or

i. Other items entitle City to a set-off against the payment amount.

C. If City imposes any set-off against payment, City will give Consultant immediate written notice stating the reasons for such action and the specific amount of the reduction, and promptly pay Consultant any amount remaining after deduction of the amount so withheld. City shall promptly pay Consultant the amount so withheld, or any adjustment thereto agreed to by City and Consultant, if Consultant remedies the reasons for such action. The reduction imposed will be binding on Consultant unless it duly submits written notice contesting the reduction within 30 days of receiving City's written notice.

D. All fees payable to Consultant under this Agreement shall be made in full, and without any withholding, deduction, or offset of any state or federal withholding taxes, FICA, SDI, or income taxes, nor shall the City be obligated to pay any of Consultant's employees' taxes. Consultant hereby covenants and agrees that it shall be solely responsible for all taxes, withholding, FICA, SDI, and other similar items (both employee and employer portions) with respect to all fees paid by the City under this Agreement, and agrees to indemnify and hold the City harmless with respect to such taxes and withholding.

E. Consultant and its employees shall not be eligible for, participate in, or be entitled to compensation in lieu of any insurance, benefit, retirement, or other plan or program provided by the City to its employees.

F. Consultant shall provide an invoice in accordance with City regulations. Payment terms shall be net thirty (30) days from receipt of invoice.

G. The City may, at any time, request Consultant to make changes within the scope of the Services or to perform extra work. If any request by the City for a change or extra work causes an increase or decrease in the cost or the time required for performance of the work, or any change to this Agreement, Consultant shall, within fourteen (14) days from the date it receives the City's request, unless the City Engineer grants additional time in writing, submit in writing a proposal for accomplishing such changed or extra work. This proposal shall define, if applicable, any increase or decrease in cost or time of completion or other change to this Agreement. The City must approve

any change orders, pursuant to the City's Code of ordinances and policies and procedures and any other applicable laws of this State, before making the changes. The City will not be liable for any costs incurred by Consultant from performance of a change or extra work prior to issuance of a change order to this Agreement.

H. The total contract price may not be increased because of the changes unless additional money for increased costs is appropriated for that purpose from available funds or is provided for by the authorization of the issuance of time warrants.

I. Prior to and as a condition of final payment to the Consultant following termination or expiration of this Agreement as defined below, the Consultant shall deliver to the City a release in form and substance satisfactory to the City, discharging it and its officers, agents, and employees of all liabilities, obligations, and claims arising out of this Agreement and the performance thereof.

SECTION VI
TERM OF AGREEMENT

A. Except as provided below, this Agreement, and the Services to be performed under it, shall commence on the date this Agreement is executed by both parties, and shall continue thereafter through and the earlier of (i) two (2) years from the date of execution or (ii) until the Services are declared complete in a written instrument signed by the City Engineer and the City Manager. The City shall have the right, in its sole discretion, to extend the term of this Agreement for an additional year upon approval from the City. If approved by City, City shall provide Consultant with a written notice of the approval of the extension.

B. City may terminate this Agreement upon giving 30 days' prior written notice thereof to Consultant. In addition, City shall have the right, upon written notice, to cancel this Agreement immediately if, in the City's sole judgment, the Services rendered by Consultant breach or violate any of the provisions of this Agreement.

C. Upon termination or completion of this Agreement, City shall have no liability to Consultant except for charges for Services performed by Consultant and accepted by the City prior to receipt of notice of termination or cancellation. The terms and conditions in this Agreement that by their sense and context are intended to survive the performance hereof by either or both parties hereunder shall so survive the termination, cancellation, or completion of performance of this Agreement.

D. Upon termination or completion of Consultant's Services hereunder or at such other time as may be requested by City, Consultant shall return to City within ten (10) days of termination, completion, or request all documents, records, notebooks, including copies thereof, whether prepared by Consultant or others, in Consultant's possession and related to the Services.

E. The City reserves the right to suspend work on the Services, with or without cause, in whole or in part, upon giving notice to Consultant. Consultant shall resume the Services so suspended when directed to do so by the City. The City shall have no liability to Consultant except for charges for Services performed by Consultant and accepted by the City prior to receipt of notice of suspension of Services. If only a portion of the Services are suspended, Consultant shall be compensated only for Services of which are not suspended and are actually performed during such suspension.

F. Upon termination of this Agreement or suspension of Services under this Section, the City may take over the work and may obtain the services of another entity to complete the work under this Agreement.

SECTION VII
MINIMUM INSURANCE REQUIREMENTS

Consultant shall be adequately insured and carry liability, workers compensation, automobile insurance and professional liability for injury to its employees and others incurring loss or injury as a result of the acts of Consultant or its employees. In accordance with City ordinances, Consultant shall be required to hold the following minimum insurance coverage throughout the duration of this agreement:

A. Workers Compensation
In accordance with State statute.

B. Comprehensive General Liability

1. Bodily Injury
$250,000 each person
$500,000 each occurrence
2. Property Damage
$100,000 each occurrence
$100,000 each aggregate

or $500,000 combined single limits

C. Comprehensive Auto Liability
1. Bodily Injury
$100,000 each person
$500,000 each occurrence
2. Property Damage
$100,000 each occurrence
$100,000 aggregate
or $500,000 combined single limits

D. City's Protective Liability

1. Bodily Injury

$250,000 each person
$500,000 each occurrence

2. Property Damage

$100,000 each occurrence
$100,000 each aggregate

or $500,000 combined single limits

E. Professional Liability

1. Professional

$1,000,000 per claim and in the aggregate

F. Evidence of the above insurance coverage is attached as Exhibit “B” and the City of Edinburg shall be listed as an additional insured.

G. If at any time and for any reason Consultant fails to provide, maintain, keep in force and effect, or deliver to the City proof of, any of the insurance required and such failure continues for ten (10) days after Notice thereof from City to Consultant, City may, but shall have no obligation to, procure single interest insurance for such risks covering City (or, if no more expensive, the insurance required by this Agreement), and Consultant shall, within ten (10) days following City’s demand and Notice, pay and reimburse City therefor with interest at Prime Rate plus 2%, the Prime Rate being that in place on the date of Notice, from the date of payment by the City until repayment of City in full by Consultant.

H. With respect to each and every one of the insurance policies required to be obtained, kept, or maintained under the terms of this Agreement, on or before the date on which each such policy is required to be first obtained and at least fifteen (15) days before the expiration of any policy required hereunder previously obtained, Consultant shall deliver evidence reasonably acceptable to City showing that such insurance is in full force and effect.

I. Consultant hereby agrees as follows:

1. To punctually pay or cause to be paid all premiums and other sums payable under each insurance policy required to be obtained, kept, and maintained pursuant to this Lease;

2. To maintain in full force and effect the policies required to be carried to the extent so required to be carried pursuant to the terms hereof;

3. To ensure that all Casualty Proceeds are paid to the Party entitled to receive same;

4. Not, at any time, to take any action (or omit to take action) which action (or omission) would cause any insurance policies required to be obtained, kept, and maintained under this Lease to become void, voidable, unenforceable, suspended, or impaired in whole or in part or which would otherwise cause any sum paid out under any such insurance policy to become repayable in whole or in part; and

5. Promptly deliver Notice to City of any facts or circumstances of which it is aware which, if not disclosed to its insurers or re-insurers, is likely to affect adversely the nature or extent of the coverage to be provided under any insurance policy required hereunder.

SECTION VIII
ALTERNATE DISPUTE RESOLUTION/NEUTRAL PARTY

A. If any dispute, controversy, or claim between or among the Parties arises under this Agreement or is related in any way to this Agreement or the relationship of the Parties hereunder (a "Dispute"), the Parties shall first attempt in good faith to settle and resolve such Dispute by meeting at a mutually agreeable time and place to discuss the Dispute within seven (7) days following the original written notice of any Dispute by the party making such a claim. The Parties shall seek to resolve the Dispute in writing within fourteen (14) days following the original written notice of any Dispute by the party making such a claim.

B. If a mutual resolution and settlement are not obtained at the meeting, the Parties shall participate in good faith in formal mediation, within thirty (30) days following the original written notice of any Dispute, with a mutually agreeable mediator at a mutually agreeable time and place. No settlement reached under this provision shall be binding on the Parties until reduced to a writing signed by a representative of Contractor and the City Manager. Unless the parties expressly agree otherwise, each party shall bear its own costs and legal and expert fees incurred in the mediation, and evenly share the costs of the mediator. If after proceeding in good faith the parties, with the assistance of a neutral mediator, do not resolve the dispute within forty-five (45) days following the original written notice of any Dispute, the parties may proceed in accordance with Section IX below.

SECTION IX
CONTROLLING LAW, MANDATORY VENUE, AND FEES AND EXPENSES

A. After exhausting the procedures set forth above, either party may initiate litigation to resolve the dispute. The Law of the State of Texas shall control the Dispute. Venue is mandatory in in State courts located in Hidalgo County, Texas.

B. In the event of any litigation between the parties, the parties shall bear their own costs, including attorneys' fees and expenses.

SECTION X
INDEMNIFICATION

A. To the maximum extent allowed by law, Consultant agrees to and shall indemnify, hold harmless, and defend City, its officers, agents, and employees from any all claims, losses, causes of action and damages, suits and liability of every kind, including all expenses of litigation, court costs, and attorney's fees for injury to or death to any person or for damage to any property, arising out of or directly connected with the negligent or willful conduct of Consultant, its agents, officers and employees, carried out in furtherance of this Agreement.

B. Consultant agrees to assist City in defense of claims or litigation brought against the City related to this project, including any claims related to design or any other services provided by consultant regarding this agreement.

SECTION XI
LIMITATION OF LIABILITY

A. Consultant agrees to limit the City's liability arising from City's acts, errors, or omissions such that the total liability of City shall not exceed Consultant's total fees paid by the City to Consultant for the Services rendered pursuant to the Task Order which is the subject matter of the claim. Consultant agrees that City will not be liable for any indirect, incidental, special, or consequential punitive or multiple damages, including without limitation any damages resulting from loss of use, loss of business, loss of revenue, loss of profits, or loss of data, arising in connection with this Agreement, Consultant's performance of Services, or of any other obligations relating to this Agreement, even if City has been advised of the possibility of such damages. The foregoing limitation of liability shall apply to the maximum extent allowed by law for limitation of City's liability, regardless of the cause of action under which such damages are sought.

SECTION XII
AGREEMENT CONSTRUCTION

A. The headings of the Sections contained in this Agreement are for reference purposes only, and shall not affect the meaning or interpretation of this Agreement. The parties have been advised by counsel in connection with this Agreement. This Agreement shall be construed and interpreted in accordance with the plain meaning of its language, and not for or against either party, and as a whole, giving effect to all of the terms, conditions, and provisions of this Agreement. Nothing contained in this Agreement shall be deemed to confer any right or benefit on any person who is not a party to this Agreement.

SECTION XIII
NO PENDING LITIGATION

A. Consultant represents that there is no action, proceeding, inquiry, or investigation, at law or in equity, before any court, arbitrator, governmental or other board or official, pending to the best knowledge of Consultant threated against or affecting the Consultant or any subsidiaries of the Consultant, questioning the validity or any action taken or to be taken by the Consultant in connection with the execution, delivery, and performance by the Consultant of this Agreement to which the Consultant may be a party or seeking to prohibit, restrain, or enjoin the execution, delivery, or performance by the Consultant hereof or thereof, where in an unfavorable decision, ruling, or finding (i) would adversely effect the validity or enforceability of, or the authority or ability of the Consultant to perform, its obligations under this Agreement to which the Consultant may be party or (ii) would have an adverse effect on the consolidated financial condition or results of operations of the Consultant or on the ability of the Consultant to conduct its business as presently conducted or as proposed or contemplated to be conducted.

SECTION XIV
SEVERABILITY

A. If any term or provision of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions of this Agreement shall remain in full force and effect and shall in no way be affected, impaired or invalidated.

SECTION XV
NOTICE

A. Any notices to be given under this Agreement shall be in writing, (i) sent by registered or certified mail, postage prepaid, return receipt requested or (ii) sent by nationally recognized overnight courier (e.g. Federal Express) with electronic tracking, and addressed to such party as follows:

(a) Notices to the City:

City of Edinburg
415 W. University Drive
Edinburg, Texas 78539
Attn.: City Manager

With a copy to:

City of Edinburg
415 W. University Drive
Edinburg, Texas 78539
Attn.: City Attorney

(b) Notices to Consultant:

Address
City, State Zip Code
Attn.: Contact

B. Such Notices shall be deemed delivered (i) in the case of U.S. mail in the manner provided above, three (3) business days after posting or (ii) if sent by nationally recognized overnight courier with electronic tracking service, the next business day after depositing same with such overnight courier before the overnight deadline and if deposited with such courier after such deadline, then the next succeeding business day.

SECTION XVI
NON-APPROPRIATIONS

A. Notwithstanding anything in the Agreement to the contrary, any and all payments which the City is required to make under this Agreement shall be subject to annual appropriation or other availability of funds, as certified by the Director of Finance.

B. If the City cannot appropriate sufficient funding, then either party has the right to terminate the Agreement by providing ten (10) days' written notice to the other party.

SECTION XVII
SUCCESSORS AND ASSIGNS

City and Consultant each bind themselves, their partners, successors, executors, administrators, and assigns to the other party of the Agreement in respect to all covenants of this Agreement. Neither City nor Consultant shall assign, sublet, or transfer interest in this Agreement without written consent of the other.

SECTION XIX
CONFLICT OF TERMS

If any of the terms of this Agreement conflict in any respect with any of the terms of the attached Exhibits or any current or future Job Task Orders, the terms of this Agreement shall be controlling.

SECTION XX
NO WAIVERS OR ACCORD AND SATISFACTION

A. This Agreement may be amended only by written instrument signed by all parties.

B. No failure or delay of any Party, in any one or more instances (i) in exercising any power, right, or remedy under this Agreement or (ii) in insisting upon the

strict performance by the other Party of such other Party's covenants, obligations, or agreements under this Lease, shall operate as a waiver, discharge, or invalidation thereof, nor shall any single or partial exercise of any such right, power, or remedy or insistence on strict performance, or any abandonment or discontinuance of steps to enforce such a right, power, or remedy or to enforce strict performance, preclude any other or future exercise thereof or insistence thereupon or the exercise of any other right, power, or remedy. The covenants, obligations, and agreements of a defaulting Party and the rights and remedies of the other Party upon a default shall continue and remain in full force and effect with respect to any subsequent breach, act, or omission.

C. Without limiting the generality of the above, the receipt by City of any Services with knowledge of a breach by Consultant of any covenant, obligation, or agreement under this Agreement shall not be deemed or construed to be a waiver of such breach. No acceptance of Services or payment to Consultant shall be deemed to be other than on account of the earliest installment of the amounts due under this Agreement, nor shall any endorsement or statement on any check, or any letter accompanying any check, wire transfer or other payment, be deemed an accord and satisfaction. City may accept services or make payment without prejudice to its rights under this Agreement or pursue any remedy provided in this Agreement or provided otherwise by law or equity.

SECTION XXI
NOTICE OF GOVERNING LAW FOR STATE AND FEDERAL GRANT PROJECTS

The Consultant agrees to abide by all applicable laws and regulations and to make all applicable records and other documentary data available at any time for the purpose of an audit and to ensure compliance with relevant State and federal laws, including but not entirely limited to, those provisions found any future Job Task Orders.

RE: Statement of Qualifications for
Geotechnical Engineering and Construction Materials Testing Services
Request for Qualification (RFQ) 2026-4

Dear Mr. Hinojosa,

B2Z Engineering, LLC (B2Z) is pleased to submit our Statement of Qualifications in response to the City of Edinburg's Request for Qualifications (RFQ 2026-4) for Geotechnical Engineering and Construction Materials Testing Services.

For more than 17 years, B2Z has provided comprehensive geotechnical engineering, construction materials testing, environmental, and related consulting services to municipalities, counties, state agencies, and other public entities throughout Texas. We have proudly served the City of Edinburg through the City's On-Call Geotechnical Engineering and Construction Materials Testing contract since 2018, successfully supporting numerous infrastructure improvements with responsive service, technical expertise, and dependable project delivery.

Our team combines experienced professional engineers, accredited laboratory personnel, certified field technicians, and environmental professionals to provide comprehensive support throughout the planning, design, and construction phases. We have assembled a **uniquely qualified** group of **local professionals** with extensive knowledge and technical expertise in geotechnical engineering and construction materials testing. B2Z operates a **state-of-the-art, AASHTO-accredited, TxDOT-certified,** and **USACE-validated** laboratory in the Rio Grande Valley, providing both field and laboratory testing services for public infrastructure projects throughout South Texas.

With offices in Mission, Brownsville, San Antonio, Austin, and Houston, B2Z is well positioned to respond quickly to assignments of any size while consistently delivering high-quality services that meet project schedules and the City's expectations. **Services for this contract will be managed from our Mission office.**

Mr. A. Reza Badiozzamani, PE, CFM, will serve as the Project Manager and primary point of contact for this contract. Mr. Badiozzamani has full authority to commit the resources of B2Z Engineering and ensure timely, responsive service throughout the duration of the agreement. He will manage this contract from B2Z's Mission office located at 900 S. Stewart Road, Ste 2, Mission, Texas 78572. He can be reached at (956) 655-1995 or Reza@B2ZEng.com.

B2Z acknowledges that no addenda were issued for this Request for Qualifications.

We appreciate the opportunity to be considered for this important contract and look forward to continuing our long-standing partnership with the City of Edinburg. We are confident our experience, local presence, technical capabilities, and commitment to exceptional client service make B2Z Engineering uniquely qualified to provide the geotechnical engineering, construction materials testing, and environmental services required by the City.

Thank you for your consideration.

Respectfully,

Aisha Gonzalez
President

Tab II – Firm Qualification and Experience

Firm Introduction

B2Z Engineering, LLC (B2Z) is a **premier engineering consulting firm established in 2009** and licensed through the State of Texas as a Professional Engineering Firm (TBPE #F-11187). B2Z is **100% LOCALLY OWNED AND OPERATED** and has been headquartered in the Rio Grande Valley since 2009. B2Z is a **Woman-Owned Minority Business** with engineering offices and materials testing laboratories in Mission, Brownsville, San Antonio, Houston, and Austin. We are a **WBE, MBE, WOSB,** and **SBE** certified firm. B2Z has a uniquely qualified group of **LOCAL TALENT** with **geotechnical engineering & testing, construction materials testing,** American Society for Testing and Materials **(ASTM)** testing procedures, American Concrete Institute **(ACI)** testing procedures, National Institute for Certification of Engineering Technologies **(NICET)** proficient, the Texas Asphalt Paving Association **(TXAPA)**, and others.

Office Providing Services

900 S. Stewart Road, Suite 2
Mission, TX 78572

Contact Person

Mr. Reza Badiozzamani, PE, CFM

(956) 585-3773

Services under this contract will be performed out of our Mission office. Additional support, if needed, will be provided by our regional offices (Brownsville, San Antonio, Houston, and Austin). B2Z's Mission Engineering & Laboratory Offices employ over 50 professional and technical personnel. Services performed out of this office include, but are not limited to geotechnical engineering & testing, construction materials testing, environmental monitoring, general civil engineering, bridge/roadway design, drainage design, construction/project management, and construction engineering & inspection.

Statement of Interest

B2Z has an executed contract with the City of Edinburg to provide geotechnical engineering and construction materials testing services on an as-needed basis. ***We are ready and able to continue to provide these services.*** Our materials testing laboratory is equipped with all the required testing equipment to conduct the geotechnical and materials testing services that may be required by the City of Edinburg's projects.

B2Z is contracted by various entities to provide **geotechnical and construction materials testing services**. These entities include but are not limited to the Cities of Alamo, Edinburg, McAllen, Palmview, and Weslaco, the McAllen Public Utility, Hidalgo County, Hidalgo County Drainage District No. 1, TxDOT, and Hidalgo County Regional Mobility Authority. B2Z was ranked and selected as the **NUMBER ONE** firm for **TxDOT's Materials Engineering Statewide** contract and has been providing geotechnical and materials testing services all over the state. In addition to that contract, **B2Z has been awarded four other TxDOT prime contracts for geotechnical engineering and materials testing services.**

Unique Qualifications

B2Z maintains over 8,500 square feet of combined engineering office and laboratory space in Mission, TX. Our **state-of-the-art laboratory** contains the necessary tools and equipment to provide quality materials testing services. B2Z's team of highly qualified professionals has extensive experience working not only with but for public agencies and understands the nuances and complexities of working within the public sector project model. Whether we are working on a large or **small project, we give each task the same attention to technical excellence and quality control while maintaining responsiveness.**

B2Z also owns and operates four (4) Geotechnical drilling rigs and drilling support trucks. We have the capacity and capability to **expedite** geotechnical and **materials testing services** when necessary. We pride ourselves on hiring local professionals who have **over 200 years of combined TxDOT experience**. B2Z's team is comprised of **over twenty certified field and laboratory technicians,** half of whom possess more than ten years of individual experience. Their certifications include **Level 1A, 1B, and 2; SB 101, 102, 103, 201, and 202; and ACI**. B2Z would like for the City of Edinburg to continue to view our firm as an extension of its staff, utilizing our expertise whenever necessary.

B2Z's **vast experience** and **quality of services** have allowed us to obtain **AASHTO Accreditation, TxDOT, and USACE Certifications** for our Mission-based materials testing laboratory. We utilize the most up-to-date equipment to perform all construction materials testing services. Independent servicing agencies calibrate all our equipment, and our experienced technical staff conducts testing in compliance with all standards set by **AASHTO, ACI, ASTM, and TxDOT**.

In addition to our years of experience in providing compliant geotechnical engineering and construction materials testing, B2Z's staff holds a multitude of TxDOT Pre-Certifications. The following table shows B2Z's current TxDOT geotechnical and materials testing pre-certifications.

B2Z Engineering, LLC - Areas of Certification (TxDOT Pre-Certs.)			
12.1.1	ASPHALTIC CONCRETE PRODUCTION	**12.2.5**	HOT MIX ASPHALT (HMA) PLANT INSPECTION AND TESTING
12.1.2	PORTLAND CEMENT CONCRETE	**12.4.1**	PAVEMENT DESIGN SERVICES
12.1.3	MATERIALS ENGINEERING	**12.5.1**	PAVEMENT EVALUATION
12.1.4	ASPHALTIC CONCRETE PLACEMENT	**14.1.1**	SOIL EXPLORATION
12.1.5	PORTLAND CEMENT CONCRETE PLACEMENT	**14.2.1**	GEOTECHNICAL TESTING
12.1.6	EMBANKMENT/SUBGRADE/BACKFILL/BASE PRODUCTION	**14.3.1**	TRANSPORTATION FOUNDATION STUDIES
12.1.7	EMBANKMENT/SUBGRADE/BACKFILL/BASE PLACEMENT	**14.4.1**	BUILDING FOUNDATION STUDIES
12.2.1	CONCRETE PLANT INSPECTION AND TESTING	**14.5.1**	EVALUATION & DESIGN OF GEOTECHNICAL RELATED STRUCTURES
12.2.2	PREFABRICATED STRUCTURAL MATERIALS FABRICATION PLANT INSPECT		

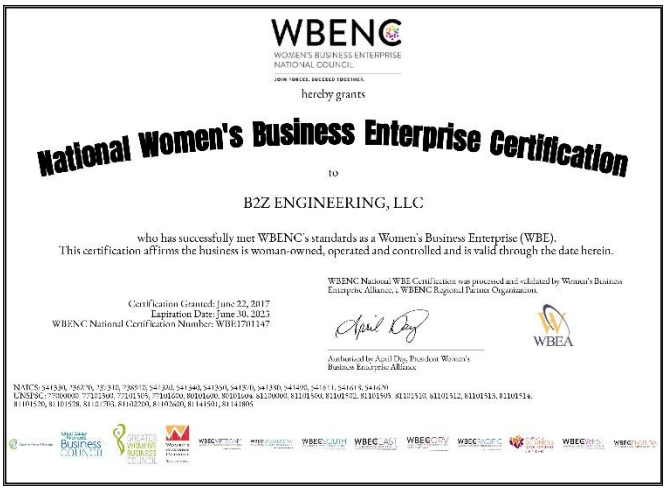
In addition to being an **AASHTO, TxDOT, and USACE Certified Laboratory**, B2Z's field and laboratory technicians hold the following certifications:

- ACI CONCRETE FIELD-TESTING TECH GRADE 1
- ACI CONCRETE STRENGTH TESTING TECHNICIAN
- ACI AGGREGATE TESTING
- TXAPA HMA PLAN SPECIALIST – LEVEL 1A
- TXAPA SMA ROAD SPECIALIST – LEVEL 1B
- TXAPA HMA MIX DESIGN SPECIALIST – LEVEL 2
- TXAPA PROPERTIES SPECIALIST – SB 101
- TXAPA FIELD SPECIALIST – SB 102
- TXAPA MATERIALS ANALYSIS SPECIALIST – SB 103
- TXAPA STRENGTH SPECIALIST – SB 201
- TXAPA COMPRESSIVE STRENGTH SPECIALIST – SB 202
- RADIATION SAFETY OFFICER
- OSHA 10 & OSHA 30
- NUCLEAR GAUGE SAFETY CERTIFIED
- HAZMAT CERTIFIED

Meeting Timeline Requirements & Staffing

We have staff available to begin work immediately for any size project (part-time or full-time). B2Z knows that maintaining a predictable project schedule is paramount to successful project delivery. Our team prides itself on meeting, and often exceeding the schedules developed by our clients and project owners. We have developed a system for project schedule monitoring that has proven itself on over $1B worth of construction contracts. As a function of our proven system, we would develop a schedule early in the process to ensure that we have the appropriate staffing levels assigned to the critical path components. This schedule would be developed in conjunction with both the client and any other project stakeholders with consideration of the major project milestones and anticipated project hurdles. B2Z has committed the services of experienced personnel who know and understand the tasks required to perform municipal projects. This will undoubtedly allow us to keep ahead of schedule and add additional resources as appropriate.

Ability to Expedite Services



B2Z is made up of technical and multi-discipline staff of ninety-five (95) employees, sixty-three (63) fleet vehicles, four (4) Geotechnical drilling rigs, and drilling support trucks. **We have the capacity and capability to fulfill all requests for expedited materials testing services.** *B2Z commits to continue responding promptly to the City of Edinburg's requests as they are received. We will make every effort to minimize scheduling conflicts.* B2Z prefers to schedule field and laboratory work with at least 24 hours of advance notice. However, we understand that certain situations may occur where projects may require emergency services. During these instances, B2Z will make every effort to dispatch the appropriate personnel.

With all drilling and laboratory testing operations owned and managed by B2Z, we have the distinct ability to best manage our resources to meet deadlines.

Certificate of Accreditation

This is to signify that

B2Z Engineering – Mission, Texas
(900 S. Stewart Rd, Suite 2 – Mission Texas 78572)

Lab ID: 90B2Z001

Has demonstrated proficiency in the tests listed below and has met the minimum requirements set forth by the TxDOT Quality Assurance Program for Construction.

Tex-100-E, 101-E (Pt. 1, 2, 3), 103-E (Pt.1,2), 104-E, 105-E, 106-E, 107-E, 110-E (Pt. 1), Tex-113-E, 114-E (Pt. 1, 2, 3), 115-E (Pt. 1, 4), 116-E (Pt. 1, 2), 117-E (Pt.2), 120-E (Pt. 1, 2), 121-E (Pt. 1, 2), 128-E, 129-E, 130-E (Pt. 1,2,3,4), 140-E, 145-E (Pt.2), 148-E, 200-F (Pt. 1, 2), 201-F, 203-F, 205-F, 207-F (Pt. 1, 3, 4, 5, 7, 8), 217-F (Pt. 1, 2), 222-F, 225-F (Pt. 1, 2), 227-F (Pt. 2), 235-F, 236-F (Pt. 1, 2), 237-F, 241-F, 280-F, 400-A, 401-A, 402-A, 404-A, 406-A (Pt. 1), 407-A, 408-A, 413-A, 414-A, 415-A, 416-A, 417-A 418-A, 422-A, 423-A (Pt. 1, 2), 447-A (Pt.1,3), 450-A (Pt. 3), 460-A (Pt. 1)

Presented by

(Pharr District Laboratory)
Texas Department of Transportation
Effective Period: April 14, 2026 – April 14, 2029

MATERIALS TESTING CENTER

USACE CERTIFICATE OF LABORATORY VALIDATION

ERDC

B2Z Engineering
900 South Stewart Rd. Suite 4
Mission, TX,
Aisha Gonzalez
(956) 585-3773

has demonstrated, by abbreviated audit of its AASHTO accreditation, or by inspection of required records, equipment, procedures, facilities, and/or final reports, its proficiency to perform testing of construction materials, as established by the quality standards of AASHTO R 18 guidance and the requirements of the applicable ASTM standards.

THIS USACE CERTIFICATE OF LABORATORY VALIDATION IS ACCURATE AS OF ITS DATE AND TIME OF GENERATION:
18 NOV 2025 AT 14:53 HOURS

ALL METHODS LISTED ON THIS CERTIFICATE OF VALIDATION WILL EXPIRE ON 05/23/2027

PLEASE CONFIRM THE CURRENT VALIDATION STATUS OF THIS LABORATORY USING THE SEARCH FEATURE ON OUR PUBLIC WEBSITE: https://mtc.erdc.dren.mil

Chad A. Gartrell, PE, Director
USACE Materials Testing Center
Vicksburg, Mississippi, USA

B2Z Projects

B2Z is currently on the City of Edinburg's Geotechnical and Construction Materials Testing (CMT) rotation list and is well-versed in how the City likes to conduct its business. We have also provided services to governmental agencies throughout the State of Texas including, but not limited to, the City of Alamo, City of McAllen, City of Mission, Hidalgo County, Hidalgo County Drainage District No. 1, and TxDOT.

City of Edinburg – On-Call Geotechnical & Construction Materials Testing (CMT)

Client: City of Edinburg

Contact: Mr. Mardoqueo Hinojosa, P.E., CFM, CPM, City Engineer – Ph. (956) 292-7080

Services Provided: Geotechnical Engineering & Construction Materials Testing

Description/Scope: B2Z was contracted to provide geotechnical and construction materials testing services for various city projects. *B2Z has provided materials testing on* subgrade roadway, flex base roadway, pipe bedding material, asphalt concrete pavement, hydraulic cement concrete, curbs, gutters, sidewalks, and riprap. B2Z has over twenty (20) work authorizations under this contract. Please see below for a listing of active projects.

- Los Lagos Phase V
- Carmen Avila Subdivision Phase III
- 2812 Estates
- Vela & Flores Construction
- Ingle Springs Subdivision
- Hyde Park
- The Heights on Trenton Subdivision
- Municipal Park Sanitary Sewer
- Russell Village Subdivision
- Caledonia West Subdivision
- Atwood Village Subdivision
- Atwood Estates Subdivision
- Alberta Heights Subdivision
- Mariterry Estates Subdivision

McAllen Public Utility - Sprague Road Sewer Interceptor ~ Phase I

Client: McAllen Public Utility (MPU)

Contact: Mr. Marco A. Vega, P.E., General Manager – Ph. (956) 681-1770

Services Provided: Construction Materials Testing

Description/Scope: The Sprague Road Sewer Interceptor project consisted of the construction of a new 48" sewer line within the McAllen city limits. The project length in total, including accepted alternates, was approximately 6800 linear feet and the depth of the line was more than thirty feet at some locations. B2Z worked closely with MPU and the design engineer during the proposal and negotiation phase to find efficiencies in the testing frequencies that would still satisfy the engineer's requirements but also meet MPU's CMT budget. ***B2Z provided materials testing on*** embankment (liquid limit/plasticity index, gradations, moisture/density, in-place density), subgrade (pulverization, liquid limit/plasticity index, gradations, moisture/density, in-place density), flexible base stockpile testing (liquid limit/plasticity index, gradations, moisture/density, in-place density, wet-ball, triaxial), flexible base field testing (pulverization, liquid limit/plasticity index, gradations, moisture/density, in-place density), asphaltic concrete pavement testing (coarse aggregate, fines, mineral fillers, combined aggregate, complete mix), and hydraulic cement concrete (structural and non-structural).

City of Weslaco – On-Call Construction Materials Testing (CMT)

Client: City of Weslaco

Contact: Mr. Alberto Aldana, P.E., City Engineer – Ph. (956) 969-1533

Services Provided: Construction Materials Testing

Description/Scope: B2Z is contracted to provide construction materials testing (CMT) services as needed by the City of Weslaco. B2Z is evaluating soil properties, such as moisture content, by conducting laboratory soil tests (Atterberg limits, gradation, standard proctor, nuclear density, compressive strength, and more). Additionally, B2Z is providing field testing services on-site to determine parameters such as field density. B2Z currently has seven work authorizations under this contract, as provided below:

- San Jacinto Estates Phase I & II
- Milanos Estates
- Freedom Storage Subdivision
- Pleasant View Estates
- Ten Fifteen Subdivision
- Fire Station No. 2 (Downtown)
- Police Station w/Municipal Court

City of Alamo – Geotechnical & Construction Materials Testing (CMT)

Client: City of Alamo

Contact: Mr. Bobby Salinas, City Manager – Ph. (956) 787-0006

Services Provided: Geotechnical Engineering & Construction Materials Testing

Description/Scope: B2Z was contracted to provide geotechnical engineering and construction materials testing (CMT) services on an "as-needed" basis. B2Z is currently conducting CMT for the **San Agustin Subdivision Phase III**. Services include testing on subgrade roadway, flex base roadway, pipe final backfill material 12" lifts waterlines, sanitary sewer and drainage, asphalt concrete pavement and hydraulic cement concrete curb & gutter, sidewalks, and riprap (Atterberg limits, moisture/density, and nuclear density, pavement thickness, concrete strength, etc.).

Hidalgo County Drainage District No. 1 – On-Call Geotechnical & Construction Materials Testing (CMT)

Client: Hidalgo County Drainage District No. 1 (HCDD1)

Contact: Mr. Raul Sesin, P.E., CFM, District Manager – Ph. (956) 292-7080

Services Provided: Geotechnical Engineering & Construction Materials Testing

Description/Scope: B2Z was contracted to provide on-call geotechnical and construction material testing services for various projects throughout Hidalgo County. B2Z has 20 CMT & 15 Geotechnical Work Authorizations under various On-Call Contracts including:

Anaquitas Drain Structure (Bond Project #8) (CMT) – B2Z is performing culvert box backfill testing (cement stabilized sand), embankment testing (plasticity index, gradation, moisture/density, in-place density), and flexible base for levee crown (Cast in Place, Type E Grade 4). Additional testing includes hydraulic cement concrete gatewell structure, culvert boxes, footing, and riprap.

Mission-McAllen Rado Alternate (Bond Project #25) (CMT) – B2Z is performing embankment testing (plasticity index, gradation, moisture/density, in-place density), backfill testing (plasticity index, gradation, moisture/density, in-place density). Additional testing includes subgrade (4% lime treated), 12" flexbase, asphalt concrete pavement (HMA – QC/QA), hydraulic cement concrete testing on wingwalls (Class C), and riprap/curb/sidewalk (Class A).

Pharr McAllen Drain (Bond Project #31) (CMT) – B2Z is performing embankment testing (plasticity index, gradation, moisture/density, in-place density), backfill testing (plasticity index, gradation, moisture/density, in-place density).

Hidalgo Drain (Bond Project #13) (CMT) – B2Z is performing asphalt concrete pavement testing (complete mix: asphalt content, voids in mineral aggregates (VMA), gradation, moisture content, lab molded density; roadway: in-place air voids, segregation profile, joint density, thermal profile), embankment testing (plasticity index, gradation, moisture/density, in-place density), lime compliance testing, lime-treated subgrade testing (pulverization gradation, plasticity index, gradation, moisture/density, in-place density), untreated flexible base testing (plasticity index, gradation, moisture/density, wet ball mill, triaxial), lime-treated flexible base testing (pulverization gradation, plasticity index, gradation, moisture/density, in-place density). Additional testing includes hydraulic cement concrete testing (Class A).

Mission Lateral- Sections I/II/III (Bond Project #26) (CMT) – B2Z is performing pipe bedding material testing (plasticity index, gradation), embankment testing (plasticity index, gradation, moisture/density, in-place density). Additional testing includes hydraulic cement concrete testing on riprap/field drains.

Jackson Rd Drain (Bond Project #16) (CMT) – B2Z is performing flexible base for cut/restore (plasticity index, gradation, moisture/density, in-place density), asphalt concrete pavement for cut/restore – Type D (complete mix: asphalt content, voids in mineral aggregates (VMA), gradation, lab molded density), pipe bedding material testing (plasticity index, gradation), embankment testing (liquid limit, plasticity index, gradation, moisture/density, in-place density). Additional testing includes hydraulic cement concrete testing on gatewell structure & pump system (Class C) and hydraulic cement concrete testing on riprap/field drains.

Mission Inlet Balboa Estates (CMT) – B2Z is performing pipe & box bedding material testing (plasticity index, gradation), embankment testing (plasticity index, gradation, moisture/density, in-place density). Additional testing includes hydraulic cement concrete testing on gateway structure and foundation (Class C) and hydraulic cement concrete testing on riprap/field drains.

Hidalgo Drain and Dicker Road Box Culvert Crossing (CMT) – B2Z is performing backfill testing at non-roadway (general backfill - plasticity index, gradation, moisture/density, in-place density), flexible base for cut/restore – Type E Grade 4 (plasticity index, gradation, wet ball mill, moisture/density, in-place density), pipe bedding material testing (plasticity index, gradation), backfill testing at roadway (cement stabilized backfill - plasticity index, gradation, moisture/density, unconfined compression, in-place density), asphalt concrete pavement for cut/restore – Type D (complete mix: asphalt content, voids in mineral aggregates (VMA), gradation, lab molded density). Additional testing includes hydraulic cement concrete testing (Class C) junction box.

J-09 Drain Phase IV (CMT) – B2Z is performing asphalt concrete pavement for cut/restore – Type D (complete mix: asphalt content, voids in mineral aggregates (VMA), gradation, lab molded density), flexible base for cut/restore (plasticity index, gradation, wet ball mill, moisture/density, in-place density), pipe bedding material testing (plasticity index, gradation), pipe haunch material testing conforming with ASTM D2321 (plasticity index, gradation, moisture/density, in-place density), pipe initial, final and field drain backfill testing (plasticity index, gradation, moisture/density, in-place density). Additional testing includes hydraulic cement concrete testing on riprap/field drains.

Pharr McAllen Drain at HCID 2 Canal (Geo) – B2Z performed qualitative investigation of soil shear strength vs. proposed construction. Field exploration and laboratory testing conducted included moisture content, Atterberg limits, -200 determination, and sieve analysis with hydrometers.

Hidalgo County Health Department Testing/Bio-Safety Laboratory – Edinburg, TX

Client: Hidalgo County

Contact: Eduardo Olivarez, Chief Administrative Officer – Phone: (956) 383-6221

Services Provided: Geotechnical Engineering, Materials Testing, Construction Management, and Inspection Services

Description/Scope: B2Z was contracted to perform geotechnical and construction materials testing for a proposed 10,413 square feet, $4.08M facility consisting of a clinic, administration, and laboratory. Three (3) borings at a depth of 20 feet were drilled at approximate locations of the proposed building structure. Laboratory testing included Atterberg limits, gradation (-200), moisture content, sieve analysis, hydrometer, and sulfate content. B2Z provided structural evaluations of the borings, shear strength models, and soil profiles. Shallow foundation analysis and recommendations were provided, as well as construction recommendations.

Lopezville Park Improvements Project – San Juan, TX

Client: GDJ Engineering, LLC

Contact: Robert Macheska, P.E., Project Manager – Phone: (956) 684-8698

Services Provided: Geotechnical Engineering Services

Description/Scope: This $2M park project consisted of a 414,000-square-foot park and recreational center development. The project included a geotechnical investigation of proposed pavilions on drilled shafts, general park equipment, amenities on shallow footings, slabs for restroom facilities, patio rest areas, sports fields, and other items. Additionally, this project contained a proposed pond facility for recreational fishing and float activities. Geotechnical recommendations and analyses included deep foundations for drilled shafts, allowable bearing capacity of the shallow foundations (column square footings, edge strip footings), potential vertical rise (PVR), slab on grade analysis (WRI and PTI), flexible pavement design (for roadway connection, parking areas and inner park routes), global stability modeling for pond side-slopes and permeability modeling of pond soils (recommendations for pond lining).

Hidalgo County Precinct No. 3 – Mile 3 N Road Project

Client: Hidalgo County Precinct No. 3

Contact: Commissioner Everardo "Ever" Villarreal – Ph. (956) 585-4509

Services Provided: Construction Materials Testing and Construction Engineering & Inspection

Description/Scope: ***B2Z is providing material testing on*** lime-treated subgrade (pulverization gradation, plasticity index, gradation, moisture/density, in-place density), untreated flexible base (plasticity index, gradation, moisture/density, wet ball mill, triaxial), embankment (plasticity index, gradation, moisture/density, in-place density), untreated subgrade (organic content, sulfate content), lime compliance, lime-treated flexible base (pulverization gradation, plasticity index, gradation, moisture/density, in-place density), asphalt concrete pavement (course aggregate: gradation, flat & elongated particles, coarse aggregate angularity, del. matl. and decant; fine aggregates: bar linear shrinkage, organic impurities, gradation; mineral filler: sand equivalent; complete mix: asphalt content, voids in mineral aggregates (VMA), gradation, moisture content, lab molded density; roadway: in-place air voids, segregation profile, joint density, thermal profile).

Hidalgo County Precinct No. 2 – Dicker Road Expansion Project

Client: Hidalgo County Precinct No. 2

Contact: Commissioner Eduardo "Eddie" Cantu – Ph. (956) 787-1891

Services Provided: Construction Materials Testing and Construction Engineering & Inspection

Description/Scope: ***B2Z provided material testing on*** lime-treated flexible base (pulverization gradation, plasticity index, gradation, moisture/density, in-place density), asphalt concrete pavement (coarse aggregate: gradation, flat & elongated particles, coarse aggregate angularity, del. matl. and decant; fine aggregates: bar linear shrinkage, organic impurities, gradation; mineral filler: sand equivalent; complete mix: asphalt content, voids in mineral aggregates (VMA), gradation, moisture content, lab molded density; roadway: in-place air voids, segregation profile, joint density, thermal profile), embankment (plasticity index, gradation, moisture/density, in-place density), untreated subgrade (organic content, sulfate content), lime compliance, lime-treated subgrade (pulverization gradation, plasticity index, gradation, moisture/density, in-place density), untreated flexible base (plasticity index, gradation, moisture/density, wet ball mill, triaxial). Additional testing has included hydraulic cement concrete testing, drill shafts, wingwalls, and traffic rail foundation testing.

Hidalgo County Precinct No. 2 – Regional Linear Park Project (RLPP) ~ Section II

Client: Hidalgo County Precinct No. 2

Contact: Commissioner Eduardo "Eddie" Cantu – Ph. (956) 787-1891

Services Provided: Construction Materials Testing and Construction Engineering & Inspection

Description/Scope: ***B2Z provided material testing on*** embankment (plasticity index, gradation, moisture/density, in-place density), untreated subgrade (organic content, sulfate content), lime compliance, lime-treated subgrade (pulverization gradation, plasticity index, gradation, moisture/density, in-place density), untreated flexible base (plasticity index, gradation, moisture/density, wet ball mill, triaxial), lime-treated flexible base (pulverization gradation, plasticity index, gradation, moisture/density, in-place density), asphalt concrete pavement (course aggregate: gradation, flat & elongated particles, coarse aggregate angularity, del. matl. and decant; fine aggregates: bar linear shrinkage, organic impurities, gradation; mineral filler: sand equivalent; complete mix: asphalt content, voids in mineral aggregates (VMA), gradation, moisture content, lab molded density; roadway: in-place air voids, segregation profile, joint density, thermal profile). Additional testing has included hydraulic cement concrete testing, riprap testing, and drill shaft testing.

Our Services

Shown through past project experience, B2Z is highly qualified to provide superior Geotechnical and Construction Material Testing services to the City of Edinburg. We understand the City is seeking firms able to perform the following services:

Geotechnical:

A. Slab on Grade Foundation Evaluation and Recommendation
B. Special Construction Details for Removal of Ground or Surface Water, Existence of Expansive Clay, Hydrostatic Pressure, etc.
C. Site Work
D. Retention Systems
E. Field Exploration
F. Laboratory Testing
G. Analysis and Reports
H. Other Geotechnical Evaluation
I. Environmental Reports

Construction Materials Testing:

A. Plans Review
B. Earthwork Services
C. Density Testing
D. Post Construction Services
E. Foundation Inspection Services
F. Concrete Services
G. Structural Steel Services
H. Other Laboratory Construction Testing for Infrastructure and/or Building Projects

Geotechnical Engineering Services

B2Z's geotechnical services typically follow a three-part approach. B2Z will first conduct project discovery. Project discovery entails defining project parameters regarding size, scope, materials, budget, schedule, location, existing conditions, and formulating a plan. Next, B2Z will conduct all the drilling, field observation/exploration, and pertinent field and laboratory testing requirements based on the needs defined in step one. Lastly, B2Z will prepare geotechnical engineering reports that will include recommendations to be used by the project design team to develop plans and specifications.

1. **Project Discovery** - Project discovery includes all preliminary coordination activities with the City of Edinburg. Identifying project structures, project location(s), proposed materials, and depths will help B2Z generate a boring plan that is both effective and efficient. The number of borings, depth of borings, and other project parameters (proximity to the lab, tests required, etc.) will determine the cost associated with geotechnical services.

2. **Field Exploration and Laboratory Testing** - After the City of Edinburg accepts the boring plan and proposal, B2Z will begin field activities by physically staking all boring locations in the field. All boring locations will be cross-checked with existing utility plans (if available) and identified/marked in the field by submitting a request to **Texas811**. Once the site is clear, B2Z will dispatch the appropriate drilling rig(s) to collect the necessary soil samples. Typical field operations include removing samples from collection apparatuses and classifying them to record boring logs. Samples are then appropriately packaged and sealed to minimize moisture loss and transported to our soil laboratory. Water level readings are taken during drilling,

directly after the conclusion of drilling, and after 24 hours. The crew will then backfill the borings.

3. **Geotechnical Reports** - Once all field investigations and laboratory tests are complete, the team compiles the information to finalize soil classification and subsurface details. The team will generate boring logs and test summary sheets using this data. The geotechnical engineer will write the geotechnical report, summarizing the data, embankment design analysis, foundations design analysis, and any other specified requirements for the project. The contents of the geotechnical report vary based on the project type and scope. The report will typically include a general project overview (including previous studies), boring logs, test summary sheets, existing surface and sub-surface conditions, geotechnical analysis, design parameters (such as deep foundation capacity and global stability analysis), and general construction considerations (deep/shallow foundation, MSE retaining walls, excavation, trenching, and embankment recommendations). The geotechnical engineer will note any project concerns and recommend solutions alongside the design and construction recommendations. *Our geotechnical reports are comprehensive, concise, and accurate, ensuring safe, cost-effective construction.*

Locate Public/Private Utilities

B2Z will dispatch a field technician to stake the location by utilizing the KMZ file provided by our geotechnical engineer. The technician identifies each drilling location, within a 40-foot radius, with a wooden stake painted orange. After staking, B2Z's experienced staff will request a utility check from Texas811 at least 48 hours prior to drilling work. B2Z provides Texas811 with the location coordinates of each boring, and Texas811 issues a ticket for each location. Texas811 will notify all utility companies with utilities present in the area, and the companies will mark their specific utility. Existing utilities are marked with colored flags or spray paint. Utility companies will reply to the ticket(s) issued for the boring, and tickets are saved in their respective projects for reference. Drilling operations can commence once all utilities have been cleared.

To update or view a map of the dig location click here to go to the Texas811 Portal Site.

Construction Materials Testing (CMT) Services

CMT is an instrumental component of all construction projects. CMT is used to ensure methods and materials specified in the construction documents are being adhered to and properly installed. B2Z provides CMT services for the categories listed below:

- ❖ Quality Assurance and Quality Control (QA/QC)
- ❖ Field Inspection and Oversight
- ❖ Field and Laboratory Testing and Analysis

Quality Assurance and Quality Control (QA/QC)

Quality control is paramount to ensuring the completion of all testing according to specifications and within testing standard compliance. B2Z utilizes MetaField, a software-as-a-service (SaaS) platform used by project personnel, to schedule field activities, dispatch technicians, collect sample and activity data, organize test data, and generate final reports. This process requires approval at multiple steps to ensure collected data is accurately documented, recorded, and reported.

B2Z's dispatch program, MetaField, manages and tracks samples from the field to laboratory testing to final reporting, maintaining consistency and compliance for each project. MetaField facilitates the Project Manager and Task Leads by backchecking samples and field technician assignments. B2Z also utilizes MetaField to schedule and dispatch the appropriate personnel to each project throughout all parts of the day with minimal notice to maintain the same certified field technician(s) on each project. The technician will communicate with the Construction Superintendent every morning to confirm the scheduled tests for that day.

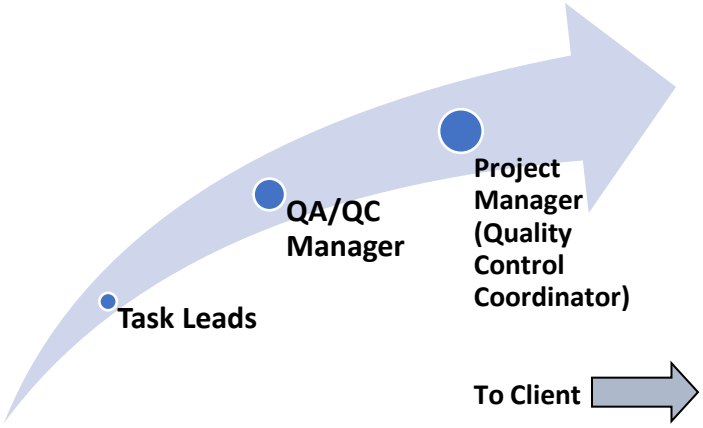
MetaField gives our technicians the capability to input specimen data at project sites before returning to the lab for processing. Once the specimens have been entered, the system tracks when testing needs to be completed based on the assignments. This streamlined process helps ensure projects stay on time and within budget.

Field Inspection and Oversight

Field inspection, oversight, construction material testing (CMT), and an open line of communication with the contractor are pivotal to a successful construction operation. B2Z assigns experienced CMT engineers and technicians skilled in all aspects of construction materials and methods. The B2Z team has experience inspecting **soils, structural concrete placement, structural reinforcing steel, grout and mortar** (in both vertical and horizontal applications), **aggregates** (for concrete batching and pavement mixes), and **hot mix asphaltic concrete** (HMAC) (in roadway and parking lot applications).

Field and Laboratory Testing

Our laboratory team has vast experience and is proficient in all the latest **AASHTO, ACI, and TxDOT testing requirements**. Conducting all testing out of our Mission Lab will further ensure accurate testing results and a quicker turnaround. Performing CMT throughout the construction phases helps



verify that all materials and methods utilized comply with the design engineer's plans and specifications. CMT testing will include the following categories:

- Soil observation, sampling & testing
- Field density testing
- HMAC pavement testing
- Concrete sampling & testing
- Concrete compressive strength
- Shotcrete sampling & testing

Quality Assurance Program

Utilizing quality control and quality assurance is vital to ensure all designs/analyses/final deliverables are of the highest quality and to reduce the presence of outliers in the statistical models of results. B2Z has developed written policies and procedures for various tasks to provide direction to staff and increase the consistency of all processes (modified only through project managers to provide flexibility due to any project variability).

B2Z's Management Plan calls for a three-tiered approach to QA/QC, where the first QA/QC comes from the Task Leads, followed by the QA/QC Oversight Representative, and lastly by the Project Manager. The Laboratory Managers are responsible for direct supervision of QA/QC programs in the field, and the Laboratory Engineer of Record is responsible for performing all supervisory reviews of technical procedures in the engineering laboratory. Ultimately, though, the Project Manager provides oversight of all QA/QC operations. This three-tiered approach provides a triple-check system of all reports, designs, and recommendations prior to submission to the client.

As part of B2Z's commitment to quality, key employees are tasked with overseeing and executing the quality control measures and policy. The project manager and quality control coordinator implement and enforce B2Z's quality measures.

Testing Capabilities

Soil and Base Material Testing

Moisture Content Determination	ASTM D2216 / Tex-103-E
Determination of Liquid Limit of Soils	Tex-104-E
Determination of Plastic Limit of Soils	Tex-105-E
Atterberg Limits of Soils	ASTM D 4318 / Tex-106-E
Bar Linear Shrinkage of Soils	Tex-107-E
Material Finer #200 Sieve	ASTM D 1140 / Tex-111-E
Lime Series Testing	Tex-112-E
Moisture-Density Relationship (TxDOT)	Tex-113-E / Tex-114-E
Standard Proctor	ASTM D 698
Modified Proctor	ASTM D 1557
Field Density Test (Nuclear)	ASTM D 6938 / Tex-115-E
Determination of Soil pH	Tex-128-E
Soil-Lime Testing	Tex-121-E
Resistivity of Soils (Laboratory)	Tex-129-E
Sieve Analysis	ASTM C 136 / Tex-200-F
Texas Wet Ball Mill (Base Material Quality)	Tex-116-E
Soil Organic Content UV-VIS Method	Tex-148-E

Coarse and Fine Aggregate Quality Testing

Decantation Test (Conc. Aggr.)	ASTM C117 / Tex-406-A
Specific Gravity/Absorp. (Conc. Aggr)	ASTM C127 / Tex-403-A
Cycle Magnesium Soundness	ASTM C88 / Tex-411-A
SSD Unit Weight of Aggregates	ASTM C29 / Tex-404-A
Percent Voids/Solids in Concrete Aggregate	Tex-405-A
Sand Equivalent	ASTM D 2419 / Tex-203-F
Specific Gravity / Absorption (Fine Aggr.)	ASTM C 128 / Tex -403-A
Organic Impurities in Fine Aggregate	ASTM C 87 / Tex -408-A
Fineness Modulus of Fine Aggregate	Tex-402-A
Acid Insoluble of Fine Aggregate	Tex-612-J

Concrete and Masonry Field and Laboratory Testing

Slump Test	ASTM C 143 / Tex-415-A
Air Content (Pressure Method)	ASTM C 138 / Tex-416-A
Air Content (Volumetric)	ASTM C 173
Casting of Concrete Cylinders	ASTM C 31
Compressive Strength of Cyl. Specimen	ASTM C 39 / Tex-418-A
Cylindrical Specimen Prep./Hold/Cure	ASTM C 192
Casting of Grout Prisms	ASTM C 1019
Grout Prism Prep./Cure/Compressive Strength	ASTM C 39
Casting of Mortar Cubes	ASTM C 780
Mortar Cube Prep./Cure/Compressive Strength	ASTM C 109
Masonry Unit Prep. /Compressive Strength	ASTM C 140
Masonry Unit SPG/Absorption/Unit Wt.	ASTM C 140

Pavement Investigation / Thickness / Asphalt Quality

Coring – ACP Thickness	ASTM D 3549
Pavement Thickness Determination (Full Depth)	ASTM
Density of Asphaltic Cores (4 or 6 inch)	Tex-207-F
Maximum Theoretical SPG (Rice Gravity)	Tex-227-F
Extraction/Sieve Analysis/Asphalt Content	Tex-210-F / Tex-200-F
Asphalt Rolling Pattern (Nuclear Method)	Tex-207-F – Part IV

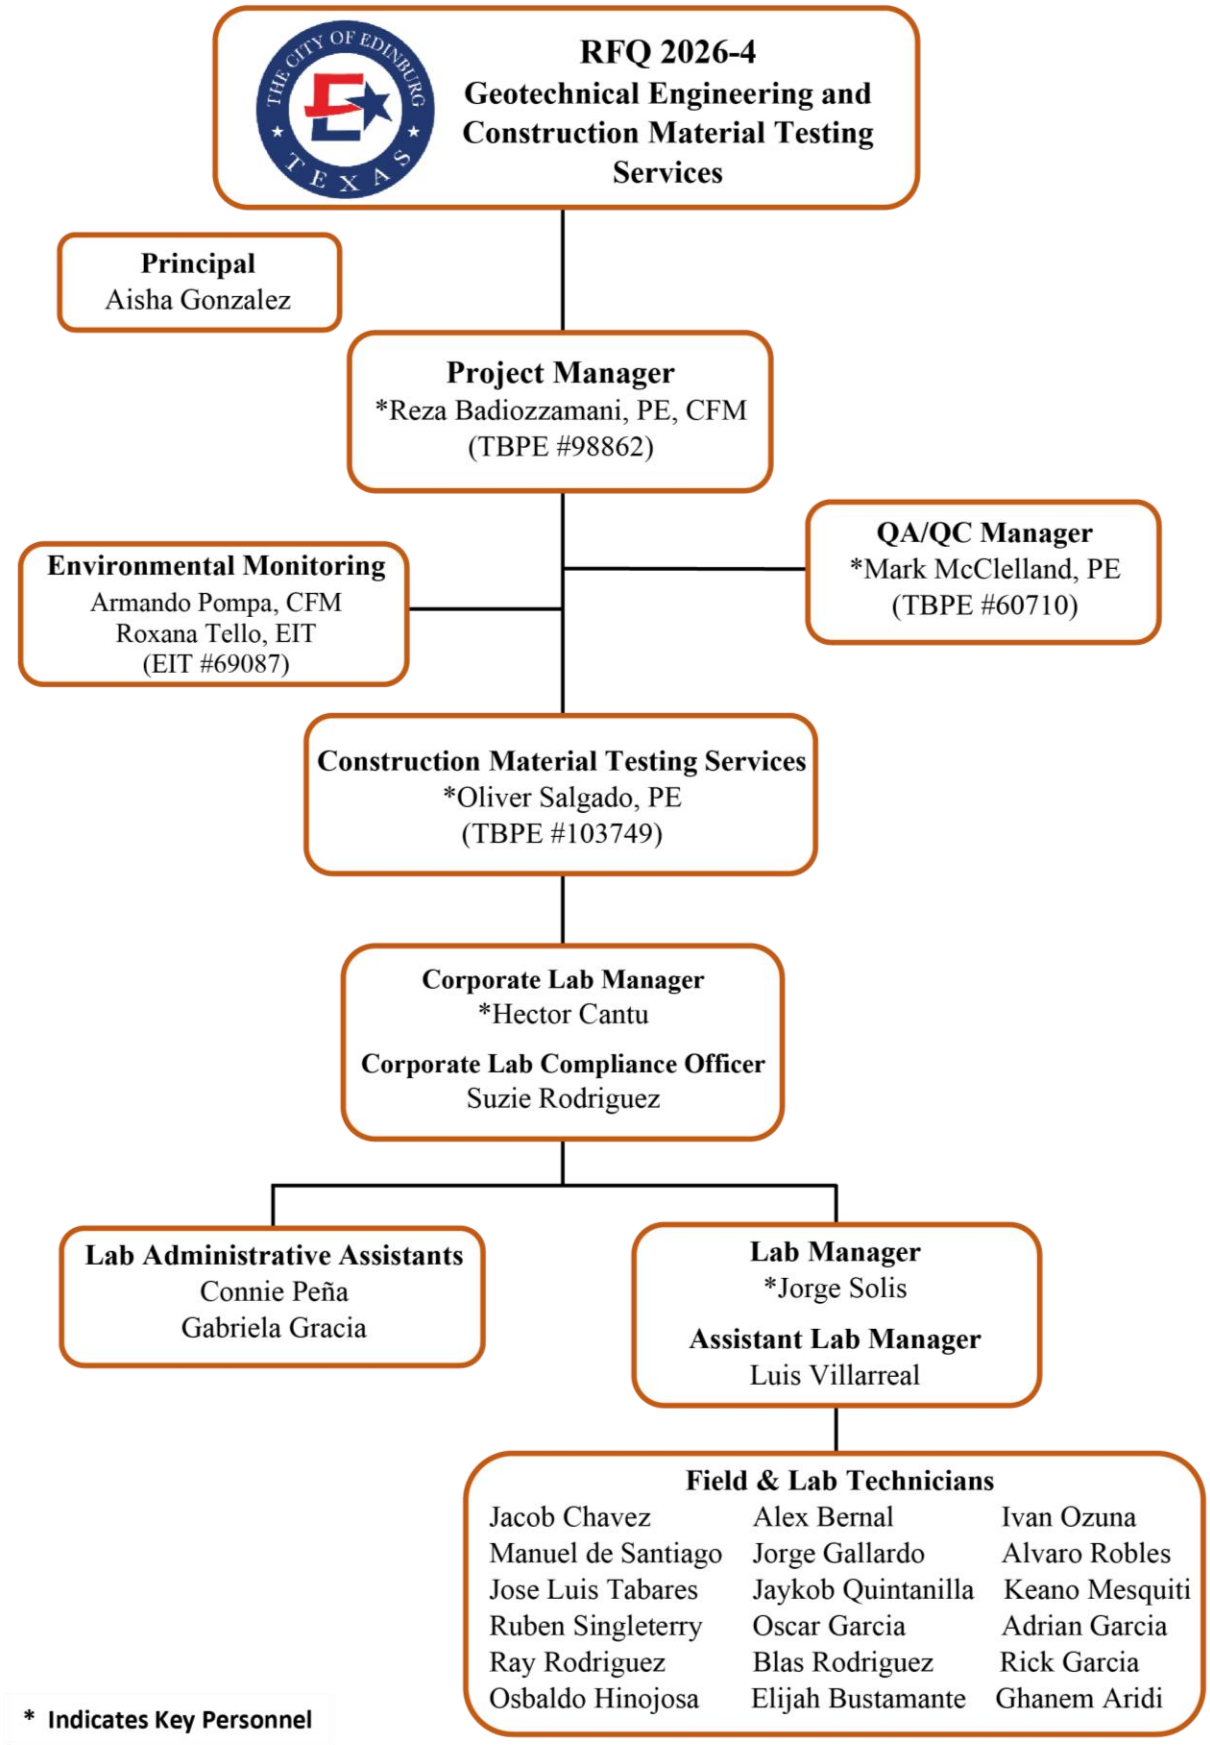
Tab III – Team Member Qualifications and Experience

B2Z Team Members

B2Z and its team members hold themselves to the highest level of both personal and professional integrity and only undertake tasks that they can perform competently and expertly. ***This ethical standard has resulted in B2Z not being party to a lawsuit since its inception in 2009, nor has a claim been made against its errors and omissions insurance policy.***

Furthermore, all B2Z personnel follow the National Society of Professional Engineers' (NSPE) code of ethics six fundamental canons.

NSPE NATIONAL SOCIETY OF PROFESSIONAL ENGINEERS



- Hold paramount the safety, health, and welfare of the public.
- Perform services only in areas of competence.
- Issue public statements only in an objective and truthful manner.
- Act for each employer or client as faithful agents or trustees.
- Avoid deceptive acts.
- Conduct themselves honorably, responsibly, ethically, and lawfully so as to enhance the honor reputation, and usefulness of the profession.

B2Z's key personnel have been identified, as marked, on the organization chart provided on the following page. Within each respective role, the key personnel will perform all duties required and as needed to successfully complete the project on schedule and within budget.

Mr. Reza Badiozzamani, PE, CFM will serve as **B2Z's Project Manager** for this contract. He brings ***over 23 years*** of experience. Mr. Badiozzamani is responsible for all engineering, geotechnical, and construction material testing laboratory projects. ***Mr. Mark McClelland, PE,*** will serve as the **QA/QC Manager** for this contract. He brings ***over 44 years*** of experience in construction material testing and geotechnical engineering services. ***Mr. Oliver Salgado, PE,*** will serve as the **Geotechnical & Construction Materials Testing Section Manager.** He brings ***over 23 years*** of experience in construction material testing and geotechnical engineering services. ***Mr. Hector Cantu*** is **B2Z's Corporate Laboratory Manager**. He brings ***over 43 years*** of experience – with over 26 years working as TxDOT Pharr District's Laboratory Supervisor. ***Mr. Jorge Solis*** is the **Mission Office Laboratory Manager** with ***over 16 years*** of experience.

Resumes with biographic summaries and project experience have been provided on the following pages for all key personnel.

Organizational Chart

Reza Badiozzamani, PE, CFM

Summary

Mr. Badiozzamani functions as B2Z's Senior Project Manager. Mr. Badiozzamani is responsible for all engineering, geotechnical and construction material testing laboratory projects in addition to managing various aspects of the engineering laboratory division. His duties also include overseeing personnel during the development and subsequent completion of the B2Z projects and providing QC/QA for all laboratory testing procedures (verifying laboratory compliance with ASTM, AASHTO, ACI, and TxDOT testing requirements as specified by the project). Mr. Badiozzamani is responsible for the review of all Commercial and Governmental Construction Material Testing Reports produced by B2Z Engineering. Additionally, Mr. Badiozzamani assists the Geotechnical Engineer with the development and analyses of Geotechnical Studies and Recommendations for various clients. Mr. Badiozzamani has a wealth of hands-on experience in Soil Classification, Soil Testing, Soil Specialty Testing (Vane-Shear, Unconfined Compression, One-Dimensional Consolidation), and Concrete Field and Laboratory Testing.

Title
Project Manager

5.5.1	12.4.1	14.5.1
8.1.1	12.5.1	

Relevant Project Experience

Various Projects | Client: City of McAllen

Various On-Call CMT Contracts - Tests performed on these projects included Moisture-Density Determination, Atterberg Limits, Sieve Analysis, Fresh Concrete Testing, and Compressive Strength Testing of Hardened Specimens. Performed construction observation and testing services on residential and commercial developments. Field experience included observations and testing of controlled fill, stormwater management facilities, subgrade stabilization, asphalt placement, concrete, pavement, retaining walls, roadway, and shallow building foundation construction. Ensure quality control and quality assurance were in accordance with local and project requirements.

On-Call CMT Contract | Client: Hidalgo County Drainage District

Various Projects throughout the Rio Grande Valley - Coordination with Laboratory Field Technicians and Inspectors to ensure that all materials testing functions are being performed in accordance with industry standards and contract documents. B2Z is performing embankment and backfill testing. Additional testing includes subgrade, 12" flexbase, asphalt concrete pavement, hydraulic cement concrete testing on wingwalls (Class C), and riprap/curb/sidewalk (Class A).

On-Call Geotechnical & CMT Contract | Client: South Texas College

B2Z was contracted to provide Geotechnical and CMT services for various campus-wide projects. He manages the construction materials testing and coordinates with the laboratory field technicians and inspectors to ensure that all materials testing functions are performed in accordance with industry standards and contract documents.

Mile 3 N Road Project | Client: Hidalgo County Precinct 3

General management of Construction Materials Testing. Coordination with Laboratory Field Technicians and Inspectors to ensure that all materials testing functions are being performed in accordance with industry standards and contract documents. Review of all test reports pertaining to these projects. Tests performed on soils and base materials on these projects include Moisture-Density Determination, Atterberg Limits, Sieve Analysis, Fresh Concrete Testing and Compressive Strength Testing of Hardened Specimens, Asphalt Content, Sieve Analysis, Specific Gravity and Thickness of Asphaltic Pavements.

TxDOT Pre-Certifications

5.2.1	14.2.1
5.3.1	14.3.1
10.5.1	14.4.1
14.1.1	14.5.1

Summary

Mr. McClelland has 44 years of experience (29 years directly with TxDOT) in all aspects of Geotechnical Engineering. Most of his career was spent working in, and ultimately managing, the TxDOT Bridge Division Geotechnical Branch. He oversaw the update of the Geotechnical Manual, wrote all foundation and retaining wall Standard Specifications for the 2004 Spec Book, and oversaw the development of all current foundation and retaining wall design processes currently in use by TxDOT. He developed and oversaw the TxDOT Scour Management Program, and the program to manage structures on unknown foundations.

Relevant Experience

Structural Foundation Design
Oversaw foundation design for structures and personally designed foundations for 1000+ bridges ranging from simple off-system structures to complex, major bridge structures. Foundation types designed include drilled shafts, auger-cast piling, prestressed concrete piling, steel H-piling, steel pipe piling, steel and prestressed concrete sheet piling, and spread footings.

Slope and Retaining Wall Stability and Settlement
Oversaw evaluations for global stability and settlement of embankments, earth slopes, and retaining walls, and has analyzed 100+ slope and retaining wall projects. He is highly proficient and experienced in the external stability and global stability of slopes and wall systems and has used programs such as GSTABL to provide detailed models and analyses.

Geotechnical Exploration and Testing
Oversaw policies and methodologies for geotechnical exploration within TxDOT and developed 100+ soil exploration plans. This included determination of soil boring number, location and depth, appropriate in-situ, and laboratory testing, need for and installation of monitoring wells, inclinometers, and other field instrumentation, and final analysis and reporting of results.

Construction Support
Acted as primary construction and maintenance support within TxDOT for issues involving bridge foundations, retaining walls, slope and wall instabilities, river migration, and scour. Work included immediate resolution of time-sensitive construction problems, evaluation and remediation of ongoing maintenance issues, and training of TxDOT and contractor construction personnel.

Relevant Project Experience

Raymondville Drain – Hidalgo and Willacy County Main Outfall Project
This project consists of Geotechnical Exploration, Laboratory Testing and Value Engineering Recommendations for the placement of a new location Main County Outfall System in Hidalgo County and connection to & expansion of an existing Delta Region drain system in Willacy County approximately 60 Miles in length with the purpose of getting water from Hidalgo County to the Laguna Madre. The project includes: 20 Miles of New Location Outfall, 40 Miles of Existing Location Expansion to Outfall, 60 Bridge Crossings (including major crossings of US 281, US 77, SH 100 and Railroad), 1 Major Control Structure at North Main Drain (Interim Phase I Conditions), Potential Lake Detention Pond at La Sal Vieja Lake, Alternative for Diversion to Main Floodwater Channel in Willacy County. Geotechnical information has been primarily collected along all outfall stretches and various analyses were completed to verify adequacy of side slopes for proposed channel section (Slope Stability). Additionally, Foundation Design Analyses & Curves have been primarily generated for all crossings including investigation of Scourability based on D50-D90 parameters at the structure locations. This job is being let out in phases and as such is still currently underway.

- Geotechnical Testing
- Geotechnical Engineering
- Toll Plaza Design
- Bridge Design
- Foundation Design
- Pavement Design

TxDOT Pre-Certifications

3.2.1	8.1.1	14.2.1
4.2.1	10.1.1	14.3.1
5.2.1	10.2.1	14.5.1
5.3.1	12.1.3	
5.5.1	14.1.1	

Summary

Mr. Salgado has over 23 years of progressive experience in managing a wide range of diverse civil engineering projects. He is responsible for managing our laboratory division including all engineering, geotechnical and material testing projects. Mr. Salgado provides all QC/QA for testing procedures to ensure compliance with ASTM, A2LA, AASHTO, ACI, USACE and TxDOT. He has successfully delivered several multi-disciplinary and multi-office projects demonstrating his ability to increase and sustain efficiency in large scale projects, particularly within accelerated schedule environments.

Relevant Project Experience

Dicker Road Project / Hidalgo County, TX
Role: Materials Testing Manager
$16.5M Construction Cost. This reconstruction project consists of expanding the existing 2 twelve-foot lane rural roadway with shoulders and ditch drainage to a sixty-six-foot-wide divided urban roadway that will accommodate 4-lanes of traffic (two fourteen-foot shared travel lanes, two twelve-foot travel lanes, and one fourteen-foot left turn lane). The Project is funded through the Hidalgo County MPO (TxDOT Category 7 funds) and is being constructed in accordance with County's general specs, TxDOT's standards, and is subject to State oversight to qualify for allotted federal reimbursements. B2Z was contracted to provide inspection, material testing and construction management services.

Harvey Camp Area Improvements / Harris County, TX
Role: Materials Testing Manager
$500K Construction Cost. Full depth repairs of Concrete Pavements, Curbs, Driveways and Sidewalks in various locations throughout the Harvey Camp Area. Construction material testing includes Sampling of freshly mixed concrete, making and curing concrete test specimens in the field, Slump of hydraulic cement concrete, Air Content of concrete by pressure method, and Compressive Strength of cylindrical concrete specimens. Preparation of cement stabilized sand samples for test, Moisture-Density relations of sand-cement mixtures, Moisture-Density relations for laboratory compaction characteristics of cement stabilized sand using standard efforts, Compressive Strength of Molded Cement-Sand cylinders and In-Place density and moisture content of soil and soil-aggregate by Nuclear Method (Shallow Depth).

TxDOT On-System & Off-System Bridge Replacements / Statewide
Role: Senior Project Manager
Providing engineering services generally described as preparation of plans, specifications, and estimates (PS&E) and related documents, for a new overpass along FM 116 at SH 9, a bridge replacement at SH 6 over Lake Waco, a bridge replacement at SH 174 over Lake Whitney in Hill County and two on-system bridge replacements on SH 31. The services being provided include, but are not limited to, preparing roadway and bridge design, hydrologic and hydraulic design, traffic signal design, survey, geotechnical data collection, environmental documentation necessary to support the design process, and construction phase services.

Additional Project Information Available Upon Request

Hector Cantu

Title
Corporate Lab Manager

Years of Experience
43 (26 w/TxDOT)

Years with Firm
8

Certifications/ Training
- AASHTO Accreditation ATG No. 19-3730
- Certificate 103 – Radiation Safety Officer Portable Density/ Moisture Gauge
- USCE Construction Quality Management Certificate for Contractors – No. 784
- TxDOT Environmental Process for Local Governments ENV429
- Hazmat Certification
- OSHA General Industry Safety & Health Certified
- OSHA Construction Safety & Health Certified

Areas of Expertise
- Materials Engineering (Aggregate, Concrete & Asphalt)
- Soils & Subgrades
- Materials Testing
- Construction Inspection
- Highway Plan Review
- Knowledge of Federal and State Hwy Requirements

Summary

Mr. Cantu has over 43 years of experience in the field of Engineering. With over 26 years of TxDOT experience, Mr. Cantu brings a wealth of knowledge in material testing and has supervised the daily operations of laboratories which include staff training, development and performance reviews, utilization of equipment/ facilities, safety oversight, and quality of services/ work products. Mr. Cantu has served in supervisory roles and has monitored construction asphalt and concrete material testing as well as advanced geotechnical testing to support government and private sector work. Mr. Cantu supports engineers in functional areas of geotechnical design services, materials consulting, structure and roadway construction inspection, materials sampling, inspection, and testing. Mr. Cantu is well-versed in monitoring construction costs, writing and/ or supervising the preparation of proposals, reports, and correspondence, and communicating with contractors, supervisors, subordinates, local officials, and the public.

TxDOT Pre-Certifications: 11.3.1 – Construction Superintendent | 11.4.1 – Environmental Inspections 12.1.4 – Asphaltic Concrete Placement | 12.1.5 – Portland Cement Concrete Placement | 12.1.6 – Embankment/Subgrade/Backfill/Base Production | 12.1.7 – Embankment/Subgrade/Backfill/Base Placement | 18.3.1 – Utility Adjustment Coordination | 18.6.1 – Utility Management & Coordination Oversight

Relevant Project & Area Experience

Various Subdivision Projects | Cities of McAllen, Edinburg, Alamo, and Weslaco

General Management of Construction Materials Testing. Coordination with Mission Laboratory Manager, Field Manager and Field Technicians to ensure that all materials testing functions are being performed in accordance with industry standards and contract documents. Reviewed all test reports pertaining to these projects. Tests performed on these projects included: Moisture-Density Determination, Atterberg Limits, Sieve Analysis, Fresh Concrete Testing and Compressive Strength Testing of Hardened Specimens. Performed construction observation and testing services on residential and commercial developments. Field experience included observations and testing of controlled fill, stormwater management facilities, subgrade stabilization, asphalt placement, concrete, pavement, retaining walls, roadway, and shallow building foundation construction. Ensured quality control and quality assurance was in accordance with local and project requirements.

Regional Linear Park Project-Phase 2 / Hidalgo County

General Management of Construction Materials Testing. Coordination with Laboratory Field Technicians and Inspectors to ensure that all materials testing functions are being performed in accordance with industry standards and contract documents. Review of all test reports pertaining to these projects. Tests performed on soils and base materials on these projects include Moisture-Density Determination, Atterberg Limits, Sieve Analysis, Fresh Concrete Testing and Compressive Strength Testing of Hardened Specimens, Asphalt Content, Sieve Analysis, Specific Gravity and Thickness of Asphaltic Pavements.

Jorge Solis

Summary

Mr. Solis has over 16 years of experience in the field of Engineering. Mr. Solis gained experience starting and finishing the Federal Retaining Wall Project Segment 6-A and performing concrete tests such as slump, air content, temperature, casting compressive strength cylinders and testing. For two years Mr. Solis concentrated in the asphalt field where he performed most of the quality control testing. Mr. Solis has monitored construction asphalt and concrete material testing as well as advanced geotechnical testing to support government and private sector work. Mr. Solis supports engineers in functional areas of geotechnical design services, materials consulting, structure and roadway construction inspection, materials sampling, inspection, and testing.

B2Z ENGINEERING

July 14, 2026

Mr. Mardoqueo Hinojosa, PE, CFM, CPM, City Engineer
City of Edinburg
415 W. University Drive
Edinburg, Texas 78539

RE: RFQ No. 2026-4
Geotechnical Engineering and Construction Materials Testing Services
Professional Services Agreement

Dear Mr. Hinojosa,

B2Z Engineering, LLC (B2Z) has thoroughly reviewed the City of Edinburg's Professional Services Agreement for Geotechnical Engineering Services cited in RFQ No. 2026-4. B2Z affirms that it satisfies, and plans to maintain, the insurance requirements outlined in the Agreement during the contract period. If chosen, B2Z agrees to sign such an agreement with the City of Edinburg.

Sincerely,

Aisha Gonzalez
President

CONFLICT OF INTEREST DISCLOSURE

Prospective contractors should carefully consider whether any of their activities may give rise to an improper conflict of interest situation. Conflict of interest situations that are not properly addressed can result in a loss of funding to a specific program and/or to the City of Edinburg, and in some cases can result in civil or criminal liability.

Organizations that may enter into a contract with the City of Edinburg should examine the following:

- Are any employees or board members of the organization,
  - a City of Edinburg employee or consultant who exercises program or project specific functions as part of their City position?
  - a member of a Board, Council or Committee that may participate in the City's selection or award process?
  - a City Official?

- Are any immediate family members or business associates of my employees or board member's,
  - a City of Edinburg employee or consultant who participates in the City's selection or award process as part of their City position?
  - a member of a Board, Council or Committee that may participate in the City's selection or award process?
  - a City Official?

- Will any of my employees or board members receive a financial interest or benefit from any project funded and administered through the City (other than employee salaries or personnel benefits)?

- Will any immediate family members or business associates of my employees or board members receive a financial interest or benefit from any project funded and administered through the City (other than employee salaries or personnel benefits)?

- To my knowledge, will my program or project have a financial effect on a City official or employee who exercises City-related functions, or an immediate family member or business associate of such person? For example, will any of these persons be receiving rental payments, other business income, or program services from my company or services offered?

If you can answer "yes" to any of these questions, it is possible that there may be a conflict of interest. You should review the rules below to determine whether an actual conflict situation is raised, and, if so, what action needs to be taken to avoid a violation of the law. You should contact City staff immediately if you suspect that there might be an issue.

Any contractor entering into an agreement with the City will be required to warrant and represent, to the best of his/her knowledge at the time the contract is executed, he/she is not aware of any improper conflict of

interest as described. Also, the contract will obligate contractors to exercise due diligence to ensure that no improper conflict situations occur during the contract.

The following Federal, State and local regulations and policies, govern projects funded through the City of Edinburg:

* 2 CFR Part 200 [Subpart B 200.112 and Subpart D 200.318]
* Texas Local Government Code Chapter 171.004
* City of Edinburg Policies & Procurement Manual

Certification:

I, the undersigned, certify and report that to the best of my knowledge,

☑ I have no conflict of interest to disclose

☐ I have the following conflict of interest to disclose:

COMPANY PROVIDING PROPOSAL GENERAL QUESTIONNAIRE

1 Name/Name of Agency/Company: B2Z Engineering, LLC
(Full, correct legal name)

- Address: 900 S. Stewart Road, Suite 2 | Mission, TX 78572
- Telephone/Fax: Phone: (956) 585-3773 | Fax: N/A
- Email address: Aisha@B2ZEng.com

2. Does your Company anticipate any mergers, transfer of organization ownership, management reorganization, or departure of key personnel within the next twelve (12) months that may affect the organization's ability to carry out its submittal?
Yes____ No✓

3. Is your Company authorized and/or licensed to do business in Texas? Yes✓ No____

4. Where is the Company's corporate headquarters located? 900 S. Stewart Road, Suite 12 Mission, TX 78572

5. a. Does the Company have an office located in Edinburg, Texas? Yes____ No✓

b. If the answer to the previous question is "yes", how long has the Company conducted business from its Edinburg office? _____ (years) _____ (months)
N/A
c. State the number of full-time employees at the Edinburg office. N/A

6. Has the Company or any of its principals been debarred or suspended from contracting with any public entity? Yes____ No✓

If yes, identify the public entity and the name and current phone number of a representative of the public entity familiar with the debarment or suspension, and state the reason for or circumstances surrounding the debarment or suspension, including but not limited to the period of time for such debarment or suspension. _____
N/A

7. Indicate person whom The CITY may contact concerning your submittal.

Name: Mr. Reza Badiozzamani, PE, CFM
Address: 900 S. Stewart Road, Suite 2 | Mission, TX 78572
Telephone: (956) 585-3773
Fax: N/A
Email: Reza@B2ZEng.com

8. Surety Information

Have you or the Company ever had a bond or surety instrument "called," canceled, or forfeited?
Yes ( ) No (✓).
If yes, state the name of the bonding company, date, amount of bond and reason for such bond being "called," or its cancellation or forfeiture._____

9. Bankruptcy Information

Have you or the Company ever been declared bankrupt or filed for protection from creditors under state or federal proceedings? Yes ( ) No (✓)
If yes, state the date, court, jurisdiction, cause number, amount of liabilities and amount of assets. _____

N/A

10. Provide any other names under which your business has operated within the last 10 years.

N/A

LITIGATION DISCLOSURE FORM

Failure to fully and truthfully disclose the information required by this Litigation Disclosure form may result in the disqualification of your submittal from consideration or termination of the contract, once awarded.

1. Have you or any member of your Firm or Team to be assigned to this engagement ever been indicted or convicted of a felony or misdemeanor greater than a Class C in the last five (5) years?

   Circle One YES (NO)

   1 Have you or any member of your Firm or Team to be assigned to this engagement ever been terminated (for cause or otherwise) from any work being performed for the CITY or any other Federal, State or Local Government, or Private Entity?

   Circle One YES (NO)

3. Have you or any member of your Firm or Team to be assigned to this engagement ever been involved in any claim or litigation with the CITY or any other Federal, State or Local Government, or Private Entity during the last ten (10) years?

   Circle One YES (NO)

If you have answered "Yes" to any of the above questions, please indicate the name(s) of the person(s), the nature, and the status and/or outcome of the information, indictment, conviction, termination, claim or litigation, as applicable. Any such information should be provided on a separate page, attached to this form and submitted with your submittal.

HOUSE BILL 89 VERIFICATION

I, Aisha Gonzalez, the undersigned representative of B2Z Engineering, LLC, (Company or Business name) (hereafter referred to as company) **being an adult over the age of eighteen (18) years of age, verify that the company named-above, under the provisions of Subtitle F, Title 10, Government Code Chapter 2270:**

1. Does not boycott Israel currently; and

2. Will not boycott Israel during the term of the contract.

3) Is not currently listed on the State of Texas Comptroller's Companies that Boycott Israel List located at https://comptroller.texas.gov/purchasing/publications/divestment.php

Pursuant to Section 2270.001, Texas Government Code:

1. "Boycott Israel" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes; and

2. "Company" means a for-profit sole proprietorship, organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, or any limited liability company, including a wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate of those entities or business associations that exist to make a profit.

SENATE BILL 19 VERIFICATION

I, Aisha Gonzalez, the undersigned representative of B2Z Engineering, LLC, (Company or Business name) (hereafter referred to as company) **being an adult over the age of eighteen (18) years of age, verify that the company named-above, under the provisions of Subtitle F, Title 10, Government Code Chapter 2274:**

(1) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association; and,

(2) will not discriminate during the term of the contract against a firearm entity or firearmtrade association.

Pursuant to Section 2274.001, Texas Government Code:

1) *"Ammunition" means a loaded cartridge case, primer, bullet, or propellant powder with or without a projectile.*

2) *"Company" means a for-profit organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, or limited liability company, including a wholly owned subsidiary, majority-owned subsidiary, parent company, or affiliate of those entities or associations that exists to make a profit. The term does not include a sole proprietorship.*

3) *"Discriminate against a firearm entity or firearm trade association":*
   - a) *means, with respect to the entity or association, to:*
     - i) *refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association;*
     - ii) *refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or*
     - iii) *terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; and*
   - b) *does not include:*
     - (i) *the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; and*
     - (ii) *a company 's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship:*
       - *(aa) to comply with federal, state, or local law, policy, or regulationsor a directive by a regulatory agency; or*

(bb) for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity 's or association 's status as a firearm entity or firearm trade association.

4) *"Firearm" means a weapon that expels a projectile by the action of explosive or expanding gases.*

5) *"Firearm accessory" means a device specifically designed or adapted to enable an individual to wear, carry, store, or mount a firearm on the individual or on a conveyance and an item used in conjunction with or mounted on a firearm that is not essential to the basic function of the firearm. The term includes a detachable firearm magazine.*

6) *"Firearm entity" means:*
   a) *firearm, firearm accessory, or ammunition manufacturer, distributor,wholesaler, supplier, or retailer; and*
   b) *a sport shooting range as defined by Section 250.001, Local Government Code.*

7) *"Firearm trade association" means any person, corporation, unincorporated association,federation, business league, or business organization that:*

   a) *is not organized or operated for profit and for which none of its net earningsinures to the benefit of any private shareholder or individual;*
   b) *has two or more firearm entities as members; and*
   c) *is exempt from federal income taxation under Section 50l(a), Internal RevenueCode of 1986, as an organization described by Section 50l(c) of that code.*

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

B2Z Engineering, LLC

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

N/A

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

City of Edinburg
Attn: Lorena Fuentes, Interim Purchasing Manager
415 W. University Drive Edinburg, TX 78539

RE: Response to Request for Qualifications (RFQ) 2026-4 — Geotechnical Engineering and Construction Materials Testing Services

Dear Lorena Fuentes, Interim Purchasing Manager,

The City of Edinburg is growing, and with that growth comes the responsibility to **build right the first time.** Roads, utilities, foundations and public facilities must perform reliably for decades, and the decisions made during geotechnical investigation and construction materials testing shape whether they do. ECS Southwest, LLP (ECS) understands that the City's Department of Engineering is not simply seeking a list of qualified firms. It is seeking a **trusted partner** that can respond quickly to task orders, lead engineering teams when needed and deliver technically sound work on schedule.

That is the kind of partner ECS has been for Texas municipalities for more than 25 years.

Edinburg's subsurface conditions present real challenges. **Expansive clay soils and hydrostatic pressure require careful engineering judgment and practical design solutions.** ECS engineers are well versed in addressing these conditions, and our South Texas project history reflects that depth of experience. When subsurface findings are understood early and communicated clearly, design teams can make informed decisions that protect project budgets and timelines. ***ECS brings that clarity to each task order, from initial field exploration through final laboratory reporting.***

ECS holds active or recently completed contracts with more than 30 Texas municipalities, including the cities of San Antonio, Seguin, New Braunfels, Baytown, Austin, Dallas, Houston and Fort Worth, among many others. This breadth of municipal experience means ECS arrives at each task order with institutional knowledge of how Texas cities operate and what their project teams need. Our field reporting technology supports rapid turnaround, with sealed reports typically distributed **within 24 to 36 hours of the performance date.** Non-compliances are tracked in real time so the City and its contractors can address issues before they affect the schedule.

ECS Southwest, LLP is a limited liability partnership between Engineering Consulting Services, Ltd and Lead Wolf Management, LLC. Matthew Robbins, PE, serves as the Subsidiary Regional Manager / Senior Vice President for ECS Southwest, LLP, with primary responsibility for the Central and South Texas Region.

ECS is well positioned to serve the City of Edinburg as a **reliable, technically capable and responsive partner** throughout the contract term. We appreciate the City's consideration and look forward to the opportunity to support Edinburg's continued growth.

Respectfully submitted,
ECS Southwest, LLP

Matthew Robbins, PE

FIRM'S EXPERIENCE AND HISTORY

ABOUT OUR COMPANY

Company: Founded in 1988, Engineering Consulting Services is a leader in geotechnical, construction materials, environmental consulting and building science + infrastructure services. More than 35 years ago, ECS' goal was to raise the standards of professional consulting engineering by hiring industry professionals who understood the complexities of building and maintaining modern infrastructures. That commitment continues to guide each project ECS undertakes. ECS is currently ranked #60 in Engineering News-Record's Top 500 Design Firms (April 2026), #148 in Engineering News-Record's Top 200 Environmental Firms (October 2025) and #38 in Zweig Group's Hot Firm List (June 2026).

ECS' steady growth comes from a deep belief in developing the people, systems and expertise required to focus on client needs. From a start in 1988 with 12 employees, ECS now employs over 3,200 staff and has grown to more than 100 offices and testing facilities spread across the Mid-Atlantic, Southeastern, Midwestern, Pacific and Southwestern states. While ECS has grown considerably and continues to expand, the firm adheres to its founding mission.

Local: ECS Southwest, LLP, one of the operating entities of the ECS Group of Companies, is a premier provider of environmental consulting, geotechnical, construction materials and building science + infrastructure services across Texas, Colorado, Arizona, Utah, Oklahoma, New Mexico and Nevada. With 400+ employees, ECS Southwest is equipped to support clients throughout the project cycle for both the private and public sectors. **ECS Southwest, LLP is a Texas registered engineering firm (No. F-8461).** ECS opened its first Texas office in 1999, reorganized into regional subsidiaries in 2005 as ECS Texas, LLP, and in 2017 the subsidiary name was legally changed to ECS Southwest, LLP.

OUR VALUE

ECS embodies its philosophy of *"Setting the Standard for Service"* by using technology and experience to assist clients in the development of cost-effective, practical solutions. For over three decades, our engineering consulting services have helped our clients meet project requirements.

SAFETY PROGRAM

The ECS Safety Program is built on care and concern for our people. Genuine care and concern is the cornerstone of all we do in the name of safety at ECS. Our goal is to implement practical solutions to continually improve our safety processes and demonstrate our commitment to a safe work environment. Processes including near miss reporting, safety observations and employee engagement + feedback sessions have all been created with the goal of sending our people home safely every day.

FIRM UNIQUENESS

ECS brings a combination of local presence, proprietary technology, credentialed staff and proven municipal experience that positions the firm as a uniquely capable partner for the City of Edinburg. Key differentiators include:

- **In-House, Dedicated Local Staff.** ECS maintains in-house, full-time geotechnical and construction materials testing staff based out of the McAllen office, with additional resources available from the San Antonio office. The City receives dedicated local personnel rather than outsourced or contract labor, supporting faster mobilization and more consistent service delivery across the contract term.
- **On-Call and Rotation List Contract Experience.** ECS has extensive experience performing under on-call, task-order and rotational contract structures with public utility and municipal clients across Texas, consistent with the City's intended two-year rotation list model. Active on-call contracts span more than 30 Texas municipalities, providing a proven operational framework that ECS applies from day one.
- **South Texas Field Experience.** ECS engineers and field staff have performed subsurface investigations, soil borings, test pits and in-situ testing across the Rio Grande Valley and South Texas region. The team is familiar with the alluvial clay, calcareous soil and coastal plain formations characteristic of the Edinburg area, including the expansive clay and hydrostatic pressure conditions specifically identified in this RFQ.
- **Proprietary Technology Suite.** ECS has developed an integrated, in-house software platform that manages each stage of a project from field data collection through report delivery and invoicing. Field technicians use ETHEL to record testing results and site observations on tablets in the field. Data flows automatically into FRED, where reports are assembled without transcription, reviewed by the Project Manager, sealed by the Principal Engineer and distributed, typically within 24 to 36 hours of the performance date. GEORGE manages laboratory data from input through final report generation. IVAN automates invoice assembly and ALF provides real-time project status visibility across the team. Few firms in this market have built and maintained a technology platform of this depth.
- **Full-Spectrum Laboratory Testing.** ECS laboratories provide construction materials testing for soils, concrete and asphalt during active construction, including nuclear density testing, Standard Proctor, Atterberg Limits, No. 200 Washed Sieve, permeability, sulfate analysis, corrosivity suite and compressive strength testing of concrete cylinders. Laboratories participate in proficiency sample testing programs administered by AASHTO, AMRL and CCRL, with accreditations reflecting compliance with ASTM Sections E-329, C-1077 and D-3740.
- **ECS University and Technician Training.** ECS University was developed in 1999 to deliver continuous training and certification programs to field and technical staff. Technicians hold certifications from ACI, NICET, ICC and applicable state transportation agencies. A formal quality system includes regular review of individual technical performance, producing field staff who arrive on site trained, certified and backed by a program that does not stop at the point of hire.
- **QA/QC and Compliance Programs.** ECS develops and implements QA/QC plans, materials testing programs and contractor compliance monitoring for public infrastructure projects. Non-compliances are tracked in real time and communicated to the City and its contractors, so issues are addressed before they affect the schedule.
- **Credentialed Technical Team.** Team members hold advanced degrees and professional registrations including Texas-licensed Professional Engineers and Professional Geoscientists, with a demonstrated record of supporting public clients with geotechnical and materials testing services that meet project schedules and regulatory requirements.
- **Subcontracting and Diversity Commitment.** ECS takes a strategic approach to subcontracting, identifying opportunities to engage Historically Underutilized Businesses and Small Minority Women and/or Veteran-Owned Business Enterprises for drilling, specialized laboratory services and other contract components. This approach supports the City's community and diversity goals while bringing specialized capabilities to the team.

GEOTECHNICAL ENGINEERING

ECS develops tailored geotechnical exploration programs in support of each client's specific project. We know what is below the surface can be as crucial and complex as the structure it supports. Our team approach to geotechnical engineering extends beyond simply providing engineering data. We educate our clients about the risks and benefits of the engineering recommendations we provide.

SERVICES INCLUDE:

SUBSURFACE EXPLORATIONS, ASSESSMENTS AND DESIGN - incorporating our extensive subsurface database for local geologies

GEOPHYSICAL SURVEYS - including seismic refraction, electrical resistivity, refraction microtremor, SASW and ground penetrating radar, as well as associated geotechnical engineering and design services

GEOTECHNICAL CONSTRUCTION CONSULTING - to support construction projects including value engineering review, sample testing, laboratory testing for soil modification and evaluation of foundation bearing conditions

SPECIALIZED IN-SITU (IN PLACE) SOIL/ROCK TESTING - utilizing the following methods: Pressuremeter (PMT), Cone Penetrometer (CPT), Dilatometer (DMT) to provide the project team with cost effective recommendations for foundations supporting buildings and infrastructure

REINFORCED EARTH STRUCTURES, SLOPES AND RETENTION DESIGN - based on specific site conditions utilizing industry-leading analysis and design software

DEEP FOUNDATION TESTING - services using industry-leading devices such as the Pile Driving Analyzer (PDA), Cross Hole Sonic Logging (CSL) for drilled shaft testing and low-strain integrity testing using the Pile Integrity Tester (PIT)

GEOTECHNICAL INSTRUMENTATION - for monitoring structure movement during construction including remote, automated total stations, scan stations, inclinometers, piezometers, extensometers, tilt meters, crack gauges and vibration monitoring

GEOSTRUCTURAL DESIGN - for building elements containing soil-structure interaction such as soil nail walls, ground anchor supported retention systems, excavation support systems, micropiles, underpinning and soil improvement (aggregate pier designs, stone columns, vibro densification, grouting)

WHY ECS:

- Expertise in each market
- Advanced exploration capability
- Industry-leading in-situ testing
- Advanced geotechnical laboratory testing capability
- Advanced proprietary geotechnical analysis systems
- Proven geotechnical value engineering experts

CONSTRUCTION MATERIALS TESTING

Construction Materials Testing (CMT) primarily involves testing structural materials used to build new projects from the ground up, materials and components used to construct new additions or new components being added to an existing facility. These include earthwork, shallow and deep foundations, destructive and non-destructive concrete testing, wood construction observations, structural masonry, structural steel, sprayed-on fireproofing, Exterior Insulation and Finish Systems (EIFS), roofing evaluation and testing and asphalt pavement evaluation and testing. Our unique electronic reporting system delivers field and laboratory reports rapidly, giving the construction team valuable information on a timely basis. The majority of test reports are reviewed by ECS engineers and delivered via email to the project team within 24 to 36 hours of the test and/or observation.

SERVICES INCLUDE:

OBSERVATION SERVICES - help document that construction materials within new elements meet the designer's intent

SPECIAL INSPECTIONS - test items that require a construction materials testing and inspection program to be conducted by a third party, specifically including new buildings

THIRD-PARTY CODE COMPLIANCE - is jurisdictionally approved evaluations performed in place of services usually conducted by a local building code inspector which can only be requested / approved by local municipal code inspectors

CIVIL CONSTRUCTION TESTING - observes and tests civil elements such as parking lots, utilities, stormwater ponds, drainage systems, asphalt, concrete curbs, pavement and some retaining walls

WHY ECS:

- Certified personnel
- Accredited facilities
- Industry-leading electronic reporting (compliance/ non-compliance reporting) within 24 to 36 hours
- Rapid providers of innovative solutions for earthwork and foundation construction
- Experienced construction materials testing/special inspection professional and technical staff
- Industry-leading project budget management systems
- Advanced soil and materials testing capability

EXPERIENCE WITH SIMILAR PROJECTS

ECS is a well-known provider of consulting engineering services to the local government sector. Whether working with a county, township or city, our multidisciplinary expertise in geotechnical engineering, construction materials testing, facilities engineering and environmental consulting services enables us to support many types of design, construction and renovation projects. **We currently hold active on-call / IDIQ contracts with over 30 municipalities throughout Texas, including the City of Austin, City of Burleson, City of Carrollton, City of Cedar Hill, City of College Station, City of Colleyville, City of Dallas, City of Denton, City of Euless, City of Fort Worth, City of Frisco, City of Galveston, City of Garland, City of Houston, City of Hutchins, City of Keller, City of Kyle, City of League City, City of McKinney, City of Mesquite, City of New Braunfels, City of Plano, City of Richardson, City of Rockwall, City of Rowlett, City of San Antonio, City of San Marcos, City of Sugar Land, City of Temple, City of The Colony, City of Waxahachie, City of Wylie, Dallas County, Harris County, Kaufman County, Kendall County, Town of Flower Mound and Town of Prosper.**

In the past five years, ECS has completed over 650 municipal projects in Texas and over 7,900 nationwide. A small sample of our experience with similar contracts is below.

ECS' EXPERIENCE WITH MUNICIPAL CONTRACTS

CONTRACT	BRIEF DESCRIPTION
CITY OF SAN ANTONIO 2023 - Ongoing	ECS was selected by the City of San Antonio to provide on-call geotechnical and material testing services. ECS is involved in numerous projects across various locations in San Antonio, including Summer Fest, Mystic Sunrise, Wyanoke Drive, E. Hathaway, Misty Springs, Sunrise Pass, Las Puertas, New Valley Hi Drive, Medford Drive, Tres Caminos, Fire Sun, W. Brandon, Concio and many others.
CITY OF AUSTIN 2017 - Ongoing	ECS is providing construction materials testing services for the City of Austin on their Rotation List Contract. Our services have included in-place density and moisture content testing during grading activities, masonry construction observation and testing services, structural steel observations, framing observations and pavement material testing and placement observations. ECS provided construction materials testing and observation services for the construction of the one-of-a-kind, award-winning Central Library in downtown Austin.
CITY OF DALLAS 2018 - Ongoing	We have worked on many City of Dallas projects and are currently working on several projects in conjunction with the City providing observation and testing services related to private development projects with public improvements. Our firm is presently on the City's IDIQ contract for construction materials testing and geotechnical services.
CITY OF FORT WORTH 2020 - Ongoing	Since becoming a pre-approved subconsultant for geotechnical engineering and construction materials testing services, our firm has been awarded multiple projects with the City of Fort Worth. Projects include a bridge rehabilitation, street and paving improvements, sanitary sewer main replacements, storm drain and water replacements.
CITY OF HOUSTON 2020 - Ongoing	We are currently on the City's IDIQ contract for geotechnical engineering and construction materials testing services. We have worked on pavement, waterline and wastewater projects for the City of Houston. We have also provided construction materials testing services for Linkwood Park and Squatty Lyons Park.
CITY OF CARROLLTON 2019 - Ongoing	Our firm has worked on multiple city projects with the City of Carrollton that include the Perry Museum, Golden Bear Pump Station, Furneaux Creek Trail, Northcrest Estates Streets and Duncan Heights Roadway Improvements. We are currently a pre-approved subconsultant for geotechnical and construction materials testing services.

OFFICE LOCATION PROVIDING SERVICES

ECS' geotechnical engineering and construction materials testing services for the City of Edinburg will be led by the **McAllen office, located at 317 E. Cedar Avenue, Suite E, McAllen, TX 78501.** This office is less than 15 miles and approximately 25 minutes from Edinburg City Hall, positioning ECS to mobilize field personnel quickly in response to task orders without the delays associated with firms operating from distant locations.

The McAllen office is staffed with in-house, full-time geotechnical engineers, construction materials testing technicians and laboratory personnel who hold Texas Professional Engineer licenses and the TxDOT certifications required to perform the services described in this RFQ. **The San Antonio office serves as a secondary resource**, providing additional technical personnel, laboratory support and surge capacity when task order volume increases or specialized services are needed. ECS is a registered engineering firm in the State of Texas, and the personnel assigned to this contract are licensed and certified to practice in Texas. ECS has previously performed geotechnical and construction materials testing services in the Rio Grande Valley, providing the team with familiarity with the local soil conditions, contractor community and municipal project environment.

ECS' broader network of Texas offices, including Austin, Dallas, El Paso, Fort Worth, Houston, McKinney, San Marcos and Sherman, can also be drawn upon as needed. This network allows the Principal Project Manager to pool resources and respond to concurrent task orders across the contract term without requiring the City to engage a separate firm or experience a reduction in service quality.

ECS TEXAS OFFICE LOCATIONS

McAllen
317 E. Cedar Avenue, Suite E
McAllen, TX 78501

RIO GRANDE VALLEY PROJECT HISTORY

ECS has a robust history of project delivery throughout the Rio Grande Valley, with a portfolio of more than 300 projects spanning Hidalgo, Cameron, Starr and Willacy counties. This depth of local project history gives ECS' engineers a working familiarity with the subsurface conditions, contractor community and municipal project environment that cannot be replicated by firms entering the region for the first time.

ECS' geotechnical team has experience with the soil and geologic conditions encountered across central and South Texas. Across the region, ECS has encountered and developed design solutions for highly expansive clays, shallow limestone and caliche profiles that affect trench excavation and boring advancement, alluvial deposits along river corridors that introduce variable compressibility and groundwater conditions and elevated water-soluble sulfate concentrations that influence concrete and material selection. This regional familiarity allows ECS to scope investigations efficiently, anticipate subsurface variability and translate field findings into practical, construction-ready recommendations.

Representative Rio Grande Valley projects include:

- HCA Valley RMC ED Expansion, Brownsville, TX
- RGV Border Security, Segments 8A & 10A, Roma, TX
- Rio Hondo High School Sports Fields, Rio Hondo, TX
- Clean Fuels Complex, Brownsville, TX
- AutoZone Store #11096, Edinburg, TX
- AutoZone Store #11228, Mission, TX
- AutoZone Store #10951, Rio Grande City, TX
- Valvoline, Edinburg, TX
- Valvoline & 7 Brew, Harlingen, TX
- BlueWave Express, Mission, TX
- Church's Texas Chicken, Rio Grande City, TX
- Church's Texas Chicken, Raymondville, TX
- Church's Texas Chicken, Mercedes, TX
- Target T2224 Pavement Cores, McAllen, TX
- 7-Eleven East Chapin Street, Edinburg, TX
- 7-Eleven West Chapin Street, Edinburg, TX
- 7-Eleven Ware Road, McAllen, TX
- 7-Eleven Minnesota Road, Donna, TX
- 7-Eleven Sioux Road, San Juan, TX
- 7-Eleven Doffing Road, Mission, TX
- 7-Eleven N Conway Aveune & W Mile 2 Road, Mission, TX
- 7-Eleven Boca Chica, Brownsville, TX
- 7-Eleven, Brownsville, TX

> We challenge you and love the way you react to that. Giving us different options is really important to us and our business.

APPROACH TO PART-TIME STAFFING FOR SMALLER TASK ORDERS

No task order is too small to receive the same level of attention and responsiveness that ECS brings to larger assignments. The following describes how ECS manages staffing for smaller task orders from receipt through report delivery.

TASK ORDER RECEIPT AND ASSIGNMENT

When a task order is received, the designated Project Manager reviews the scope, determines the testing disciplines required and identifies the appropriate personnel. For smaller task orders, this review typically occurs within one business day of receipt. The Project Manager then assigns a site lead who serves as the primary field contact for the City and its contractors, performing daily testing services and coordinating with the office for additional staff as activity levels increase.

CROSS-TRAINED TECHNICIANS

ECS draws from a pool of cross-trained technicians who hold certifications across multiple disciplines including soils, concrete, asphalt and structural steel. On a given day, a single ECS technician can arrive on site and perform multiple testing and observation services, reducing the number of mobilizations required and lowering cost to the City. This model is particularly well suited to the smaller and varied task orders typical of a municipal rotation list contract.

MOBILIZATION TIMELINE

For construction materials testing task orders, ECS generally requests 24-hour advance notice to schedule technicians efficiently. For geotechnical services, ECS typically carries a backlog of approximately one to two weeks and has immediate availability to begin new work. Drill rigs accessible to the serving office are generally available within 72 hours of utility clearance.

REPORT DELIVERY

Field data is entered by the technician using ETHEL in real time on site. Upon departure, data and photos are uploaded wirelessly and flow automatically into FRED for Project Manager review and Principal Engineer seal. Reports are typically distributed within 24 to 36 hours of the performance date. For smaller task orders, this turnaround is often faster. Non-compliances are tracked on a running punch list and included with each report so the City and its contractors can address issues before additional work proceeds.

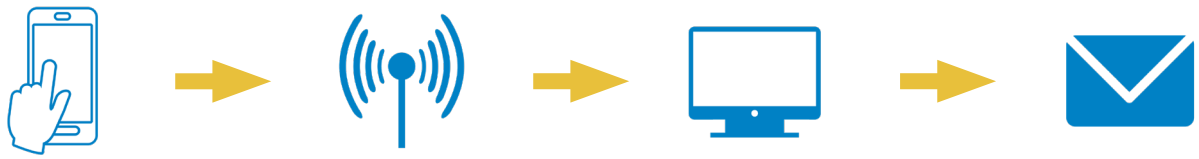
STAFFING DEPTH AND BENCH STRENGTH

ECS University produces a continuously trained bench of certified field personnel who can be deployed quickly as workload increases. ECS also maintains on-staff professional recruiters to address staffing needs rapidly when task order volume surges beyond the capacity of the local team.

The City can rely on ECS to treat a single-day density testing assignment with the same professionalism and urgency as a multi-phase geotechnical investigation. The systems, the staffing model and the reporting technology are the same regardless of task order size.

PROJECT APPROACH

Once a task order is initiated, ECS assigns two or more managers to the project regardless of size or complexity. The project leadership team typically includes a Project Manager and a Senior Associate or Principal Engineer. This layered management provides the City with more than one person who can be contacted immediately if needed. With the depth of talent on ECS' staff, if both managers of a project are unavailable, other project managers or principals become involved on short notice to address issues requiring immediate resolution.



> ECS was extremely helpful throughout this whole process and thanks for helping to guide me along the way."
>
> *- Matt Patterson*
> *Jones Lang Lasalle*

Task orders are assumed to flow from the City's project manager to Matthew Robbins, PE, ECS' dedicated Point of Contact. Mr. Robbins has the regional capability to draw properly licensed individuals as needed, confirming that short-turnaround task orders can be staffed as they arise. ECS develops a scope based on the specific task being requested, communicates with the City and other design professionals to confirm the scope satisfies the needs of the project team, and develops a proposal using contract rates. Once the proposal is submitted and approved, ECS coordinates site access and other logistical needs prior to mobilization.

During the course of each task order, ECS generates reports documenting activities and providing recommendations tailored to each service line. For geotechnical projects, ECS delivers formal geotechnical investigation reports including boring logs, laboratory data and foundation recommendations, prepared by the project geotechnical engineer and reviewed by the Principal Engineer prior to submittal to the City. For CMT assignments, field and laboratory reports are sealed and distributed within **24 to 36 hours** of the performance date. Reports across service lines are filed using ECS' electronic filing system and are readily available for retrieval upon request. Invoices are generated monthly, providing the City with transparent billing throughout the life of the contract.

FULLY DIGITIZED CMT REPORTING AND DISTRIBUTION

Since 1988, ECS field technicians have been utilizing our proprietary Field Report and Electronic Distribution (FRED) system. This completely digital method of construction material testing information allows for a quick, efficient and accurate reporting process.

field technicians write reports on-site using a hand-held electronic device

reports are transmitted to the office

project manager / principal engineer review and approve reports

client receives report via email, within hours of completion

SPEED • ACCURACY • VALUE • EFFICIENCY

WHAT THIS MEANS FOR OUR CLIENTS

With FRED, finalized reports are typically delivered in two business days or less (often less than one day) from when the work was performed. The reports are written on-site, resulting in more precise data and observations. With the information gathered, everyday construction problems in the field can be resolved quickly by the project engineer, saving the client time and money.

Our paperless reporting system can be instantly forwarded to all parties involved.

> Quality work, efficient and expeditious responses.
>
> *- Michael Martinez*
> *VLK Architects*

> Great work as always. Will continue to use ECS.
>
> *- Timothy Engle*
> *City of Rowlett*

UNIQUE CAPABILITIES AND IN-PLACE PROCESSES

In addition to FRED, ECS utilizes the following seamless, digital, in-house developed suite of software. These internal management tools facilitate real-time data collection, reporting and budget tracking. These systems enable project managers to monitor tasks, staff hours and expenditures, supporting timely decision-making and correct billing. Project milestones and deliverables are tracked through a proprietary schedule management program, which allows ECS, subcontractors and clients to view project status and meet important deadlines.

GEORGE

GEORGE (Geotechnical Report Generator): Our geotechnical laboratory utilizes GEORGE to manage the input, processing and output of the results of our soils lab tests. From geotechnical subsurface investigations where a wide range of tests can be performed to gather physical properties of soils for design purposes to construction materials testing to get baseline values for comparative as-constructed evaluations, GEORGE is the one stop for the soil testing at ECS. Once data is entered and approved in the lab, it enters the FRED system for Project Manager review.

ETHEL

ETHEL (ECS Technician Handheld Electronic Logbook): Our field technicians are equipped with tablets or touch-screen laptops to store their field testing results, observations and communication. The ETHEL system is the platform for organizing this data into an easy-to-use interface that translates the entered information into our standard reports. There is a seamless transition and efficient workflow without transcription or time loss. As soon as the field data and field write-up are finalized, the field technician attaches digital photos and site location sketches, then uploads them wirelessly to our system. Upon completion of the upload, the automatically assembled reports are available in the FRED system for Project Manager review.

IVAN

IVAN (Invoice Verification and Notification): On a monthly basis, our invoices are automatically prepared and are made available to our management team in an easy-to-use platform. IVAN, synchronized with GEORGE, ETHEL and FRED, gathers the time and materials associated with our services and assembles the invoices for review. Following the initial setup of the project and execution of services, the invoice assembly process is simple and straight-forward requiring very little manipulation or modification making for a rapid review and finalization process. The Project Manager performs the initial review, then authorizes the Principal Engineer to do the same. Upon completion and approval by both the PM and the PE, the invoice is transmitted and copied to those set up to receive them. Being contained within the same electronic system, this process is simplified and operates with little complication.

ALF

ALF (Action Items, Letters, Follow-up): ALF serves as the central station for the above-noted systems. As the hub for the data movement, within ALF ECS staff can view the status of proposals, project contracts, document uploads, PTO for staff and much more. ALF is also smartphone formatted in order to facilitate our Project Managers and Principal Engineers and their mobile operations. Our professional staff are connected to their projects with ease and through ALF, should the client, contractor or project team need specific information or status, our ECS team can easily and quickly retrieve and provide it.

QUALITY-CONTROL PROCEDURES

ECS integrates quality throughout each phase of a project, from initial mobilization through final report delivery. Our quality control process involves each member of the project team, from field personnel to senior management, with oversight focused on preventive action rather than after-the-fact correction.

During active construction, ECS field personnel collect, review and document test results in real time using our proprietary FRED (Field Reporting and Electronic Documentation) and ETHEL (ECS Technician Handheld Electronic Logbook) systems. Field reports are reviewed, sealed and delivered within 24 to 36 hours of observation activities, supporting the client's documentation and quality oversight requirements. Deficiencies identified during testing are communicated promptly to the contractor and project team, with corrective actions tracked through resolution. These systems also support internal project management, allowing ECS project managers to monitor task progress, deliverable timing and cost expenditures across concurrent assignments.

Key elements of our quality control program include:

- Maintaining an active, ongoing quality control program to measure and verify field and laboratory performance
- Monitoring daily operational performance and providing timely corrective action for unforeseen conditions
- Tracking corrective actions through resolution and reviewing for appropriateness
- Reviewing data and reporting for correctness, detail and comprehensiveness
- Maintaining detailed records of field data and laboratory results throughout the project lifecycle
- Providing training to field personnel and team members prior to site arrival, covering site safety protocols, quality control measures, testing procedures and workmanship requirements

ECS maintains a corporate-sponsored quality assurance program that has been in place for more than 37 years, guided by evolving quality systems manuals for specific service lines. Our projects are directed by registered professional engineers or certified professional geologists. The program relies on internal and external audits, peer reviews and sample reference programs. For larger engagements, ECS develops project-specific quality assurance documentation. Equipment calibration records are maintained and verified on a scheduled basis, and adherence to current industry standards is a baseline requirement for the field and laboratory activities.

Our internal quality assurance review program reflects a commitment to continuous improvement. If requested, ECS will provide a copy of our Quality Control Manual and Quality Assurance Processes.

At ECS, it's not just about getting the job done. It's about getting the job done right.

ECS' PROJECT MANAGEMENT AND QUALITY CONTROL - CONSTRUCTION MATERIALS TESTING (CONSTRUCTION)

1. ECS Field Technician performs test on materials at job site
2. Enter test data into ETHEL
3. Transmitted via wireless technology called FRED
4. Reviewed by the Project Manager and the Principal Engineer
5. Electronic signatures and professional seal added to report
6. Client verbally notified of issues that require attention
7. ECS personnel assist in identifying the appropriate party involved in resolving issues
8. Laboratory results are reported to the client by Project Manager
9. Reports are forwarded to each party designated by the client

IN-HOUSE LABORATORY CAPABILITIES & ACCREDITATIONS

ECS maintains formal accreditations from the industry's leading standards bodies, including the American Association for Laboratory Accreditation (A2LA), the American Association of State Highway and Transportation Officials (AASHTO), the Materials Reference Laboratory (AMRL), the United States Army Corps of Engineers (USACE) and the Cement and Concrete Reference Laboratory (CCRL). These accreditations are maintained nationally and within our Texas operations, reflecting ECS' commitment to consistent, standards-based laboratory practice across our service area.

Supporting our McAllen office, ECS operates a full-service laboratory in San Antonio at 431 Isom Road, Suite 114, San Antonio, TX 78216. Additional full-service laboratories in our Austin, Houston, Dallas and Fort Worth offices provide the City with expanded capacity and geographic coverage. ECS laboratories conduct soil and concrete testing in support of our geotechnical consulting and construction materials engineering and testing services. Internal training and certification programs complement our external accreditations, administered by the agencies listed above, which are long recognized as leaders in setting consistent industry standards.

Laboratory Test Procedures Accredited by AMRL/AASHTO:

Quality Management System: R18, C1077 (Aggregate), C1077 (Concrete), D3740 (Soil), E329 (Aggregate), E329 (Concrete), E329 (Soil), E329 (Sprayed Fire-Resistive Material)

Soil: R58, R74, T88, T89, T90, T99, T180, T191, T265, T310, D421, D422, D698, D1140, D1556, D1557, D2216, D2487, D2488, D4318, D4718, D6938

Aggregate: R76, R90, T11, T21, T27, T84, T85, T255, C40, C117, C127, C128, C136, C566, C702, D75

Sprayed Fire-Resistive Material: E605, E736

Concrete: M201, R60, R100 (Beams), R100 (Cylinders), T22, T97, T119, T121, T152, T196, T231 (9000 psi and below), T309, C31 (Beams), C31 (Cylinders), C39, C78, C138, C143, C172, C173, C231, C511, C617 (9000 psi and below), C1064, C1231 (7000 psi and below)

Masonry: M201 / C511 (Moist Cabinets, Moist Rooms and Water Storage Tanks Used in the Testing of Hydraulic Cements and Concretes), C780 (Annex 1) (Preconstruction and Construction Evaluation of Mortars for Plain and Reinforced Unit Masonry - Consistency by Cone Penetration), C780 (Annex 6 - Cubes) (Preconstruction and Construction Evaluation of Mortars for Plain and Reinforced Unit Masonry - Compressive Strength of Cubes), C1019 (Sampling and Testing Grout)

EQUIPMENT

EQUIPMENT NAME	CALIBRATION FREQUENCY	CALIBRATION PROCEDURES
Concrete Compression Break Machines	Annual	Outside Agency (Recal)
Lab Scales	Annual	Outside Agency (Recal)
Drying Ovens	Annual	Outside Agency (Recal)
Atterberg Limits Equipment	Annual	Internal
Concrete Mixer	Prior to use	Check Physical Condition
R-Meter	Annual	Outside Agency (Recal)

Additional items including calipers, thermometers and field scales are annually calibrated by an outside agency. Equipment such as concrete saws, coring equipment and our generators are checked for physical condition before use.

TECHNICIAN QUALIFICATIONS

ECS employs multiple **International Code Council (ICC)** Reinforced Concrete certified technicians with extensive project experience. In addition, ECS has multiple technicians certified by the **American Concrete Institute (ACI)**. Our technicians are experienced and qualified to provide high-quality observation expertise. They are knowledgeable and adhere to project specifications, plan requirements and adopted versions of the building code, including IBC 1704 and ACI 318 standard reinforcing details. ECS' qualified and certified technicians routinely report and notify the contractor of non-conforming items through careful documentation and photographic records, and add these items to non-conformance logs to keep stakeholders informed.

STAFF CERTIFICATIONS

ECS field and laboratory staff assigned to this contract hold certifications from recognized industry organizations applicable to water and wastewater utility construction in Texas. Current certifications held across the McAllen and San Antonio field staff include:

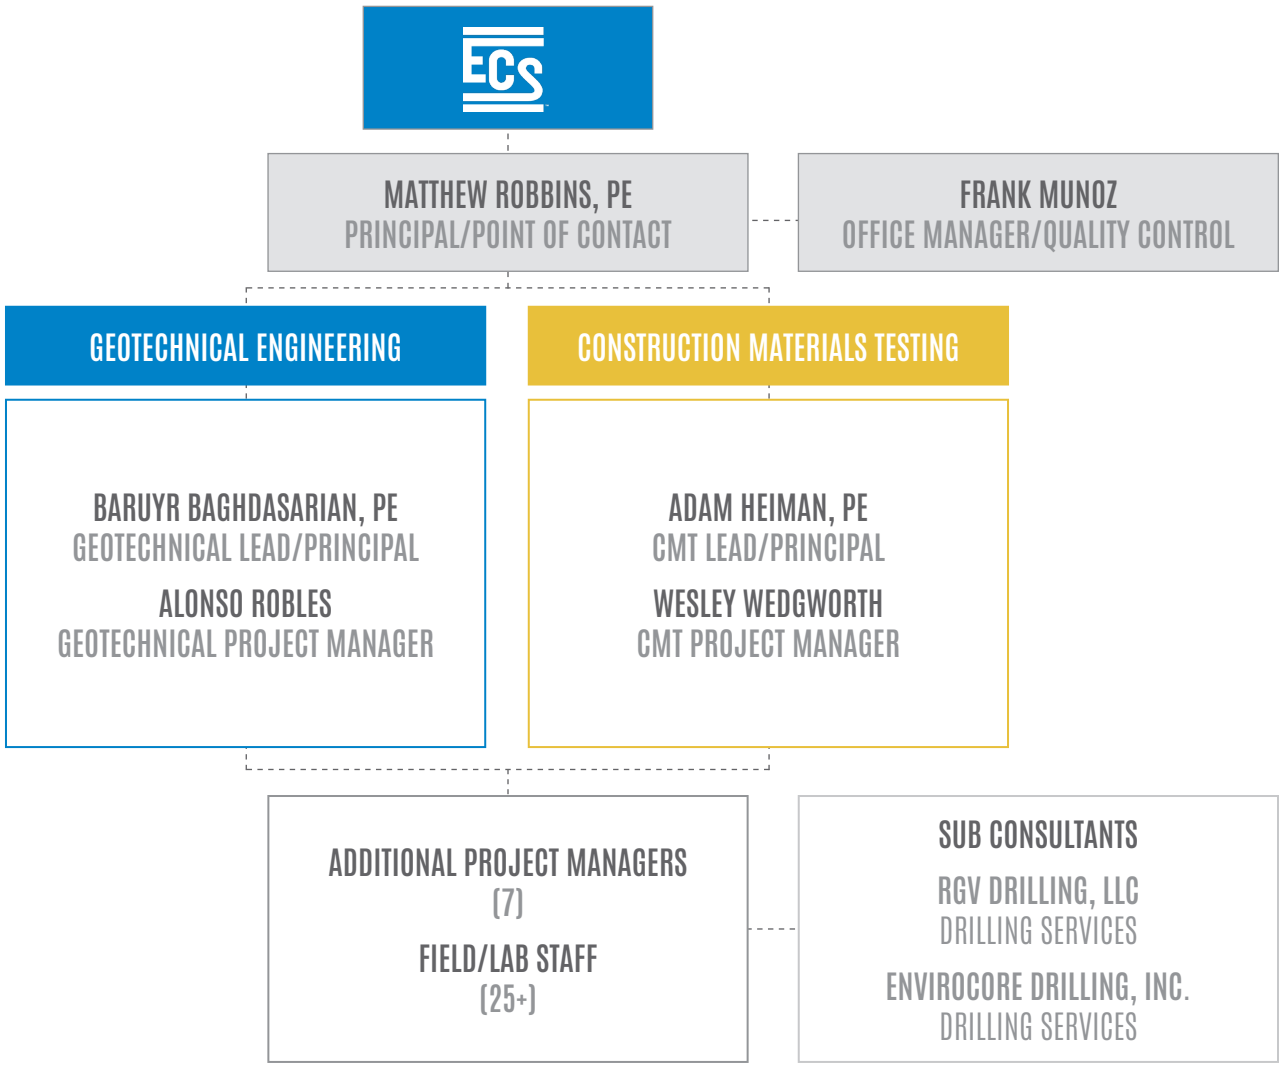
CERTIFICATION	ISSUING ORGANIZATION	COUNT
Nuclear Density Gauge Operator	American Tech Institute (ATI)	20
Hot Mix Asphalt and Soils	Hot Mix Asphalt Center (HMAC)	9
Reinforced Concrete Special Inspector	International Code Council (ICC)	2
Concrete Field Testing Technician	American Concrete Institute (ACI)	11
Post-Tensioning Inspector	Post-Tensioning Institute (PTI)	3

AVAILABILITY AND CAPACITY

ECS is prepared to support the City's projects with a dedicated team of local professionals, supplemented by a regional pool of expert staff as needed. As task orders are requested, work orders flow to **Mr. Matthew Robbins, PE, ECS' designated point of contact.** Mr. Robbins evaluates each assignment and draws the appropriate licensed individuals to confirm that short-turnaround task orders can be staffed as they arise.

The McAllen and San Antonio operations are part of ECS' broader Southwest region, which comprises **over 400 professionals** across Texas and the surrounding states. Nationally, ECS employs **over 3,200 staff** across more than 100 offices, providing deep bench strength and surge capacity that few regional firms can match. The McAllen and San Antonio operations combined comprise:

- 5 Professional Engineers (senior professional staff licensed as Professional Engineers in Texas)
- 12 Project Managers (project-level managers and staff leads)
- 1 Team Leader (construction materials testing field technician staff lead)
- 32 Field and Laboratory Staff (technicians performing field and laboratory testing services)
- 23 Environmental Staff (principals, professional geoscientists, professional engineers, project managers, technicians and scientists)



This staff base allows ECS to maintain momentum and service continuity across active projects, regardless of scale or complexity. When workload surges, the McAllen office draws additional personnel from nearby ECS offices in San Antonio, Austin and Houston, which are integrated into the team to maintain continuity of coverage. Each project is monitored by a Principal Engineer and Project Manager who coordinate resource assignments and maintain open lines of communication with the City throughout the contract duration.

ECS invests in ongoing recruitment and internal training initiatives, including ECS University, to sustain a steady pipeline of qualified personnel available to respond to evolving project needs. Backed by over 400 Southwest region professionals and a national network of more than 3,200 staff, ECS is positioned to deliver timely, high-quality services for the City across the range of geotechnical and construction materials testing assignments under this contract.

PROFESSIONAL PROFILE

Mr. Heiman is the Assistant Office Manager at ECS' McAllen and San Antonio locations. He is tasked with managing operations in the McAllen and San Antonio regions. His role includes guiding the expansion of our practices in construction materials testing, geotechnical engineering and environmental consulting for agencies and private clients in the greater San Antonio area. With over 20 years of experience, Mr. Heiman has provided engineering services for various projects. These projects span education, municipal and government sectors, water and wastewater treatment facilities, elevated and ground-supported water storage tanks, lift stations and commercial, industrial and manufacturing facilities. His expertise extends to communication towers, transmission lines, substations, schools, residential subdivisions, apartment complexes, bridges, railroad sidings, streets and pavements.

PROJECT EXPERIENCE

- City of Seguin, Geronimo Creek WWTP Expansion, Walnut Branch WWTP Abandonment, Seguin, TX
- City of Seguin, New Animal Services Building, Seguin, TX
- City of Selma, Lockout Road Reconstruction, Selma, TX

EDUCATION

Master of Engineering, 2010, Civil Engineering, University of Toronto, Toronto, Ontario, Canada

Bachelor of Applied Science, 2008, Civil Engineering and Bachelor of Science, Computing Technology (Double Degree Program), University of Ottawa, Ottawa, Ontario, Canada

PROFESSIONAL PROFILE

Mr. Baghdasarian currently serves as the Geotechnical Department Manager for the McAllen and San Antonio offices of ECS. His role involves managing the group, with a focus on reviewing and issuing final geotechnical and construction materials testing reports and certifications. His duties also encompass coordinating subsurface exploration and preparing geotechnical engineering analysis reports for diverse projects, such as single-family residential buildings, commercial and industrial buildings, high-rise buildings with multiple below-grade levels and residential land development.

PROJECT EXPERIENCE

- City of San Antonio, Public Safety Warehouse, San Antonio, TX
- City of San Antonio, Enrique Barrera Parkway, San Antonio, TX
- City of San Antonio, Capitol from Fredericksburg Road, San Antonio, TX
- City of San Antonio, Enrique Barrera Parkway, San Antonio, TX

SUB CONSULTANTS

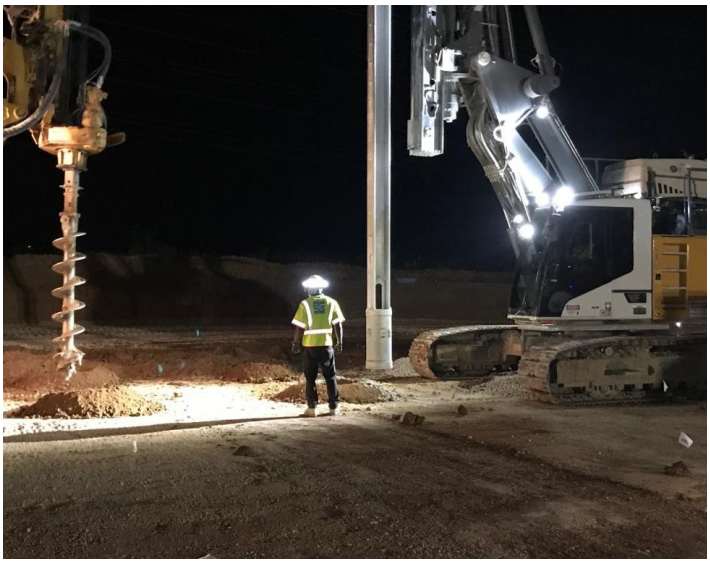
RGV Drilling, LLC

Drilling Services

RGV Drilling LLC, based in Texas, provides dependable, high-quality drilling services throughout the Rio Grande Valley. With more than seven years of industry experience, the company has built a reputation for precision, a strong safety culture and consistent performance. RGV Drilling LLC combines skilled personnel, well-maintained equipment and disciplined project execution to deliver efficient, cost-effective solutions tailored to each client's operational requirements.

EnviroCore Drilling, Inc.

Drilling Services



EnviroCore Drilling, Inc. is a Texas-based environmental and geotechnical drilling company equipped with a comprehensive fleet of CME drilling rigs, providing drilling services for environmental consultants and geotechnical engineers throughout the state of Texas.

USCIS Field Office, Edinburg, TX

Client: NTC Mazzuca Contracting; Dennis McClimans; 410.251.2198; dmcclimans@ntcmd.com
Project Description: For the Port of San Antonio, ECS provided construction materials observation services for the U.S. Citizenship and Immigration Services (USCIS) Field Office located at 2800 W Trenton Road, Edinburg, Texas 78539. ECS' scope of services consisted of providing a Certified Welding Inspector (CWI) to perform structural steel observations for the subject building. The CWI's services included visual welding observations, photo documentation and preparation of a summary report.
Dates: 07.2023 - 12.2023
Relevance to City of Edinburg: ECS has performed services within Edinburg city limits, and the proposed team members who delivered this project are the same professionals proposed for this contract.

Hidalgo County 365 Tollway - MSE Wall Investigation, Pharr, TX

Client: Hidalgo County Regional Mobility Authority; Ramon Navarro; 78577; 956.402.4762; ramon.navarro@hcrma.net
Project Description: ECS delivers construction materials testing services for the Hidalgo County 365 Tollway MSE Retaining Wall Compliance Investigation, supporting the Hidalgo County Regional Mobility Authority (HCRMA) in Pharr, Texas. The team establishes a TxDOT-accredited laboratory for the project, develops an engineering approach to evaluate compliance with the existing work and prepares a project material certification for submission to the FHWA. The work plan features a preliminary site visit and a comprehensive review of plans and specifications for the precast MSE wall panels. ECS observes and tests a portion of the precast panels, with the quantity and frequency of testing based on the number of non-compliant panels identified. The team documents installed panels with a general sketch and conducts a non-destructive evaluation using a handheld portable Ground Penetrating Radar (GPR) device to scan for reinforcing steel and spacing according to project details. ECS prepares daily field-testing reports and performs weekly 3-D scans on randomly selected panels. Destructive testing is conducted on uninstalled yard panels after GPR scanning to confirm rebar type and size, and concrete coring is performed periodically to extract test specimens. Deliverables include identification of compliant panels, reporting of drilled core compressive strength lab results, submission of photo documentation, 3-D scans, installed panel map sketches and a summary report at the conclusion of the panel investigation. For the MSE wall embankment, ECS reviews plans and specifications, performs embankment sampling and transport and conducts laboratory testing per Tex 104E, 105E, 106E, Tex 116E and Tex 117E, as well as in-place field densities per Tex 115E. Laboratory results are reported electronically and additional testing is performed to support the project's compliance objectives.
Dates: 07.2025 - Ongoing
Relevance to City of Edinburg: This active Hidalgo County project demonstrates ECS' CMT capabilities for a neighboring public agency, delivering the same concrete, density and earthwork testing services the City's Engineering Department would draw on under this contract.

City of Floresville, Floresville City Streets Reconstruction Project, Floresville, TX

Client: Triun, LLC; Stuart Anderson; 979.820.5194; sanderson@triunco.com.
Project Description: ECS performed geotechnical engineering and construction materials testing for the Floresville City Streets Reconstruction Project for the City of Floresville, TX. The purpose of this study was to provide geotechnical information for the design and reconstruction of two city streets (Peach Street and F Street). Our geotechnical scope of work included drilling seven borings to an approximate depth of 10 feet beneath the existing ground surface. Four borings were drilled on F Street and three borings were drilled on Peach Street. The borings were advanced using relatively dry techniques to their target depths, enabling the potential detection of the presence of groundwater during exploration operations. Samples were transported to the ECS laboratory where they were reviewed and visually classified by an ECS geotechnical engineer using the Unified Soil Classification System (USCS) in general accordance with ASTM D2488. ECS provided a final report containing the results of our subsurface explorations and geotechnical laboratory testing programs, site characterization and engineering analyses and recommendations for the design and construction of the proposed improvements. Recommendations for site preparation, grading, drainage and thickness design of pavements were provided. The materials testing scope of work included earthwork and asphalt.
Dates: 05.2022 - 08.2022
Relevance to City of Edinburg: ECS managed the geotechnical and CMT scope for a Texas municipal street reconstruction project from a single contract, reflecting the integrated, end-to-end service delivery the City of Edinburg can expect on its own infrastructure assignments.

San Antonio Water System, DeZavala Elevated Water Storage Tank, San Antonio, TX

Client: CB&I Storage Tank Solutions, LLC; Manda Davenport; 713.896.3821; manda.davenport@mcdermott.com
Project Description: ECS provided geotechnical engineering services to install an elevated water storage tank. The SAWS team requested confirmation of the foundation-bearing capacity of the in-situ rock subgrade before the concrete foundation was placed. The tank foundation was designed using a net allowable bearing pressure of 10,000 psf (13,300 psf with wind loading and 13,300 psf with seismic loading). ECS' scope of services included field exploration and testing and soil/rock laboratory testing to confirm the design bearing pressure of the limestone supporting the tank foundation before the concrete placement. ECS also conducted construction materials testing and observation for the proposed San Antonio Water System Elevated Water Storage Tank. ECS provided experienced and qualified technical personnel to perform the testing services as requested for the 2,500 MG elevated water storage tank.
Dates: 04.2022 - 12.2022
Relevance to City of Edinburg: ECS delivered geotechnical and CMT services under a single contract for one of Texas' largest public water utilities, demonstrating the coordinated, multi-discipline project delivery the City of Edinburg can rely on for its utility and infrastructure projects.

RGV Barrier, Starr County, TX

Client: The Haskell Company; Scott Foster; 918.492.1600; Scott.Foster@haskell.com
Project Description: ECS provided subsurface exploration and geotechnical engineering services to support understanding of the project. The project site was generally near the border between the United States and Mexico, between the Falcon Dam Port-of-Entry (POE) and the Los Ebanos POE. The design-build project involved the installation of approximately 17 miles of temporary barrier floating fence, power distribution facilities, light pole foundations and FC-2 patrol and maintenance roads along the border. This temporary barrier fence was anticipated to bear on shallow foundations, was approximately 18 to 21 feet tall, and consisted of prefabricated tilt-up wall panels supported on isolated rectangular spread footings. ECS' scope included drilling 185 soil borings to depths of 15 feet below the existing grade using a hollow-stem auger and air rotary drilling techniques. Laboratory services included testing for moisture content, Atterberg Limits Tests, grain size analysis, hydrometer, one-dimensional swell or collapse potential, sulfate and chloride test, unconfined compressive strength, moisture-density relationship and California bearing ratio. ECS provided a separate report to address each border wall segment.
Dates: 03.2024 - 06.2024
Relevance to City of Edinburg: This project reflects ECS' firsthand knowledge of Rio Grande Valley soil conditions, including the expansive clays and high-plasticity subgrades the City's Engineering Department encounters on its own infrastructure projects.

Laredo Border Patrol Checkpoint, Laredo, TX

Client: Villagomez Engineering Company; Jose Villagomez; 210.724.0816; jlvillagomez@villagomezengineering.com
Project Description: ECS completed the subsurface exploration, laboratory testing and geotechnical engineering analyses for the Laredo Checkpoint facility upgrade project for the US Customs and Border Protection. The primary focus of this project is to enhance the existing Laredo Checkpoint facility. Proposed improvements include upgrading and maintaining the on-site administration facility and widening existing concrete pavements at the off-ramps and on-ramps to IH-35. Additionally, the existing canopy system is planned to be extended to accommodate new traffic lanes, aligning with the existing construction. Further enhancements involve the creation of new site parking and a secure impound parking lot for improved operational efficiency. Our comprehensive report details the procedures and findings from our subsurface exploration and laboratory testing initiatives. The report provides strategic recommendations for the development of foundations, earthworks and parking/drive areas tailored to the proposed upgrades. Key elements of the report include:

- A concise overview and description of our field and laboratory test procedures and the outcomes
- Analyses of surface features and site conditions to confirm compatibility with proposed improvements
- Investigations into area and site-specific geologic conditions
- Examination of subsurface soil stratigraphy with relevant physical properties highlighted in our soil exploration boring logs
- Recommendations for site preparation, grading and drainage to enhance the site's utility and sustainability
- Guidelines for the design and construction of foundations and structural pavements to support the new developments effectively

Dates: 09.2021 - 12.2021
Relevance to City of Edinburg: This South Texas public facility project combined foundation analysis, pavement design and site preparation recommendations, closely mirroring the building and infrastructure project types the City of Edinburg's Engineering Department typically assigns.

ECS was cooperative in every way. On every occasion, no matter the short notice, ECS made every effort to accommodate the situation and make a technician available...In my lifetime, I have worked with hundreds of labs and never experienced the desire to make things happen as ECS displayed.

- Stephyn Holland
City of Austin

1. Transmittal letter

City of Edinburg
Lorena Fuentes, Finance Manager
415 W. University Drive, Edinburg, TX 78539

Re: Statement of Qualifications to City of Edinburg for Geotechnical Engineering and Construction Materials Testing Services - RFQ 2026-4

Dear Lorena Fuentes,
HVJ South Central Texas – M&J, Inc. (HVJ) is pleased to submit our Statement of Qualifications to the City of Edinburg for **geotechnical engineering, construction materials testing Services (CMT) and environmental engineering services.** HVJ has extensive experience serving municipal projects in South and Central Texas and in-depth understanding of the South Texas region. HVJ, a certified SBE/DBE/MBE firm, is registered by the Texas Board of Professional Engineers (Registration No. F-18091) with three offices (Austin, San Antonio, and Weslaco) and two additional project offices/lab (Pharr and Corpus Christi). HVJ's Austin and San Antonio laboratories are accredited by the American Association of State Highway and Transportation Officials (AASHTO) in the fields of soils, aggregates and concrete. Our San Antonio lab is also AASHTO Accredited for asphalt testing. Both facilities are accredited by TxDOT for various soils, aggregates, asphalt and concrete test procedures. HVJ's team can quickly mobilize for geotechnical and construction materials testing needs. We have also added to our team **Baer Engineering and Environmental Consulting, Inc. (Baer Engineering)**, woman-owned and minority-owned small business with more than 33 years of experience providing environmental consulting, permitting, and regulatory compliance services for public infrastructure projects throughout Texas.
Benefits of our Team:

- We have conducted CMT on over 2000 infrastructure projects and 1200 geotechnical projects in South Central Texas and have in-depth understanding of local conditions. These services are for streets and roadways, drainage and stormwater systems, water/wastewater utilities, municipal facilities, parks, and other public works-related infrastructure projects.
- HVJ has more than 40 years of complying with the regulations, standards and specifications of federal, state and local authorities during project phases.
- Our personnel are TxDOT Pre-Certified in drilling, lab testing, foundation studies, soils, concrete, asphalt, and plant inspections and testing.
- HVJ employs lean and efficient engineering and management practices.
- **Customer Focused:** As part of our corporate culture, we bring elevated and satisfactory experiences to our clients on how we deliver our services. This commitment shows up in our professional *standard of care* applied to every infrastructure project we undertake. This means **being consistent in meeting the needs of our clients *- on their terms - within their deadlines - providing thoroughly reliable data* – all of which serves as the foundation for building sound design**.

We look forward to partnering with the City of Edinburg and the City's Engineering and Public Works Departments and other departments as required, to support projects in various stages of development and achieve outstanding results.

Sincerely,

Syed Jafar, PE, Executive Vice President, HVJ South Central Texas – M&J, Inc.
4201 Freidrich Ln #110, Austin, TX 78744 • 210.372.8596 • (832) 282-1551 (mobile)• sjafar@hvj.com
Local office address: 1320 Ricardo Street, Suite C, Weslaco, TX 78596

Firm's Experience and History

Qualifications

- ✓ Over 24 years of experience in South/Central Texas
- ✓ Completed 2,000+ projects in South/Central Texas
- ✓ Ability to respond on short notice
- ✓ Experienced Geotechnical & CMT Engineers

HVJ South Central Texas – M&J, Inc. (HVJ) provides a range of geotechnical and construction materials engineering services. HVJ, a certified SBE/DBE/MBE firm is registered by the Texas Board of Professional Engineers (Registration No. F-18091) with three (3) offices (Austin, San Antonio and Weslaco) and two (2) additional project offices/lab (Pharr and Corpus Christi). Our Austin and San Antonio labs have been inspected and accredited by AASHTO/CCRL and TxDOT and is fully accredited for soils, aggregates, concrete, and asphalt testing.

History of Firm| HVJ South Central Texas – M&J, Inc. (HVJ) started its operations in South Central Texas in October of 2016 by acquiring the assets of HVJ Associates Inc. (HVJ-A) in Austin Texas. HVJ-A was founded in Houston in 1985 and started its Austin operations in 2001. Both Principals of HVJ South Central, Mr. Muhammad Mustafa, PE and Syed Jafar, PE are former employees of HVJ-A. HVJ has been working in the Valley on the transportation project since its inception. We are currently providing materials testing services on IH-2/IH-69 interchange which is one of the biggest highway project in the region. Additional active assignments in the region include FM1925, SH4 and SH107. Some of the projects in South Texas where HVJ provided geotechnical engineering and/or materials testing services include:

- TxDOT CEI for SH 107 from FM 493 to US 281 (CMT)
- TxDOT CEI for FM 1925 at East of FM 907 (Alamo Rd) to East of Sharp Rd. (CMT)
- TxDOT OVTI Services for IH-2/IH-69C- Pharr District (CMT)
- TxDOT Pharr District Materials Testing Contract (CMT)
- TxDOT CEI for Traffic Signals in S Texas (CMT)
- TxDOT PS&E for Bridge Replacements in Pharr Texas (GEO)
- TxDOT SPE for 20-mile US281 Corridor for Pharr District (GEO)
- TxDOT Pharr District US 281, Hidalgo and Brooks Counties, WA #1 (GEO)
- TxDOT Pharr District US 281 in Brooks County (GEO)

For past 24 years, HVJ has conducted hundreds of geotechnical and materials testing projects for cities, municipalities, and local governments throughout South-Central Texas. We have worked for several cities, many the same size as City of Edinburg. We have provided services for San Marcos, New Braunfels, Seguin, Round Rock, Leander, Cedar Park, Taylor, Pflugerville, Buda, Kyle and the local counties of Bexar, Comal, Williamson, Hays and Travis, in addition to projects for San Antonio and Austin.

Focused on providing quality driven and cost-effective engineering and testing solutions in the infrastructure market, HVJ operations started with 14 employees in October of 2016. However, as a result of our commitment to high quality and client driven service, firm has organically grown every year and currently employs 65 engineers, geologist, technicians, and administrative staff.

Professional Engineers	**12**
Engineers in Training	**13**
Certified Technicians	**30**
Administrative Staff	**10**
TOTAL	**65**

HVJ provides the following professional engineering services:

Geotechnical

Geotechnical Engineering including site exploration and drilling, soil laboratory testing, high-rise building foundation, school buildings, earth retaining structures, slope failures, tunnels, dams, bridges, overpasses, ports, airports, dredging, utilities, retention and detention ponds, pump and lift stations, intake structures, water and wastewater treatment plants, parks and pavement design recommendations.

Material Testing

Construction Materials Engineering including construction materials testing, construction management and inspection services, construction management assistance, quality assurance and quality control functions and failure studies

Civil/Pavement

Civil/Pavement Engineering services include pavement design/ evaluation/ rehabilitation/reconstruction, permanent and temporary construction phase traffic control plans (TCP), construction cost estimating and erosion control.

Geotechnical Engineering and Materials Testing Capabilities

Geotechnical Engineering

- Foundation Design
- Retaining Walls
- Slope Stability
- Slope Failure Repair
- Settlement Analysis/Design
- Shrink-Swell Soils
- Fault Studies
- Pavement Design
- Pavement Rehabilitation
- Subgrade Stabilization

Construction Materials Testing

- Fill Suitability/ Compaction Control
- Portland Cement Concrete Testing
- Asphaltic Concrete Testing
- Aggregate Testing
- Mix Design Review
- In Place Concrete Testing
- Shrink-Swell Mix Design
- Subgrade Stabilization Mix Design
- Deep Foundation Observation
- Shallow Foundations Observation
- Other Building Material Testing

Subcontractor

HVJ will be partnering with Baer Engineering & Environmental Consulting, Inc. (Baer Engineering) for Environmental Services including environmental assessment, sampling, permitting, and compliance services. Baer Engineering provides comprehensive environmental assessment, sampling, permitting, and compliance services to support infrastructure, transportation, utility, water and wastewater, land development, and public-sector projects throughout Texas. Their multidisciplinary team assists clients from early project planning through construction and project closeout by identifying environmental constraints, evaluating regulatory requirements, obtaining necessary permits and approvals, and supporting ongoing compliance obligations. Their experience also includes work in streams, major Texas Rivers, transportation corridors throughout Texas, hike and bike trails, and in wetlands and riparian zones throughout. Their team is experienced in developing erosion and sedimentation control plans (ESCs) and tree protection plans, preparing and certifying Stormwater Pollution Prevention Plans (SWPPP), Spill Prevention Control and Countermeasure plans, and designing planting and restoration plans. We also have experience with construction-phase services including monitoring for SWPPP compliance, archeological resources, ESC compliance, air monitoring, and water and soil sampling and testing.

Representative Experience (Last Five Years)

TxDOT Pharr District US 281, Hidalgo and Brooks Counties

HVJ conducted a geotechnical investigation along US Highway 281 in Brooks and Hidalgo Counties for TxDOT. The project involved upgrading the highway to interstate standards, including six overpasses, two wildlife crossings, and retaining walls to accommodate grade changes. The subsurface exploration included 79 borings: bridge borings were drilled up to 80 feet deep and retaining wall borings up to 35 feet. Cone Penetrometer Tests (CPTs) were conducted at 5-foot intervals to assess in-situ soil strength. Samples were collected using falling-weight and undisturbed methods, then tested in the lab to determine soil and rock properties. Field observations and CPT data, along with lab results, were used to calculate skin friction and end bearing for the recommended drilled pier foundations. HVJ also collected geotechnical samples at both ends of each of the three proposed bridge structures, totaling six (6) [LA1.1]bridge borings for schematic design. Under a supplemental agreement, an additional 10 bridge borings (to 80 feet) were completed for two overpasses, two wildlife crossings, and one stream crossing, along with 46 retaining wall (RW) borings (to 25 feet) for 22 proposed wall covers 16.7 miles of US 281, from 0.906 miles south of FM 3066 to 3.158 miles north of FM 755. CSJ 0255-05-043 continues from 3.158 miles north of FM 755 to 0.682 miles north of FM 755.

Role in Project | Geotechnical Engineering **Name of Client |** TxDOT Pharr District

TxDOT Pharr District GEC and OVTI for IH 2/IH 69C

HVJ is performing Owner Verification Testing and Inspection (OVTI) services during construction of the Pharr District for Interstate Highway (IH) 2/Interstate Highway (IH) 69C Interchange from 2nd Street to Fm 2557 (Steward Road) and from Nolana Loop to IH-2 CSH: 0039-17-1755 and CSJ: 0255-8-107 in Hidalgo County. The project will provide two lane direct connectors, reconfigure on and off ramps to optimize mobility, prioritize operational improvements to mainlanes, and remove Sugar Road/Polk Road Overpass. Scope of HVJ services include compliance and adherence of materials management and testing program with design build QAP and preparing a Quarterly materials report for federal approval which is a key to success of DB build projects. For this project, HVJ provided owners oversight on testing performed by the IQF by performing level 1, II and II analysis on construction materials incorporated into the project. HVJ also maintained and tracked all noncompliance and their resolutions for the project.

Role in Project | CMT **Name of Client Owner |** TxDOT Pharr District

TXDOT PS&E for Bridge Replacements in Pharr Texas

HVJ Associates, Inc. was retained by PGAL to provide engineering services for the replacement of the bridge on North Browne Road near Houston Road in Brownsville, Cameron County, Texas. HVJ Associates, Inc. assigned HVJ South Central Texas – M&J, Inc. to conduct field investigation, laboratory testing, and engineering analysis for the project. Our team evaluated surface and subsurface conditions at the bridge location and provided foundation design recommendations. We drilled two borings, each 100 feet deep, on opposite shoulders of the existing bridge to establish subsurface stratigraphy and collect samples. We performed laboratory tests on selected soil samples to determine physical and engineering properties. Our engineers prepared design and construction recommendations to support foundation design. Our report included descriptions of field exploration, lab testing, subsurface conditions, bridge design considerations, construction guidance, and project limitations. All findings were documented clearly and aligned with the project's scope. We delivered the report to support informed decision-making for the bridge replacement.

Role in Project | Geotechnical Engineering **Name of Client |** TxDOT Pharr District

TxDOT Pharr District Materials Testing Contract

HVJ is providing sampling, testing, inspection work, and related services for Asphaltic, Soils/Flex Base, and Concrete construction for the Pharr District for various highways and locations. As part of the TxDOT Quality Assurance Plan for the Design Bid Build projects, HVJ is responsible for conducting asphalt quality assurance testing for various ongoing projects These tests include sieve analysis, asphalt content, stability, molding and compaction. One of the challenges associated with this project is the uncertainty associated with the contractor schedule. Our team works closely with the District personnel and accommodates and adjust schedule even on short notices and often during off peak hours to minimize cancellations and cost for TxDOT. Another noteworthy feature of the project is the quick dissemination of test results to TxDOT. Our testers are proficient with the TxDOT QC/QA forms and share test results with the project in real time.

Role in Project | CMT **Name of Client |** TxDOT Pharr District

Goliad Road - CMT

City of San Antonio Professional Services Agreement for On-Call Geotechnical & CMT

In 2018, HVJ was selected to provide on-call Geotechnical and Materials Testing services for infrastructure projects undertaken by the City of San Antonio Transportation and Capital Improvement (TCI) Department now known as Public Works Department. HVJ was able to establish trust with the City of San Antonio staff and as a result, HVJ has been assigned over 500 Work Order projects in past 4 years. In a most recent performance review survey conducted by City staff, HVJ was ranked the highest of all the firms providing testing services to the City.

ZerNona Community Center - CMT

HVJ's primary role as a QA lab is providing timely, accurate and reliable testing and reporting to the City of San Antonio. The Scope of testing includes compaction testing for base/subgrade, concrete testing for paving, sidewalks and driveways, asphalt testing for pavements. HVJ provides Geotechnical Engineering services for several projects under this contract which include foundation and pavement recommendations. Some recent task orders include TO-8005 Southwick (Marshwood - Fairhill St.) (CMT); TO-8006 Scales (Greenhaven - IH-10 W Access Rd) (CMT); TO-8007 Stratford Ct (Presa St - Dead End (CMT); TO-8008 W Agarita from IH 10 Access Rd to Dead End) (CMT); COSA Full Depth Reclamation 4 Streets (GEO); and COSA Full Depth Reclamation- 3 Streets (GEO).

Role in Project | On call GEO and CMT Services **Name of Client |** City of San Antonio

City of Austin – Multi-year Rotation List Contracts for Construction Materials Testing and Geotechnical

Over a period of 22 years, HVJ has performed the following construction materials testing for variety of infrastructure projects: drilled pier inspection, rebar inspection, concrete sampling and testing for compressive and flexural strength, mortar cubes, in-place densities, proctors, lime series, lime compressive strength, in-place lime gradations, Texas triaxials, proofrolling operations, non-destructive concrete testing, nondestructive steel testing, and flexible membrane liner testing services. HVJ has conducted geotechnical investigations and managed the geotechnical services of subconsultants including drillers, analytical testing agencies, and tunnel designers for the City of Austin for multiple assignments stemming from these Rotation Lists issued by the City. Geotechnical services provided include report recommendations for pipe bedding, pipe backfill, trench safety, bore and jack design parameters, foundations for associated pipe structures, retaining wall design, bridge design, and pavement design.

Role in Project | On call CMT and geotechnical Services **Name of Client Owner |** City of Austin

Approach - Geotechnical:

A. Slab on Grade Foundation Evaluation and Recommendation

Slab on Grade Foundation is typically used to support lightly loaded structure. HVJ Engineers will coordinate with the Project Structural Engineer to evaluate the structural loading, geology formation and evaluate the feasibility of using a slab on grade foundations for the proposed structure. HVJ will evaluate Potential Vertical Rise (PVR) performing Atterberg Limits and swell tests when expansive soil is present at the site. The geological formation of Edinburg shows presence of sandy soils and soft clay. If these materials are encountered, then bearing capacity and settlement criteria will be analyzed. After evaluation of PVR, bearing capacity and settlement criteria, slab on grade foundation design parameters will be generated using BRAB (Building Research Board No. 33 guideline), Wire Reinforcement Institute, Inc. (WRI-August 1981) or Post Tension Institute (PTI) guidelines. Excavation of existing soil and replacement with select fill will be recommended as necessary to minimize heave and settlement.

B. Special Construction Details for Removal of Ground or Surface Water, Existence of Expansive Clay, Hydrostatic Pressure, etc.

The depth of groundwater will be measured during drilling geotechnical borings. Where groundwater can be problematic during construction, piezometers will be installed and recharge tests will be performed to determine amount of groundwater that may encounter during drilling.

HVJ will provide recommendations to properly grade the site to enhance drainage of precipitation away from the excavation. It is important to note that “bathtubs” conditions shall not be allowed to happen within trenches and other excavation in the project. Surface water, underground water and precipitation that enters and ponds in the excavation(s) will need to be removed immediately using a pump and sump method or equivalent. Groundwater or surface water can impose hydrostatic pressure and induce heave in expansive soil conditions. Control of surface water or groundwater should be accomplished in a manner that will preserve the strength of the foundation soils, will not cause instability of the excavation; and will not result in damage to existing structures. The prolonged water head (behind the wall) could conceivably result in a certain amount of seepage through small shrinkage or settlement cracks within the concrete walls. If foundations are not surrounded by pavement or impermeable cover, HVJ will recommend clay cap surrounding the foundation and installation of French Drain or groundwater interceptor as needed.

C. Site Work

HVJ will perform geotechnical borings and provided recommendations for site work such as site pavement, curb/gutter, recommendations for trench backfill and compaction for utilities. For on site pavement, HVJ will perform Dynamic Cone Penetration (DCP) and California Bearing Ratio (CBR) testing; and design pavement for the adequate traffic. Cement or lime stabilization will be recommended when necessary. Compaction testing will be performed on utility trench backfill based on the Lab Density test results on collected sample.

D. Retention Systems

Earth retaining walls are often required in geotechnical projects. For retaining walls, HVJ will perform geotechnical borings to determine external stability and global stability. In addition, settlement and bearing capacities will be analyzed to develop recommendations.

E. Field Exploration

After receiving an assignment, HVJ will perform desktop review and site visits. HVJ will evaluate if borings are located within environmentally sensitive (wetland) areas, private properties (ROE required), uneven terrain (ATV rig required), wooded area (site clearing required), and/or archaeological sites. Based on the site visit,

appropriate drilling rig will be employe. HVJ will call Texas 811 and review available utility maps prior to Field exploration will be performed by experienced geologists/engineers who will keep detailed records of the drilling method, samples or cores taken, pavement section, groundwater, subsurface material, location, and other pertinent information. If needed, HVJ will install piezometers for long term groundwater monitoring and perform advanced in-situ testing such as Cone Penetration Test, Pressuremeter Test, Vane Shear Test.

F. Laboratory Testing

Laboratory testing will be performed according to ASTM standards, where applicable, or with other industry's accepted procedures. The laboratory testing program is intended to provide confirmation of the field visual soil classifications and establish properties of the subsurface materials required for design.

After completion of field work, HVJ will coordinate laboratory testing program appropriate for the project. The laboratory testing may include, but not limited to, moisture contents, Atterberg Limits, % passing # 200 sieve, gradation analysis, unconfined compressive strength, triaxial tests, Texas triaxial tests, unit weight, direct shear, consolidation tests, lime/cement series, sulfates, and chlorides as needed for the project. Once all the tests have been conducted, proper QA/QC procedures are employed to ensure the robustness of the laboratory test results.

G. Analysis and Reports

Upon completion of the laboratory testing, HVJ will develop the boring logs and perform engineering analysis to provide geotechnical related design parameters and construction considerations. Typically, following items will be included in the report as applicable for the project

- Spread and continuous footings, mat foundation, piles, drilled and under-reamed piers,
- Slab on grade foundation recommendations,
- The shrink/swell movement and settlement analysis for tank/slab on grade foundation,
- PVR analysis for expansive soils and determine removal and replacement depths
- Slope and retaining wall stability analysis
- Trench backfill and trenchless installation recommendations,
- Special considerations for construction for dewatering and excavation, and
- Pavement design

H. Other Geotechnical Evaluation

HVJ can assist with geotechnical evaluation for specialty projects like tunnel/trenchless installation, Non Destructive testing for pavement and subsurface conditions, Cone Penetration/Pressuremeter tests for soft soil conditions and forensic investigations for foundation movement, retaining wall failure etc.

In order to ensure timely completion with regards to schedule and/or for schedule recovery, HVJ has the capability to utilize multiple drill rigs, expedite laboratory test results, and provide preliminary interim recommendations to the Design Team to allow them to keep moving forward, while the Final Reports are being prepared. At any time during design or construction of the project, HVJ Engineers would be available to meet with the Design Team, City and Other Agencies to answer questions, provide input, information, and interim recommendations.

I. Environmental Reports

Baer Engineering environmental assessment services include Environmental Records Reviews (ERRs), National Environmental Protection Act (NEPA) documentation, Hazmat Initial Site Assessments (ISAs), Phase I and II ESAs,

and hazardous materials assessments. Their services also include biological evaluations, threatened and endangered species assessments, WOTUS delineations, cultural resource services and surveys, geologic and hydrogeologic evaluations, noise and air quality analyses, and other technical studies used to inform project planning and environmental decision-making to ensure a project is in compliance.

Baer Engineering routinely conducts well monitoring sampling, wastewater and groundwater monitoring and sampling, soil sampling and remediation of contaminated soils, geophysical surveys, and geologic assessments. Their staff has years of experience working with the Texas Commission on Environmental Quality (TCEQ), the Texas Water Development Board (TWDB), FEMA, and local municipalities to ensure regulatory compliance for every project. Their staff also has design and construction-phase experience working on water and wastewater pipeline and treatment plants for municipal projects. Their sampling and monitoring services also include methane, arsenic, asbestos, lead-based paint, mold, and indoor air quality.

Baer Engineering has managed several long-term site remediation projects to remove lead-contaminated soils at former shooting ranges. For these projects, Their team worked with landowners and the TCEQ through the Voluntary Cleanup Program (VCP) to remediate the sites in accordance with TCEQ Texas Risk Reduction Program residential standards. We collected soil samples to be tested for analytes including Volatile Organic Compounds, Polycyclic Aromatic Hydrocarbons, antimony, the Resource Conservation and Recovery Act eight metals, and XRF screening. Samples were collected from surface soils, on-site ponds, and installed monitoring wells. Their team prepared the VCP application, the remediation specification documents, an Affected Property Assessment Report, and an Ecological Risk Assessment for these projects. Baer Engineering staff conducted daily monitoring during remedial activities.

Their permitting team has more than 30 years of experience securing environmental approvals and coordinating with local, state, and federal agencies, including TxDOT, TCEQ, USACE, USFWS, Housing and Urban Development (HUD), U.S. Department of Agriculture (USDA), and municipal jurisdictions throughout Texas. We prepare permit applications, technical reports, and supporting documentation for NEPA compliance, Section 404 permitting, Nationwide Permits, Section 106 coordination, stormwater permitting, TCEQ Water Pollution Abatement Plans, water and wastewater projects, and other environmental regulatory requirements. Their staff regularly coordinate with regulatory agencies to facilitate project delivery in order to minimize schedule and permitting risks.

For Ph I ESAs the following tasks are typically performed:

- Environmental regulatory agency summary records are obtained for regulated environmental sites near the project. Following initial review, additional information is obtained through file reviews, field observations, and interviews
- Available city directories, historical maps, aerial photographs, a chain-of-title and Sanborn fire insurance maps are obtained and reviewed to determine if current or prior land owners/occupants may have engaged in activities on adjacent properties that may have been an environmental concern
- Available geologic literature is reviewed to characterize the geologic, physiographic, and hydrogeologic setting to determine potential release pathways
- A site reconnaissance is performed with knowledgeable party interviews
- Environmental and historical records are verified
- Current land-use activities and potential areas of environmental concern based on current conditions are determined
- A report is prepared summarizing our findings, conclusions and recommendations.

Approach - Construction Materials Testing

A. Plans Review

A copy of the construction plans, specifications and the construction schedule for the project will be requested and reviewed prior to start of construction. Based on our experience and required specified testing, a detailed testing plan and budget will be prepared in accordance with the project specifications. This plan will serve as a road map for implementation of required testing and inspection services during the construction phase and will also serve as a tracking tool for compliance of projects specifications. This plan will be shared with the construction management team to ensure that all key stakeholders are aligned with the testing and inspection requirements and that everyone clearly understands the required testing and compliance for successful project completion.

B. Earthwork Services

Earthwork observation and inspection services may include but not limited site clearing, removal of vegetation and deleterious materials, proof rolling, chemical stabilization, depth checks, compaction testing, foundation inspections. HVJ certified testers routinely provide these services and when faced with site challenges, our geotechnical engineers provide guidance to our testers on corrective actions.

C. Density Testing

Density testing is one of the most important and critical tests performed onsite to confirm compliance and ensure long term durability and performance of the structure. All HVJ testers are TxAPA AB-102 certified and licensed to operate a Nuclear Gauge. All testers are also trained specifically to identify and classify onsite soils for appropriate application of laboratory Proctors. All tests are performed in accordance with applicable ASTM/TxDOT procedures.

D. Post Construction Services

HVJ utilizes an industry leading laboratory information management system called SpectraQest for scheduling, documenting, reporting and invoicing for all materials testing related activities. SpectraQest is designed to track construction materials testing projects from initiation through completion. The program records project data on testing requirements, field service request data, field test results, and lab test results, and then the system quickly creates accurate project reports and invoices based on the data. Once reviewed and approved by the materials manager, reports are posted online at Construction Hive for easy viewing access or can be emailed directly to the client's representative.

Notifying Owner of Failed Test Results

As with all construction projects, time is of the essence, and sometimes reports are needed immediately. We will provide our reports electronically via email or Construction Hive and followed up with originals by mail. HVJ uploads reports to **Construction Hive**, a cloud based platform that enables the distribution and analysis of information via a centralized repository of documents and data (testing and inspection) to make analytical reporting and integration readily accessible. If any item fails to meet the requirements of the contract documents, HVJ's Project Manager will first notify the contractor onsite. If contractor does not or cannot remedy the deficiency, the CMT Project Manager will notify the owner before the completion of that phase of work. HVJ will submit interim reports and the final report of inspections will certify that all of the required inspections and tests have been completed and that all identified deficiencies have been corrected, resolved, or remain unresolved.

Suggesting Remedial Recommendations

In order to keep the project on schedule and avoid unnecessary delays, our approach is to try to resolve non-compliant issues in the field. Our testers are skilled and experienced to provide onsite recommendations that can facilitate acceptance of construction materials. For example, if subgrade densities are not passing, our testers can assess if problem resides in the material or equipment and can suggest accordingly to bring the material in compliance. However, if the problem persists and there are non-compliance issues at the conclusion of testing, the testing project manager is immediately notified who then notifies the project team within 24 hours with remedial recommendations if possible. The recommendations will depend on the nature of non-compliance. It may be as simple as retesting the material on the next scheduled visit or may involve additional investigation and testing.

Deliverable: During the substantial completion phase of the project, a Final Report summarizing the compliance status of construction materials and pertinent inspection items within materials testing scope will be issued to the project team for project close out.

Quality Assurance

Our Quality Assurance Program is centered on ISO requirements for testing laboratories (ISO/IEC17025) and includes provisions for employee technical competency evaluation and equipment calibration at routine intervals. HVJ also has provisions for review of all deliverables that include independent internal review of technical documents prior to submittal. Part of the independent review is to check that complete, accurate, and quality work has been provided as assured in the scope of work. Our quality system is internally audited on an annual basis and externally audited on a bi-annual basis to ensure that our quality policy complies with current ISO requirements and that our system execution complies with our quality policy.

E. Foundation Inspection Services

HVJ utilizes senior inspectors and testers to inspect foundation system and verify project compliance. Our inspectors/testers are well versed to read and interpret plans and conduct onsite foundation inspections such as shallow footings, deep foundations, building pad inspections and testing.

F. Concrete Services

All field concrete is provided by ACI Field 1 certified tech and laboratory testing by ACI strength tech. All concrete testing field or lab follows strict adherence with applicable ASTM procedures. Only calibrated equipment is used to perform concrete testing. If needed, HVJ also has the capability to set up onsite concrete lab to cure and test concrete onsite.

G. Structural Steel Services

HVJ will conduct structures/ steel inspection using CWI certified inspector. Primary visual steel inspection will be performed on all structural steel members. Inspection of structural bolt connection and welding inspection will be performed in conformance with AWS D1.1 (2010). UT tests will be performed on full penetration welds and moment connections. Any flaw found in structural member connection will be analyzed by an NTD level III Technician and results will be reported.

H. Other Laboratory Construction Testing for Infrastructure and/or Building Project

Other tests that HVJ routinely performs include field and lab asphalt testing; concrete/asphalt coring; mix design reviews, post tension observations, pull test, soil nail tests, masonry testing; fireproofing; floor flatness and consultations.

Firm's Uniqueness

Strategic Advantages

- Integrated Field & Lab Services – Seamless coordination reduces delays and improves communication
- Rapid Response Times – Quick mobilization and efficient turnaround of test results
- Experienced Personnel – Certified technicians with extensive municipal project experience
- Quality Assurance – Strict adherence to industry standards and internal QA/QC procedures

Our Four Point Delivery Program and PMP Process

HVJ's strategy to manage any assigned projects and meet all interim and final milestones through our Four-Point Project Delivery Program.

HVJ's approach to providing services has been standardized and documented in our firm's Operation Manual with the intent that each client receives the same consistent, high-quality experience.

Our Project Management Plans (PMP) is the primary document guiding quality delivery of all project products. During project planning, our leadership will develop an effective PMP that complies with City of Edinburg PMP. Key to the successful implementation of our PMP is the establishment of auditable project controls. Key Control Elements of our PMP are as follows:

- **Planning**: Hours are planned, and usage monitored, per deliverable, per discipline, to shape design success.
- **Performance Management and Reporting**: Discussion between the Project Delivery Team (PDT) occurs regularly with formal reporting to City of Edinburg and within the PDT per the PMP.
- **Risk Management:** The PDT and City of Edinburg representatives collaborate to identify, prioritize, and adopt counter measures to mitigate the effects of discovering "unknowns" during design.
- **Schedule Control**: Project Managers continuously evaluate and adjust workloads to avoid schedule variances and work with City of Edinburg to make their project management easier.
- **Change Control**: Modifications are reviewed and coordinated with the PDT to understand what City of Edinburg needs and deliver it, with quality, in a timely fashion.
- **Resource Management:** Resources and tasks for multiple simultaneous projects are managed with a variety of internal tools and through the development and sustainment of the "Insight," our PDT-shared, common operational picture.

In addition to above, another key document that serves as the backbone of materials testing services is a customized **Quality Assurance Plan (QAP)** developed for each project. This document includes minimum requirements for personnel certification, equipment, calibration records, frequency of testing, acceptance criteria, communication protocol, report distribution and safety requirements.

What sets us apart:

Commitment to Quality! | We are committed to delivering quality deliverables. This means maintaining a track record of quality deliverables so that our clients can have confidence in results as well as trust in doing repeat

business. We are consistent in meeting the needs of our clients - on their terms - within their deadlines - providing thoroughly reliable data – all of which serves as the foundation for sound design. Our Project Managers are trained in our quality procedures and are ultimately responsible for strict adherence to their implementation.

Cost Effectiveness | HVJ employs lean and efficient engineering and management practices so we can deliver cost-effective and safe solutions to our clients for their project needs.

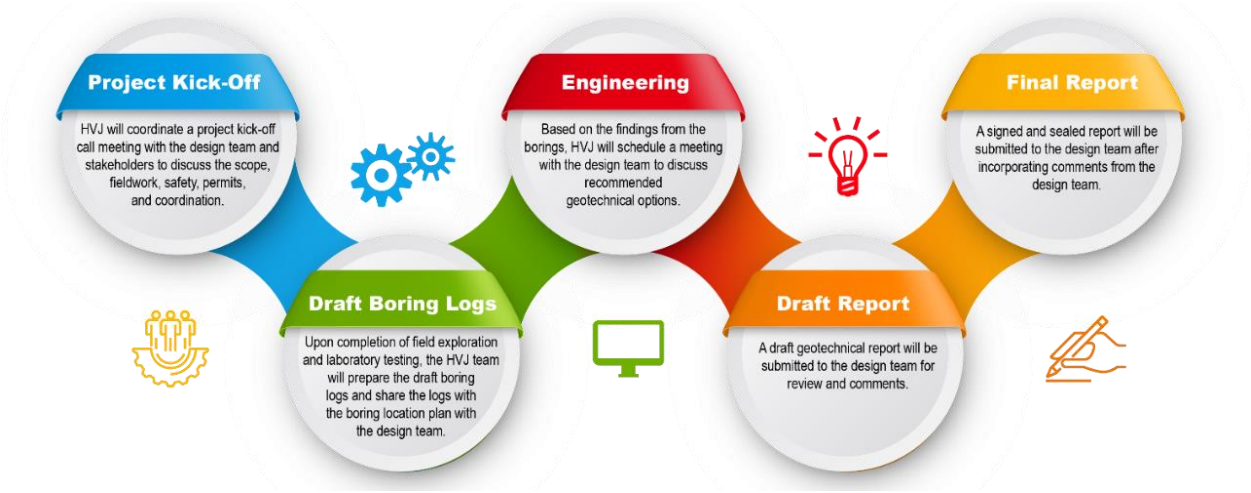
Responsive Culture | We have current municipal contracts for several long-term "on-call" projects for Counties and Cities in South-Central Texas. We have the resources, structure, systems and processes to successfully manage on-call, IDIQ type contracts and mobilize quickly to provide quality services. We are available to provide emergency response services, as required, by the City. We are able to mobilize quickly to provide resources and professionals as needed.

Unique or Specialized Processes

HVJ utilizes SpectraQest software for materials testing service requests. The program documents technician assignments for each service request and produces work orders with detailed descriptions of the services required at a project site. Included with the work order is the background information required to perform those services such as relevant mix designs, proctor values, testing frequencies, and other relevant specification data. The assigned technician uses the work order to record and document all field activities. All documentation recorded in the field is then entered into the SpectraQest system for use in generating project reports.

Failed Test Tracking and Corrective Action Procedures

HVJ implements a structured and proactive process for the identification, reporting, and resolution of failed test results to ensure strict compliance with project specifications and Owner requirements. Our quality management procedures are designed to meet or exceed contractual obligations, including 24-hour notification requirements.

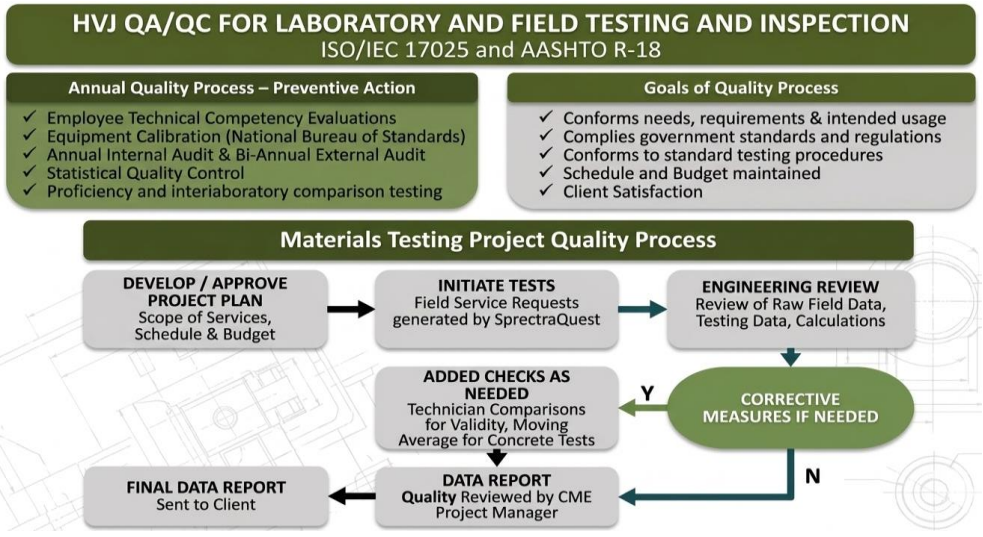


Certified field technicians immediately verify any non-conforming test result by reviewing procedures, equipment calibration, and calculations. Upon confirmation, the technician promptly notifies the onsite inspector and communicates the findings to the HVJ Project Management team. All test results are uploaded into our portal (Spectra Qest) which helps in real time monitoring of test results, providing immediate visibility to HVJ project management team. HVJ will implement randomness in sampling by avoiding patterned sampling. HVJ will follow best sampling practices. For Example, HVJ will vary sampling between stockpiling operations, completed stockpile, windrow, and the time-of-day sampling is performed for soils/flexible base and aggregates. will sample aggregates at the nearest point of incorporation into the work.

Critical Milestone for on Time Geotechnical Project Delivery

For geotechnical engineering services, we follow our Quality Assurance plan to ensure work is checked and verified at each phase of development. HVJ has a history of meeting project schedules on similar projects. HVJ, our clients, and the entities we serve achieve success through the coordinated efforts of many people. HVJ anticipates completing project scopes by reaching several critical milestones, as shown in the following table.

These milestones are strategically established throughout the project timeline and serve as a measure of progress and accomplishment. Through diligent project management and a commitment to excellence, HVJ is poised to demonstrate a systematic and practical approach, leading to the successful completion of the project objectives within the designated timeframe. Generally, HVJ completes a small to mid-size geotechnical project in 6-8 weeks.



Rigorous Quality, Schedule and Cost Control

HVJ has a rigorous quality, schedule and cost control program that is used on all projects. HVJ employs lean and efficient engineering and management practices so we can deliver cost-effective and safe solutions to our clients for their project needs. We understand that over-designed foundation or pavement recommendations provided by the Geotechnical Engineer can have substantial cost implications to a project. Thus, our engineers with their years of experience and familiarity with soil conditions in Central Texas consciously offer solutions that are cost effective, practical and safe for public usage. Our "Best Practices" for policy and operating standards include:

- "Management System" - which has sections covering operations, financial records, human resources, facilities, and branch management. In summary it provides the Project Manager with policies and procedures that must be followed.
- "A Quality System for Use During Execution of Laboratory and Field Testing and Inspection"

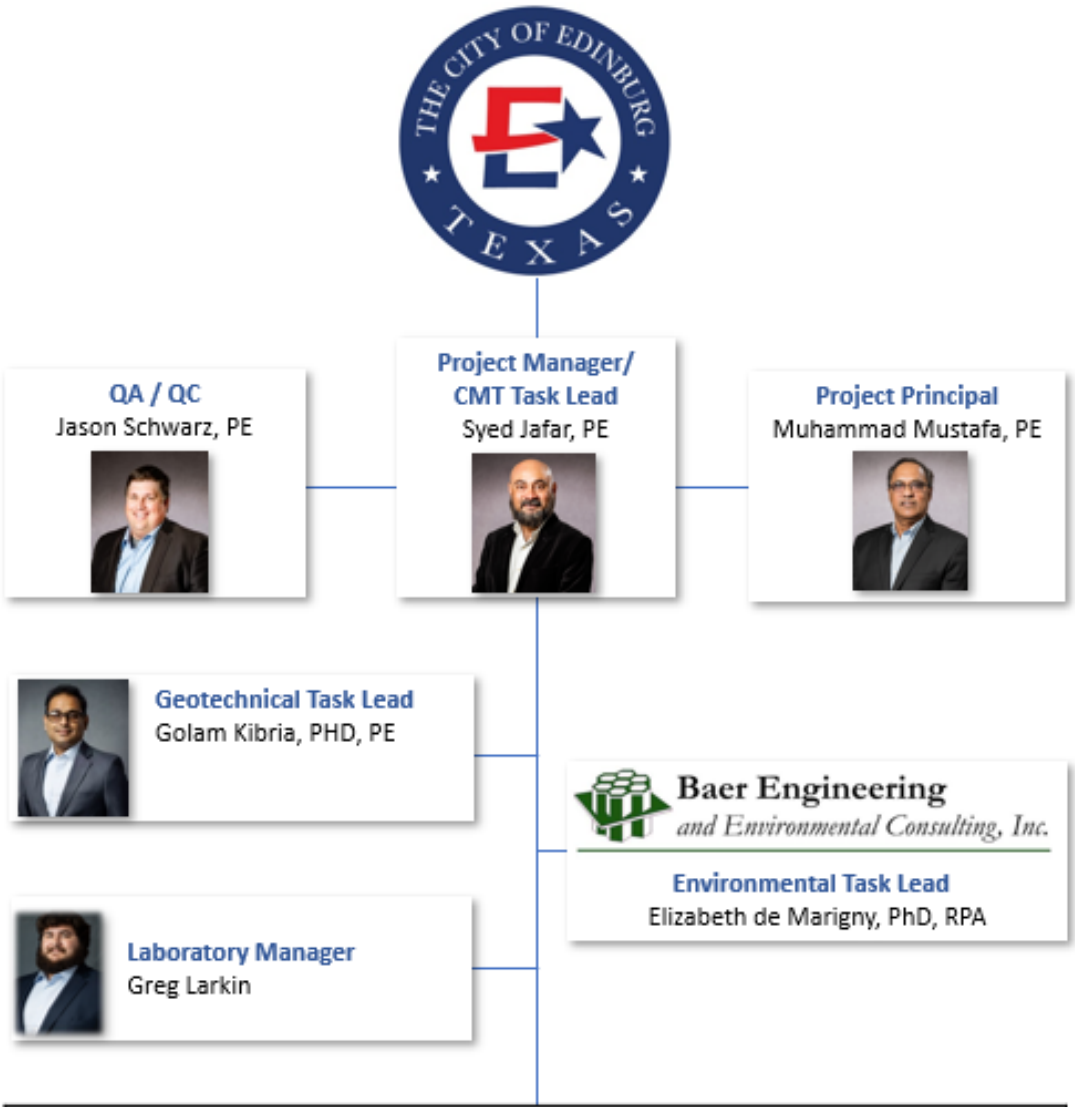
For materials testing services, HVJ personnel uses field software that has the specification pre-loaded into HVJ testing templates. This allows the field technicians to assess if the materials being tested passes or does not pass the specifications. Upon completion of the testing in the field and as soon as test results are submitted, these results are immediately available in our QEST database system for the project engineers to review in the office. Once reviewed by the project

engineers for completeness, accuracy and compliance, PMs are notified that the test reports are pending approval. PM then reviews the report for conformance, approves and publishes the report to the project team. This whole process is completed within 3 business days where failure notifications are provided within 24 hrs.

Office Location

Our office at Weslaco Office 1320 Ricardo Street, Suite C, Weslaco, TX 78596 will be the main office for this contract. This office will be supported by our office in San Antonio at 206 W Rhapsody Drive, San Antonio, TX 78216.

Part-Time Staffing Needs



HVJ can handle small to large on-call jobs. We are able to handle part-time, smaller jobs, as needed to help the City with their needs. To handle our overall workload, we have a deep bench of 37 certified technicians. HVJ can assign multiple technicians on as needed basis. Our turnaround time for test results is 3 days or less. Any non-compliances are notified immediately onsite and followed up with draft report or email within 24 hrs. HVJ field technicians are cross trained in lab testing and most of the material testing technicians are cross trained in geotechnical field investigations, which allows us to utilize all of our technicians in the event of a labor shortage. We also utilize our young engineers-in-training for field testing, which also provides them with invaluable field experience vital to their professional development. We always maintain a pool of potential candidates through our hiring system for immediate hiring needs. We continuously recruit talent and promote a culture of networking within the firm for future hires.

3. Team Member Qualifications and Experience

We have assembled a strong team led by our project Manager Syed Jafar, PE, who has over 25 years of experience with Geotechnical and materials testing projects. His management philosophy emphasizes clear deliverables, skilled staff deployment, schedule and budget adherence, and a proactive, solutions-oriented mindset. This approach is complemented by a rigorous quality assurance program, safety protocols, and strong stakeholder engagement. He has a proven record of building high-performing teams, streamlining data management, and ensuring quality assurance. Mr. Jafar regularly mentors HVJ's testing staff and develops project-specific tools to enhance reporting and compliance.

Muhammad Mustafa, PE | Project Principal

EDUCATION
MS, Civil Engineering, University of Houston

BS, Civil Engineering, University of Houston

LICENSE
Professional (Civil) Engineer TX – 73803

TxDOT PRECERTIFICATIONS
2.13.1; 12.1.1; 12.1.2; 12.2.1; 14.1.1; 14.3.1; 14.4.1; 14.5.1

Mr. Mustafa's professional career extends more than 30 years across a wide range of experience in Geotechnical Engineering, Construction Material Testing, and Environmental Site Assessment projects. He has coordinated and managed projects during various phases, conducted field investigations, lab testing, engineering analyses, and prepared final reports. He has also provided engineering services for various construction material testing projects both on project sites and in the laboratory where he helped implement our firm's laboratory quality management system. As a seasoned project manager, Mr. Mustafa has planned and executed numerous geotechnical investigations for utility projects, buildings, highways, treatment plants, parks and recreation facilities, streets and parking lots, and tunnel projects.

Relevant Project Experience

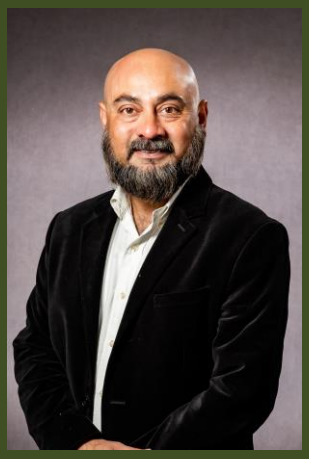
TxDOT Pharr CEI for SH364 in Mission, Hidalgo Counties, Mission, Texas | Role Project Principal for CMT for reconstruction of 2.2 miles of existing SH364 from SH495 to FM1924 into a 4-lane divided roadway.

TxDOT Pharr District US 281, Hidalgo and Brooks Counties, WA #1 | Role Project Principal for geotechnical investigation along US Highway 281 in Brooks and Hidalgo Counties for TxDOT. The project involved upgrading the highway to interstate standards, including six overpasses, two wildlife crossings, and retaining walls to accommodate grade changes.

TxDOT IH-35 from Shiloh Dr to US59/69W in Webb County, Laredo, Texas | Role: Project Principal. TxDOT replaced the IH 35 underpass at Union Pacific Railroad (UPRR) with IH 35, adding North and South bound frontage roads, turnarounds and connecting roadways in the Laredo District, roughly 1.3 miles in length.

City of Leander Benbrook Ranch Subdivision, Leander, Texas | Role Project Principal for residential streets at the Benbrook Ranch Subdivision were experiencing distress at various locations due to possible expansive soils below the pavement.

Williamson County RM 620 Widening and Reconstruction, Williamson County, Texas | Role: Project Principal for construction materials engineering and testing services.



City of Kyle - Miscellaneous Testing | Role: Project Principal for construction materials engineering and testing services.

City of Kyle CR 158 Elevated, Ground Storage Tanks and Pump Station | Role: Project Principal for construction materials engineering and testing services.

City of Taylor Roadway Rehabilitation 2022 | Role: Project Principal for construction materials engineering and testing services.

Syed Jafar, PE | Project Manager / CMT Task Lead

Education
BS, Civil Engineering, University of Houston

License
Professional (Civil) Engineer, Texas (98288)

Mr. Jafar's experience encompasses more than 25 years of service in the construction industry. He specializes in Construction Materials including Portland Cement Concrete, Soils, Aggregates and Asphalt and has spent the last 14 years providing consulting testing and inspection services on numerous transportation projects of large and small scale.

Relevant Project Experience

TxDOT Pharr CEI for SH364 in Mission, Hidalgo Counties, Mission, Texas | Role Project Supervisor for CMT for reconstruction of 2.2 miles of existing SH364 from SH495 to FM1924 into a 4-lane divided roadway.

TxDOT Pharr District GEC and OVTI for IH 2/IH 69C | Role: Lab Principal for Owner Verification Testing and Inspection (OVTI) services, HVJ provided owners oversight on testing performed by the IQF by performing level 1, II and II analysis on construction materials incorporated into the project. HVJ also maintained and tracked all noncompliance and their resolutions for the project

TxDOT Laredo CEI for SH359 #3301, Webb County, Texas | Role: Project Principal. On this project, TxDOT resurfaced the existing highway with a Type B, D and Superpave asphalt mix. Project length was almost 60 miles from SL20 to Duval County Line. Our client, HW Lochner was selected by TxDOT to provide the Construction Engineering and Inspection (CEI) services on a section of SH359 from SL20 to Duval County Line. HVJ provided continuous testing and inspection services for the project often assisting the CEI in resolving asphalt related issues.

TxDOT Laredo CEI for FM3338 in LRD with AIA | Role: Project Principal. Construction of the rehabilitation of existing road consisting of grading, base, structures, surfacing, signing and pavement markings (8.181 mi). HVJ provided services of testing and sampling.

City of Leander Street Rehabilitation 2021 CMT | Role: Project Manager for construction materials engineering and testing services.

City of Fredericksburg Llano Shared-Use Bridge Fredericksburg CMT | Role: Project Manager for construction materials engineering and testing services.

City of Leander Roadway Rehabilitation 2022 CMT | Role: Project Manager for construction materials engineering and testing services.

Travis County IDIQ - CMT| Role: Project Manager for construction materials engineering and testing services.

City of Kyle - Miscellaneous Testing | Role: Project Manager for construction materials engineering and testing services.

City of Leander Roadway Rehabilitation FY 2023 HVJ #15 | Role: Project Manager for construction materials engineering and testing services.

Travis County Travis Co. Springdale Road Sidewalk Project | Role: Project Manager for construction materials engineering and testing services.

Golam Kibria, PhD, PE | Geotechnical Task Lead

Education
Ph.D., Geotechnical Engineering, University of TX at Arlington, 2014

MS, Geotechnical Engineering, University of TX at Arlington, 2011

BS, Civil Engineering, Bangladesh University of Engineering and Technology, 2009

License
Professional (Civil) Engineer, Texas #122090

Mr. Kibria's experience encompasses more than 10 years working on various infrastructure projects and providing geotechnical engineering services. His vast project list includes roads, bridges, retaining walls, pavements, tunnels, pump stations, treatment plants, water and sewer mains, aviation facilities, dams, landfills, and vertical structures. He has led a team of geotechnical engineers and provided project management, coordination, scheduling, and task assignments for several projects.

Relevant Projects

TxDOT Laredo SL 480 from US 57 to US 277 North Intersection_1353 | Role: Project Supervisor. TxDOT is extending State Loop 480 from US 57 extending up the US 277 North Intersection in Maverick County. HVJ performed a geotechnical investigation for the roadway, retaining wall and bridge construction for the extension. The investigation called for drilling 12 borings for pavement, retaining wall, and bridge design for a total of 540 feet. The soil borings were tested in the lab and that data was used for performing global stability analysis, bearing capacity, sliding resistance, lateral earth pressures, and drainage and settlement analysis.

Cibolo Valley Drive, City of Cibolo, Texas. Served as a project engineer. Coordinated geotechnical drilling and laboratory testing, assisted Project Manager with the engineering analyses, and preparation of boring logs. Both flexible pavement recommendations were provided. Based on the subgrade condition, PVR mitigation, root barrier and pavement drainage redocumentations were provided.

Commerce St. Improvements, CoSA Bond 2017, San Antonio | Project Engineer for geotechnical drilling and laboratory testing, performed engineering analyses, and developed geotechnical engineering report. Both flexible and rigid pavement recommendations were provided. Based on the subgrade condition, and traffic loading; rigid pavement section was considered for the project.

North St. Mary Street Improvements, CoSA Bond 2017, San Antonio | Project Engineer for geotechnical drilling and laboratory testing, performed engineering analyses, and developed geotechnical engineering report. PVR analyses were performed due to the presence of expansive soils, and lime treated subgrade was recommended for the pavement.

Talley Road Phase I and II Improvements, San Antonio | Project Engineer for the design and construction of pavements, retaining walls and bridges. As a project manager and geotechnical engineer of record, Mr. Kibria was involved in the project management, budget and fee monitoring, engineering and reports. Flexible pavement recommendations were provided for the improvements.

Jason Schwarz, PE | QA/QC

EDUCATION
BS, Civil Engineering, The University of Texas at Austin

LICENSE
Professional (Civil) Engineer, TX – 99343

TxDOT PRECERTIFICATIONS
12.1.1; 12.1.2; 12.1.3; 12.2.1; 12.2.5; 14.1.1; 14.3.1; 14.5.1; 22.1.1; 22.3.1; 22.4.1

Mr. Schwarz has more than 20 years of experience and is a project manager for both geotechnical and CMT projects. He has experience performing soil analysis testing as part of geotechnical field investigations and laboratory analyses. He has detailed analyses from investigations into final reports used during design and construction phases for hundreds of projects. Mr. Schwarz has performed and is knowledgeable of conducting laboratory and field testing in accordance with ASTM, TxDOT, NICET, and AASHTO specifications. As the Geotechnical project manager on the following city projects, Mr. Schwarz was responsible for administration, supervision of technical activities, and other related management duties. He directed the project was responsible for committing the necessary resources to the project and ensuring that the HVJ Project Team was responsive to the client/owner. He performed quality review of all work and maintained project budgets.

Relevant Project Experience

TxDOT Pharr CEI for SH364 in Mission, Hidalgo Counties, Mission, Texas | Role: QA/QC for CMT for reconstruction of 2.2 miles of existing SH364 from SH495 to FM1924 into a 4 lane divided roadway.

TxDOT Pharr District GEC and OVTI for IH 2/IH 69C | Role: QA/QC for Owner Verification Testing and Inspection (OVTI) services, HVJ provided owners oversight on testing performed by the IQF by performing level 1, II and II analysis on construction materials incorporated into the project. HVJ also maintained and tracked all noncompliance and their resolutions for the project

TxDOT Harbor Bridge OVT GEC, Corpus Christi, Texas | Role: Project Manager for construction materials engineering and testing services.

City of Pflugerville Water Treatment Plant Expansion to 30 MG | Role: Project Manager for construction materials engineering and testing services.

Travis County: Tandem Boulevard Substandard Road | Role: Project Manager for construction materials engineering and testing services.

City of Seguin Strempel Road Street Reconstruction | Role: Project Manager for construction materials engineering and testing services.

City of Leander Street Rehab 2019 CME Services (CMT) | Role: Project Manager for construction materials engineering and testing services.

City of Austin CMT and Geo Rotation 2005-2013, Austin| Role: Project Principal for construction materials engineering and testing services.

Heatherwilde Boulevard and Wells Branch Parkway, Austin | Role: Project Manager for construction materials engineering and testing services.

Mr. Larkin has more than 10 years of broad experience in field and laboratory testing for construction materials. He has successfully inspected and tested materials for numerous municipal, private and commercial projects. Mr. Larkin serves as the Laboratory Manager for HVJ San Antonio Lab and is responsible for maintaining calibration of testing equipment along with laboratory and field equipment certifications per TxDOT, AMRL, CCRL standards. He is also responsible for ensuring that all technicians performing tests are trained and competent in the respective test procedures. In addition to serving as the lab manager, Mr. Larkin also handles the day-to-day scheduling for materials testing projects and often receives praise from clients due to his vast experience and knowledge in materials testing.

Relevant Projects

TxDOT Pharr CEI for SH364 in Mission, Hidalgo Counties, Mission, Texas | Role: Lab Manager for CMT for reconstruction of 2.2 miles of existing SH364 from SH495 to FM1924 into a 4-lane divided roadway.

RFQ

Request for Qualifications
"Geotechnical Engineering and Construction Materials Testing Services"
RFQ# 2026-4

Dear City of Edinburg,

The City of Edinburg is looking for the most qualified engineering firm to provide Geotechnical Engineering and Construction Materials Testing Services for the City of Edinburg. Millennium Engineers Group, Inc. (MEG) is that firm. We believe that MEG is the right choice for the City of Edinburg based on the following:

History of Stability and Strong Texas Presence

MEG is a locally owned corporation that has never been sold, acquired, or merged with other entities. We are confident that the people and company you see today will be the people and company you see for the life of your projects. Furthermore, Mr. Raul Palma, P.E. CEO and Project Manager of MEG has 39 years of engineering experience in the State of Texas and is a former TxDOT Pharr Materials Engineer. MEG has offices in Pharr, Laredo, San Benito, Odessa, Houston, San Antonio, and Austin Texas with fully functional and accredited testing labs. MEG is stable and we have invested in the future. We are consistent and we are not going anywhere. We believe MEG has placed together a team that is the most highly qualified to perform the services requested by the City of Edinburg. Our firm is a certified Disadvantage Business Enterprise (DBE), Minority Business Enterprise (MBE) and Historically Underutilized Business (HUB).

Experienced Project Manager

As your project manager, I have spent over 39 years working on Texas projects including 21 years as the CEO and Chief Engineer of MEG completing various successful projects within all of Texas.

Pride in Execution

MEG is acutely aware of the financial and management challenges facing most entities these days.

We are committed to:

- Working to identify and implement projects in the most cost-effective manner.
- Communicating closely with the client to meet your requirements and schedule.
- Knowledge and geotechnical solutions for cost effective construction methods.
- Dedicated to quality: AASHTO and USACE accredited laboratory.
- The most AASHTO accreditations of any laboratory in Texas.

Our team is thrilled about the opportunity to serve the City of Edinburg and we are ready to start immediately upon selection. If you have any questions or would like to discuss our approach or team capabilities in greater detail, please contact me at any time at apalma@megengineers.com. Thank you for your consideration.

Respectfully,
MILLENNIUM ENGINEERS GROUP, INC TBPELS Firm No. F-3913

ABOUT MEG ENGINEERS

Government and municipal agencies, educational institutions, architects, engineers, real estate developers, constructors, and private sector clients. Our strength is our people; combining their experience and collaborating as a unit enables us to quickly identify our roles and deliver accurate cost-effective deliverables. Whether defining a new working relationship or continuing to the next project our mission remains the same: to achieve yours.

MEG Corporate Headquarters – Pharr, Texas

History

MEG was founded in 2001 by Mr. Raul Palma, P.E. on the principles of honesty, integrity, and service. The goal to provide innovative geotechnical and material testing services, continue to raise the level of quality in the local profession, and make a difference in the community. Today,MEG provides a full range of integrated geotechnical engineering and consulting services, construction material engineering and testing, environmental engineering, forensic testing, and consulting services. Our philosophy and practices have been positively reflected in both client and employee loyalty and contribute to a steady growth in a diversity of projects.

MEG is accredited by the American Association of State Highway and Transportation Officials (AASHTO) and the United States Army Corps of Engineers (USACE). MEG is audited by an independent AASHTO & USACE auditor, as part of our accreditation process.

MEG meets the requirements for ASTME329 Standard of Recommend Practice for Inspection and Testing Agencies, and maintains yearly proficiency testing samples to AASHTO, USACE, TxDOT, and TxAPA.

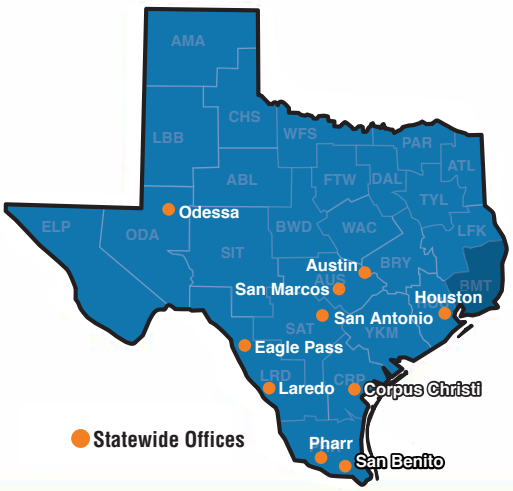
MEG COMPANY OBJECTIVE

MEG is a minority owned and operated business certified as:

- Historically Under-utilized Business (HUB)
- Small Business Enterprise (SBE)
- Minority Business Enterprise (MBE)
- Emerging Small Bus. Enterprise (ESBE)
- Hispanic American Bus. Enterprise (HABE)
- Disadvantaged Business Enterprise (DBE)



MEG has the most AASHTO accreditations of any laboratory in the State of Texas.

LABORATORY EQUIPMENT

MEG meets the requirements for ASTME329 Standard of Recommend Practice for Inspection and Testing Agencies, and maintains yearly proficiency testing samples to AASHTO, USACE, TxDOT, and TxAPA.

Our Project Team

MEG proposes to utilize the latest measurement techniques to effectively perform the services of this agreement with our current staff as proposed in our organizational chart. We understand that we need to respond quickly to some service requests, and we are practiced in having staff available on short notice, if necessary. Our current and projected workloads are such that we are confident of our ability to the City of Edinburg expectations in terms of having appropriate staff resources available when they are needed. The organization chart below reflects the staff we anticipate using for the proposed projects; however, we have additional personnel that can also be utilized if needed.

> "I count of the experience and expertise that Millennium Engineers provides- just as a good foundation is critical to a structure, a good geotechnical study is critical to a good foundation design."
> George Mendoza, P.E., Mendoza Engineering

PROFILE

Mr. Palma serves as office manager of MEG's Pharr, Texas office. He has over 17 years' experience in the engineering industry and vast knowledge in geotechnical engineering and construction materials testing in the Texas. Geotechnical projects that Mr. Palma has been involved with including mixed-use developments, urban mid-rise buildings, educational facilities, airport facilities, parking garages, commercial low-rise to mid-rise buildings, water and wastewater treatment facilities, elevated water towers, industrial facilities, multi-family developments, churches, residential subdivisions, and general retail centers. Pavement design projects that Mr. Palma has been involved with include highways, industrial parks, heavy-duty brick paving, freight centers and industrial applications.

As President, Mr. Palma's responsibilities include coordination of field personnel, communication with the client, generation of geotechnical engineering reports, evaluating laboratory soil testing, and scheduling and managing field personnel. Palma's responsibilities as a Construction Materials Engineer include coordination of field personnel, communication with the client, generation of daily logs and weekly status reports, training of technicians, evaluating laboratory and field construction materials testing data, and scheduling and managing field personnel.

REGISTRATIONS

Texas Board of Professional Engineers:
Registration Number 65656 is Current

PROFILE

Mr. Palma is a licensed Professional Engineer with over 43 years of experience in geotechnical engineering, construction materials testing, management, and engineering design of highways, streets, and utilities. Mr. Palma has directed and completed a wide variety of geotechnical projects throughout the Central Texas region. As Chief Geotechnical Engineer of the San Benito, Texas office he is responsible for overall operations management of the San Benito Office.

As geotechnical project manager, he is responsible for coordination and completion of geotechnical engineering projects. His experience includes subsurface explorations, laboratory testing, foundation investigation and design; slope stability assessments and remediation design, pre-load fill design; geotechnical plans and specifications preparation; and construction monitoring. Client relationships have included city and county agencies; engineering and architectural firms; municipal and utility districts, as well as private developers and constructors.

During Mr. Palma's employment with the Texas Department of Transportation (TxDOT), Mr. Palma gained an extensive background in the area of geotechnical and materials engineering serving as the District Materials Engineer for a centralized laboratory for TxDOT in the Pharr District located in Pharr, Texas. As the District Materials Engineer he was responsible for overseeing the testing and approval of materials for all construction projects in the Cameron, Hidalgo Starr, Zapata, Jim Hogg, Brooks, Willacy and Kennedy counties. At the end of his tenure with TxDOT, the Pharr District had a construction program of approximately $170 million dollars of construction per year. He oversaw all the geotechnical exploration and soil testing for all bridge and retaining wall structures in these same counties. Mr. Palma also served as the assistant to the State Concrete and Physical Testing Engineer at the Materials & Tests Division of TxDOT and during this period he gained extensive experience in concrete, concrete admixtures, reinforcing steel, and pre-stressed steel. Mr. Palma's extensive experience in the area of materials and geotechnical engineering gives our firm a unique ability to provide services of the highest professional caliber.

Martin Garza, Interim City Manager

June 9, 2022

TO: Whom it may Concern

This is in reference to construction materials testing and geotechnical services performed for the City of Weslaco by MEG Engineers between the period of May of 2020 and May of 2022.

During this timeframe, MEG Engineers has met our expectations completing all work in a timely and professional manner. MEG has been very responsive to all our work requests and provided the services in timing and sequence with project expectations. As a matter of fact, due to the success of their work, the city has recently approved a one-year extension to their existing contract.

We are pleased to offer this letter of recommendation for their great work with the city.

If you have any questions or would like additional information concerning MEG's work with the City of Weslaco, please do not hesitate to contact me at (956)969-1533 or email me at aaldana@weslacotx.gov.

Sincerely,

Albert J. Aldana, P.E.
City Engineer

January 7, 2020

RE: Letter of Recommendation – Millennium Engineers Group, Inc.

To Whom It May Concern:

On behalf of the Brownsville Public Utilities Board (BPUB) Special Projects Department and Water/Wastewater Engineering Department, the BPUB submits this letter of recommendation for Millennium Engineers Group, Inc. (MEG).

MEG has assisted the Special Projects department and the Water/Wastewater Engineering Department with geotechnical reports and materials testing services for the past several years. They have been involved with numerous projects such as Wastewater Lift Stations Rehabilitation projects and the Odor Control Improvement project. MEG is also one of our on-call material testing laboratory for all subdivision construction materials testing.
Currently, MEG is performing all material testing for the BPUB Annex Building project, an approximate 70,000 sf building project development currently under construction.
Millennium Engineers Group continues to provide accurate results in a timely manner, with the utmost professionalism and within budget.

The BPUB will continue to engage Millennium Engineers Group on future projects and confidently recommend MEG for your geotechnical and materials testing needs.

Sincerely,

Marie C. Leal, P.E.

CITY OF MISSION

"Home of the Grapefruit"

To Whom It May Concern,

I am writing this letter of recommendation for MEG Engineers.

MEG has been under contract with the City of Mission for the last four years and has provided exceptional Lab services in numerous subdivisions and projects throughout the City. They have always exhibited with integrity, ethics, reliability and fairness. Despite any troubles that could arise at the time of construction, MEG would and will deliver the testing and results on time and with quality. I believe you would be very pleased with their work, attention to detail and customer service.

Should you have any questions, please feel free to contact me at (956) 585-3275.

Sincerely,

Juan Pablo Terrazas, P.E., CPM
Assistant City Manager/City Engineer City of Mission

City of Pharr Engineering Department

Re: Millennium Engineers Group, Inc.

Our City has contracted Millennium Engineers Group, Inc. to perform Construction Material Testing and Geotechnical Engineering On-Call Services for the past three years. Mr. Andres Palma and his firm are very professional and have an excellent service response. We are very satisfied with their work. They have a great attitude and carry out their project deliverables within budget and schedule. We were very pleased with the work his firm has done on the numerous project they have work on for the City of Pharr.

I would give Millennium Engineers Group, Inc. and his team my highest recommendation.

Sincerely,

Omar Anzaldua Jr., PE, CFM, PMP, CCM | City Engineer

Re: Letter of Recommendation

To Whom It May Concern:

Raul Palma is being nominated for Engineer of the Year. I have had the pleasure of knowing Raul for many years. He has impressed me with his exceptional leadership, spirit, and commitment to this profession. His professional character has excelled in his field of engineering and has given back to his community in countless volunteer efforts. I can attest not only to Raul's ability to explain and instruct, but also to his deep commitment to helping others.

Considering his extensive knowledge in engineering and achievements, he has been named the Engineer of the Year by the local Engineer's Chapter and I highly recommend his naming as Engineer of the Year.

Please feel free to contact me if you have any questions at (956) 572-3191.

Re: Letter of Recommendation

Dear Mr. Palma,

I would like to take this opportunity to express to you Alton's satisfaction and appreciation with the work product and professionalism exhibited by your company's employees since the outset of the engagement of your firm. The professionalism and dedication to their trade, your staff has shown, sets Millennium Engineers Group apart from the competition.

The City of Alton has enjoyed its relationship with MEG Engineers and looks forward to working with your company in the future.

If we may be of service to you in anyway, please do not hesitate to contact me at (956) 432-0760.

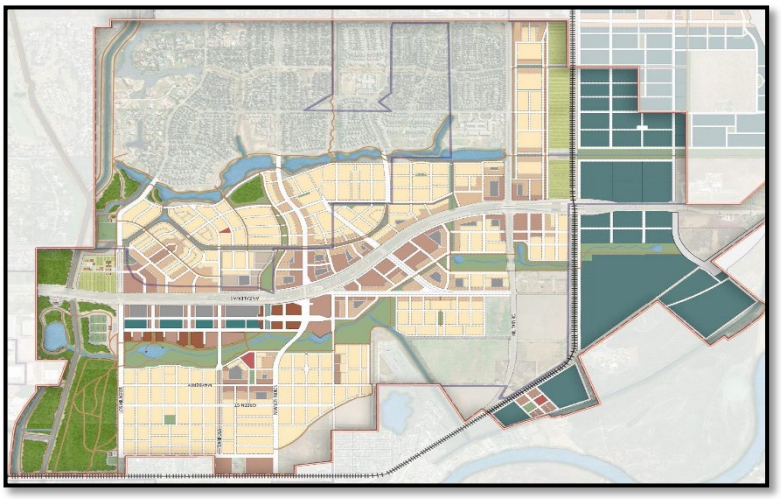
Relevant Projects

City of Mission - Public Safety Building



Construction of a new public service building development. It is also our understanding that the proposed public service building development will consist of a one (1) story structure. The site construction for the proposed structure is anticipated to be on a slab-on-grade or on-fill foundation provided expansive, soil-related movements will not impair the performance of the structure. The site also accommodates the construction of either a rigid or flexible pavement that will serve for light duty and/or heavy-duty traffic. Both flexible and rigid pavement types are viable and the selection on the type to be used will depend on the specific needs and criteria of project site

City of Edinburg – Downtown Parking Garage

Construction of a 3-level parking garage with an alternate to add a 4th level along with various add alternates to enhance the building including: first floor retail space over crawlspace; back of house receiving; elevator tower enhancements; thin-brick façade; parking guidance system; and retail restrooms. Work will include site work, selective demolition, concrete, masonry, metals, wood & plastics, thermal & moisture protection, openings, finishes, specialties, stationary loading dock equipment, electric traction elevators, fire suppression, MEP, communications, fire alarm system, exterior improvements, and utilities.

City of Mission - Los Milagros Pavement Recommendations

Performed Engineering and Construction Management and Administration of approximately 1.32 miles for the Pavement Rehabilitation Improvements by reclamation of existing asphaltic and sub-base and overlay of a new 2” asphaltic overlay of the residential streets within Los Milagros and Solera Subdivisions located in Mission, Texas.

City of Harlingen – Convention Center

New construction of a 25,000 SF standalone building consisting of five meeting rooms, reception/lobby, clinic, conference room, offices and support spaces.

Work included concrete, mansonry units, structural steel framing, modified bitumen roofing system, interior finishes, metal toilet compartments, appliances, wet fire sprinlker and standpipe system, MEP and other specified works.

City of Harlingen – Fire Station

Construction of a 10,234 SF fire station to include two bays, dorm rooms, training room, lobby, locker rooms, offices, fitness area, kitchen, vestibule, and other specified areas.

Work included concrete, cast stone masonry, structural steel framing, metal stairs, standing seam metal roof panels, metal wall panels, interior finishes, specialties, wet pipe sprinkler system, MEP, communications, fire alarm system, earthwork, and other specified works.

New Edinburg Arts, Culture & Events Center

13,500 s.f., ground-up foundation pad, two story Cultural Arts Center with Multi- Purpose events room, several conference rooms, exhibition spaces, multi-classroom settings for adults and children. Work will include site work, selective demolition, concrete, masonry, metals, wood & plastics, thermal & moisture protection, openings, finishes, specialties, stationary loading dock equipment, electric traction elevators, fire suppression, MEP, communications, fire alarm system, exterior improvements, and utilities.

INSURANCE COVERAGE & LEGAL

MEG does not have any key terms of our errors and omissions insurance coverage.

MEG maintains the insurance policies needed for this contract as for all additional contracts listed below.

2 million professional liability coverage
1 million commercial general liability coverage
1 million umbrella liability coverage

MEG is not debarred from doing business with any federal, state, or local agency.

MEG does not have any claims, judgments, and arbitration proceedings, suits pending or outstanding against itself or its officers

PROFESSIONAL SERVICES AGREEMENT

MEG has read and agrees with the Professional Services Agreement. MEG will meet the prerequisite insurance requirements, and, if selected, agrees to enter into such agreement.

Understanding the Project

The City of Edinburg's needs are specific to the services we provide, counting on the services we provide to be responsive, thorough, and precise. The projects need efficient communication, project management, and contract administration. At MEG, we consistently achieve this by:

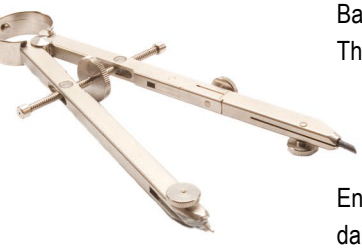
- Understanding the specific needs of our client
- Delivering on the expectations of our client
- Efficient Communication
- Extensive Employee Training and Management
- Proven Consistency, Low Employee Turnover
- Highest Quality Accreditations and Internal Management

CONSTRUCTION MATERIAL TESTING SERVICES
will encompass all related services to the Client including, but not limited to, the following:

- Conducting initial discussions with the Owner and Design team for specific project requirements, project schedule, design requirements, and any additional information that will be beneficial to the city.
- Soil Sampling and Testing
- Laboratory Soil Testing
- Field Density Testing
- Field Soil Observations
- Field Soil Recommendations
- Field Reinforcing Steel Inspections
- Field Concrete Sampling and Testing
- Laboratory Concrete Compressive Strength Testing
- Field HMAC Pavement Testing
- Field and Laboratory Pavement Testing
- Field Structural Steel Inspections
- Daily reporting and communication with Owner, Design team, and Contractor

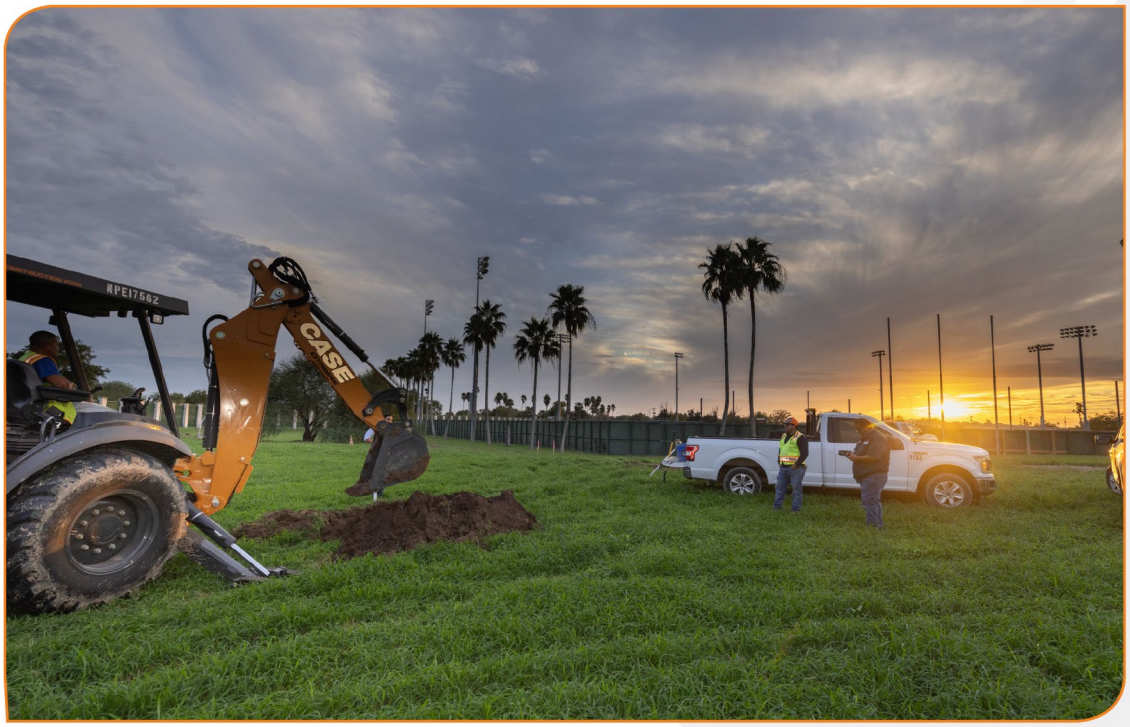
GEOTECHNICAL ENGINEERING SERVICES will encompass all related services to the Client including, but not limited to, the following:

- Conducting initial discussions with the Owner and Design team for specific project requirements, project schedule, design requirements, and any additional information that will be beneficial to the Owner.
- Conducting a review of local geology at the project location.
- Conducting field soil exploration and testing services.
- Conducting the geotechnical laboratory testing program to meet the project requirements.
- Discussion with the Owner and Design team prior to report preparation to include updated project changes, requirements, or additional geotechnical options.
- Prepare precise, innovative, cost-effective geotechnical engineering recommendations for all aspects of the project.
- Discussion after the geotechnical report submittal with the Owner and the Design team to support implementation of geotechnical recommendations that will be beneficial to the Owner.



MEG has the ability to meet your schedule and deadline because of its thorough training and understanding of its CLIENTS needs, MEG's experience and resources, MEG's subcontractors' resources, and industry requirements. MEG has the philosophy of providing quality Construction Materials Engineering and Geotechnical Engineering Services to all our clients in Texas. We believe that client satisfaction, reputable and prompt service, and staying in stride with the latest technologies and tools will give our firm a unique advantage in providing a service to you as our client. We believe that providing quality service is the key to our client's satisfaction and their inclination to consider our firm in future projects.

WORKLOAD CAPACITY



The scope of work to be performed under this contract is the scope of work that MEG performs daily for our clients in Texas. MEG has the necessary capacity to meet the needs of the City of Edinburg for Professional Services. MEG has the resources and experience to provide concurrent project construction services to an individual client for your detailed project scope of work. Our resources can be shifted for operations and our staff and inspectors are cross-trained for proper allocation of personnel for this specific reason.

Based on the current workload, resources, and staff of MEG it is estimated that current operations capacity is at 70%. There is currently no backlog with our testing Services. Our staffing plan is to never be above 85% capacity, so we are able to expedite services when needed to meet critical project schedules.

Based on current and future assignments, it is estimated that during the duration of the project Millennium Engineers Group, Inc. will be operating at 80% of capacity. Engineers, Staff, and Inspectors will be able to complete the daily anticipated project tasks for this project along with current projects tasks. MEG is proficient in completing daily project tasks and expediting the testing and inspection results to the project team for the projects benefit. The project team included in this submittal that will be allocated to this project will devote the necessary time to meet your schedule and often will be various percentages of their time based on your program needs. Inspectors that are assigned to this project will devote 100% of their time to this project when required and additional inspector resources will be available on an as needed basis for this project will be devoted 20% to 50% of their time for additional services as needed.

PROJECT MANAGEMENT AND COORDINATION STATEMENTS

MEG utilizes a Management System, which facilitates the management of both the Construction Material Testing (CMT) and Geotechnical Engineering Testing (GEO) Departments. The system consolidates all aspects of the business workflow, from proposal to the final invoice. It allows an organization the ability to set up clients/projects, schedule work orders (dispatch requests), report and distribute pertinent data to clients via email or website, employ management tools for lab and field testing, and prepare invoices for each project that could be exported to the organization's accounting system. The system also gives the organization's clients the ability to retrieve reports from the customized reporting website.

Our team makes recommendation on the course of action to the Client when issues of potential delays or increased costs arise during the project. Close communication and coordination between the contractor, third parties involved in the project and our team will be a priority by our team for a successful project. Our team operates as a representative of the City of Edinburg and oversees the day-to-day construction activities of the prime contract assigned. Our team has extensive experience in administering construction contracts and overall management. Our team has experience on multiple projects performing Construction Engineering, Inspection and Construction Materials Testing services for numerous clients in Texas. Our scope of services includes but not limited to:

- Construction Administration Procedures
- Field Reports
- Monthly Progress Reports
- Progress Photos
- Project Progress Meetings
- Schedule Review
- Change Order Review
- Quality Control
- Safety and Health
- Submittal/ Shop Drawing Control
- Payment Application Review

> Millennium Engineers has always provided great, professional, friendly service. I highly recommend them.
>
> *Ramiro Gutierrez, P.E., R. Gutierrez Engineering Corp.*

PROJECT MANAGEMENT AND COORDINATION STATEMENTS

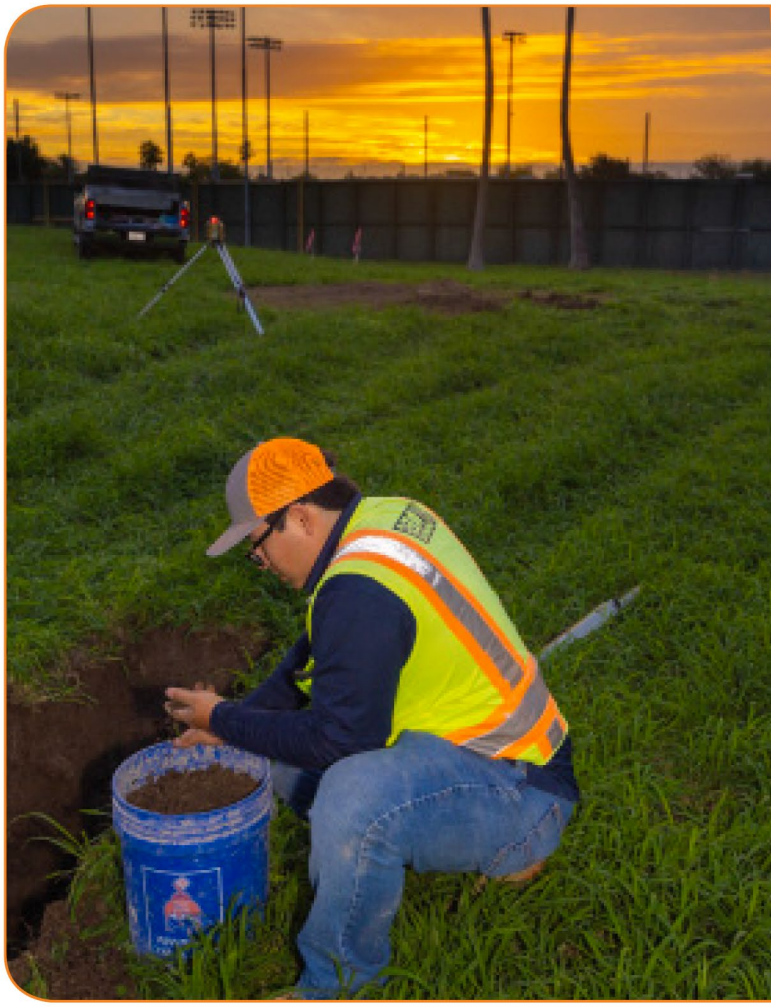
Construction Engineering and Management: MEG ensures that the project is completed on time, and on budget and within scope. This will be accomplished through review and tracking of baseline schedules and monthly updates, monthly pay estimates, change orders, plan quantities and overall project costs. We provide timely processing of contractor submittals, shop drawings, and Request for Information (RFIs). We will also work with the Engineer of Record (EOR) as needed regarding RFI's, potential design changes, or plan errors and omissions. We conduct regular progress meetings to promote partnering between all parties. We conduct pre-construction meeting with the contractor, Client, and other stakeholders prior to the start of the project. During this meeting, an escalation ladder is established to provide guidelines for resolution of construction issues.

Construction Administration and Inspection: MEG performs all necessary inspection to verify work is completed in accordance with plans and specifications. Daily Work Reports (DWR's) or other required reports will be completed to document construction progress and inspection activities as well as quantities for payment. Our inspectors inspect all construction activities daily, determine daily need for construction materials testing of work in progress and materials in use, traffic control devices on a daily basis for compliance with Traffic Control Plan and TMUTCD. SW3P inspections as per environmental requirements performed in accordance with subject guidelines.

Construction Materials Testing: MEG performs construction materials testing on all required construction activities and materials to ensure compliance with project plans and specifications in accordance with the City of Edinburg guidelines for sampling and testing. If independent assurance testing is required coordination with the third-party testing agency is scheduled at appropriate schedules and frequency.

Document Control: MEG ensures that all project progress and financial reporting is completed in accordance with contract requirements. We log all project correspondence, submittals, change orders, RFI's, shop drawings, pay estimates, MOH, etc. We also verify that the contractor is complying with Disadvantaged Business Enterprise (DBE), Equal Employment Opportunity (EEO) and Buy America guidelines. All DWR's, pay sheets and material test reports are reviewed for accuracy before submittal.

Close Out Procedures: Thorough and accurate records is maintained throughout. We generate a project specific close out checklist. The checklist is distributed to all parties at the beginning to resolve all discrepancies. The checklist allows for a guide during both construction and close out phases. Another part of quality program includes formal audits conducted at 30%, 60%, and 90% of construction completed.



Another tool that we use is performing thorough constructability reviews during the pre-construction phase. We review approved plans, specifications, general notes, TCP phasing, baseline schedule, etc. to identify potential plan errors, quantity discrepancies, utility conflicts, or potential maintenance issues. All findings during the constructability review are provided to the City of Edinburg for review and further discussion.

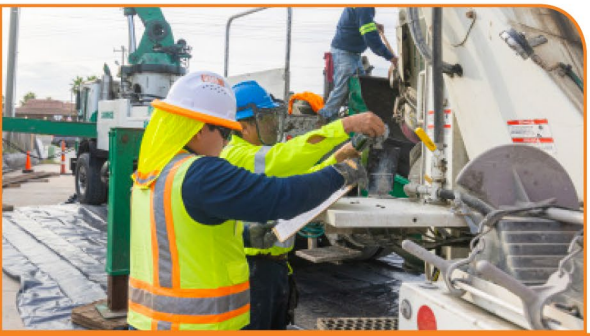
PROJECT COMMITMENT

MEG is committed to your projects, program, goals, and timelines for project schedule. We will provide the essential staff, equipment, and resources to be available and responsive daily to the City of Edinburg's needs based on your scope of services. Our offices are equipped and trained to provide the level of service and responsiveness required by the City of Edinburg. MEG has extensive local resources and expertise to complete large project programs. The key personnel presented in this Statement of Qualifications are committed to the City of Edinburg projects and will be available throughout the life of the project.

Project Communication

Communication is the key to all successful projects. The management of the testing and inspection program for the project will begin with the introduction of the project team members. Upon notification of award, our engineers and staff will meet with members of the project team who have an active role in the project. This is a critical phase in to communicate project information, goals, timelines, or potential conflicts.

Review of Construction Schedule



MEG will review the most up-to-date construction schedule by task after design documents are completed. The testing and inspection program can best support regulated testing and control final testing costs if we clearly understand the project testing requirements.

Construction Meetings

From the initiation of the project until the completion, we propose biweekly or monthly management meetings with the construction manager or his representative and other project team members. At these meetings it is necessary to review and discuss testing results, project progress, and project schedule.

Daily Communication

MEG on site representative will maintain daily communication with the contractor's superintendent, and the designated project team members in order to schedule the required services and to communicate inspection and test results. Our project manager will communicate the results of critical off-site testing and inspections to the designated project team representatives the same day testing is performed.

> MEG has been reliable and responsive to our testing needs. – Mr. Ariel Chávez II, PE/RPLS/ Director of Engineering Services

QUALITY ASSURANCE / QUALITY CONTROL

Internal Quality Management

Our firm follows a reporting structure that will best benefit our clients. Steps and processes are performed in every task of our services to give the client the best product possible. Our client first attitude, service approach, methodology of doing business, and internal quality control program allow us to continue providing services throughout the State of Texas building long term business relationships.

Reporting Structure

Reporting Structure starts within our management team. MEG is called for the requested services and to make the necessary arrangements to initiate the project. Our dispatcher will dispatch one of our highly trained technicians to the requested project site. At this point the technician will perform the requested task(s) and then complete his/her field-testing report. Field Testing reports are turned in daily and our project managers review the testing reports. The testing reports are then turned into our administrative staff and are typed for second review of the project managers. The reports are then reviewed and signed by the office engineer before they are sent to the client. The testing reports provided by MEG include all the necessary data that is often requested by the Owner and members of the design team.

Decision Making

Decision Making by MEG starts within our management team. The decisions made by our staff and key personnel come only after consulting with the principal engineer. Timing and scheduling are important factors of construction, and every decision made will consider the best interest of our client. Engineering Recommendations are only made by a Professional Engineer that is registered in the State of Texas.

Quality Control Plans

Quality Control is monitored by MEG in every aspect of our work. Our office maintains a quality control program that has been approved by the American Association of State Highway and Transportation Officials (AASHTO) and the State of Texas, Department of State Health Services Radiation Control Program. Quality control is monitored and documented by our (QA/QC) Manager and Radiation Safety Officer.

Reporting and Billing Quality Assurance

Quality assurance is maintained by MEG in every aspect of our administrative work. Our office maintains an internal quality control program that is used by our administrative staff to audit every process of our reporting and billing procedures. This quality assurance measure allows us to maintain the quality service that is essential to our client's business.

> "MEG provides excellent services in a timely and cost effective manner.– Mr. Alfonso Quintanilla, PE/RPLS/ Quintanilla, Headly, and Associates"

Re: Annual Update Affidavit (AUA)
Disadvantaged Business Enterprise (DBE)

Dear Raul Palma:

Upon review of the AUA and supporting documentation, TxDOT has determined that Millennium Engineers Group, Inc. continues to meet the eligibility requirements of the federal [DBE] program.

DBE certification does not expire, however, to remain certified it is incumbent on you to submit the AUA on or before your next certification anniversary date. A courtesy reminder will be sent from the Diversity Management System (DMS) in advance of the AUA due date.

Firms listed in the Texas Unified Certification Program (TUCP) directory located at https://txdot.txdotcms.com are currently certified DBE/ACDBEs. All DBEs certified pursuant to 49 CFR Part 26, are automatically certified in TxDOT's Small Business Enterprise (SBE) Program. TxDOT encourages you to utilize the TUCP directory as a marketing tool. In that respect you should periodically verify your firm's certification description and North American Industry Classification System (NAICS) code(s) closely describe the goods or services your firm provides.

Should your firm be awarded an opportunity to participate on a federally funded project, your firm must perform a commercially useful function (CUF). A DBE performs CUF when it is responsible for execution of the work of the contract and is carrying out its responsibilities by performing, managing, and supervising the work involved. To perform a CUF, the DBE must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself.

For information on TxDOT's contracting and procurement opportunities visit https://www.txdot.gov.

Sincerely,

Michael D. Bryant
Director
Civil Rights Division

July 14, 2026

Re: Request For Qualifications- Geotechnical Engineering And Construction Materials Testing Services
RFQ 2026-4

Dear Mr. Hinojosa,

Professional Service Industries, Inc. (PSI), an Intertek company, would like to express our interest in providing Geotechnical engineering, Construction Materials Testing (CMT), and Environmental consulting services to the City of Edinburg. As a nationally recognized leader, PSI fully understands the procedures, technical expertise, and accuracy that will be required throughout this contract. PSI has solid credentials and brings the following benefits to your project:

LOCAL EXPERIENCE- The predecessor companies of PSI were established approximately 100 years ago. The Rio Grande Valley office of PSI has approximately 20 employees. PSI currently has 15 offices within the State of Texas and approximately 75 offices nationwide to service this project. PSI is uniquely qualified to perform the services requested by the City.

APPROACH – Quality is a process, not a destination, and we constantly work from our shortcomings and imitate our success. Our goal for quality performance is to provide professional services of such quality that our clients receive superior value, and our employees grow and share in our firm's success. PSI is committed to consulting with design engineers to ensure sound technical decisions and conservation of capital.

FINANCIAL STABILITY- PSI, with annual building and construction revenues of $1.1 billion, is a leading independent engineering and testing firm and ranked #24 by ENR Top 500 Design Firms List.

PSI acknowledges that there are no addendums to this RFQ.

We are pleased to present our service capabilities for your current and future projects. If there are any questions, please contact Mr. Edward Pruske directly at 210.842.3424 or via email at Ed.Pruske@intertek.com. Ed Pruske has the contractual authority of Professional Service Industries, Inc. (PSI) for this SOQ.

Respectfully submitted,
Professional Service Industries, Inc. Texas
Firm Registration No. F-3307

FIRM QUALIFICATION AND EXPERIENCE

Discuss the firm's experience and history in performing geotechnical engineering and construction materials testing services in a timely manner, particularly for other governmental agencies in the past five (5) years. Discuss the firm's uniqueness to best perform these services for the City. Identify the office location that will be providing the services and the approach to handling part-time staffing needs for smaller assignments.

Professional Service Industries was incorporated in Delaware, June 26, 1972. However, the name was not used in the marketplace until the 1980's. The company was founded as A&H Materials Testing in 1961 in Champaign-Urbana, Illinois. An additional former name is Pittsburgh Testing Laboratories (1881- 1986). In 2015 Professional Service Industries, Inc. was acquired by Intertek, but continues to do business as Professional Service Industries, Inc. (PSI). We still fill out our prequalification statements as Professional Service Industries, Inc. (PSI). Current address for PSI's headquarters is 1450 Lake Robbins Drive, Suite 620 The Woodlands, Texas 77380. PSI Harlingen is located 2020 North Loop 499, Suite 302, Harlingen, TX 78550.

Professional Service Industries, Inc. (PSI) is a nationally recognized consulting engineering and testing firm providing integrated services in several disciplines, including environmental consulting, geotechnical engineering, construction materials testing and engineering, asbestos management and facilities engineering and consulting. We are a leader among the nation's independent testing organizations and rank among the country's largest consulting engineering firms. PSI Harlingen is pleased to offer our construction engineering inspection expertise, including inspection, planning, permitting, bidding, special inspector services, threshold inspector services, and construction administration.

PSI has been providing industry businesses with accurate, objective and useful information for more than 100 years. Today, we employ approximately 1,900 skilled personnel in 75 offices nationwide. Our Harlingen Office has been active since 1974, and it has successfully managed numerous projects over the last 40 years. We have been team members with municipalities throughout the Edinburg area within the last 5 years: City of Mercedes, City of Pharr, City of Harlingen, City of Brownsville, City of Cotulla, City of Austin, City of Laredo, City of San Antonio, City of Round Rock, City of Cedar Park, City of Killeen, and the City of Harker Heights, just to name a few.

Our team has the skills and experience needed to successfully complete projects and attain City goals. We have the knowledge and expertise gained from more than 100 years of practice available in offices all over the country. Our key staff is trained and registered; capable of immediately providing the quality service The City of Edinburg seeks on any given project.

PSI is committed to consulting with design engineers and architects and other professionals to ensure sound technical decisions and conservation of capital allocated to relevant construction projects. As an extension of your staff, we are able to anticipate and cater to your specific needs without being prompted. PSI will provide:

- **Timely Service**: Work products will be delivered on or ahead of schedule.
- **Communication**: A high level of communication will be maintained to always keep all parties well-informed about project status.
- **Practical Solutions**: Practical, cost-effective solutions to problems.
- **Integrity**: The reliability and integrity of test results and work products will be above reproach.
- **Cross-Training**: All personnel are cross-trained in more than one service area, adding to our ability to provide the depth of qualified and technical staff required for most projects.

Our top-level managers and technicians are available to staff your projects as soon as the scope of work is finalized. Throughout the State of Texas, we have an extensive pool of experienced professionals and cross-trained technicians who can be mobilized to meet any unusual demands that may arise. We can quickly mobilize people and equipment from neighboring offices to meet sudden unexpected needs. PSI will be available 24 hours a day 7 days a week no matter the size of the project or assignment.

PSI's proposed services to the City of Edinburg include responsive, on-call geotechnical engineering, construction materials testing services, special inspection services, and environmental consulting to support a wide variety of municipal infrastructure and facility projects. Our capabilities include slab-on-grade foundation evaluations, recommendations for expansive soils and groundwater conditions, site work, retention systems, field exploration, laboratory testing, engineering analyses and reports, phase 1,2, and 3 environmental reports, asbestos testing, water sampling, indoor air monitoring, plans review, earthwork and density testing, foundation inspections, concrete and structural steel services, post-construction evaluations, and other laboratory testing for infrastructure and building projects.

Our Harlingen office, located at 2020 North Loop 499, Suite 302, Harlingen, TX 78550 is a full-service firm, all work will be handled out of the local office. If additional work beyond our capability is needed for a limited timeframe project, PSI can quickly mobilize resources from other Texas offices.

The PSI Harlingen office has the required knowledge of the International Building Codes and the related rules and regulations of local, state, and federal agencies and jurisdictions. PSI's Texas offices provide all of these services in-house. Each service line performs the engineering and consulting under the applicable ASTM procedures or the governing agency/authority which applies. All services operate under a registered professional engineer in the State of Texas and have the licenses and certifications as required. The Harlingen office is audited by numerous outside agencies such as AASHTO, TXDOT and the State Department of State Health Services. Due to the size and national presence of PSI, we can provide more specialized testing and consulting services than any other firm of our type. Very often due to the age of the buildings, PSI develops various forensic procedures for non-destructive testing of the facilities, to gain engineering information. PSI will work closely with the City of Edinburg and its consultants to limit the constraints, if any, to getting the service done in a timely an economical manner. Furthermore, PSI has the facilities and equipment for inspection and testing of soils and foundations, concrete, pavements, masonry, structural, metals, roofing, and specialty areas. PSI regularly performs a full range of consulting engineering services: investigation and evaluation of materials failures and/or deterioration, forensic evaluation of all types of construction materials and/or structures, and establishment of QA/QC procedures for construction projects.

Geotechnical Engineering Services

PSI maintains its own drill rigs, drill crews, performs the associated laboratory testing in-house, and prepares geotechnical reports in a timely manner. Quick response and mobilization to the site, short report turnaround times and providing sound, non- conservative foundation alternatives are PSI's goals when performing geotechnical investigations.

Since PSI maintains its own full-service drill rigs, we do not have to rely on the schedules of contract drillers. PSI can usually mobilize to the site within a few days of authorization, therefore cutting down the required time to verbally communicate the findings and finalize the geotechnical report.

PSI utilizes in-house laboratory technicians trained in accordance with PSI's QM-5 program. As a part of the QA program, PSI participates in the AASHTO Materials Reference Laboratory (AMRL) for a verification of testing procedures. Testing on all soil samples is commenced the day after the drilling is performed. Once again, the performance of expedited lab work reduces the time frame for beginning the calculations, performing the analysis and completing the geotechnical report. The PSI project manager is responsible for overseeing the fieldwork, lab work and report writing phases of each project. PSI maintains a staff of Chief Engineers, who help provide the most practical and non-conservative foundation and pavement recommendations which always include several options.

PSI's most valuable asset is providing engineering consulting to our clients and the design team. PSI promotes meeting with the client to discuss the geotechnical findings prior to the report submittal. This meeting reduces the need for report addendums and allows PSI to cover all of the issues required to begin the foundation/pavement designs. PSI will bring value to each project by avoiding overly conservative recommendations for bearing capacity, pier depths, select fill thickness, pavement sections, etc.

Below is an itemized list of geotechnical consulting services we can provide.

Foundation/Specialty Analysis

- ✓ Risk assessment
- ✓ Foundations/construction over compressible soils
- ✓ Subsoil modification
- ✓ Analysis of high-rise foundations
- ✓ Dewatering concepts
- ✓ Soil mechanics research
- ✓ Specialty foundations
- ✓ Retaining walls
- ✓ Interpretation of cone penetration test data
- ✓ Landfill foundation studies
- ✓ Earthen dam analysis
- ✓ Pile driving analyzer

Environmental/Permitting

- ✓ Environmental permits
- ✓ Groundwater studies
- ✓ Soil suitability analysis
- ✓ Effluent disposal evaluation
- ✓ Well and pollution source inventory
- ✓ Design of pond and landfill liners
- ✓ Water supply testing and permitting
- ✓ Septic tank design and permitting
- ✓ Drawdown effects on wetlands
- ✓ Sanitary landfill permitting

Effluent Disposal

- ✓ Percolation pond design, Rapid Infiltration Basins (RIBs)
- ✓ Wetland disposal assessment
- ✓ Development of groundwater monitoring plans

Groundwater Monitoring Plans

- ✓ Design and implementation of groundwater monitoring plans
- ✓ Installation of monitoring wells
- ✓ Sampling of groundwater from monitoring wells

Roadway/Transportation Studies

- ✓ Corridor study/fatal flaw analysis
- ✓ Bridge foundations (shallow and deep)
- ✓ Pavement design
- ✓ Field and Drilling Services
- ✓ Standard test borings
- ✓ Auger borings
- ✓ Rock coring
- ✓ Monitoring well installation
- ✓ Continuous sampling
- ✓ Environmental sampling
- ✓ Undisturbed thin-walled tubes
- ✓ Groundwater sampling
- ✓ Bulk disturbed samples
- ✓ Mineral exploration

Laboratory Services

- ✓ Soil classification
- ✓ Strength parameters
- ✓ Consolidation
- ✓ Compaction
- ✓ Permeability
- ✓ CBR
- ✓ Soil cement
- ✓ Triaxial
- ✓ Relative density

Additional Services

- ✓ Hydrology
- ✓ Earthquake geology and engineering
- ✓ Environmental geology
- ✓ Soil stabilization
- ✓ Geophysical investigations
- ✓ Soil/rock dynamics

Construction Material Testing/ Laboratory Services

PSI maintains complete facilities and equipment for inspection and testing of soils and foundations, concrete, pavements, masonry, structural, metals, roofing, and specialty areas. In addition, PSI performs a full range of consulting engineering services: investigation and evaluation of materials failures and/or deterioration, forensic evaluation of all types of construction materials and/or structures, and establishment of QA/QC procedures for construction projects.

As an Independent Testing Laboratory, satisfying the requirement of ASTM E 329, PSI proposes to provide the QA/QC functions representing the owner. These services may include review and testing, prequalification of construction material submittals as well as field testing and construction surveillance. PSI is the largest single provider of construction materials testing in the nation. PSI offers a complete single source of testing services to include soils, concrete, asphalt, structural steel welded and bolted connections, masonry glazing, painting, roofing, and with national capabilities to address many unique and specialized services tailored to individual project needs.

PSI offers American Concrete Institute Certified technicians to monitor and test placement of fresh concrete. Field tests include slump, air content, temperature, unit weight, and molded specimens for compressive strength. PSI has certified AWS inspectors for the visual examination of welds and ASNT technicians for ultrasonic, radiographic, dye penetrant, and magnetic particle testing of welds. PSI has capabilities to field calibrate impact wrenches with a Schmidt-Wilhelm Calibration Block as well as calibrated torque wrenches to verify the tightness of bolted connections. We are also capable of providing specialty services such as forensic investigation of existing structures if requested.

All of our services are performed under the supervision of a licensed professional engineer with registration in the state where the services are performed. All of our equipment is calibrated at twelve-month intervals by any outside agency with traceability to the National Institute of Standards and Technology (NIST). PSI participates in both the Concrete and Cement Reference Laboratory (CCRL) and AASHTO Materials Reference Laboratory (AMRL) as a verification of our testing procedures. As a final verification of the PSI QA-M5 quality assurance manual, the PSI offices are audited by PSI Quality Control Administrators and by outside agencies to include A2LA, CCRL, TXDOT and the Corps of Engineers.

Below is an itemized list of construction material testing services we can provide.

Soils and Foundations

- ✓ Exploration and soil borings
- ✓ Rock core drilling and exploration
- ✓ Laboratory testing and analysis
- ✓ Field testing, inspection and control
- ✓ Grout stabilization inspection
- ✓ Deep foundations testing and inspection
- ✓ Reinforced earth construction

Concrete

- ✓ Cement physical and chemical testing
- ✓ Mix design
- ✓ Strength testing compressive, flexural and split tensile
- ✓ Field testing and inspection
- ✓ In-situ evaluation
- ✓ Reinforcement location
- ✓ Prestressed and precast concrete testing and inspection
- ✓ Aggregate unit weight, gradation, etc.

Pavements

- ✓ Preconstruction services
- ✓ Soil density testing
- ✓ Soil stabilization testing
- ✓ Soil-cement
- ✓ Laboratory testing of asphalt
- ✓ Field testing and inspection
- ✓ Concrete pavement testing and inspection
- ✓ Pavement evaluation and failure investigation
- ✓ Underdrains

Masonry

- ✓ Concrete masonry unit testing
- ✓ Mortar/stucco mix design, testing and inspection
- ✓ Brick testing
- ✓ Construction testing and inspection
- ✓ Failure investigation
- ✓ Prisms construction control
- ✓ Structural
- ✓ Threshold inspections
- ✓ Post-tensioning calibration and inspection
- ✓ Fireproofing thickness, weight and adhesion/cohesion
- ✓ Reinforcing steel

Metals

- ✓ Structural steel fabrication inspection and certification
- ✓ Structural steel field erection inspection
- ✓ Weld certification and procedure qualification
- ✓ Construction inspection and testing
- ✓ Nondestructive examination
- ✓ Laboratory testing

Specialty

- ✓ Floor flatness profiling
- ✓ Vibration monitoring
- ✓ Load tests
- ✓ Failure investigations
- ✓ Curtainwall mock-up and fabrication inspection
- ✓ Review of waterproofing specifications
- ✓ Monitoring of waterproofing application

Structural

- ✓ Threshold inspections
- ✓ Post-tensioning calibration and inspection
- ✓ Fireproofing thickness, weight and adhesion/cohesion
- ✓ Reinforcing steel

Roofing

- ✓ Field evaluation and testing
- ✓ Monitoring of roof application
- ✓ Laboratory testing
- ✓ Maintenance management services

Environmental Services

PSI maintains a staff of Professional Scientists, Certified Industrial Hygienists (CIH), and Chief Engineers to ensure that our clients receive the most practical and cost-effective environmental recommendations, including multiple options. It is PSI's preference that a kick-off meeting between the City of Edinburg, PSI representatives, and appropriate Subconsultants, be conducted for every task order. For smaller projects, this meeting can simply be an email or phone call. Following the kick-off meeting, Project members will be assigned, and subcontractors selected, based on the specialized training and experience requirements of the task. The PSI Project Manager, working with the appropriate technical staff, will develop a detailed project plan including a cost estimate and schedule.

It is critical that established project protocols, including communications, and security concerns do not get lost between phases. It is critical that lines of communication, project objectives, project schedule, available site resources, and allowable work hours be addressed with the City designated representative at the beginning of each project or task order. Communication frequency would primarily include typical project updates, status of required milestone, preliminary review and discussion of findings as well as addressing any site access or condition issues.
Below is a brief description of some of the environmental services we are able to provide:

- Phase I:

Phase I ESAs are conducted for property transactions and refinances in general accordance with ASTM E 1527-21. By using this methodology, PSI satisfies one component of the All-Appropriate Inquiry Rule established by EPA that is required for a client to use protections for prospective purchasers under CERCLA. The Phase I ESA includes a site reconnaissance, historical research, database searches, and reporting.
Continuing Obligations – In addition to the Phase I ESA, PSI can assist you in understanding and implementation other, post-transactional requirements of the User (Client).

Property Condition Assessments (PCA) to provide a comprehensive assessment of physical building and property conditions including pavement, roofs, HVAC, walls and other building components. Life expectancy and life cycle costs are prepared and provided in the PCA. PCA's are an important component of any due diligence period, especially when continued use of the existing structures planned.

PSI will perform the Phase I ESAs to search for evidence of recognized environmental conditions in connection with the subject property. PSI will perform Phase I ESAs in general accordance with ASTM E 1527-21, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM E 1527-21). PSI will perform the assessments under the supervision of an environmental professional as defined in 40 CFR 312.10.

The scope of services will include records review, site reconnaissance, interviews, and preparation of a report. PSI will review environmental regulatory database information regarding environmental conditions on and surrounding the subject property, physical setting sources, and historical information sources regarding the past uses of the property. We will also ask for and review other helpful documents regarding environmental conditions on the subject property provided from the client, the property owner, and key site manager (if any is identified).

- Phase II:

Should a Phase I ESA indicate environmental problems for the property in the form of recognized environmental conditions, a Phase II ESA is commonly performed. The Phase II ESA can vary widely in scope depending upon the nature of the recognized environmental condition(s) revealed in the Phase I assessment. The Phase II ESA commonly involves soil and groundwater sampling but may involve other types of sampling.

The results of the Phase II ESA is usually compared to the Texas Risk Reduction Plan (TRRP) action levels provided by the Texas Commission on Environmental Quality (TCEQ). If there are exceedances, there are various TCEQ approved methods to deal with them involving TRRP. Those methods are dependent upon the nature of the recognized environmental conditions being investigated and proposed site usage. In many cases, consultation and interaction with the TCEQ is warranted.

The results of the Phase II ESA will indicate the method or methods of achieving environmental closure of the investigated property with the concurrence of the TCEQ. As with the Phase I ESA, PSI will prepare a report of our findings and provide hard copies and a copy in pdf format. PSI will deliver the Phase II ESA Report in approximately fifteen to twenty (15 to 20) business days following authorization.

- Asbestos Survey and Sample Analysis:

Survey, sampling, and assessment are performed in general accordance with guidelines published by the EPA in 40 CFR Part 763 Subpart E, October 30, 1987, and Asbestos in Buildings: Simplified Sampling Scheme for Friable Surfacing Materials, EPA 560/5-85-030a, October 1985 ("Pink Book"); Guidance for Controlling Asbestos-Containing Materials in Buildings, EPA 560/5-85-024, June 1985 ("Purple Book"); Seventh Draft Report for Task 2-7, Guidance for Assessing and Managing Exposure to Asbestos in Buildings, Dale Keyes, et al, November 7, 1986.

Sampling Procedures:

PSI inspectors collect bulk samples of exposed and/or accessible materials identified as suspect asbestos-containing building materials (ACBM). Sampling is confined to those materials which are accessible, and which will not involve destruction of walls or other building elements, physical barriers, or the structural integrity of the item being tested.

The following is a list of materials normally sampled:

- Surfacing
- Acoustical/decorative plaster, fireproofing, and thermal insulation.
- Thermal System Insulation (TSI)
- Pipe insulation (lagging and/or fittings), boiler/tank insulation, breeching insulation, ductwork and air handler insulation.
- Miscellaneous
- Floor tiles and mastic, linoleum and mastic, ceiling tiles, acoustic tiles, blown-in insulation, and roofing materials.

*May either be sampled or assumed to be ACBM.

EPA sampling guidelines are used to determine sampling protocol, and sampling locations are chosen to be representative of the homogeneous sampling area.

Quantification - Accessible and/or exposed building materials which are suspected of containing asbestos are quantified in the field, either by actual measurement or estimation based on existing drawings.

Laboratory Analysis of Bulk Samples:

PSI analyzes bulk samples by Polarized Light Microscopy (PLM). The PSI laboratory has received accreditation from the National Voluntary Laboratory Accreditation Program (NVLAP) of the National Institute of Standards and Technology (NIST) for the analysis of asbestos fibers by Polarized Light Microscopy. Our Pittsburgh, Pennsylvania laboratory has received accreditation from the American Industrial Hygiene Association (AIHA) for PCM fiber counting.

Air Monitoring:

This service includes monitoring various aspects of the asbestos abatement project, performing air monitoring to ensure fiber levels are below allowed regulatory levels, and site clearance after the abatement project is finished.

Air monitoring during the removal and cleanup operations of an asbestos abatement project is required by OSHA regulation 29 CFR 1926.58. It is also vital to protect the health and interests of the client and building occupants. PSI construction inspectors will perform the following activities: on-site air monitoring as specified in the project manual, on-site laboratory analysis by PCM/NIOSH 7400 method, monitoring of decontamination procedures at site entry/exit, monitoring of containment maintenance by visual and instrumental inspection, interface with building representatives or representatives of regulatory authorities during site visits, observe that proper respiratory protection is utilized by all site personnel, and document discrepancies between contractor's actions and provisions of project specifications and recommend remedial actions.

Air quality records may indicate whether or not there are accidental leaks or faulty seals in barriers, whether or not the outside environment is being contaminated, and most of all, how clean the room finally is when ready for re-occupancy and public use.

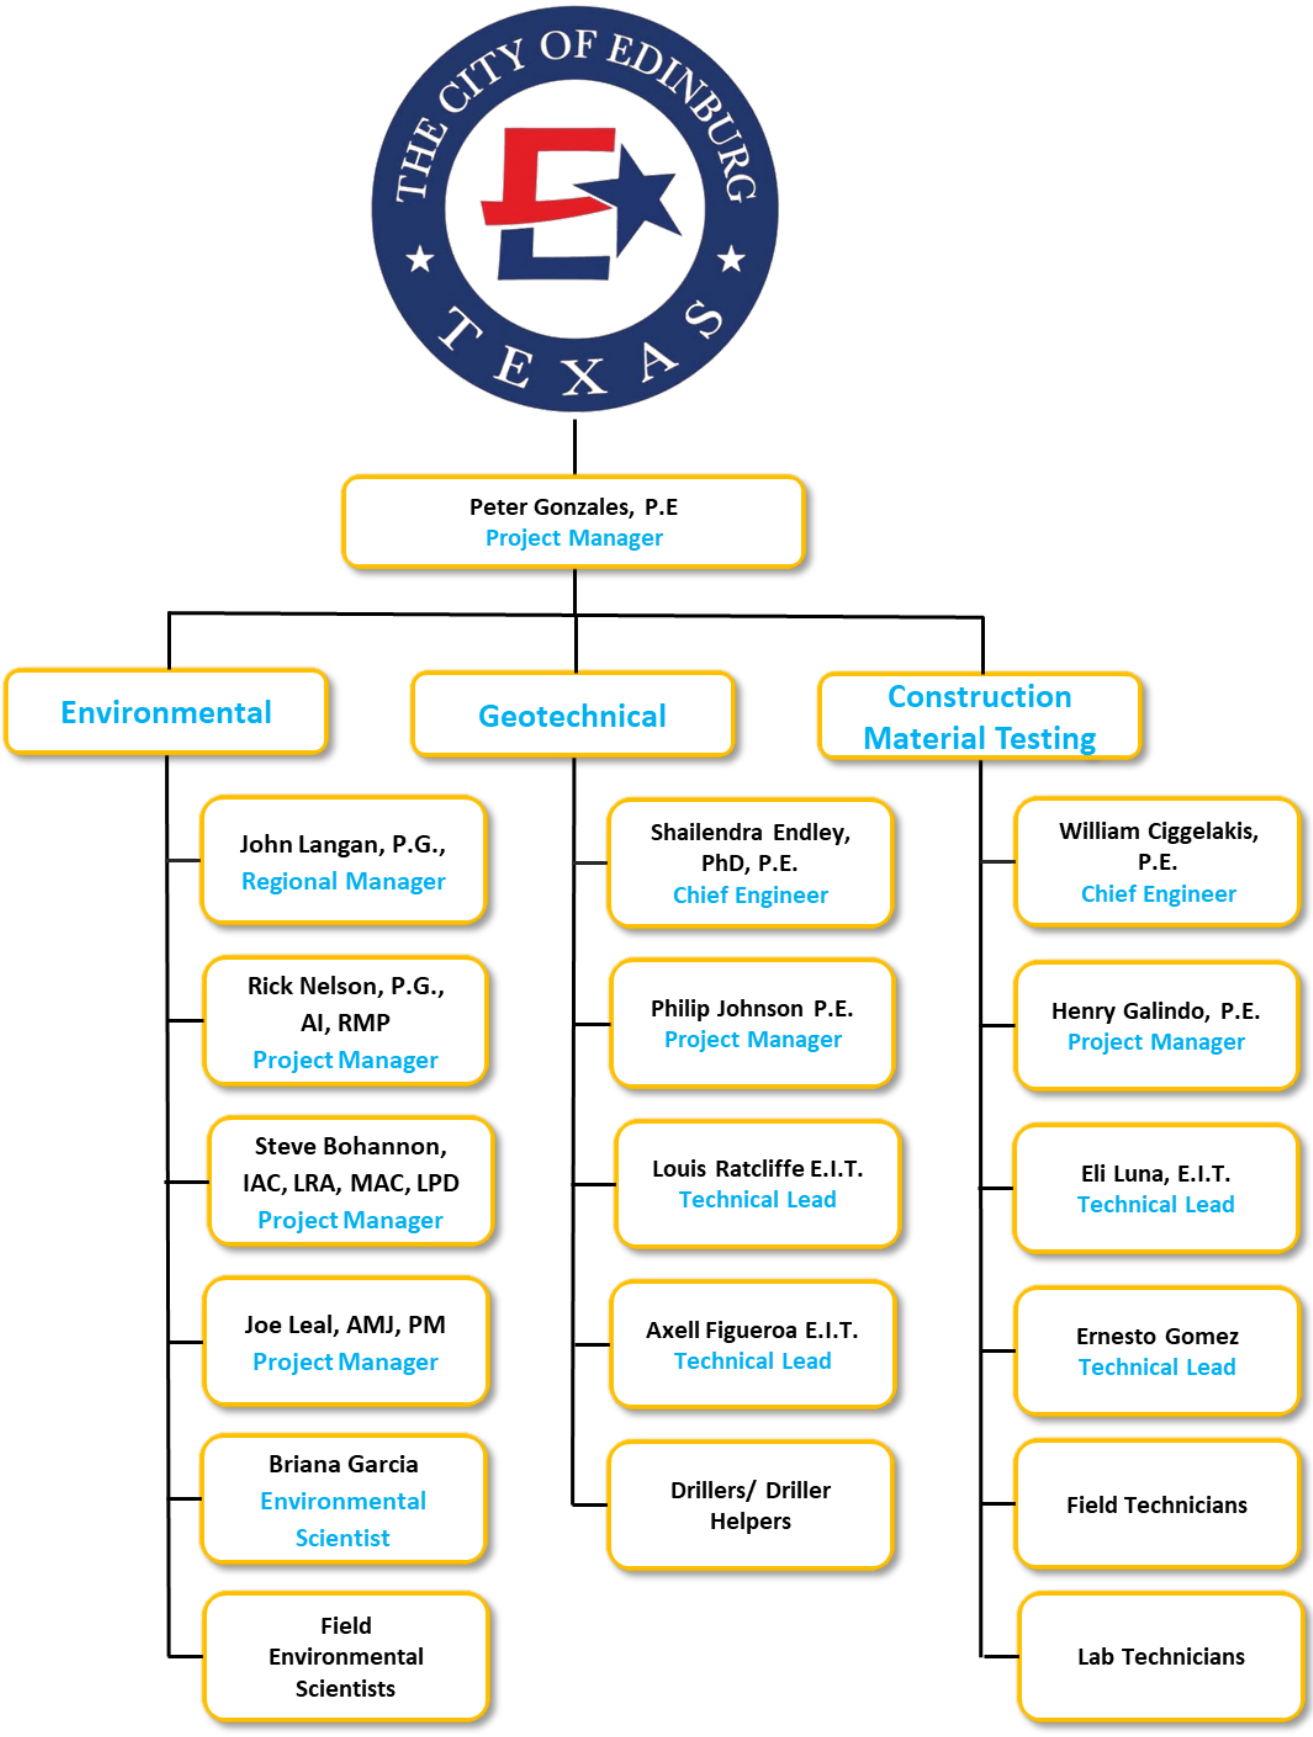
Post-Abatement Site Clearance:
At the conclusion of each asbestos abatement project, an inspection is done to evaluate the contractor's adherence to the contract. During the final inspection, PSI will document all omissions and discrepancies. These records will become part of the final document package provided to the client and include the following: project completion punch list, certificates of completion, coordination with EPA, OSHA and other agencies, and preparation of final project closeout. The appropriate project manager and his staff will assemble data to prepare a final project report containing the following:
- Air monitoring records
- Daily field reports
- Change orders (if any)
- Laboratory analysis results
- Final project punch list
- Certificate of completion signed by PSI's Project Manager

- Lead Based Paint Air Monitoring Services:

PSI offers services which will help organizations meet the lead abatement requirements of the Federal and State legislation. These services include the following:

Air Monitoring of abatement projects.
This service includes monitoring various aspects of the abatement project, performing air monitoring to ensure lead dust levels are below allowed regulatory levels, and wipe clearance after the abatement project is finished. PSI employs only qualified lead inspectors, who are proficient in the field, to perform or supervise all tasks. PSI inspectors supervise and direct testing and perform clearance testing and certification.

Air Monitoring & Testing:
Air monitoring during the removal and cleanup operations of a lead-based paint abatement project is vital to protect the health and interests of the client and building occupants. PSI construction inspectors perform the following activities: on-site air monitoring as specified in the project manual, monitoring of decontamination procedures at site entry/exit, monitoring of containment maintenance by visual and instrumental inspection, interfacing with building representatives or representatives of regulatory authorities during site visits, observing that proper respiratory protection is utilized by site personnel, and documenting discrepancies between contractor's actions and provisions of project specifications and recommend remedial actions.



Final visual inspection of the abatement is conducted, and the areas accepted before final air samples are collected. If required, PSI can perform final wipe testing to comply with procedures in the Guidelines (10.4.1 Surface Dust Sampling). These samples were taken by the construction inspector.

TEAM MEMBER QUALIFICATIONS AND EXPERIENCE

Submit resumes summarizing qualifications and experience of project manager, key staff and any support staff likely to be assigned to the work.

PSI has assembled an experienced team of professionals to provide responsive, high-quality services to the City of Edinburg. Mr. Peter Gonzales, P.E., will serve as the primary Project Manager and principal point of contact between the City and PSI's Harlingen office. He will oversee all construction materials testing projects, coordinating personnel, resources, scheduling, and quality assurance to ensure timely and effective project delivery. Mr. Gonzales may be reached at peter.gonzales@intertek.com. Mr. Philip Johnson, P.E., will serve as the lead Geotechnical Project Manager for all geotechnical assignments, providing technical oversight and engineering expertise. He may be contacted at philip.johnson@intertek.com. Mr. John Langan, P.G., will serve as the primary point of contact for all environmental projects, providing technical leadership and coordinating environmental services for the City of Edinburg. His email is john.langan@intertek.com

PSI has qualified staff to support any and all projects the City of Edinburg may have. On the next page is our proposed project team.

S. PETER GONZALES, P.E.

PROJECT MANAGER

STARTED WITH PSI: 2010 (16 YEARS) /YEARS IN INDUSTRY: 30+ YEARS

Education

- B.S., Ocean Engineering, Texas A&M University, College Station
- M.S., Civil Engineering, Texas A&M, University, College Station

Certifications/Registrations/Technical Training

- Registered Professional Engineer #97592, Texas
- TxDOT Precertification:
    - 12.1.3 Materials Engineering
    - 14.1.1 Soil Exploration
    - 14.2.1 Geotechnical Testing

Professional Experience

Peter Gonzales P.E. has 25 years of experience managing teams of engineers, construction inspections, special inspectors, engineering technicians, and administrative staff to provide projects. He has led teams of inspection services for commercial, institutional, municipal, and federal clients. His experience includes estimating level of effort, sampling and testing quantities and defining inspection scopes of work. His work also includes reviewing testing reports, inspection reports, and utility installation testing reports; preparing and submitting reports of required special inspections to the Registered Design Professional in Responsible Charge; interpreting plans, specifications, and geotechnical reports and implement testing programs to meet project requirements. He provides support to project teams to solve constructability issues; trains field and laboratory staff in the performance of ASTM, AASHTO and TxDOT Testing Methods. He serves as a mentor to project management staff in report writing, communications skills, and managing budgets. Mr. Gonzales develops and maintains department quality system, oversees proficiency sample program and interact with AASHTO re:source, CCRL, and USACE Materials Testing Center.

Representative Project Experience

- Monte Cristo Wind Project, Edinburg TX
- Ebony Winds Subdivision, Edinburg TX
- Valvoline Instant Oil Change, Edinburg TX
- Olive Garden #6535 Edinburg TX
- Stripes #42740 on Jackson and McAllen, Edinburg TX
- Sorrento Estates Phase 1, Edinburg TX
- Sunbelt Rental Parking Lot, Edinburg TX
- Las Villitas Apartments, Edinburg TX
- TxDOT Energy Sector Road Repair Project
- Pharr Bridge Expansion, City of Pharr, TX
- Acme Square SUBD & Minn Rd Exp, City of Pharr, TX
- Bocanegra Subdivision, City of Pharr, TX
- Pharr Logistics Center Phase I, City of Pharr, TX
- Border Wall and Fence 08&09 Construction – Rio Grande Valley, Texas
- City of Harlingen Street Improvements 2025, Harlingen TX
- Brownsville PUB Utility Projects, Brownsville TX
- Mote Cristo Wind Farm Edinburg, TX
- Walmart Remodel and Expansion Projects, Various Cities across TX
- Dollar General Retail Store Projects, Various Cities across TX
- Residential Subdivision Developments, South Texas Region
- Dimmit County Sportsplex – Carrizo Springs, TX
- Starbucks Hidalgo (Aug 2023) – Hidalgo, TX
- Switch Data Center Nap 4 & 5, Round Rock, TX
- First Station #24 City of San Antonio, TX
- Bastrop State Park Dam with Texas Park and Wildlife, Bastrop, TX

WILLIAM CIGGELAKIS, P.E.

CHIEF ENGINEER

STARTED WITH PSI: 1997 /YEARS IN INDUSTRY: 47

Education

- B.S., Civil Engineering, Rutgers University, 1977

Certifications/Registrations/Technical Training

- Professional Engineer, #52549, Texas
- TxDOT Personnel Sequence, #000002723 A2LA ISO 17025
- Examiner for Field Testing Technician (ACI), Grade I, Nationwide, 1985
- Examiner for Flat Work Finishers (ACI), Nationwide, 1985
- Examiner for Laboratory Technician (ACI), Nationwide, 1985
- Asphalt Mix Designs, Asphalt Institute
- Basics of Repair Materials, NRMCA
- Certifications (NRMCA), Nationwide
- Concrete Inspector (ACI), 318 Building Code
- Certified Nuclear Density Gauge Operator, #18329, Texas, 1991
- Repair & Rehabilitation of Concrete Structures, ACI
- Repair of Parking Structures (NRMCA)
- Repair of Slabs on Grade (ACI)
- Structural Concrete Repair Methods (NRMCA)
- Welding Inspections (AWS), 1980

Professional Experience

Mr. Ciggelakis is the Principal Consultant for the Construction Materials Testing Services and has approximately 47 years of Engineering Experience. He is Pre-Certified with Texas Department of Transportation in work category's 11.1.1-Roadway Construction Management and Inspection, 11.2.1-Major Bridge Construction Management And Inspection, 12.1.1 Asphaltic Concrete, 12.1.2- Portland Cement Concrete, 12.2.1 - Plant Inspection And Testing, 14.1.1-Soil Exploration, 14.2.1- Geotechnical Testing And 14.3.1-Transportation Foundation Studies. He is a national member of ACI and serves as a technical reviewer for the publication Concrete International. He is an examiner for the laboratory and field certification program for engineering technicians, as well as flat work finishers. He has been the testing services manager for many large and varied projects worldwide, including offshore oil terminal facilities, convention centers, high-rise buildings, international airport facilities and international corporate office headquarters. He has provided forensics and expert witness testimony for numerous concrete related issues.

Representative Project Experience

- City of San Antonio, San Antonio International Airport; CIP Project 426. Chief Engineer Materials Testing.
- City of Houston, George Bush Intercontinental Airport Runway 9-27;
- San Antonio Water System (SAWS) Geotech and CMT Testing Service Contract, San Antonio, TX Including Pipeline Construction, Utility Forensic Study and Repairs
- Valvoline Instant Oil Change, Edinburg TX
- Olive Garden #6535 Edinburg TX
- Stripes #42740 on Jackson and McAllen, Edinburg TX
- Sorrento Estates Phase 1, Edinburg TX
- Sunbelt Rental Parking Lot, Edinburg TX
- Pharr Bridge Expansion, City of Pharr, TX
- Acme Square SUBD & Minn Rd Exp, City of Pharr, TX
- Bocanegra Subdivision, City of Pharr, TX
- City of Harlingen Street Improvements 2025, Harlingen TX
- Brownsville PUB Utility Projects, Brownsville TX
- Monte Cristo Wind Farm Edinburg, TX
- Walmart Remodel and Expansion Projects, Various Cities across TX
- Dollar General Retail Store Projects, Various Cities across TX
- Seguin ISD Transportation, Seguin TX
- WB-Ball Early Childhood Center, Seguin, TX
- Navarro ranch unit 1D, Lennar, Seguin

HENRY GALINDO, P.E.

DEPARTMENT MANAGER FOR CONSTRUCTION MATERIALS TESTING

STARTED PSI: 2016 /YEARS IN INDUSTRY: 32

Education

- B.S., Civil Engineering, UT Austin, 1990

Certifications/Registrations/Technical Training

- Professional Engineer #92345, TX
- ASFE Fundamentals of Professional Practice, 2003
- ACI Concrete Field-Testing Grade I

Professional Experience

Mr. Galindo has over 32 years of experience in the geotechnical and materials testing field. His responsibilities involve leadership and oversight of Construction Materials Testing Services including sales and business development. His work also includes preparation of cost estimates and proposals, schedule coordination, report writing, staffing, and obtaining and maintaining clients. His primary technical background is in Geotechnical Engineering, as he has vast experience and knowledge with geotechnical field and laboratory investigations, roadway pavement design, deep and shallow foundation systems, retaining wall and below-grade wall design, ground improvement and site preparation, and construction materials testing and procedures.

Representative Project Experience

- TxDOT Loop 499 Sidewalk Project, Harlingen TX
- 2022 Street Improvement Program, Harlingen TX
- Bert Ogen Subdivision Phase 1, Pharr TX
- Sludge Dewatering Facility, Harlingen TX
- City of Primera Street Improvements, Primera TX
- PCCA Project No. 20-040B, Bulk Terminal Rail Expansion, Port of Corpus Christi
- PCCA Project No. 21-027ª, West Bulk Terminal Access Road, Port of Corpus Christi
- BPUB Utility Projects, Brownsville TX
- City of Harlingen Street Improvements 2025
- Montel Ceilo Subdivision Phase II, City of Weslaco
- Water Booster Pump Station, City of Roma
- Animal Shelter Extensions, City of Harlingen
- Northwest Police Substation, City of Corpus Christi
- Public Works Department Concrete, City of Kingsville
- Central Park Community Phase II, Brownsville TX
- Sunoco LP Energy, Brownsville TX
- Pipe Testing 2023, Brownsville TX
- Various Bus Stop Improvements, Brownsville TX
- Palo Alto II Subdivisión, Brownsville TX
- IDEA Sports Park Subdivision, Brownsville Public Utilities Board
- Valley Medical Center, Brownsville TX
- Falfurrias Checkpoint Bollards, Encino TX
- City of Primera Street Improvements,
- Port of Brownsville Water & Sewer Line
- Paredes Line Road Subdivision, Brownsville TX
- Port of Harlingen Additions, Harlingen TX

ELI LUNA, E.I.T.

PROJECT ASSISTANT

STARTED WITH PSI:2016/ YEARS IN INDUSTRY: 3

Education

- B.S., Civil Engineering, University of Texas at Rio Grande Valley, 2022

Certifications/Registrations/Technical Training

- Engineer in Training Texas #77389

Professional Experience

Mr. Luna is a Project Assistant with experience supporting construction materials testing and inspection services for commercial, institutional, municipal, and federal clients. He has coordinated field and laboratory testing activities, reviewed project specifications, monitored testing programs, and assisted in the evaluation of construction materials to verify compliance with project requirements and applicable industry standards. His experience includes developing scopes of work, preparing cost proposals, managing schedules, and coordinating field personnel to meet client expectations, budgets, and project timelines.

Representative Project Experience

- Valvoline Instant Oil Change, Edinburg TX
- Olive Garden #6535 Edinburg TX
- Stripes #42740 on Jackson and McAllen, Edinburg TX
- Sorrento Estates Phase 1, Edinburg TX

- State Highway 286 Waterline – Corpus Christi, TX.
- Alameda St. Pavement – Corpus Christi, TX.

ERNESTO GOMEZ

PROJECT ASSISTANT

STARTED WITH INTERTEK- PSI: 2010 /YEARS IN THE INDUSTRY: 36+

Education

- High School Diploma- John Marshall High School

Certifications/Registrations/Technical Training

- Project Management Certification Program, PSI YEAR 2011
- Certified Moisture/Density Gauge Operator
- TXDOT SuperPave Certified Technician
- Asphalt Institute SuperPave Certified Technician
- TXDOT Level 1A Certified Asphalt Plant Specialist
- TXDOT Level 1B Certified Asphalt Roadway Specialist
- TXDOT Agg 101 Certified Aggregate Specialist
- TXDOT Level II Certified Asphalt Design Specialist

Professional Experience

Mr. Gomez has over (36) years of quality control experience in construction materials testing and inspection services. During that time, he has conducted reinforcing steel inspections, drilled pier shaft inspection, concrete testing, field density testing and extensive asphalt materials inspection and testing. His laboratory experience includes soil moisture-density relations, sieve analysis of soil, aggregate, and asphalt. Site experience includes City of San Antonio Street Renovation projects, hospitals, TXDOT and military projects, schools, residential and commercial projects. He serves as a Project Manager and as an Asphalt Supervising Laboratory and Field technician Supervisor for PSI.

Representative Project Experience

- Southwest TX College Parking – Uvalde, TX
- W. Commerce (Frio to Colorado St), San Antonio Texas
- Fire Station no 24, San Antonio Texas.

SHAILENDRA ENDLEY, PH.D., P.E.,

CHIEF ENGINEER

STARTED WITH PSI: 1988 /YEARS IN INDUSTRY: 50

Education

- Ph.D., Geotechnical Engineering, University of Wisconsin
- M.S., Geotechnical Engineering, University of Cincinnati
- B.S., Civil Engineering, Rookee University, India

Registrations

- Professional Engineer, #44485, TX
- Professional Engineer, #24996, LA

Professional Experience

Dr. Endley has over 50 years' geotechnical engineering experience and currently serves as the Chief Engineer for PSI Southwest region. He has completed and managed hundreds of projects involving geotechnical investigation for governmental, commercial, industrial and manufacturing agencies in the Texas Gulf Coast area, Dr. Endley has designed a variety of foundation systems including footing, mats, piles and piers in soil and rock environment. Recognized as an expert in this field, Dr. Endley has published more than 30 technical papers & is an adjunct professor at Texas A&M and University of Houston.

Representative Project Experience

- CPS Energy Transmission Line, San Antonio, Tx
- CPS Energy Braunig/Calaveras Lake Embankment, Monitoring and Recommendations – San Antonio,TX
- Beuscher State Park Dam, Spillway Replacement and Embankment Crest Restoration Project. Provided the Geotechnical Engineering for the Crest restoration project.
- CPS, Transmission Line Reconstruction Westside Substation to Merida Substation, San Antonio, Texas
- ONCOR Kyle Ranch Transmission Line – Orla, TX
- Highland Hills Substation, CPS Energy
- South Texas Electric Cooperative Inc.- McCoy Substation, McCoy, Tx.
- C1 San Antonio V TRP LLC, Cyrus One Substation San Antonio, Tx
- Lonestar Electric Supply, Warehouse, San Antonio, Tx.
- SH 130, Toll Road, Austin, Texas (10/02 to 02/06) – 49-mile Toll road from Georgetown to South Austin
- TxDOT Bridge Division – various bridges over creeks in Dallas, Austin & Houston
- Texas Park & Wildlife - Stephan F. Austin State Park, Austin, Texas
- Texas Parks & Wildlife - GT Deepwater Pipeline Project
- Oiltanking - Above ground gasoline storage tank farms, Houston, TX
- Warren Relocation Power Plants- Jacinto & Shepherd, TX
- HCFCD P500-02-00 West Greens Road Detention Pond Expansion, Houston Texas
- Universal Ensco - Compressor Stations and underground Pipeline projects, Houston, TX
- Pasadena Refinery - Low sulfur gasoline project and above ground storage tank, Pasadena, TX
- Brownsville Navigation District Oil Dock #6, Brownsville, Texas
- Texas State University Housing Phase I, San Marcos, TX
- Concordia University Texas Sports Complex, Austin, Texas
- UTSA Student Housing, San Antonio, Texas
- University of Houston Victoria UHV Health & Wellness Center
- University Incarnate Word Hall Renovation, San Antonio Texas

PHILIP L. JOHNSON, P.E.

PROJECT MANAGER

STARTED WITH PSI: 2018 /YEARS IN THE INDUSTRY: 41+

Education

- B.S., Geological Engineering, New Mexico Institute of Mining & Technology

Certifications/Registrations/Technical Training

- Registered Professional Engineer: Texas 69142, New Mexico 11022, Oklahoma 22684, Arkansas 12824
- TCEQ LPST Project Manager #PM0000341
- TXDOT Pre-Certified: 3.2.1, 4.3.1, 8.1.1, 8.3.1

Professional Experience

Mr. Johnson has over 41 years of experience in geotechnical engineering, construction materials testing and environmental consulting and is currently serving as a Geotechnical Project Manager for seven years in PSI. He has worked throughout New Mexico; south, central and west Texas. He has led geotechnical engineering departments, provided operations management for several small to moderate-sized offices and directed construction materials testing departments with up to 20 full- time field technicians. He has provided engineering design and recommendations for projects that include roadways and bridges, railroads, airport runways, taxiways and cargo ramps, multi-story buildings, industrial buildings and complexes, towers, industrial parks, primary and secondary educational facilities, parking garages, retaining structures, lagoons, pipelines and treatment plants. He has also capitalized on his strong geological and geotechnical expertise for development of materials pits and quarries, forensic studies and expert testimony.

Representative Project Experience

LOUIS RATCLIFFE, E.I.T.

PROJECT ASSISTANT

STARTED WITH PSI: NOVEMBER 2022/YEARS IN INDUSTRY: 3

Education

- B.S. in Civil Engineering from South Dakota School of Mines and Technology,
- M.S. in Civil Engineering from South Dakota School of Mines and Technology,
- Graduate Certificate in Construction Management from South Dakota School of Mines and Technology,

Certifications/Registrations/Technical Training

- E.I.T #77272
- OSHA 30 – Construction
- Project Management Certification Program, Intertek -PSI.

Professional Experience

Mr. Louis Ratcliffe has 3 years of experience in the field of Geotechnical Engineering and serves as Project Manager at PSI. He has been involved at all levels of geotechnical and forensics projects including field coordination, laboratory testing and providing geotechnical recommendations within San Antonio and South Texas.

Representative Geotechnical and Construction Services Project Experience

- Commerical Plaza, Raymondville TX

AXELL A. FIGUEROA CERRATO, E.I.T.

PROJECT ASSISTANT

STARTED WITH PSI: 2024 /YEARS IN INDUSTRY: 4

Education

- M.S. in Civil Engineering, University of Texas at San Antonio, 2024. "Time-Cost-Settlement Relationship for Selection of Soil Improvement Methods for Bridge Approach Embankments", 2024 Author.
- B.S. in Civil Engineering, National Autonomous University of Honduras, 2019

Certifications/Registrations/Technical Training

- Engineer in Training No.: Texas 84125

Professional Experience

Axell has experience conducting subsurface investigations for residential, commercial, medical, and industrial facilities. He has supervised drilling operations and in-situ testing programs, including standard penetration testing, undisturbed sampling, dynamic cone penetration testing, and the installation of piezometers. His geotechnical background includes analyzing existing site conditions and providing recommendations for foundation and pavement design, site preparation, and the reuse of onsite soils. Axell is also skilled in evaluating potential vertical rise, bearing capacity, and settlement risks, and assessing in-situ slopes for potential safety concerns. In addition, he has experience conducting site evaluations for limited condition assessments of facilities to develop remedial and mitigation recommendations. He also has assisted in materials testing such as rebar pull-out tests, asphalt and concrete testing, and assessing the compression strength of construction materials.

RICK NELSON, P.G., AI

PROJECT MANAGER

STARTED WITH PSI: 2023 (3 YEARS) /YEARS IN INDUSTRY: 37+

Education

- B.S., Geological Sciences, University of Texas

Certifications/Registrations/Technical Training

- Professional Geologist, State of Texas (PG# 15453)
- TCEQ LPST Corrective Action Project Manager (CAPM# PM0000776)
- National Radon Proficiency Program- Measurement Professional (NRRP# 112902)
- Licensed Asbestos Inspector, #604190, Texas
- EPA / AHERA Accredited Asbestos Inspector

Professional Experience

Mr. Nelson has over 37 years of experience in the environmental industry and 20 years of experience in management of environmental assessment projects. He has conducted Environmental Site Assessments (ESAs) for a wide range of local and national clients, including banks, agency lenders, investment banks, life companies, law firms and property owners. The properties he has evaluated have included oil and gas, manufacturing, industrial, commercial, multifamily residential, retail, and office facilities. Mr. Nelson has conducted Geological Assessments, ESAs in accordance with ASTM E1527, the USEPA All Appropriate Inquiry rules, Fannie Mae Delegated Underwriting Standards, Freddie Mac guidelines and other client specific scopes of work. Based on his experience and education, he meets the definition of an Environmental Professional as defined in §312.10 of 40 CFR 312. His environmental background includes a detailed understanding of the risks associated with hazardous and regulated materials storage, use, generation and disposal, above ground and underground storage tanks and polychlorinated biphenyls (PCBs), as well as the ASTM non-scope considerations of asbestos, lead-based paint, radon and microbial growth. Mr. Nelson has in-depth knowledge of regulatory guidelines and compliance requirements with numerous Federal, State, and local government agencies. Mr. Nelson has also performed numerous environmental assessments followed by design and installed remediation systems and other program requirements. He has performed asbestos, lead-based paint, radon, methane, and surface water and groundwater surveys to include sampling and analysis.

Representative Environmental Services Project Experience

- IDEA Quest Phase 1, Edinburg TX
- Starbucks #19967 Asbestos Testing West University, Edinburg TX
- Domain Development Corporation Phase 1, Edinburg TX
- 7 Brew House Drive-through Coffee Indoor Air Quality, Edinburg TX
- Car Wash Edinburg Phase 1, Edinburg TX
- Car Wash Edinburg Asbestos Testing, Edinburg TX
- CBG Juniors Business Park Phase 1, Edinburg TX
- Dutch Bros Phase 1, Edinburg TX
- Met Center, Bldg. 2B, 8000 Metropolis Drive, Austin, TX 78722. Performed Radon Measurement Survey.
- River Pointe Apartments, San Angelo, TX. Performed Phase I Environmental Site Assessment, Radon and Mold Surveys.
- Horizon Apts- SA Radon. San Antonio, TX. Performed Radon Measurement Survey
- Salvation Army, Corpus Christi, TX. Performed Radon Measurement Survey.
- Tejas Apartments, Bay City, TX. Performed Radon Measurement Survey.
- 1.274 Acre Commercial Restaurant Site, 1601 N. Interstate Highway 35, Austin, TX 78702. Project Scientist performed Phase I Environmental Site Assessment.
- Proposed VA Clinic, Round Rock, Texas. Project Scientist performed Phase I Environmental Site Assessment.
- Georgetown Airport RD, Georgetown, TX. performed a TCEQ Geologic Assessment.
- 25.78-acre Tract- NE of State Highway 29 and Interstate 35 1101 S. IH-35 and 921 University Avenue West, Georgetown, Williamson County, Texas. Project Scientist performed Geological Assessment.

STEVE BOHANNON, IAC, LRA, LPD, MAC

PROJECT MANAGER

STARTED WITH PSI: 2017 (9 YEARS) /YEARS IN INDUSTRY: 35+ YEARS

Education

- B.S. in Geology, University of Oklahoma
- MBA in Healthcare Management, American InterContinental University

Certifications/Registrations/Technical Training

- Asbestos Individual Consultant, Texas Department of State Health Services #105652, (18 years)
- Lead Abatement Project Designer, Texas Department of State Health Services #2090090 (7 years)
- Lead-Related Construction Certificate, Lead Inspector/Assessor, California Department of Public Health LRC-00002078, (24 years)
- Lead Inspector, Texas Department of State Health Services #2071271 (5 years)
- Mold Assessment Consultant, Texas Department of Licensing and Regulation, #MAC1835 (4 years)

Professional Experience

Mr. Bohannon has over 32 years of experience performing asbestos, lead-based paint and air quality surveys and abatement projects. He performed an asbestos building survey at Norton AFB, San Bernardino, CA; served as the site manager on an Air Force proving range remediation project; and participated in ferrous and aluminum scrap salvage operations and unexploded ordnance (UXO) recovery.

Representative Project Experience

- IDEA Quest Phase 1, Edinburg TX
- Starbucks #19967 Asbestos Testing West University, Edinburg TX
- Domain Development Corporation Phase 1, Edinburg TX
- 7 Brew House Drive-through Coffee Indoor Air Quality, Edinburg TX
- Car Wash Edinburg Phase 1, Edinburg TX
- Car Wash Edinburg Asbestos Testing, Edinburg TX
- CBG Juniors Business Park Phase 1, Edinburg TX
- Dutch Bros Phase 1, Edinburg TX
- TXDOT Harbor Bridge soil and groundwater testing
- NESHAP Demolition Asbestos Survey at Harbo Bridge with Blanton & Associates
- Holt Cat Warehouse in Corpus Christi – asbestos abatement air monitoring
- City of San Antonio Green & Healthy Homes lead paint, asbestos, and mold inspections
- Seminary of the Southwest (SoSW) Austin, TX. Collected 186 bulk samples of suspect asbestos containing materials (ACM) from the Booher Library and adjacent Classroom Building at 606 Rathervue Pl, Austin, TX 78705.
- Texas State University, San Marcos, TX - provided air monitoring and project monitoring services during the removal of asbestos-containing materials
- St. Mary's University provided air monitoring and project monitoring services during the cleanup and removal of asbestos-containing materials
- Austin Independent School District (AISD); Austin, TX - Retained by Austin Independent School District (AISD) to provide air monitoring and project monitoring services during the removal of asbestos containing
- Coupland Independent School District (CISD); Coupland, TX - Retained by Coupland Independent School District (ISD) to provide air monitoring and project monitoring services during the removal of asbestos-containing materials
- Skanska USA Building, Inc. Houston, Texas - Collected 245 bulk samples of suspect asbestos containing materials (ACM) from the City of San Antonio Tower at 100 West Houston Street, San Antonio, TX 78205. Supplemental samples were collected during active abatement and renovation activities within the building when hidden materials were encountered or to rebut the presence of asbestos in some of the materials, and to supplement the previous asbestos inspections that had occurred within the building.

JOE LEAL, AMJ, PM

PROJECT MANAGER

STARTED WITH PSI: 2000 (26 YEARS) /YEARS IN INDUSTRY: 30+

Education

- AA in Drafting, treasure Valley Community College
- AA in CADD

Certifications/Registrations/Technical Training

- EPA AHERA Asbestos Air Monitoring Technician #705937, Texas 2021 (4 years)
- EPA AHERA Asbestos Project Manager #500822, Texas 2021 (4 years)
- EPA AHERA Asbestos Inspector, #302035, Texas 2021 (4 years)
- NIOSH 582, 2021

Memberships/Affiliations

- Asbestos Analysis Registry (AIHA) #8532 2021 (4 years)

Professional Experience

Mr. Leal has six (6) years of experience in pencil drawing architectural, structural and mechanical drafting. He has four (4) years of supervisory experience, which included responsibilities for production, inputting of data and decision making. He has twenty 20 years of experience in asbestos inspections, air monitoring, air sample analysis and project managing asbestos abatement projects. He has ten (10) years of experience in mold consulting and lead risk assessments.

Representative Project Experience

- IDEA Quest Phase 1, Edinburg TX
- Starbucks #19967 Asbestos Testing West University, Edinburg TX
- Domain Development Corporation Phase 1, Edinburg TX
- 7 Brew House Drive-through Coffee Indoor Air Quality, Edinburg TX
- Car Wash Edinburg Phase 1, Edinburg TX
- Car Wash Edinburg Asbestos Testing, Edinburg TX
- CBG Juniors Business Park Phase 1, Edinburg TX
- Dutch Bros Phase 1, Edinburg TX
- City of San Antonio Green & Healthy Homes, San Antonio, TX. Performed lead-based paint services.
- Comal County Annex. Bldg. – New Braunfels, TX. Lead and asbestos surveys.
- Texas State University; San Marcos, Texas: Asbestos Inspection of several buildings at the university.
- Trinity University; San Antonio, Texas: Inspecting Northrup Hall for the presence of asbestos.
- Elgin ISD; Elgin, Texas: Inspecting an Elgin High School modular building for the presence of mold by utilizing visual, swab and air testing methods. Investigated the cause of mold found and suggested a course of action to correct the problem.
- Ft. Hood Army Base, Killeen, Texas: Inspecting the base headquarters and the Carl R. Darnell Army Medical Center Building 36000 for asbestos.
- Lackland Air Force Base, San Antonio, Texas: Inspecting buildings 10650 and 10802 for the presence of lead-based paint utilizing an XRF (X-Ray Florescence Analyzer)
- Davis Middle School, Austin ISD; Austin, Texas: Air monitoring technician for running baseline air samples, project manager during the abatement process and performing visual inspections and collecting clearance air samples for analysis by TEM (Transmission Electron Microscopy) then monitoring teardown of the containment.
- GW Mitchell; San Antonio, Texas: Prepared specifications for the abatement of asbestos-containing building materials, project management of the project, client consultation, air monitoring, visual inspection and clearance testing.
- Texas Department of Transportation; San Marcos Texas: Inspected several buildings for the presence of mold by utilizing visual, swab and air testing methods.
- The George Gervin Academy; San Antonio, Texas: Inspecting the school for the presence of mold by utilizing visual, swab and air testing methods.

BRIANA GARCIA

ENVIRONMENTAL SCIENTIST

STARTED WITH PSI: 2019 /YEARS IN INDUSTRY: 7

Education

- Bachelor Of Science In Environmental Science, University Of Texas At Rio Grande Valley, 2018

Certifications

- Osha 40-Hour Hazardous Waste And Emergency Response (Hazwoper) Certification, 2017
- Environmental Professional, Phase I Esa, Psi

Professional Experience

Ms. Garcia Is A Local Graduate Of UTRGV Environmental Science Program. Ms. Garcia Is A Project Manager And Is Responsible For Coordinating And Managing The Environmental Services For The Psi Harlingen Office. Her Duties Include Conducting Phase I And Phase II Environmental Site Assessments, Environmental Groundwater And Soil Sampling, Asbestos, Mold And Lead-Based Paint Investigations And Inspections, Environmental Field Coordination, Laboratory Data Analysis And Preparation Of Environmental Reports.

Representative Project Experience

REFERENCES

Provide at least three (3) references (names and current phone numbers) from recent work and List all past projects with the City of Edinburg for each proposed team member. Include a brief description of the projects associated with the reference, and the role of the individual.

1) City of Harlingen Street Improvements 2025

Our team provided geotechnical and construction materials testing services for multiple street improvement projects throughout the City of Harlingen. Services included asphaltic pavement testing (cores, extraction, density), compaction testing for utility trenches, and concrete testing for sidewalks, driveways, curbs, and gutters. Quality control oversight was also performed to ensure compliance with municipal specifications.
PSI Staff: Peter Gonzales P.E., Philip Johnson P.E., Eli Luna E.I.T., Louis Ratcliffe E.I.T.
Relevance: This project demonstrates our direct experience supporting municipal infrastructure improvements through geotechnical testing and quality control.
Contract Value: $15,136.00 (PSI fees) (IDIQ contract)
Completion Date: on-going
Contact: Isac Ramirez, City of Harlingen
P: 956.244.2785
isacr@harlingenTX.gov

2) Brownsville PUB Utility Projects

Our firm provided field quality control and construction materials testing for various utility projects managed by the Brownsville Public Utilities Board. Services included utility trench compaction and density testing for water and sanitary sewer installations, as well as field density testing of bedding, backfill, and final trench sections to ensure compliance with municipal specifications and project plans.
PSI Staff: Peter Gonzales P.E., Eli Luna E.I.T.
Relevance: This project showcases our direct experience with utility infrastructure construction and our ability to deliver timely and accurate field-testing services.
Contract Value: open contract with a schedule fee unit rate
Completion Date: on-going
Contact: Marie Leal
P: 956.983.6572
mleal@brownsville-pub.com

3) Residential Subdivisions for the City of Weslaco

Our team provided comprehensive construction materials testing services in support of multiple residential subdivision developments. Services included soil compaction and density testing for streets, lots, and utility trenches; concrete testing for sidewalks, curbs, driveways, and stormwater structures; and field and laboratory testing for subgrade, base, and pavement materials.
PSI staff: Peter Gonzales P.E., Eli Luna, E.I.T., Ernesto Gomez
Relevance: This project highlights our extensive experience supporting residential infrastructure developments through geotechnical testing, quality control, and compliance with municipal and engineering specifications.
Contract Value: Varies by subdivision development (multiple contracts with a schedule fee unit rate)
Completion Date: 2023 to on-going
Contact: Peter Hermida, P.E.
P: 956-973-3130
phermida@weslacoTX.gov

4) El Paso Community College RFQ #21-008

PSI initiated quarterly groundwater sampling and analysis, a receptor survey, a drinking water report and regulatory reporting to comply with TCEQ directives regarding the assessment of a groundwater contamination plume associated with a former underground storage tank (UST) system at a former automobile dealership. This work was a follow up to our earlier Phase II and asbestos survey services conducted to assist in site redevelopment. An application for site closure has been submitted to the TCEQ to obtain a concurrence of no further action required.
PSI Staff: Rick Nelson P.G., Steve Bohannon
Relevance: This project demonstrates PSI's experience with groundwater investigations, regulatory compliance, and environmental reporting for public infrastructure and development projects.
Contract Value:
Completion Date: March 2023
Contact: Al Trujillo
P: 915-831-6550
atruji20@epcc.edu

5) 2000-Acre Vann River Rance Phase 1

PSI provided Phase I Environmental Site Assessment (ESA) services for a commercial property in advance of its market listing. The assessment included a comprehensive review of historical records, regulatory databases, and site conditions to identify potential recognized environmental conditions. By completing the environmental due diligence prior to listing, PSI helped the client better understand potential environmental liabilities and supported a more informed and efficient property transaction.
PSI staff: John Langan P.G., Joe Leal, AMJ, PM
Relevance: Demonstrates PSI's experience assessing environmental conditions to facilitate property acquisition, redevelopment, and infrastructure improvements while ensuring compliance with applicable environmental regulations.
Contract Value: Work completed under and IDIQ contract that includes geotechnical, material testing, and environmental consulting
Completion Date: November 2024
Contact: Lydia Reynolds
P: 512-389-4507
Lydia.reynolds@tpwd.texas.gov

6) Medical Office Building – Phase 1

PSI performed a comprehensive Phase I Environmental Site Assessment for a newly acquired medical office building located near Judson Road and Gunn Road. The assessment included a review of historical records, regulatory databases, and site conditions to identify potential recognized environmental conditions. By providing timely and thorough environmental due diligence services, PSI helped the client evaluate potential environmental liabilities and make informed decisions regarding the property acquisition.
PSI staff: John Langan, P.G., Steve Bohannon, IAC, LRA, MAC, LPD
Relevance: Demonstrates PSI's ability to perform environmental due diligence by evaluating potential environmental liabilities and providing information to support project planning and regulatory compliance.
Contract Value: $2,400.00 (PSI Fees)
Completion Date: April 2026
Contact: Bobby McGee
P: 512-917-7247
bobby@escaleracapital.com

While PSI has not performed work for the City of Edinburg we have completed work for Cities in the surrounding area.

PROFESSIONAL SERVICES AGREEMENT

Provide a statement that the Professional Services Agreement has been read, that the firm will meet the prerequisite insurance requirements, and the firm, if selected, agrees to enter in to such agreement.

Professional Services Industries, Inc., has read the model Professional Services Agreement ("Agreement") in the RFQ and confirms that we will meet the prerequisite insurance requirements, and, if selected, we agree to enter into the Agreement, substantially in accordance with its terms, including the requested changes identified in our response to the RFQ, as may be mutually agreed to by the parties.

Section 7 - Minium Insurance Requirements

F. Evidence of the above insurance coverage is attached as Exhibit "B" and the City of Edinburg shall be listed as an additional insured.

G. Intentionally Omitted ~~If at any time and for any reason Consultant fails to provide, maintain, keep in force and effect, or deliver to the City proof of, any of the insurance required and such failure continues for ten (10) days after Notice thereof from City to Consultant, City may, but shall have no obligation to, procure single interest insurance for such risks covering City (or, if no more expensive, the insurance required by this Agreement), and Consultant shall, within ten (10) days following City's demand and Notice, pay and reimburse City therefor with interest at Prime Rate plus 2%, the Prime Rate being that in place on the date of Notice, from the date of payment by the City until repayment of City in full by Consultant.~~

H. With respect to each and every one of the insurance policies required to be obtained, kept, or maintained under the terms of this Agreement, on or before the date on which each such policy is required to be first obtained and at least fifteen (15) days before the expiration of any policy required hereunder previously obtained, Consultant shall deliver evidence reasonably acceptable to City showing that such insurance is in full force and effect.

Section 10 – Identification clause

SECTION X
INDEMNIFICATION

A. To the maximum extent allowed by law, Consultant agrees to and shall indemnify ~~,and~~ hold harmless ~~, and defend~~ City, its officers, agents, and employees from any all claims, losses, causes of action and damages, suits and liability of every kind, including all expenses of litigation, court costs, and attorney's fees for injury to or death to any person or for damage to any property, to the extent arising ~~out of or~~ directly ~~connected~~ from ~~with~~ the negligent or willful conduct of Consultant, its agents, officers and employees, ~~carried out~~ in ~~furtherance~~ performing the Services under ~~of~~ this Agreement.

B. Consultant agrees to assist City in defense of claims or litigation brought against the City related to ~~this project, including any claims related to design or any other~~the services provided by consultant regarding this agreement.

Section 11 – Limitation of Liability

SECTION XI
LIMITATION OF LIABILITY

A. Consultant agrees to limit the City's liability arising from City's acts, errors, or omissions such that the total liability of City shall not exceed Consultant's total fees paid by the City to Consultant for the Services rendered pursuant to the Task Order which is the subject matter of the claim. Consultant agrees that City will not be liable for any indirect, incidental, special, or consequential punitive or multiple damages, including without limitation any damages resulting from loss of use, loss of business, loss of revenue, loss of profits, or loss of data, arising in connection with this Agreement, Consultant's performance of Services, or of any other obligations relating to this Agreement, even if City has been advised of the possibility of such damages. The foregoing limitation of liability shall apply to the maximum extent allowed by law for limitation of City's liability, regardless of the cause of action under which such damages are sought.

B. City agrees to limit the Consultant's liability arising from the Consultant's negligent or willful acts, errors, or omissions such that the total liability of Consultant shall not exceed Consultant's total fees paid by the City to Consultant for the Services rendered pursuant to the Task Order which is the subject matter of the claim. City agrees that Consultant will not be liable for any indirect, incidental, special, or consequential punitive or multiple damages, including without limitation any damages resulting from loss of use, loss of business, loss of revenue, loss of profits, or loss of data, arising in connection with this Agreement, Consultant's performance of Services, or of any other obligations relating to this Agreement, even if Consultant has been advised of the possibility of such damages. The foregoing limitation of liability shall apply to the maximum extent allowed by law for limitation of Consultant's liability, regardless of the cause of action under which such damages are sought.

~~A.~~C. The Parties agree that neither Party's individual employees, officers or directors shall be subject to any personal liability related to this Agreement or the Services provided pursuant to the Agreement.

REQUIRED FORMS

Conflict of Interest

CONFLICT OF INTEREST DISCLOSURE

Prospective contractors should carefully consider whether any of their activities may give rise to an improper conflict of interest situation. Conflict of interest situations that are not properly addressed can result in a loss of funding to a specific program and/or to the City of Edinburg, and in some cases can result in civil or criminal liability.

Organizations that may enter into a contract with the City of Edinburg should examine the following:

- Are any employees or board members of the organization,
  - a City of Edinburg employee or consultant who exercises program or project specific functions as part of their City position?
  - a member of a Board, Council or Committee that may participate in the City's selection or award process?
  - a City Official?

- Are any immediate family members or business associates of my employees or board member's,
  - a City of Edinburg employee or consultant who participates in the City's selection or award process as part of their City position?
  - a member of a Board, Council or Committee that may participate in the City's selection or award process?
  - a City Official?

- Will any of my employees or board members receive a financial interest or benefit from any project funded and administered through the City (other than employee salaries or personnel benefits)?

- Will any immediate family members or business associates of my employees or board members receive a financial interest or benefit from any project funded and administered through the City (other than employee salaries or personnel benefits)?

- To my knowledge, will my program or project have a financial effect on a City official or employee who exercises City-related functions, or an immediate family member or business associate of such person? For example, will any of these persons be receiving rental payments, other business income, or program services from my company or services offered?

If you can answer "yes" to any of these questions, it is possible that there may be a conflict of interest. You should review the rules below to determine whether an actual conflict situation is raised, and, if so, what action needs to be taken to avoid a violation of the law. You should contact City staff immediately if you suspect that there might be an issue.

Any contractor entering into an agreement with the City will be required to warrant and represent, to the best of his/her knowledge at the time the contract is executed, he/she is not aware of any improper conflict of

interest as described. Also, the contract will obligate contractors to exercise due diligence to ensure that no improper conflict situations occur during the contract.

The following Federal, State and local regulations and policies, govern projects funded through the City of Edinburg:

* 2 CFR Part 200 [Subpart B 200.112 and Subpart D 200.318]
* Texas Local Government Code Chapter 171.004
* City of Edinburg Policies & Procurement Manual

Certification:

I, the undersigned, certify and report that to the best of my knowledge,

☑ I have no conflict of interest to disclose

☐ I have the following conflict of interest to disclose:

   Circle One YES (NO)

If you have answered "Yes" to any of the above questions, please indicate the name(s) of the person(s), the nature, and the status and/or outcome of the information, indictment, conviction, termination, claim or litigation, as applicable. Any such information should be provided on a separate page, attached to this form and submitted with your submittal.

House Bill 89

HOUSE BILL 89 VERIFICATION

I, Ed Pruske, the undersigned representative of Professional Service Industries, Inc., (Company or Business name) (hereafter referred to as company) **being an adult over the age of eighteen (18) years of age, verify that the company named-above, under the provisions of Subtitle F, Title 10, Government Code Chapter 2270:**

1. Does not boycott Israel currently; and

2. Will not boycott Israel during the term of the contract.

3) Is not currently listed on the State of Texas Comptroller's Companies that Boycott Israel List located at https://comptroller.texas.gov/purchasing/publications/divestment.php

Pursuant to Section 2270.001, Texas Government Code:

1. "Boycott Israel" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes; and

2. "Company" means a for-profit sole proprietorship, organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, or any limited liability company, including a wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate of those entities or business associations that exist to make a profit.

SENATE BILL 19 VERIFICATION

I, Ed Pruske, the undersigned representative of Professional Service Industries, Inc., (Company or Business name) (hereafter referred to as company) **being an adult over the age of eighteen (18) years of age, verify that the company named-above, under the provisions of Subtitle F, Title 10, Government Code Chapter 2274:**

(1) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association; and,

(2) will not discriminate during the term of the contract against a firearm entity or firearmtrade association.

Pursuant to Section 2274.001, Texas Government Code:

1) *"Ammunition" means a loaded cartridge case, primer, bullet, or propellant powder with or without a projectile.*

2) *"Company" means a for-profit organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, or limited liability company, including a wholly owned subsidiary, majority-owned subsidiary, parent company, or affiliate of those entities or associations that exists to make a profit. The term does not include a sole proprietorship.*

3) *"Discriminate against a firearm entity or firearm trade association":*
   - *a) means, with respect to the entity or association, to:*
     - *i) refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association;*
     - *ii) refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or*
     - *iii) terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; and*
   - *b) does not include:*
     - *(i) the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; and*
     - *(ii) a company 's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship:*
       - *(aa) to comply with federal, state, or local law, policy, or regulationsor a directive by a regulatory agency; or*

(bb) for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity 's or association 's status as a firearm entity or firearm trade association.

4) *"Firearm" means a weapon that expels a projectile by the action of explosive or expanding gases.*

5) *"Firearm accessory" means a device specifically designed or adapted to enable an individual to wear, carry, store, or mount a firearm on the individual or on a conveyance and an item used in conjunction with or mounted on a firearm that is not essential to the basic function of the firearm. The term includes a detachable firearm magazine.*

6) *"Firearm entity" means:*
   a) *firearm, firearm accessory, or ammunition manufacturer, distributor, wholesaler, supplier, or retailer; and*
   b) *a sport shooting range as defined by Section 250.001, Local Government Code.*

7) *"Firearm trade association" means any person, corporation, unincorporated association, federation, business league, or business organization that:*

   a) *is not organized or operated for profit and for which none of its net earningsinures to the benefit of any private shareholder or individual;*
   b) *has two or more firearm entities as members; and*
   c) *is exempt from federal income taxation under Section 50l(a), Internal RevenueCode of 1986, as an organization described by Section 50l(c) of that code.*

Conflict of Interest

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

Professional Service Industries, Inc.

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

N/A

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☑ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☑ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

RE: Statement of Qualifications — RFQ 2026-4 | Geotechnical Engineering and Construction Materials Testing Services

Dear Mr. Hinojosa,

Raba Kistner, Inc. (Raba Kistner) respectfully submits this Statement of Qualifications in response to the City of Edinburg's Request for Qualifications No. 2026-4 for Geotechnical Engineering and Construction Materials Testing Services. We welcome this opportunity to demonstrate our qualifications and formally commit to delivering the full scope of geotechnical engineering, construction materials testing, and environmental services requested. Raba Kistner brings deep South Texas roots, Texas-licensed engineering professionals, and a proven track record of delivering timely, technically rigorous services to municipalities across the region. Our team stands ready to serve as a reliable partner on the City's rotation list, providing scalable support for projects of every size and complexity.

The primary contact responsible for this response is:
Katrin M. Leonard, PE - Vice President - Rio Grande Operations
956.648.5410
kleonard@rkci.com

800 E. Hackberry
McAllen, TX 78501

Raba Kistner submits this qualifications package without exception or deviation from the terms and conditions set forth in the RFQ. Should any exceptions arise, we will identify them separately and in writing. The undersigned officer holds the authority to legally bind Raba Kistner to the commitments made in this submittal and to any resulting contract with the City of Edinburg. We appreciate the City's consideration and look forward to the opportunity to support Edinburg's infrastructure goals.

Respectfully submitted,

Katrin M. Leonard, PE
Vice President - Rio Grande Operations

Section 2 Firm Qualifications and Experience

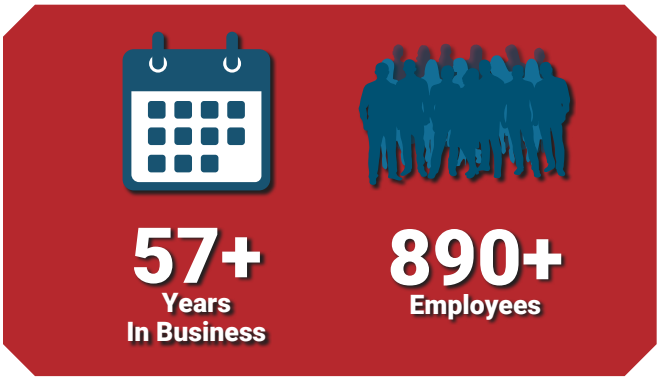
Raba Kistneris a Corporation. We are a multidisciplinary consulting firm recognized as a leader in the built environment. We self-perform professional services, such as:

- Construction Materials Engineering, Testing, and Observation
- Environmental Consulting
- Geotechnical Engineering
- Building Sciences and Building Envelope Consulting
- Program and Project Management
- Pavement Consulting
- Quality Assurance Inspection Services

Established more than five decades ago, Raba Kistner employs over 890 engineers, architects, scientists, field and laboratory technicians, inspectors, and project management specialists throughout Texas and the U.S. Our staff includes licensed Professional Engineers, Registered Architects, Professional Geoscientists, Certified Wetland Delineators, Environmental Scientists, Construction Inspectors, and other credentialed professionals. We maintain deep bench strength and scalability to meet client needs for both small and large assignments within short response times.

Texas Board of Professional
Engineers and Land Surveyors

CERTIFICATE OF REGISTRATION



This acknowledges that

Raba Kistner, Inc.

has fulfilled the requirements of the Texas Board of Professional Engineers and Land Surveyors to offer and perform engineering services in the state of Texas.

Registration Number
F-3257

Expiration Date
1/31/2027

Office Locations

The services for the City of Edinburg will be performed and managed from Raba Kistner's McAllen office, which serves as the primary point of contact and operational hub for all South Texas municipal engagements. This office is staffed with Texas-licensed Professional Engineers and certified materials testing technicians who are embedded in the region, familiar with local regulatory agencies, and available to mobilize to City project sites without delay. Supporting resources are available through Raba Kistner's broader Texas office network and can be accessed rapidly when task order scope or schedule demands it.

McAllen, TX
800 E. Hackberry

San Antonio, TX - Headquarters
12821 W. Golden Lane
San Antonio, TX 78249

What Makes Raba Kistner Qualified?

Raba Kistner's uniqueness begins with depth: a multi-disciplinary technical bench that can serve every service category identified in the City's scope without gaps in licensure, specialty coverage, or field capacity. Unlike smaller regional firms that may subcontract core geotechnical or materials testing functions, Raba Kistner delivers all requested services in-house under the direct supervision of licensed Texas professionals, giving the City a single point of accountability for every task order throughout the contract term.

Our experience with the specific subsurface conditions prevalent in South Texas and the Rio Grande Valley is a direct competitive advantage. Edinburg and Hidalgo County present well-documented geotechnical challenges, including highly plastic, expansive clays, shallow groundwater tables, and elevated hydrostatic pressures, that require engineering teams with firsthand regional knowledge, not generalized approaches borrowed from other geographies.

Raba Kistner engineers have worked extensively throughout this region, developing site-specific foundation recommendations, drainage mitigation strategies, and construction details calibrated to local soil behavior and climate.

Approach to Part-Time Staffing and Scaled Project Delivery

Raba Kistner understands that a rotation-based contract requires a fundamentally different service model than a single-project engagement. The City will issue task orders that vary significantly in scope, from small geotechnical investigations supporting minor City facility improvements to full-scale subsurface programs supporting major capital infrastructure. Our staffing approach is built to accommodate this variability without sacrificing responsiveness or quality.

For smaller or part-time assignments, such as limited density testing observation, single-boring geotechnical evaluations, or focused foundation inspections, Raba Kistner designates a dedicated project technician or staff engineer from the McAllen office as the primary contact and field resource. This individual operates under the direct oversight of the assigned licensed Project Manager, who remains available throughout the assignment for technical direction, field consultation, and report review. This tiered staffing model ensures that even the smallest City task order receives licensed supervision and consistent quality control, without the overhead or scheduling friction that can slow delivery on targeted assignments.

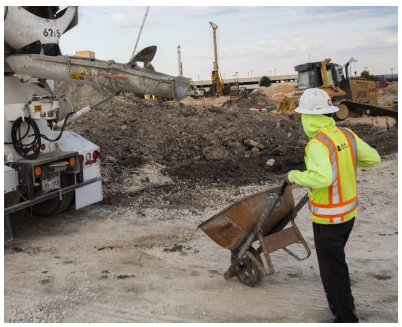
For larger or more complex task orders, the Project Manager draws on Raba Kistner's full regional and statewide bench — adding geotechnical engineers, environmental staff, laboratory analysts, and additional field crews as scope demands. Because our teams operate within an integrated internal structure, sharing equipment, laboratory resources, and scheduling systems, we can scale up rapidly without relying on unfamiliar subconsultants or disrupting delivery timelines.

Firm Experience

Raba Kistner has played an integral role in the expansion of Rio Grande Valley communities since 1991, and we have successfully provided environmental services, engineering, consulting and testing throughout the region to improve the quality of life of its citizens.

We have performed over 1,500 projects for city, county, and state entities in the Rio Grande Valley in the last 35 years. We have also worked extensively with key staff at the City of Edinburg for more than 31 years.

Our local familiarity adds to the quality of services we are able to provide our clients throughout the region. Our commitment to protecting our clients' interests remains constant. Used individually or collectively, Raba Kistner's services provide practical, on-time, on-budget solutions.



Our employees work and live in the area and are familiar with the local issues and concerns. Given our history of practicing professional engineering and consulting services within the Valley, we have a comprehensive database of geotechnical subsurface conditions. This aids clients such as the City of Edinburg in that we are able to pull from first-hand knowledge when dealing with projects.

The Raba Kistner McAllen Office employs more than 40 staff members. Given our previous and current experience working with the City of Edinburg, we trust you are familiar with the quality of work that each of these individuals provides.

Delivering Cost-Effective Geotechnical and Testing Services

Raba Kistner has developed an extensive library of geotechnical engineering reports spanning the Rio Grande Valley, giving us firsthand knowledge of subsurface conditions across the region. This library supports the development of cost-effective scopes grounded in a thorough understanding of local soil conditions. Combined with 31 years of experience in construction materials and practices specific to the Rio Grande Valley, Raba Kistner delivers design recommendations that are both technically sound and economically practical for clients.

The value of a geotechnical study is often most apparent during construction. Raba Kistner's deep regional expertise allows the firm to anticipate variable subsurface conditions that may not surface during initial borings, providing proactive recommendations that reduce the risk of costly change order claims associated with changed conditions. Raba Kistner also applies specialized tools such as geophysical testing to generate more contiguous subsurface data and identify underground anomalies before they become construction problems.

Clients rely on Raba Kistner for quality, reliable, and timely Construction Materials Engineering and Testing (CoMET) services. Our team of trained, experienced professional engineers and field technicians works closely with clients to minimize costly construction delays and long-term project performance issues.

Raba Kistner Materials Testing technicians operate on agreed-upon schedules designed to achieve minimal disruption to active construction sites. Clear, consistent communication with clients keeps projects moving and expectations aligned throughout the engagement. Raba Kistner's staffing levels and resources allow the firm to respond to projects with short deadlines, helping the City avoid overtime costs and keep work on schedule.

Because laboratory accuracy depends on the quality of field samples, all samples are collected following standard, industry-approved procedures. In-house professionals and technicians with deep experience conduct the required tests, maintaining the integrity of results from field to report. As is typical with most specifications, the owner is only required to pay for passing tests. Raba Kistner efficiently separates failures from passing results and provides segregated billing, allowing costs to be back-charged to the contractor or deducted from City payments

Below is a list of projects Raba Kistner has provided for the City of Edinburg within the past ten years.

- Hidalgo County RMA

Certifications and Licenses

Raba Kistner's engineering staff and independent laboratories are among the largest and most thoroughly equipped. All of our materials laboratories meet rigorous standards for testing and analysis procedures and advanced equipment calibration. We serve in leadership roles and are accredited by and/or affiliated with:

- American Association for Laboratory Accreditation
- Texas Department of Transportation
- US Army Corps of Engineers
- American Society for Testing and Materials
- Association for Learning Environments
- American Association of State Highway and Transportation Officials
- Geoprofessional Business Association
- National Institute of Standards and Technology
- American Council of Engineering Companies

ASTM E 329 Compliance

Raba Kistner meets the requirements of ASTM E 329, "Standards of Recommended Practice for Inspection and Testing Agencies for Concrete and Steel as Used in Construction." We participate in the development of standards for ASTM, and have team members who actively participate on committees applicable to their industry.

Association for Learning Environments

Raba Kistner is an active member in the Association for Learning Environments (A4LE) and is a regular contributor to A4LE's learning environment programs. In 2020, A4LE endorsed Raba Kistner as we provided a 6-part series of environmentally related webinars that impact Texas School Districts and the environmental permits associated with current Texas standards. Raba Kistner participates regularly in A4LE events to share information and network to improve the planning processes for learning environments. Our team is involved with the association and its members to impact the learning, development and behavior of the facilities' users.

Geoprofessional Business Association (GBA) Peer Review

Raba Kistner is active in GBA and its peer review program. A team of 3 to 4 experienced professionals from other member firms conducts this review over an intensive 2-to-3 day period. The team examines documents and practices related to the firm's organization, staff, work product, and professional activities. It visits and examines physical facilities, reviews manuals, reports, proposals and observes daily operations. GBA's peer review program has been used as a model for other professions

American Association of State Highway and Transportation Officials

Our McAllen laboratory is accredited by AASHTO in the disciplines of Portland Cement Concrete Testing, Aggregate Testing, Soils, and Hot Mix Asphalt. The primary goal of AASHTO is to foster the development, operation, and maintenance of an integrated national transportation system. They represent all five transportation modes: air, highways, public transportation, rail, and water. This certificate verifies the training of employees, calibration of equipment, and adherence to testing procedures.

CERTIFICATE OF ACCREDITATION

Raba Kistner, Inc.

in

McAllen, Texas, USA

has demonstrated proficiency for the testing of construction materials and has conformed to the requirements established in AASHTO R 18 and the AASHTO Accreditation policies established by the AASHTO Committee on Materials and Pavements.

The scope of accreditation can be viewed on the Directory of AASHTO Accredited Laboratories (aashtoresource.org).

Jim Tymon, AASHTO Executive Director

Matt Linneman, AASHTO COMP Chair

This certificate was generated on 02/24/2026 at 11:06 AM Eastern Time. Please confirm the current accreditation status of this laboratory at aashtoresource.org/aap/accreditation-directory

Texas Department of Transportation

Our TxDOT certification demonstrates that our McAllen lab has a competent Quality Manual, is properly equipped, and has the certified personnel to perform laboratory testing in accordance with TxDOT testing methods and practices. Our Quality Manual is modeled after AASHTO R18, and various other ASTM/TxDOT guidelines, and addresses our laboratory organization, quality procedures, reporting, subcontractor verification, customer complaint procedures, and document control.

QUALITY ASSURANCE AND QUALITY CONTROL

Raba Kistner maintains strict adherence to quality assurance and quality control protocols across all engineering and architectural deliverables. Key engineering and architectural deliverables undergo internal peer review by licensed professionals to maintain quality and compliance standards prior to submission. For multidiscipline assignments, the Project Manager conducts a comprehensive cross-discipline coordination check, ensuring that mechanical, electrical, structural, civil, and envelope systems are mutually compatible and fully code-compliant.

Oversight of QA/QC protocols is entrusted to experienced professionals, including Professional Engineers, Registered Roof Observers, and Registered Architects, who verify compliance with project specifications and industry standards. Regular site visits, laboratory testing, and the deployment of advanced diagnostic tools further reinforce Raba Kistner's commitment to delivering high-quality, reliable results on every project. This specialized and diverse approach is vital in today's unpredictable construction environment, ensuring that each project meets the highest standards of excellence.

Raba Kistner is an ISO 9001:2015 fully certified firm in providing Quality Assurance and Quality Control services. Auditing of all material tests and observations is performed to assure procedures are performed to applicable standards and tests are reviewed and signed by a Texas Registered Professional Engineer. Auditing occurs for each of our testing laboratories to assure test procedures are followed, scheduled equipment maintenance is performed, and the testing equipment is calibrated and certified to appropriate standards – AASHTO R-18.

As part of our commitment to continuous quality improvement, Raba Kistner successfully completed its most recent ISO 9001 recertification audit last month (June 2026), extending our certification for an additional three years. The updated certificate is currently pending issuance by the registrar and will be made available upon receipt.

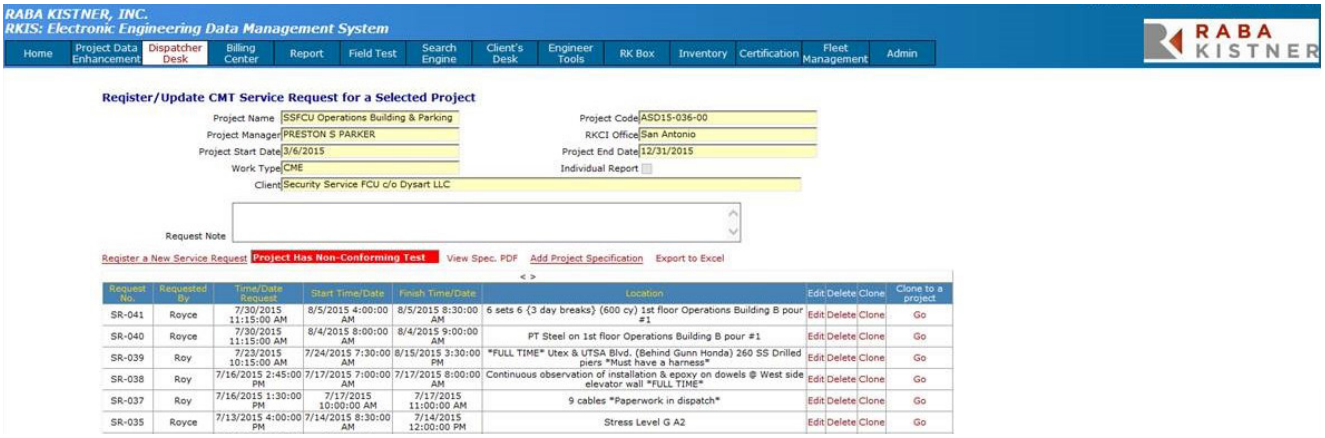
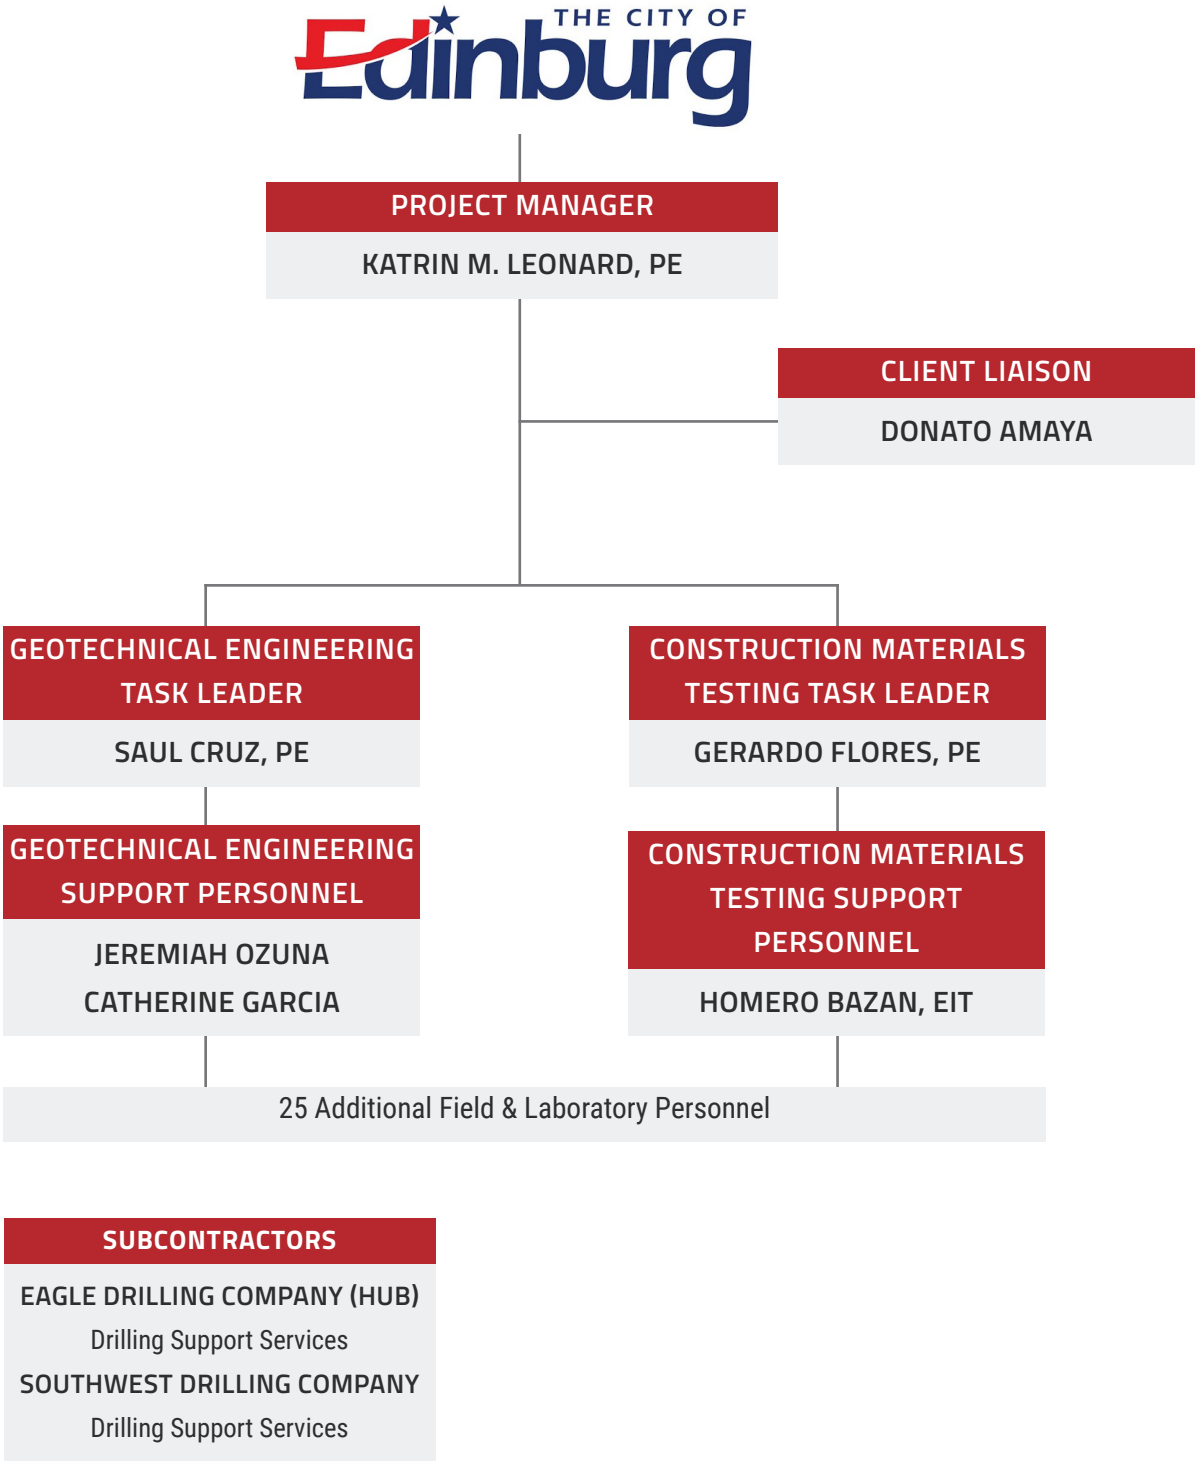
Safety: At the Core of Raba Kistner

At Raba Kistner, safety is not just a priority; it is at the very core of our business and culture. Our commitment to engineering excellence is matched only by a company-wide focus on safety, which is vital to every Raba Kistner employee, our vendors and partners, and our clients. This strict adherence to safety is woven into every aspect of our operations, from the boardroom to the jobsite.

Our Safety Program is driven by three specialized processes: Employee Training, Safety Measurements, and Continuous Improvement. This program is designed to meet the needs of our regular business while remaining flexible enough to address the unpredictable and diverse requirements of the companies and organizations we serve. In 2025, Raba Kistner achieved a Total Recordable Injury/Illness Rate (TRIR) of 0.34 and a Workers' Compensation Experience Modification Rate (EMR) of 0.79—metrics that reflect our relentless pursuit of a safe work environment.



Data Analysis & Engineering Evaluation



Raba Kistner has developed RKIS, Raba Kistner Information Management System, an award-winning electronic data management system that allows clients to access project-specific report and testing information online. RKIS offers the ability to transmit daily inspection reports and test results; perform statistical analysis of acceptance test results; and monitor deficiencies, non-conformances, and risks. RKIS provides authorized users access to information from anywhere internet access is available.

Raba Kistner will provide the project management, design, and general contracting team with user IDs and passwords to access information for this project. The RKIS system will help the team to track field technician scheduling and research project test results. This reduces the amount of time project managers would typically spend on the telephone and at the office seeking information or researching hard-copy test results. Our web-based system also contains an engineer's desk in which spreadsheets of test data and statistical data related to concrete test results are available.

Section 3 Team Member Qualifications and Experience

Organizational Chart

Resumes

Katrin M. Leonard, PE

VICE PRESIDENT - RIO GRANDE OPERATIONS

PROJECT ROLE: PROJECT MANAGER

As the Vice President of Raba Kistner's Rio Grande offices, Mrs. Leonard has assumed progressive responsibility in the management, administration, and coordination of geotechnical and facilities services throughout South Texas, the Texas/México border, and Northern México, regions where the unpredictable demands of utility infrastructure construction and modernization require specialized expertise.

Her responsibilities include the preparation, design, analysis, and review of plans, specifications, reports, and cost and quantity estimates for a diverse range of projects, with a specialized focus on public utility infrastructure. Mrs. Leonard's expertise extends to managing and administering projects for water and wastewater systems, energy distribution networks, and municipal service facilities, confirming that each project meets the unique operational and regulatory needs of utility providers and the broader community.

Dedicated to both her profession and her community, Mrs. Leonard actively volunteers with numerous organizations and continually enhances her engineering qualifications through ongoing professional training.

CONFIDENTIAL AND PROPRIETARY INFORMATION

Saul Cruz, PE

GEOTECHNICAL ENGINEERING DEPARTMENT MANAGER

PROJECT ROLE: GEOTECHNICAL ENGINEERING TASK LEADER

Mr. Cruz works with Raba Kistner's Rio Grande Valley operations as a Geotechnical Engineer. He is responsible for performing geotechnical, facilities and construction materials engineering investigations and report preparation. Mr. Cruz has experience working with the City of McAllen and the City of Pharr, where he worked as an engineering intern.

On a day-to-day basis, Mr. Cruz provides engineering support and manages a variety of projects and investigations, which include engineering observation at new and existing building sites, direction and oversight of field and exploration staff and subcontractors for field services, and pier and foundation inspection. Mr. Cruz is also responsible for classification of samples, assignment of testing regimens in the laboratory, interpretation of engineering data, performing engineering calculations and analysis, and report preparation.

EDUCATION
B.S. Civil Engineering
University of Texas Rio Grande Valley, 2024

Mr. Ozuna currently holds the position of Graduate Engineer with a specialization in geotechnical engineering. In this role, he operates under the close guidance of a licensed professional engineer and senior staff, actively contributing to a broad spectrum of geotechnical and facilities engineering investigations.

Mr. Ozuna's responsibilities span both office and field environments, reflecting a versatile and analytical approach to project execution. In the office, he prepares detailed technical proposals, assists in structuring drilling and laboratory testing programs, and supports the assembly of comprehensive final reports. His work involves collaborating directly with seasoned engineers, ensuring that project milestones, technical standards and deliverables are consistently met with both thoroughness and precision.

Beyond his office-based contributions, Mr. Ozuna plays a vital on-site role by collecting soil samples and managing a variety of site investigations necessary for the assessment of subsurface conditions. His fieldwork requires close coordination of drilling operations as well as the implementation of traffic control measures to maintain rigorous safety standards during complex field assignments.

Through these diverse responsibilities, Mr. Ozuna demonstrates a confident command of foundational geotechnical engineering principles while exhibiting adaptability and a strong commitment to quality and safety on every project.

CONFIDENTIAL AND PROPRIETARY INFORMATION

Gerardo Flores, PE

DEPARTMENT MANAGER - CONSTRUCTION MATERIALS ENGINEERING & TESTING

PROJECT ROLE: CONSTRUCTION MATERIALS TESTING TASK LEADER

Mr. Flores is our Construction Materials Testing Department Manager located out of our McAllen office. He has extensive experience providing geotechnical engineering and construction materials engineering and testing services for projects in both the public and private sectors. He is responsible for project scope development, financial management, and the strategic allocation of corporate resources to ensure responsive service and client satisfaction.

Mr. Flores provides technical oversight for subsurface investigations, laboratory testing programs, and the interpretation of engineering data used to develop recommendations for shallow and deep foundations, retaining walls, slopes, and pavements. He also conducts senior-level technical reviews of geotechnical analyses and project deliverables to verify that recommendations align with project requirements, industry standards, and applicable engineering practices.

His experience includes both renovations and additions to existing school facilities as well as new campus construction projects. He has supported projects involving classroom buildings, athletic facilities, administration buildings, parking lots, roadways, utility infrastructure, and site development improvements for school districts and educational institutions.

Homero Isaac Bazan, EIT

GRADUATE ENGINEER

PROJECT ROLE: CONSTRUCTION MATERIALS TESTING SUPPORT PERSONNEL

Mr. Bazan oversees reports submitted by our field technicians and ensures that quality is maintained during the duration of our projects. He confers with technicians and our Construction Materials Engineering and Testing (CoMET) team regarding project specifications and upholding testing standards.

He serves as the Safety Officer of the McAllen CoMET department. As safety officer, he ensures all technicians and employees are aware of the best safety practices to foster a safe work environment.

He has also assisted the Geotechnical Engineering department by spearheading the Unconfined Compressive Strength effort of an important project for 3 months. During this time, he commuted to our Brownsville office to conduct breakings of Unconfines. Mr. Bazan was also in charge of upkeeping the lab and conferring with clients and contractors to obtain any deliveries or to schedule any meetings regarding any specific projects.

Prior to starting with Raba Kistner, he completed a summer internship with the TxDOT Pharr District and, during his final semester of college, held a Teaching Assistant position for Geotechnical Engineering at the University of Texas Rio Grande Valley.

CONFIDENTIAL AND PROPRIETARY INFORMATION

Field Personnel Qualifications & Certifications

Raba Kistner provides a comprehensive range of professional consulting services throughout Texas, Louisiana, and the Southwestern United States. Our multidisciplinary technical staff is uniquely qualified to support projects and programs of varying size and complexity across both the public and private sectors. Our professionals maintain industry licenses, certifications, and specialized credentials within their respective areas of expertise, allowing us to deliver technically sound solutions with responsiveness and efficiency.

Our team includes highly qualified and experienced professionals with Bachelor's, Master's, and Doctorate degrees, as well as specialized training and certifications in disciplines including Civil Engineering, Geotechnical Engineering, Geological Engineering, Structural Engineering, Architectural Engineering, Welding Inspection, Biological Sciences, Environmental Science, Environmental Planning, Geology, Anthropology, Archaeology, Historic Preservation, Geographic Information Systems (GIS), Urban and Regional Planning, and related fields.

Relevant registrations and certifications across the Raba Kistner team include:

- Professional Engineers (PE)
- American Institute of Certified Planners (AICP)
- Professional Geologists (PG)
- Project Management Professionals (PMP)
- Registered Professional Archaeologists (RPA)
- Wetland Training Institute (WTI)-trained Wetland Delineators
- Certified Welding Inspectors (CWI)
- American Concrete Institute (ACI)
- TCEQ GPS Training Certifications
- National Institute for Certification in Engineering Technologies (NICET)
- International Code Council (ICC)
- Registered Roof Observers (RRO)

Raba Kistner's internal policies, procedures, and plans have been proven to ensure the delivery of high-quality services to our clients and include the following:

- Qualified Technical Staff and Continued Education Policy
- Quality Control/Quality Assurance Procedures
- Professional Development
- The very core of Raba Kistner: the importance we place on our most highly valued asset — our employees — and our culture of employee safety

Five-Year Claims History

To the best of our knowledge, none of the Team Member to be assigned to this engagement have been involved in any claim or litigation with any Federal, State or Local Government during the last five (5) years. Raba Kistner, Inc, as a firm, has been invloved in claims or litigation within the last five (5) years.

The following information presented herein is based on Raba Kistner's current records and knowledge as of the date of this submission and is provided for information and disclosure purposes only. Further details of the following may be provided upon request.

Current Claim – Raba Kistner, in addition to other designers, consultants, and contractors, has been named in a lawsuit by a south Texas School District claiming defects in construction. Raba Kistner provided geotechnical and construction materials testing and engineering services for the project in 2022. The lawsuit is on-going.

Section 6 Professional Services Agreement

Raba Kistner, Inc. confirms that it has thoroughly read and reviewed the City of Edinburg's Professional Services Agreement associated with RFQ 2026-4, Request for Qualifications – Geotechnical Engineering and Construction Materials Testing Services.

Raba Kistner understands the full scope of the contract conditions set forth by the City, including all terms governing performance, payment, confidentiality, statutory compliance, and termination. We accept these conditions without exception or deviation.

Raba Kistner confirms that it will meet all prerequisite insurance requirements stipulated in the agreement. The firm maintains current coverage across all required policy types and at limits that satisfy or exceed the City's minimum thresholds, and the City of Edinburg can be named as an Additional Insured on applicable liability policies. Certificates of insurance will be submitted to the City for approval prior to the commencement of any services under an awarded contract.

If selected, Raba Kistner agrees to enter into the City's Professional Services Agreement and to engage in good-faith negotiations to establish the scope of services and billing rates applicable to each project assignment. We understand that the negotiated scope and billing rates will be incorporated as attachments to the Professional Services Agreement, and that the agreement will subsequently be submitted to the City Council for approval.

Raba Kistner takes no exceptions to the draft Professional Services Agreement. We are fully prepared to execute the agreement as presented and to fulfill all obligations required of a selected firm under RFQ 2026-4 for the contract term of October 1, 2026 through September 30, 2028.

Raba Kistner stands ready to serve the City of Edinburg as a committed, compliant, and capable partner, and we look forward to the opportunity to support the City's geotechnical engineering, construction materials testing, and environmental services needs across all City projects during the contract period.

City of Edinburg
Department of Engineering
415 W. University Drive
Edinburg, TX 78541
Re: RFQ-2026-4 Geotechnical Engineering and Construction Materials Testing Services

Dear Evaluation Committee:

RGV Strata Group, LLC respectfully submits this Statement of Qualifications in response to RFQ-2026-4 for Geotechnical Engineering and Construction Materials Testing Services. We appreciate the opportunity to be considered for the City of Edinburg's rotation list of qualified firms for municipal projects. Our office is located at 4900 W. Expressway 83, Ste. 202, McAllen, Texas 78501 and a secondary satellite office is located at 1821 Fawn Cir., Edinburg, Texas. Our team is structured to provide geotechnical investigations, materials field testing, laboratory testing, drilling, and project management for the full range of services described in RFQ.

RGV Strata Group, LLC acknowledges the RFQ instructions, terms and conditions, including electronic submittal, addenda compliance, indemnification, audit rights, confidentiality, venue, and insurance requirements. We confirm that our proposal is prepared in accordance with the RFQ specifications and the City's evaluation criteria.

Murphy G. Scurry will be the primary person responsible for our-RFQ and will be the point of contact for the City on all correspondence and communications pertaining to RFQ. His contact information is as follows:

Address	**Office:**	**Cell**	**Email**
1821 Fawn Cir. Edinburg, Texas 78539	(956) 223.7153	(956) 802.7328	murphy@rgvstrata.com

Sincerely,

RGV Strata Group, LLC

By: _____

Murphy G. Scurry, P.E.

Authorized Signatory

2.) FIRM QUALIFICATIONS

RGV Strata Group, LLC provides integrated geotechnical engineering and construction materials testing services for municipal, institutional, commercial, industrial, and land-development projects throughout the Rio Grande Valley and South Texas. From our satellite Edinburg office, located south of Trenton Road and Jackson Road, we support projects from preliminary site evaluation through construction completion. Our services include subsurface investigations, geotechnical engineering reports, foundation and pavement recommendations, earthwork and compaction testing, construction observation, laboratory testing, and field quality-control services.

Over the past five years, RGV Strata Group has delivered responsive geotechnical and construction materials testing services for public and private improvements throughout the region, including work associated with City of Edinburg, City of McAllen, City of Pharr, City of San Benito, City of Brownsville and the City of Harlingen. Our municipal-related experience includes residential subdivisions, roadway and utility improvements, pump-station rehabilitation, commercial developments, industrial, multifamily projects, and site-development assignments. We understand that public projects require technically defensible documentation, prompt reporting, clear communication, and field decisions that support both compliance and construction progress.

Direct Partner and Engineer Involvement

RGV Strata Group's distinguishing strength is its **hands-on service** model. Our partners and engineers do not remain removed from field operations after a proposal or report is issued. They routinely participate in site visits, exploratory work, field-density testing, construction observations, laboratory review, troubleshooting, and coordination with contractors, inspectors, owners, and municipal representatives.

This direct involvement is evident on projects of every size. At Villas at Ware in McAllen, Murphy G. Scurry, P.E. has personally performed field-density testing and issued sealed compaction-test results for City review. At Coakley Estates in Harlingen, both Murphy Scurry, P.E. and Herman Garza have visited the project, provided field and engineering services, and attended meetings with City of Harlingen personnel to troubleshoot pavement and site-development concerns. At Tres Lagos in McAllen, Murphy has personally staked and coordinated locations for geotechnical borings in support of planned development. Herman has similarly provided direct field involvement at Los Lagos Development in Edinburg, including investigation and troubleshooting of subgrade pumping concerns in coordination with Rio Delta Engineering.

This level of accessibility is especially valuable to the City of Edinburg. City inspectors, contractors, and project representatives working on local projects are likely to recognize our partners and engineers because they have encountered us on site, in project meetings, and during active construction. RGV Strata Group believes that the engineer responsible for the work should understand actual site conditions, construction sequencing, material performance, and the practical constraints affecting the City and contractor.

Commitment to Small and Large Assignments

RGV Strata Group takes the same professional approach to a limited compaction-testing assignment as to a large subdivision, municipal facility, or multi-phase development. Smaller assignments are not treated as secondary work; they are often the projects where timely field response, direct communication, and prompt sealed documentation are most critical to keeping construction moving.

For part-time, intermittent, or smaller City assignments, the Edinburg office will provide a scalable response using available in-house technicians, project managers, and partner-level engineering oversight. Field coverage can be scheduled around anticipated construction activities, with direct communication between the City, contractor, technician, and responsible engineer. Because our principals are actively involved in operations, the firm can rapidly supplement technician coverage, provide engineering review when unusual conditions arise, and mobilize leadership for field troubleshooting when needed.

Our model provides the City with a local team that can respond efficiently without assigning small projects to an impersonal or distant administrative system. The same personnel who manage larger assignments remain available for isolated density tests, proof-roll observations, concrete sampling, pavement coring, investigation staking, laboratory review, or construction-related troubleshooting.

Responsive Geotechnical and Testing Capability

RGV Strata Group maintains **in-house drilling** operations, allowing the firm to coordinate geotechnical exploration directly with project schedules and site-access conditions. This reduces dependence on third-party drilling availability and supports responsive mobilization for design investigations, due diligence, construction troubleshooting, and changing field conditions. Direct communication among the drilling crew, field personnel, laboratory staff, and responsible engineer improves coordination during borings, sampling, groundwater observations, and field adjustments.

The firm also uses **MetaField**, a modern construction materials testing and geotechnical data-management platform, to organize field information, photographs, test results, boring logs, review workflows, and client reporting. This system supports timely electronic documentation and photo-supported reports, allowing City representatives to clearly understand where testing was performed, what work was observed, and the conditions present during testing.

RGV Strata Group views construction materials testing and special inspection as more than a reporting function. Our role is to identify concerns early, communicate them clearly, assist the project team in resolving issues efficiently, and document compliance with the project requirements. This approach helps reduce avoidable delays, rework, and uncertainty during construction.

Value, Accountability, and Local Knowledge

Our team provides practical and cost-conscious recommendations that reflect local soil conditions, shallow groundwater, expansive soils, drainage constraints, pavement-performance concerns, and the accelerated construction schedules common in the Rio Grande Valley. We develop clear scopes of work and, where project information allows, provide lump-sum fee proposals designed to give owners predictable budgets and minimize fragmented billing.

RGV Strata Group was established through a working model in which its partners performed the engineering, field testing, laboratory work, administration, and client coordination necessary to deliver projects from start to finish. That foundation remains central to our culture. For the City of Edinburg, RGV Strata Group offers a local office, direct principal involvement, scalable staffing for small or part-time assignments, in-house drilling, modern digital reporting, and a demonstrated commitment to responsive service on projects of every size.

3).TEAM REUSMES

MURPHY G. SCURRY, P.E.

Partner

EDUCATION
Texas University at Austin, B.S. in Civil Engineering 2003

REGISTRATIONS
Professional Engineer, Texas, 17 yrs. licensed

CERTIFICATIONS
National Ready Mix Concrete Association (NRMCA) ID# 82960

ASSOCIATIONS
ACI and ASCE

Prior Certifications: ACI Field I, ACI Lab I, NICET Soil Level III, NICET Concrete Level III, NICET Asphalt Level I, PCI Level I & II

Professional Experience

Murphy Gano Scurry, P.E., has practiced geotechnical engineering and construction materials testing throughout South Texas since 2003. His experience includes subsurface investigations; foundation, bearing-capacity, and settlement analyses; pavement and site-development recommendations; slope-stability evaluations; levee design; and construction quality-control services.

Mr. Scurry has provided geotechnical engineering and materials testing support for municipal infrastructure, water and wastewater facilities, public-school projects, residential subdivisions, commercial developments, and large-scale master-planned communities.

His City of Edinburg experience includes work associated with the Edinburg Water Treatment Plant, the approximately 600-acre La Sienna development, Los Lagos developments, other subdivision projects, and Edinburg Consolidated Independent School District facilities. He also performed forensic evaluations of hurricane-affected structures in Texas and Florida, including assessment of foundation, structural, and storm-related conditions.

Project Experience

Las Palmeras Subdivision (13-acre development) – Edinburg, Texas

CoMET manager for subject project oversaw the field and lab testing program for earthwork and pavement materials (such as soil compaction and moisture, subgrade/base, concrete, and asphalt) to verify the work meets the plans, specifications, and city requirements. Mr. Scurry also coordinates testing schedules with the contractor and inspectors, track results and nonconformances, and provided timely reports and recommendations to keep construction moving and compliant.

Sapphire and Villas at La Sienna Development – Edinburg, Texas

As the Geotechnical Engineer of Record he provided the geotechnical basis for site development, pavement design, and foundation-related improvements from preliminary planning through construction. The role included evaluating subsurface conditions; identifying groundwater, drainage, soft-soil, expansive-soil, and earthwork constraints; and preparing practical recommendations that support safe, durable, and cost-effective development.

Additional Edinburg Project:

Water Treatment Plant Expansion, Sugar Business Park, and Edinburg ISD.

HERMAN GARZA

Partner

KEY SKILLS
Budgeting & Cost Controls;
Site safety/OSHA;
Crew Supervision;
QA/QC Field Engineering;

ASSOCIATIONS
ACI

Prior Certifications: ACI Field I, TxDOT Level IB

Professional Experience

Herman Garza has more than 20 years of experience in geotechnical engineering, construction materials testing, building-envelope observations, concrete materials, and business development throughout the Rio Grande Valley. He began his career at Terracon (7 years) and founded RGV Strata Group, LLC in 2015 following years of hands-on training and field experience.

Mr. Garza provides leadership for geotechnical investigations, earthwork and pavement testing, concrete and asphalt testing, special inspections, and building-envelope observations. He is experienced in concrete mix-design development for ready-mix producers throughout the Rio Grande Valley and remains actively involved in field operations, including materials testing, subsurface investigations, and roof observations.

His project experience includes the International Boundary and Water Commission levee system, border-wall improvements, Rio Grande Valley school districts, and municipal projects from South Padre Island to Roma.

Project Experience

Los Lagos Development – Edinburg, Texas

Ongoing CoMET project manager overseeing field and laboratory testing for earthwork and pavement materials, including soil moisture and density, subgrade and base preparation, concrete, and asphalt. Mr. Garza coordinates testing with contractors and inspectors, tracks results and nonconformances, and provides timely reports and recommendations to support compliance with project plans, specifications, and City requirements. Recently during earthwork construction Mr. Garza coordinated with Rio Delta Engineering to address the soft pumping subgrade soil condition at an excavated building and made practical stabilization recommendations to create a working-platform, allowing earthwork operations to continue efficiently.

Additional Edinburg Project:

Saks Industrial Subdivision, Amira Subdivisoin, and Edinburg ISD.

OMAR A. SANTANA, RRO, REWO

Project Manager & Building Envelope Specialist

Professional Experience

Mr. Omar Santana brings more than 18 years of construction quality, materials-testing project management, and building-envelope consulting experience. His background is rooted in hands-on construction operations and field-based quality assurance, providing a practical understanding of inspection workflows, testing coordination, documentation, construction monitoring, deficiency identification, and corrective-action follow-up. He specializes in building-envelope QA/QC, forensic investigations, leak diagnostics, AAMA 501, 502, and 503 testing, roofing and waterproofing assessments, infrared moisture surveys, property-condition assessments, peer reviews, firestopping inspections, and project management.

Mr. Santana has supported projects ranging from K–12 campuses, municipal facilities, commercial and industrial developments, warehouses, cold-storage facilities, and healthcare and institutional properties to complex high-rise and specialty facilities. His experience includes work for Edinburg CISD, PSJA ISD, Cameron County, the City of Brownsville, Austin ISD, H-E-B, Texas Health and Human Services, Walmart, Sam's Club, Ryan Companies, Bartlett Cocke, Gomez Mendez Saenz, and O'Connell Robertson.

As a member of the RGV Strata team, Mr. Santana adds field-oriented construction-quality leadership and specialized building-envelope expertise that complements the firm's geotechnical engineering and materials-testing services. His experience coordinating construction observation, QA/QC documentation, testing activities, client communication, and corrective work will help the City of Edinburg identify potential deficiencies early, manage risk, and support durable, high-performing public facilities.

EDUCATION

University of Texas – Brownsville

South Texas Community College

REGISTRATIONS

TSI Labs, - 6 mons.
Raba-Kistner – 2 yrs

Project Experience

Program Manager – Nationwide, Puerto Rico – Axis Exterior Solutions / Wal-Mart Roof Portfolio

Represented Walmart by conducting roof assessments, infrared moisture surveys, roof design, QA/QC construction monitoring, pre-construction meetings, project closeout inspections, and emergency/storm damage evaluations.

JORGE CASTILLO

Senior Technician

KEY SKILLS

Soil field and laboratory testing training & certifications;
Concrete field and laboratory training & certification.;
Asphalt field and laboratory training & certifications;

Work History

RGV Straat – 3yrs.
Dragados-Pulice – 3
Terracon - 2

Previous Certifications:
TxDOT Level IA
TxDOT Level 2
TxDOT Aggregate 101
ACI Field I

Professional Experience

Mr. Jorge Castillo has more than 15 years of experience in construction materials testing, field inspection, laboratory testing, and construction quality-control services throughout South Texas. His experience includes earthwork observation; soil moisture-density and compaction testing; subgrade and base-course testing; concrete sampling and fresh-concrete testing; asphalt sampling and testing; and preparation of field and laboratory documentation.

As Senior Field Technician, Mr. Castillo provides field leadership and technical guidance to testing personnel. He supports technician training in proper sampling, testing, documentation, and reporting procedures consistent with ASTM International standards, TxDOT specifications, approved project plans, and applicable municipal requirements. His experience helps promote consistent testing practices, complete documentation, timely reporting, and early identification of potentially nonconforming construction conditions.

Mr. Castillo has completed formal training and previously held certifications in soil, concrete, and asphalt field and laboratory testing. His practical experience applying ASTM International test methods and TxDOT specifications enables him to mentor junior personnel and support dependable construction materials-testing operations for RGV Strata Group.

Project Experience

I-69C & Expressway 83 Interchange – Pharr, Texas

Mr. Castillo supported asphalt and concrete construction operations through materials sampling, field testing, inspection, documentation, and coordination with project personnel. His responsibilities included monitoring placement activities, performing applicable testing, documenting results, communicating observed conditions, and supporting quality-control verification in accordance with project specifications, TxDOT requirements, and applicable ASTM International standards.

Additional Edinburg Project:

Closner Village Subdivision, Amira Subdivisoin, and Las Palmeras

MARK D. CORBITT, P.E.

Engineering Consultant

EDUCATION
Texas A & M University at Collage Station, B.S. in Civil Engineering 2003

REGISTRATIONS
Professional Engineer, Texas, 16 yrs. licensed

CERTIFICATIONS
TxDOT Pre Certifications:

3.1.1	8.1.1
3.2.1	10.1.1
3.4.1	10.2.1
4.1.1	10.5.1
4.2.1	11.1.1

WORK HISTORY
RGV Strata & MDC Engineering - 2yrs
SSA – 6 yrs
TEDSI – 8 yrs.

Professional Experience

Mark Corbitt has more than 20 years of civil engineering experience, with primary expertise in drainage, transportation, roadway, and land-development projects throughout the Rio Grande Valley and across Texas. As an Engineering Consultant for RGV Strata's Edinburg, Texas office, he is responsible for project planning, design, quality assurance/quality control, bidding and letting support, permitting coordination, and construction-phase oversight.

Mr. Corbitt's experience includes hydrologic and hydraulic analyses; flood-control modeling; drainage studies; scour evaluations; route and feasibility studies; roadway schematics; geometric design; cross sections; traffic-control plans; specifications, estimates, bid documents, general notes, and project cost analyses. His work also includes land development, bridge layout coordination, structural analyses, geotechnical investigation support, and laboratory materials testing performed in accordance with applicable TxDOT and AASHTO procedures.

His work reflects a thorough working knowledge of applicable requirements of FEMA, Hidalgo County Drainage District No. 1, TCEQ, AASHTO, and TxDOT.

Project Experience

City of Edinburg Master Drainage Plan Phase 1 Outfall Analysis - Edinburg, Texas

Mr. Corbitt served as the project manager and oversaw the QC/QA of all submittals for the City of Edinburg's Master Drainage Plan. The Master Drainage Plan consisted of the assessment of all outfalls in the City of Edinburg. Tasks included the processing of GIS data and the production of HEC-HMS models for all drainage areas within the City. The hydrographs developed were then used in HEC-RAS models of all existing outfalls and in the development of proposed outfall improvements. A final cost estimate per outfall improvement was developed and the entire final report was submitted to and approved by the Texas Water Development board.

Ridge Road Business Park – Pharr, Texas

Mr. Corbitt coordinated civil design, drainage, roadway, utility, and site-development elements with the project team. They work closely with geotechnical engineering and construction materials testing staff to incorporate subsurface recommendations and establish project-specific testing requirements. During construction, they coordinate field findings, design revisions, and quality-control information to support timely project completion

MARIA O. SCURRY, P.E.

Field Engineer

EDUCATION
Texas University at Austin, B.S. in Civil Engineering 2003

REGISTRATIONS
Professional Engineer, Texas, 17 yrs. licensed

WORK HISTORY
RGV Strata & GG4 Consultants- 2yrs
ERO– 6 yrs
Terracon – 8 yrs.

Professional Experience

Maria O. Scurry, P.E., has more than 20 years of engineering and project-management experience, including geotechnical engineering, structural engineering, construction materials testing, and construction administration. Her experience includes geotechnical investigations; shallow- and deep-foundation analyses; retaining-structure design; slope-stability and seepage evaluations; pavement design and remediation; and special inspections of foundations, concrete, and CMU masonry.

Ms. Scurry has managed multidisciplinary engineering and architectural projects for public and private clients, including educational facilities, courthouse and laboratory facilities, commercial developments, and institutional projects. Her responsibilities have included technical design coordination, project scheduling, budgeting, client and consultant coordination, quality control, construction-phase administration, and resolution of field conditions.

Her South Texas experience includes projects for Hidalgo County, San Felipe Del Rio CISD, and regional school districts, as well as the Hidalgo County Courthouse and Biosafety Testing Laboratory. Ms. Scurry has also served as Structural Engineer of Record for building projects involving wood, concrete, CMU masonry, and structural-steel systems, and has led construction administration teams to support compliant, timely project delivery.

Project Experience

Arbor Vista Apartments – Pharr, Texas

CoMET manager for subject project structural field engineer, providing wood-frame construction observations and structural quality-assurance support. Her services included periodic observations of framing installation for conformance with approved construction documents and applicable code requirements, with attention to load-bearing walls, floor and roof framing, truss placement, structural connections, sheathing, fasteners, blocking, bracing, hold-downs, anchors, and framing modifications

CHARLES FLANERY

Procurement Officer / Drilling Superintendent

KEY SKILLS

Budgeting & Cost Controls;
Site safety/OSHA;
Crew Supervision;
QA/QC Operations;
Relationship Specialist

Prior Certifications: OSHA Train-the-Trainer, OSHA-SSHO, TxDOT Class A CDL

Professional Experience

Charles Flanery brings more than 15 years of hands-on experience in commercial construction, exploration drilling, and business development across the southern United States. He began his career in the oil and gas sector, spending six years in pipeline construction before transitioning into drilling and exploration, where he dedicated the next twelve years to advancing field operations and technical excellence.

Throughout his career, Mr. Flanery has held a wide range of leadership and technical roles, including Texas Instruments (TI) Certified Inspector, OSHA Safety Superintendent, Operations Manager for Impact Casing Services, and Business Development Lead. These positions have allowed him to develop a deep understanding of regulatory compliance, safety management, operational efficiency, and client relations.

Mr. Flanery's expertise spans commercial drilling, exploratory forensics, and specialized inspection services. He is known for providing strong professional leadership, practical field knowledge, and a result-driven approach to complex drilling and investigative projects. His background in both construction and subsurface exploration enables him to bridge technical insight with strategic project management, ensuring safe, efficient, and high-quality outcomes.

Project Experience

San Miguel (The Shores Development)– South Padre Island, Texas

Mr. Flanery drilled a subsurface investigation at Shores Development in South Padre Island, where variable coastal soils and loose, water-influenced strata required experienced field judgment. The drilling approach was transitioned from a dry auger to mud rotary methods to stabilize the borehole, allow representative sampling, and complete the exploration to the required approximately 40-foot termination depth. This project reflects RGV Strata Group's ability to apply appropriate drilling techniques in the field, respond to changing subsurface conditions, and obtain the information needed for reliable geotechnical evaluation.

PRIMARY PROJECT TEAM

Name	Role	Responsibilities
Murphy Scurry, P.E.	Project Engineer /Senior Technician	Dirctor of engineering, field coordination, and quality review of engineering recommendations, field engineer/tech.
Herman Garza	Project Engineer / Senior Technician	Project engineering, field oversight, field technician and report preparation.
Jorge Castillo	Senior Technician	Senior field technician and laboratory technician. Field testing, observation, and sample collection.
Mario Gonzales	Field Technician	Soil compaction testing, concrete sampling, and reporting support.
Omar Santana, RRO	RRO / Project Manager/Senior Technician	Scheduling, coordination, and administrative oversight.
Andy Flanery	Procurement Officer / Drilling Superintendent	Procurement coordination, drilling operations, and project logistics.
Gustavo Salas	Lab Manager / Field Technician	Laboratory manager testing and field technician.
Mark Corbitt, P.E., CFM	Engineering Consultant / Project Manager	Geotechnical to civil feasibility consultant/project manager/progress meetings
Maria O. Scurry, P.E.	Field Engineer Inspector / Project Manager	Structural/Geotechnical field engineer/project manager

5). INSURANCE

The attached insurance certificates reflect current coverage for RGV Strata Group. The Commercial General Liability certificate shows $1,000,000 each occurrence and $2,000,000 general aggregate, effective 02/26/2026 through 02/26/2027. The Professional Liability certificate shows $1,000,000 per claim and $1,000,000 aggregate, effective 06/09/2026 through 06/09/2027.

The firm maintains an employer-funded occupational injury and wage-continuation benefit program for eligible employees who sustain a work-related injury. Subject to the terms and conditions of the program, eligible employees may receive up to two weeks of regular wages, based on their normal scheduled work hours, and eligible employees with at least six months of service may use accrued paid time off or vacation leave in connection with an on-the-job injury.

Murphy Scurry Authorized Signatory

Date: 07/12/2026

APPENDIX: REQUIRED FORMS

RFQ-required forms:

- Conflict of Interest Disclosure.
- General Questionnaire.
- Litigation Disclosure Form.
- HB 89 verification.
- SB 13 verification.
- SB 19 verification.
- Non-Collusion Affidavit.

CONFLICT OF INTEREST DISCLOSURE

Prospective contractors should carefully consider whether any of their activities may give rise to an improper conflict of interest situation. Conflict of interest situations that are not properly addressed can result in a loss of funding to a specific program and/or to the City of Edinburg, and in some cases can result in civil or criminal liability.

Organizations that may enter into a contract with the City of Edinburg should examine the following:

- Are any employees or board members of the organization,
  - a City of Edinburg employee or consultant who exercises program or project specific functions as part of their City position?
  - a member of a Board, Council or Committee that may participate in the City's selection or award process?
  - a City Official?

- Are any immediate family members or business associates of my employees or board member's,
  - a City of Edinburg employee or consultant who participates in the City's selection or award process as part of their City position?
  - a member of a Board, Council or Committee that may participate in the City's selection or award process?
  - a City Official?

- Will any of my employees or board members receive a financial interest or benefit from any project funded and administered through the City (other than employee salaries or personnel benefits)?

- Will any immediate family members or business associates of my employees or board members receive a financial interest or benefit from any project funded and administered through the City (other than employee salaries or personnel benefits)?

- To my knowledge, will my program or project have a financial effect on a City official or employee who exercises City-related functions, or an immediate family member or business associate of such person? For example, will any of these persons be receiving rental payments, other business income, or program services from my company or services offered?

If you can answer "yes" to any of these questions, it is possible that there may be a conflict of interest. You should review the rules below to determine whether an actual conflict situation is raised, and, if so, what action needs to be taken to avoid a violation of the law. You should contact City staff immediately if you suspect that there might be an issue.

Any contractor entering into an agreement with the City will be required to warrant and represent, to the best of his/her knowledge at the time the contract is executed, he/she is not aware of any improper conflict of

interest as described. Also, the contract will obligate contractors to exercise due diligence to ensure that no improper conflict situations occur during the contract.

The following Federal, State and local regulations and policies, govern projects funded through the City of Edinburg:

* 2 CFR Part 200 [Subpart B 200.112 and Subpart D 200.318]
* Texas Local Government Code Chapter 171.004
* City of Edinburg Policies & Procurement Manual

Certification:

I, the undersigned, certify and report that to the best of my knowledge,

☒ I have no conflict of interest to disclose

☐ I have the following conflict of interest to disclose:

- Telephone/Fax: (956) 223.7153
- Email address: murphy@rgvstrata.com

2. Does your Company anticipate any mergers, transfer of organization ownership, management reorganization, or departure of key personnel within the next twelve (12) months that may affect the organization's ability to carry out its submittal?

Yes____ No_X__

3. Is your Company authorized and/or licensed to do business in Texas? Yes_X__ No____

4. Where is the Company's corporate headquarters located? McAllen, Texas

5. a. Does the Company have an office located in Edinburg, Texas? Yes_X__ No____

b. If the answer to the previous question is "yes", how long has the Company conducted business from its Edinburg office? _3____ (years) _4___ (months)

c. State the number of full-time employees at the Edinburg office. 5

6. Has the Company or any of its principals been debarred or suspended from contracting with any public entity? Yes____ No_X__

If yes, identify the public entity and the name and current phone number of a representative of the public entity familiar with the debarment or suspension, and state the reason for or circumstances surrounding the debarment or suspension, including but not limited to the period of time for such debarment or suspension. NA

7. Indicate person whom The CITY may contact concerning your submittal.

Name: Murphy G. Scurry
Address: 4900 W. Exp. 83, McAllen, Texas 78501
Telephone: (956) 802.7328
Fax:
Email: murphy@rgvstrata.com

8. Surety Information

Have you or the Company ever had a bond or surety instrument "called," canceled, or forfeited?
Yes ( ) No (X).
If yes, state the name of the bonding company, date, amount of bond and reason for such bond being "called," or its cancellation or forfeiture. NA

9. Bankruptcy Information

   Have you or the Company ever been declared bankrupt or filed for protection from creditors under state or federal proceedings? Yes ( ) No (X)
   If yes, state the date, court, jurisdiction, cause number, amount of liabilities and amount of assets. NA

10. Provide any other names under which your business has operated within the last 10 years.
    RGV Strata

LITIGATION DISCLOSURE FORM

Failure to fully and truthfully disclose the information required by this Litigation Disclosure form may result in the disqualification of your submittal from consideration or termination of the contract, once awarded.

1. Have you or any member of your Firm or Team to be assigned to this engagement ever been indicted or convicted of a felony or misdemeanor greater than a Class C in the last five (5) years?

   Circle One YES (NO)

   1 Have you or any member of your Firm or Team to be assigned to this engagement ever been terminated (for cause or otherwise) from any work being performed for the CITY or any other Federal, State or Local Government, or Private Entity?

   Circle One YES (NO)

3. Have you or any member of your Firm or Team to be assigned to this engagement ever been involved in any claim or litigation with the CITY or any other Federal, State or Local Government, or Private Entity during the last ten (10) years?

   Circle One YES (NO)

If you have answered "Yes" to any of the above questions, please indicate the name(s) of the person(s), the nature, and the status and/or outcome of the information, indictment, conviction, termination, claim or litigation, as applicable. Any such information should be provided on a separate page, attached to this form and submitted with your submittal.

HOUSE BILL 89 VERIFICATION

I, Murphy G. Scurry, the undersigned representative of

RGV Strata Group, LLC, (Company or Business name) (hereafter referred to as company) **being an adult over the age of eighteen (18) years of age, verify that the company named-above, under the provisions of Subtitle F, Title 10, Government Code Chapter 2270:**

1. Does not boycott Israel currently; and

2. Will not boycott Israel during the term of the contract.

3) Is not currently listed on the State of Texas Comptroller's Companies that Boycott Israel List located at https://comptroller.texas.gov/purchasing/publications/divestment.php

Pursuant to Section 2270.001, Texas Government Code:

1. "Boycott Israel" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes; and

2. "Company" means a for-profit sole proprietorship, organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, or any limited liability company, including a wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate of those entities or business associations that exist to make a profit.

SENATE BILL 19 VERIFICATION

I, Murphy G. Scurry, the undersigned representative of

RGV Strata Group, LLC, (Company or Business name) (hereafter referred to as company) **being an adult over the age of eighteen (18) years of age, verify that the company named-above, under the provisions of Subtitle F, Title 10, Government Code Chapter 2274:**

(1) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association; and,

(2) will not discriminate during the term of the contract against a firearm entity or firearmtrade association.

Pursuant to Section 2274.001, Texas Government Code:

1) *"Ammunition" means a loaded cartridge case, primer, bullet, or propellant powder with or without a projectile.*

2) *"Company" means a for-profit organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, or limited liability company, including a wholly owned subsidiary, majority-owned subsidiary, parent company, or affiliate of those entities or associations that exists to make a profit. The term does not include a sole proprietorship.*

3) *"Discriminate against a firearm entity or firearm trade association":*
   - *a) means, with respect to the entity or association, to:*
     - *i) refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association;*
     - *ii) refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or*
     - *iii) terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; and*
   - *b) does not include:*
     - *(i) the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; and*
     - *(ii) a company 's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship:*
       - *(aa) to comply with federal, state, or local law, policy, or regulationsor a directive by a regulatory agency; or*

(bb) for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity 's or association 's status as a firearm entity or firearm trade association.

4) *"Firearm" means a weapon that expels a projectile by the action of explosive or expanding gases.*

5) *"Firearm accessory" means a device specifically designed or adapted to enable an individual to wear, carry, store, or mount a firearm on the individual or on a conveyance and an item used in conjunction with or mounted on a firearm that is not essential to the basic function of the firearm. The term includes a detachable firearm magazine.*

6) *"Firearm entity" means:*
   a) *firearm, firearm accessory, or ammunition manufacturer, distributor,wholesaler, supplier, or retailer; and*
   b) *a sport shooting range as defined by Section 250.001, Local Government Code.*

7) *"Firearm trade association" means any person, corporation, unincorporated association,federation, business league, or business organization that:*

   a) *is not organized or operated for profit and for which none of its net earningsinures to the benefit of any private shareholder or individual;*
   b) *has two or more firearm entities as members; and*
   c) *is exempt from federal income taxation under Section 50l(a), Internal RevenueCode of 1986, as an organization described by Section 50l(c) of that code.*

Mr. Mardoqueo Hinojosa, P.E., CFM, CPM
City Engineer/Engineering Director
City of Edinburg
415 W. University Drive
Edinburg, Texas 78539

RE: RFQ 2026-4 – Geotechnical Engineering & Construction Materials Testing Services

Dear Mr. Hinojosa:

Terracon Consultants, Inc. (Terracon) is pleased to submit the appended Statement of Qualifications (SOQ). Terracon is a multi-discipline consulting engineering firm. Our local services include:

- Environmental
- Facilities
- Geotechnical Engineering
- Materials Testing

This SOQ has been prepared to demonstrate our capabilities to perform the requested professional engineering and testing services in a timely manner. As a Senior Principal within the firm and Pharr Operations Manager, I will be available if you have any questions concerning our SOQ.

The Pharr Office is intimately involved in the City of Edinburg community; I am a proud citizen of the City of Edinburg residing in Los Lagos Golf Community. We participate on an annual basis by sponsoring the Edinburg July 4th Texas Cook'em High Steaks event and Edinburg Consolidated Independent School District (ECISD) Superintendent's Scholarship Golf Classic Tournament. We also contribute to the Edinburg Rotary Cajun Fest and joined a partnership with UTRGV baseball program during the 2017 season and continue to support them. These sponsorships are our way of being a member of the communities that have allowed us to provide our services to them. Furthermore, Terracon currently serves as a provider of Environmental (including asbestos and indoor air monitoring services), and On-Call Geotechnical Engineering, Construction Materials Testing, and Facilities services to ECISD.

I, Jorge A. Flores, P.G., will serve as the Client Manager and will be the point of contact for the City of Edinburg on all correspondence and communication pertaining to this SOQ. I am located in our Pharr Office at 1506 Mid-Cities Drive, Pharr, Texas, 78577 and can be reached at the office via telephone (956) 283-8254, fax (956) 283-8279, cell (956) 245-2319 or email jorge.flores@terracon.com. *I am authorized to bind **Terracon** to the provisions of this SOQ and conduct final contract negotiations on behalf of the firm.* If you have any questions, please do not hesitate to contact me at your convenience. We look forward to working with you and the City of Edinburg.

Sincerely,
Terracon Consultants, Inc.

Jorge A. Flores, P.G.
Senior Principal/Operations Manager

Section 2:
Firm Qualifications and Experience

SECTION 2
FIRM QUALIFICATION AND EXPERIENCE

Discuss the firm's experience and history in performing geotechnical engineering and construction materials testing services in a timely manner, particularly for other governmental agencies in the past (5) years. Discuss the firm's uniqueness to best perform these services for the City. Identify the office location that will be providing the services and the approach to handling part-time staffing needs for smaller assignments.

Terracon Consultants, Inc. (Terracon) is a dynamic and growing consulting firm providing multiple related service lines to clients at local, regional and national levels. Our services are delivered on a timely basis with consistently high value and attention to client needs. Local services include:

- Environmental
- Facilities
- Geotechnical Engineering
- Materials Testing

Since 1965, our employee-owned firm has delivered success for clients and employees. We help our clients succeed in their business ventures by effectively executing projects, controlling costs, and managing risk. Our clients appreciate this approach, and they know that we intend to be with them for the long term. Terracon's Pharr office has qualified certified technicians and a reputable engineering staff giving us the ability to respond quickly to our client's needs. Our responsiveness, high quality deliverables, practical solutions and competitive fees afford clients with a way of doing business that saves time and money.

Terracon has over 200 offices nationwide. In Texas, Terracon currently has more than 1,000 personnel with offices in Austin, Beaumont, College Station, Conroe, Corpus Christi, Dallas, El Paso, Fort Worth, Freeport, Frisco, Houston, Laredo, League City, Longview, Lubbock, Lufkin, Midland, Pharr, Round Rock, San Antonio, Tyler, and Waco. The Pharr office will continue to provide consulting services for the City of Edinburg contract as needed.

Terracon Consultants, Inc. is an employee-owned firm. No individual shareholder currently owns more than 5%. The stockholders in Pharr include:

Jorge A. Flores, P.G., Senior Principal	22 years with Terracon
Alfonso A. Soto, P. E., D. GE, F. ASCE, Senior Principal	24 years with Terracon
Stephanie M. Cardoza, MBA, Senior Associate	22 years with Terracon
Guadalupe Leal	20 years with Terracon
Sylvia Quinones	19 years with Terracon
Eloy Palacios, Senior Associate	19 years with Terracon
George Flores	18 years with Terracon

In addition, Terracon has over 200 Principals and Senior Principals including the following Pharr Office Principals:

Jorge A. Flores, P.G.
Sr. Principal/Office Manager
P: 956-283-8254 | F: 956-283-8279

Alfonso A. Soto, P. E., D. GE, F. ASCE
Sr. Principal/Materials & Geotechnical Manager
P: 956-283-8254 | F: 956-283-8279

Stephanie M. Cardoza, MBA
Principal/Client Development Manager
P: 956-588-2478| F: 956-283-8279

Terracon consistently ranks as a top 20 design firm by Engineering News-Record. Our successful growth has included organic expansion and innovation as well as the acquisition of more than 60 firms with specialized capabilities. A focused and uncompromising dedication to safety has been integral to how we support our employees, clients, and communities.

Terracon has been providing a full range of environmental engineering, geotechnical engineering and construction materials testing services for numerous cities, municipalities, architects, engineers and contractors throughout the South Texas area for more than 25 years. The projects Terracon have completed illustrate the diversity and depth of our engineering knowledge and have ranged from small streets to the Bert Ogden Arena to the new Hidalgo County Courthouse.

Terracon understands the types of municipal projects a city of the caliber of City of Edinburg must undertake to keep it the "jewel" to the Rio Grande Valley. Some of those types of projects may have problems, concerns, or unique features where the City of Edinburg must be sure they have acquired the appropriate qualified engineering firm to use value engineering and expertise to make those projects a great success. We believe we are that engineering firm for the City of Edinburg!

We believe that a process must be implemented and well managed to help avoid cost overruns, change orders, and delays. It is a team effort that must receive priority attention from all involved. Important steps in this process include:

GEOTECHNICAL ENGINEERING

The design and construction of functional, cost-effective structures require a thorough understanding of local soil, rock, and groundwater conditions. Terracon provides safe and quality-focused in-house exploration and geotechnical services to support both the design phase of a project and the construction process, if needed, to resolve ground-related construction issues.

Terracon is proud to have its own CME-75 drilling equipment and exploration staff with combined decades of field experience. Our nationwide engineering depth-of-bench and depth knowledge of the regional geologic and soil conditions is reflected in our vast geotechnical database that expands almost three decades, which provides an additional level of confidence to our reports. Our qualified exploration crew is able to perform subsurface exploration borings and sampling and can use the necessary methods to meet client and project needs (including drilling in loose sands, very dense and hard deposits, shallow groundwater conditions, or rock substrata), if necessary. If needed, our services may include specialized field testing, such as field percolation testing for on-site storm-water ponds.

The typical phases of a geotechnical study include Site Exploration, Laboratory Testing and Engineering Analysis. Site exploration will primarily consist of soil borings (depth and spacing determined based on size / type of installation, loads and area) sampled with various methods depending on the geology of the site. Laboratory testing will typically focus on determining soil classification in accordance with Unified Soil Classification System, physical properties, and strength properties. Engineering analysis may consist of the applicable project needs as outlined before under Services Provided.

Terracon's geotechnical services include:

- Site Characterization (Subsurface Exploration, In-Situ Testing, and Geophysics)
- Foundation analysis and design recommendations
- Pavement design recommendations and subgrade evaluation

- Recommendations for soil stabilization and ground improvement
- Earth structures, slopes, and stormwater detention systems
- Slope stability analysis and evaluation

MATERIALS TESTING

Proper selection, quality, workmanship, and performance of construction materials play a vital role in ensuring that today's buildings and infrastructure perform adequately over long-time periods. We work with clients to minimize material replacements, reduce the likelihood of deterioration, avoid potential failures, and investigate and evaluate construction materials related problems and failures when they do occur.

Terracon's materials testing services include:

- Construction Quality Assurance/Quality Control
- Structural Steel and Nondestructive Testing
- Field and Laboratory Observation & Inspection
- Materials Engineering
- Pavement Materials Engineering
- On-Site Observation and Monitoring
- Materials Mix Design, Evaluation, Verification
- Materials Evaluation and Selection

Laboratory testing at Terracon is conducted in accordance with our in-house Laboratory Quality Control Manual and in general accordance with industry-recognized laboratory standards and practices. Terracon maintains AASHTO and USACE accreditations. Certifications can be provided upon request. Our laboratories in the El Paso Region are equipped to perform the following tests:

SOILS

- Moisture-Density Relation
- Gradation
- Atterberg Limits
- Nuclear Density
- Sand Cone Density
- Specific Gravity
- Hydrometer Analysis
- California Bearing Ratio
- Unconfined Strength
- Soil-Cement Testing
- Lime-pH Relationship
- Permeability (Falling & Constant Head)

AGGREGATES

- Moisture Content
- Gradation
- Specific Gravity
- Absorption
- Soundness
- Clay Lumps/Friable Particles
- Flat/Elongated Pieces
- Fractured Faces

CONCRETE

- Slump & Air Content
- Unit Weight/Yield
- Compressive Strength
- Flexural Strength
- Flatness/Levelness
- Core Sampling of Hardened Concrete
- Testing of Concrete Cores
- Mix Designs

ASPHALT

- Unit Weight
- Specific Gravity
- Marshall Stability & Flow
- Texas Gyratory Compaction
- Bitumen Extraction
- Aggregate Gradation
- Core Sampling
- Mix Designs

ENVIRONMENTAL SERVICES

Negotiating the complexities of environmental issues can be challenging and time-consuming. Terracon relies upon demonstrated experience and knowledge of local conditions and regulations to deliver solutions that are timely, practical, and make good business sense.

From the most basic property assessment to complex industrial compliance issues, Terracon's services are designed with the client in mind. We consistently blend goals and budgets with sound technical knowledge to meet project objectives. These services are conducted from our extensive network of local offices. By combining our national resources with specific local area expertise, we consistently overcome obstacles and deliver the results our clients expect.

Terracon's professionals have a thorough understanding of local conditions and regulations, and know how to effectively manage the potential risks presented by hazardous materials and chemical releases that have impacted a site. In addition to working for thousands of private sector clients, Terracon routinely develops and implements environmental solutions in support of local municipalities and state agencies.

Our environmental services include:

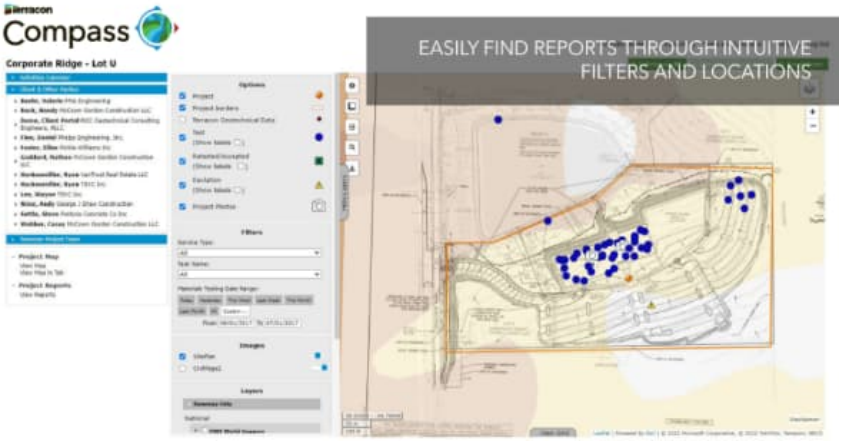
- Phase I and II ESAs
- Remedial design and implementation
- Brownfield site redevelopment
- Cultural Resources
- Natural resources/wetlands delineation/mitigation
- Industrial hygiene/health and safety
- Asbestos/lead/mold/indoor air quality
- Regulatory compliance
- Environmental management systems
- Threatened and Endangered Species

Terracon believes that the recording and delivery of test and observation results is as important as the collection of the data via field and laboratory activities. Terracon's Construction Materials Engineering Laboratory Management System (CMELMS™) automates the delivery of information. Our proprietary CMELMS™ software provides our project managers with the necessary tools to track test data and observe potential negative trends that can be addressed early on thereby reducing the likelihood of costly retests, repairs and construction delays. After a work order is developed the project manager tracks the test completion, review, invoicing and distribution and dates accordingly.

Terracon's proprietary data management system generates real-time test results of critical information, keeping you informed of all test results and keeping your project moving forward.

- 24-hour report-turnaround for non-conformance items and failing tests
- Custom report delivery that can be shared with multiple entities
- Real-time reporting keeps you and your project team informed, saving time and money

Compass - Data Delivery

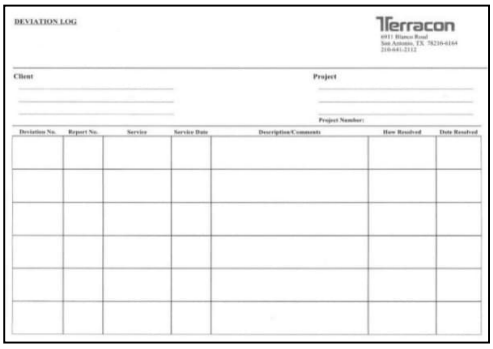


Traditional methods of reporting and accessing results of your project's inspections, testing, and observations are no longer sufficient for today's construction projects. With a large number of reports generated on a single project, you now have a solution to quickly find and view specific data to make timely, informed decisions for your project.

Terracon offers you the ability to view and interact with your testing data in a new way and is committed to using innovative techniques to deliver quality projects. Construction data is viewed by geographic location in relation to your project drawings as part of our seamless project delivery system.

How It Works:

We overlay your project drawings into an accessible GIS map. Our field professionals will locate where they are standing on the plan through their mobile devices. When performing a test or observation, they simply drop a pin where the work is, perform our work, and collect the data. Field professionals complete the data collection through intuitive forms built into the application.



Once complete, the technicians can submit the report from their device in the field which dramatically reduces report turnaround time. After the report has been reviewed and approved it is visible in Terracon Compass. Imagine seeing all your materials testing data for your project on one screen, located where the work occurred, and with intuitive filters to find what you need. What used to take hours can now be accomplished in minutes using Terracon Compass.

Automated System for Scheduling, Reporting, Distribution, Invoicing and Budget Tracking

Once the project begins, Terracon utilizes our automated Proprietary CMELMS software program. This allows us to achieve better communication, more consistency and faster turnaround of reporting on the project. Data, observations and other information are easily entered into the system and reports are generated. The program automatically tracks all reports and provides immediate availability of test results. Additionally, the statistical performance of all concrete mixes being utilized on a project can also be monitored.

The CMELMS software can produce electronic or paper copies of reports for distribution. Reports can be distributed via traditional mail, electronic mail and/or Internet web pages can be established. The program will also track our project budget on a daily basis and produce real-time budget reports and invoices for services provided.

We understand the importance of good communication especially in instances of changes in scope or site conditions, instructions and modifications to work requests demand instantaneous communication. To that end, every staff professional and field technician is provided with a company mobile telephone so that direct communication with office staff, subcontractors and the City of Edinburg's staff is available.

Office Technology/Computing/Web-Based Services

Terracon's IT Solutions department provides data management tools to assist our clients in the success of their projects. Through these services, Terracon is able to offer secure and efficient applications that will assist Terracon's ability to communicate and store critical project data, including project status, reports and task management. Laboratory data, final reports, specifications, etc., is password-protected only to designated Terracon staff. Desk Top Computers are electronically linked by a wide area network and to the Internet, allowing us to communicate, transfer, and analyze data, drawings, etc. on a real-time basis. Reports can be submitted electronically. As an alternative, we can establish a portal for the project to allow access to the test reports.

Terracon has a vast resource pool of engineers, geologists, scientists and biologists to draw from its more than 200 offices nationwide in the event a client faces unique problems during or before construction. Terracon employs one of the largest staffs of certified technicians and Construction Materials Engineers in Texas. Our staff of more than 150 construction materials technicians and 69 Texas state licensed professional engineers allows us to respond to technical issues that the City of Edinburg may have on its projects.

We believe that we will be the best choice for the City of Edinburg contract because Terracon is an expert at the scope of work and we offer many other advantages and unique services. It is through our performance as a team member that Terracon has earned a reputation for quality.

Terracon has assigned a well-trained, qualified and experienced project manager to direct this work assignment. He has the experience and demonstrated ability to anticipate and solve staffing capacity and other issues, before they arise, and is dedicated to serve the City of Edinburg's needs.

Terracon is ready and able to assist the City of Edinburg in achieving its goals with our targeted approach to materials testing services. Terracon provides the following:

- Team Approach - Terracon proposes to function as an extension of the City of Edinburg organization. This team oriented concept allows us to interact with the design and the construction firms as well as the owner.
- Staff Qualifications – We will assign qualified and certified engineering technicians under the direct supervision a project manager. The core value of our professional engineer is to protect the public health, safety and welfare and we believe this core value is in line with the underlying core values of the City of Edinburg.
- Staff Dedication - The number of staff members will be flexible and will increase and decrease in correspondence with the level of need. The staff assigned to the City of Edinburg project will be responsible for the project from start to finish.
- Laboratory and Field Equipment - Terracon utilizes state-of-the-art laboratory and field equipment to perform the testing.
- Quality Assurance - Terracon's laboratory is A2LA accredited and maintains an internal audit and quality assurance program to ensure that a desired level of service and standards are preserved.
- Budget Management - Through the use of our proprietary Construction Materials Engineering Laboratory Management System (CMELMS), data recording, and tracking has become streamlined.
- Test data and budget data retrieval is instantaneous. This reduces inefficiencies associated with paper filing and spreadsheet time/budget tracking.
- Laptops – Terracon utilizes full connectivity between our field personnel on the project with office engineering staff, and our clients. We currently provide laptops to 1,000 field personnel to go along with the smartphones they presently have. This enhances the value of our services as we continue to optimize our ability to communicate with our clients and ensure critical information is transmitted quickly to the project team.

At Terracon, we are continually looking for opportunities to provide more value to our clients and improve the way we do business. Hiring and training the most qualified people to work in construction materials is the most important investment we can make. In addition to having the right people in place, companies must invest in innovative systems that help deliver critical information to clients with speed and efficiency. Terracon's Construction Materials Engineering and Laboratory Management System (CMELMS™) gives us the ability to do just that. Through CMELMS, we can comprehensively manage all of the information we collect for our clients' projects. This system allows our project teams to easily track, manage, and distribute field and laboratory reports in real-time and quickly sort through the information to consult on critical issues. We can schedule our technicians, track costs and budgets, communicate progress, and keep clients up-to-date and informed every step of the way. This technology has allowed Terracon to achieve faster communication, more consistency, and faster turnaround of reports on projects.

There are many questions to ask when selecting a CMET consultant; how firms responsively and reliably communicate is important to meeting your needs. Watch Terracon's video titled, CMELMS – A Look Inside

Terracon's Innovative Software, located at http://www.terracon.com/construction-materials for more information on our technology.

Our Pharr office has provided services to over 650 projects in the last decade for municipal clients throughout the Rio Grande Valley. Terracon has provided engineering consulting services for the City of Edinburg since 2008 (62 projects) City of McAllen since 2009 (460 projects), City of Pharr since 2009 (79 projects), and many others local municipalities in the Rio Grande Valley.

Terracon's Pharr office has provided Geotechnical and/or Materials related services on more than 300 projects for local governmental agencies and municipal clients in the past five years.

The municipal projects on the following pages demonstrate our experience and expertise projects relating to following types of projects:

- Public Works
- Public Utilities
- City Improvement Projects (CIP)

Our experience is proven through our work with the City of Edinburg other comparable municipalities (see projects below).

Project No. 1
Name of Project:
City of Edinburg
Geotechnical, Construction Material Testing and Engineering, and Environmental Services
2020-Current
2008-2018

Scope of Services:
Terracon has performed a number of geotechnical engineering studies and has been retained to perform geotechnical soils investigations and construction materials testing services for the various streets and alleys for the City of Edinburg. Terracon's staff drilled soil borings and performed laboratory testing on the recovered soil samples. The data collected was used to design the pavement sections for the reconstruction of asphaltic concrete roadways and installation of new water, storm drains and sewer systems. Our pavement analysis involved performing California Bearing Ratio (CBR) tests for use in the pavement analysis. The AASHTO method for pavement design was used. Our construction materials testing services have included sampling of the pavement subgrade and base materials for moisture-density relationships in the laboratory, performing in-place field density tests on the pavement subgrade and base courses, and coring the asphaltic concrete surface to check for proper thickness and density. The costs of our geotechnical (soils) and construction materials services were completed within budget. *Both of these services are on-going with the City of Edinburg. The following are select individual projects the Terracon Pharr office has worked on.*

Number	Name	Service Line	Fee
88211178	City of Edinburg - Tule Recreation Center	Materials	$81,829.74
88211179	City of Edinburg - Lull Subdivision Improvements	Materials	$66,692.52
88211050	City of Edinburg - Las Encinitas Subdivision Phase II	Materials	$50,882.96
88211274	Rogers Coves Phase A	Materials	$37,905.00
88241140B	City of Edinburg - Memorial Park New Restrooms Facilities	Materials	$36,730.77
88241140A	City of Edinburg - Bicentennial Park New Restrooms Facilities	Materials	$36,730.77
88241140	City of Edinburg - Frontier Park New Restrooms Facilities	Materials	$36,730.77
88201227	Russell Subdivision Park Subdivision Phase III & IV	Materials	$36,216.00
88211065	City of Edinburg - Ensenada Estates	Materials	$34,922.47

88211124	City of Edinburg - SH Mount Estates	Materials	$29,906.17
88211064	City of Edinburg Canton Heights No. 2	Materials	$29,833.27
88201197	City of Edinburg Raw Water Supply and Distribution Additions	Materials	$29,724.00
88241026	Brennaaleen Cedar Drainage Improvements	Materials	$28,134.76
88221111	City of Edinburg - University Village	Materials	$28,071.70
88211161	Canton Heights No. 3	Materials	$26,928.07
88261051	Brennaaleen Cedar Drainage Improvements Project Phase III	Materials	$25,146.31
88081137	Canton Road	Materials	$23,735.00
88211267	City of Edinburg - La Marquese Estates	Materials	$23,207.83
88241131	City of Edinburg - 750kw Standby Generator	Materials	$22,620.40
88201222	City of Edinburg The Garden at Lake James Subdivision	Materials	$21,468.00
88211004	Newcastle Subdivision City of Edinburg	Materials	$21,358.30
88211113	City of Edinburg - Pearl Estates	Materials	$20,671.94
88211066	City of Edinburg Penny Lane Avanti West	Materials	$15,000.00
88211003	City of Edinburg - Queens Court Subdivision	Materials	$14,533.14
88235025	Brennaaleen Cedar Drainage Improvements	Geotechnical	$13,700.00
88187078	El Tule Building	Environmental	$13,400.00
88235029	Edinburg Wastewater Treatment Plant	Geotechnical	$11,850.00

Name of Representative:

Project No. 2
Name of Project:
City of McAllen
Capital Improvement Projects 2017-Current; Subdivision Projects 2009-2016

Name of Representative:
Mr. Eduardo Mendoza, P.E.
City of McAllen
210 N. 20th Street
McAllen, Texas 78501
(956) 688-1151

Scope of Services:
Terracon is currently providing geotechnical engineering and construction materials testing services at various City of McAllen projects. We provide multiple entities with copies of the results of the construction materials testing in a timely manner. We also perform geotechnical explorations, including soil borings, for the preparation of geotechnical reports complete with boring logs, laboratory results, geotechnical recommendations, and site plans for the development of construction documents for various improvements within the city. The costs of our services were completed within budget. *These services are on-going with the City of McAllen. Below is a limited list of projects we have worked on for the city.*

Number	Name	Service Line	Fee
88201005	Bicentennial Blvd Extension Project	Materials	$142,057.13
88161118	Tres Lagos Spine Infrastructure	Materials	$100,000.00
88211221	City of McAllen New Metro Transfer Sta., Admin. Office, & Bus Maint. Facility	Materials	$78,106.88
88211034	City of McAllen - 2018 Bond Group A Drainage Improvements	Materials	$67,542.75
88251093	City of McAllen Alley Rehabilitation Section A	Materials	$59,550.00
88241221	McAllen Near-Shoring Industrial Park	Materials	$59,550.00

88221151	City of McAllen - Daffodil Ave. Between Ware Rd. & Taylor Rd.	Materials	$54,000.00
88241048	McAllen Palms Business Park Subdivision	Materials	$50,687.00
88231063	Brier Village Subdivision	Materials	$50,000.00
88231043	City of McAllen Dove Ave. Roadway & Drainage Improvement	Materials	$48,873.50
88227123	Approximately 133-Acre Vacant Tract of Land - Limited Site Investigation	Environmental	$48,285.00
88251076	City of McAllen 2025 Single Machine Repaving Project	Materials	$46,630.00
88231325	City of McAllen South Industrial Park	Materials	$46,085.00
88255009	Taylor Road - Pavement Reconstruction	Geotechnical	$43,304.50
88181050	City of McAllen 29th Street Expansion	Materials	$42,584.63
88211244	City of McAllen - Parks & Recs. Dept. New Admin. Office & Maint. Warehouse Facility	Materials	$38,000.00
88231188	City of McAllen - Fire Station No. 8	Materials	$35,085.00
88161055	The Heights of McColl	Materials	$30,856.13
88231023	Quince Avenue & N 27th Street DIP	Materials	$30,000.00
88221162	City of McAllen - 2018 Bond Group C1 Drainage Improvements	Materials	$30,000.00
88171077	North McAllen Wastewater Reuse Project Part A-Transmission Line Improvements	Materials	$30,000.00
88171073	City of McAllen Public Safety Building Parking Garage	Materials	$30,000.00
88231295	City of McAllen Silverado Moon Subdivision	Materials	$29,787.00
88227339	Approximately 1,288-Acre Tract of Land	Environmental	$29,700.00
88251253	City of McAllen - Citrus Grove Retail Plaza	Materials	$29,550.00
88251223	City of McAllen - Villas on Bentsen Subdivision	Materials	$29,550.00
88251209	City of McAllen - Enclave on Jackson Subdivision	Materials	$29,550.00
88251181	City of McAllen - Garden Rose Subdivision	Materials	$29,550.00
88251159	City of McAllen Alley Rehabilitation Section C	Materials	$29,550.00
88251135	City of McAllen - Fenix Estates Subdivision	Materials	$29,550.00
88251132	City of McAllen - Mayberry Hills	Materials	$29,550.00
88251094	City of McAllen - The Heights on Wisconsin Subdivision Phase I	Materials	$29,550.00
88251080	City of McAllen - El Collado Subdivision	Materials	$29,550.00
88241268	City of McAllen - JLG Subdivision	Materials	$29,550.00
88241242	City of McAllen Georgia Subdivision	Materials	$29,550.00
88241243	McAllen South Industrial Park Subdivision - Phase II	Materials	$29,550.00
88241241	Hidalgo County Head Start Program Outdoor Learning Environments and Discovery Classrooms Subdivision	Materials	$29,550.00
88255078	New McAllen City Hall	Geotechnical	$28,013.50
88215096	2018 Bond Drainage Project B - NW Blueline Ditch	Geotechnical	$27,405.75
88221258	City of McAllen - Cascada at 3 Lagos Phase III	Materials	$27,186.50
88141077	The Embers	Materials	$27,000.00
88231304	City of McAllen Sunset Valley Subdivision	Materials	$26,861.00

Our TxDOT experience is demonstrated through the numerous contracts we have successfully completed throughout Texas. In addition, Terracon currently serves as a provider under TxDOT's South Region Commercial Laboratory Program.

Project No. 5

Name of Project:
TxDOT Professional Service Contract
Pharr, Texas

Geotechnical Engineering Construction Materials Engineering and Testing Services

Name of Representative:
Pharr District
Texas Department of Transportation (TxDOT)
Brooks, Cameron, Hidalgo, Jim Hogg, Kenedy, Starr, Willacy, and Zapata Counties, Texas
Pedro "Pete" Alvarez, P.E.
District Engineer
Texas Department of Transportation (TxDOT) (956) 702-6101

Scope of Services
Terracon provided services to TxDOT Pharr District from 1996 to February 2007. TxDOT was upgrading and reconstructing its major roads and highways to meet the growth demands of the Rio Grande Valley. Terracon's geotechnical services included drilling of soil borings for bridges, retaining walls, and

pavements, and performing laboratory tests on the recovered soil samples for design purposes. Terracon's personnel construction materials testing personnel provided services on road and highway projects that are under construction. Typical services included monitoring of the batch plant operations during batching of concrete and asphaltic concrete, sampling of the pavement subgrade and base materials for moisture-density relationships in the laboratory, performing in-place field density tests on the pavement subgrade and base courses, sampling of fresh concrete to measure temperature, slump, mold cylinders for compressive strength testing, and beams for flexural strength testing. *The following are individual projects the Terracon Pharr office has completed.*

Projects:

- FM 494, Phases 1 & 2, CSJ Nos. 0864-01-068 and 0864-01-069 – Geotechnical Services
- US 83 North, CSJ No. 0038-06-045 – Geotechnical Services
- US 281/BSIF Connector – Materials Testing & Inspection Services
- Rio Grande City Port Access Road – NEPA Services (Environmental Assessment)

Project No. 6

Name of Project:
State Highway 365 (SH-365)
Hidalgo County, Texas
2014

Scope of Services:
Terracon performed a geotechnical engineering study for the proposed SH 365 - Segment 1 to be located in Hidalgo County, Texas. This 7.5-mile highway will include several bridge and retaining wall structures as well as the relocation of two existing levees.

Name of Representative:	Address:	Phone Number:
Mr. Phillip Pawelek, P.E.	S&B Infrastructure, Ltd. 5408 N. 10th Street McAllen, TX 78504	(956) 926-5000

In addition, Terracon has performed services on several high-profile projects, please see the following page.

Project 1: New Hidalgo County Courthouse – Edinburg, Texas

Terracon provided Geotechnical Engineering and Materials Testing during construction of the new Hidalgo County Courthouse. Pressuremeter (PMT) tests were conducted to evaluate design bearing capacities that allows for more accurate determination of the strength of the subsurface soils. Non-destructive testing (NDT) in the form of the Sonic Eco/Impulse Response test method to evaluate the length and integrity of the shaft. Located in the heart of downtown Edinburg, the 10-story building will accommodate 471,000 square feet of space and support 24 courts and six additional courts for the future.

Project 2: Bert Ogden Arena – Edinburg, Texas

The new Bert Ogden Arena is the new home of the Rio Grande Valley Vipers. The arena is located along Expressway 281 at Alberta Road and with 9,500 seats, will be the largest in the Rio Grande Valley. The $83 million sports and entertainment venue set to open by August 2018 includes an approximately 260,000 sq. ft. multi-story arena building and associated pavements. Terracon's involvement included

Geotechnical Engineering services that included conducting exploratory borings, associated laboratory testing, in-situ pressuremeter testing, and pile load testing as well as currently providing field and laboratory quality control testing for the duration of the project.

Project 3: Pharr Multi-Use Facility- Pharr, Texas

Terracon provided geotechnical engineering services for the owner and is currently providing construction materials testing and inspection services during construction of the Pharr Multi-Use Facility for the City of Pharr. The project includes the construction of an approximately 80,924-square-foot, two-story event center, together with associated pavements and site improvements. Terracon's services included subsurface exploration, geotechnical engineering recommendations, earthwork observation, field density testing, and construction materials testing during construction.

Project 4: Brownsville Public Safety Facility– Brownsville, Texas

Terracon provided geotechnical engineering services for the City of Brownsville and will provide construction materials testing and inspection services during construction of the new Public Safety Facility. The project includes the construction of an approximately 71,000-square-foot, two-story public safety building, a 150-foot-tall self-support communications tower, a chiller structure, detention facilities, pavements, and associated site improvements. Terracon's services included subsurface exploration, laboratory testing, geotechnical engineering analyses, and development of foundation, earthwork, and pavement design recommendations.

Project 5: South Texas Medical Academic Building – Edinburg, Texas

An 88,000 sq. ft. University of Texas Rio Grande Valley School of Medicine Medical Academic Building is nearing completion in Edinburg, Texas. The project included the construction of a three-story building and a single-story building with a connecting shade structure. Associated pavements are also at the site. Terracon's involvement included Geotechnical Engineering as well as field and laboratory quality control testing for the duration of the project.

Project 6: UTRGV–McAllen Collegiate Academy – McAllen, Texas

Terracon provided geotechnical engineering and environmental due diligence services and provided construction materials testing and inspection services during construction of the new 42,500-square-foot, two-story UTRGV–McAllen Collegiate Academy. The project included a new academic facility and associated site improvements. Terracon's services included earthwork observation, concrete sampling and testing, masonry inspection, structural steel observation, asphalt testing, laboratory testing, and project coordination to verify compliance with project specifications.

Section 3:
Team Member Qualifications and Experience

SECTION 3
TEAM MEMBER QUALIFICATIONS AND EXPERIENCE

Submit resumes summarizing qualifications and experience of project manager, key staff and any support staff likely to be assigned to the work.

Below Terracon proudly presents our Pharr Management Team. Resumes are attached at the end of this section.

Key Leadership

Alfonso A. Soto, P.E., D.GE, F. ASCE | *Role: Geotechnical Task Leader*
Provides senior leadership for the geotechnical program, including technical oversight, quality assurance, and overall project direction. Serves as the primary technical authority and ensures consistency, compliance, and high-quality delivery.

Martin Reyes, E.I.T. | *Role: Geotechnical Project Manager*
Supports management of geotechnical and materials operations, including staff coordination, field activities, and technical delivery. Plays a key role in maintaining efficiency and project execution across assignments.

Mustapha Rahmaninezhad, P.E., PhD | *Role: Geotechnical Project Manager*
Provides engineering support for geotechnical and materials projects, including analysis, reporting, and coordination. Ensures deliverables meet technical and regulatory requirements.

Adamari Davila, P.E. | *Role: Geotechnical Project Manager*
Provides engineering support for geotechnical and materials projects, including analysis, reporting, and coordination. Ensures deliverables meet technical and regulatory requirements.

Guadalupe Leal | *Role: Materials Testing Task Leader*
Leads the materials testing program, overseeing field and laboratory operations, scheduling, and quality control to ensure compliance with project specifications.

Jorge L. Perez | *Role: Materials Testing Project Manager*
Manages materials testing operations and field services, including day-to-day coordination, staffing, and client communication to maintain responsive and efficient service delivery.

Eloy Palacios | *Role: Environmental Services*
Provides oversight of environmental services, including compliance, investigations, and coordination of environmental support as needed for BPUB projects.

Tomas Cruz | *Role: Environmental Services*
Supports execution of environmental projects, including resource coordination, field activities, and delivery of environmental services.

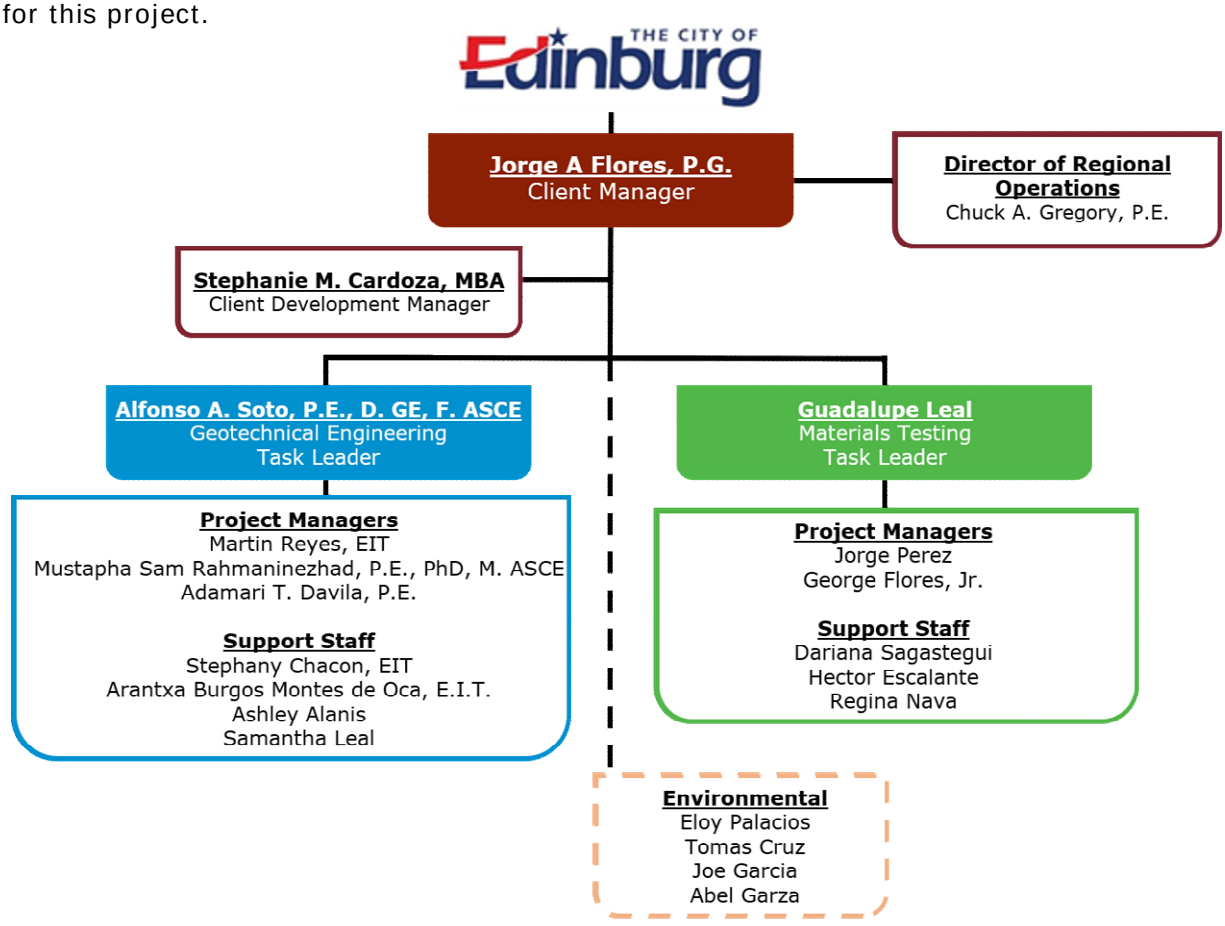
Project Management Team

Project staffing is organized by discipline to provide focused technical expertise while maintaining coordination between geotechnical and construction materials testing services.

Geotechnical Engineering

- Stephany Chacón, E.I.T.
- Arantxa Burgos Montes de Oca, E.I.T.
- Ashley Alanis
- Samantha Leal

Construction Materials Testing



- Dariana Sagastegui, M.S.
- Hector Escalante
- Regina Nava
- George Flores, Jr.

Environmental Support

- Joe Garcia
- Roy Cordero
- Abel Garza

Alfonso A. Soto, P. E., D. GE, F. ASCE will serve as the Project Manager and Project Engineer. He will be the primary technical contact for the City of Edinburg and will be responsible for resolving quality of service issues and will provide overall direction, management and oversight of all Terracon services for this project.

Mr. Soto's early project activities will include a review of the project plans and specifications to obtain an understanding of the proposed construction, as well as coordination with the City of Edinburg concerning project processes including project authorities, scope of services, schedule, budget and communication processes.

During this phase, Mr. Soto will also attend preconstruction meetings with the Design Team and Contractors to meet project personnel, gather additional information about the project and to answer any questions concerning project conditions and project testing and inspection procedures.

At the start of construction, qualified Project Technicians will be assigned to the project to support the field testing and inspection phase of the project. We anticipate using the services of technicians who have the appropriate certifications as outlined in the City of Edinburg Scope of Services.

While on site during construction, the Technicians will be available to communicate directly with the City of Edinburg Representative, and will communicate frequently with Mr. Soto concerning the status of the project and testing results via the company-owned Blackberry Bold ™ cell phones. Mr. Soto will be responsible for keeping the City of Edinburg's Representative apprised of the current status of the testing and inspection associated with the project and, as part of our quality assurance process, and he will be responsible for obtaining the appropriate level of internal review of the testing reports and documentation developed in the field.

Proprietary Construction Materials Management Software

For management of the project, Terracon uses our automated Construction Materials Engineering Laboratory Management System™ (CMELMS). This management system is focused on four major goals related to the construction materials testing services:

- Make all parties fully aware of our scope and role on the project so that none of the required materials testing services are overlooked or ignored.
- Establish an effective process for the rapid transfer of construction observation and material test results.
- Incorporate and maintain a tracking system for material performance, report distribution, and identification and clearance of non-conformance items.
- Communicate regularly with our client on test results and findings as well as budget and cost status in order for the project to be both technically and financially successful.

Mr. Soto will meet with the Project Team prior to the start of construction and review the construction materials testing requirements. This meeting will highlight the overall testing requirements for the project. It will allow the project team to define and discuss items that are of a critical nature so that special attention can be paid and prevent such items from negatively impacting the schedule or construction quality.

Once the project begins, Terracon will utilize our automated CMELMS software program. This allows us to achieve better communication, more consistency, and faster turnaround of reporting on the project. Test data, observations, and other information are easily entered into the system and reports are generated. The program automatically tracks all reports, provides immediate availability of test results, and, in addition, the statistical performance of all concrete mixes being utilized on a project can also be monitored.

The CMELMS software can produce electronic or paper copies of reports for distribution. Reports can be distributed via traditional mail, electronic mail and/or Internet web pages can be established where our reports will be posted. The program will also track our project budget on a daily basis and produce real-time budget reports and invoices for services provided.

Materials Expertise

Terracon and our designated team members are capable of providing a wide variety of materials testing and consulting services. Some of these services include welding procedure review and welder performance qualification testing, pipe weld non-destructive testing, inspection of structural steel metal framing, floor flatness and levelness testing, in-place temperature monitoring, moisture vapor emission testing, roofing inspection, coatings inspection and mil thickness verification, non-destructive testing of hardened concrete, concrete and asphalt coring and materials engineering, specialized testing of asphalt products and flexible base materials, and various forensic evaluations of concrete, asphalt, structural steel, and pipe. Our ability to provide such specialized services make Terracon the most versatile and capable consulting firm in the Rio Grande Valley.

Deficiency Log

Through our CMELMS program, we have the capability to efficiently track and develop a listing of our tests and observations that are not in compliance with the approved plans and specifications for the project. This deficiency log is maintained throughout the project and serves as a valuable tool that can be used to track deficiencies until they are resolved. Maintenance and distribution of a deficiency log serves to notify the responsible parties that deficiencies were noted and corrective action is required. This reduces the risk of uncorrected deficiencies affecting the construction.

American Association of State Highway and Transportation Officials

AASHTO Accreditation Program Certificate of Accreditation

This is to signify that

Terracon Consultants Inc.

in

Pharr, Texas

has demonstrated proficiency for the testing of construction materials and has conformed to the minimum requirements established in AASHTO R 18 set forth by the AASHTO Highway Subcommittee on Materials (HSOM).

The scope of accreditation can be viewed on the AAP Directory of Accredited Laboratories on www.amrl.net.

Bud Wright, Executive Director

Moe Jamshidi, AASHTO HSOM Chair

AASHTO THE VOICE OF TRANSPORTATION

AAP AASHTO R18

Our Pharr office is fully equipped to perform field and laboratory testing of soils, concrete and asphalt- the Terracon Pharr Laboratory is accredited by AASHTO Materials Reference Laboratory (AMRL) in Soils and Aggregates.

Our engineering and technical staff are qualified and trained to perform the geotechnical and construction material engineering and testing services listed in the RFQ. Terracon can deliver the items and data being requested in the RFQ scope of services. The following is a general breakdown of the Pharr office personnel.

Licensed Texas Engineer (P.E.)	3	Project Coordinator	1
Engineer-in-Training (E.I.T.)	3	Logger	1
Licensed Texas Geologist (P.G.)	1	Lab Manager	1
Graduate Engineer	6	Lab Technicians	5
Geologist/Asbestos & Mold Consultant	1	Engineering Technicians	20
Environmental Scientist	4	Administrative Manager	1
Environmental Technician	1	Client Development Manager	1
Resource Coordinator/Dispatch	1	Project Assistant	1
CMT Project Managers	3	TOTAL	51

Most of our employees are cross trained for maximum efficiency. For example, our logger is also a CMT technician and our asbestos project manager an air monitoring technician. * One of our CMT PMs is also a Graduate Engineer-we have 2 full time CMT PMs.

The Prime Contact for our *Team* for the entire project will be Jorge A. Flores, P.G. who will serve as the Client Manager for all projects. When the City of Edinburg assigns a project to Terracon, Mr. Flores will be involved in contract negotiations.

Alfonso A. Soto, P. E., D. GE, F. ASCE, Senior Geotechnical and Construction Materials Testing Engineer will serve as the Senior Project Manager. He will be the primary technical contact for the City of Edinburg, and will be responsible for resolving quality of service issues and will provide overall direction, management and oversight of all Terracon services for this project. Mr. Soto has received his Diplomate, Geotechnical Engineering (D.GE) certification. This professional certification is offered through the Academy of Geo-Professionals and ensures that geotechnical engineers have specialized knowledge and skills in their field of practice. He is also a Fellow of the American Society of Civil Engineers (ASCE). Through civil engineering ASCE Fellows have made significant contributions and developed creative solutions that change lives around the world. It is a prestigious honor held by fewer than 4 percent of ASCE members.

Mr. Soto's early project activities will include a review of the project plans and specifications to obtain an understanding of the proposed construction, as well as coordination with the City of Edinburg concerning project processes including project authorities, scope of services, schedule, budget and communication processes. During this phase, Mr. Soto will also attend preconstruction meetings with the Design Team and Contractors to meet project personnel, gather additional information about the project and to answer any questions concerning project conditions and project testing and inspection procedures. At the start of construction, qualified Project Technicians will be assigned to the project to support the field testing and inspection phase of the project. We anticipate using the services of technicians who have the appropriate certifications as outlined in the City of Edinburg Scope of Services. While on site during construction, the Technicians will be available to communicate directly with the City of Edinburg Representative, and will communicate frequently with Mr. Soto concerning the status of the project and testing results via the company-owned smart phones and laptops. Mr. Soto will be responsible for keeping the City of Edinburg's Representative apprised of the current status of the testing and inspection associated with the project and, as part of our quality assurance process, and he will be responsible for obtaining the appropriate level of internal review of the testing reports and documentation developed in the field.

Chuck A. Gregory, P.E., Senior Principal/Vice President/Regional Manager of Terracon, will be an In-House Consultant to the project. His duties will involve technical and administrative input including proposal review and contract negotiations. He will provide assistance and direction on technical design issues that may arise. Mr. Gregory may also provide final technical review, to include signing and sealing of technical documents. *Mr. Gregory will be available during the duration of the project*. His chargeable time to the project will not exceed about 2 percent of the project time.

After the project is assigned to Terracon, Mr. Flores will transfer any geotechnical and construction material testing projects to Mr. Soto, who in turn may have one of the following Terracon Project Managers assist him:

- Martin Reyes, E.I.T. - Geotechnical Engineering
- Sam Mustapha Rahmaninezhad, Ph.D., A.M.ASCE- Geotechnical Engineering
- Stephany Chacon, E.I.T. - Geotechnical Engineering
- Guadalupe Leal - Construction Materials Testing
- Jorge Perez – Construction Materials Testing
- George Flores - Construction Materials Testing
- Dariana Sagastegui - Construction Materials Testing

The Project Managers will supervise and coordinate the daily activities of the project for the Geotechnical Engineering and Construction Materials Engineering aspects of the project. They will engage any required subcontractors such as drillers or specialty testing requirements. They will perform technical analyses, technical review and project management. *These individuals will be available during the duration of each project*. Their chargeable time to each project will vary between 20 and 40 percent of the project time depending on the scope of each assignment.

Certified Technicians

Terracon's personnel are NICET, ACI, CWI and TxDOT certified with experience on many large construction materials testing projects in South Texas. Many of Terracon's professional and technical staff serve on the boards or regularly participate in organizations developed to improve the science of engineering testing and inspection such as the American Concrete Institute, ASTM, American Association of Laboratory Accreditation, ASCE Materials Section, the Texas Council of Engineering Laboratories and the National Institute of Certified Engineering Technicians.

Jorge A. Flores, P.G.

CLIENT MANAGER/SENIOR PRINCIPAL

PROFESSIONAL EXPERIENCE

Mr. Flores is the operations manager of Terracon's Pharr, Texas office and is responsible for supervising all geotechnical engineering, construction materials testing and environmental services in the Rio Grande Valley area. He also manages administrative, marketing and personnel development activities.

Mr. Flores has over thirty (30) years of professional experience. His project management experience includes directing environmental professional and staff level individuals in conducting due diligence environmental site assessments, developing site health and safety plans, conducting asbestos surveys, initial soil and ground water investigations, bioremediation and landfarm system operation, waste characterization, stormwater sampling, quality assurance and quality control validation, budget and project planning for clients, and risk assessments to assist clients potential risk at various types of sites.

Mr. Flores has extensive expertise in performing field activities for groundwater monitoring and sampling, preparing file logs for soil boring and installation of monitoring wells, providing field observation for UST removal projects, and sampling and characterizing unknown waste streams. In addition, he has conducted vapor monitoring during tank de-gassing, aquifer slug and pump tests, and environmental site assessments (ESAs) for property transactions to determine potential environmental risk and liability due to past and present conditions.

PROJECT EXPERIENCE

City of Edinburg
Mr. Flores has served as client represenative and office manager on all City of Edinburg projects.

Texas Commission on Environmental Quality (TCEQ)
Leaking Petroleum Storage Tank (LPST) – Texas
Project manager for numerous LPST retail fuel facility sites in Texas. Conducted site investigations, including soil boring, monitoring well and sparging point installtions; groundwater monitoring and sampling events; and product recovery, including regulator reporting.

TCEQ Texas Risk Reduction Program (TRRP) Investigations and Report Preparation – Texas
Project manager for numerous Formerly Used Defense Sites, including solid waste management units, Dona Ana and MacGregor missile ranges and retail dry cleaning facilities under the TRRP and Voluntary Cleanup Program. Soil boring installation included geoprobe, hollow-stem, solid-flight, air rotary and mud-rotary drilling. Groundwater monitoring and sampling included hand-bailing, vacuum enhanced recovery and low-flow techniques.

Alfonso A. Soto, P.E., BC. GE, F.ASCE

GEOTECHNICAL TASK LEADER/SENIOR PRINCIPAL

PROFESSIONAL EXPERIENCE

Alfonso A. Soto, P.E., BC.GE, F.ASCE, is a Senior Principal and Geotechnical Services Manager in Terracon's Pharr office with more than 30 years of experience providing geotechnical engineering services throughout Texas. His experience includes subsurface exploration, geotechnical evaluations, foundation design, pavement design, site development, and construction support for municipal, transportation, educational, commercial, industrial, and public infrastructure projects.

Mr. Soto has extensive experience evaluating shallow and deep foundation systems for compressive, uplift, and lateral loading conditions, conducting roadway soil surveys, and developing geotechnical recommendations for site preparation, pavements, and foundations. He has served clients on a wide range of projects, including public facilities, water and wastewater infrastructure, transportation improvements, educational campuses, commercial developments, and utility facilities. His experience also includes forensic investigations and foundation design for transmission lines, electrical substations, and telecommunications structures. Through these projects, Mr. Soto has developed a strong understanding of the geotechnical conditions and construction challenges commonly encountered throughout South Texas.

PROJECT EXPERIENCE

City of Edinburg Geotechnical, Construction Materials Testing and Engineering Services – Edinburg, Texas
Mr. Soto served as the lead geotechnical engineer for numerous City of Edinburg infrastructure improvement projects. His responsibilities included geotechnical investigations, subsurface exploration, pavement design recommendations, and construction support services for roadway, drainage, utility, water, and wastewater improvements throughout the City.

Regional Detention Pond-Edinburg, Texas
Mr. Soto served as the Project Manager and lead geotechnical engineer for the development of a regional detention pond facility in Edinburg, Texas. His responsibilities included subsurface exploration, laboratory testing, geotechnical evaluations, and preparation of engineering recommendations to support drainage and flood mitigation improvements.

Hidalgo County Courthouse – Edinburg, Texas
Mr. Soto served as the lead geotechnical engineer during the design and construction of the new Hidalgo County Courthouse in Edinburg, Texas. His responsibilities included subsurface exploration, laboratory testing, geotechnical evaluations, and foundation recommendations for this major public facility.

Martin Reyes, E.I.T.

GEOTECHNICAL PROJECT MANAGER

PROFESSIONAL EXPERIENCE

Mr. Reyes is the Group Manager for Terracon's Geotechnical Services Group in the Pharr office and has more than 25 years of experience specializing in geotechnical engineering, construction materials engineering and testing, pavement design, and foundation engineering. His experience includes geotechnical investigations, subsurface exploration, pavement evaluations, earthwork operations, shallow and deep foundation systems, and construction-phase observation and testing for municipal, commercial, industrial, educational, transportation, and water and wastewater infrastructure projects.

As Group Manager and Project Manager, Mr. Reyes is responsible for overseeing geotechnical investigations, construction materials testing programs, field and laboratory operations, resource management, technical reviews, and project coordination with owners, contractors, and design professionals. His experience includes foundation recommendations, pavement design, quality assurance testing, construction observation, and engineering support for roadway improvements, public facilities, utility infrastructure, land development, and large-scale capital improvement projects throughout South Texas.

PROJECT EXPERIENCE

Hidalgo County Courthouse – Edinburg, Texas
Mr. Reyes served as the Geotechnical Project Manager for the new Hidalgo County Courthouse in Edinburg, Texas. His responsibilities included managing subsurface exploration, laboratory testing, geotechnical analyses, and coordination of foundation and pavement recommendations for this major public facility.

Pharr Multi-Use Facility – Pharr, Texas
Mr. Reyes served as the Geotechnical Project Manager for the City of Pharr Multi-Use Facility. The project consists of an approximately 80,924-square-foot, two-story event center with associated pavements and site improvements. His responsibilities included oversight of geotechnical investigations, engineering evaluations, foundation recommendations, and construction support services.

Public Safety Facility – Brownsville, Texas
Mr. Reyes served as Geotechnical Project Manager for the City of Brownsville Public Safety Facility. The project includes an approximately 71,000-square-foot, two-story public safety building, a communications tower, detention facilities, and associated site improvements. His responsibilities included managing subsurface exploration, geotechnical analyses, and foundation recommendations to support design and construction activities.

Adamari T. Davila, P.E.

GEOTECHNICAL PROJECT MANAGER

PROFESSIONAL EXPERIENCE

Adamari Davila is a licensed Professional Engineer with over five years of experience in geotechnical engineering, specializing in site investigations, foundation design, pavement design, and construction materials testing across South Texas. Ms. Davila manages a range of geotechnical projects, including planning and coordinating subsurface explorations, overseeing drilling and field activities, and evaluating soil and groundwater conditions. She performs engineering analyses using field and laboratory data to develop practical and cost-effective recommendations that support design and construction.

Her responsibilities include preparing and reviewing geotechnical reports, proposals, and cost estimates, as well as coordinating with clients, contractors, and design teams to address project requirements. She also oversees project budgets, maintains client relationships, and supports construction by evaluating subgrade conditions and recommending remediation when needed.

Ms. Davila has experience leading geotechnical and materials testing efforts while supervising technical staff and ensuring quality and consistency across project deliverables.

PROJECT EXPERIENCE

Landmark Elevated Water Storage Tank – McAllen, Texas
Adamari Davila provided geotechnical engineering services for the Landmark Elevated Storage Tank project. Her responsibilities included reviewing field and laboratory data, performing geotechnical analyses, and developing updated design recommendations for the tank's foundation system.

Lift Station – Idela Avenue – McAllen, Texas
As the Geotechnical Project Manager, Adamari Davila led geotechnical efforts for the McAllen PUB South Wastewater Treatment Plant Lift Station project. She oversaw drilling operations and laboratory testing, and provided foundation recommendations and geotechnical considerations for the replacement of the existing lift station.

Downtown Brownsville Street Reconstruction – Brownsville, Texas
Adamari Davila supported geotechnical services for the Brownsville PUB Downtown Street Reconstruction project. She managed field exploration and laboratory testing activities and developed recommendations for pavement reconstruction and drainage system installation.

Mustapha ‘Sam’ Rahmaninezhad, Ph.D., P.E., M. ASCE

GEOTECHNICAL PROJECT MANAGER

PROFESSIONAL EXPERIENCE

Mustapha “Sam” Rahmaninezhad., is a Senior Geotechnical Engineer in Terracon’s Pharr, Texas office, where he leads the technical execution of geotechnical projects across the region. He is responsible for developing project scopes, cost estimates, schedules, and specifications, as well as analyzing field and laboratory data to prepare engineering calculations and geotechnical reports. His work provides critical recommendations for foundation systems, pavement design, and earthwork considerations. As a licensed Professional Engineer, Sam also supervises and mentors field staff, including graduate engineers, technicians, exploration crews, and laboratory personnel. His strong technical background, leadership, and attention to detail contribute to the successful delivery of both public and private sector projects.

PROJECT EXPERIENCE

Union Water Supply Corporation Treatment Plant – Weslaco, Texas
Served as Project Manager overseeing subsurface exploration, laboratory testing, and geotechnical analysis to develop foundation and site preparation recommendations supporting the construction of the treatment plant and related infrastructure.

Edinburg Wastewater Treatment Plant – Edinburg, Texas
Managed geotechnical investigations, soil classification, and engineering evaluations to provide recommendations for structural foundations, site grading, and pavement systems for the new wastewater treatment facility.

City of Alice Treatment Plant Building – Alice, Texas
Directed field exploration, soil sampling, and engineering assessments to recommend suitable foundation systems, pavement sections, and site improvements for a municipal treatment plant building.

Edinburg Drainage Improvements – Edinburg, Texas
Led geotechnical engineering services including subsurface investigations, laboratory soil testing, and pavement design recommendations to support stormwater drainage infrastructure upgrades.

WORK HISTORY
Terracon Consultants Inc., Geotechnical Specialist 2013 – Present

South Texas College, Tutor 2012 -2013

PROFESSIONAL EXPERIENCE

Mrs. Chacón is a Geotechnical Specialist in the firm's Pharr office. Her training includes geotechnical design, site investigation and subsurface exploration for public works, educational, commercial and residential projects.

Stephany's experience includes performing geotechnical investigations to recommend foundation systems for various types of facilities. These structures have been supported on mats, slabs-on-grade, spread footings piles, and drilled piers. These facilities generally require recommendations for site preparation including grading/leveling the site, pavements for parking and driveways, and expansive soil evaluations. Stephany has also performed the geotechnical investigations for street and drainage projects to provide soil recommendations for roadways, pavements and utility lines.

PROJECT EXPERIENCE

UT System -South Texas Medical Academic, Edinburg, Texas
Performed a geotechnical engineering study for the construction of the new South Texas Medical Academic Building located within the grounds of The University of Texas Pan American. The project includes the construction of a three-story and a single-story academic buildings supported on deep foundations and associated pavements/parking areas.

Edinburg Consolidated Independents School District - LBJ Elementary Gym Improvements – Edinburg, Texas
Performed a geotechnical engineering study for the additions to the existing LBJ Elementary Gymnasium.

State Highway 365 (SH-365) – Hidalgo County, Texas
Mrs. Chacón was the assistant geotechnical engineer during a geotechnical investigation and provided foundation design recommendations for the proposed SH 365 - Segment 1 to be located in Hidalgo County, Texas. This 7.5-mile highway will include several bridge and retaining wall structures as well as the relocation of two existing levees. Terracon provided minimum recommendations required to satisfy sliding, overturning, bearing capacity and global stability for the Mechanically Stabilized Earth (MSE) walls. We also conducted seepage, levee global stability and settlement analysis for the proposed levees.

Martinal – FM 511 Waterline Loop – Brownsville, Texas
Performed a geotechnical engineering study for the installation of pipelines along and across existing roads and canals within the limits of the City of Brownsville.

City of Pharr -Pharr/Reynosa Bridge Lane Expansion - Pharr, Texas
Performed a geotechnical engineering study for the Pharr-Reynosa Bridge Lane Expansion. The project includes the lane expansion of the Pharr-Reynosa International Bridge.

Guadalupe (Lupe) Leal

CONSTRUCTION MATERIALS TESTING TASK LEADER MANAGER

PROFESSIONAL EXPERIENCE

Guadalupe Leal, Senior Associate, serves as the Construction Materials Department Manager in Terracon's Pharr office and has more than 25 years of experience providing quality control testing, inspection, and construction materials engineering services for public and private sector projects. His experience includes management of construction materials testing programs, field and laboratory operations, quality assurance inspections, and coordination of testing services for commercial, industrial, transportation, educational, and municipal infrastructure projects.

As Department Manager, Mr. Leal oversees daily operations, staff development, technician training, project scheduling, and quality assurance programs while supporting clients throughout all phases of construction. He is experienced in field and laboratory testing, inspection, and reporting procedures in accordance with AASHTO, ASTM, and TxDOT standards. His expertise includes earthwork, concrete, asphalt, structural steel, and masonry testing and inspection, helping ensure projects are constructed in compliance with applicable specifications and quality requirements.

PROJECT EXPERIENCE

Solid Waste Management Facility - Edinburg, Texas
Mr. Leal was the Construction Materials Testing Project Manager during the construction of a new Solid Waste Management Facility located near the intersection of Redbird and Jasman Street in Edinburg, Texas. Seven structures are included in this project varying in plan area from approximately 3,000 to 25,000 square feet (sf). Terracon's involvement included providing field and laboratory quality control testing services for the duration of the project.

South Middle School Traffic and Circulation Improvements - Edinburg, Texas
Mr. Leal was the Construction Materials Testing Project Manager during the improvements on the parking lot located at South Middle School in Edinburg, Texas. Terracon's involvement included providing the field and laboratory quality control testing for the duration of the project.

City of McAllen - City of McAllen, Texas
Project manager on all construction materials testing for the City of McAllen including, but not limited to, South Texas College West, Village Center Subdivision, Taylor Commercial Point Subdivision, Palms Tower, Live Oak Subdivision, and currently Citrus Grove, Charlie's Freedom Station, Asian Garden, Sam's and Valencia Market Place

Jorge L. Perez

CONSTRUCTION MATERIALS TESTING PROJECT MANAGER

PROFESSIONAL EXPERIENCE

Mr. Perez is a Group Manager in Terracon's Pharr office and has more than 11 years of experience in construction materials engineering and testing, quality assurance, and construction inspection services. His experience includes management of field and laboratory testing programs for soils, concrete, asphalt, structural steel, and other construction materials for municipal, transportation, commercial, industrial, and public infrastructure projects. He is responsible for project management, engineering support, resource allocation, staff supervision, equipment calibration programs, and coordination of construction materials testing services throughout all phases of construction. In addition to his construction materials engineering experience, Mr. Perez has participated in geotechnical engineering investigations, including subsurface exploration, geotechnical evaluations, report preparation, foundation recommendations, and pavement design under the supervision of senior geotechnical engineers. His diverse project experience and technical background allow him to effectively support clients in evaluating project conditions, maintaining quality standards, and achieving successful project outcomes.

PROJECT EXPERIENCE

City of Edinburg - Tule Recreation Center
Mr. Perez was the Construction Materials Testing Manager during construction of an approximately 28,000sf metal frame building with CMU exterior, 60,000sf of asphaltic pavements and related utilities and drainage improvements.

City of Edinburg - Lull Subdivision Improvements
Mr. Perez was the Construction Materials Testing Manager during the construction of the demolition and reconstruction of approximately 17,700LF of asphaltic pavement, including preparation of the subgrade and flexible base. 52,000sf of concrete driveways impacted will also be reconstructed and tested along with curb & gutters, and inlets. Sidewalk testing is included as an alternate.

City of Edinburg - Las Encinitas Subdivision Phase II
Mr. Perez was the Construction Materials Testing Manager during the construction of a new subdivision that include roadways and related subdivision facilities.

City of Edinburg - Las Rogers Coves Phase A
Mr. Perez was the Construction Materials Testing Manager during the construction of a new subdivision that include roadways and related subdivision facilities.

City of Edinburg - Russell Subdivision Park Subdivision Phase III & IV
Mr. Perez was the Construction Materials Testing Manager during the construction of a new subdivision that includes roadways and related subdivision facilities.

City of Edinburg - Ensenada Estates
Mr. Perez was the Construction Materials Testing Manager during the construction of anew subdivision that includes roadways and related subdivision facilities.

CONSTRUCTION MATERIALS TESTING PROJECT MANAGER

PROFESSIONAL EXPERIENCE

Mr. Flores is a Project Manager in Terracon's Pharr office with extensive experience managing construction materials engineering and testing services for municipal, transportation, commercial, industrial, educational, and public infrastructure projects throughout South Texas. His experience includes the oversight of field and laboratory testing programs for soils, concrete, asphalt, structural steel, masonry, and earthwork construction activities. He is responsible for project planning, scheduling, resource coordination, quality assurance, and direct communication with clients, contractors, and project teams.

As a Project Manager, Mr. Flores provides engineering support and manages all phases of construction materials testing projects, including field operations, laboratory activities, equipment calibration programs, and staff supervision. His experience also includes geotechnical investigations, subsurface evaluations, foundation recommendations, pavement design support, and technical report preparation. His diverse background allows him to successfully support project teams from preliminary site evaluation through construction completion while helping clients achieve quality, schedule, and budget objectives.

PROJECT EXPERIENCE

U.S. Army Corps of Engineers – Illinios, Iowa, La Porte, Galveston, and South Texas
George provided CPT services for Corps of Engineers levees and Border Wall. He supervised two drilling crews in Fort Hancock and Fabens, Texas. He also supervised a drilling crew and served as Site Safety Officer in La Porte, and Galveston, Texas.

Remote Video Surveillance System (RVSS) Towers – South Texas
George provided field service coordination for the geotechnical investigations of more than 80 surveillance and communication towers in various counties including Hidalgo, Starr, Cameron, Brooks, Kennedy, Willacy, and Webb Counties.

Arroyo Colorado Levee Projects – Hidalgo and Cameron Counties, Texas
George provided field service coordination and supervision for the geotechnical investigations to determine levee compliance with U.S. Army Corp of Engineers design standards including performing in-situ testing.

Protective Fence-Upper Rio Grande Valley, Texas
George provided field service coordination for the geotechnical investigations for the construction of sections of a pedestrian/aesthetic fence in various locations in the lower Rio Grande Valley, Texas.

Eloy Palacios

ENVIRONMENTAL SERVICES

PROFESSIONAL EXPERIENCE

Eloy Palacios has over eleven (11) years of experience in environmental and geotechnical engineering services for Terracon's office in Pharr, Texas. Mr. Palacios has performed over 200 Phase I environmental site assessments (ESAs) and logged for the geotechnical engineering services throughout Texas and Mexico. His Phase I experience includes numerous industrial, manufacturing and retail facilities. Mr. Palacios logging geotechnical engineering experience includes drilling operations in industrial and retail buildings and bridges.

Mr. Palacios is a Texas Department of State Health Services licensed asbestos consultant. He has provided asbestos consulting services in south Texas, for numerous school districts, colleges, and universities. Mr. Palacios is also a Texas Department of State Health Services licensed mold consultant. He has conducted numerous mold inspections throughout the area for educational facilities.

PROJECT EXPERIENCE

El Centro Mall/Pharr Town Center – Edinburg, Texas
Provided asbestos testing surveys and monitored abatement during the demolition of El Cento Mall, now the Pharr Town Center in Pharr, Texas.

Environmental Site Assessments – South Texas
Project Manager and assisted environmental professional to provide ESAs throughout south Texas. Specific project responsibilities included site inspections, review of historical information, and review federal and state databases specifically in Rio Grande Valley. The Phase I ESAs was performed in accordance with industry recognized ASTM environmental site assessment guidelines and specific client requirements. Project experience includes a wide range of industrial, commercial, and retail facilities.

Hidalgo County Court House – Edinburg, Texas
Performed an asbestos survey and assisted in the collection of approximately 200 ACM samples for an approximately 8,000 square foot building. The survey areas included offices, courts rooms, general common areas, and mechanical rooms.

Harwell Middle School Edinburg CISD – Edinburg, Texas
Eloy conducted a limited AHERA-asbestos containing building materials (ACBM) survey of future renovation areas within Harwell Middle School located at 801 East Canton Road in Edinburg, Texas.

ENVIRONMENTAL SERVICES

PROFESSIONAL EXPERIENCE

Tomas Cruz has over 20 years of direct experience in environmental consulting, geotechnical soils logging and construction materials testing services. Mr. Cruz is a Texas Department of State Health Services licensed asbestos consultant. Tomas has performed phase I environmental site assessment (ESA-I) investigations, subsurface soil and groundwater ESA-II investigations, landfill liner construction quality control/assurance (CQC/CQA) and facility post-closure gas and groundwater monitoring, indoor air quality, lead-based paint survey, and other risk-based assessments for projects in the southern U.S. and Mexico.

PROJECT EXPERIENCE

UTRGV – Edinburg, Texas
Performed ESA-I consulting services for campus new building pre-development due diligence at 1201 W. University Drive in Edinburg, Texas.

UTRGV – Brownsville, Texas
Performed ESA-I, general occupancy indoor air quality and mold assessment, and geotechnical engineering soils logging consulting services for campus new building pre-development due diligence at 1 W. Univrsity Boulevard in Brownsville, Texas.

South Texas College – McAllen, Texas
Performed general occupancy indoor air quality and mold assessment consulting services for representative areas throughout the school campus buildings at 3201 W. Pecan in McAllen, Texas.

Nikki Rowe High School, McAllen ISD – McAllen, Texas
Performed general occupancy indoor air quality and mold assessment consulting services for representative areas throughout the school campus buildings at 2101 N. Ware Road in McAllen, Texas.

Fossum Middle School, McAllen ISD – McAllen, Texas
Performed ESA-I and ESA-II consulting services for school site pre-development due diligence at 7800 N. Ware Road in McAllen, Texas.

SECTION 4
REFERENCES

Provide at least three references (names and current phone numbers) from recent work and list all past projects with the City of Edinburg for each team member. Include a brief description of the projects associated with the reference, and the role of the individual.

Terracon prides itself on its relationships with clients in the City of Edinburg and throughout the Valley, please feel free to contact our references. Please refer to Section 2 for project descriptions associated with these references.

City of Edinburg 415 W. University Drive Edinburg, Texas 78540	Mr. Mardoqueo Hinojosa, P.E. (956) 388-8955 mhinojosa@cityofedinburg.com
City of McAllen 1300 Houston Avenue McAllen, Texas 78501	Mr. Eduardo Mendoza, P.E. (956) 681-1151 edmendoza@mcallen.net
City of Brownsville 404 E. Washington Street Brownsville, Texas 78520	Mr. Doroteo Garcia, P.E. (956) 541-1012 (956) 542-7843 Fax doro@cob.us

In addition, please see reference letter from Zef Mendoza, Jr., Construction Manager for City of McAllen.

To Whom It May Concern:

Please accept this letter as my professional recommendation of Terracon Consultants, Inc. Terracon has been proving services to City of McAllen since 2009. These have included geotechnical engineering and materials testing among other services. Their performance has exceeded our expectations. Their staff is professional, amicable, and easily approachable. Their high-quality services are performed promptly, their prices reasonable, and with complete transparency. It has been a true pleasure collaborating with them.

Therefore, I highly recommend Terracon Consultants, Inc. I have no doubt their services will add great value to your business endeavors. The City of Mc Allen has worked with the firm in the past and would gladly work with them again in the future.

Regards,

Zef Mendoza, Jr.
Construction Manager

Section 5:
Insurance

SECTION 5
INSURANCE

Provide information on the types and amounts of insurance carried by the PSP, including General Liability, Auto Coverage, Worker's Compensation, and Professional Liability Coverage. A list of any insurance claims against the firm within the past 5 years.

Terracon is a large consulting engineering firm specializing primarily in geotechnical, environmental and construction materials engineering services. Like other firms who provide similar services, we are subject to periodic claims and litigation from time to time. Terracon carries a program of liability insurance to protect against claims arising from its services. Terracon has been very successful in defending itself against claims and in many of these cases, has been completely vindicated. In general, Terracon does not provide information on individual claims or litigation due to the confidentiality and sensitivity of this information. It is the opinion of Terracon senior management that no claim or litigation currently pending will have any effect on Terracon's ability to provide any required services or in any way affect the financial viability of the firm. Please contact Mike Yost at our corporate office for further information at 913-599-6886.

Our firm maintains complete insurance coverage for commercial and professional liability. The firm's commercial, professional, automobile liability coverages are provided by Lockton Companies. Our Worker's Compensation and Automobile Insurance is provided through Liberty Mutual.

Commercial, Professional, Automobile and Workers Compensation Liability
Lockton Companies
444 W. 27th Street, Ste. 900
Kansas City, MO 64112-1906
(816) 960-9000

If selected as your consultant, our agents will forward the City of Edinburg completed copies of our insurance certificates.

Section 6:
Professional Services Agreement

SECTION 6
PROFESSIONAL SERVICES AGREEMENT

Provide a statement that the Professional Services Agreement has been read, that the firm will meet the prerequisite insurance requirements, and the firm, if selected, agrees to enter into such agreement.

Terracon has reviewed the Professional Services Agreement and confirms that it meets the prerequisite insurance requirements. If selected, Terracon agrees to enter into the agreement subject to the exceptions outlined in the attached Exception Memorandum.

TO: City of Edinburg, Texas
FROM: Terracon Consultants, Inc.
DATE: July 1, 2026
RE: Request for Qualification 2026-4 = Geotechnical Engineering and Construction Materials Testing Services

---

Terracon Consultants, Inc. ("Terracon" or "Contractor") has reviewed the Request for Qualification provided by the City of Edinburg, TX ("City") and respectfully requests the following modifications to the Agreement Between the City of Edinburg and Consultant for Geotechnical Engineering Services:

- SECTION VII MINIMUM INSURANCE REQUIREMENTS
  - In Subsection F line 2 – please include "(except Professional Liability)" after "additional insured"

Terracon's professional liability policy provides coverage only for claims arising out of the rendering of professional services that the insured is legally qualified to perform in its capacity as an engineer. Our clients generally are not performing professional services and therefore do not bear the risk that the policy is designed to cover, and therefore would receive no protection by being named an additional insured. Further, naming a client as an insured on a professional liability policy could cause the standard "Insured v. Insured" policy exclusion to apply, potentially compromising coverage for a client's negligence claim against the insured. Therefore, commercially available professional liability insurance policies do not provide for additional insured status

- SECTION VII MINIMUM INSURANCE REQUIREMENTS
  - Please delete Subsection D.

This change is consistent with previous agreements between Terracon and the City. Terracon's Comprehensive General Liability policy has been accepted as having broad enough coverage to forego the need for additional policies.

Terracon has no other concerns with or objections to this RFQ and the requested changes are consistent with previous agreements between Terracon and the City. Terracon's proposal is not contingent on these changes being made and will work with the Community to come to mutually agreeable contract terms. If you have any questions or concerns about this memo, please do not hesitate to contact Vinnie Iuppa in the Legal Department. He can be reached directly by email at Vinnie.iuppa@terracon.com or by phone at (913) 396-6932.

July 14, 2026

Reference: City of Edinburg // RFQ 2026-4 // Request for Qualifications - Geotechnical Engineering and Construction Materials Testing Services

Dear Mardoqueo, Lorena, and Selection Committee,

With more than **28 years in business**, UES is pleased to submit our qualifications in response to the City of Edinburg's RFQ 2026-4, Request for Qualifications - Geotechnical Engineering and Construction Materials Testing Services. In October 2024, we expanded our operations with the opening of a **fully equipped office and laboratory in the Rio Grande Valley**. Since then, we have proudly supported local public agencies such as the City of Primera, City of Combes, Cameron County, Vanguard Academy, and Harlingen CISD. In addition to the materials included in this qualifications package, we highlight the following key advantages:

Statement of Interest and Commitment

UES expresses our interest in providing geotechnical engineering and construction materials testing services on an as-needed basis to the City of Edinburg. Geotechnical engineering and construction materials testing are critical to infrastructure safety and longevity, and we deliver accurate, reliable results in accordance with industry standards. **UES will be made available to the City of Edinburg and intends to perform geotechnical engineering and construction materials testing, and environmental services on an as-needed basis.**

Unique Qualifications

In-House Capabilities and Rapid Response: UES owns **23 different drill rigs** combined in Texas, with more support from our national team if required. These track, ATV, and truck-mounted rigs allow us to dispatch any combination of the rigs needed to meet any schedule. UES also maintains **in-house, full-service laboratories** in our office locations. Our laboratories are certified and accredited by third party agencies, like AASHTO, validated through USACE, and some labs are certified through TxDOT.

Extensive Municipal Experience: UES has a strong history of supporting municipal infrastructure, public buildings, and capital improvement projects. Our portfolio includes successful partnerships with the City of Primera, City of Combes, Cameron County, Hidalgo County, City of Corpus Christi, and City of Portland.

Availability, Commitment, and Management Structure

Commitment to Communication and Responsiveness: UES proposes **James Bauer, PE**, Gulf Coast/South Texas Area Manager as the primary point-of-contact for this contract. James has the authority to bind the firm in a contract and will assist with contract negotiations. The City can count on our South Texas team to deliver exceptional results for each awarded project.

Expanded Resources: With a workforce of more than **800 personnel statewide** and a **national team of over 4,200 professionals**, UES is equipped to meet the City of Edinburg's needs without compromising service on other projects.

This qualifications package further demonstrates our ability to provide the City of Edinburg with quality service and the required level of expertise needed to be included as a trusted partner for future projects.

Sincerely,

UES

James Bauer, PE // Gulf Coast/South Texas Area Manager
11818 West Business Hwy 83, Unit 1, La Feria, Texas 78559
jbauer@teamues.com // 956.201.4797 // Fax: N/A

2. FIRM QUALIFICATIONS AND EXPERIENCE

FIRM'S EXPERIENCE AND HISTORY

UES was **founded in 1998** and is a registered **State of Texas Engineering Firm (#2101)**, with laboratories holding USACE validation, AASHTO accreditation, and TxDOT laboratory certifications. UES is a geotechnical engineering, materials testing, and environmental services firm and also holds TxDOT pre-certifications in the Materials Testing and Inspection and Geotechnical Engineering categories. Having served the Texas educational community for over **28 years**, UES is ready, willing, and able to provide geotechnical engineering, material testing, and environmental services (and geophysical services if needed) to the City of Edinburg from our **La Feria and Corpus Christi offices and accredited laboratory**.

UES was formerly known as **Rock Engineering and Testing, Inc.** In July 2022, Rock Engineering joined the Universal Engineering Sciences (now UES) family of companies, merging Rock Engineering's Texas expertise with the UES national footprint and resources. Since then, we have been joined by the former Alpha Testing, Riner Engineering, and InControl Technologies. Rock Engineering and our partner firms officially became UES in early 2024. As UES, our teams and resources have integrated to create the largest, most technically qualified geotechnical engineering, construction materials testing, and environmental services firm in Texas. Our Corpus Christi and La Feria teams of 44 include licensed Texas Professional Engineers, certified engineering technicians, ICC special inspectors, Engineers-in-Training, and certified welding inspectors - all available to continue to serve the City of Edinburg.

Core Services

Geotechnical Engineering

UES provides geotechnical drilling, laboratory, and engineering services from each of our offices, including company-owned geotechnical drill rigs with TxDOT cone penetrometer capabilities. Services include subsurface exploration, laboratory analysis, and engineering design recommendations, provided by Texas-registered professional engineers.

Construction Materials Engineering and Testing

Our in-house trained ACI, NICET, and TxDOT certified engineering technicians perform testing in accordance with the latest ASTM and TxDOT procedures. Our laboratory, equipment and staff have been inspected by CCRL (concrete) and AMRL (soil) as part of the AASHTO Accreditation program, has been validated by the U.S. Army Corps of Engineers, and certified by TxDOT. We also regularly participate in the AASHTO Sample Proficiency Program. All operations are conducted under the direct supervision of a licensed Professional Engineer.

Environmental Services

UES provides comprehensive environmental consulting and engineering services. These projects range from initial site assessment to managing any necessary environmental remediation (including asbestos, mold, and lead), and, finally, to strategically obtaining site closure.

Geophysical Technologies (Virtual Design Consulting)

UES provides Geophysical Capabilities (Virtual Design Consulting) focused on Subsurface Information Modeling (SIM), Utility Mapping (SUM), and Utility Engineering (SUE). In addition to an accurate electronic representation of utilities, SIM may also include points of interest like depth to bedrock, unsuitable soils, and underground storage tanks.

Firm State Registrations, Licenses, and Accreditations

Texas Registration License

UES is a registered Texas engineering firm (TBPELS #2101). UES provides proof of our firm's TBPELS license, below.

Texas Board of Professional
Engineers and Land Surveyors

CERTIFICATE OF REGISTRATION

This acknowledges that

UES Professional Solutions 45, LLC

has fulfilled the requirements of the Texas Board of Professional Engineers
and Land Surveyors to offer and perform engineering services in the state of Texas.

Registration Number
F-2101

Expiration Date
11/30/2026

Laboratory Accreditations

UES' laboratories are accredited through the American Association of State Highway & Transportation Officials (AASHTO) and participates in the proficiency testing programs for Cement & Concrete Reference Laboratories (CCRL) and AASHTO Materials Reference Laboratories (AMRL). Our lab also holds United States Army Corps of Engineers (USACE) validation, and our firm holds Texas Department of Transportation (TxDOT) pre-certifications.

All testing equipment in UES' laboratories is calibrated on an annual basis using traceable standards (NIST or NSTL). Calibrations are confirmed by CCRL and AASHTO on a bi-annual basis during third-party inspections. All laboratory testing is performed under the supervision of a Texas-registered PE. UES adheres to applicable ASTM, AASHTO, and/or TxDOT equipment and test requirements for all tests performed. UES can provide a copy of our laboratory credentials upon request.

AASHTO ACCREDITED

Texas Department of Transportation

PERFORMING ENGINEERING SERVICES IN A TIMELY MANNER

Providing Quality Services and Overall Performance

UES understands that the City of Edinburg is establishing a pool of engineering and architectural firms capable of supporting a wide range of education projects with rapid, high-quality technical services. Within this pool, UES is seeking to provide geotechnical engineering, construction materials testing, environmental, and building envelope support.

Our approach focuses on responsiveness, technical accuracy, and compliance with applicable standards. For geotechnical services, UES provides subsurface investigations, foundation and pavement recommendations, and design-phase consultation to help the City make informed decisions early in each project. Our accredited laboratories and certified technicians deliver construction materials testing and inspection services that verify compliance with project specifications, support contractor quality control, and document results in accordance with FEMA, FHWA, TxDOT, GLO, and other funding agencies' requirements.

For environmental services, UES uses a structured, compliance-driven methodology to perform asbestos consulting services from initial authorization through inspection, sampling, protocol development, third-party monitoring, and closeout. Our process begins with prompt coordination, confirmation of scope, and safe mobilization using trained personnel, required PPE, and site-specific planning.

Across all services, UES emphasizes responsiveness, timely communication, thorough documentation, and consistent execution, with the ability to mobilize quickly to support evolving project needs across multiple project types and facility conditions.

IDIQ/On-Call/Pool Experience

UES brings decades of on-call experience across Texas, enabling us to respond quickly to client needs. With in-house geotechnical, materials testing, environmental, drilling, and laboratory teams, we control our own schedules and can mobilize staff, often the same day, without relying on subcontractors. This structure allows us to begin fieldwork promptly, accelerate testing and reporting when needed, and consistently meet budget and schedule expectations. **Our proven performance on statewide and IDIQ contracts demonstrates our ability to deliver timely, coordinated support for the City of Edinburg on any request.**

Familiarity with Local Conditions/Requirements

Due to prior experience and a local footprint, UES understands the City's permitting processes and how to best communicate with the entire team. **This will enable us to get a jump start on varying project items to help everyone stay on schedule.**

UES is familiar with the specifications and sampling frequencies of the Coastal Bend area construction materials. We work closely with the design team during the design phase of each project during the geotechnical investigations and coordinate with the design team and the City of Edinburg departments throughout the contract. We understand critical infrastructure, drivers, and relevant policies in completing work for the City.

Much of our work has occurred in the Coastal Bend area. All our key team members assigned to this contract have worked extensively on projects within in and around the City of Hidalgo and are highly familiar with the soils here.

Meeting Deadlines and Schedules

The best way UES can expedite project close out is by assigning a team to serve for the duration of the contract. UES takes the additional steps below to help ensure project completion on time. Advance notification via communication between owner, contractor or construction manager at the project level will allow UES to plan coverage for major events.

Geotechnical Engineering: UES can best assist with meeting deadlines by controlling our schedule for geotechnical engineering projects. Geotechnical projects typically fall behind due to weather such as heavy rains. UES owns and operates 23 drill rigs, which gives us the ability to dispatch multiple rigs to a site as needed to maintain schedules or recover "lost" drilling time due to wet conditions. UES employs multiple laboratory technicians that can analyze and provide test results in a timely manner.

Construction Materials Testing: UES' construction materials testing scheduling is closely tied to the contractor's schedule. We arrange our schedules in a manner that changes through the life cycle of construction. UES has the depth of resources, both personnel and equipment, to keep your project on schedule. UES routinely dispatches multiple qualified technicians to a job-site for field activities such as large concrete pours or steel inspections. UES' approach to non-compliant materials will prevent open items and reduce time delays and expenses to all parties. An example of this might be concrete that does not meet specifications.

UES staff does not and cannot refuse materials or stop work. Staff is instructed to notify on-site personnel (GC or owner) and the UES project manager of the non-compliant item. If field tests indicate a non-compliant result, UES' first response is to notify the responsible party of the result, offer an opportunity to correct the issue immediately, and to provide an immediate retest. Non-compliant materials are immediately brought to the attention of the appropriate party on-site. If an issue cannot be addressed in the field in this fashion, a non-compliant report is completed with the appropriate parties notified by voice, email, or fax as needed on that date. Once corrective measures are identified and implemented by others, UES will perform the re-test needed. Charges for the retest(s) are tracked and invoiced as agreed per the project contract.

Environmental Services: Environmental projects such as Phase I and II assessments can fall behind due to weather as well. UES asks for 48-hour notice for environmental assessments to be scheduled from notice to proceed. UES has Professional Geologists, senior project managers, and environmental scientists available to assist when needed. Asbestos consulting services typically take place on active campuses. UES prioritizes the concern for minimizing disruption to school operations. Staff and student safety is a primary concern for all work on school active campuses. UES can provide services after school hours and on the weekends if requested to maintain work schedules and minimize disruptions to school campuses.

EXPERIENCE WITH GOVERNMENTAL AGENCIES

Experience with Municipalities

UES has over 28 years of experience working with Central/South Texas governmental agencies, where we have worked with on a multitude of projects varying in similar size and scope. Some of our Central/South Texas municipal clients include:

- Aransas County
- Bee County
- Bexar County
- Cameron County
- City of Alice
- City of Aransas Pass
- City of Beeville
- City of Boerne
- City of Cedar Park
- City of Combes
- City of Corpus Christi
- City of Hutto
- City of Ingleside
- City of Ingram
- City of Kingsville
- City of Leander
- City of New Braunfels
- City of Pflugerville
- City of Port Aransas
- City of Port Isabel
- City of Portland
- City of Primera
- City of Refugio
- City of Robstown
- City of San Antonio
- City of Sinton
- Comal County
- Nueces County
- Port of Corpus Christi
- Port of Brownsville
- Refugio County
- San Patricio County

Experience with Texas Agencies

UES has extensive, demonstrated experience providing geotechnical engineering, construction materials testing, environmental services, and building envelope services. Relevant experience spans over 200 projects, including geotechnical investigation and CMT services for TxDOT (80+ projects), Texas Parks and Wildlife Department (14+ projects), Texas Historical Commission (5+ projects), Texas Facilities Commission, USACE Galveston District, and Harris County Engineering. Building envelope services are provided through Amtech Solutions, LLC, a UES company, with demonstrated experience across Texas state agencies including TDCJ and TPWD. Environmental services are supported by UES' environmental team, with on-going multi-year contracts with TCEQ and the Railroad Commission of Texas.

Our past work directly with state entities allows us to apply lessons learned, streamline coordination, and proactively address challenges. This experience helps us deliver efficiently while meeting the City's standards and expectations. Please see a sample of our previous experience working with governmental agencies, as well as projects of similar and relevant scope to that of the RFQ below and the following page.

TEXAS GENERAL LAND OFFICE - STATE VETERANS HOME HOUSTON

UES provided construction materials testing services for the Texas GLO State Veterans Home in Houston, TX in 2017. UES worked alongside Kitchell for this project. The $37 million facility was built on nearly 18 acres of land. The 129,500 gross SF, single-story community living center includes housing for over 100 residents.

TEXAS FACILITIES COMMISSION - SAN ANTONIO DPS PARKING LOT

UES provided construction materials testing services for the Texas Facilities Commission on the San Antonio DPS Parking Lot project. The scope of work included quality control testing to support improvements and additions to the existing parking lot infrastructure, ensuring compliance with project specifications and long-term performance standards.

TEXAS DEPARTMENT OF TRANSPORTATION - MULTIPLE PROJECTS

UES has been selected to provide construction materials testing, geotechnical engineering, or drilling to TxDOT on various contracts in the last nine (9) years and has served over 80 projects.

TEXAS HISTORICAL COMMISSION - MULTIPLE PROJECTS

UES has provided geotechnical and/or construction materials testing services on five (5) Texas Historical Commission projects. Projects include Collections Storage Facility in West Columbia, Landmark Inn Historic Site in Castroville, the Historic Barn at Sam Rayburn House State Historic Site in Bonham, San Felipe de Austin Visitor's Center in San Felipe, and Site Manager's Residence in Albany.

TEXAS PARKS AND WILDLIFE DEPARTMENT - MULTIPLE PROJECTS

UES has provided geotechnical and/or construction materials testing services on 14 Texas Parks and Wildlife Department projects. Projects served within the last five (5) years include: Bastrop State Park CCC Cabin 11 Erosion Control, Eisenhower State Park Restroom Replacements, Galveston Island State Park Beachside Redevelopment, Lake Somerville Trailway Bridge Replacement, Lake Raven Spillway Maintenance, and Mission Tejas State Park Utility Upgrades.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY - MULTIPLE PROJECTS

Our firm has provided comprehensive environmental services to the TCEQ for over a decade, supporting two long-standing contracts: the Dry Cleaner Remediation Program and the Petroleum Storage Tank (PST) Program. Under these contracts, our team has delivered site assessment, investigation, remediation oversight, and regulatory compliance support across numerous sites statewide.

TEXAS DEPARTMENT OF TRANSPORTATION

Our firm has built a strong, long-standing relationship with TxDOT, delivering geotechnical engineering, materials testing, and environmental services across more than 80 projects throughout Texas. Our work has supported a wide range of transportation infrastructure initiatives, from highway expansions and bridge projects to roadway rehabilitation and new construction. With a deep understanding of TxDOT's standards, specifications, and project delivery requirements, our team consistently provides reliable, high-quality results that keep projects on schedule and in compliance.

TEXAS DEPARTMENT OF CRIMINAL JUSTICE

Amtech provided structural forensic engineering services for the roof replacement project at the Texas Department of Criminal Justice's John Montford Unit in Lubbock, Texas. The scope of work consisted of removing 209,563 SF of existing roof and replacing with a single ply "cool roof" and corresponding components. Following full assessment services including testing, reporting, and cost estimating, Amtech produced design and construction documents. Amtech assisted with the bidding phase, and provided contract administration. During construction, a designated construction administration professional from Amtech was on site to monitor the project through closeout and final completion.

Project Description

UES is one of four engineering laboratories currently awarded a Master Services Agreement with the City of Corpus Christi. We have been on contract with the City since 2019.

This contract is for $1,000,000.00, with a one-year renewal option to be administratively authorized for a total amount not to exceed $2,000,000.00 each, with projects located Citywide.

Various task orders are assigned throughout the Contract for Bond Projects or Capital Improvement Projects to conduct geotechnical engineering and construction materials engineering services. UES has maintained a timely response without exceeding project budgets.

A sample list of projects we have completed include:

- Corpus Christi Police Training Academy (GEO & CMT)
- Corpus Christi Fire Station No. 3 Replacement (GEO & CMT)
- Waldron Road, City of Corpus Christi (CMT)
- Corpus Christi City Hall, Police and Municipal Court Parking Improvements (CMT)
- Williams Drive Improvements, Phase 3 (GEO)
- O.N. Stevens Fluoride Tank (CMT)
- Oso Water Reclamation Plant (CMT)
- Allison Wastewater Treatment Plant (CMT)
- Broadway WWTP Demolition (GEO & CMT)
- Coopers Boaters Facility and Parking Lot Resurfacing (GEO & CMT)
- Williams Lift Station Force Main (GEO)
- Oak Park (GEO & CMT)

Services Provided

Geotechnical Engineering // Construction Materials Testing

Project Description

UES provided geotechnical engineering and construction materials testing services for this project located in Mission, TX. The project included the construction of a single-story, school building on the eastern side of the property with a footprint of approximately 55,000 sf; two (2) sports fields including lighting on the western side of the property; and a pavement surrounding the school building and sports fields and around the entire property.

The geotechnical project scope included design recommendations for a stiffened slab-on-grade foundation using WRI criteria with a net allowable bearing pressure of 2,000 psf and 20-ft beam spacing, as well as drilled pier shaft foundations for site lighting with allowable skin friction of 300–500 psf and cohesion values of 1,200–2,000 psf.

A total of 21 borings were drilled at the site to depths ranging from 10 ft to 25 ft. Nine (9) borings were drilled at the pavements areas, two (2) borings were drilled at the sports field lighting area, and nine (9) borings were drilled at the building area. Field tests and observations such as disturbed soil sampling and groundwater observations were conducted on the sampling from the borings.

Services also included subgrade preparation and flexible and rigid pavement design recommendations, including concrete and asphalt pavement thicknesses and aggregate base thicknesses, to support site loading and traffic demands.

The CMT scope for the Monet Driveway Improvements project included concrete testing for strength verification.

Construction Cost

$750,000.00

Engineering Fee

$6,944.00 (UES fees)

Key Personnel

James Bauer, PE

Emilia Monsivais

Services Provided

Construction Materials Testing

Project Description

UES completed construction materials testing services and related inspection services for the Street Improvements project for the City of Primera. Services were provided on an as-requested basis and included field compaction testing, concrete sampling and strength verification, and coordination of specialty inspections when required.

Field technicians conducted compaction testing and other materials verification activities using calibrated equipment and standardized procedures. Concrete sampling and testing were performed in general accordance with ASTM requirements, with coordination between the contractor and project team to address field curing provisions. Testing activities were scheduled to align with construction progress to minimize disruption while maintaining quality oversight.
